(SEPT. 9) UPI - In the thick of a pennant race, the New York Mets and Pittsburgh Pirates looked toward two players they've counted on the most this season to come through in the clutch. And on Saturday night, Dwight Gooden and Doug Drabek didn't let their teammates down.

Gooden helped end New York's five-game losing streak by tossing a five hitter in the Mets 12-2 mauling of the Philadelphia Phillies.

Meanwhile, Drabek became the National League's first 19-game winner when he combined on a nine-hitter with reliever Bob Patterson in a 6-1 victory over the Montreal Expos.

The Pirates' seventh victory in eight games enabled them to maintain a 3 1-2-game lead over the New York Mets in the NL East.

Although the Mets didn't gain ground, getting the victory was important enough.

''That was just what the doctor ordered,'' said New York Manager Bud Harrelson, who might have just as well have been referring to Gooden as the stopper, as well as an offense that awoke after scoring just two runs over the five-game skid. ''Our guys are laughing again.''

Gooden, 16-6, came up with a win for the 10th time this season following a New York loss. The right-handed ace struck out nine and walked two in

posting his second complete game of the year.

''I couldn't find myself in the first inning,'' said Gooden who allowed two first inning runs. ''Then I felt good. I had a very good breaking ball and I stayed ahead of the hitters. I prefer this cooler weather, I stay stronger longer.''

Like Gooden, Drabek is Pittsburgh's cure after a defeat.

Drabek, 19-5, won for the 12th time this year after following a Pirates' loss. Pittsburgh must feel some magic when Drabek is pitching - the Pirates are 22-7 in his 29 starts.

''If I won the Cy Young Award I'd have to share it with everybody,'' he said. ''I've had help from a lot of people. Tonight they gave me an early lead, and that helps a pitcher, and they turned in some really good plays behind me.''

Andy Van Slyke, who hit a sacrifice fly and a two-run homer in the game, tried to explain why things go so well for the Pirates when Drabek pitches. ''A simplicity seems to go through the air,'' Van Slyke said. ''Doug's been our man all year, and I think you have two things happen when he pitches.

''Defensively, you know you're going to stay in the game. Everyone seems to get a chance. And you know he's going to shut down the other team so you don't have to be too tense on offense.''

For New York, Kevin McReynolds provided the offense with an RBI double and two-run homer, helping make a loser of Bruce Ruffin, 6-13.

Drabek made life tough for Montreal rookie Howard Farmer, 0-2, who took the loss.

''It was a good win for us, not for the fact the Mets also won, but that the Expos have given us all sorts of trouble,'' Van Slyke said. ''I think our biggest challenge when we go on the road next week will be going into Montreal.

''I'm not eliminating the importance of going into New York, but Montreal is always tough regardless of where they play.''

And so are Gooden and Drabek when they pitch.

-- AROUND THE NL --

In other National League games, Chicago topped St. Louis 5-4, San Francisco edged Houston 2-1 in 10 innings, Atlanta crushed San Diego 11- 5

and Cincinnati downed Los Angeles 8-4.

Cubs 5, Cardinals 4

At Chicago, Mark Grace's solo home run in the seventh inning helped rookie Dave Pavlas win his first major league victory. Pavlas, 1-0, worked two scoreless innings and Paul Assenmacher pitched the final two innings to earn his eighth save. Ken Dayley, 4-3, allowed Grace's home run and took the loss.

Giants 2, Astros 1, 10 innings

At San Francisco, Matt Williams second homer of the game helped carry San Francisco and made a winner of Steve Bedrosian, who pitched the 10th to improve to 7-8. With two outs, Williams homered off loser Brian Meyer, 0-2 for his 29th homer of the year and league-leading 107th RBI.

Reds 8, Dodgers 4

At Los Angeles, Eric Davis hit three doubles, drove in two runs, and scored three times and Randy Myers earned his 28th save to lift Cincinnati and increase its lead to 6 1-2 games over Los Angeles. Tom Browning, 13-7, topped Fernando Valenzuela, 12-12, who lasted only three innings and allowed five runs on six hits.

Braves 11, Padres 5

At San Diego, Lonnie Smith slammed a two-run homer to cap a five- run eighth inning and lift Atlanta to its eighth win in its last nine games. Jeff Parrett, 5-9, threw 2 2-3 scoreless innings for the win. Former Atlanta pitcher, Derek Liliquist, 3-9, took the loss.

(SEPT. 9) UPI - Around the world... around the clock... news from United Press International:

.

Iraqi leader Saddam Hussein is maintaining his defensive posture by blasting Presidents Bush and Gorbachev in advance of their mini-summit in Finland. Saddam told the superpower leaders they would be well-advised to keep out of the Persian Gulf. Among the threats the Iraqi leader made was the unity of the region's 200-Million Arabs against outside intervention.

Moscow and Bonn have agreed in principle for West Germany to pay part of the cost of removing Soviet troops from East Germany. But the two

governments have NOT agreed on how much money Bonn will come up with. Government sources say the Soviets want about six-point-five BILLION dollars to withdraw and relocate Red Army troops, while Bonn insists on a lower sum.

The contestant from Illinois walked off with the crown at the 70th anniversary Miss America contest. Marjorie Judith Vincent, a third-year law student at Duke University, was named the winner to cap a two-hour nationally broadcast program. Vincent wants to practice international law and assist in the economic development of her parents' homeland of Haiti.

A crowd estimated at more than 100-thousand people gathered in the Zambian capital Saturday to protest President Kenneth Kuanda's 26 years in power. The demonstrators chanted slogans against Kuanda's ruling United Independence Party while anti-government activists called for quick reforms. A vote is slated next August to determine if Zambia will allow more than one political party.

The young man from Utah who was stabbed to death in a New York subway while defending his parents last week was laid to rest Saturday in Provo, Utah. 22-year-old Brian Watkins was remembered as a person who enjoyed helping others. His brother recalled the time Watkins bought a dozen donuts for a New Yorker who said he hadN'T eaten in days. A man from Brooklyn asked the family NOT to blame all New Yorkers for Watkins' death.

A quartet of inmates at the Tennessee State Penitentiary have turned the heads of record industry folks in Nashville. The group The New Faith Singers is putting the finishing touches on a record lined up by Warner Brothers. The singers came together under the watchful eye of prison visitor Moses Dillard, a songwriter-preacher. UNlike other recording groups, it is NOT likely The New Faith Singers will take their show on the road if their sound catches on.

#90252u0225 09/09/1990 ~United Press International

BEIJING (SEPT. 9) UPI - Former Secretary of State Henry Kissinger told China's Communist Party leader Sunday that repairing Sino-U.S. relations is in both nation's interest and should not be based on granting ''favors '' Chinese officials said.

Kissinger met with Communist Party General Secretary Jiang Zemin and President Yang Shangkun on the last day of a three-day visit to China. He refused to answer questions from reporters, leaving Chinese officials to quote him on his talks.

U.S. Embassy officials said Kissinger's visit was technically private. The former secretary, who spearheaded President Richard Nixon's reopening to

China in the early 1970s, has a consulting firm doing a range of business involving China.

Kissinger, however, told Jiang his visit was ''to promote the restoration and development of Sino-U.S. relations,'' Chinese Foreign Ministry spokesman Jin Guihua told reporters after the talks at the Zhongnanhai leadership compound in downtown Beijing.

Relations between Washington and Beijing have been generally poor since the Chinese government's June 1989 suppression of the democracy movement, after which President Bush suspended high-level official visits to Beijing and imposed economic sanctions.

Speaking with Jiang, ''Mr. Kissinger said the speedy restoration and develpment of Sino-U.S. relations is in keeping with the fundamental interest of the two countries, but this does not mean who grants whom favors,'' Jin said.

Since relations palled, both Washington and Beijing have struggled for concessions from one another to edge back together, with the Chinese seeking a resumption of economic benefits and U.S. officials demanding China improve its human rights record.

Ironically, the Gulf crisis has given China an opportunity to end its international isolation. As one of five permanent members of the United Nations Security Council, China has so far supported sanctions against Iraq for its invasion of Kuwait and has also suspended its lucrative arms sales to Baghdad.

''Under the new international situation, the relations between China and the United States seem very important,'' Jin quoted Kissinger as saying.

Jiang told Kissinger that China hopes ''to resume normal Sino-U.S. relations as soon as possible through the joint efforts of both sides. This is in keeping with the fundamental interests of China and the United States.''

The substance of Kissinger's discussions with the Chinese leaders was not disclosed, but he also met with key economic officials, including State Planning Commission chief Zou Jiahua and Shanghai Mayor Zhu Rongji.

NEW YORK (SEPT. 9) UPI - An 11-year-old girl wounded by a stray bullet as she slept in her bed in a Brooklyn apartment became the latest child victim of random gunfire, police said Sunday.

The girl, who was not identified, was struck in the back by a bullet fired by a group of men arguing in front of her family's apartment in East New York, said Sgt. Nick Vreeland, a police spokesman.

The girl was asleep in a bedroom that faced the street when the bullet came through the window at 10:40 p.m. Saturday, Vreeland said.

She was taken to Brookdale Hospital where she was in stable condition.

The girl's grandmother and four brothers and sisters were in other parts of the apartment at the time of the shooting.

Police were searching for about five men in their 20s witnesses saw flee from the scene, Vreeland said.

The girl was the 15th child shot by a stray bullet since July 22 when a 9-year-old girl asleep alongside her mother in her family's car was shot and killed only blocks away from the latest shooting. Five of the children have died.

#90252u0246 09/09/1990 ~United Press International

MOSCOW (SEPT. 9) UPI - Barbara Bush implied Sunday that the Soviet Union has become part of the ''free world'' as Washington and Moscow work together toward a resolution of the Persian Gulf crisis.

Mrs. Bush, on a tour of the National Library of Finland with Raisa Gorbachev, said the two first ladies' husbands had come to Helsinki to try to avert widespread violence in the Middle East.

While President Bush and Soviet leader Mikhail Gorbachev met at the Finnish Presidential Palace, their wives had tea with Finnish first lady Tellervo Koivistso and then visited the neoclassical 19th century national library.

About 200 Helsinki residents greeted Mrs. Bush and Mrs. Gorbachev outside the Presidential Palace, some of them shouting ''Barbara, Barbara'' or ''Raisa, Raisa.''

''I hope our husbands, along with the rest of the free world, will work hard to make peace,'' Mrs. Bush told reporters at the library. ''I think there is a solution to the Persian Gulf crisis. Otherwise, we wouldn't be here.''

Mrs. Bush's comment, apparently including the Soviet Union in the free world, was yet another indication of the remarkable change in relations between the two superpowers, whose already improving ties have been

further strengthened by their common response to Iraq's Aug. 2 invasion and subsequent annexation of Kuwait.

Mrs. Gorbachev said that ''we will leave the answer to this question to the leaders of our two states, but, like all people and as citizens of our countries, we want a peaceful and political solution to this problem.''

The library visited by the first ladies was designed by Carl Ludvig Engel, the renowned Finnish architect who created the center of Helsinki. The library, part of the University of Helsinki, was completed during the reign of Russian Czar Nicholas I in 1840, when Finland was a grand duchy in the Russian Empire.

The evidently warm relationship between Mrs. Bush, who wore a royal blue dress and her trademark pearl necklace, and Mrs. Gorbachev was in marked contrast to the cool relations between the Soviet first lady and Nancy Reagan during the Reagan administration.

The red-haired Mrs. Gorbachev, wearing a gray dress with black buttons and a purple blouse, reflected domestic political pressures in her country in a comment during the library tour.

Chief librarian Esko Hakli, showing the two first ladies a 19th century map of Russia in the library's cartography collection, referred to the Asian part of the huge land that stretches across 11 time zones from the Baltic Sea to the Pacific Ocean.

''There is only one Russia, not an Asian Russia and a European Russia,'' Mrs. Gorbachev quickly remarked.

Mikhail Gorbachev has faced strong challenges to his central government as local authorities within Russia and the other Soviet republics assert their newfound rights under his political reforms.

Mrs. Bush had commented on American domestic political pressures Saturday when she visited the ancient city of Porvoo near Helsinki before the Gorbachevs arrived Saturday evening.

Mrs. Bush defended her husband's decision to take his annual August vacation in Maine in the midst of the Persian Gulf crisis, saying: ''He was not going to become a hostage in Washington to that dreadful man,'' Iraqi President Saddam Hussein.

The first lady said that President Bush spent much of his vacation talking with advisers by phone about the gulf crisis.

#90252u0273 09/09/1990 ~United Press International

BONN, WEST GERMANY (SEPT. 9) UPI - Foreign Minister Hans-Dietrich Genscher said Sunday he was confident the four World War II victorious powers will give a formal go-ahead for Oct. 3 German unification when they meet in Moscow this week.

Genscher pointed out, however, that Germany will only become a fully sovereign state after the agreement receives parliamentary ratification, a process that could last several months.

It had been assumed earlier that the wartime allies would give up their occupational rights over Germany and give the country full sovereignty on Oct. 3.

But Western diplomats said that Soviet officials insisted the agreement due to be signed in Moscow Wednesday will have to be ratified later by the Soviet parliament.

Genscher said the agreement on the external aspects of unification will also need the backing of an all-German parliament.

The Moscow meeting is expected to be the final round of the negotiations, known as two-plus-four because of the participation of the two German foreign ministers and their counterparts from the four powers - Britain, France, the Soviet Union and the United States.

Officials said the agreement was nearly complete, although the Soviet Union was still seeking guarantees that Germany's allies will not carry out military maneuvers on East German territory and that no nuclear-capable weapons systems will be deployed there.

Under terms of the agreement, Germany will be a member of the North Atlantic Treaty Organization, but no NATO troops will be deployed on East German territory until the withdrawal of Soviet troops is completed, within the next four years.

Genscher said he discussed the outstanding issues by telephone with his Soviet counterpart, Eduard Shevardnadze, and with Secretary of State James Baker Friday and Saturday.

''I believe that we will sign the final document on Wednesday,'' he told the Berliner Morgenpost newspaper.

West German Chancellor Helmut Kohl and Soviet leader Mikhail Gorbachev are also due to talk by telephone Monday to discuss Germany's participation in the costs of withdrawing the 380,000 soldiers.

Unconfirmed reports indicate the Soviet Union wants Germany to pay $11.5

billion but that Bonn is only prepared to pay about $4.5 billion.

''This is practically the price of German unification,'' Genscher said Saturday.

But in the interview published Sunday in the West Berlin daily, he added that ''It is not a question of buying German unity...''

Soviet Deputy Prime Minister Stepan Sitarjan and West German Finance Minister Theo Waigel agreed last Thursday at a meeting in Bonn on an outline for a Soviet-German agreement.

Under the agreement, a united Germany would carry part of the costs involved in pulling the troops back and would also participate in the construction of new buildings to house the returning soldiers in the Soviet Union.

In an interview with West German radio Sunday, Kohl pointed out that Soviet troops - fighting Adolf Hitler's Nazi troops - had reached Germany in 1944.

''In 1994 they will have been here for 50 years and I consider, to put it plainly, that it is not only a long time, but that it is also quite enough '' he said.

#90252u0304 09/09/1990 ~United Press International

KAMPALA, UGANDA (SEPT. 9) UPI - The Organization of African Unity called for international pressure to end fighting in South Africa and appealed for help in ending the suffering for the people of Liberia caught up in a civil war.

The statements were issued late Saturday at the end of a one-day mini-summit of the OAU ad hoc committee on southern Africa in Kampala.

The conference, attended by delegates from 15 African countries, called on the international community to put pressure on the South African government to stop the fighting in African townships around Johannesburg which has claimed hundreds of lives in recent weeks.

It condemned the role of the police ''for its encouragement and active involvement in the violence,'' and said the South African regime could not be exonerated from responsibility for the wanton killings and destruction.

The committee appealed to blacks to close ranks and present a united front. ''If this situation is allowed to continue, it will be detrimental to the anti-apartheid struggle,'' it said.

The conference also issued a statement on the civil war in Liberia. It called on the warring factions to observe an immediate cease-fire and to cooperate with the ECOWAS peace-keeping forces so that a peaceful transition to an elected government could be acheived.

''The needs of the Liberian people are basic and very urgent and it is hoped that the international community would give this serious unfolding tragedy the priority it merits,'' the statement said.

The conference also repeated pleas for the international community not to relax pressure on the South African government and to maintain sanctions against it.

Measures taken in the right direction by the South African government, the communique said, were too few and ineffectual.

''The South African apartheid regime has not conceded that majority rule nor that the new South Africa should be a united, democratic and non-racial society,'' the statement said.

''In essence, little of substance has been achieved.''

-30- 2263
#90252u0330 09/09/1990 ~United Press International
CAIRO, EGYPT (SEPT. 9) UPI - A senior exiled Kuwaiti diplomat said Sunday President Saddam Hussein of Iraq was challenging the entire world and called on the international community to put a stop to his dangerous policies.

The diplomat also confirmed reports from Saudi Arabia that Iraqi occupation forces have been moving Iraqi civilians into occupied Kuwait.

In related developments, the exiled Emir of Kuwait sent two messages to the U.S. and Soviet presidents in Helsinki urging them to take decisive action against Iraqi for its aggression against his country.

''The people of Kuwait await from this meeting a decisive stance to ensure right prevails and for the defeat of aggression,'' Sheikh Jaber al Ahmad al Sabah said in his message to President Bush.

Sheikh Jaber, who has lived in exile in Saudi Arabia since the Aug. 2 Iraqi invasion of his country, also expressed appreciation for the ''responsible role of the Soviet Union'' toward Iraq.

''We are quite confident that the summit will adopt whatever action is necessary to maintain the international legitimacy and to force the

aggressor to withdraw his forces from Kuwait,'' Sheikh Jaber's message to Bush said.

''Saddam's message is not only a challenge to the presidents of the two superpowers, but a challenge to the entire world community,'' Kuwait's Ambassador in Cairo, Abdulrazaq al-Kandari, told United Press International in an interview.

''It is a message that challenges U.N. resolutions and all goodwill offices exerted to find a peaceful solution to the Iraqi invasion of Kuwait,'' Al Kandari said.

The Kuwaiti diplomat was reacting to Saddam's message to Bush and Soviet leader Mikhail Gorbachev broadcast on Iraqi radio and television late Saturday.

Saddam said any military operation in the Gulf would be futile and not practical.

''Saddam's message is a rejection to the political solutions laid down by the U.N and the Arab world to solve the crisis,'' Al Kandari added.

''The message is more evidence that the Iraqi regime has no intention whatsover of cooperating with the sincere peace efforts aimed at finding a solution to the crisis,'' he said.

''It is now the responsibility of the world community to take whatever measures are needed to stop the Iraqi aggression against Kuwait,'' the exiled ambassador said.

He confirmed reports from Saudi Arabia that Iraq has begun to settle Iraqi civilians in Kuwait after forcing Kuwaitis to flee their homes.

''Settling the Iraqis is not new,'' Al Kandari said. ''It began in the early days of the Iraqi invasion.''

The Kuwaiti diplomat also said Iraqi occupation forces have begun changing the names of streets and places in occupied Kuwait.

He said, for example, the Al Sabah hospital in Kuwait, considered one of the oldest hospitals in the oil-rich country, has been renamed Saddam hospital.

#90252u0335 09/09/1990 ~United Press International

SIDON, LEBANON (SEPT. 9) UPI - Followers of Palestine Liberation Organization chairman Yasser Arafat gained the upper hand Sunday against

gunmen of renegade leader Abu Nidal in fierce battles that have killed at least 68 people, security sources said.

The sources said Arafat's men gained supremacy over Abu Nidal's Fatah Revolutionary Council after storming a school that was occupied by the rebels on the edges of Ein El Helweh camp southeast of Sidon, 24 miles south of Beirut.

Three people were killed and 20 others were wounded in a battle for control of the building, bringing the death toll from three days of violence to 68 dead and 220 wounded, the sources said.

The PLO Saturday claimed its followers ''wiped out'' the military presence of the FRC inside El Helweh, but the rebels appeared to have maintained some positions Sunday.

FRC sources said Arafat's guerrillas launched a series of attacks at sunrise against rebel positions around the slum region. They said that an attacking field commander was killed in the confrontations.

Police said the rival groups exchanged large-caliber artillery and rocket fire from dawn to noon, damaging properties and setting cars and houses afire.

FRC gunners dug into hillside positions and sent barrages of rockets crashing into the camp.

Late Sunday, a precarious calm englufed the camp and Sidon, the nearby port city where the FRC occupies several buildings.

The FRC, which advocates extremist methods, is on good terms with pro-Iranian fundamentalist militias based in Sidon.

The violence has put Mustafa Saad, a Lebanese Sunni Moslem figure who has small militia that patrols the port city, in a delicate position, observers said.

Saad, according to the pro-Syrian Ash-Shiraa magazine, has recently sought to establish cooperation with the FRC and the fundamentalists at the expense of his longtime alliance with Arafat.

It was the second major blow this year against the FRC, founded by Abu Nidal when he broke away from the PLO's mainstreeam Fatah 17 years ago. The rebel leader, whose real name is Sabri Al Banna, advocates terrorist methods.

Last June, Arafat's followers defeated the FRC in Rashidiyeh, the second largest Palestinian base in southern Lebanon, which is located on the

outskirts of the port of Tyre, 46 miles south of Beirut.

Abu Nidal, who maintains bases in Syrian-policed west Beirut, eastern and northern Lebanon, is wanted in several Western nations for a series of terrorist attacks worldwide.

#90252u0370 09/09/1990 ~United Press International

JOHANNESBURG, SOUTH AFRICA (SEPT. 9) UPI - Police fired shotgun blasts and tear gas to separate warring black factions in the satellite city of Soweto Sunday, ending a weekend of fighting in the country's largest township that left 26 dead and 17 wounded, police and witnesses said.

A Soweto police spokesman said it was impossible to determine where all the victims had died, but most appeared to have been killed since midnight Friday in an area encompassing a squatter camp, a Zulu hostel and a

railway line.

Police also reported recovering four bodies in the eastern township of Vosloorus Sunday, ushering in a sixth week of urban strife that has left more than 600 dead in black townships surrounding Johannesburg.

Police said the four in Vosloorus were all found stabbed to death in a mini-bus.

Residents reported fighters of the exclusively Zulu movement Inkatha swept through Soweto's squatter camp in Tladi Saturday night, demolishing shacks and attacking residents. Police said a number of bodies were found outside a nearby Zulu migrant worker hostel.

Groups of women covered the bodies with blankets and shielded them from the sun with umbrellas Sunday until a police van arrived to take them away.

Throughout the day, angry Soweto residents, accusing police of complicity in the killings, erected roadblocks of debris, hurled stones and petrol bombs at police and sabotaged power boxes and signal equipment on a railway line running through the area.

Police retaliated with bursts of shotgun fire and tear gas to chase away mobs of demonstrators.

A police spokesman described the situation elsewhere in Soweto, the country's most densely populated city, as ''quiet but tense.''

South African Council of Churches General Secretary Frank Chikane toured the squatter area Sunday and reiterated charges that police have openly sided with Inkatha in clashes against supporters of the African National Congress.

State-run radio reported police have confirmed they are investigating allegations that whites either wearing ski masks or black paint have been involved in the outbreak of violence in the townships surrounding Johanneburg.

The announcement followed allegations that a ''third force'' involving several white men was seen last Tuesday with alleged Inkatha supporters who attacked a hostel in the black township of Sebokeng, killing as many as 25 people.

The radio said witnesses also had reported white involvement in a shooting incident at a Johannesburg railway station Thursday night in which six people were killed.

#90252u0383 09/09/1990 ~United Press International

PHILADELPHIA (SEPT. 9) UPI - A 30-year-old woman found stabbed to death in her apartment may be the victim of a serial killer believed responsible for the slayings of eight other women in Northeast Philadelphia, police said Sunday.

Police called to the scene Saturday afternoon found the woman's partially nude body on the floor of her apartment in the city's Frankford section. She had at least 17 stab wounds and lacerations to the back, chest, stomach and face, police Sgt. Johnny Johnson said.

The woman, whose name was not released, was likely killed early Friday, Johnson said, referring to a preliminary report by the city medical examiner.

The multiple stab wounds and the profile of the victim are similar to the slayings of eight other area women over the last five years, Johnson said.

''The other young women killed in that area were killed in a similar manner,'' Johnson said. ''The fact is that she was stabbed multiple times. That's the biggest similarity with the other ''biggest s

Some of the victims had been sexually assaulted and an autopsy scheduled for Sunday was to determine whether the latest victim had been raped, Johnson said.

Like the latest victim, many of the slain women were frequent patrons of neighborhood bars, Johnson said. Police speculate that the killer may have picked up several of the victims in area bars and then killed them in their apartments.

The latest victim's apartment showed no traces of forced entry, Johnson said.

A 38-year-old man has been charged in the April slaying of Carol Dowd, who was believed to be the eighth victim of the serial killer. Dowd's body was found in an alley three blocks from the site of the latest slaying.

Leonard Christopher has been charged only with Dowd's death, but police sources have said he is a suspect in the other slayings. Christopher has been jailed without bail since May.

The seven other victims, ranging in age from 28 to 62, were killed between August 1985 and January 1989.

-30- 2222

#90252u0407 09/09/1990 ~United Press International

YAMOUSSOUKRO, IVORY COAST (SEPT. 9) UPI - Four British journalists were arrested by soldiers Sunday morning, hours before Pope John Paul II was due to arrive in the country to open a controversial multi-million dollar basilica built by President Felix Houphouet-Boigny.

The four, all of whom work for the British Broadcasting Corp, were arrested 100 miles north of Yamoussoukro, President Houphouet-Boigny's hometown and the site of the $200 million Basilica of Our Lady of Peace.

The journalists were arrested in the village of Bonan, where they traveled in connection with a film they were making on the growth of democracy in the country. Permission to make the film was granted by the Ivorian Information Ministry.

The BBC team had arranged to meet in Bonan with leaders of the Ivorian Popular Front party, one of 20 political groups the government legalized in June after a series of strikes demanding an end to the country's one-party system.

When the journalists arrived in Bonan, they were met by an army lieutenant whom they said told them he had been sent to prevent them from filming a village political meeting.

The journalists said they refused to leave the village and then were arrested and bundled into their vehicle. They said they were driven out of the village under military escort and released after two hours.

''It was very disappointing to see that our first attempt to film the political opposition in action was prevented,'' said Giselle Portenier, a senior BBC producer who was one of those arrested.

The other three arrested were correspondent Peter Godwin, cameraman Richard Lennox and sound engineer Paul Keyworthy.

Widespread social unrest throughout the past eight months and accusations of rampant corruption in government forced Houphouet-Boigny last July to accept plans for multi-party democracy.

His 30-year rule is to come to an effective end when elections are held later this year. But throughout the months of unrest he has insisted on finishing the basilica.

Houphouet-Boigny, 84, claims he financed the ambitious $200 million church which took three years to build, from his own pocket. But critics allege the money was syphoned from state coffers.

The president, a devout Roman Catholic, announced in 1989 that he would

give the building to the pope as a gift.

Six months later John Paul said he would accept the gift, but only if the president built a new hospital and a school. Diplomatic sources said the pope evidently was embarrassed by the cost of building the church at a time when the Ivory Coast has foreign debt worth $14 billion.

During his visit, the pontiff is scheduled to lay foundations for the new hospital and for a Roman Catholic university at Yamoussoukro.

Thousands of Africans began streaming to Yammoussoukro Saturday eager to see Pope John Paul II consecrate the edifice that towers above the surrounding cocoa plantations and mud huts.

The completed structure is taller than St. Peter's Basilica. Its dome is three times bigger than that of St. Paul's Cathedral in London. There are 7.4 acres of polished Italian marble and 272 pillars in the building, which has seating for 7,000 worshippers.

In all, 2,000 construction workers toiled around-the-clock in 10- hour shifts for three years to complete the building.

Apart from the basilica, the main landmark in Yammoussoukro is an enormous walled presidential palace filled with priceless paintings and gold sculptures. A moat containing the presidential crocodiles surrounds the palace.

The basilica has been the focus of much protest by the opposition parties. Many regard it as an example of the excesses of one-party rule in a country with growing division between rich and poor.

The pontiff is to arrive in the Ivory Coast Sunday evening on the final leg of a 10-day African tour. It will be his third visit to the West African country where 10 percent of the population is Roman Catholic.

GAINESVILLE, FL (SEPT. 9) UPI - A knife hidden in a milk carton has been found at the home of a major suspect in the stabbing deaths of five college students, it was reported Sunday.

The Gainesville Sun, citing unidentified sources familiar with the probe, reported that investigators had been told by Edward Lewis Humphrey where to look for the knife in the Indialantic, Fla., home owned by his grandmother.

The knife was found Thursday, the newspaper reported. It was confiscated,

along with books, videotape and clothing, the Sun said. Tests were scheduled to try to determine if the knife was linked to the killings.

The task force of state, federal and local law agencies investigating the killings in an area near the University of Florida renewed their criticism of leaks to news organizations, including a weekend report that Humphrey admitted to having knowledge of the first two killings.

''I think (this) is pretty raunchy journalism,'' said Lt. Sadie Darnell, spokeswoman for the Gainesville Police Department.

''The media is releasing details with little regard as to whether they are true or not,'' Darnell said. The task force refused to confirm or deny published reports based on leaked information.

The bodies of the five slain college students - four of them attended the University of Florida - were all found in their Gainesville apartments between Aug. 26 and Aug. 28. All five victims lived within 2 miles of each other and within 2 miles of the university campus.

All five were stabbed to death, and some of their bodies were mutilated.

Humphrey, 18, a part-time University of Florida student who police say is one of eight suspects, reportedly told investigators where to find the knife shortly after his arrest Aug. 30 on unrelated charges of beating his grandmother.

He is still being held at the Brevard County Detention Center on $1 million bond in that assault, but has not been charged in the Gainesville case.

The Florida Times-Union has reported that, during an interview with investigators last week, Humphrey named someone he said killed the first two victims: Christina Powell, 17, and Sonja Larson, 18.

The two University of Florida students were found stabbed to death Aug. 26 in their Gainesville apartment.

The Times-Union said investigators believe that ''John,'' the person Humphrey named, is one of the multiple personalities he has appeared to exhibit. Humphrey reportedly made the statement to Florida Department of Law Enforcement investigators while held on the charges involving his grandmother.

Darnell said investigators expect defense attorneys to challenge the admissibility of any statements Humphrey has made if he is charged in the Gainesville case. She said the task force has developed a strategy to deal with such a defense move, but would not say what the strategy is.

Investigators took hair and blood samples from Humphrey Thursday, but police would not comment on reports they were awaiting DNA test results. Such tests, which can help identify the killer, usually take six to eight weeks.

Police have also said they found ''promising'' evidence when they searched Humphrey's Gainesville apartment, his grandmother's home in Indialantic and his car, but they have refused to disclose any details about the searches.

Besides Powell and Larson, the Gainesville victims were Christina Hoyt, 18 Tracy Paules, 23 and Manuel Taboada, 23. Hoyt was a student at Santa Fe Community College.

In addition to Humphrey, police have identified Stephen Michael Bates, 30, as a suspect. Bates is jailed in Bartow, Fla., on unrelated assault charges.

He was arrested Aug. 29, the day after the last bodies were found in Gainesville, on charges of breaking into a Lakeland home and pointing a butcher knife at a sleeping woman and her daughter.

PHILADELPHIA (SEPT. 9) UPI - Police were investigating Sunday whether a spectator fell, jumped or was pushed to his death from an upper deck at Veterans Stadium during a game between the Philadelphia Phillies and the New York Mets.

The 35-year-old man, whose name was not released, plummeted about 60 feet from the stadium's upper deck onto a concrete landing about 8 p.m. Saturday during the third inning of the baseball game, police detectives said.

The man was pronounced dead at the scene by emergency rescue squads.

Stadium security guards said they had warned the man away from the upper-deck railing earlier in the evening, police said. Police have so far been unable to locate anyone who accompanied the man to the stadium.

#90252u0477 09/09/1990 ~United Press International

(SEPT. 9) UPI - The one-day superpower summit is in full swing in Helsinki, Finland, today. Presidents Bush and Gorbachev broke for lunch after a two-and-a-half-hour one-on-one meeting that included only their

note-takers and translators. White House spokesman Marlin Fitzwater says the first session was ''very good'' and in his words- ''We are united'' on how to deal with the Persian Gulf crisis.

The State Department says about 300 former hostages left Amman, Jordan, last night and are scheduled to arrive in the United States sometime this afternoon. The Boeing 747 is carrying mostly American women and children who were airlifted out of Kuwait Friday and yesterday on two U-S-chartered Iraqi jets.

Pope John Paul today prayed for Presidents Bush and Gorbachev to find a peaceful solution to the Persian Gulf crisis during their summit in Helsinki. The pontiff's words came at the end of an open-air mass in the capital city of Kigali in the African nation of Rwanda. The pope is on a 10-day tour of Africa.

New York police say an 11-year-old girl was shot and wounded by a stray bullet as she slept in her bed in a Brooklyn apartment last night. The UNidentified girl was struck in the back by a bullet fired by a group of men arguing in front of her family's apartment. A police spokesman says the child is hospitalized in stable condition. The girl is the 15th child shot by stray gunfire in New York City since July 22nd.

#90252u0480 09/09/1990 ~United Press International

(SEPT. 9) UPI - New York City Mayor David Dinkins is scheduled to deliver a speech today at St. Patrick's Cathedral, calling on New Yorkers to join together to fight crime. The mayor is urging citizens to team up with anti-crime groups and lobby their legislators for tighter national gun control laws. The city's crime-stained reputation has been topped by a summer of violence that includes the deaths of five children by stray bullets.

The new Miss America 1991 says race NO longer is an issue in the annual pageant. Miss Illinois, Marjorie Judith Vincent, was crowned Miss America last night in Atlantic City and became the fourth black woman to hold the coveted title. 25-year-old Vincent is a third-year student at Duke University who wants to practice international law and assist in the economic development of Haiti, her parents' birthplace.

Mother Teresa says she's coming out of retirement following her surprise re-election as head of the Missionaries of Charity. The 80- year-old Roman Catholic nun stepped down as head of the order five months ago because of ill health, but says she feels it's ''God's will'' for her to continue. Mother Teresa won the 1979 Nobel Peace Prize for her work with the dying and the destitute.

The New Faith Singers are on their way to cutting a record for Warner Brothers, but this is one group you're NOT likely to see on any concert tour. The gospel group consists of inmates sentenced to life at the Tennessee State Penitentiary. The group's leader, songwriter- preacher Moses Dillard, says he originally went to the prison hoping to create a sense of community through Bible study. Quoting one inmate- ''Moses sold us on believing in ourselves.''

#90252u0557 09/09/1990 ~United Press International

(SEPT. 9) UPI - Soviet President Mikhail Gorbachev says his first session today with President Bush was ''good'' and that he was ''satisfied.'' White House spokesman Marlin Fitzwater said the meeting mainly focused on the Persian Gulf crisis. He said the United States and Soviet Union are ''firm and together'' on how to deal with Baghdad's invasion of Kuwait. Bush and Gorbachev are to meet again for several hours later today.

Iran's official Islamic Republic News Agency reports Iraqi Foreign Minister Tariq Aziz flew to Tehran today and was met by his Iranian counterpart, Ali Akbar Velayati. Aziz is the first high-ranking Iraqi official to visit Iran since the Islamic revolution in 1979 and the start of the eight-year Iran-Iraq war in 1980.

New York police say an 11-year-old girl was shot by random gunfire last night as she lay sleeping in her family's Brooklyn apartment. A police spokesman says the girl was sleeping in a bedroom that faced the street when a stray bullet fired by a group of men came through the window and struck her in the back. She is hospitalized in stable condition and authorities are looking for about five men who witnesses say fled from the scene.

.

The girl is the 15th New York child shot by random gunfire recently- a fact certain NOT to be missed by New York Mayor David Dinkins when he speaks at St. Patrick's Cathedral this morning Dinkins will urge New Yorkers to band together to fight violence. The mayor says citizens must ''organize and mobilize to take back our streets.'' Quoting now- ''Come out from behind the locks on your doors and the bars on your windows... to help stop the violence.''

#90252u0571 09/09/1990 ~United Press International

LOS ANGELES (SEPT. 10) UPI - The average price for a gallon of gasoline at retail outlets increased nationally more than 2 cents over the past two weeks and future prices are impossible to predict due to the Middle East crisis, an industry analyst said Sunday.

Trilby Lundberg, director of the Lundberg Survey, said a survey Friday of gasoline prices at more than 13,000 retail outlets nationwide showed the average price for a gallon of gasoline, including taxes, was 135.44 cents, up 2.28 cents per gallon, compared to a similar survey conducted Aug. 24.

''That is a very strong price behavior for this time of year, although it sets no precedent,'' Lundberg said. ''Prices are often pulled down at this time of year due to the end of the summer driving season. The peak consumer demands are in July and August and the price normally dips due to the drop in consumption.''

''This year,'' she said, ''it is impossible to say how much the lower consumption impact will have on retail prices. The higher prices for crude and refined products are still at work in the domestic and international markets due to the Middle East crisis.''

Over the past month, the average price for a gallon of gasoline in all grades has increased 7.5 cents across the nation.

In the latest survey, the price for a gallon of unleaded regular gasoline at self-service pumps was 124.28 cents; premium unleaded gasoline at self-service outlets was 140.99 cents per gallon; and regular leaded at self-service outlets was 123.74 cents per gallon.

At full-service pumps, the price for unleaded regular was 146.91 cents per gallon; premium unleaded was 160.60 cents per gallon; and regular leaded was 146.78 cents per gallon.

#90252u0589 09/09/1990 ~United Press International

LONDON (SEPT. 9) UPI - A chartered Iraqi Airways jumbo jet carrying over 400 Britons, Americans and other foreigners from Iraq and Kuwait headed to Britain from Baghdad Sunday, officials said.

A spokesman at Britain's Foreign Office said 229 Britons, 165 Americans and 44 people of other nationalities were aboard the jet, which was expected to arrive at Gatwick airport outside London in early evening.

Those aboard the flight were mostly women and children, officials said.

A U.S. Embassy spokesman said he expected the Americans on the flight would spend the night in the British capital before returning to the United States.

The flight was expected to be the last major airlift of Britons, although smaller evacuations may be organized later this week.

''We think this is probably the last big block of British subjects out of Kuwait, British women and children that is, '' Britain's ambassador to Baghdad Harold Walker told the British Broadcasting Corp.

Meanwhile, in Charleston, S.C., customs officials, health workers, psychiatrists and other welcomers waited to greet 316 Americans returning to the United States from occupied Kuwait.

About 150 representatives of various federal and South Carolina agencies awaited the arrival of the Northwest Orient Airlines 747, chartered by the U.S. government after Iraqi President Saddam Hussein decided to allow foreign women and children to leave Kuwait, which Iraq invaded Aug. 2.

The total number of women and children who arrived in Amman from Kuwait and Baghdad Friday and Saturday was 316, all Americans, authorities in the

Jordanian capital said. Some were American-Arab men. They all left together for the United States Sunday.

Another 100 British women and children may be moved out of Iraq and Kuwait later this week, officials said.

The BBC said the British women and children aboard the flight had been separated from their husbands and fathers by Iraqi authorities.

Among those still stuck in Iraq and Kuwait are 6,000 Soviets, most of them men, including about 150 military technicians assigned to the Iraqi armed forces, the BBC said.

Depending on how Iraqi President Saddam Hussein interprets the results of the Helsinki summit, those Soviets could also be subject to the same fate as Westerners still detained in Iraq and Kuwait.

About 30 French men and 30 Britons have been moved by Iraqi authorities to strategic installations in the region within the past three days, the BBC said.

The Americans aboard the Iraqi jet are among some 2,200 women and children the U.S. is hoping to airlift from Iraq, leaving behind an estimated 900 men.

Saddam has said that Western women and children will be allowed to leave the country, but that men must remain behind at key economic and military installations to ensure the Western forces will not attack.

Meanwhile, thousands of foreigners still remain in Iraq and Kuwait.

French officials have said between 420 and 430 French citizens are still being held there, while about 70 French women and children are believed to have decided to stay with their menfolk or to be en route out of the country by what the French Foreign Ministry has called ''private routes.''

ANCHORAGE, AK (SEPT. 9) UPI - Two small planes collided in the air near Denali National Park, crashing into rugged terrain in bad weather, the Federal Aviation Administration said Sunday.

A spokesman for the Alaska State Troopers said it was believed each plane had one pilot and no passengers.

The mid-air collision occurred Saturday afternoon 13 miles east of Denali park, an FAA duty officer said. A rescue helicopter found the crash site

before dark but there was nowhere to land near the wreckage, he said.

The FAA said rescuers on horseback were attempting to reach the crash site Sunday.

#90252u0645 09/09/1990 ~United Press International

NEW YORK (SEPT. 9) UPI - America's newest citizens and a handful of its oldest Sunday honored the vision and fortitude of the million of immigrants who left their native lands and launched new lives by first setting foot on Ellis Island.

In view of the Statue of Liberty, Supreme Court Justice Antonin Scalia led 46 adults and three children in the oath of citizenship as part of the celebration honoring the opening of a refurbished Ellis Island, where some 12 million immigrants passed through on their way to becoming Americans.

Vice President Dan Quayle - substituting for President Bush, who canceled a long-planned appearance to meet Soviet President Mikhail Gorbachev in Helsinki - recalled the impact of immigration on the nation during the opening day festivities on the tiny island.

Ellis Island, in New York Harbor near the New Jersey shoreline and adjacent to Liberty Island, home of the Statue of Liberty, opens to the public Monday.

''I wish every one of today's Americans could make a pilgrimage here,'' Quayle said. ''We all need to feel the extraordinary human drama that still pulses within these walls.

''What we celebrate in Ellis Island is nothing more than the triumph of the American spirit,'' the vice president said. ''We must hold in our hearts and memories our immigrant ancestors.''

Quayle also made reference to U.S. soldiers deployed to the Persian Gulf, saying that they are there ''to ensure that our freedom endures forever.''

Standing by the Wall of Honor, where the names of some 200,000 immigrants are etched in copper, Quayle said that, although his parents did not pass through the island's fabled halls, he shared America's pride in the museum's opening.

A nightmare for some, the gateway for new dreams for many, Ellis Island was the starting point for the families of an estimated 140 million Americans.

About 20 percent of all immigrants were detained for medical or legal

reasons while the center was in operation as an immigration station from 1892 to 1943. About 250,000 people were rejected and another 3,000 committed suicide, many simply by jumping into the harbor.

Johanna Flaherty, who emigrated from Ireland in 1923 at age 16 to escape farm life, was one of the six Ellis Island immigrants honored in person at Sunday's ceremony.

''It's really very good to see the place,'' she said. ''It was the start of my life. It's marvelous.''

Visitors will be able to enter the restored main building through the baggage room, just as immigrants did, and climb the Registry Room stairs that officials used to spot asthmatics, heart patients and others who were physically impaired.

From there, they can visit waiting rooms with original graffiti on the walls, the Special Inquiry Room where rejected immigrants would plead their cases, and a dormitory with three-tier iron pipe bunks.

Automotive executive Lee Iaccoca, who created the Statue of Liberty-Ellis Foundation that raised the $160 million used in the eight- year restoration of the island's main building, said Americans feel an emotional bond with the place where many of their ancestors first touched this country's soil.

''It's their island,'' the Chrysler Corp. chairman said. ''They paid every nickel of it. It has not a cent of tax money.''

He said donations for the restoration and the addition of names to the Wall of Honor are still arriving.

''Thousands of different names, thousands of different stories, but stick them all together and you have one huge saga. And it's our saga,'' he said.

Television correspondent Barbara Walters, who said her father came from London to settle in New York, presented Flaherty and five other immigrants who have achieved success in their adopted land with original tiles from the walls of Ellis Island.

''We're immigrants all,'' Walters said. ''It's important to remember that, for we are a nation like no other because of this diversity.''

-30- 4182

#90252u0656 09/09/1990 ~United Press International

ATHENS, GREECE (SEPT. 9) UPI - Iraq's foreign minister flew to Tehran Sunday to discuss the Persian Gulf crisis and normalization of diplomatic

relations with his Iranian counterpart, Tehran radio reported.

The radio report said Iraqi Foreign Minister Tariq Aziz and Iran's Ali Akbar Velayati held 2 1/2 hours of talks that focused on the gulf situation resulting from Iraq's invasion of Kuwait and on efforts to establish a durable peace between Iran and Iraq, which fought an eight-year war.

The official Islamic Republic News Agency said Aziz also invited Velayati to make an official visit to Baghdad.

Aziz's trip - taken at Iraq's request - made Aziz the first high- ranking Baghdad official to visit Iran since Iran's Islamic revolution in 1979 and the outbreak of the Iran-Iraq war in 1980.

The meeting apparently did not change Iran's opposition to Iraq's annexation of neighboring Kuwait.

Iraqi Oil Minister Issam Abdul Rahim al Chalabi, who accompanied Aziz on the trip, held separate discussions with Iranian Oil Minister Gholamreza Aqazadeh, IRNA reported.

Tehran radio said Iran's Supreme National Security Council held a meeting late Saturday, hours before the Iraqi delegation arrived, focusing both on Iran-Iraq relations and the gulf crisis.

A leading Iranian cleric, Ayatollah Mohammad Yazdi, hinted that Iran may break rank with the rest of the world in applying economic sanctions against Iraq.

IRNA quoted him Sunday as saying ''political disputes and even the issue of war should not overshadow humanitarian considerations such as the health of children and the security of civilians.''

Last week, the English-language Tehran Times, a newspaper that normally reflects the views of President Akbar Hashemi-Rafsanjani, also said Iran may assist Iraq with food and medicines.

Iran has pledged to comply with U.N. Security Council sanctions against Iraq for seizing Kuwait, but the newspaper said food and medicines were not included in the sanctions.

IRNA quoted Iranian First Vice President Hassan Habibi as saying ''Iraq should withdraw from Kuwait unconditionally,'' and that the Iraq- Kuwait dispute should be settled through negotiations.

''The international borders (between Iraq and Kuwait) should on principle remain valid and we will not accept any change in the geographical status

of the region,'' Habibi said.

Tehran condemned the invasion of Kuwait and Rafsanjani said last week that Iran would not accept any change in the geography of the region. But on Friday Rafsanjani scoffed at his Arab neighbors for seeking his help after 10 years of hostility toward Iran.

Aziz flew to Tehran, at Baghdad's request, 25 days after Iraqi President Saddam Hussein accepted Iran's terms for a settlement of the dispute that led to the 1980-88 gulf war which left an estimated 1 million people dead.

In a letter to Rafsanjani Aug. 15, Saddam accepted the 1975 Algiers accord that set the southern border between the two countries down the middle of the Shatt al Arab waterway.

Saddam's move was seen as a bid to remove the danger of an Iranian attack on his flanks while his forces were faced with allied troops in Saudi Arabia opposed to his occupation of Kuwait.

Commenting on Aziz's talks in Iran, the Tehran newspaper Resalat, owned by Iranian businessmen in the traditional Bazaar or market, said Iran did not need a new agreement with Iraq since the Algiers accord was still valid.

After Saddam accepted the accord in August, Iraq withdrawn its troops from Iranian territory taken in the last days of the gulf war and the two sides began sending home prisoners of war, estimated to total 100,000, some of whom have been held for 10 years.

Iraqi troops pulled out of Iranian territory by Aug. 22, and days later Iran informed U.N. Secretary General Javier Perez de Cuellar that the two countries could begin discussions aimed at establishing a durable peace between them.

#90252u0672 09/09/1990 ~United Press International

CHARLESTON, SC (SEPT. 9) UPI - Relatives and government officials anxiously awaited the arrival of 316 Americans returning to the United States from occupied Kuwait Sunday, but the flight was delayed when some passengers fell ill.

About 150 representatives of different federal and South Carolina agencies were ready for the arrival of the Northwest Orient Airlines 747, chartered by the U.S. government after Iraqi President Saddam Hussein decided to allow foreign women and children to leave Kuwait, which Iraq invaded Aug. 2.

The plane was to arrive Sunday morning at Charleston International Airport

but was unexplainably delayed in Frankfurt, West Germany, officials said.

Gloria Berbena, spokeswoman for the State Department's Kuwaiti task force, said the plane then had to make an unscheduled stop in Halifax, Nova Scotia, when a woman passenger began suffering chest pains. She was taken to a Halifax hospital, but her condition was unavailable.

Three ill children and their mother also got off the plane in Halifax.

''I don't know what the nature of their illness was,'' Berbena said. The spokeswoman also was unsure if the flight had resumed, or when it would arrive in South Carolina.

Officials in Jordan said 316 evacuees, all of them Americans and most of them women and children, boarded the flight headed to South Carolina. There also was a small number of Arab-American men on the flight.

The representatives at the airport were prepared to provide the evacuees with medical care, financial aid, counseling and toys for the children.

Among the anxious relatives was Helen McCauley, who waited for her three young granddaughters and her pregnant daughter, Paulette, 28.

''I have not heard anything from her, except she asked me to be here when she gets here,'' McCauley said.

Paulette, whose last name was not released to protect her Palestinian husband still in Kuwait, was 7 months pregnant and traveling with her three daughters, ages 2 1/2, 5 and 7. They have not been to the United States in four years.

McCauley said her daughter and the girls would live with her in Apex, N.C. until it is safe for Paulette to return her family to Kuwait, where her husband is a computer programmer for a Kuwaiti bank.

''I think she would wait for it to be safer for the children, but she would definitely go back,'' McCauley said.

Along with the tables of medical supplies were teddy bears adorned with red ribbons, stacks of diapers, baby food, lollipops, coloring books, and crayons for the numerous children expected.

Many of the evacuees were to board flights for other parts of the country after arriving in Charleston, S.C. Norma Anderson, spokeswoman for the South Carolina Department of Social Services, said anyone continuing on would pay for their own flights, although the state planned to issue federally backed loans to anyone needing money.

Anderson said it would take at least three hours to process the passengers not counting the time it would take for Customs officials to inspect the evacuees' baggage.

South Carolina Gov. Carroll Campbell also was to board the plane and greet the passengers upon their arrival.

The State Department would not release names of passengers on the flight, but at least one McKinney, Texas woman, Barbara Hoffman, also was expected to be on board.

Hoffman's daughter, Lauren Deardurff, 27, said Saturday night she learned that her mother arrived in Jordan earlier that day. A reporter who had spoken to Mrs. Hoffman called to Texas with the news.

''I was really elated to see that my mother's safe, but at the same time, I'm upset that my father's still there,'' Deardurff said. ''I'm just worried that something horrible will happen to him.''

Deardurff said her father, Manfred Hoffman, 52, underwent heart surgery before he moved to Kuwait in April and is on medication to prevent heart attacks.

#90252u0900 09/09/1990 ~United Press International

(SEPT. 9) UPI - President Bush and Soviet President Gorbachev presented a solid front on the Persian Gulf crisis today. Following their seven-hour summit in Helsinki, Finland, the superpower leaders issued a joint statement insisting that Iraq withdraw from Kuwait to end the crisis. But

Bush failed in his aim to get Moscow to immediately withdraw Soviet military advisers from Iraq... and expand its military co-operation in response to Iraq's invasion of Kuwait.

Technicians at Cape Canaveral, Florida, are working to fix the leaking space shuttle Columbia in time for another takeoff attempt early next week. Crews worked through the weekend to remove and replace fuel pumps blamed for a leak that grounded the ship last week. And assuming NO other glitches crop up, Columbia could be ready for the start of yet another launch countdown as early as Friday.

There are more reports out of Gainesville, Florida, that appear to link a highly publicized suspect to the slayings of five area college students. A newspaper story today says investigators recovered a knife hidden in a milk carton found at the home of Edward Humphrey. The report is based on information provided by unidentified sources said to be close to the probe.

A study shows that it's worth the extra time to use a hot air dryer in a public restroom. The study found that the machines kill more bacteria and viruses on the hands than cloth or paper towels. Air dryers reduced 92 percent of the viruses in the study... while cloth and paper towels got rid of between 80 and 87 percent.

In Philadelphia, police say a 30-year-old woman found stabbed to death in her apartment may be the latest victim of a serial killer believed responsible for the slayings of eight other women. Police found the woman's partially nude body on the floor of her apartment in the city's Frankford section. She had at least 17 stab wounds and lacerations to the back, chest, stomach and face. Police say the multiple stab wounds and the profile of the woman are similar to the slayings of the other victims.

#90252u0978 09/09/1990 ~United Press International

(SEPT. 9) UPI - Presidents Bush and Gorbachev say their seven- hour meeting in Helsinki, Finland, today has strengthened the new partnership between the United States and the Soviet Union in the face of Iraq's invasion of Kuwait. But Bush failed to convince Gorbachev to immediately withdraw Soviet military advisers from Iraq. .

Kuwait's exiled emir sent two messages to Helsinki urging Bush and Gorbachev to take decisive action against Iraq for its aggression against his country. The messages expressed confidence that the superpower leaders would adopt whatever action was necessary to force Iraq out of Kuwait.

A meeting today in Tehran between the foreign ministers of Iraq and Iran was the first high-level contact between the two rivals in a decade. Iraqi Foreign Minister Tareq Aziz is in Tehran for talks with his counterpart,

Ali Akbar Velayati in a bid to improve relations between their countries.

West German Foreign Minister Hans-Dietrich Genscher says he expects the World War Two allies to O-K an October 3rd re-unification date for Germany. The issue will be discussed later this week in the final round of the so-called two-plus-four talks on German unity.

The House tomorrow will begin debate on a defense spending bill. And the post-Cold War dip in military expenditures is expected to slow significantly. House Armed Services Chairman Les Aspin says there will definitely be an increase in the 283-BILLION-dollar authorization figure in the bill, but the Wisconsin Democrat could NOT say how much of a jump.

#90252u0982 09/09/1990 ~United Press International

(SEPT. 9) UPI - Launch preparations at Cape Canaveral were looking up today. NASA officials say repairs on the leaking shuttle Columbia are on track to keep its rescheduled blastoff attempt around September 17th. The crew for the October mission of the shuttle Discovery arrived at Cape Canaveral today for a practice countdown.

South African authorities describe the situation in the country's largest black township as ''quiet but tense.'' Factional fighting between rival groups erupted again in Soweto during the weekend, leaving more than two-dozen people dead and 17 injured. Police tried to disperse angry clouds by firing shotgun blasts and tear gas.

Security sources in southern Lebanon say forces loyal to P-L-O leader Yasser Arafat have gained the upper hand in fighting with troops aligned with extremist Abu Nidal. At least 68 people have died in the weekend violence 24 miles outside of Beirut. Witnesses say a precarious calm engulfed the area at dusk.

Peace talks are under way between the Cambodian government and representatives of three rebel factions. Officials greeted the conference in Jakarta, Indonesia, with optimism that it would lead to an end to Cambodia's civil war. The one drawback to the talks is the absence of rebel leader Prince Norodom Sihanouk.

India's Kashmir Valley was wracked by more separatist violence this weekend. Police sources say at least seven people were killed, including a 12-year-old girl reportedly slain by Moslem rebels who said she was a police informant. Moslem militants have killed more than 300 alleged informants since mid-January.

#90252u1146 09/09/1990 ~United Press International
NEW YORK (SEPT. 9) UPI - For all the glamour Andre Agassi carries onto

the court, Pete Sampras left with the U.S. Open championship.

Agassi, who brought day-glo tights and an entourage to New York, was dissected Sunday by Sampras, losing 6-4, 6-3, 6-2. The fourth-seed was outgunned by Sampras' 120 mph serve and never was a factor in the match.

Sampras delivered 13 aces and 12 service winners, accounting for 25 of the 99 points he won in the 1 hour, 42 minute match.

''This was a good old-fashioned street mugging,'' Agassi said.

It also was a disheartening finish to his best Open outing. Agassi was an Open semifinalist the previous two years, losing to Ivan Lendl.

''It is disappointing to see someone hold up the trophy that you wanted,'' he said. ''But it's not like I lost it, I got my butt kicked.''

And it all happened so efficiently.

Sampras lost just three points off his serve in the first set and five in the second. In the third, Agassi managed three break points, but was unable to convert any.

''He's always had a big serve, but now he's put it together with exceptional placement in the last couple of weeks,'' Agassi said. ''If you look at the tape, you'd see all his aces are on the line. That's just tough. The chances of returning a serve that's hit 100 miles an hour when it hits the line are slim, not to mention when he can blast one 120.

''I still could have taken advantage more of his second serve, but he didn't miss a lot of those early in the match. That would have made a big difference. If I could have had a couple of more looks at second serve and gotten an early break, that's a different ballgame.''

With the triumph, Sampras, 19, becomes the youngest champion to win the Open. Agassi, a year older and with much more savvy on the international tennis scene, said life will change for the 12th-seeded player.

''When you get to this level it becomes a lot more than tennis,'' said Agassi. ''You have to handle everything, all the criticism he'll start getting after winning a tournament like this. He has to handle being the expected winner rather than the underdog. It's easier to play carefree and hard-hitting tennis when you are the underdog. I did that in 1988, I just came out and smacked the ball and people couldn't believe how hard I could hit the ball. But it all changes when you get on top.''

For his part, Sampras seems to have a firm grip on where and who he is. His entourage consists of Coach Joe Brandi. That's it. There are no

earrings or stylish hair cuts.

''I think I am pretty similiar on the court as off,'' he said. ''I'm easy going, laid back, I don't get too uptight or anything. I'm just a normal 19-year-old growing up with a pretty unusual job.''

One that lets him call himself champion.

-30- 3021

#90252u1234 09/09/1990 ~United Press International

(SEPT. 9) UPI - NO dramatic breakthroughs resulted from today's meeting between Presidents Bush and Gorbachev. But the mini-summit in Helsinki, Finland, did lead to the reiteration that the global community will NOT tolerate Iraqi leader Saddam Hussein's aggression. The superpower leaders called on Saddam to pull out of Kuwait.

Aside from the international pressures Saddam Hussein faces, it is reported that internal dissent against his rule may be picking up. A Western diplomat in the Persian Gulf state of Bahrain says Saddam ordered the execution of five members of his presidential guard who allegedly were plotting against him.

Six close aides of Israeli Interior Minister Aryeh Deri were arrested today as the investigation into Deri's alleged wrong-doings entered a new stage. Deri is suspected of illegally transferring government funds to family members and his ultra-Orthodox Shas Party. The scandal has been compared to the Nixon administration's Watergate.

Pope John Paul was to arrive in the African nation of the Ivory Coast today to open a controversial multi-Million-dollar basilica built by President Felix Houphouet-Boigny. Four British journalists at the site of the basilica were arrested hours before the pope's arrival to prevent them from filming the town's political opposition.

New York Mayor David Dinkins says residents must unite to take back their streets. Dinkins delivered a speech at the city's St. Patrick Cathedral today in which he called upon New Yorkers to battle violence by helping anti-crime groups, lobbying for national gun-control laws and teaching children that crime is wrong.

A Fort Lauderdale report says developer Donald Trump's financial woes have reached outside the New York area. The report says Trump sold fewer than 10 units last year at his condominium project in West Palm Beach. The project's financial backer is said to be considering forcing Trump to auction off about 120 unsold condos to gain payment.

Special Yugoslavian police units used tear gas to prevent ethnic clashes

today in a town in the eastern Republic of Serbia. Riot police arrested scores of militant nationalists as Serbs and ethnic Moslems prepared to square off. The incident followed a rally of 20-thousand supporters of a Serbian extremist group.

A Romanian student leader who was severely beaten earlier this year by mine workers breaking up student protests reconciled with the miners today. The student leader says the miners were NOT the only ones guilty for what happened in June of this year. The miners were responding to a government call to defend the country against the ''extremists.''

#90252u1418 09/09/1990 ~United Press International

(SEPT. 9) UPI - Diplomats in the Persian Gulf are giving the first confirmation of signs of internal strife in Iraq. The diplomats say Iraqi President Saddam Hussein ordered five elite officers of his presidential guard executed because of suspicion that they were plotting against him. The envoys say there apparently is evidence of assassination plots against Saddam, but they warn that he's still in control.

President Bush says he's ''very pleased'' following his summit in Helsinki Finland, with Soviet President Gorbachev today. Speaking aboard Air Force One on the way back to Washington, Bush said superpower unity on the Persian Gulf crisis will ''send a very strong message around the world.''

Tehran radio says a meeting today between Iran's foreign minister and his Iraqi counterpart focused on the Persian Gulf crisis created by the Iraqi invasion of Kuwait. Iraqi Foreign Minister Tariq Aziz flew to Tehran for two and a half hours of talks with Iranian Foreign Minister Ali Akbar Velayati. They also discussed efforts to normalize relations between their countries after an eight-year war.

Iraq describes as ''utterly groundless'' a Syrian report that Iraqi oil installations on their border were rocked today by a series of explosions. The state-owned Syrian news agency says 46 explosions struck the installations and there were calls for blood transfusions. But Western diplomats in the region say there are NO known oil installations on the Iraqi-Syrian border and the report appears to be part of the war of words between the two nations.

#90252u1420 09/09/1990 ~United Press International

(SEPT. 9) UPI - A British Broadcasting Corporation report says rebel forces in Liberia captured President Samuel Doe today following a fierce gunbattle in Monrovia. The B-B-C says Doe was wounded in both legs before being taken into custody by rebel leader Prince Johnson. The fighting

broke out during Doe's UNscheduled visit to the headquarters of the West African peacekeeping force.

49 of the nation's newest citizens took their oath of citizenship today during a celebration marking the re-opening of Ellis Island. Supreme Court Justice Antonin Scalia led the group in the oath as Vice President Quayle and others looked on. A refurbished Ellis Island opened its doors again after a long history of serving as the gateway to America for 12-Million immigrants.

-30- 919

#90252u1518 09/09/1990 ~United Press International

(SEPT. 9) UPI - President Bush was all smiles aboard Air Force One this evening as he headed back to Washington following his one-day summit with Soviet President Gorbachev in Helsinki, Finland. Bush says the superpower unity on the Persian Gulf crisis sends a strong message to Iraq that it will NOT be able to divide and conquer. Bush says while he and Gorbachev agreed on getting Iraq out of Kuwait, they did NOT agree on everything.

The situation in Iraq is a sharp contrast to the unity displayed today by the United States and Soviet Union at their summit in Finland. Western diplomats in the Persian Gulf confirm reports of splits in Iraq. They say Iraqi President Saddam Hussein ordered the executions of five elite officers of his presidential guard suspected of plotting his assassination.

A chartered jetliner today returned more than 300 Americans to the United States after their release from Iraq and Kuwait. The Northwest Orient 747 landed this evening in South Carolina at Charleston International Airport. There were originally 316 people aboard the flight... but five got off the plane during an UNscheduled stop in Halifax, Nova Scotia, due to illness.

The State Department task force monitoring the situation in Liberia says it canNOT confirm British reports that rebels have captured Liberian President Samuel Doe. The British Broadcasting Corporation says Doe was wounded and taken into custody following a fierce gun battle in Monrovia. Rebels led by Prince Johnson reportedly captured Doe as he made an UNscheduled visit to the headquarters of West African peace- keeping forces.

A slowdown, or even complete halt of cuts in military spending is expected to be approved after the House begins debate tomorrow on post- Cold War defense spending. Some lawmakers say the deployment of U-S troops in the Persian Gulf forces a reverse of the dizzying plunge in military spending. But lawmakers are UNable to say how much the spending will increase.

-30- 2149

#90252u1605 09/09/1990 ~United Press International
(SEPT. 9) UPI - President Bush gets his wish at today's superpower summit... two planeloads of Iraqi hostages return to freedom... and there are reports that Liberia's president has been captured by rebels. Those stories and more, next from U-P-I. .

President Bush told reporters aboard Air Force One this evening that he couldN'T be happier with the results of his summit today with Soviet President Gorbachev.

The presidential plane was headed back to Washington following the hastily arranged, one-day meeting in Helsinki, Finland.

Bush says he was pleased that he and Gorbachev emerged from their meeting united against Iraqi aggression in the Persian Gulf.

He says the Soviet Union expressed solidarity with the United States and other countries about the need to enforce sanctions aimed at driving Iraq out of Kuwait.

The superpower leaders issued a joint statement that embraced both their views... echoing a Soviet desire for a peaceful solution to the crisis, while threatening UNdisclosed measures if that proves impossible.

Bush says the statement shows Iraqi President Saddam Hussein that he will NOT be successful at dividing and conquering.

Bush says the next step is to see that the U-N sanctions against Iraq are fulfilled.

-30- 1425

#90252u1610 09/09/1990 ~United Press International
(SEPT. 9) UPI - Two planeloads of former hostages arrived in the West today with women and children who had been held in Iraq and occupied Kuwait.

A chartered Iraqi Airways jumbo jet landed in London this evening... and a twice-delayed chartered flight finally set down in Charleston, South Carolina.

There were originally 316 people aboard the Northwest Orient 747 that landed at Charleston International Airport... but five got off the plane during an UNscheduled medical stop in Halifax, Nova Scotia.

The planeload of Americans was greeted by dozens of relatives, well-wishers and officials... including Senator Ernest Hollings and South Carolina Governor Carroll Campbell.

Authorities were on hand to provide the evacuees with medical care, financial aid, counseling and teddy bears for the children.

165 other Americans were aboard the Iraqi plane that landed at Gatwick airport outside of London. There were also 229 Britons and 44 people of other nationalities aboard the jet.

A U-S Embassy spokesman says he expects the Americans to spend the night in London before returning to the United States.

The flight was expected to be the last major airlift of British citizens trapped in the Persian Gulf.

Liberian President Samuel Doe is reportedly in the hand of rebels led by Prince Johnson, following a fierce gun battle in the capital city of Monrovia.

The British Broadcasting Corporation says Doe was taken into custody as he made an UNscheduled visit to the headquarters of West African peace-keeping forces.

The B-B-C says Doe was wounded in both legs during the battle and more than 60 people were killed in the fighting.

But the State Department task force monitoring the situation in Liberia says it could NOT confirm the report.

The B-B-C says Johnson telephoned to say Doe had surrendered his leadership of the country. Johnson also vowed that the president would be court-martialed and dealt with according to law.

Johnson says he'll replace Doe until the nation can hold elections.

There was NO immediate reaction from rival rebel leader Charles Taylor... who commands a larger rebel force.

-30- 2341

#90252u1735 09/09/1990 ~United Press International

(SEPT. 9) UPI - Philadelphia police today said a woman found yesterday stabbed to death may be the ninth victim of a serial killer in the city... even though a suspect in the killings is in jail. The suspect has been charged with one murder... but NOT eight other stabbings during the last five years.

New York Mayor David Dinkins today exhorted New Yorkers to join anti-crime groups to ''take back'' the city streets. A crime wave in the city led

Dinkins to call for gun control and tougher penalties for gang attacks.

Four British broadcasters were arrested in the Ivory Coast today to prevent them from filming a political opposition meeting. The arrests came just hours before Pope John Paul arrived to consecrate a 200- Million dollar basilica in the debt-ridden country.

Investigators today said they have ruled out foul play in the deaths of two bear hunters struck by a train near Rooster Rock State Park in Oregon. Trainmen said one of the men tried to pull the other from the tracks just before they were hit yesterday.

Aviation officials today said two small planes collided in the air near Alaska's Denali National Park and crashed yesterday. It is believed each plane had one pilot and NO passengers. Rescuers on horseback are trying to cross rugged terrain to the crash site.

-30- 1464

#90252u1826 09/09/1990 ~United Press International

(SEPT. 9) UPI - More than 300 Americans who were detained in Kuwait arrived in South Carolina this evening. The group was met at the Charleston International Airport by state and federal workers on hand to give medical care, counseling and financial aid. Another flight of freed hostages arrived in London earlier in the day. That flight carried about 400 foreigners out of Kuwait and Iraq.

The leaders of the United States and Soviet Union today put their clout behind international condemnation of Iraq's invasion of Kuwait. Presidents Bush and Gorbachev issued a joint statement following their summit in Helsinki, Finland, that re-inforced their unified stand against Iraq. The statement said the two leaders are determined to see Iraqi aggression end.

West German Chancellor Helmut Kohl says now is the time for Germany to show ''international solidarity.'' Kohl re-iterated his call today for a change in the German constitution to allow German troops to participate in United Nations peace-keeping forces. The West German constitution prohibits military deployment outside of NATO jurisdiction.

Six close aides of Israel's interior minister were arrested today for questioning in a deepening corruption probe that's being compared to Watergate. The so-called ''Deri Affair'' centers on allegations that Interior Minister Aryeh Deri illegally transferred ministry funds to members of his family and his ultra-Orthodox Shas Party.

-30- 1613

#90252u1840 09/09/1990 ~United Press International

(SEPT. 9) UPI - A copyright article today says the Atomic Energy Commission and the state of Washington have a secret pact dating back to 1943. The agreement allegedly enables the A-E-C to determine the validity of workers' compensation claims at the Hanford nuclear plant. Critics say the contract lets the nation's nuclear bomb- making agency duck responsibility for worker injuries and deaths.

Authorities say there are shock waves of fear spreading throughout New England's largest organized crime family. They say the anxiety is being caused by reputed crime figure John ''Sonny'' Castagna's decision to co-operate with investigators probing the Patriarca family. Officials will NOT say what Castagna has disclosed as part of his deal for a lighter sentence on charges made against him in March.

Sandinista leaders are warning that further UNrest and possible war may result if Nicaragua's economic and political crisis is NOT resolved. According to a Sandinista leader... the country could be wracked by social UNrest next month if the suffering of the people is NOT reversed. His comments were backed by another Sandinista leader who said Nicaragua is experiencing political polarization.

The public will have a chance to see New York's refurbished Ellis Island tomorrow. The island... which served as the first glimpse of America to Millions of immigrants... was re-opened at an invitation-only ceremony today. Among the participants at today's gathering were some of the country's most recent emigres. Vice President Quayle substituted for President Bush as the main speaker at the event.

#90253b0003 09/10/1990 ~Business Wire

PHOENIX (SEPT. 10) BUSINESS WIRE - MacLand Inc. (NASDAQ:MACL), the Tempe-based marketer of hardware and accessories for the Apple Macintosh computer line, Monday announced that it has completed a secondary offering of securities that netted the company $1,558,000.

The proceeds will be used for working capital, expansion of facilities, and marketing and promotion.

In the offering, 1,150,000 units were sold to the public at $1.65 per unit. The units consist of two shares of common stock and one common stock purchase warrant exercisable at $1.65 per warrant for the 13-month period commencing Aug. 27, 1990. The total number of units sold included 150,000 units sold by the underwriters under their over-allotment option.

The lead underwriter of the offering was Cohig & Associates of Denver. The offering was co-managed by Paradise Valley Securities of Phoenix.

As a result of the offering, MacLand's common stock and purchase warrants were elevated to listing on the NASDAQ quotation system. MacLand's stock was formerly listed in the pink sheets. The company's units, common stock and warrants are now trading on NASDAQ under the symbols MACLU, MACL and MACLW, respectively.

Rather said the company was particularly pleased that the offering was completed in the face of downward pressure on the stock market due to tension in the Middle East. ''There aren't a lot of deals getting done right now,'' he said.

''So we appreciate all the support and commitment we have received from our underwriters and from other members of the investment community.'' He added that MacLand investors should benefit in the long run from MacLand's elevation to NASDAQ and expanded base of market makers.

For the six month period ending June 30 the company reported net income of $302,000, or 5 cents per share, on revenues of $6,448,000 compared with net income of $97,000, or 1 cent per share, on revenue of $2,878,000 for the same period last year.

DALLAS (SEPT. 10) BUSINESS WIRE - Widely recognized as providing the Local Area Networking Industry's broadest line of Ethernet products and services Cabletron Systems Inc. (NYSE:CS) today unveiled at Networld 90 (Dallas, Sept. 10-13, Booth 1118) the networking industry's most complete line of manageable Token Ring products.

The 4/16 megabit-per-second (Mb/s) IEEE 802.5 Token Ring product line includes Desktop Network Interface (DNI) cards for IBM PC/XT, PC/AT, MicroChannel and Macintosh MAC II personal computers; six connectivity Media Interface Modules (MIMs) for the Multi Media Access Center (MMAC) intelligent wiring hub; management modules providing full local and remote managmement and control capability down to the individual port level; and a standalone concentrator with Ring In/Ring Out ports.

The new Token Ring products accommodate IBM types 1, 2, 6, and 9 shielded twisted pair (STP), unshielded twisted pair (UTP) and fiber optic cabling, a media scheme developed for the MMAC platform through Cabletron's Integrated Network Architecture. The Integrated Network Architecture is a

product strategy which provides a standards-based framework for seamless network evolution and expansion as customer needs grow, or as new networking technologies enter the market.

The MMAC platform, through an innovative, three-tiered backplane known as the Flexible Network Bus (FNB), allows Ethernet, Token Ring and Fiber Distributed Data Interface (FDDI) Technologies to coexist within a single modular hub.

''We have seen a tremendous need and demand for managemable Token Ring and Ethernet products to coexist within the same environment,'' said Michael Welts, Cabletron's marketing manager. ''Cabletron has been a leader in Ethernet network management for over two years. We have been easily able to apply our Ethernet management expertise toward users with the broadest product offering, whether it is Ethernet or Token Ring. This announcement makes it ideal for organizations who need both.''

Cabletron Systems Inc., headquartered in Rochester, N.H., is a leading developer and manufacturer of standards-based network solutions, including software, hardware and connectivity products. The company currently has a worldwide installed base exceeding 1.3 million nodes.

Cabletron's common stock is traded on the New York Stock Exchange under the symbol CS. The company recently reported record revenue of $104.7 million and earnings of $22.3 million for the fiscal year 1990.

PROVIDENCE, R.I.(SEPT. 10) BUSINESS WIRE - Edward P. Grace III, a Providence, R.I. businessman, said today that he has filed a 13-D Statement with the Securities and Exchange Commission in Washington, D.C. disclosing beneficial ownership of 5.9 percent, or 72,800 shares of the common stock of NHD Stores Inc. (NASDAQ: NHDI).

Grace said that he has no present intention of seeking control of the company, and that he acquired his stake for investment purposes. He said that NHD Stores Inc. is an undervalued company (book value per share $7.39 and stock closing price 9/7/90 of $4.00) in a niche market that has tremendous potential.

He said that he intends to meet with NHD Stores Inc. President Sheldon M.

Woolf to discuss strategic alternatives to increase shareholder value.

NHD Stores Inc., based in Stoughton, Mass. is a 36 unit retailer of hardgoods through its NHD Super Hardware Stores, with locations in Rhode Island, Massachusetts, New Hampshire, Maine, and Connecticut. Sales for the fiscal year 1990 ended Jan. 31, 1990 were $55,256,000.

COLLEGE PARK, GA (SEPT. 10) BUSINESS WIRE - Atlantic Southeast Airlines Inc. (NASDAQ/NMS:ASAI) flew 39.6 million revenue passenger miles during August 1990, a .7 percent decrease from the same period last year, according to John W. Beiser, a senior vice president for the Atlanta-based airline.

ASA's load factor was 52.6 percent compared with 55.8 percent during August 1989. Available seat miles increased to 75.4 million from 71.6 million, for a 5.4 percent increase. The company enplaned 187,320 passengers during August, compared with 191,635 passengers for the previous August.

On a year-to-date basis, ASA carried 1,363,361 passengers compared with 1,320,402 during 1989, a 3.3 percent increase. Revenue passenger miles totaled 289.9 million compared with 270.6 million, for a 7.1 percent increase. Available seat miles increased 9.2 percent from 516.9 million to 564.6 million. The load factor on a year-to-date basis was 51.3 percent compared with 52.3 percent during the previous year.

Atlantic Southeast Airlines Inc. is Atlanta's largest regional air carrier, and now offers service to 15 cities from a second hub in Dallas/Fort Worth, Texas. ASA's stock is traded in the National Market System under the NASDAQ symbol ASAI.

LONG BEACH, CA (SEPT. 10) BUSINESS WIRE - Tatung Co. of America Inc. and Alloy Computer Products Inc., Marlborough, Mass., announced Monday they are entering into a joint marketing effort to provide bundled hardware and software solutions that meet the needs of small-business and corporate workgroups.

Under the arrangement, Tatung will bundle Alloy's 386/MultiWare with its 386 PCs and PC-Term terminals. Tatung offers a complete line of 80286 and 80386 PCs and ASCII terminals, as well as text and color monitors.

Alloy will offer Tatung's hardware together with Alloy's products including its EarthStation diskless PCs; 386/MultiWare; multiuser, multitasking DOS systems; and PC-PLUS/NTNX networking systems.

Alloy Computer Products designs, manufactures and markets MS-DOS-based multiuser systems, networking hardware, diskless PCs and tape-backup systems for the personal-computer industry.

Alloy's products are marketed throughout the United States, Canada and abroad through the Earth Computer Technologies division and Alloy's wholly owned subsidiaries: Alloy Computer Products (Europe) Ltd., and Alloy Computer Products (Australia) Pty. Ltd.

Tatung Co. of America markets a full line of PCs that support ISA, MCA and EISA standards, as well as ASCII terminals and the widest range of computer monitors and graphics adapters available from a single supplier. It is an affiliate of the multibillion-dollar Tatung Co., Taiwan's largest electronics and computer manufacturer with over 22,000 employees in Europe North America and the Far East.

DENVER (SEPT. 10) BUSINESS WIRE - Coleman Natural Meats Inc., the nation's largest producer of natural beef, announced the first nationally available certified organic-beef product Monday at its Denver headquarters.

According to company chairman and founder, Mel Coleman, Coleman Organic Beef has been in development for three years and is currently being

distributed in five markets: Colorado, Massachusetts, California, Texas and Oklahoma. Over the next year, as supply increases to meet demand, Coleman will expand distribution throughout the United States.

''Initial sales of Coleman Organic Beef are extremely positive,'' Coleman said. ''We're selling it as fast as we can produce it.''

Coleman said that Coleman Organic Beef was developed to meet the demands of a niche market of consumers who want to purchase organically grown beef. Coleman Natural Beef, the company's flagship product, which is produced without antibiotics or growth hormones, is expected to continue to outsell Coleman Organic Beef because of its lower price and greater availability.

According to Coleman, organic beef production is costly and complex because it requires certified organic grains and feeds which are difficult to obtain. In addition, the purity of the animal's grazing lands and feed and must be verified at every step of production, from conception to consumption.

The inherent complicated production requirements mean Coleman Organic Beef will sell at a premium retail price of approximately $3.39 for lean ground beef. This is approximately 15 percent higher in price than Coleman Natural Beef.

Like Coleman Natural Beef, Coleman Organic Beef is produced without antibiotics or growth hormones. However, to be certified as organic, Coleman Organic Beef cattle are fed organically grown feed raised on farmland certified to be devoid of synthetic fertilizers, herbicides and pesticides for at least three years.

Primary retail customers for Coleman Organic Beef are the same natural food/health food stores and specialty supermarkets that purchase Coleman Natural Beef.

Coleman was the first company to receive USDA approval to label its beef as natural.

Coleman Natural Meats, which produces natural and organic beef, and natural lamb, has annual revenues in excess of $20 million. The company was formed in 1979 by Mel Coleman, a fourth-generation rancher, in Saguache County, Colo. Coleman products are distributed in natural food/health food stores, specialty stores and supermarkets in all 50 states.

DALLAS (SEPT. 11) BUSINESS WIRE - MCI Communications Corp. (NASDAQ:MCIC) has become the primary provider of long-distance telecommunications services to Neiman Marcus stores throughout the United States after winning a three-year, $12 million contract, the companies announced Monday.

Under the contract, MCI will also provide various long-distance services to another division of Neiman Marcus Group Inc., Horchow Mail Order Inc.

MCI's services will include:

-- Voice and data networks linking all 24 Neiman Marcus stores throughout the nation, as well as other facilities, including Neiman Marcus division headquarters in Dallas, the company's data and mail order distribution centers in Irving, Texas, and its national distribution center in Carrollton, Texas.

-- 800 service in support of the company's worldwide mail order business.

-- Network management capabilities, including full-time monitoring of the Neiman Marcus communications network and real-time statistical reporting.

-- Complete systems integration between telecommunications equipment and other vendors and Neiman Marcus.

In addition, MCI will carry all voice, data and 800 traffic for Horchow Mail Order Inc.

Under the contract, MCI will construct a backup digital microwave system to provide transmission diversity and redundancy for Neiman Marcus' voice and data traffic.

Both companies said that MCI will also handle communications traffic for all new Neiman Marcus stores, including its Denver store which opened in August. The retailer plans to build several new stores over the next few years, with the next new locations scheduled to open in Minneapolis in 1991.

Neiman Marcus, a world-recognized leader in high-fashion speciality retailing, serves customers through its network of stores and through its mail order business, which includes the catalogues of Horchow Mail Order Inc.

Neiman Marcus and Horchow Mail Order Inc. are part of The Neiman Marcus Group Inc., a publicly-owned, independent company located in Chestnut Hill Mass.

MCI is the world's second-largest long-distance provider, supplying a full range of voice, data and messaging services to businesses, residences and government agencies.

ENGLEWOOD, COLO. (SEPT. 10) BUSINESS WIRE - Medical Dynamics Inc. (NASDAQ-MEDY), a provider of micro-invasive surgical and diagnostic camera systems, Monday announced it has received a purchase order from an OEM customer for 100 Model 5960 Surgical Camera Systems.

The order brings to 160 the total number of Model 5960s this OEM customer has ordered since August. Value of the total order is $845,000.

Van Horsley, chief executive officer of Medical Dynamics, said the Model 5960, which is the successor model to the company's standard Model 5940 system, is particularly well-suited to the emerging laparoscopic surgery market and that most of the camera systems in the recent order are likely intended for use in that field.

''With its upgraded base camera and enhanced optics, the Model 5960 represents a significant technical advancement over its predecessor model and gives users in laparoscopic surgery, as well as arthrosocopy and gynecology, a state-of-the-art means of performing numerous procedures,'' Horsley said.

''The potential for this product in gallbladder laparoscopy, which involves complete removal of the gallbladder through a laparoscope, is tremendous,'' Horsley said. ''As more physicians are trained in its use in this application, we expect orders for the product -- both from our OEM customer and our sales representatives -- to increase.''

Horsley added that the increase in Model 5960 orders from the OEM account represents confirmation of the product's growing popularity in the marketplace.

Medical Dynamics also markets the patented Model 5990 Optical Catheter System, a next generation surgical camera system that at just .5mm to 1.5mm in diameter is small enough to thread into previously inaccessible areas of the body. Procedures performed with an Optical Catheter System

offer physicians and patients a number of practical, technical and economic benefits over alternative forms of treatment.

The company has sold 14 Optical Catheters to date, including two over the past 30 days.

IRVINE, CA (SEPT. 10) BUSINESS WIRE - Robert Messina has joined Toshiba Copier Products, an operating unit of Toshiba America Information Systems Inc. (TAIS), as director of marketing.

In making the announcement, Richard H. Walker, vice president and general manager for Copier Products, said: ''Toshiba Copier Products is now one of the fastest-growing copier suppliers in the United States. The associated expansion of our marketing programs has led to a need for expansion of our management team.''

In this position, Messina will be responsible for product marketing, advertising, public relations and marketing services and programs.

''This key addition to our team enables Peter Stolinsky, who has been appointed director of channel development, to focus on special markets, channel marketing and dealer training,'' Walker said.

Reporting to Messina are the marketing communications manager, marketing services manager and the national marketing manager. Reporting to Stolinsky are the national training manager, distribution channel marketing manager and the government, education and major accounts (GEM) marketing manager.

Messina brings more than 18 years of experience in marketing and sales management of office and communication products to Toshiba. Most recently he served as regional vice president of the Pacific Region for Monroe Systems for Business in Irvine.

Previously he was vice president of sales and marketing for Los Angeles Cellular Telephone Co. and prior to his tenure there he served as vice president of sales and marketing for American Datacom in Irvine.

Messina received a bachelor of science degree in business administration

from Rider College in Lawrenceville, N.J.

Toshiba office copiers are sold and serviced by a network of more than 350 dealers nationwide. Toshiba America Information Systems is one of five independently operating U.S.-based companies that comprise Toshiba America Inc., New York, a holding company which is part of the $29 billion Toshiba Corp. based in Tokyo. -0-

PHOENIX (SEPT. 10) BUSINESS WIRE - John W. Teets, chairman, president and chief executive officer, Greyhound Dial Corp. (NYSE:G), Monday announced the purchase of the Breck hair care products business from American Cyanamid Co. of Wayne, N.J.

Terms of the acquisition were not disclosed.

The purchase was negotiated by The Dial Corp., Greyhound Dial's consumer products company, and became effective Sept. 7. Breck had 1989 revenues of approximately $60 million. Integrating Breck into Dial will give Dial annual sales in excess of $1 billion.

Under terms of the agreement, Dial is acquiring more than 300 trademark registrations in 91 countries, approximately 20 patents, inventories and some equipment. Breck products will continue to be manufactured in their present locations during the period of integration into the Dial network.

''Breck has been a household name for 60 years,'' Teets said. ''It's a perfect fit with our other Dial products, and under Dial management the power of the Breck name will flourish.''

For decades, Americans have been fans of the famous 'Breck Girls' series of advertisements that first started appearing in magazines in 1946. Such beauties as Brooke Shields, Jaclyn Smith, Kim Basinger, Erin Gray and Cybill Shepherd all appeared as Breck Girls early in their careers.

At the present time, Breck products are manufactured in seven facilities located in the United States, Mexico, Canada and Europe. The products are sold in this country, as well as in a number of international markets including Scandinavia and the Middle East.

Hair care adds a new category to Dial's personal care division, which currently markets such leading brands as Dial, Tone, Pure & Natural and Mountain Fresh Dial bar soaps, Liquid Dial antibacterial soap, Boraxo hand

cleaner, Dial antiperspirants and deodorants, and several lines of lodging industry amenities.

The Breck line of products includes hair sprays, shampoos, hair conditioners, gels, mousses and a line of 12 hair colors. The total U.S. hair care category has annual sales of $4 billion.

Besides personal care items, Dial manufactures and markets such well-known products as Lunch Bucket microwaveable meals, Armour Star canned meats, Purex laundry detergent, Brillo soap pads, Twenty Mule Team Borax, Parsons' ammonia, and Magic Sizing spray starch.

OVERLAND PARK, KS (SEPT. 10) BUSINESS WIRE - Sprint Gateways Monday introduced Live Broadcast 900sm which enables consumers to call a 900 number and listen to special live events.

This 900 enhancement allows information providers to bring events cost-effectively to a large, geographically dispersed audience. Sprint Gateways is a unit of US Sprint.

Live Broadcast 900sm is suited especially for such applications as shareholders' meetings, educational programs and association membership meetings. Listening in on a sporting event, such as a football game or a boxing match, is another Live Broadcast 900sm possibility.

According to Adrian Toader, vice president and general manager of Sprint Gateways, ''As the 900 industry matures, there is an increasing demand for business-to-business voice information services. Live Broadcast 900sm provides the flexibility to meet the programming needs of businesses as well as entertainment information providers.''

Sprint Gateways entered the 900 audiotext services market early in 1989 and now carries hundreds of interactive and passive audiotext programs and services through US Sprint's all-digital fiber-optic network.

US Sprint is a unit of United Telecommunications Inc., a diversified international telecommunications company headquartered in Kansas City, Mo.

SUNNYVALE, Calif.(SEPT. 10) BUSINESS WIRE - California Microwave Inc. (OTC:CMIC), announced that its subsidiary, Satellite Transmission Systems Inc. (STS), received a $3.2 million contract from the Ministry of Communications of Romania to supply a major satellite earth station to be located near Bucharest, Romania.

In an Aug. 22 announcement, California Microwave indicated that STS had won the international earth station competition. The station is expected to be completed in the first half of 1991, providing Romania with the capability for direct voice, data and facsimile communications with all major Western European countries.

Romania is one of the first Eastern Bloc countries to be admitted to the European regional satellite consortium, EUTELSAT, and is the first to contract for EUTELSAT earth station facilities. The station will support Romania's public switched telephone network, significantly expanding communications capacity to Western Europe.

California Microwave's international sales, principally satellite communications systems and equipment, were up 46 percent over the prior year, representing about one-quarter of the $145.9 million in total sales reported for the fiscal year ended June 30, 1990.

STS, located in Hauppauge, N.Y., designs, manufactures and constructs satellite communications earth stations, equipment, and networks for EUTELSAT, INTELSAT and regional satellite applications, and has built and installed over 600 major earth stations worldwide. During the past six months, STS has received contracts from Spain, the United Kingdom, China, Thailand, Argentina and Holland.

California Microwave is a leading supplier of microwave and satellite communications systems. Satellite communications earth stations and equipment account for three quarters of the company's business.

BROOMFIELD, Colo.(SEPT. 10) BUSINESS WIRE - Hathaway Corp. Monday announced that effective on Aug. 31, 1990, Global Software Inc., a wholly owned subsidiary of Hathaway, sold to Walker Interactive Systems of San Francisco, its credit and accounts receivable management business (''CARMS''), located in Chicago.

The assets sold included proprietary software and systems under license as well as other property and equipment used in the business. The sales price was $6,575,000 paid in cash.

E.E. Prince, president and chief executive officer, said, ''We believe the transaction will strategically benefit both Global and Walker. As was previously reported, we filed with the Internal Revenue Service a request for an income tax ruling on the proposed spin-off of Global.

''The sale of the CARMS business will help to financially position Global to achieve this strategic objective. The sales proceeds will further enhance the company's cash position which was at $8,145,000 at June 30, 1990.''

Hathaway Corp. designs, produces and markets computer software, electronic systems, electromechanical systems and instrumentation for world markets. Global Software provides both midrange and mainframe integrated accounting applications to the IBM market place.

#90253b0055 09/10/1990 ~Business Wire

SUNNYVALE, CA (SEPT. 10) BUSINESS WIRE - The acquisition of Silicon Compiler Systems by Mentor Graphics brought new technology for integrating simulators.

The LSIM Simulation Manager, a software backplane developed by SCS, will be used to integrate all of the Mentor Graphics and third party simulators into a single, unified environment.

It is intended that IKOS will now use the Simulation Manager to integrate the IKOS 2800 and 2900 products into the Mentor Graphics Release 8.0 simulation environment.

The decision to integrate the IKOS simulator using the Simulation Manager technology should result in a mixed signal, mixed level simulation environment by mid-1991. This is earlier than the originally anticipated availability date for the mixed level product.

The companies plan to begin OEM sales through Mentor Graphics distribution channel in mid-1991 with the mixed signal, mixed level product rather than the standalone (non-mixed level) product previously planned for Q1/'91.

The companies plan to enhance the current joint marketing agreement by

integrating the IKOS 2800 and 2900 products into Mentor Graphics Release 7.0 environment. The companies believe these changes will result in increased interest in the large installed Mentor Graphics customer base currently using Release 7.0.

The Release 7.0 integration strategy will also enhance the efforts of Mentor Graphics Japan which is currently selling the IKOS simulator under an OEM agreement.

IKOS Systems Inc. designs, manufactures, markets and supports advanced hardware-assisted simulation systems for the application-specific integrated circuit and systems design markets.

Headquartered in Sunnyvale, the company employs more than 100 people worldwide.

SAN JOSE, CA (SEPT. 10) BUSINESS WIRE - Hyundai continues to expand its PC product line into the high end with a new 33MHz desktop 80386, the Super-386T.

The Super-386T is Novell-certified NetWare compatible for use both as a network file server and LAN workstation. It is a fast, reliable file server for departmental LANs and small business. OS/2 and UNIX compatible it is a solid workstation for moderately sized multi-user environments.

Its hard disk drive and memory features make it a powerful, reliable and flexible system for CAD/CAM/CAE, graphics and demanding business applicatons. It runs Microsoft's Windows 3.0.

The Super-386T is competitively postioned in the 80386/33 class, both in features and in price.

As do all Hyundai products, the Super-386T comes with an 18-month warranty one of the longest in the industry. Hyundai also offers its optional S.O.S. on-site service and support program, that delivers a trained technician to the customer's site within 24 hours.

Hyundai Electronics America is a major supplier of a full line of quality,

reliable personal computer products that are competively priced. Hyundai belongs to the $32 billion Hyundai Group, the largest industrial company in Korea.

Hyundai is located at 166 Baypointe Parkway, San Jose, CA 95134; phone 408/473-9200.

#90253b0068 09/10/1990 ~Business Wire

SAN FRANCISCO (SEPT. 10) BUSINESS WIRE - California has a bright future as a Pacific Rim economic power, but only if it can measure up to the st challenges of its neighbors around that rim.

That was the message that Richard A. Clarke, board chairman and chief executive officer of Pacific Gas and Electric Co., delivered Monday at the PacRim 90 Conference in San Francisco.

The four-day international business symposium, bringing together government, business and academic leaders from nations around the Pacific, will continue until Wednesday.

PG&E, whose headquarters are in San Francisco, is the largest gas and electric utility in the United States, with operating revenues of $8.6 billion in 1989.

Clarke noted California's history of excellence in fields as diverse as biotech research and winemaking, bluejeans and semiconductors.

''But Californians know that we cannot afford to sit back, preen and admire ourselves while there are powerful cats on the prowl in world markets,'' Clarke said.

He called attention to three major needs that must be met for California to maintain its economic strength.

''We urgently need increased productivity, better elementary and secondary education, and a cleaner environment to maintain our economic strength,''

Clarke observed.

California's economy is the eighth largest in the world, he noted, second only to Japan's on the Pacific Rim. But productivity growth in California has lagged since 1977, most alarmingly in high-tech manufacturing.

''California business must make increased productivity a top priority,'' Clarke said. ''Like the tigers of the Pac Rim, we must focus on the quality of our products and the technologies that lead to greater efficiency, new applications, new products and new jobs.''

Productivity growth requires a better educated work force able to match other Pacific Rim nations in math, science and technical skills.

''Right now, our high schools are not producing enough graduates who have these skills,'' Clarke warned. In the coming decade, when there will be more jobs to fill than people to fill them, a lack of qualified potential employees would compound the shortage.

The other key to a strong California work force in the '90s lies in the state's increasingly multicultural society -- a society in which Hispanics Asians and blacks are expected to make up half the population by the year 2000.

''Clearly, California business will have to tap the capabilities of all its citizens and ensure they have the opportunity to fully participate in, and contribute to, our economic success,'' Clarke said.

Turning to the environment, Clarke noted the pivotal role that energy utilities have to play in improving the quality of California's air, water and land resources.

PG&E's ''Green'' electric resource plan focuses on meeting most future power demand growth through increased customer efficiency in the use of energy.

''We have joined with environmentalists, consumer groups, regulators and other utilities to develop new ways to achieve that efficiency,'' Clarke said.

PG&E is also working to help accelerate such alternative energy resources as wind and solar power and is actively promoting the development and use of clean-fuel vehicles that run on compressed natural gas or electricity.

Clarke said that while major challenges must be met, California and the San Francisco Bay Area, in particular, possess ''enormous economic assets'' to succeed in Pacific Rim markets.

For example:

- California's 1989 goods and services, valued at almost $700 billion, were 14 percent of the entire U.S. economic output.

- California is America's largest manufacturer, and technology is a key element of the state's manufacturing sector. One of every three U.S. high-tech and biotech firms are in California.

- California agribusiness produces a $30 billion bounty annually, much of which goes to Asian tables.

- California is America's preeminent research state, and Bay Area universities are among the world leaders in basic science.

- The Bay Area's beauty, climate and cultural diversity are a magnet to men and women who want to work in its technologically advanced industries.

''It's a region that spawns innovators, entrepreneurs and risk-takers,'' Clarke said.

LAKEWOOD, CO (SEPT. 10) BUSINESS WIRE - On Sept. 6, 1990, Pegasus Gold Inc. announced a modified mining plan at the Montana Tunnels mine in western Montana based on a review of all current economic data and the most recent drill results.

Pegasus stated that the new work has been reviewed and verified by an outside consulting firm. Pegasus stated that, ''Under the revised plan, the stripping ratio at Montana Tunnels will decline by more than half over the life of the mine, from 3.3:1 to 1.4:1, while cash costs (net of by-product credits) potentially could be reduced by as much as 40 percent over the corresponding period.''

Pegasus further stated that, ''As a result, the earnings and cash flow contribution from this deposit will be enhanced considerably despite the fact that recoverable ounces of gold will drop by approximately 10 percent (5 percent on a gold equivalent basis).''

Pegasus also announced that, ''Other refinements made primarily to the mill facility have resulted in Montana Tunnels achieving the highest level of consistency and recoveries since its inception.''

USMX holds a net profits royalty interest in the Montana Tunnels mine. The company is entitled to the greater of a five percent net profits royalty interest or minimum advanced royalties of $720,000 per year until certain construction and other costs have been recovered by Pegasus (Payback), and a 50 percent net profits royalty interest thereafter.

As a result, USMX currently receives $720,000 per year from Pegasus as a minimum advanced royalties. Based on the revised plan announced by Pegasus, the prospect of Payback occurring, and USMX receiving a 50 percent net profits royalty interest, has improved.

The sensitivity of metal price improvement impact on Payback can be expressed as follows:

If the key metal prices of gold and zinc average approximately $400 per ounce and 80 cents per pound, respectively, Payback would be anticipated to occur approximately at the end of the remaining eight to nine year mine life.

If these prices average approximately $600 per ounce and 80 cents per pound, respectively, Payback would be anticipated to occur approximately

midway through the remaining mine life. Meanwhile, USMX continues to enjoy the minimum annual royalty payments of $720,000.

USMX Inc. is involved in the exploration, development, and production of gold properties in the United States. The company's stock is listed on the NASDAQ National Market System under the symbol USMX.

SACRAMENTO, CA (SEPT. 10) BUSINESS WIRE - American Recreation Centers Inc. (NASDAQ:AMRC) announced Monday the operating results of its wholly owned subsidiary, the Right Start Catalog Inc., for the first quarter which ended Aug. 29.

Sales of this direct marketer of high end infant products exceeded $5 million for the quarter, up 72 percent over last year's $2.9 million. Divisional operating profit for the quarter reached $602,000, up 141 percent over last year's operating profit of $250,000.

Right Start was acquired by ARC in July 1988, and has shown dramatic growth in revenue and profitability since that time, adding a valuable new growth element to ARC's financial picture.

ARC anticipates announcing its consolidated first quarter results next week which will include the results of the Right Start announced today. First quarter results for the rest of the company are also anticipated to be substantially improved over last year's results.

American Recreation Centers Inc. is the largest publicly held corporation in the country devoted primarily to the operation of bowling centers. The company operates 27 bowling centers, 22 in California and 5 in Texas with an aggregate 1,126 lanes.

The company is also active in the development and management of real estate. Real estate activities include management and operation of bowling division real estate as well as conversion of non-productive real estate assets, including non-profitable bowling centers, into more productive assets.

SUNNYVALE, CALIF. (SEPT. 10) BUSINESS WIRE - Abra MacDabra Software Co. has released AbraTrak Mac, Multi-User Network Version.

AbraTrak Mac, the first Applicant Tracking system on the Macintosh, was introduced in March. Now with the release of this LAN version, all of a company's personnel involved in recruiting, interviewing and hiring can simultaneously access and instantly communicate timely recruiting information across AppleShare compatible networks.

AbraTrak drastically reduces the time and cost of processing job applications, freeing recruiters to focus on finding the right candidate instead of getting bogged down in mundane clerical work. Fast searches for skills, past employers or schools are as easy as ''clicking your mouse button.''

AbraTrak also tracks the routing of resumes, provides interview scheduling and includes a complete job requisition system for staying on top of openings and analyzing recruiting costs. Applicant oriented electronic notes provide immediate access to each interviewer's comments during the hiring process, facilitating better intra-company communications.

AbraTrak's built-in letter generator speeds communications with each applicant while reducing clerical costs by providing a user-defined library of standard letters that are automatically personalized each time they are sent. Letters can be printed at any time or batch printed at the end of the day. Mail labels are optionally produced for each letter generated.

AbraTrak has more than 40 built-in reports, as well as a wide variety of analytical and informational reports to meet most needs, including the government-required Affirmative Action (EEO) New Hires Report. Since every situation can't be anticipated, an object-oriented report writer from Fox Software is provided to make custom report generation as easy as using a paint program.

Together with Abra 2000 Employee Information System, AbraTrak provides the most cost effective human resource and recruiting software available today on both Macintosh and PC computers.

Current customers of Macintosh versions of Abra software include SuperMac, RasterOps, Silicon Beach Software and divisions of K-mart and Motorola as well as smaller companies, schools, colleges and govermental agencies across the Unied States and Canada, as well as several foreign countries.

#90253b0096 09/10/1990 ~Business Wire
CITY OF INDUSTRY, CA (SEPT. 10) BUSINESS WIRE - Applied Solar Energy Corp. (NASDAQ:SOLR) Monday reported net sales of $6 million for the quarter ending July 28, 1990.

This compares with net sales of $4.3 million for the same period in fiscal year 1989. Net loss for the quarter of $.5 million compares with a loss of $1.3 million for the like period of 1989. Included in the prior year's loss was $152,000 from discontinued operations.

For the nine months ending July 28, 1990, net sales were $23.4 million, the highest sales volume for nine months in the company's history. This compares with $15.3 million for the nine months ending July 29, 1989. Net loss for the current nine-month period was $95,000 as compared with $2.7 million for the nine months ending July 29, 1989, which included a $522,000 loss from discontinued operations.

Backlog at the end of the quarter was $38.5 million, an increase of $19 million from the previous quarter. Orders for laser and photosensor products were $1.5 million with the remaining orders for gallium arsenide and silicon solar cells.

The uncertainty of defense and space budgets, continuing R&D investment in the company's new laser products and setbacks in receiving certain anticipated laser and silicon solar cell contracts are expected to prevent the company from experiencing any significant improvement over its third-quarter results in the next few quarters.

Applied Solar has two business units, one producing gallium arsenide and silicon solar cells which convert sunlight directly into electrical power for the space and defense industry, and the Advanced Optoelectroncs business unit, which develops and manufactures photosensor devices and laser subassemblies for consumer, medical, defense and industrial applications.

#90253b0116 09/10/1990 ~Business Wire
EL PASO, TEXAS (SEPT. 10) BUSINESS WIRE - El Paso Electric Co. Monday announced the selection of John E. Droubay as the utility's new vice president and treasurer.

He replaces Gary Hedrick who was appointed to the position of vice

president of Financial Planning and Rate Administration.

Droubay, a licensed professional engineer, is a former treasurer of Utah Power and Light, where he was employed from 1960 until 1989. Additionally, his experience at the Utah utility included serving as assistant treasurer and assistant financial officer, a systems analyst, and a project engineer.

As El Paso Electric's treasurer, Droubay's responsibilities will include cash management, revenue processing, and risk management. He also will oversee the development of a new investor relations group and will be involved in the company's financings.

Droubay graduated from the University of Utah earning a bachelor of science degree in electrical engineering in 1961 and a master of business administration in 1969, and is a member of Theta Tau (Professional Engineering Fraternity).

Hedrick, after serving as the company's treasurer since 1988, will assume the duties of vice president-Financial Planning and Rate Administration, a new area reflecting a combination of EPE's existing Financial Planning Department and the Regulatory Accounting and Rate Administration Department.

Additionally, Michael L. Blough has been promoted to assistant vice president of Financial Planning, and James Mayhew has been appointed vice president of Rate and Energy Utilization.

Blough, formerly manager of Budgeting and Forecasting, will assume additional responsibilities with respect to the company's financial activities. He will report directly to Hedrick.

Mayhew, who previously served as vice president-Rate and Regulatory Affairs, will oversee the Economic Rate Research Department which includes load research and rate design. Furthermore, Mayhew will oversee a new Energy Efficiency and Utilization Department which will encompass various customer energy management functions.

LINLITHGOW, SCOTLAND (SEPT. 10) BUSINESS WIRE - Sun Microsystems Inc. Monday officially opened its third manufacturing and supply facility -- the first outside the United States.

The new $20 million, 140,000-square-foot plant in Linlithgow, part of

Scotland's ''Silicon Glen,'' takes advantage of the area's high-quality work force and established infrastructure. As the company with the highest percentage of exports of any U.S. computer manufacturer, Sun views the new facility as a key part of its global operations.

The new plant joins existing Sun manufacturing facilities in Milpitas, Calif., and Westford, Mass. Like its sister operations, it is designed to flexibly accommodate the shifting product needs of Sun customers.

This plant will manufacture Sun's SPARCstation 1+, the new, low-cost color SPARCstation IPC and future generations of desktop products. The new facility also gives Sun closer access to the European supply base.

In addition, the plant will act as a distribution point for the company's products in the fast-growing European marketplace, which currently represents 28 percent of Sun's total revenues.

Sun's sales in Europe have been increasing for several years; they were 10 percent of total revenues in 1985. The company just posted a record-breaking $2.47 billion in worldwide sales in fiscal 1990, with expanding European revenues helping achieve that figure.

Sun's sophisticated new Linlithgow facility was completed in only 16 months from the time work started on the site in the spring of 1989. Demonstrating Sun's long-term commitment to its global operations and the European market, the Linlithgow operation is owned by Sun rather than leased.

When operating at full capacity, approximately 300 people will be employed at the facility.

Besides its three existing facilities, Sun plans to bring another supply unit on line in the Pacific Rim in the mid 1990s.

Sun Microsystems Inc., headquartered in Mountain View, Calif., is a leading worldwide supplier of network-based distributed computing systems, including professional workstations, servers and UNIX operating system and productivity software.

SAN FRANCISCO (SEPT. 10) BUSINESS WIRE - Sierra Capital Companies Monday announced dividends for five of the real estate investment trusts sponsored and managed by the company.

Monthly dividends of $.0392 per Preferred Share and $.0392 per Common Share were declared for Sierra Capital Realty Trust VIII Co. (ASE:SZHPr and SZH) for each of the months of October, November and December, 1990, and are payable on Oct. 26, Nov. 30 and Dec. 28, 1990 to shareholders of record on Oct. 1, Nov. 1, and Dec. 3, respectively.

These distributions are at the same rate as dividends paid for the prior period. Trust VIII Preferred and Common shares are listed in financial publications as ''Sierra VIII pf'' and ''Sierra VIII'', respectively.

Monthly dividends of $.0292 per Preferred Share and $.0250 per Common Share were declared for Sierra Capital Realty Trust VII Co. (ASE:SZGPr and SZG) for each of the months of October, November and December, 1990 and are payable on Oct. 26, Nov. 30 and Dec. 28, 1990 to shareholders of record on Oct. 17, Nov. 21, and Dec. 10, respectively. These distributions are at the same rate as dividends paid for the prior period.

Trust VII Preferred and Common shares are listed in financial publications as ''Sierra VII pf'' and ''Sierra VII'', respectively.

Monthly dividends of $.0275 per Preferred Share and $.0275 per Common Share were declared for Sierra Capital Realty Trust VI Co. (ASE:SZFPr and SZF) for each of the months of October, November and December, 1990 and are payable on Oct. 26, Nov. 30, and Dec. 28, 1990 to shareholders of record on Oct. 17, Nov. 21 and Dec. 20, respectively.

These distributions are at the same rate as dividends paid for the prior period. Trust VI Preferred and Common Shares are listed in financial publications as ''Sierra VI pf'' and ''Sierra VI'', respectively.

Quarterly dividends of $.0750 per share were declared for Sierra Capital Realty Trust IV Co. (ASE:SZD) and are payable on Sept. 28, 1990 to shareholders of record on Sept. 20, 1990. These distributions are at the same rate as dividends paid for Trust IV in the prior period. Trust IV shares are listed in financial publications as ''Sierra Cap IV''.

Quarterly dividends of $.0875 per share were declared for Sierra Real Estate Equity Trust '83 (NASDAQ/OTC/NMS:SETBs) and are payable on Sept. 28 1990 to shareholders of record on Sept. 20, 1990. The distributions are at the same rate as dividends paid for Trust '83 in the prior period. Trust shares are listed in financial publications as ''Sierra 83''.

Sierra Capital Companies is a real estate asset manager and investment advisor specializing in the acquisition and management of light industrial buildings, community shopping center properties and other equity ventures for its public and institutional clients. Sierra Capital manages $622 million of commercial real estate which represents 13.25 million square

feet of leasable space nationally on behalf of approximately 43,000 investors.

PARK CITY, UTAH (SEPT. 10) BUSINESS WIRE - Fields Software Group, a new specialty software company, has been organized by Riverview Financial Corp., an affiliate of Mrs. Fields Cookies, and Paul R. Quinn has been named president of the new company, it was announced Monday by Randy Fields, chairman of Mrs. Fields Inc.

Fields Software Group will market a special computer software system known as Retail Operations Intelligence, or ROI. ROI is a knowledge-based proprietary software system that has been developed by Mrs. Fields as a complete store information management system. ROI is now used by Mrs. Fields in all the company's U.S. retail stores and in the company's La Petite Boulangerie bakery stores.

''Retail business is a daily business,'' said Randy Fields. ''Management must have daily data to know how a retail operation is doing. At the same time, local managers must be available to address customer and employee matters, and do not have time to spend excessive time reporting daily results to management.''

''ROI software allows for both. It allows management to receive daily data from hundreds of far-flung operations. At the same time, local store managers are able to spend most of their time attending to customers and staff matters,'' he said.

Fields said he was pleased to announce the appointment of Quinn as president of Fields Software Group.

Quinn is a recognized computer specialist, and has participated in the building of the Mrs. Fields information and communications systems, including the ROI software.

He joined Mrs. Fields Cookies in 1984 and was named a vice president of MIS in 1987. He holds a double bachelor of arts degree in business management and computer science from Idaho State University, and worked in the data processing field for several years prior to joining Mrs. Fields Cookies.

LIVERMORE, CALIF. (SEPT. 10) BUSINESS WIRE - An entirely new family of aerogels has been developed by scientists at Lawrence Livermore National Laboratory (LLNL).

Called organic aerogels, these super-lightweight materials are extremely similar to the silica aerogels that have attracted international attention from reporters and businesses in recent months.

First discovered in the 1930's, silica aerogels are a transparent, highly porous substance considered to be one of the world's lightest known solids.

In mid-January, LLNL scientists announced they had created a new silica aerogel about 10 times less dense than the previous lightest silica aerogels.

One fundamental difference between the two types of aerogels is that while the new organic aerogels are mainly componsed of carbon and hydrogen atoms the silica aerogels mainly consist of silicon dioxide (sand).

Livermore scientists are believed to be the only researchers in the world who have ever produced the new organic aerogels, according to LLNL polymer chemist Rick Pekala, the inventor of the new materials.

''We looked at the silica aerogel chemistry and we asked ourselves: 'Can we do this with organic chemistry?,' '' Pekala recalled. ''Our conclusion was: 'Yes, we can.' After we investigated several different approaches, we achieved success.''

To date, over the past three years, LLNL researchers have developed three new organic aerogels -- carbon, resorcinol-formaldehyde and melamine-formaldehyde, according to Pekala.

One of the organic aerogels may have even better insulation properties than silica aerogels, which have the highest thermal resistance of any solid ever tested, according to Pekala. Another organic aerogel could find use as a medium for metallic catalysts.

LLNL received a U.S. patent late last year for the resorcinol-formaldehyde and carbon aerogels and has filed additional patent applications for the production of the other aerogels.

The newest of the organic materials is the melamine-formaldehyde aerogel, which was developed this past spring. Like the silica aerogel, it has a bluish tint and is transparent. The other two organic materials are

colored black (the carbon) and reddish (the resorcinol-formaldehyde).

PHOENIX (SEPT 10) BUSINESS WIRE - Emerald Homes L.P. (NYSE:EHP), a Delaware limited partnership, Monday announced a loss of $10.2 million, or $1.94 per unit, for the second quarter ended June 30, 1990, compared with income of $478,000, or 6 cents per unit, during the second quarter of 1989.

Revenues for the second quarter of 1990 decreased 39 percent to $13.3 million from $21.9 million for the comparable 1989 quarter.

For the six months ended June 30, 1990, Emerald had a loss of $10 million, or $1.92 per unit, compared with income of $510,000, or 5 cents per unit, during the second quarter of 1989. Revenues for the first six months of 1990 increased 13 percent to $46 million from $40.6 million for the comparable 1989 quarter.

Results for 1990 include the California and Texas operations through March 21, 1990. On March 21, 1990, the California and Texas operations were sold to Verit Industries.

Unit deliveries decreased 17 percent to 108 in the second quarter of 1990 from 130 in 1989 and gross margins decreased to 3 percent in 1990 from 12 percent in 1989. For Arizona operations only, unit deliveries increased 135 percent from 46 in 1989 to 108 in 1990 and gross margins were 9 percent during the second quarter of 1989 compared to 3 percent in 1990.

''Our housing sales are still strong in Phoenix despite the difficult real estate market and slowing economy,'' said Lewis J. Wright, president and chief executive officer, ''however our margins remain slim due to these market conditions.''

Dollar backlog, for Arizona only, has increased 37 percent to $26.2 million (209 units) at June 30, 1990, from $19.1 million (130 units) at June 30, 1989.

New orders for the quarter ended June 30, 1990, increased 83 percent to 110 (Arizona only) from 60 (Arizona only) in the quarter ended June 30, 1989, Wright added.

During the quarter, the company took a $2.4 million mark-to-market loss on its ownership of Homeplex Mortgage Investments Corp. common stock.

Subsequent to June 30, the general partners of Quail Creek Country Club L.P. ceased sales activites due to the lack of financing. Emerald is a limited partner and has reserved for potential future losses its entire investment in the partnership of $4.5 million. The general partners are seeking new sources of financing.

''We continue to face difficulties in obtaining new sources of construction financing and are actively seeking additional capital which will assist in restructuring our debt and securing new borrowings for future operations,'' Wright concluded.

Emerald Homes L.P. designs, builds and markets single family homes in Arizona.

SAN JOSE, CALIF. (SEPT. 10) BUSINESS WIRE - Novellus Systems Inc. (NASDAQ/NMS:NVLS) Monday unveiled a new product that marks the company's entry into the tungsten deposition market.

The new system, the Concept One-W, deposits blanket tungsten metal films. (W is the chemical symbol for tungsten.) Tungsten is being increasingly used for contact/via filling and interconnect applications in advanced semiconductor devices.

In making the announcement, Novellus President Bob Graham stressed the productivity benefits of the new system. ''Our strategy with the Concept One-W is the same as our strategy for the original Concept One.

''We are providing systems that solve production cost problems of semiconductor manufacturers. The system provides high-quality films at a high net throughput and the lowest cost per wafer. The Concept One-W is targeted for those manufacturers who are planning to use tungsten films in volume production applications.''

The Concept One-W is based on the same simple design approach that contributes to the proven reliability of the Concept One.

Novelllus Systems Inc. manufactures, markets and services advanced automated wafer fabrication systems worldwide for semiconductor manufacturing development.

TORRANCE, CALIF. (SEPT. 10) BUSINESS WIRE - Epson America Inc. is setting an industry precedent with the announcement of a 5.8-pound personal computer that incorporates an 80386SX processor, black-on-white VGA graphics, a 3.5-inch floppy disk drive and a 20 MB or 40 MB hard drive.

With dimensions of 8.5-by-11.7-by-1.7 inches, the Epson NB3s computer fits easily into a briefcase for optimum portability. At the same time, it is a high-performance unit that accommodates up to 5 MB of random access memory and supports graphical user interfaces such as Microsoft's Windows.

Sanford Weisman, product manager, portable computers, said, ''The NB3s provides the portability of a notebook computer without sacrificing performance. Epson eliminated the bulk and weight that has traditionally been inherent to 386SX computers, but left in the power, memory, speed, expandability, keyboard and display capabilities.''

The Epson NB3s includes standard I/O ports that allow it to connect to serial devices, parallel printers, an external VGA monitor or a numeric keypad. With an easily installed 80387 math co-processor, users can perform financial computations using advanced software written for 386 systems. For expandability and added flexibility, the 20 MB and 40 MB hard disk drives are removable.

Mobile users can utilize a removable Ni-cad battery that has a life of two to three hours, and can be recharged in a quick two hours. User convenience is further enhanced by an array of automatic and manual power-saving features.

The Epson NB3s has a black-on-white screen that produces 16 shades of gray with 640-by-480 resolution. Video Graphics Array (VGA) technology provides the sharpest bit-map screen quality available. A back-lit liquid-crystal display (LCD) screen provides clarity that rivals today's top portables.

If additional power is required, the NB3s plugs into an optional docking station that can support an additional 120 MB of hard disk drive storage, two full-size AT slots, and an external 101-character keyboard. The computer and docking station have a combined weight of just 9.5 pounds, offering continued portability as well as desktop performance.

The Epson NB3s computer is scheduled for availability in late 1990, and will be displayed at the Comdex show in Las Vegas, Nov. 12-16.

Epson America is a manufacturer and marketer of personal computer and imaging products serving the North American marketplace.

SAN FRANCISCO (SEPT. 10) BUSINESS WIRE - The Bay Area's two oldest specialty coffee roasters took their final step toward merger Monday when the U.S. Bankruptcy Court approved a plan for the name, assets and inventories of United Coffee Corp., San Francisco, to be acquired for $3 million by Peerless Coffee Co., headquartered in Oakland.

The proposed merger was a key feature of the Chapter 11 bankruptcy plan filed with the court in mid-August by Cafco Coffee Inc., United's parent company.

Sonja Vukasin, co-proprietor of the family-owned Peerless firm, said the merger of United's operations with Peerless ''can now move to completion quickly and efficiently.'' United will operate as a division of Peerless and will continue to produce and market United's popular flavored coffees, varietals and blends under the United name.

Peerless will continue to operate the United roasting facility at 1455 3rd Street in San Francisco for the time being.

Both firms sell to upscale and moderate-priced restaurants, hotels, clubs, caterers and food markets concentrated in the western 16 states, as well as gourmet and specialty stores across the United States.

Among Peerless' and United's restaurant customers are such well known establishments as Trader Vics, Stars, The Blue Fox, California Cafe, Scott's Seafood, Julius' Castle, The Waterfront, Fleur De Lys and Embarco.

Peerless and United, both founded in the Bay Area in the 20's, have been family owned and operated businesses whose proprietors have taken a strong ''hands on'' approach to management, from roasting and blending to customer service.

At Peerless Coffee Co., the title of ''proprietor'' is shared by George Vukasin and his wife Sonja. The business was pioneered by Vukasin's father John, who died in 1975. George joined the company in 1957, and, as he likes to say, ''learned the coffee business from the ground up.''

DENVER (SEPT. 10) BUSINESS WIRE - CoCa Mines Inc. sold the remaining 752,835 shares that it held in Equity Silver Mines Ltd. at an average price of US $1.04.

This will result in a pre-tax gain of approximately $350,000.

The shares were sold in anticipation of developing the $46 million Grouse Creek project in Idaho. At Dec. 31, 1989, the two mineral deposits identified on the project encompassed eight million tons of ore containing 476,000 ounces of gold and 11,177,000 ounces of silver. CoCa Mines is currently completing infill drilling at the Grouse Creek South extension which is expected to add approximately two million tons of proven ore.

CoCa Mines Inc. is a North American gold producer. Its shares are listed on the NASDAQ (COCA) and Toronto Stock Exchange (CMI).

LOS ANGELES (SEPT. 11) BUSINESS WIRE - The mergers of Odyssey Entertainment Ltd. and Double Helix Films Inc. into Communications and Entertainment Corp. (ComEnt)(NASDAQ:CECO/CECO A) became effective Friday, Sept. 7, upon the filing of the appropriate merger documents with the Secretaries of State of Nevada and New York.

As of Monday, both classes of ComEnt Stock began trading on NASDAQ under the symbols CECO and CECO A for the common and Class A stock, respectively.

Double Helix common stock will be exchanged for shares of ComEnt common stock. Odyssey Entertainment common stock will be exchanged for shares of ComEnt Class A stock. Shares of Class A stock can be exchanged for .6375 shares of common stock.

ComEnt, based in Los Angeles, is primarily engaged in licensing the distribution rights to U.S. and foreign feature films in foreign markets. The company will develop the Double Helix library of films and produce, co-produce or provide financing for films. Through Odyssey Distributors, the company will package and distribute high-quality U.S. and foreign films on a worldwide basis.

ROSWELL, NM (SEPT. 11) BUSINESS WIRE - Robert O. Anderson, chairman and chief executive officer of Hondo Oil & Gas Co. (ASE:HOG), announced an indicated Ellenberger discovery in Irion County, Texas.

The Pipeline ''57'' well is located in the company's Scottish Rite block and is near the Crossroads wells drilled earlier this year.

The company submitted an initial potential test report to the Texas Railroad Commission indicating that the well flowed 503 barrels of 43-degree gravity oil in 24 hours on a 26/64-inch choke. The company owns 100 percent of the working interest in the well and in several thousand acres of leasehold in the block.

Anderson also reported that the company is enjoying a very strong fourth quarter of its current fiscal year. ''The profitable operation of the Fletcher refinery, the success of our drilling program and the recent surge in crude oil prices have had a major and favorable impact on the company,'' he said.

CALGARY, Alberta (SEPT. 11) BUSINESS WIRE - Sceptre Resources Ltd. (ASE:SRL, ToSE/MoSE:SRL.) announced Monday that the company has substantially completed the placement of a crude oil price hedge through the New York Mercantile Exchange to lock-in the currently available high crude oil prices for 50 percent of Sceptre's expected crude oil and liquids production for the 15-month period October 1990 to December 1991.

To date, Sceptre has sold forward 4.5 million barrels of crude oil in approximately equal monthly increments for the period at a weighted average realized price of U.S. $26.15 West Texas Intermediate (W.T.I.).

The total hedge position includes 0.9 million barrels of remaining 1990 production at a weighted average realized price of U.S. $28.81 W.T.I., and 3.6 million barrels of 1991 production at a weighted average realized price of U.S. $25.48 W.T.I. As the market permits, the company is planning to increase its 1991 hedge position to reach approximately 50

percent of estimated 1991 production.

The assurance that about half of the company's crude oil production will receive prices higher than previously expected over the remainder of 1990 and 1991 will enhance the certainty of improved financial results and the company's capacity to plan expanded capital expenditure programs.

MISSION VIEJO, Calif. (SEPT. 10) BUSINESS WIRE - Strategic Acquisitions Inc., a Nevada corporation, announced Monday that it had completed a merger with Viatool Corp., a privately held California corporation, whereby Viatool was merged with and into Strategic with Strategic being the surviving corporation.

According to representatives at Strategic, all of the issued and outstanding shares of capital stock of Viatool, consisting of 10,333,333 common shares, were converted into 10,333,333 newly issued, restricted shares of Strategic's $.001 par value common stock pursuant to the merger, resulting in the prior shareholders of Viatool owning 86.59 percent of the currently issued and outstanding common stock of Strategic.

Five hundred thousand of the shares of Strategic common stock issued in the merger are currently being held in escrow pending completion of an audit of Viatool's financial statements at which time, based on the results of the audit, the shares will either be delivered to the prior Viatool shareholders or cancelled.

As a result of the merger, Strategic has acquired a wholly owned subsidiary, Trio Metal Stampings Inc., a Nevada corporation, which is in the business of providing high-quality short-run metal stamping.

Viatool was in the business of designing and producing metal and plastic components and subassemblies for original equipment manufacturers (OEMs). It provided soft-tooling services for metal stampings, machined components and electro-mechanical subassemblies. Strategic intends to continue the businesses of both Viatool and Trio Metal Stampings Inc.

As a result of the merger, Scott H. Meeker, the prior president, director

and majority shareholder of Viatool, has become the sole director and sole officer of Strategic. Management intends to change the name of the company to ''Viatool Industries Inc.''

#90253b0314 09/10/1990 ~Business Wire

SEATTLE (SEPT. 11) BUSINESS WIRE - Olympic Savings Bank (NASDAQ:OSBW) announced Monday that it will be recording an adjustment to its financial statements to reflect a $1.6 million after-tax reduction in prior period net earnings.

The bank said the adjustment results from a determination by the Office of Thrift Supervision (OTS) that certain gains on the sale of loan servicing recognized in 1989 and in 1990 should be deferred and recognized as income over the estimated life of certain related mortgage-backed securities, rather than recognized at the time of sale.

Olympic said the adjustment to retained earnings will have the additional effect of reducing Olympic's capital and will put it out of compliance with the capital restoration plan filed earlier with the OTS. After adjustments, Olympic's shareholder equity was $2.7 million at June 30, 1990, and stated book value was $2.02 per share. The bank had total assets of $247.5 million at June 30, 1990, compared to $229.9 million one year earlier.

''Local OTS officials have indicated that they will allow Olympic Savings Bank to submit a revised Capital Restoration Plan in light of the fact that the accounting treatment will reduce the bank's capital and put it out of compliance with the Capital Restoration Plan approved earlier this year by the OTS,'' said John W. Fuller, chairman and CEO. Olympic's original Capital Restoration Plan was approved by the OTS in April 1990.

Fuller said gains which the OTS believes should be deferred resulted from the 1989 and 1990 sale of loan servicing rights relating to certain mortgage-backed securities which have been used by Olympic in a transaction referred to as a ''dollar reverse repurchase'' transaction. Prior to the time of the transaction, Olympic sought and received a written opinion from its independent accountants, Price Waterhouse, that the transaction and the proposed accounting treatment of it would be in accordance with Generally Accepted Accounting Principles (GAAP).

''The transaction and the independent accountants' written opinion relating to it were examined by the OTS without comment in connection with its examination of Olympic in November 1989,'' Fuller noted.

''Nevertheless, the OTS has now notified Olympic that it has changed its position with respect to the appropriate accounting for this particular transaction and is requiring the indicated adjustment.''

Olympic stated that had this adjustment been recorded earlier it would have had the effect of reducing Olympic's 1989 earnings to a loss of $2.6 million from the previously reported loss of $1.7 million and the 1990 six month earnings to a loss of $1.7 million from the previously reported loss of $1.0 million. The bank said $1.1 million of the $2.5 million income that Olympic previously reported from gains on sale of loan serving will continue to be recognized as before-tax income in 1989. Gains on such sales can be recognized at the time of sale if the selling institution also disposes of the loans or mortgage-backed securities to which the servicing relates.

Headquartered in Seattle, Olympic Savings Bank serves 44,000 customers through 26 full-service branches in Western Washington. Olympic has 17 branches located in Puget Sound-area supermarkets and nine free-standing branches.

BLUE BELL, PA (SEPT. 10)--U.S. Bioscience Inc. (ASE:UBS), a company specializing in the development and commercialization of anticancer compounds, announced an agreement with David Bull Laboratories Pty. Ltd. (DBL), the injectable products division of the Australian Pharmaceutical Group, F.H. Faulding and Co. Ltd., pursuant to which DBL is granted marketing rights to Hexalen, an oral anticancer agent for advanced ovarian cancer, in Australia and New Zealand.

The company submitted a new drug application for Hexalen in 1988, which is pending. The agreement involves up-front payments, future royalties and cooperation in the manufacture of these products.

In addition to Hexalen, DBL will have the option to acquire rights in the same territory for five other anticancer drugs currently under development by U.S. Bioscience. Among these is Ethyol, a chemo/radiation protective agent which, in clinical trials, has exhibited the ability to reduce or prevent the toxicity normally associated with cancer treatment.

''David Bull Laboratories is a strong company with a record of success in

the field of anticancer sales. In addition, their manufacturing capability makes them an ideal partner, especially in the Pacific where we do not have resources to market directly,'' said Dr. Philip Schein, chief executive officer of U.S. Bioscience.

U.S. Bioscience is a pharmaceutical company specializing in drugs to increase survival and productivity in patients with cancer. The company's portfolio includes an array of compounds, some of which are in late stages of development (one pending NDA, two in Phase III and one in Phase II clinical trials).

ALAMEDA, CA (SEPT. 10) BUSINESS WIRE - Ithaca Software, the developer of the HOOPS Graphics System, has appointed CAT Software as its Texas area representative.

CAT Software's operations, based in Hurst, Texas, are under the direction of Lou Marchant and Linda Yates, and service the states of Texas, Oklahoma, Louisiana and Arkansas.

Prior to founding CAT Software in March, Marchant was senior account executive of Template Graphics Software Inc. She opened its Texas office in 1988 and was responsible for sales of 3-D graphics applications in the central time zone. In 1989, Marchant was awarded Template Graphics Software's award for the most product ever sold in one year.

Marchant has extensive sales experience in software, and super minicomputers manufactured for the aerospace and defense industries, as well as turnkey CADD systems. She has a bachelor of science degree in architecture from the University of Texas at Arlington and a master of science degree in civil engineering from Southern Methodist University.

Prior to founding CAT Software with Marchant, Yates was sales assistant to Marchant at Template Graphics Software Inc. and at ELXSI. She has a bachelor of science degree in sociology from North Texas State University.

In August of 1986, Ithaca Software introduced the HOOPS Graphics System at ACM Siggraph '86. Since 1987, HOOPS has been licensed to thousands of software developers at more than 500 commercial and 100 academic sites. In 1988, HOOPS won a Digital Review Target Award Nomination. In 1989, HOOPS received BYTE magazine's Award of Distinction.

HOOPS is an integrated library of software routines used by software

developers to create highly interactive 3-D graphics applications. In addition, the system is licensed by hardware manufacturers as a programming interface for graphics devices. The library is written in C and may be called by C or Fortran applications.

HOOPS provides programmers with all of the tools necessary to build complete 2-D or 3-D applications using vector or raster graphics. Because of its platform independent design, HOOPS application can be ported, without modification, across a wide range of platforms.

Ithaca Software develops, markets and supports interactive graphics software development systems for personal workstations. Ithaca Software, incorporated in 1985, is a privately held company based in Alameda.

#90253b0619 09/10/1990 ~Business Wire

SAN JOSE, CALIF. (SEPT. 10) BUSINESS WIRE - Seiko Instruments USA Inc. announced Monday it has bundled its 20-inch (19-inch viewing), CM-2050 color monitor with an Orchid Technology's ProDesigner II video board for IBM-PC compatible computers.

This bundle is the most cost-effective, 20-inch, 1024 x 768 non-interlaced color video system available in the market today. In addition, Seiko Instruments CM-2050 uses an enhanced Trinitron technology that provides color brightness and sharpness superior to other video systems costing much more: $4,300 to $6,000.

The package includes a free $469, state-of-the-art video board from Orchid Technology with the purchase of a CM-2050 color monitor at the regular price of $2,999.

Together, the monitor and video card comprise a complete video system that supports VGA, Super VGA and resolutions up to 1024 x 768 pixels, non-interlaced.

This 1024 x 768 resolution allows the user to view 2.5 times more information than a 640 x 480 VGA resolution and enables users to see the working area of two letter-size pages viewed side-by-side.

Users will find the CM-2050's large screen highly productive for page layouts, CAD/CAM, presentation graphics and large spreadsheets.

''We believe these two products jointly offer the fastest, sharpest and brightest high-resolution images at a list price of $2,999,'' said Hiro Motoshima, general manager of the Seiko Instruments PC Products Division.

Features of the CM-2050 color monitor include a Trinitron CRT for higher resolution, sharper focus, better contrast and less glare than a conventional cathode ray tube. In addition, the CM-2050 offers a dark background CRT for brighter colors, a tilt and swivel base, and true linear tracking, which automatically syncs with all video-board frequencies from VGA to 1024 x 768, non-interlaced.

Seiko Instruments USA is an affiliate of Seiko Instruments Inc., a major international manufacturer of watches, computer graphics devices, consumer electronics, LCD-based products, electronic components, scientific instruments, robotics and photomask repair equipment.

The PC Products Division markets color monitors, digitizing tablets and tables, and the Smart Label Printer for IBM PC-compatible and Macintosh computers. The division is located at 1144 Ringwood Court, San Jose, 95131; 408/922-5900.

Orchid Technology is located at 45365 Northport Loop West, Fremont, Calif. 94538.

#90253b0624 09/10/1990 ~Business Wire

SAN JOSE, CALIF. (SEPT. 10) BUSINESS WIRE - Plus Logic Inc., Monday released version 2.0 of its PLUSTRAN Design System, which supports its PLUS Array line of high performance field programmable gate arrays (FPGAs).

PLUSTRAN reads a circuit description prepared on industry standard design tools, compiles the information into optimized logic patterns and then maps those logic patterns onto the target device in minutes. The new release, PLUSTRAN 2.0, broadens support for 286 and 386 PC CAD tools, and adds support for Sun 3 and 4 UNIX CAD tools.

Through automatic partitioning, minimization and optimization, PLUSTRAN

2.0 provides an average of 20 percent greater utilization of Plus' family of high performance FPGAs over PLUSTRAN 1.0. The user interface has also been improved, making it even easier for system designers to get started.

PC and UNIX schematic capture packages now supported by PLUSTRAN 2.0 include those from Data I/O (FutureNet Dash), Viewlogic and OrCAD and behavioral languages from Data I/O (ABEL), Logical Devices (CUPL) and Advanced Micro Devices (PALASM). Plus Logic supplies a library of components for each supported schematic capture tool. Mentor Schematic Capture System will be supported by the end of the fourth quarter.

With PLUSTRAN 2.0's improved logic minimization, Plus Logic's FPGA2020, a 4000 gate equivalent part, becomes a 4800-5000 gate equivalent part. This increase in density and performance is due to improvements in the optimizer/minimizer which speeds up portions of the design by merging and combining functions in a single timing pass through the chip.

Plus Logic Inc. is a semiconductor company providing award-winning, innovative high performance silicon products and software design tools for the programmable gate array and subsystem logic market worldwide. For more information, contact Plus Logic, 1255 Parkmoor Avenue, San Jose 95126. Phone: 408/293-7587 (PLUS). FAX: 408/298-7587 (PLUS).

#90253b0625 09/10/1990 ~Business Wire

DAYTON, OHIO (SEPT. 10) BUSINESS WIRE - NCR Corp. Monday became the first major vendor to announce a high-speed wireless local-area network (LAN) which eliminates the need for wiring to connect personal computers in office settings.

Called NCR WaveLAN, it transmits data at 2 million bits per second (Mbs), more than nine times faster than any other wireless LAN currently available. It is also compatible with Novell NetWare and features ''spread-spectrum frequency technology,'' which provides highly-reliable data transmission without interference or interception.

NCR WaveLAN is designed for businesses wanting additional flexibility in the location and movement of PCs and LANs. Many face high costs or barriers to installing LAN cabling, such as in older buildings. WaveLAN is also easier to install than traditional wired LANs, because it doesn't require cabling.

''WaveLAN's speed and reliability features make it ideal to create a wireless LAN in office, educational and retail settings, using industry standards for PC hardware and software,'' said Robert James, vice president of NCR's Cooperative Marketing Division.

''WaveLAN is the ideal product for the office because it provides the flexibility and freedom to put people and PCs wherever they need to be, without the time and costs required to install or move wired LANs.'' said James.

The product consists of a single printed-circuit board, which fits into the expansion slot of an IBM PC/AT or compatible, connected to an omni-directional antenna housed in a 3-inch-square case. The antenna is mounted nearby, such as on the PC cabinet, a wall or office partition.

NCR's WaveLAN has a suggested price of $1,390 for the Network Interface Card including Novell drivers and the omni-directional antenna, and $90 for the optional DES (Data Encryption Standard) security feature.

NCR Corp., with headquarters in Dayton, develops, manufactures, markets and supports business information processing systems for worldwide markets.

#90253b0626 09/10/1990 ~Business Wire

SAN JOSE, CALIF. (SEPT. 10) BUSINESS WIRE - PEER Reseach Inc. of San Jose, Monday announced that David A. Laws has been appointed president and chief executive officer.

Prior to joining PEER, Laws was vice president of marketing for Altera Corp. Altera, also of San Jose, is the world's largest supplier of CMOS Programmable Logic Devices. Laws joined Altera in 1986 from Advanced Micro Devices where he was vice president of business development. During his 11 years at AMD, Laws was also responsible for managing the Programmable Logic products business unit.

PEER was founded by three engineers, John Birkner, Andrew Chan, and H.T. Chua, who have worked together as a team for more than 14 years. While at Monolithic Memories Inc. (since acquired by AMD) they were responsible for the development of the original PAL devices which form the basis for today's Programmable Logic Device market.

PEER has developed a unique technology for the fabrication of very high performance user-programmable, CMOS ASIC devices. The first products are scheduled for introduction in 1991.

''I was attracted to PEER, because its approach promises to provide, for the first time, user-programmable devices matching both the speed and the low power of custom masked gate arrays,'' said Laws.

''Today's FPGAs, while well accepted in low speed applications, cannot keep pace with the ever-increasing performance of microprocessors. PEER products will open a whole new spectrum of applications to high density programmable solutions.''

The company also announced the closing of its first major round of financing. Investors include Sequoia Capital, Sutter Hill, Technolgy Venture Investors, and U.S. Venture Partners.

Irwin Federman of U.S. Venture Partners, who was president of Monolithic Memories during its pioneering efforts in the PAL device business, said, ''I am pleased to continue my association with the founders of PEER. It looks as if they have come up with another invention which will prove to be just as important as their PAL blockbuster.''

PEER Research Inc. is located at 99 Tasman Drive, Suite 112, San Jose, Calif., 95134.

#90253b0628 09/10/1990 ~Business Wire

ENGLEWOOD, COLO. (SEPT. 10) BUSINESS WIRE - Nu-West Industries Inc. (NASDAQ:FERT) announced a consolidated net loss of $52.9 million, or $3.77 per common share, for the fiscal year ended June 30, compared to a consolidated net loss of $9.4 million, or 69 cents per common share, for the fiscal year ended June 30, 1989.

Net product sales were $93.8 million and gross margin was $1.1 million for the year ended June 30, compared to $154.7 million and $5.2 million for the year ended June 30, 1989.

The company's current period results of operations were impacted by the disposition of its Gulf Coast subsidiaries, Nu-Gulf Industries Inc. and Nu-South Industries Inc. The company sold the capital stock of Nu-Gulf on

Jan. 31.

Nu-South filed a voluntary petition for liquidation under Chapter 7 of the U.S. Bankruptcy Code on Feb. 1. The consolidated net loss for the current period includes a $36.4 million loss provision for these dispositions.

In addition, the Gulf Coast subsidiaries incurred idle plant expenses and operating losses totaling $9.6 million during the current fiscal year prior to the disposition.

The remaining operating assets of the company are its Conda phosphate fertilizer and related mining operations located at Soda Springs, Idaho. On a proforma basis for the Conda operations, the company reported earnings before interest of $1.0 million for the current fiscal year vs. the prior year total of $11.1 million.

Product sales totaled $81.4 million vs. prior year sales of $86.9 million. Interest expense of $8.6 million resulted in a net loss of $7.6 million for the current year compared to prior year interest expense of $2.8 million and income of $8.3 million for the Conda operations.

Results for the fourth quarter 1990, relating to the continuing operations at the Conda facility, reflect the combination of a small net income reduced by a $4.3 million writedown of the note receivable on the sale of Nu-Gulf, for a net loss for the quarter of $4.2 million.

Based on management's assessment of its risk-adjusted, currently realizable value, the note receivable from Gulf Atlantic Corp. from the sale of Nu-Gulf has been reduced to $2.5 million. Net product sales for the fourth quarter 1990 were $21.1 million, compared with $22.4 million for the prior year period.

Nu-West is engaged in the manufacture and sale of phosphate fertilizer products.

#90253b0634 09/10/1990 ~Business Wire

MILPITAS, CA (SEPT. 10) BUSINESS WIRE - NetFRAME Systems Inc. Monday announced that Ing. C. Olivetti & C., S.p.A. will market NetFRAME's family of network computer systems on an OEM basis to corporate customers throughout Europe, Canada and Australia.

The systems will be distributed by Olivetti Systems & Networks (OS&N), the Olivetti Group company dedicated to distributed data processing, as well as

through authorized Olivetti resellers on a country by country basis. The value of the agreement is estimated at $200 million over the next three years.

NetFRAME's ''network mainframes'' -- a family of network file and application servers designed to run industry standard network operating systems including NetWare 386 and OS/2 LAN Manager -- were introduced one year ago, and have been shipping to corporate customers since late 1989.

They combine the high reliability, data integrity and computing power of mainframes with the manageability, flexibility and cost advantages of personal computers. The result is the first dedicated server platform for the PC LAN environment offering faster and more cost-effective implementation of strategic systems and new levels of business productivity and organizational effectiveness.

''Olivetti is well positioned in many countries as a provider of systems solutions,'' noted Enzo Torresi, NetFRAME president and chief executive officer. ''We are excited to be an integral part of their strategy, and about the opportunities our partnership opens up for both companies.

''The PC LAN market around the world is demonstrating a continued healthy growth rate, and the Olivetti-NetFRAME server will provide companies with the solution they need to take full advantage of the benefits of PC networks,'' Torresi added.

NetFRAME Systems Inc. is a privately held company started in 1987 by Carlton G. Amdahl, a veteran mainframe computer scientist, and Enzo Torresi, co-founder of Businessland Inc. The company designs, manufactures and markets a family of network servers designed specifically for client/server computing in corporate environments.

The Olivetti Group, based in Ivrea, Italy, is a leading Europe-based information technology company and is ranked among the top 10 computer systems companies worldwide. It is active at the forefront of the computer and office automation industries with innovative products ranging from personal and minicomputers, to specialized workstations and office equipment.

#90253b0636 09/10/1990 ~Business Wire

TULSA, OKLA. (SEPT. 10) BUSINESS WIRE - Geodyne Resources Inc. Geodyne Resources, Inc. (NASDAQ: GEOD) Monday announced that the $150 million registration of units in its PaineWebber/Geodyne Institutional/Pension

Energy Income Program II was declared effective by the Securities and Exchange Commission on Aug. 15.

Units in the first partnership expected to be activated under this Program the P-7 Limited Partnership, are currently being offered.

The company also said that cumulative investor subscriptions for the calendar year for all of its Energy Income Programs were 26 percent ahead of 1989 as of Aug. 31. This year's cumulative investor subscriptions stood at $84.2 million compared to $66.8 million for the same period in 1989.

Total Energy Income Program investments now stand at $488 million. Sales of currently open currently open PaineWebber/Geodyne Energy Income Limited Partnership III-E and PaineWebber/Geodyne Institutional/Pension Energy Income Limited Partnership P-7 are included in these figures through Aug. 31.

On Sept. 5, 1990, PaineWebber/Geodyne Energy Income Limited Partnership III-D was activated with subscriptions totalling $13,100,800 from 823 investors and the PaineWebber/Geodyne Institutional/Pension Energy Income Limited Partnership P-6 was activated with subscriptions totalling $14,304,100 from 948 investors.

Acquisitions made on behalf of these partnerships during the company's second fiscal quarter will have an impact on Geodyne's earnings for the period ended Aug. 31, 1990. Estimated acquisitions for the period are approximately $19.5 million, which will result in the recognition of management fee income and marketing expense, compared to $15.9 million of acquisitions in the same period of the previous fiscal year.

Headquartered in Tulsa, Geodyne Resources, Inc. manages the PaineWebber/Geodyne Energy Income Programs I, II and III and PaineWebber/Geodyne Institutional/Pension Energy Income Programs I and II and evaluates, acquires, manages and develops oil and gas reserves for its limited partnerships. The company also has offices in Houston and San Antonio.

No offer of units in either PaineWebber/Geodyne Energy Income Program III or PaineWebber/Geodyne Institutional/Pension Energy Income Program II is being made hereby. Any such offer may only be made by a prospectus covering the respective program.

SAN DIEGO (SEPT. 10) BUSINESS WIRE - Gensia Pharmaceuticals Inc. (NASDAQ:GNSA) Monday announced that Ian McBeath has joined the company as vice president, Gensia Europe Ltd.

McBeath will be responsible for overseeing ongoing and planned clinical trials in Europe for the company's two initial pharmaceutical products leading up to European regulatory submissions. He will also be developing pre-marketing programs in Europe for these products, according to David F. Hale, president and chief executive officer.

''Ian's background includes nearly 20 years of management in the pharmaceutical industry,'' Hale said.

''His experience in sales, marketing and the launch of pharmaceutical products will be very important to the successful commercialization of Gensia's future product introductions for the treatment and diagnosis of cardiovascular disease, and eventually for the treatment of cerebrovascular and neurological diseases.''

Prior to joining Gensia, McBeath was marketing director for ICI Pharmaceuticals in Manchester, England. He was responsible for the marketing of pharmaceutical products for both ICI Pharmaceuticals and Stuart Laboratories in the United Kingdom.

McBeath also served as marketing manager and national sales manager with ICI, where he launched products in three major therapeutic areas.

From 1980 to 1985, McBeath was with Ortho Pharmaceuticals in the United Kingdom, ending as European market development manager. One of his key achievements during this time was the establishment of a new subsidiary in Ireland. McBeath also served as national sales manager and marketing manager with Ortho.

McBeath began his career in the pharmaceutical industry at Beecham Pharmaceuticals, where he held positions as medical representative, promotions manager and marketing services manager.

Gensia Pharmaceuticals Inc. is a San Diego-based biopharmaceutical company

formed to discover, develop, manufacture and market novel pharmaceutical products for the treatment and diagnosis of human diseases.

BOSTON (SEPT. 10) BUSINESS WIRE - Eastern Utilities Associates (EUA) announced Monday that it was extending its $40 cash tender offer for UNITIL Corp. (UNITIL) until midnight, New York City time, Friday, Oct. 26, 1990, to allow the Securities and Exchange Commission and the New Hampshire Public Utilities Commission to continue their review of the proposed acquisition.

In announcing the extension EUA chairman Donald G. Pardus stated: ''EUA has been voluntarily demonstrating the benefits of its offer to UNITIL shareholders and ratepayers before the New Hampshire Public Utilities Commission for several months now. EUA is extremely pleased with the progress of these hearings and expects a decision from the New Hampshire PUC sometime in the late fall.''

Pardus further stated: ''EUA intends to vigorously pursue all available regulatory paths necessary to allow UNITIL shareholders to vote on our tender offer. Of course, we remain willing to negotiate a friendly transation with UNITIL which would avoid unnecessary costs and further delay. If UNITIL shareholders prefer, we are also willing to consider a stock-for-stock exchange in conjunction with our cash offer.''

98,421 shares of UNITIL common stock have already been tendered in response to EUA's tender offer for UNITIL.

UNITIL provides electric service to approximately 59,500 customers in 31 communities in two areas of New Hampshire, the greater Concord and Seacoast areas, according to its latest annual report.

EUA is a Boston-based, investor-owned, holding company whose shares are traded on the New York and Pacific Stock Exchanges. Subsidiaries are Blackstone Valley Electric Co., Eastern Edison Co., Montaup Electric Co., Newport Electric Corp., EUA Cogenex Corp., EUA Energy Investment Corp., EUA Ocean State Corp., EUA Power Corp., and EUA Service Corp.

Together, the companies are known as the EUA System. The EUA System provides electric service to approximately 287,000 customers in Massachusetts and Rhode Island.

#90253b0650 09/10/1990 ~Business Wire
CAMBRIDGE, MASS. (SEPT. 10) BUSINESS WIRE - Lotus Development Corp. Monday announced the immediate availability of 1-2-3 Release 3.1.

The new spreadsheet is a major upgrade to the best-selling 1-2-3 that provides an easy-to-use, WYSIWYG (What-You-See-Is-What-You-Get) graphical environment, combined with powerful analytic tools and advanced spreadsheet publishing.

Designed for users who need to easily organize, analyze, and present spreadsheet information, 1-2-3 Release 3.1 supports DOS and DOS with Windows 3.0.

Lotus is supporting the 1-2-3 Release 3.1 product launch with an aggressive advertising and promotional campaign. This campaign includes a new program that enables users to upgrade instantly at participating computer retail stores.

Within the graphical environment of 1-2-3 Release 3.1, users can perform all spreadsheet operations using either the keyboard or the mouse, without leaving the familiar 1-2-3 program. This includes the ability to modify or enter spreadsheet information, add color, change fonts, and print presentation-quality output.

''With 1-2-3 Release 3.1, users are not only getting the best spreadsheet available, they're also getting the only product that is keystroke, macro, and data compatible with the spreadsheet used by more than 12 million people today,'' said Marty Fahey, director of marketing for Lotus' PC spreadsheets. ''We'll be aggressively marketing Release 3.1 with a multimillion dollar advertising and promotional campaign aimed at reaching millions of potential upgraders and new users in the coming months.''

Benjamin Goldfarb, manager of personal computing services at StarKist Seafood Company said, ''1-2-3 Release 3.1 is what I've been waiting for -- a spreadsheet that I can use on my PC today -- without purchasing new hardware, re-learning keystrokes, or losing valuable time converting my applications.''

1-2-3 Release 3.1 is compatible with Windows 3.0, and includes a file that automatically configures the product for use with Windows 3.0. Users can launch Release 3.1 by clicking on an icon from the Windows desktop, transfer data between applications through the Windows clipboard, and run their application in a sizable window with a text display. When operating under Windows 3.0 386/Enhanced mode, 1-2-3 Release 3.1 uses

Windows memory management facilities, allowing 1-2-3 users to take advantage of task-switching capabilities.

New In-Store Upgrade Program Makes Upgrading Easier

Several Lotus Authorized Resellers including Egghead Discount Software, Computerland, and Soft Warehouse will be participating in a new Lotus program that makes it easier and more convenient for users to upgrade to 1-2-3 Release 3.1 or Release 2.2.

Through this program, a 1-2-3 user can upgrade by simply turning in the original title page of their 1-2-3 reference manual. Alternatively, 1-2-3 customers may continue to upgrade directly through Lotus by calling 1-800-TRADEUP for upgrade mailing instructions or through the Lotus Selects catalogue at 1-800-635-6887.

A similar program is in place for corporate resellers. According to Richard Sloane, president of Softmart, this program benefits the Lotus customer and reseller. ''Lotus is making it simple for our customers to upgrade to 1-2-3 Release 3.1 by providing us with the capability to deliver upgrades instantly and directly to the user,'' Sloane said.

Superior Combination of Analytic Tools, Publishing and Presentation Features;

New Memory Management System

1-2-3 Release 3.1 offers a superior combination of analytic tools, and the widest range of publishing and presentation features found in any spreadsheet available today.

Only 1-2-3 Release 3.1 enables users looking for sophisticated publishing and presentation capabilities to: automatically compress print to fit on a single page; use more than 96 type styles in a single worksheet; set drop shadows in a single step; use a built-in mini word processor; choose graph colors from a palette of 224 colors and hatching patterns; view pagination directly on the worksheet; format multiple worksheets simultaneously; and automatically wrap text around a graph.

In addition, 1-2-3 Release 3.1 provides a set of tools for enabling users to more easily access and analyze data, using spreadsheet technologies provided only by Lotus. These include: DataLens external data access; advanced relational database capabilities; and powerful application development tools via the Lotus Add-in Toolkit.

The product's new virtual memory management system enables users to allocate an area of their hard disk as workspace, making it possible to create larger spreadsheets in less memory. In addition, the product's

compatibility with a wider range of PC AT compatibles eases software installation and configuration.

Many New Enhancement Products Available

Lotus 1-2-3 Release 2.01 and 2.2 users who upgrade to Release 3.1 will find more than 200 enhancement products available, ranging from tax planning packages to file compression and data recovery utilities. Many of these enhancement products were previously only available to 1-2-3 Release 2.01 and 2.2 users. In addition, Lotus will be providing corporate and independent software developers with an updated Add-in Toolkit for 1-2-3 Release 3.1 in the fourth quarter of this year. The Add-in Toolkit provides users with ability to customize, extend, and automate 1-2-3 by building custom functions, macro keywords, menus and dialog boxes, as well as complete turn-key applications.

System Requirements, Pricing, and Upgrades

1-2-3 Release 3.1 requires an IBM PC AT, PS/2, Compaq or compatible (with an 80286 or higher microprocessor), a hard disk, one megabyte of available system RAM, and DOS 3.0 or higher.

The suggested retail price of the 1-2-3 Release 3.1 Standard Edition is $595. The network Server and Node Editions of the product will be available in the fourth quarter of 1990 at a suggested retail price of $795 and $495, respectively.

All customers who purchased 1-2-3 Release 3.0 before May 7, 1990, may upgrade to Release 3.1 for $35. Users who buy or have bought 1-2-3 Release 3.0 on or after May 7, 1990, are entitled to a free upgrade to Release 3.1 through December 31, 1990. 1-2-3 Release 2.2 users may upgrade for a suggested retail price of $75 through December 31, 1990. Users of 1-2-3 Releases 1, 1A, 2, and 2.01 may upgrade to 1-2-3 Release 3.1 for a suggested retail price of $150.

Registered users of 1-2-3 Release 3.1 automatically receive six months of unlimited, toll-free access to Lotus' 1-2-3 support specialists, 24 hours a day, seven days a week. At the end of six months, users may elect to continue premium support, or use the company's standard support service.

Lotus Development Corporation is the leading provider of applications software for personal computers and information services delivered on CD-ROM, and is a worldwide supplier of applications software for workstations, minicomputers and mainframes.

All prices and terms are for the U.S.A. only.

SCOTTSDALE, AZ (SEPT. 10) BUSINESS WIRE - Interactive Media Technologies Inc. (NASDAQ:IMTH) and Canon Sales Co. Inc. of Japan (OTC:CANNY) jointly announced the signing of a final agreement for Canon Sales' exclusive distribution in Japan of IMT's present and future products, including its multimedia integration system, the IMTX 8000, according to R. Glenn Williamson, chairman/chief executive officer of IMT.

''This agreement with Canon Sales is another major step in our worldwide distribution and development plans,'' Williamson said. ''As our product is just beginning to ship, this agreement is a perfect fit for our mutual marketing strategies.''

Canon Sales is a leading developer and distributor of Apple, NeXT, Hewlett-Packard, Digital Equipment Corp. hardware and related software products in Japan. Canon Sales will position the IMTX 8000 as the core of their multimedia systems.

The IMTX 8000 will be introduced to the Japanese market at the International Multimedia Conference in Makuhari, Oct. 9 to 12 of this year. In addition, Canon Sales has agreed to demonstrate the IMTX 8000 at their private corporate show in November and at MacWorld-Japan in February 1991.

The IMTX 8000 is the industry's first multimedia integration system. It is a combination hardware and software product that will enable desktop users to produce studio-quality videos at a fraction of the time and cost involved using current technology.

Canon Sales Co., a publicly-traded division of Canon Inc., provides sales and distribution for Canon products worldwide as well as for Apple products throughout Japan.

#90253b0669 09/10/1990 ~Business Wire

NEWFIELD, N.Y. (SEPT. 10) BUSINESS WIRE - Palisade today announced the upcoming release of a new version of RISK for Lotus 1-2-3 Release 3.1. RISK is a risk analysis and modeling add-in, first introduced in April 1988.

It uses simulation techniques to let users graphically see the implications of thousands of possible scenarios on their worksheet models. RISK currently supports Lotus 1-2-3 Release 2.0, 2.01, 2.2 and Symphony 2.0, 2.2.

The availability of new development tools for Release 3.1 from Lotus Development Corp. has enabled the project to move forward for an anticipated release date of January 1991. Once the Release 3.1 version of RISK is shipping, Palisade will be working to extend its availability to other platforms supported by Lotus, including 1-2-3/M for IBM Mainframe 1-2-3/G for OS/2 Presentation Manager, and the UNIX versions of 1-2-3.

''We are taking advantage of the many new features and graphic capabilities in Release 3.1 to offer RISK users added power, added convenience, and improved graphics,'' said Dr. Doug Stauffer, Vice President, Palisade Corporation. Palisade plans to fully integrate RISK into the Release 3.1 environment, making use of the improved graphics in Release 3.1 to present graphic risk analysis results and statistics.

A key feature for many users is the 3D capability that Release 3.1 and RISK will give users. ''Some enormous benefits will be realized by users when they are able to apply RISK to 3D worksheets. The ability to correctly and easily relate an uncertain variable in one worksheet to another worksheet dramatically increases the analytical capabilities of users,'' said Sam McLafferty, President, Palisade Corporation.

''RISK has gained widespread acceptance in both the academic and corporate markets,'' said Paul McNulty, Lotus' Director of Marketing for 1-2-3 Release 3.1. ''With the availability of RISK for 1-2-3 Release 3.1, Lotus customers can combine a proven risk analysis tool with the power and new features of Lotus' advanced graphical spreadsheet.''

Palisade has been receiving a growing number of requests for an RISK version to support Release 3.X, both domestically and internationally. Company officials indicated that requests have come from a variety of industries, academia, and government, reflecting the horizontal nature of the installed base of RISK users.

RISK currently is in use at many Fortune 1000 companies and by over 200 universities worldwide. For the past 2 years, RISK has been a required purchase for all incoming MBAs at Harvard Business School, along with 1-2-3 and WordPerfect. Palisade has licensed RISK resellers in the UK,

France, Holland, Belgium, Norway, Australia, New Zealand, and Japan.

General Product and Company Information.

RISK uses probability distributions and proven simulation techniques to evaluate even the most uncertain or ''risky'' spreadsheet models. The product can be used for both existing and new spreadsheet models. Risk analysis should be used when there is uncertainty in the values entered in a spreadsheet.

For example, the annual inflation rate for the next 5 years may be a key variable in a spreadsheet analysis, but even the best forecast is subject to a great deal of uncertainty. This type of uncertainty, if ignored, can lead to errors in spreadsheet results. RISK handles uncertainty by letting the user enter ranges of values to any spreadsheet cell. These ranges are entered as probability distributions.

A risk analysis in RISK uses Monte Carlo type simulation, where uncertain cell values are varied across the entered probability distributions. Each simulation reflects hundreds or thousands of possible ''what-if'' scenarios, and the results tell the user the probability or ''chance'' of any outcome occurring.

All output results from RISK simulations are displayed graphically as probability distributions. Output distributions can be displayed in a variety of formats, including histograms, cumulative curves, summaries over ranges of cells and as overlays for comparison.

The interest in risk analysis has expanded in recent years to include applications such as financial decision-making, merger and acquisition evaluation, strategic planning, R&D projections, risk management/actuarial analysis, and political risk analysis. Engineering and scientific applications also are widespread.

Palisade Corporation is a software developer specializing in advanced PC software technologies for industry and science.

Pricing and Availability. RISK for 1-2-3 Release 3.1 will be available in January 1991 at a single copy price of $395. Owners of other versions of RISK will be able to obtain the Release 3.1 version through a low cost swap of their current version or by purchasing the Release 3.1 version at a significant discount. There will be no additional hardware requirements beyond those necessary to run 1-2-3 Release 3.1. Palisade will be offering a free demonstration package for RISK for 1-2-3 Release 3.1.

HOUSTON (SEPT. 10) BUSINESS WIRE - Enterra Corp. (NYSE:EN) announced Monday that it has signed an agreement to purchase substantially all of the assets of Oilfield Rental Tools (''ORT''), headquartered in Singapore, and Petrodrill Oilfield Services, headquartered in Perth, Australia, for a base purchase price of approximately $13 million in cash and stock.

ORT and Petrodrill are engaged in the oilfield rental tool business throughout the Southeast Asia and Southern Pacific regions, with operating locations in Singapore, Indonesia, Malaysia and Australia.

As part of the transaction, Artoun Ramian, the chief executive officer and president of ORT and Petrodrill, has agreed to serve as the chief operating officer of Enterra's South East Asian operations. The transaction is expected to close in late September.

Stanley P. Gold, chairman of Enterra, said, ''Currently, Enterra conducts its rental tool business in the United States, Canada, Africa and the Middle East.

''The ORT/Petrodrill acquisition marks the expansion of Enterra's oilfield rental tool operations into the oil and gas producing areas of Southeast Asia and the Southern Pacific -- an area that we believe will experience an increasing level of activity. The ORT/Petrodrill team is a fine addition to the Enterra group and highlights the company's commitment to further international expansion.''

Enterra Corp. is comprised of a group of companies which provide products and services to the oil and gas industry worldwide. The company is engaged in the rental of specialized equipment for drilling and servicing onshore and offshore oil and gas wells and the design, manufacture, sale and rental of specialized equipment for pipeline construction.

CAMBRIDGE, MASS. (SEPT. 10) BUSINESS WIRE - Symantec Corp. (NASDAQ:SYMC), a leading developer of Lotus add-in software products, Monday announced that it will support Lotus 1-2-3 release 3.1 in a future version of SQZ! PLus, Symantec's spreadsheet file compression utility.

''Despite hard disks getting larger and less expensive, spreadsheet users still run out of disk space,'' said Gordon E. Eubanks, Jr., president and CEO. ''SQZ! Plus will continue to offer Lotus spreadsheet users a solution to this problem.''

''SQZ! Plus has been one of the leading 1-2-3 add-ins for the past four years,'' said Paul McNulty, Lotus' director of marketing for 1-2-3 release 3.1. ''We're excited at the prosect of its availability for 1-2-3 release 3.1 and look forward to continuing our successful relationship with Symantec.''

SQZ! Plus automatically and transparently compresses Lotus 1-2-3 and Symphony spreadsheet files by up to 95 percent. This provides increased storage capacity on both hard and floppy disks, and faster file transmissions and backups. SQZ! Plus includes a file recovery utility, which recovers lost or damaged files. The keystroke recorder in SQZ! Plus helps create macros quickly and easily, and the autosave function automatically saves spreadsheets to disk at user-defined intervals.

SQZ! Plus also includes file history tracking and file backup from within 1-2-3. It is the only compression tool that can be loaded or unloaded from memory without exiting 1-2-3.

Symantec Corp. is a leading international software company which provides award-winning application and syustem software products for IBM PC and Apple Macintosh computer users. ROCKVILLE, MD (SEPT. 10) BUSINESS WIRE - GE Information Services (GEIS), a leading provider of international network-based systems for banks and financial institutions, has announced that Chemical Bank, New York, has purchased its BPS-CENTRAL System.

The BPS-CENTRAL System, first announced in December 1989, is a mainframe software system which offers Chemical the flexibility to process electronic payments for its corporate clients implementing financial EDI (Electronic Data Interchange) programs with their trading partners.

With the BPS-CENTRAL System, Chemical can accept ANSI (American National Standards Institute) formatted payment instructions from its clients, and reformat them into any one of the ACH (Automated Clearing House) payment formats as designated by their client.

The system also enables Chemical to provide its clients the option of delivering the remittance information to the receiving party separately from the payment, in either hard copy or electronic format.

In addition, remittance information related to incoming ACH payments may be reformatted to ANSI 820, 823 or BAI lock box formats and merged with other payment information received by Chemical's lockbox or wire transfer services, facilitating the update of an accounts receivables system.

Chemical Bank is also planning to use the BPS-CENTRAL System with its own Accounts Payable and Purchasing Departments for EDI processing with its customers and suppliers.

Chemical Banking Corporation, holding company of Chemical Bank, is one of the largest bank holding companies in the U.S. Chemical is a super-regional bank with global market resources, operating one of the largest bank franchises in New York, New Jersey and Texas.

GE Information Services provides network-based applications, services and support in the areas of Corporate Services, notably cash management services; Exposure and Risk Management Services; and Trading Services.

GEIS, the recognized leader in third party EDI network services, also offers two electronic payments capabilities for corporations. A division of General Electric Company, U.S.A., GE Information Services has its headquarters in Rockville, Md.

#90253b0692 09/10/1990 ~Business Wire

CANTON, Mass. (SEPT. 10) BUSINESS WIRE - Bay State Gas Company's subsidiary, Granite State Gas Transmission, Inc. (Granite State), has reached an agreement with Portland Pipe Line Corporation and Montreal Pipe Line Limited (P-M) to play a lead role in developing a consortium to facilitate the construction of a new natural gas pipeline that will play a major role in helping to satisfy the continuing rapid growth in natural gas demand in New England and make the region's natural gas supply more secure.

The agreement defines the central role of Granite State in organizing and implementing a project to build a permanent, dedicated natural gas pipeline in P-M's right-of-way paralleling P-M's existing oil pipelines between Montreal and Portland, Maine.

In addition, to facilitate delivery of some of the gas that will come through the new pipeline to Bay State's Massachusetts service areas and other parts of New England, Granite State will rebuild its existing gas transmission line from Portland to Haverhill, Mass.

Due to P-M's anticipated need for additional crude oil transportation capacity, Granite State's current lease of one of the existing P-M pipelines could expire as early as 1996. Granite State has leased the 160-mile, 18-inch diameter oil line since 1986 to transport Canadian natural gas to Bay State's retail gas customers in Maine, New Hampshire and Massachusetts.

Natural gas usage for home heating and commercial and industrial applications has been growing rapidly in New England, and this growth rate is expected to accelerate as government and business strive to meet stricter environmental standards and reduce the region's dependence on oil according to Roger A. Young, Bay State Gas president.

''Demand for natural gas in New England should continue to grow at about twice the national rate through the 1990s, but this growth can't be

sustained without permanent expansion of gas pipeline delivery capability within the region,'' Young said.

Under the agreement with P-M, Granite State will act as coordinator to develop a project consortium, according to Young. The consortium will lease the pipeline right-of-way from P-M for the construction and operation of the new gas transmission pipeline, he said.

''We are extremely pleased to be coordinating the organization and implementation of this important project, and we expect to continue the successful working relationship that Granite State and P-M have enjoyed since 1986,'' said Charles T. Ellis, Granite State president.

Bay State Gas Company (NYSE:BGC) provides natural gas service to more than 230,000 customers in Massachusetts and, through its Northern Utilities, Inc. subsidiary, to approximately 32,000 customers in New Hampshire and Maine.

LONDON (SEPT. 10) BUSINESS WIRE - British Gas is pleased to announce the signing of an agreement with AGAS Limited to transport gas from the Bacton gas terminal in Norfolk to industrial and commercial sites in Great Britain.

The contract will start on Oct. 1 when AGAS has gas available from the Welland field. Welland is the first gas field to come on stream of which British Gas has purchased only 90 percent, in line with its undertaking to the Office of Fair Trading. This is the first of a number of transportation contracts which British Gas expects to sign shortly in connection with gas from this field.

British Gas, headquartered in London, is the largest integrated gas company in the Western world and is primarily involved in the purchase, transmission, and sale of natural gas to domestic, industrial and commercial customers in Great Britain. Important support activities to its marketing efforts include appliance trading and customer service to domestic gas customers.

British Gas is also active in the exploration for and production of hydrocarbons both offshore and onshore. Expertise developed in the gas business is offered for sale overseas through the British Gas International Consultancy Service. American Depositary Receipts are traded on the New York Stock Exchange. One ADR is equivalent to ten

ordinary shares.

EL SEGUNDO, Calif. (SEPT. 10) BUSINESS WIRE - International Rectifier Corp. (NYSE/PSE:IRF) Monday announced that it filed two lawsuits in Federal District Court in Los Angeles separately charging Harris Corp. and SGS Thomson Microelectronics, SPA and its U.S. subsidiary with infringement of IR's power MOSFET patents.

International Rectifier also reported that it has been served in connection with Harris' previous filing of a declaratory judgment action in Federal District Court in Newark, N.J. The action seeks to declare IR's five key power MOSFET patents invalid and not infringed by Harris.

Those same five key patents were recently held valid and infringed by Siliconix incorporated following a trial on the merits in the Federal District Court in Los Angeles.

IR and Siliconix subsequently reached an agreement consisting of a royalty-bearing license under IR's patents and a $12 million settlement, each requiring separate approval by the Bankruptcy Court overseeing Siliconix's reorganization efforts. The license portion of the agreement was recently approved by the court.

To date, Hitachi, Toshiba, Siliconix, Matsushita and Unitrode have entered

into royalty-bearing license agreements under IR's U.S. power MOSFET patents.

The company intends to continue to enforce and defend its patent rights.

Power MOSFETs are power transistors that are rapidly displacing earlier-technology components in the $2 billion power transistor market. They provide motor control and power switching functions in automotive, consumer electronics, telecommunications, industrial controls and aerospace/defense applications.

International Rectifier is a major worldwide supplier of power semiconductors and the international leader in power MOSFETs with its HEXFET line.

TINTON FALLS, NJ (SEPT. 10) BUSINESS WIRE - Concurrent Computer Corporation today announced that Denis R. Brown has been named the company's president, chief executive officer and vice chairman of the board. Dean W. Freed, a director of the company, will assume the role of chairman of the board.

Mr. Brown joins Concurrent from Penn Central Corporation where, since 1985 he served as president and chief executive officer of Penn Central Industries Group Inc., a $1 billion subsidiary of Penn Central Corporation. Brown came to Penn Central, following a 15 year career with ITT Corporation where he was a corporate vice pressident and group executive for the Defense Space Group.

Brown brings to Concurrent global operating experience and a proven record of leadership. His results at Penn Central demonstrate considerable success in managing turnaround companies and implementing strategies for long term growth and profitability. A former naval officer and New Jersey resident, Brown, age 51, is a graduate of the University of California at Berkeley, and earned his degree in Electrical Engineering from the Naval Post Gradute School, Monterey, California.

Brown said, ''I look forward to the challenges which Concurrent faces in the computer industry. I am very impressed with Concurrent's people, products and services. With the company's large installed base and strong product development programs, we will continue to be a leading supplier of real-time solutions to the commercial, technical and government markets both here and abroad. We intend to make whatever changes are necessary to better serve our customers and to return the company to profitability and growth.''

Mr. Freed, in becoming the new chairman of the board, brings to Concurrent his experience as former chairman of the board and chief executive officer of EG&G, Inc., a diversified provider of scientific products and services.

This announcement follows the resignation of James K. Sims as Concurrent's chairman, president, chief executive officer and a director of the board to pursue other business opportunities.

Concurrent Computer Corporation is the leading supplier of high-performance, real-time computer systems worldwide. The company's products, marketed through the Commercial Markets, Simulation/Training and Real-Time Technical Systems groups, provide real-time solutions to the financial, communications, public sector, technical, aerospace and simulation markets. Its common stock (CCUR) is traded on the NASDAQ National Market System.

COLUMBUS, GA (SEPT. 10) BUSINESS WIRE - Carmike Cinemas, Inc. (CMIKA/NASDAQ) today announced that its Board of Directors has authorized

management to implement a stock repurchase program to provide for the purchase of up to 350,000 shares of the Company's Class A Common Stock.

Such repurchases may be made on the open market or through negotiated transactions from time to time based upon prevailing market conditions and other appropriate factors.

President and Chief Executive Officer Michael W. Patrick stated, ''In light of current market conditions, the Board of Directors has determined that the repurchase of shares provides an excellent investment opportunity for the Company.''

The Company previously repurchased 500,000 shares of its common stock in October 1987.

Carmike Cinemas is the fifth largest motion picture exhibitor in the United States, and is the leading exhibitor in the southern United States in terms of number of screens and theatres operated. The Company currently operates 968 screens.

VALENCIA, CA (SEPT. 10) BUSINESS WIRE - 3-D Systems Inc. (NASDAQ:TDSSF and Vancouver:TDS.V) announced Monday that it has concluded a private placement of 700,000 common shares without par value at a price of $7.875 (U.S.) per share, resulting in gross proceeds to the company of $5,512,500 (U.S.).

This increses the total outstanding shares to 13,858,744.

3-D Systems Inc. is the Canadian parent company of 3D Systems Inc., a California company formed in March 1986 to develop, manufacture and market equipment which produces plastic models from solid modeling CAD data.

The company's StereoLithography process currently utilizes an ultra-violet laser beam which passes over a vat of liquid polymer, hardening the liquid wherever the beam impinges on the liquid, so that it creates a solid, three-dimensional object which conforms exactly to the stored computer design.

WALTHAM, MA (SEPT. 11) BUSINESS WIRE - IPL Systems Inc. (NASDAQ Symbol: IPLSA) Monday introduced the 7636 Disk Array, a 1.8 GB disk array for IBM AS/400 models B30 to B70.

The new disk drive, which features IBM-manufactured disks, has been designed to offer greater access speed and a lower cost per megabyte than IBM's new 9336 products.

According to Robert W. Norton, president and chief executive officer of IPL Systems, the 7636 is an important extension of the company's product line, which now includes tape drive subsystems and memory upgrades for the IBM midrange market.

''This product enhances our total storage offering for the AS/400,'' he said. ''We now offer a broad line of storage solutions, including memory, tape drive and disk array products.''

The 7636 Disk Array is available in rack mount or table top configurations to offer the greatest flexibility for the office environment.

By comparison to IBM's 9336, IPL Systems' 7636 offers greater I/O commands per second by virtue of six actuators, each with a 64K buffer and intelligence in the maximum 1.8 GB configuration. The 7636 also features low power usage and heat output.

''Several significant benefits will place the 7636 Disk Array in a leadership position within the AS/400 DASD market,'' said Jim Geronaitis, a product manager at IPL Systems.

The 7636 Disk Array is available immediately and carries a one year warranty. IPL's 1.8 GB disk array's list price is 25 percent less than IBM's announced list price for its equivalent array.

IPL Systems will support the field-upgradeable 7636 Disk Array with its international network of distributors and service engineers, plus its own 24 hours-a-day, 7 days-a-week technical support service. Service and spare parts will be available through over 100 U.S. locations and in all European markets.

IPL Systems Inc. (NASDAQ Symbol: IPLSA) designs, manufactures, markets and services a broad range of DASD and tape subsystems, plus memory upgrades for IBM midrange computers. The company was founded in 1973.

#90253b0748 09/10/1990 ~Business Wire

BELTSVILLE, MD (SEPT. 10) BUSINESS WIRE - John Hanson Savings Bank, F.S.B.., Monday reported a net loss for the twelve month period ended June 30, of $7,923,000, or $1.37 per share, based on 5,775,231 weighted average number of shares outstanding.

These figures compare with a net loss of $8,347,000, or $1.45 per share, based on 5,772,453 weighted average number of shares outstanding for the corresponding period ending June 30, 1989.

The three month period ending June 30, reflects a net loss of $8,196,000, or $1.42 per share. This compares to a reported loss of $9,005,000, or $1.56 per share, for the three month period ended June 30, 1989.

Foreclosed real estate owned by the Savings Bank was written down in value $2,636,000 and those properties suffered $1,140,000 in operating losses and management expenses during the twelve month period, accounting for $3,776,000 of this loss.

After completing a thorough analysis of its loan portfolio, the Savings Bank charged earnings with a $5,429,000 provision for loan loss, reflecting the weakness in the commercial real estate market.

In addition, net interest income was reduced for the year by approximately $3,400,000 due to lost interest on non-earning assets. The balance in the Savings Bank's reserve for loan losses, that amount set aside to protect against future loan losses, is now $7,281,000.

At year end the Savings Bank's non-performing loans totalled $23,646,000 and real estate owned through foreclosure totalled $20,486,000. The increasing weakness in the real estate markets and in the economy as a whole have contributed significantly to John Hanson's results.

At June 30, total deposits were $685 million, compared to $704 million at June 30, 1989. Total assets were $888 million at June 30, compared to $969 million as of June 30, 1989. Stockholders' equity totalled $20,951,000.

The Financial Institutions Reform, Recovery, and Enforcement Act of 1989

established required capital levels to be: tangible capital of 1.5 percent of adjusted total assets, core capital of 3 percent of of adjusted total assets, and risk based capital of 6.4 percent of risk weighted assets. At June 30, John Hanson Savings Bank's ratios were respectively 1.53 percent, 2.34 percent, and approximately 4.06 percent.

John Hanson Savings Bank, F.S.B., has 15 branch offices and is headquartered in Beltsville. The bank's stock is traded on the National Association of Securities Dealers' Automated Quotation (NASDAQ) National Market System under the symbol ''JHSL''.

NEW YORK (SEPT. 10) BUSINESS WIRE - Jon C. Madonna and James G. Brocksmith, Jr. have been nominated to serve as chairman and deputy chairman, respectively, of KPMG Peat Marwick, a leading international accounting and consulting firm, Chairman Larry D. Horner announced following action here by the firm's board of directors.

If elected by the firm's 1,850 partners at their annual meeting in Orlando October 4, their terms would begin immediately. Earlier Horner had announced he would not seek reelection. He could have served an additional three years before retirement but said the firm should have six years of uninterrupted leadership.

Madonna, 47, is managing partner of Peat Marwick's San Francisco business unit. He joined the firm in 1968 after serving in the Army and was elected a partner in 1976. He is a member of the firm's board.

Brocksmith, 49, is managing partner of the firm's Chicago business unit. He joined Peat Marwick in 1965 and became a partner in 1971. He had served as managing partner in Columbus, OH, Miami, and Minneapolis before moving to Chicago late in 1986.

KPMG Peat Marwick provides accounting and auditing, tax, and management consulting services to leading business organizations, governmental and private institutions, and individuals through 135 offices in the United States. It is the U.S. national practice of KPMG, which has operations in 117 countries and posted 1989 revenues of $4.75 billion.

FALLSINGTON, Pa.(SEPT. 10) BUSINESS WIRE - Drawing upon years of experience in dealing with foreign governments and leaders, worldlink North America Monday announced that it has established a special program for families and loved ones of hostages currently held in Iraq and Kuwait.

Worldlink officials announced that they have been successful in delivering messages to the president of Iraq as well as to the U.S. ambassador in Baghdad.

''We are extremely concerned about the well-being of Americans held against their will in Iraq and Kuwait. The climate in the Middle East is extremely tense, particularly for those who have family in that area of the world,'' said Ken Ryan, a worldlink spokesperson.

''Our primary focus is to enable families and individuals directly

effected by the developments in the Middle East to gain information. Worldlink has had success in sending messages of concern and protest to officials in the Iraqi government and the U.S. embassy in Baghdad.

''In addition we have also established a special telex number in Europe so that persons detained or effected by the Iraqi invasion may send messages to their families here in the United States,'' Ryan continued.

Worldlink North America, a non-profit corporation with offices in Fallsington, Pa., a suburb of Philadelphia, provides communications services for human rights, environmental and other non-profit organizations such as the Amnesty International Urgent Action Network.

Individuals interested in sending messages to Iraq may dial 800/827-2831 to dictate their message. Messages destined for families in the United States will be relayed to them via UK telex number 94019781 FOXT G.

FAIRMONT, WV (SEPT. 10) BUSINESS WIRE - CB&T Financial Corp. (NASDAQ:CBTF) announced Monday that its directors have approved the repurchase of up to 200,000 shares of the company's outstanding common stock from time to time.

The specific prices, number of shares and timing of such repurchases will be determined by the chairman of the board.

William T. McLaughlin II, chairman and president, noted that, ''The board of directors' determination is based upon the belief that the repurchase of such CB&T stock is a sound investment, since such securities are presently at market prices which do not adequately reflect the value of CB&T's business or underlying value of its assets.

''As of June 30, 1990, CB&T's book value is $12.07 per share. The proposed repurchase will have a positive impact on both earnings and CB&T's book value per share. Shares acquired under the repurchase program may be used for general corporate purposes, including future acquisitions.''

CB&T Financial Corp. is a regional multibank holding company providing a comprehensive menu of trust, banking, and investment services in north-central West Virginia.

BOSTON (SEPT. 10) BUSINESS WIRE - If you think taxes on unearned income are high now, be glad you're not subject to the 1945 Federal tax rate -- a whopping 91 percent.

Since 1954, taxes on unearned income have been steadily dropping. It appears that investors do not anticipate this trend will continue. Mutual fund tax-exempt assets continue to grow despite a 53-year low in tax rates.

According to the Investment Company Institute, the national association of the mutual fund industry, net sales of long-term municipal bond funds (including national and single state) for the first half of the year were $8.1 billion compared to $7.3 billion for the same period in 1989, an 11.23 percent increase.

At Colonial Mutual Funds, sales of Colonial's municipal bond funds are up 135 percent for the first six months of 1990 vs. last year. Colonial expects continued robust sales.

''Typically, January through April is the time when investors think about taxes. This year it's September and they are still thinking about them.'' said Michael C. Hardie, portfolio manager of the Colonial Tax-Exempt Fund and head of the Tax-Exempt department at Colonial; ''Tax-free investors have four characteristics: they are tax-sensitive, income-oriented, risk-averse, and have a long-term investment outlook. Many people think only the very rich can benefit from muni bonds, but now more and more small investors are entering the market through mutual funds.''

''The municipal bond market is much less volatile than other U.S. bond markets,'' Hardie continued, ''largely because foreign investors are not major players in the market. Muni's are the last domestically controlled security market in the country which is particularly important at this time.''

Income generated from municipal bond mutual funds can provide investors with current income free of Federal, and sometimes state, income taxes. Municipal bonds are issued by state governments and local municipalities to fund projects such as roads, hospitals, and nursing homes, or to stimulate industrial growth.

Founded in 1931, The Colonial Group is one of the nation's oldest and most experienced investment advisers. In 1989, Forbes magazine named Colonial the 7th best small company in America. Colonial manages approximately $3

billion for more than 400,000 investors, including approximatley $3 billion in nine open-ended and three close-ended tax-exempt funds.

CHATTANOOGA, TN (SEPT. 10) BUSINESS WIRE - TVA has named Jerry Golden, an engineer with 21 years of experience, to manage TVA's Clean Air Program.

Golden will be responsible for all program activities associated with TVA's clean air initiatives, including those resulting from proposed amendments to the Clean Air Act.

TVA operates 11 coal-fired plants, all of which are in compliance with existing clean air laws. However, changes to the Clean Air Act pending in Congress could require TVA and other coal-burning utilities to make extensive changes to their plants over the next few years.

Golden, who has been with TVA for 17 years, is a graduate of the University of Tennessee, with bachelor's and master's degrees in mechanical engineering. For the past two years, he has served as manager of fossil and hydro engineering.

LEXINGTON, KY (SEPT. 10) BUSINESS WIRE - Following a special meeting called by the board of directors of City Gas and Transmission Corp., it was voted to place CG&T Corp. in Chapter 11 of the United States Bankruptcy Court in Lexington.

The board expects the filing and the courts ruling to have a long term positive effect on CG&T's creditors and shareholders. The most critical reason is to seek Bankruptcy Court permission to immediately open and operate its Willimgton, N.C., oil refinery to its full potential. It is felt that the operation of this refinery is vital and necessary to the best interests of the United States, its armed services and citizens.

City Gas and Transmission's Oil Refinery in Wilmington was operated at full capacity with no problems between 1972 and 1985. In fact, during the Arab Oil Embargo in 1973, the Wilmington Refinery flawlessly produced 15

percent of North Carolina's refined oil products. Being the only refinery within a 500 mile radius, it is a strategic asset to the City of Wilmington and the whole of the Carolinas. The refinery should again operate at its full potential if the Bankruptcy Court grants CG&T permission to operate.

BURBANK, CA (SEPT. 10) BUSINESS WIRE - MATTHEWS STUDIO EQUIPMENT GROUP (NASDAQ:MATT) Monday announced that it expects to post over a 50 percent revenue gain and more than triple net earnings for the current fiscal year ending Sept. 30, 1990, compared with its previous year ended Sept. 30, 1989. Fiscal 1989 revenues were $14,711,000, and net income was $138,000 or 2 cents per share.

It was further announced that the Company expects to continue its revenue growth of no less that 30 percent, which combined with the positive synergistic effect of recent acquisitions, will have a significant positive influence on its earnings per share for the fiscal year ending Sept. 30, 1991.

The substantial improvements, the Company noted, are predicated on there being no significant adverse conditions affecting the entertainment industry. Further, there are a number of business opportunities that MATTHEWS is considering, which, if completed during fiscal 1991, could have a significant positive impact.

MATTHEWS STUDIO EQUIPMENT GROUP is one of the fastest growing companies in its industry. The Company designs, manufactures, rents, leases and sells a broad range of equipment used in the production of films, television shows and commercials, professional photography and theatrical productions. One of the Company's major and most innovative products is its electronic Cam-Remote System -- winner of an Oscar for technical achievement from the Academy of Motion Picture Arts and Sciences and an Emmy for technical achievement from the Academy of Television Arts and Sciences - which is revolutionizing the entertainment industry.

HOUSTON (SEPT. 10) BUSINESS WIRE - Continental Airlines Holdings Inc. and EDS have signed agreements on a multi-level partnership announced in February.

As previously announced, the transaction involves the formation of a new computer reservations system (CRS) partnership, and the sale of System One's Telecommunications, Technology and Airline Services units to EDS for a purchase price of $250 million.

In addition, EDS will provide to Continental Airlines and Eastern Airlines all of their data processing and telecommunications requirements.

The agreements that involve Eastern have been forwarded to the U.S. Bankruptcy Court, which has jurisdiction over the bankruptcy proceedings of Eastern Airlines, for approval.

EDS, based in Dallas, has operations in 27 countries and is the leader in providing information technology services to customers around the world. Stock reflecting EDS' performance is traded on the New York Stock Exchange under the symbol GME. EDS reported revenues of $5.5 billion in 1989.

System One is a computer automation company, providing worldwide information management, data processing and telecommunications services to the airline and travel-related industries. A subsidiary of Continental Airlines Holdings Inc. of Houston, System One is the third largest CRS system in the United States, serving nearly 8,000 travel agencies and other customers.

Continental Airlines Holdings is traded on the American Stock Exchange under the symbol CTA. The company reported 1989 revenues of $6.7 billion.

CASSELBERRY, FL (SEPT. 10) BUSINESS WIRE - Maynard, an Archive company, has signed Sears Business Centers as a national reseller of Maynard's award-winning line of tape backup solutions.

Sears Business Centers' commitment to the market is focused on building networks that become strategic resources which increase the customer's competitive advantage. Part of this strategy is to provide a network structure that plans for future system growth.

With capacities ranging from 20MB to 2.2GB, including a 1.3GB DAT drive, the Maynard product line offers a solution for every customer. Becauase MaynStream drives can be daisy chained, the system can easily grow to meet the changing needs of the network.

Independent surveys show that Maynard products enjoy the industry's highest customer satisfaction ratings, making the Maynard line a clearly appropriate addition to the Sears Business Centers' network offerings.

Maynard sells tape backup systems through a worldwide network of dealers, distributors and value-added resellers.

Based in Casselberry, Fla., Maynard is the industry's leading supplier of tape backup systems and offers the most complete selection of 5 1/4-inch and 3 1/2-inch cartridge, cassette, and 4mm and 8mm tape drives available for the IBM-compatible PC and PS/2 computers, DEC VAX computers, and Apple Macintosh family of computers. NEW YORK (SEPT. 10) BUSINESS WIRE - Bowne & Co. Inc. (ASE:BNE) Monday announced results for the third quarter ended July 31.

Net sales for the quarter totaled $51,034,000, an increase of 5 percent from $48,705,000 recorded last year. Net income for the quarter was $1,746,000 compared with $1,960,000 a year earlier. On a per share basis, net earnings were 10 cents in the third quarter 1990 vs. 11 cents a year ago.

For the first nine months, net sales were $151,170,000, an increase of 8 percent from $139,457,000 a year ago. Net income was $7,113,000, or 41 cents per share, compared with $4,630,000, or 26 cents per share, last year.

Commenting on the results, Richard H. Koontz, president and CEO, stated, ''We are pleased to be able to report an increase in sales for the third quarter despite the reduced levels of activity that the financial community experienced during this period. Our sales growth is attributable to the aggressive efforts of our people and to our acquisition of Sorg in May.

''The reduced demand for financial printing services made price competition even more intense, resulting in slightly lower earnings compared to last year.''

ST. LOUIS (SEPT. 10) BUSINESS WIRE - As they finalized new proposals to take to contract negotiations with Brown Shoe Co. (NYSE:BG) Tuesday, representatives of 7,000 manufacturing workers at the company said they would focus on three concerns that would cost the company nothing:

-- Adequate pension benefits
-- Health care cost savings
-- Job safety precautions

''These three issues -- pensions, health care and job safety -- are of utmost importance to Brown employees, to retirees and to the futures of the communities where they live, yet they would cost Brown Shoe Co. nothing,'' said William Treece, assistant director for Footwear of the United Food and Commercial Workers Union (UFCW).

UFCW and the Amalgamated Clothing and Textile Workers Union (ACTWU) respresent the Brown Shoe workers.

''Because the workers' pension fund is overfunded by $28 million, Brown could increase employee pension benefits to an adequate level at no cost to the company -- in fact, the pension fund would still be overfunded by millions of dollars,'' explained Joan Suarez, southwest regional director for ACTWU. As of Jan. 1 the average annual pension paid to Brown retirees was $1,488 per year.

Suarez and Treece said they would press for the right to negotiate cost discounts for medical care from local providers and for additional worker input on job safety. Brown refused to agree to either demand, both of which the union officials said are no-cost items for the company, in previous contract negotiations.

Following a vote by Brown production employees to reject the company's final contract offer on Aug. 30 -- the first contract rejection in more than 30 years -- Brown Shoe agreed to renew negotiating efforts at a session in St. Louis Tuesday.

Brown Shoe Co., a division of Brown Group Inc., is the largest manufacturer of women's shoes in the United States, selling under brand names that include Naturalizer, Connie, DeLiso and Natural Sport.

TOLEDO, OHIO (SEPT. 10) BUSINESS WIRE - Joseph H. Lemieux, president and chief operating officer of Owens-Illinois Inc., has been elected by the company's board of directors to the additional position of chief executive officer.

Lemiuex succeeds Robert J. Lanigan, who remains a member of the Owens-Illinois board of directors and will continue to serve as chairman of the board. ''This change recognizes the many valuable contributions Joe Lemieux has made to our company and will facilitate further management succession,'' Lanigan said.

''Joe Lemieux is uniquely qualified to assume the additional responsibilities of chief executive officer at this time,'' Lanigan said. He and Lemieux have worked closely together in the development and implementation of strategies that have significantly improved the company's operating performance over the past several years. Both have spent their entire careers with Owens-Illinois.

Lemieux has served as a member of the board of directors since 1984 and as president and chief operating officer since 1986. He joined the company in 1957.

Lanigan was named president and chief operating officer in 1982. He assumed the additional responsibility of chief executive officer in 1984 and was elected chairman of the board later that year. He has served as a member of the board of directors since 1974. He joined Owens-Illinois in 1950.

Owens-Illinois, headquartered in Toledo, is one of the world's leading manufacturers of packaging products, with 1989 sales of $3.6 billion. The company recently reported results for the six-month period ending June 30, showing a 34 percent increase in operating profit over the comparable prior-year period.

MIAMI (SEPT. 10) BUSINESS WIRE - J. Larry Rutherford Monday was named executive vice president of operations of General Development Corp. (NYSE:GDV).

Rutherford, 44, comes to GDC from Gulfstream Land & Development Corp. where he was president and chief executive.

A native of Virginia, Rutherford held various executive positions at Gulfstream since 1982 and from 1986 until May of 1989 was president and chief operating officer.

Rutherford holds a bachelors degree from Virginia Military Institute and received his MBA degree from the University of Virginia.

From 1977 to 1982 Rutherford managed Wintergreen Development Inc., a company affiliated with Bankers Trust Co. of New York. The company was involved in managing real estate assets controlled by Bankers Trust.

Thomas J. Hutchison, president and chief executive officer of General Development, said Rutherford will play a key role in the effort to reorganize GDC.

''We are delighted to have a person with his broad experience in Florida real estate development join our management team. His leadership and expertise will play an invaluable role in my effort to revitalize General Development and create a successful company in the future,'' Hutchison said.

#90253b0848 09/10/1990 ~Business Wire
FITCHBURG, MASS. (SEPT. 10) BUSINESS WIRE - Fitchburg Gas and Electric Light Co. (FG&E) continues to advise it shareholders not to tender their common shares to Eastern Utilities Associates' (EUA) 16-month old hostile, unsolicited tender offer.

On Sept. 6, 1990, FG&E filed an amendment to a previous Securities and Exchange Commission filing related to EUA's indadequate tender offer. The amendment, approved by FG&E's board of directors at a meeting on Sept. 5, 1990, allows FG&E to explore other alternatives to EUA's offer if it

wishes to do so.

FG&E's board of directors and management remains committed to taking actions which serve the best interests of its shareholders, customers, employees and the communities served. FG&E continues to believe that the EUA offer does not serve those interests.

On Sept 7, 1990, FG&E received a letter from EUA which was prompted by FG&E' filing of its amendment. In such letter, EUA reiterated its previous statements regarding its postion.

On Sept. 10, 1990, EUA announced the tenth extension of its inadequate tender offer to Sept. 14, 1990, as well as an increase in the amount of FG&E's shares tendered into their offer.

The increase in the shares tendered to the offer appears to be a step that some shareholders' felt was necessary due to the existing spread between the present market price of FG&E's common stock and such offer price. The nominal difference that existed in early July between market and offer price widened apparently as a result of, among other reasons, the chaotic stock market and the uncertainty arising from events in the Middle East.

FG&E continues to believe that the possibility for EUA to receive regulatory approvals necessary to accept any shares tendered to it is at least a year away. Furthermore, shareholders will have ample time to submit their shares into the tender offer if EUA is ultimately able to secure required regulatory approvals. FG&E continues to advise shareholders to retain custody of their shares and not tender them to EUA.

FG&E serves approximately 39,500 gas and electric customers in Fitchburg, Lunenburg, Townsend and Ashby and approximately 1,600 gas customers in the communities of Gardner and Westminster. Its common stock is listed on both the American and Boston Stock exchanges.

DFW AIRPORT, TEXAS (SEPT. 10) BUSINESS WIRE - American Airlines registered the largest traffic volume month in its history in August, flying 7.57 billion revenue passenger miles, 2.6 percent higher than the 7.38 billion RPMs it flew in August 1989.

American's capacity increased 7.6 percent in August to 10.99 billion available seat miles from 10.21 billion in August 1989.

Michael W. Gunn, the airline's senior vice president-marketing, said international traffic increased 39.6 percent in August 1990 compared to a year ago.

''Our European load factors have been strong all summer and load factors on our new service to South and Central America were outstanding,'' Gunn said. ''American's early showing in Latin America is a reaffirmation of the wisdom of our international growth strategy.''

The international load factor increased 2.8 points from the same time a year ago to 75.2 percent.

While international traffic was strong, overall passenger boardings declined 3.1 percent to 6,872,981 from 7,090,853. The system load factor fell to 68.9 percent from 72.3 percent.

During the first eight months of 1990, American's revenue passenger miles grew 4.1 percent to 51.73 billion from 49.71 billion; available seat miles increased 6.9 percent to 81.49 billion from 76.24 billion; passenger boardings rose 1.1 percent to 49,324,749 from 48,773,009; and the load factor declined to 63.5 percent from 65.2 percent.

Freight ton miles jumped 21.5 percent in August to 68 million from 56.9 million, while mail ton miles rose 12.3 percent to 22.5 million from 20 million.

For the January-August period of 1990, freight ton miles rose 19.8 percent to 497.4 million from 415 million. Mail ton miles grew 17.4 percent to 176.9 million from 150.7 million.

''American's aggressive commitment to quality cargo service enables us to grow while the overall cargo market is essentially flat,'' said William R. Boesch, American's vice president-cargo.

TORONTO (SEPT. 11) BUSINESS WIRE - AT&T announced Monday the availability of its Global Messaging portfolio of services in Canada.

The services are based on store and forward technology which is new to the Canadian market. The Global Messaging offering consists of a range of products and services from a single source supplier for businesses with communications and information processing needs.

Initially, the company has two main messaging services: AT&T Mail, a sophisticated but easy to use electronic mail service; and AT&T Enhanced FAX, a package of completely automated global store and forward fascimile capabilities.

Specifically, AT&T Mail is an electronic messaging service that supports a wide range of data communications equipment and computers. It connects to all major electronic communications media, including facsimile and telex services, and it connects through interconnections to many other public messaging services such as Telecom Canada's Envoy 100 and France Telecom's Transpac.

AT&T Enhanced FAX is a network-based service compatible to most Group III fax machines. It provides: automatic retry, which makes repeated transmission attempts for up to six hours; a feature that allows a fax message to be broadcast from Canada to multiple recipients at virtually any domestic or international destination; and a private 24-hour electronic mailbox for secure message delivery.

Canada is the fourth country where AT&T has introduced its Global Messaging Services. The service was initially launched in the United States and has subsequently been made available in Japan from AT&T Jens and in the United Kingdom from AT&T ISTEL.

AT&T is one of the world's leading information movement and management companies, providing quality products, systems and services to diverse markets in the United States and around the globe. That includes providing long distance telecommunications services through the company's worldwide intelligent network, as well as systems, products and services that combine communications and computers. The voice, data and image technologies for AT&T's products and services are provided by the company's research and development arm, AT&T Bell Laboratories. AT&T has assets of US$37 billion and annual turnover of more than US$36 billion.

AT&T technology is available to customers in Canada through AT&T Canada, Inc. headquartered in Toronto, providing a full range of computer and networking products, switching and transmission equipment, PBX's and key systems; AT&T Paradyne, headquartered in Toronto, providing a full range of data communications equipment; and AT&T Communications Americas Inc., headquartered in Ottawa, handling cross-border long-distance services. AT&T employees are more than 700 people in Canada.

BOCA RATON, FLA. (SEPT. 11) BUSINESS WIRE - Teletimer International Inc. announced Monday that it has received a Notice that an Event of Default has occurred under its Loan and Security Agreement dated Nov. 17, 1989 with its Senior Lender.

The notice provided that if such default is not cured by Sept. 15, the Senior Lender will declare the company in default under the Loan and Security Agreement and consider all of their options and rights arising from such default.

Including the option to declare all obligations under the term loan immediately due and payable and to foreclose on the collateral which secures the term loan. The collateral securing the term loan consists of all of the company's assets.

The company is endeavoring to cure the Event of Default, but can make no assurances that a cure can be made effective before Sept. 15.

CAMBRIDGE, MASS. (SEPT. 11) BUSINESS WIRE - Bolt Beranek and Newman Inc. (BBN) Monday said Dr. George Hatsopoulos will stand for election to its board of directors at the company's Annual Meeting of Shareholders in October.

Dr. Hatsopoulos was nominated to fill the seat on the seven-member board held by Samuel Labate, who is retiring.

Dr. Hatsopoulos is the founder, chairman of the board, and president of Thermo Electron Corp., a $600 million company that manufactures analytical instruments, co-generation systems, biomedical products, and industrial processing equipment. He is a member of the governing Council of the National Academy of Engineering, and a member of the executive committee of the Board of Directors of the National Bureau of Economic Research.

He served as chairman of the board of the Federal Reserve Bank of Boston in 1988 and 1989.

Samuel Labate, a founder of BBN, a member of its board of directors since 1953, and a former chairman and president of the company, is retiring.

Headquartered in Cambridge, Bolt Beranek and Newman is a diversified high technology corporation. BBN develops, manufactures, sells, and supports data analysis software, communications hardware, and large-scale parallel processing computers; provides research and development services in the computer and physical sciences; and builds network, advanced simulation, and sensor and surveillance systems.

DALLAS (SEPT. 11) BUSINESS WIRE - Representatives of Codenoll Technology Corp. (NASDAQ:CODN) with the Packard Electric Division of General Motors Monday announced breakthroughs in the development of Plastic Optical Fiber (POF) LAN technology.

The announcement and the demonstration of Ethernet-complaint POF technology at the NetWorld show in Dallas is expected to result in specific product announcements before the end of this year.

The six year joint development effort between Codenoll and GM has produced a technology that is directly applicable to today's workgroup LANs. Plastic fiber as a LAN media has been designed to obsolete both coax and twisted pair wiring. It will be less expensive, easier to install and easier to test than either shielded or unshielded twisted pair, while providing the higher performance and reliability associated with optical fiber technology.

The increasing use of 386 and more powerful machines for graphics and image processing coupled with the overall growth of the networking has created a need to share information at increasing speeds. Only fiber optic technology with its inherently high data rates addresses these needs.

Packard Electric Division, a member of GM's automotive component group, is the world's leader in automobile power and signal distribution systems.

Packard supplies complete wiring systems for over 9.5 million vehicles annually and is a supplier of systems and components to 15 of the top automotive manufacturers and has over 9,000 total customers.
Packard worldwide capabilities include 55,000 employees, 8 engineering support centers and 124 manufacturing facilities in 20 countries on six continents.

Codenoll Technology Corp. is the leading supplier of fiber optic Ethernet computer network systems with thousands of installations worldwide. In

1989 the company announced two lines of FDDI high speed computer network products under its CodeNet tradename. Codenoll products are resold worldwide by companies such as: Bosch, Bull, C&P Telephone, Contel, Digital Equipment Corp., Eurolan, Southwestern Bell, 3Com, and hundreds of other VARs, System Integrators and OEMs. Codenoll stock is publicly traded in the Over The Counter Market, NASDAQ:CODN.

#90253b0886 09/10/1990 ~Business Wire

WOBURN, MASS. (SEPT. 11) BUSINESS WIRE - Shareholders attending Alpha Industries (AMEX:AHA) annual meeting Monday were told that the company's profitability continues to increase.

Earnings for the second quarter ending Sept. 30, 1990, are expected to exceed the five ($0.05) cents per share realized during the first quarter.

Martin J. Reid, president and chief operating officer, said ''I expect the company to demonstrate improving profits throughout fiscal 1991. Last year the company lost $2.10 per share. Earnings per share for this year could be 25 cents or more.''

Reid attributed the earnings improvement to the completion of the company's cost restructuring program and the continuing shift toward commercial product lines, away from the defense electronic contracts.

''In the past three years,'' he said, ''we have refocused the company in the three product areas; gallium arsenide monolithic integrated circuits and semiconductors, components and subsystems, and advanced ceramics and ferrites; where Alpha has industry-leading technical capability. During that same time, we have reduced the number of plant locations from eight to three, reduced overheads by 13 percent and productivity, as measured by sales per employee, increased 30 percent.''

Reid reported that only 40 percent of sales were defense related and the company continues to expand its share of a wide variety of commercial microwave markets including satellite-based communications, cellular telephone and industrial sensors. Reid also indicated that Alpha was developing products for automotive applications in order to further expand

into this market area as well.

Continuing, Reid said ''another substantial accomplishment has been the partnerships we have formed with some of the world's leading electronics companies. Alpha now has a number of these strategic alliances serving both commercial and defense markets. These ventures provide Alpha with technical, production and marketing resources that we believe are simply not available to other microwave companies, regardless of size.''

Alpha is a leading supplier of microwave semiconductors, ceramic, and ferrite devices, microwave and millimeter wave components, and multifunction subystems that are sold to manufacturers of sophisticated electronic systems.

YONKERS, NY (SEPT. 11) BUSINESS WIRE - Codenoll Technology Corp. (NASDAQ: CODN) Monday announced three high performance fiber optic Ethernet Micro Channel adapter cards for IBM PS/2 personal computers and compatibles.

With this introduction of the new CodeNet-832X cards, which are available for immediate shipment, Codenoll now offers fiber optic Ethernet network support for ISA (IBM PC XT, AT and compatibles), EISA (Compaq, Hewlett-Packard, Olivetti and others) and Micro Channel computers.

''The design of the CodeNet-832X combined with the Micro Channel architecture, make this one of the fastest Ethernet interfaces available today,'' said Michael H. Coden, president of Codenoll. ''As the first in a line of fiber optic network adapters for the PS/2 and other Micro Channel computers, these cards are another part of Codenoll's plan to support open systems and industry standards such as Ethernet and the PS/2.''

The new series of Micro Channel adapters consists of three cards: 1. CodeNet-8320, which uses a low cost passive star to create an economical network that retains the distance, performance, security and expandability advantages of fiber.

2. CodeNet-8321, an Ethernet FOIRL-standard interface that connects to Codenoll's active star or any other FOIRL hub. 3. CodeNet-8322, which connects PS/2 performance to existing Codenoll passive star networks.

The suggested retail price for either the CodeNet-8320 or the CodeNet-8321 is $895. The CodeNet-8322 lists for $995. The new cards are available

immediately in limited quantities with volume production beginning in mid-July.

The CodeNet-832X cards have a 16-bit data bus interface and onboard dual-ported 16 Kbyte memory that is shared with the computer's processor for high throughput. They support 10 megabits-per-second network data transmission using CSMA/CD as specified by the IEEE 802.3 Ethernet standard.

Codenoll Technology Corp. is the leading supplier of fiber optic Ethernet computer network systems with thousands of installations worldwide. In 1989 the company announced two lines of FDDI high speed computer network products under its CodeNet tradename. Codenoll products are resold worldwide by companies such as: Bosch, Bull, C&P Telephone, Contel, Digital, Eurolan, Southwestern Bell, 3Com and hundreds of others.

#90253c0005 09/10/1990 ~Comtex

LOS ANGELES (SEPT. 10) UPI - The flood of Colombian cocaine streaming into the United States has abated significantly over the past year, authorities say, but there are signs that a new surge is building.

The dropoff has been most significant in Los Angeles, one of the nation's two primary cocaine distribution centers. But in Miami, the other major cocaine importing center, drug enforcement officials say it's business as usual.

''The dope is way down,'' said Deputy District Attorney Curt Hazell, who heads the Los Angeles County District Attorney's narcotics unit. ''It's nothing like it was last year this time.''

Officials in Washington and Los Angeles attribute the slackening off of the nation's cocaine supply - the first such reversal since epidemic use of the drug in this country began a decade ago - to several factors.

Those factors included Colombia's crackdown on the notorious Medellin cocaine cartel and Mexico's stepped up efforts against traffickers who route cocaine bound for the United States through Mexico.

Other factors include a disruption of the traffickers' money- laundering activities in Panamanian banks when the United States invaded that country last year, and a law enforcement crackdown in the two primary cocaine producing countries, Bolivia and Peru, officials say.

''It is a national trend,'' said Charles Gutensohn, who directs all cocaine investigations for the federal Drug Enforcement Administration in Washington. ''There are indications that the amounts of cocaine coming into this country are less.''

''There are less seizures along the Mexican border from Texas to California. But the best statistics are that the price is up, the purity is down and overdose deaths are also down.''

Gutensohn said the rising prices of kilos of cocaine is a strong indication that there is a lesser amount of the drug available on the

street.

The purity of the drug goes down because traffickers dilute it to make smaller amounts go further. And there are fewer overdose deaths because the diluted cocaine is not as potent, he said.

In Los Angeles, officials cite another factor in the decreased levels of cocaine flowing into that city: the seizure last September of 21 tons of the drug from a warehouse - the world's largest drug bust.

''All the indications are that there are less seizures in Los Angeles, less major busts of cocaine,'' said agent Ralph Lochridge, spokesman for the DEA's Los Angeles division. ''The price is up and the purity is down, which generally means the supply is low.''

However, Tom Cash, head of the DEA's Miami office, while noting that there has been ''an enormous disruption'' to the Colombian drug traffickers' operations, said the flow of cocaine into Florida has not subsided.

''Florida has been somewhat unique,'' Cash said. ''The shortage is not evident here.''

He said cocaine seizures in Florida are apace with 1989 levels. He also noted that the price of cocaine in the state has not gone up and that the purity of the drug has not gone down.

Even with the decrease of the nation's cocaine supply, there are signs that the flow of cocaine into Los Angeles has started to pick up again in recent months, Hazell said. One such indication was a recent 1,500-pound seizure, the Los Angeles Police Department's largest cocaine bust of the year.

''The tide is shifting back,'' Hazell said. ''There are signs that it's starting to flow again, but not at those same high levels.''

However, even with the 1,500-pound bust, drug seizures by Los Angeles police are way down this year, a strong indication that shipments have abated, said Cmdr. William Booth, chief spokesman for the department.

Booth said that in the first six months of 1989, the department seized 7,201 pounds of cocaine, compared with just 1,555 pounds during the first half of 1990.

Over the past year, officials say, the wholesale price for a kilo of cocaine in Los Angeles shot up from $12,000 to $30,000 - reflecting tightened supply.

By contrast, Cash said that in Miami, a kilo of the drug still goes for

$16,000 to $21,000.

Hazell said another indicator of the diminished supply in Los Angeles is the relative difficulty drug dealers and police informants are having in finding cocaine to peddle. Because of the scarcity, dealers and informants are more frequently falling victim to reverse sting operations mounted by law enforcement groups, he said. Hazell also cited a decreased number of drug overdoses in Los Angeles.

Officials said that about 50 percent of all cocaine coming out of Colombia Bolivia and Peru winds up in Los Angeles by way of Mexico.

Lochridge said there is no way to measure exactly how much Colombian cocaine flows into Los Angeles in a year's time, but he characterized it as ''multi-tons.''

#90253c0006 09/10/1990 ~Comtex

NEW YORK (SEPT. 4) UPI - On Sept. 8, 1930, a gorgeous, gum-chewing, slang-spouting blonde with a figure for slinky gowns and a yen for wealthy playboys stepped into the funny papers.

Her name was Blondie Boopadoop and somebody forgot to tell her the stock market had crashed the year before and the party was over.

One of her many boyfriends was the rich, scatterbrained son of J. Bolling Bumstead, a railroad tycoon. His name was Dagwood and he couldn't even control his own polo pony.

Dagwood was nuts about Blondie. His parents were aghast.

Said Blondie on meeting J. Bolling 60 years ago: ''I always feel so boo-boop-a-doop when I meet my boyfriends' papas.''

This comic strip probably would have died like the Roaring Twenties if its creator Chic Young hadn't had the wisdom to read the mood of the country and realize that folks struggling with the snowballing Depression were through with flighty flappers and champagne-guzzling lounge-lizards.

In 1932, he decided to bring Blondie and Dagwood down to earth and set the stage with a classic publicity stunt that saw Dagwood on a 28- day hunger fast to force his parents to allow him to marry Blondie.

Thousands of letters and telegrams poured in from readers demanding that the stuffy parents let Blondie and Dagwood live their own lives.

The senior Bumsteads finally relented, but cut Dagwood off without a

penny. The wedding took place Feb. 17, 1933, just 15 days before Franklin D. Roosevelt told the nation at his inaugural, ''The only thing we have to fear is fear itself.''

The broke but happy couple, vowing to ''live on love,'' set up housekeeping in that familiar house on the busline in suburban America where they have lived for more than 57 years.

Is there anyone anywhere who doesn't know something about Blondie and Dagwood?

Trivia relating to it is bottomless. What was Alexander's nickname? (Baby Dumpling.) When was Cookie born? (April 11, 1941.) Who came first, Mr. Dithers or Herb Woodley? (Mr. Dithers, Dec. 3, 1935; Herb Woodley, Jan. 11 1936.)

When was the first time Dagwood crashed into Beasley the postman? (July 13 1936.) When was the first Dagwood sandwich created? (April 16, 1936.) Who played them in the movies? (Penny Singleton and Arthur Lake.)

Chic Young died in 1973, and his son, Dean, inherited the strip and has carried it through the 1980s and into the '90s, through gas shortages and cholesterol crisis, greasy-thumb diners, inflation and that everlastingly rotten, penny-pinching boss, Dithers.

Dean Young regards Blondie and Dagwood with a sort of loving bemusement as he tries to steer them around the pitfalls of middle-class America.

''Blondie looks pretty good for being as old as she is, doesn't she?'' he asked with a chuckle in a phone interview from his home in Clearwater Beach, Fla.

''My father was a genius to create people like Dagwood,'' he said. ''He looks like an alien from the Planet Zork, doesn't he? Here he is, married to this beautiful woman, and they have this marvelous menagerie of characters who evolved around them - children, dogs, neighbors, a boss, the postman.''

Older fans might regard Blondie as getting a bit long in the tooth, but Young doesn't even see her as getting middle-aged - and she certainly looks smashing in a bathing suit.

''I think of her as being in her 30s,'' he said.

So what does the future hold? Will Alexander and Cookie ever finish growing up, get married and make Blondie a grandma?

He paused a moment. ''I was thinking the other way,'' he replied.

''Blondie just might have another baby. What do you think?''

Another baby?

''I've thought about it for a couple of years,'' he added, somewhat mischievously.

''

#90253c0039 09/10/1990 ~Comtex

WASHINGTON (SEPT. 10) COMTEX - The 8-K report filed at the SEC shows

Ointex Entertainment Inc. and subsidiaries agreed July 17, 1990, to sell all assets of the television stations it owns except for cash and accounts receivable on the closing date, to ABRY Television Limited Partnership, for $37 million.

-30- 459

#90253c0041 09/10/1990 ~Comtex

STAMFORD, CT (SEPT. 10) COMTEX - Riedman Corp. of Buffalo has agreed to buy 978,000 shares of Niagara Exchange Corp.(TICKER: NIEX) series C cumulative convertible preferred stock for $8.25 each or $8.97 million.

Under a Sept. 6 agreement, Niagara Exchange will nominate two Riedman designees to the Buffalo insurer's board, plus the designees of its two other largest shareholders, according to a Securities and Exchange Commission filing.

Regulatory approval of the deal has been received from the state insurance departments in New York and South Carolina.

This 8-k Filing was submitted to the Securities and Exchange Commission on Sept. 7, 1990.

-30- 796

#90253c0042 09/10/1990 ~Comtex

STAMFORD, CT (SEPT. 10) COMTEX - Ratners Group P.L.C.(TICKER: RATN), which is acquiring Kay Jewelers Inc.(TICKER: KJI), will close Kay's Alexandria, Va., headquarters, as part of a cost-cutting plan, and transfer responsibility for Kay's merchandising, distribution, advertising and credit management to its Akron, Ohio-based Sterling unit following the acquisition.

While Ratners plans to operate the Kay Jewelers and J.B. Robinson stores under their existing names, the London-based chain plans to sell Kay's Marcus and Black, Starr & Frost divisions.

The plans were detailed in a filing with the Securities and Exchange Commission.

Ratners wants to sell the units because they do not fit with its existing U.S. operations.

Kay had hired The First Boston Corp. last March to find buyers for Black, Starr & Frost but did not receive any acceptable offers.

Kay shareholders will vote on the proposed $145 million stock-swap merger at a special meeting next month.

Ratners is Britain's largest jewelry retailer and one of the largest in the United States.

The company owns and operates 933 jewelry stores and 218 fashion-accesory stores in Britain and 488 jewelry stores in 39 states in the United States.

The Kay acquisition follows Ratners takeover of Sterling Inc., an Akron-based jewelry store chain, in 1989.

Kay is one of the largest jewelry-store chains in the United States, operating 506 stores in 32 states under the names Kay Jewelers, J.B. Robinson, Bon Marche, Famous-Barr, Stern's and Black, Starr & Frost.

This 8-k Filing was submitted to the Securities and Exchange Commission on Sept. 7, 1990.

By MICHAEL STRAUSS - Comtex Washington Correspondent

WASHINGTON (SEPT. 10) COMTEX - Securities and Exchange Commission Chairman Richard Breeden said today one of the lessons to be learned from the collapse of the thrift industry is to shift accounting standards for financial institutions from a historical cost framework to a market-based method.

"Determining the current value of an institution's assets, not recording their original cost, should increasingly be the goal toward which we work " the SEC chairman said in an appearance before the Senate Banking Committee.

Breeden conceded that transforming the accounting standards of banks and thrifts from a cost to a market-based standard is a complex undertaking, but said this would allow regulators to much more clearly gauge the fiscal health of these institutions.

"The nation's experience with the crisis in the savings and loan industry, as well as many of the largest bank failures, demonstrates the inherent and substantial dangers of a reporting system for financial institutions that is premised on historical cost accounting principles," Breeden said. "Market-based information can permit regulators and investors alike to make a much more meaningful assessment of the real economic value and risk

exposures of a financial institution."

Regulatory accounting principles (RAP) are accounting standards established by regulatory agencies to monitor compliance with statutory and administrative requirements. Generally accepted accounting principles (GAAP) are established by private sector standards and GAAP reporting is required for the sale of securities and periodical financial reports by every type of public company.

During the 1980s, Breeden charged that thrift accounting standards under RAP created the false appearance of solvency among S&L institutions.

"Through 1985, $6.3 billion of losses under RAP were treated as gains," Breeden said. "We allowed institutions that were essentially insolvent to go out and borrow $650 billion and play double or nothing."

Banks and thrifts that are not part of a holding company are exempt from SEC oversight, and fall under the responsibility of one of the four separate federal banking and thrift regulators. Breeden believes this exemption should be overturned.

"All publicly-held companies, including financial institutions, should be required to adhere to a uniform set of accounting principles," Breeden said. "The principles should be ... overseen by a single agency, that is immune to tampering by a failed industry or its regulators."

By MICHAEL STRAUSS - Comtex Washington Correspondent

WASHINGTON (SEPT. 10) COMTEX - The leaders of two key U.S. banking agencies told Congress today they have not yet agreed on capital standard requirements for banks and disputed if their differences were cause for concern.

"Seems to me, we are not talking about a matter of substance here," Comptroller of the Currency Robert Clarke told the Senate Banking Committee. "I believe we are substantially in agreement."

"When you are dealing with thousands of banks, they need a single standard " countered L. William Seidman, chairman of the Federal Deposit Insurance Corp. "I think we have to have exactly the same wording with Controller Clarke."

The debate centers on new minimum leverage ratios which will require a minimum capital-to-assets ratio for banking institutions. Capital is used to measure the fiscal health of financial institutions.

The Federal Reserve Board has recently revised its standards to a minimum capital-to-assets ratio from six percent to three percent for the safest institutions while requiring an additional capital cushion of one to two percent depending on a bank's financial condition.

Seidman, who would have preferred a 4.5 percent margin instead of three percent, said the FDIC will endorse the Fed proposal because the three percent target applies to only the strongest institutions.

The purpose of the leverage ratio is ensure that banks which hold substantial amounts of low credit risk assets maintain some level of equity capital to protect against unseen and extraordinary events. Clarke, who favors a flat three percent rate, fears that setting the ratio too high could place banks at a competitive disadvantage.

"The point is, we are being diligent enough in requiring banks to have enough capital to protect the insurance fund," Clarke said.

"I think it is absolutely essential we agree on capital standards - not almost," said Seidman. "I don't think under any circumstances we should indicate to 10,000 banks their capital standards have been reduced. "This relates directly to the safety and soundness of the insurance system."

Senate Banking Chairman Donald Riegle (D-Mich.) urged the regulators to hammer out an agreement within 30 days.

"The difference of opinion is not significant in your mind (Clarke) but it is in his (Seidman)," Riegle said. "We have enough other things to worry about to have this run any longer. This must be settled. We should get this nailed down in 30 days."

3I SECURITIES CORP OWNS 2,090,625 SHARES (7.87%) OF SUNWARD TECHNOLOGIES INC (TICKER: SUNT) OF SAN DIEGO, CA.

ANNOUNCEMENT:

On Aug. 31, 1990, the merger of the company with and into Information Magnetics Corp., a California corporation and wholly-owned subsidiary of Computer & Communications Technology Corp., a Delaware corporation, was consummated; each issued and outstanding share of the company's common and preferred stock was exchanged for shares of CCT's common stock, and cash was paid in lieu of fractional shares. On Aug. 28, 1990, 3i executed a continuity of interest certificate pursuant to which, 3i agreed not to sell for a period of ten months after the merger more than 33 percent of the shares of the common stock which it acquired as a result of the merger. CCT amended its certificate of incorporation to change its name to Sunward Technologies Inc., following the merger, under which it will continue to operate its business, to increase its authorized number of common stock shares and to reduce the par value to $.01. Sunward Technologies also filed a certificate of designation of rights, preferences and privileges of series A preferred stock and entered into a series A preferred stock and common stock warrant purchase agreement, dated Aug. 31, 1990, pursuant to which Sunward issued and sold shares of its series A preferred stock at a price of $10 per share and warrants to purchase its common stock at a price of $.01 per share. The beneficially-owned shares hold 40,000 shares of series A preferred stock, convertible into 400,000 shares and warrants to purchase 300,000 shares of the common stock.

PURPOSE:

Amended and restated agreement and merger agreement.

BAGHDAD (SEPT. 10) - Tens of thousands of people, Iraqis and Arab nationals for the most part, demonstrated Monday in front of the U.S. and British embassies here to denounce the foreign military presence in the Gulf, correspondents said.

Marchers carried banners protesting the deployment of British and U.S. troops in the region and denouncing threats directed at Iraq.

Britain and the United States both dramatically bolstered their troop strength in the Gulf, notably in Saudi Arabia, following the Iraqi invasion of Kuwait August 2.

Monday's protest followed Sunday's superpower summit in Helsinki that confirmed U.S.-Soviet unity behind a demand for an Iraqi withdrawal from Kuwait.

Demonstrations, apart from those supporting the government, are banned in Iraq.

#90253d0130 09/10/1990 ~French/German News Agency
BEIJING (SEPT. 10) - China's industrial output in August rose 4.6 percent over the same month last year, following a disappointing 2.9 percent growth in July, the China Daily said Monday.

But the country seems unlikely to achieve the target of six percent growth by the end of 1990, due to continued depression of the domestic market, the English language daily said.

Quoting statistics released Sunday by the State Statistical Bureau, the newspaper said industrial output in August was worth 33.2 billion dollars, up 1.9 percent from July.

Despite the improved figure, one bureau official was quoted as saying "the situation is still serious."

Stockpiling inventories have forced businesses to cut back or even suspend production, causing a continued decline in profits, the daily said.

In the first eight months of this year, industrial output totalled 255 billion dollars, up 2.6 percent from the same period last year.

Prime performers in August were collectively-owned rural industries, which

registered a 9.3 percent growth, and foreign-funded businesses whose output soared 49.8 percent.

After a fall of 0.9 percent in the first few months of 1990, industrial output picked up in March with a 1.4 percent rise.

April, May and June saw further rises of two, 4.2 and 5.9 percent, after 8.5 billion dollars in bank loans were injected into the economy.

Following a period of rapid growth in 1988 (17.7 percent), production declined sharply in 1989 (down to 6.8 percent growth) following introduction of a drastic austerity programme in the second half of the year, aimed at cooling down the overheated economy.

#90253d0200 09/10/1990 ~French/German News Agency

LONDON (SEPT. 10) - The Baltic International Freight Futures Exchange (BIFFEX)'s Baltic Freight Index (BFI) slipped lower over the past week, with few fixings undertaken outside bookings made by the U.S. Military Sealift Comand (MSC) to carry supplies to the Gulf States area.

The BFI ended Friday down 15 points on the week at 1,194 points.

Traders said that shippers were still shying away from booking cargoes while the direction of bunker fuel prices remained uncertain.

In the grain trades, rates ended the week decisively lower due to the lack of activity.

The index value on the key U.S. Gulf to Japan route fell as low as 20.225 dollars per tonne in midweek, down from 21.167 the previous Friday.

Sentiment on the route nevertheless improved ahead of the weekend, and the index value recovered Friday to 20.35 dollars per ton after a 52,000-ton vessel was fixed at 20.75, up from the last known such fixing of 19.15 a month earlier.

Falls were also noted on the other main grain routes. U.S. Gulf to Europe carriers were quoting at 10.79 dollars per tonne against 10.967 the previous week, U.S. North Pacific to Japan loaders at 10.53 against 10.567 and U.S. Gulf to Venezuela vessels at 11.90 against 12.042.

DERBY, England (SEPT. 10) - A bomb blast ripped through the main shopping center in Derby on Monday near a British army career center, damaging

several shops, police said in this town in central England.

No one was injured in the explosion, which occurred shortly after the complex opened, according to an ambulance service spokesman.

"At present we have had no casualties and we have withdrawn farther from the area while the search takes place for any secondary device," chief ambulance officer Paul Kirkman said.

A police spokesman said the blast, which appeared to have occurred on the roof of the center, shattered windows and caused some structural damage.

The complex was evacuated and sealed off while police investigators made a routine search for a second device.

No one had claimed responsibility for the blast which resembled a series of attacks on army centers in England carried out by the Irish Republican Army in the last eight months.

DUSSELDORF, WEST GERMANY (SEPT. 10) - West German electrical engineering and tubes concern Mannesmann said Monday it had signed a 340 million Deutsche mark (212 million dollars) to build a natural gas storage system in Norway.

Under the contract with Norwegian state-owned energy concern Statoil, work on the center at Etzel, which will have a capacity of up to 500 million cubic metres, is to begin in May and be completed in October 1993.

SYDNEY (SEPT. 10) - Australia hopes to beat delays in exports of lamb and mutton to the Middle East with a new packaging process which preserves meat for 12 weeks, the Australian Meat and Livestock Corp. said Monday.

Mike Hayward of the corporation's research department said a trial shipment of lamb recently arrived at Dubai, in the United Arab Emirates, packed in nylon bags containing carbon dioxide, not oxygen.

Dubai took about 5,000 of the 10,400 tonnes of Australian lamb sold in the Middle East in the year to June 30.

Another emirate, Abu Dhabi, took 2,000 tonnes, as did Saudi Arabia, which also bought 9,000 tonnes of Australian mutton out of 20,000 tonnes sold to the Middle East.

Sales to the region account for a quarter of Australian lamb exports, but increased tension in the Gulf has added to the usual delivery time of 10 to 15 days.

Carbon dioxide retards the action of bacteria, and Mr. Hayward said that the new packaging, developed in New Zealand, "extends shelf life by keeping the bug count down."

He said that he knew of no disadvantages in the process, "although it is not as good as chilled air freight and never will be."

Air services to the Middle East have been disrupted, however, and international freight rates are set to rise by some 10 per cent next month because of increases in oil prices.

PARIS (SEPT. 10) - France wants the European Economic Community (EEC) to close its borders to East German food products which do not conform to EEC standards, Finance and Economy Minister Pierre Beregovoy has said.

"During a transition period, East German products which do not conform to Community standards should stay in East Germany for consumption there," Mr. Beregovoy warned in an interview published Monday by the regional daily Le Journal du Center.

"The Germans should give guarantees and ensure checks" so that such East German products remain in the country, Mr. Beregovoy said.

"East German agriculture does not for the moment conform to Community hygiene and veterinary standards," and "it will take it time to adapt," he added.

"We must firmly defend in Brussels the equality of conditions for competition faced with East Germany's entry" into the EEC.

French farmers have been protesting recently against meat imports, particularly from East Germany, blaming them in part for a lowering in prices.

HANOI (SEPT. 10) - French exports to Vietnam rose 26.5 percent in the frst half of this year to 283 million francs (54 million dollars), French officials here said Monday.

Vietnamese exports to France in the first half of the year rose only 0.9 per cent over the same period last year to 66 million francs (12.5 million dollars), they said.

France ranks second behind Britain among capitalist countries investing in Vietnam, with a total of 80 million francs (15 million dollars) invested by September 1989, they said.

This represents 21.4 percent of all Western foreign investment in Vietnam, the French Embassy's trade section said.

"Despite all this activity, results on both sides have fallen below expectations and failed to reach their full potential," the official Vietnam News Agency (VNA) said Monday, criticising what it said were unequal trading conditions between the two countries.

VNA said French products had become "less competitive than those of developed nations in the region."

Vietnam exports coal, agricultural products, lumber and textiles to France and imports mainly machinery.

"A return to Vietnam of (French investment) is a ... positive idea," VNA said, but regretted the "lack of patience and flexibility" of many French businessmen.

LONDON (SEPT. 10) - British retail sales fell 1.6 percent in August over the July level, according to seasonally-adjusted provisional figures released Monday by the central statistical office.

The market had been expecting retail sales to rise 0.2 percent after a 1.3 percent rise in July.

The August figure gave a year on year rise of 0.4 percent after a 2.7 percent year on year improvement the previous month.

Retail sales fell in the three months to August by 0.9 percent over the previous quarter, but were up 1.4 percent over the same quarter last year.

British wholesale prices rose 0.2 percent in August over the July level, according to provisional non-seasonally adjusted figures from the statistical office.

The increase was below market forecasts of a 0.4 percent rise, largely due

to stability in prices of food, drinks and tobacco, the office said.

Wholesale prices were up 5.8 percent year on year, against six percent in July.

TOKYO (SEPT. 10) - Japan's Export-Import Bank said it signed an agreement Monday to lend up to 51.8 billion yen (375 million dollars) to Mexico's Nacional Financiera SNC, its biggest export credit to the country.

The 10-year loan is cofinanced by nine other banks and will be used by Mexico's Comision Federal de Electricidad to buy Japanese goods and services required for the construction of two 350-megawatt power plants, the bank said.

The terms of the loan were not available.

#90253d1750 09/10/1990 ~French/German News Agency

TEHERAN (SEPT. 10) - Iran and Iraq have agreed to resume diplomatic relations severed during the Gulf war, the Iranian news agency Irna reported Monday at the end of a visit by Iraqi Foreign Minister Tariq Aziz.

The agency quoted diplomatic sources as saying Aziz had called for a restoration of bilateral ties and a reopening of the embassies and that Iran ''announced their consent in this connection''.

Irna said Iran and Iraq had agreed to reopen their embassies in the near future. Diplomatic relations were severed in October 1987, more than seven years after the start of the Gulf war.

During his 24-hour visit, Aziz met Iranian President Akbar Hashemi Rafsanjani and handed him a message from Iraqi leader Saddam Hussein, the contents of which were not disclosed.

The Iranian agency quoted Aziz as saying that Iraq was for a ''total and comprehensive peace'' with Iran.

Rafsanjani was quoted as saying that Iran also wanted a comprehensive peace as well as a speedy demarcation of borders, the exchange of prisoners of war and visiting rights for pilgrims.

The visit by Aziz, who was also accompanied by Oil Minister Isam abdar-Rahim Ash-Shalabi, was the first by a top-ranking Iraqi official since the 1979 Islamic revolution in Iran.

Aziz's visit follows Baghdad's announcement on August 17 that it had accepted Iran's terms for peace in their war which began with Iraq's invasion of Iran in 1980 and was halted by a ceasefire two years ago.

MOSCOW (SEPT. 10) - Russian Orthodox priest Alexander Menn, 55, a prominent pre-perestroika dissident, has been axed to death, the Soviet news agency Interfax reported Monday.

Interfax said that Menn's body was found Sunday not far from his house in Zagorsk, near Moscow.

Menn, who was well-known for his youth work, his philosophical and religious books and as a member of Moscow's Theological Academy, was to become the rector of the Russian Orthodox Church Sunday University in the Soviet capital at the end of the month.

#90253d1860 09/10/1990 ~French/German News Agency

LONDON (SEPT. 10) - For only the second time in British legal history, a company was charged with manslaughter here Monday in connection with the 193 deaths when the ferry Herald of Free Enterprise sank in March 1987.

The ferry's owner, P and O European Ferries, and seven employees are charged with manslaughter. The seven face maximum sentences of life imprisonment. There is no limit to the fine that could be imposed on the company.

They are being formally tried for the death of one of the victims, Alison Joy Gaillard, 27, under the principle of "specimen count" by which, if they are found guilty of her death, they are equally guilty of the others.

The trial could create a precedent of corporate guilt for companies involved in major disasters which, until now, have escaped guilt.

Only once before, in 1965, was a British company charged with manslaughter. But the crucial question of whether a company could commit a crime was not considered at that trial, which resulted in a not guilty verdict.

The Herald of Free Enterprise capsized 1.6 kilometres (one mile) outside the harbour wall of the Belgian port of Zeebrugge after tonnes of water poured through its open doors.

The accused are three former directors of Townsend Thorensen, which was

taken over by P and O a month before the disaster, and four crew members including the ferry captain.

They are alleged not to have considered the risk involved in sailing with the ferry doors open, or to have negligently taken that risk.

The father of Mrs. Gaillard, Maurice de Rohan, is the chairman of the association of the ferry victims' relatives. The association plans to monitor the trial, which is expected to last four months.

The accused are John Alcindor, deputy chief superintendent of P and O, Wallace Ayres, director and head of the company's technical department, Jeffrey Develin, director and chief superintendent of the company's marine department,

ferry master David Lewry, John Kirby, senior master of the ship, first officer Leslie Sabel and assistant boatswain Marc Stanley.

PARIS (SEPT. 10) - The prime minister of Kuwait's exiled government, Sheikh Saad al-Abdallah as-Sabah, Monday said he was deeply satisfied with the outcome of Sunday's superpower summit.

''The whole world is happy,'' said the premier after a one-hour meeting in Paris with French head of government Pierre Rochard at which they discussed the Gulf crisis.

Officials said the talks dealt with relations between France and Kuwait and the best way to enforce United Nations resolutions against Iraq, which invaded Kuwait August 2.

At Sunday's superpower summit in Helsinki, U.S. President George Bush and Soviet leader Mikhail Gorbachev condemned Iraq and demanded its immediate withdrawal from Kuwait.

#90253d2000 09/10/1990 ~French/German News Agency

VLADIVOSTOK, SOVIET UNION (SEPT. 10) - With its logjams of Japanese cars and smartly dressed window shoppers, Vladivostok looks anything but a city

that has been closed to foreigners for 40 years.

The secret is a flourishing black market fuelled by the merchant seamen and fishermen who receive a third of their salary in foreign currency to cover their expenses in foreign ports.

The average seaman will get about 200 roubles a month -- about 6,000 yen (40 dollars) at the official rate. "You can get a second-hand Japanese car for 400 dollars," according to Sergei, a student who said the car black market was in the hands of "the local mafia".

The U.S. dollar is worth 0.56 roubles at the official rate but on the black market a dollar is worth 20 roubles. A car bought in Japan for 400 dollars will cost a seaman the equivalent of 8,000 roubles but "it can be resold for between 10,000 and 20,000 roubles because demand for them is enormous " said Sergei.

Toyotas, Suzukis and Nissans are the models most frequently seen in Vladivostok but there are also a few glossy 4X4 Mitsubishi Pajeros. Contrary to Soviet cars, all the Japanese vehicles are equipped for driving on the left hand side of the road.

AFP journalists here for an international conference on "economic cooperation in the Pacific", were able to see about 15 Japanese cars being unloaded from a ship at the quayside, as a crowd of envious bystanders looked on.

"In three years, 10,000 Japanese cars have been registered in Vladivostok," the city's mayor, Yevgeny Blinov told AFP. Maintenance using spare-parts from Japan is ensured at garages which can be either state-owned or run as Japanese-Soviet joint ventures, Mr. Blinov said.

In a similar way, Vladivostok inhabitants have been able to acquire televisions, hi-fi equipment and video cassette players. A huge parallel market in such equipment is organised every weekend on the fringe of the city. The interpreter accompanying French journalists referred to it proudly as "the Soviet Union's biggest black market".

#90253d2040 09/10/1990 ~French/German News Agency

GOERLITZ, EAST GERMANY (SEPT. 10) - East Germans, newly enriched with Deutsche marks, are flocking across the border each weekend, raiding Polish shops and leaving a trail of animosity behind.

Since monetary union with West Germany took effect last July 1, East German customs has registered 75,000 crossings over the Friendship Bridge linking this East German town to its Polish neighbor Zgorzelec.

Both were once halves of the same German town which straddled the Neisse River, until the German-Polish border was redrawn down the waterway after the defeat of the Nazis in World War II.

The East Germans "are buying everything, and on top of it they look down on us," said an elderly woman in Zgorzelec, pointing to a group of "intruders" loading up the trunk of their tiny Trabi automobile.

Meat products, milk, potatoes and clothes -- all are snapped up at Poland's state Spotem store by eager East Germans who shun their own Centrum.

"I can buy a pair of jeans for less than 20 DMs (12.50 dollars) in Poland by changing money on the black market," explained Maik, a 25-year-old student of business management. "I would have to pay 60 DMs for the same pair in East Germany.

"Why should we feel guilty," he continued. "Before monetary union Poles would come here and buy our state-subsidized merchandise and do a shameful trade."

Jeans are the most popular item, and along the streets at the other end of Friendship Bridge one out of two shops stocks mainly that.

Polish shopkeepers have learned to adapt to their new customers.

"Often they come to take back items for resale in East Germany," explained Maria Lisowska in her tiny store filled with jackets, pants and men's shirts. "If they place a huge order, we may sometimes give them a good price."

Storekeepers in this East German town, however, are bitter over what they view as one more undeserved hard knock.

#90253d2070 09/10/1990 ~French/German News Agency

BOMBAY, INDIA (SEPT. 10) - India continued Monday to fly home its nationals stranded in the Middle East, in what aviation offials have described as the largest ever air evacuation of its kind.

Air India, the state-owned international carrier, has been at the forefront of the evacuation efforts, the biggest ever undertaken by a commercial airline.

The airline has so far flown home more than 17,000 Indians amid criticism that the government was not doing enough for its nationals caught in the Gulf conflict.

Twelve flights arrived in this western port city Sunday from Amman and Dubai, bringing home Indians stranded in the region following Iraq's August 2 invasion of Kuwait.

The more than 3,300 evacuees, who brought the total number of Indians repatriated since August 15 to 26,300, were flown back on four Air India Airbus A-310s and two Boeing-747s, four Indian Airlines Airbus A-320s and two Indian Air Force Ilyushin Il-76s.

The government is trying to raise the daily average of refugees flown home from 1,500 to 3,500 over the next few days.

As many as 14 commercial planes have been requisitioned for the operation, eight from Air India and six from Indian Airlines, the state-owned domestic carrier. While some ferry passengers from Amman to Dubai, the rest operate between Dubai and Bombay.

Stung by criticism that it was adopting a callous attitude to the fate of Indians in the Gulf, New Delhi has posted ministers in both Amman and Dubai to overseee the operations.

An estimated 172,000 Indians were in Kuwait at the time of Iraqi President Saddam Hussein's invasion and subsequent annexation of the tiny, oil-rich emirate.

According to reports here, some 40,000 of them trekked across the desert to Jordan.

ADELAIDE, AUSTRALIA (SEPT. 10) - The South Australian government is hoping to turn an industrial wasteland, polluted by chemicals and fringed by mangrove swamps, into a 21st century city that will help reverse Australia's brain drain.

The site won out against bids from four other Australian states for a project suggested by Japan and burdened with the uninformative name of Multi-Function Polis (MFP).

While some reports have suggested that the MFP might attract six billion dollars (4.8 billion U.S.) in foreign investment, officials here admit that it is not easy to convince a sceptical public since the project remains largely undefined.

For State Premier John Bannon, the immediate advantage is that Adelaide will be able to reclaim 3,800 hectares (9,400 acres) of land at Gillman,

long an industrial dumping ground on the northern outskirts.

"It was a bit of lateral thinking" to recommend a polluted wasteland to the joint Japanese-Australian steering committee, Mr. Bannon said in an interview.

The committee accepted Adelaide's bid on June 19 after its first choice, Queensland, withdrew an offer to build the MFP on the Gold Coast, an area full of luxury hotels south of Brisbane.

Queensland's Premier Wayne Goss had refused to commit his government to forcibly purchasing private land for the MFP.

Officials said in private such a purchase might provoke anti-Japanese feeling in Queensland, where there is already large Japanese investment in the tourist industry.

The steering committee of seven Australian and seven Japanese bankers, industrialists, academics and civil servants was set up after the Japanese ministry of international trade and industry suggested the idea of the MFP to Australia in 1987.

The committee has been dissolved and a management group set up to conduct a six to eight month feasibility study of the MFP.

HANAU, WEST GERMANY (SEPT. 10) - The chief defendant in a trial of three businessmen accused of illegal nuclear technology deals with Pakistan admitted here Monday having delivered tritium gas, which can be used to make nuclear weapons.

Rudolf Maximilian Ortmayer, former chief executive of the Neue Technologien (Ntg) company, said he initially believed the Pakistanis wanted the tritium to process fuel waste from their Karachi nuclear power plant, and not to manufacture atomic weapons.

It was only after his Pakistani contacts also began to ask about uranium and plutonium did it ''ring a bell'' what their aims were, said Ortmayer.

Ortmayer, 53, faces charges of violating both West German foreign trade regulations and a ban on exporting weaponry for the deals goingback to the late 1970s and early 1980s.

His testimony here was apparently part of his defence strategy of admitting to the first, and lesser, of the two charges.

Also on trial for their alleged role in the scheme to circumvent West German laws in supplying Pakistan with the technology are physicist Peter Finke, 46, and former Max Planck Institute chemist Heinrich Weichselgartner, 55.

Tritium gas is rich in radioactive isotopes necessary for producing nuclear explosive devices. Ortmayer, who also faces fraud and tax evasion charges, said he was aware that the export of tritium was illegal.

He said his connections with his Pakistani partners were conducted via the Pakistani embassy in Paris, then through cover addresses and finally via courier to Pakistan's embassy in Bonn.

#90253d2320 09/10/1990 ~French/German News Agency

BRUSSELS (SEPT 10) - Amid widespread satisfaction at Sunday's Helsinki summit, Nato foreign ministers met to discuss the Gulf crisis Monday and agreed to make more ships and aircraft available to help the U.S. troop deployment.

But a U.S. request that the allies themselves send troops met with no positive response, despite Nato secretary-General Manfred Woerner saying member states could and should do more to ensure that the economic blockade of Iraq was made ''watertight''.

U.S. Secretary of State James Baker said that Saudi Arabia, the United Arab Emirates and the exiled Kuwait government were making 12 billion dollars available by the end of the year - half for the U.S. troop deployment and half for ''frontline'' Egypt and Turkey.

There was generally positive reaction throughout Europe and the moderate Arab states to Sunday's Helsinki summit between U.S. President George Bush and Soviet President Mikhail Gorbachev.

Iraq reacted by sharply attacking Bush and indirectly criticising Gorbachev. The Iraqi News Agency Ina quoted a Baghdad spokesman as saying Bush had shown his ''hatred for the Arab nation'' by rejecting a linking of the Gulf crisis and the Palestinian question.

Thousands of demonstrators marched in Baghdad to protest against the Western military presence in the Gulf region.

-30- 1528

#90253d2400 09/10/1990 ~French/German News Agency

ISLAMABAD (SEPT. 10) - Pakistan's caretaker Prime Minister Ghulam Mustafa Jatoi will visit Saudi Arabia and the United Arab Emirates September 12-15,

official sources said Monday.

Although billed as a pilgrimage, his visit to Saudi Arabia is likely to include talks with Saudi leaders on the Gulf situation

Observers here expect Jatoi to ask the Saudis to make up for the economic hardships suffered by Pakistan as a result of the crisis triggered by Iraq's invasion of Kuwait.

Pakistan faces an increase of 600 million dollars in its oil bill in addition to 300 million dollars in lost remittances by Pakistani workers returning home from Kuwait and Iraq and 100 million dollars in lost trade with the two countries.

Islamabad has been encouraged to seek aid following assistance provided by Saudi Arabia and the United States to Egypt, Jordan and Turkey, the observers said.

Riyadh has already agreed to sell 60,000 barrels of crude oil per day and 160,000 tons of petroleum products to Pakistan at the same price Pakistan used to pay Kuwait.

Petroleum Minister Majid Malik told reporters on return from Riyadh Monday that the price of petrol would not be increased at the present time.

#90253d2470 09/10/1990 ~French/German News Agency

WASHINGTON (SEPT. 10) - Iraq has denied the International Committee of the Red Cross (ICRC) access to aid victims of the Gulf crisis in Iraq and Iraqi-controlled Kuwait, the American Red Cross said here Monday.

ICRC President Cornelio Sommaruga met with Iraqi Foreign Minister Tariq Aziz and other Iraqi officials during a three-day visit to Baghdad last week, said American Red Cross spokeswoman Ann Stingle,

The Geneva-based ICRC had sought to aid foreign nationals being held hostage in the two countries, as well as foreigners free to leave but lacking the means to do so.

It had also sought to aid any Iraqi or Kuwaiti civilians in need, and any Kuwaiti prisoners of war.

Within the framework of the Geneva conventions, the ICRC has the right to assist foreign nationals displaced by international conflicts and to ensure the personal security of prisoners of war.

Iraq gave no reason for rejecting the Red Cross requests, Ms. Stingle said.

Mr. Sommaruga expressed regret that the Red Cross was not being allowed to fulfill its humanitarian mandate, Ms. Stingle said.

The ICRC first approached Iraq "immediately after the invasion" of Kuwait August 2, and senior ICRC staff have been in Baghdad since August 20, she said, adding the ICRC would press its efforts to provide aid.

#90253d2590 09/10/1990 ~French/German News Agency

BONNMOSCOW (SEPT. 10) - West Germany and the Soviet Union have reached a compromise on financing the withdrawal of Soviet troops from East Germany, Soviet Foreign Minister Eduard Shevardnadze said Monday.

The Soviet Union had insisted on an agreement before committing itself to signing a document covering the external aspects of German unification. The document is due to signed on Wednesday.

''I don't think we'll argue about the sum anymore,'' Shevardnadze said in Moscow. ''Basic agreement has been reached.''

The Soviets had requested more than 11 million dollars from Bonn to help pay for the maintenance of 360,000 Soviet troops and 200,000 dependants in East Germany, their withdrawal by 1994 and the construction of 36,000 flats for the returnees. Bonn's last offer had been about 4.4 million dollars.

According to West German government spokesman Dieter Vogel, a telephone conversation between Chancellor Helmut Kohl and President Mikhail Gorbachev earlier Monday had failed to produce an agreement.

#90253d2690 09/10/1990 ~French/German News Agency
BOBIGNY, France (SEPT 10) - The British National Union of Miners (NUM) and the International Miners' Organisation (IMO) have settled their dispute over funds donated from the Soviet Union, the IMO said here Monday.

IMO secretary-general Alain Simon said the two sides had agreed that the IMO would make a donation to the NUM from its "international solidarity fund".

It is understood this was to compensate the NUM for the fact that it had not received the Soviet donation.

The decision came after a near three-hour meeting at IMO headquarters here near Paris attended by Arthur Scargill, president of both the NUM and the IMO, and four NUM investigators.

No figure was given for the donation. In return, the NUM agreed to stop legal action against the international miners' union. The agreement must still be ratified by both unions.

The trouble between the two miners' unions was sparked by a donation of about 1.5 million pounds (2.8 million dollars) made five years ago by Soviet miners to support the British mining strike of 1984-85.

According to a recent independent investigation into NUM finances, the money ended up in IMO-controlled bank accounts instead of being used to help the British miners and their families. The NUM, however, claimed that the money had been intended for the exclusive use of British mineworkers.

The London-based industrial newsletter Soviet Labour Review said earlier this year that a Soviet mineworker had lodged a complaint with Scotland Yard alleging theft, forgery and false accounting in the handling of the money.

Subsequently, the NUM succeeded in obtaining High Court writs against Mr. Scargill, NUM secretary-general Peter Heathfield and the IMO to freeze the IMO's assets.

An IMO official said in July that Mr. Scargill, the focus of the complaint, was "in the clear".

#90253d2780 09/10/1990 ~French/German News Agency
MOSCOW (SEPT 10) - The Soviet Union and West Germany on Monday reached

agreement on financing the withdrawal of Soviet troops from German soil, Soviet Foreign Minister Eduard Shevardnadze said.

"We are no longer disputing the figures," Mr. Shevardnadze told journalists here. "The agreement in principle has been reached.... We have reached a decision of compromise, a reasonable decision."

Mr. Shevardnadze declined to give the precise figure that West Germany will pay to finance the Soviet military withdrawal from East Germany.

"What is important is that we have agreed," the foreign minister said.

As of Sunday the two countries apparently remained far apart on the cost to West Germany of financing the withdrawal, including the construction or paying for the contruction of housing for troops returning to the Soviet Union.

Der Spiegel magazine said Moscow was asking for 18 billion Deutsche marks (11.2 billion dollars) over a four-year period, while West German Finance Minister Theo Waigel was reportedly proposing seven billion marks (4.3 billion dollars).

Mr. Shevardnadze made his comments Monday to correspondents of press agencies of the six countries to take part in Two-Plus-Four talks here Wednesday -- the two Germanies and the World War II allies: the United States, Soviet Union, France and Britain.

#90253d2810 09/10/1990 ~French/German News Agency

MOSCOW (SEPT 10) - The Supreme Soviet, the Soviet Union's parliament, is to discuss Prime Minister Nikolai Ryzhkov's plan for a ''regulated market economy'', it was reported here Monday.

Observers said the announcement, by the Soviet Interfax news agency, meant a full debate would now be held between pro-Ryzhkov conservatives and ''progressives''favouring economist Stanislav Shatalin's accelerated programme for the Soviet Union to introduce a free market economy.

Interfax quoted Ryzhkov as saying he would ''perhaps analyse individual passages of the Shatalin programme''.

But observers said it was clear that vigorous debate could be expected during the two-day session dealing with the the subject.

Soviet President Mikhail Gorbachev and other leaders have been trying to getthe country's individual republics to accept a fusion of the two economic systems.

At recent meetings, national parliaments such as the Russian parliament presideded over by reformer Boris Yeltsin have made clear they favour a rapid transition to the free market economy.

Leningrad governing mayor Anatoly Zobtshchak said after a recent meeting of reformist politicians that the general view was Ryzhkov should seek a vote of confidence in the Supreme Soviet before trying to get his ideas approved.

''We simply do not have the right to keep in power a government which has proved its inability to lead the country out of a crisis,'' he said.

KATHMANDU (SEPT 10) - King Birendra of Nepal Monday received the draft of a new constitution giving the landlocked Himalayan kingdom multi-party democracy after 30 years of partyless rule.

The draft was presented by Supreme Court Justice Biswanath Upadhyay, chairman of a special panel set up by the monarch three months ago to draw up the document.

The king, who had enjoyed absolute powers under the old system, promised to promulgate the constitution as soon as it had been endorsed by Prime Minister Krishna Prasad Bhattarai's government.

The constitution was drawn up after a pro-democracy revolt spearheaded by the Nepali Congress Party and the United Left Front led to Birendra lifting a ban on political parties and installing Bhattarai's coalition government.

It refers to Nepal as a ''Hindu constitutional monarchial state'' under which sovereignty has been transferred to the people who will be the source of state power and enjoy freedom of religion.

Upadhyay said there would be a two-tier parliamentary system comprising a 60-seat state council and a house of representatives with 175 members.

Election for the house of representatives will take place every five years while the upper house will be a permanent feature with one third of the 60 members rotating every two years.

Upadhyay said political parties must gain at least five per cent of the vote for parliamentary representation and would have to abide by democratic principles.

THE HAGUE (SEPT 10) - Indian Foreign Minister Inder Kumal Gujral spoke out in favour of an Arab solution to the Gulf crisis during a short visit to the Netherlands Monday.

''The crisis ought to be solved by the regional powers themselves, and peacefully,'' he said.

Gujral, who met with Dutch Prime Minister Ruud Lubbers and Foreign Minister Hans van den Broek during his stay, said he also pressed the Dutch government to find a speedy solution within the European Community to the plight of the many Indian and Asian refugees in camps along the Iraqi-Jordanian border.

The Europeans should provide them with more medicine and food, he said.

Gujral said that of the approximately 182,000 Indians who were living in Iraq and Kuwait before the Gulf crisis began, only 30,000 have returned home.

BRUSSELS (SEPT 10) - The European Economic Community (EEC) has invited all Arab League countries, except Iraq, to a ministerial meeting in Venice on October 7 and 8, Italian Foreign Minister Gianni De Michelis said here Monday.

"We want to prove that we can hold discussions with all the Arab countries " he said at a press conference. The Arab League comprises 21 countries. The meeting is expected to focus on the Gulf crisis.

Mr. De Michelis said the invitation was a "political initiative" involving a "redistribution" of functions between the United States and the EEC that had the approval of Washington.

Italy holds the current presidency of the 12-member EEC, until the end of the year.

HONG KONG (SEPT 10) (AFP) - Pizza Hut, a subsidiary of Pepsico Food Service International, took a bite of the China pie Monday, opening its first chain in a country still getting used to the taste of Kentucky Fried Chicken.

The million-dollar joint venture between Hong Kong-based Amit Ltd. and Beijing International Business Service Corp. will offer pizza to Beijing residents with a maximum price of 29 yuan (six dollars).

The two-story restaurant is near one of the capital's downtown foreign residential areas and seats 180, New China News Agency reported in a dispatch monitored here.

The joint venture will extend over 15 years and holds the exclusive rights issued by Pizza Hut to operate the restaurant.

Pizza Hut plans to open a second restaurant in Beijing soon, the agency quoted William Heinecke, chairman of Amit, as saying at the opening ceremony attended by local officials, U.S. Ambassador James Lilley, and Pepsico executives.

He said that many ingredients for the restaurant would be supplied locally -- mozarella cheese and spices will be imported -- with the eventual goal of 100 percent local content.

Kentucky Fried Chicken is the only other American fast-food chain operating in China, and is doing brisk business at several restaurants in the capital, one near the mausoleum of Mao Zedong.

BEIJING (SEPT. 10) - At least 19 persons were killed and 20 injurd by a typhoon which swept China's east coast province of Fujian, the official Xinhua news agency reported Monday.

It said Typhoon ''Dot'' had damaged thousands of homes and uprotted trees and electricity poles in the stricken region during the past three days.

The typhoon was the fourth to hit the region in three weeks. The earlier storms claimed 350 lives and injured 1,000.

SINGAPORE (SEPT. 10) - Average daily turnover of foreign exchange activities in Singapore climbed by almost 25 percent to total 74 billion U.S. dollars in the first five months of 1990, an annual report said Monday.

The 1989-90 report by the Singapore Foreign Exchange Committee said the figure was up sharply from the 60 billion U.S. dollars registered in the first five months of 1989.

The report, citing a February survey published by Swiss-based Bank for International Settlements, said Singapore now ranked fifth in the world in foreign exchange turnover and was destined to become an increasingly important financial centre.

It said that Singapore was behind Britain, the United States, Japan and Switzerland in terms of overall turnover and second only to Britain in non-local-currency transactions.

The committee said Singapore would play an important role in Asia, which accounts for 37 per cent of the turnover of the world's 10 largest financial centres.

Chairman Lim Ho Kee said Singapore was well placed to tap the financial business arising from development and rapid growth of regional economies.

He added that with continuing financial deregulation and rapid growth of regional economies, new opportunities had arisen. More sophisticated products such as options, futures, forward rate agreements and interest rate swaps will grow in importance.

"Our niche is our market-making ability, which provides much of the liquidity to the regional markets," Mr. Lim said.

LONDON (SEPT 10) - Holders of dollar-denominated bonds of struggling Bond Corporation failed to provide enough votes to approve sale of the

company's Australian brewing assets here Monday.

The meeting was adjourned until September 27 due to lack of a quorum, and the news represents a further hitch in the Australian company's long-running attempt to sell the assets to Bell Resources Limited, seen as a vital part of the fight to save the company from receivership.

Dollar bond holders are to meet again on September 27, and only two bondholders will need to be present to approve the sale, provided a 75 percent majority of in-person and proxy votes is achieved.

Approval on September 27, which Bond director Peter Lucas said after the meeting would be "more or less automatic", will also pave the way for company chairman Alan Bond to step down.

Mr. Bond offered his resignation on July 19 at an earlier meeting of holders of sterling- and dollar-denominated bonds here, as part of a package of measures to persuade the bondholders to accept the sale along with a 12-month moratorium on their interest payments.

Holders of sterling-denominated bonds voted on August 9 to approve the assets sale.

Both sterling and dollar bondholders will meet November 30.to vote on the interest moratorium, having so far failed to arrive at the required majority.

Mr. Lucas said that Mr. Bond's resignation as chairman will take place "in the not too far distant future. It's a case of watch this space".

#90253d3220 09/10/1990 ~French/German News Agency

KABUL (SEPT 10) - Afghan President Naibullah Monday ordered the release of some 223 prisoners, state television said.

The latest batch released from Kabul's dreaded Pule-e-Charki prison brought the total number of prisoners freed by Mr. Najibullah so far this to 774, the television said.

It did not say if those released were political detainees or common criminals.

Officials, however, said many of them belonged to the mujahedeen fighting Mr. Najibullah's Soviet-backed government.

Mr. Najibullah ordered the release of 130 prisoners 10 days ago on the grounds that their crimes were not "heinous enough" in what observers said

was a move aimed at boosting his domestic popularity.

Afghanistan's secret police incarcerated thousands of people after the 1979 Soviet military intervention in Afghanistan.

#90253d3510 09/10/1990 ~French/German News Agency

CAIRO (SEPT 10) - Louis Awad, one of the greatest Egyptian thinkers of the late 20th Century, died of cancer Sunday in a Cairo hospital. He was 75.

Mr. Awad, a journalist, linguist and philosopher who first achieved fame as a professor of English literature, published more than 50 often controversial works centred on Egyptian history and the country's links with Arab culture.

He ruffled feathers with his theory that Egyptian culture took its roots from Pharaonic and Mediterranean rather than Arab societies and was also attacked by Moslem figures for his work on the origins of the Arabic language.

Mr. Awad was born into a Coptic family in upper Egypt and studied at Cairo University, Cambridge, England, and Princeton in the United States.

#90253d3640 09/10/1990 ~French/German News Agency

NICOSIA (SEPT 10) - Iraq on Monday denied Cairo press reports that it was forcibly enrolling Egyptians into its armed forces and the paramilitary popular army, saying they were joining up of their own free will.

"Egyptians working in Iraq are free to do what they want, and those who joined the popular army did so freely, by Arab nationalism," the Iraqi News Agency, monitored here, quoted an Iraqi embassy official as saying in Cairo.

The official also denied that Baghdad had blocked the repatriation of Egyptian earnings but admitted there was a delay in transfers owing to the freezing of Iraqi assets abroad after the invasion of Kuwait.

He said Baghdad "has never waivered from its pledge made at the end of 1989 to pay 45 million dollars every month as back-earnings" to Egyptian workers who returned home before the Gulf crisis.

Hundreds of thousands of Egyptian workers left Iraq last year having lost their jobs because of the end of the 1980-1988 Iran-Iraq war.

#90253d3660 09/10/1990 ~French/German News Agency
LONDON (SEPT 10) - The International Cocoa Organisation (ICCO) opened a five-day meeting here Monday aimed at deciding on the organisation's future, ICCO spokeswoman Angela Pryor said.

The meeting will define the organisation's future role in such fields as research and promotion of consumption, she added.

The ICCO has already decided to extend for two years from October the 1986 international cocoa agreement, but without its economic clauses.

In February 1988 the organisation halted price stabilisation operations under the 1986 agreement because of financial problems and internal disagreements.

This week's meeting is also to discuss the possible transfer of the ICCO headquarters, after the lease on its current site in a central London building expires in May.

Traders are not expecting the meeting to affect cocoa prices, running at 734 pounds a tonne in London on Monday afternoon after closing at 733 pounds on Friday.

Prices had fallen as low as 618 pounds a tonne at the beginning of the year, their lowest since 1975, largely due to production far outstripping consumption.

Their recovery in recent months was a result of prospects of a fall in the surplus.

In its latest report published in August, the ICCO predicted that production in the year to October would exceed consumption for the sixth year in a row, but this time the surplus would be only about 150,000 tonnes, down from 304,000 tonnes last season.

#90253d3960 09/10/1990 ~French/German News Agency

KARACHI (SEPT 10) - Deposed prime minister Benazir Bhutto Monday blasted the Pakistan government after it petitioned a special court here to charge her with abuse of power and disqualify her from next month's elections.

The government brought two cases against Ms. Bhutto here more than a month after she was fired and parliament dissolved by President Ghulam Ishaq Khan, who accused her 20-month-old government of corruption and mismanagement.

If convicted, Ms. Bhutto, 37, could be disqualified from participating in elections for seven years and sentenced to up to one year in jail.

Speaking at a press conference Ms. Bhutto said the charges against her were "deplorable," adding: "After dissolving my assembly and setting up special courts to try me, the president has become a judge, jury and executioner."

"The charges are without basis and will be challenged ... (they) simply discredit the president further in his pursuit of a political vendetta," she said, adding that she wanted to take part in the planned October 24 elections.

"We don't want to boycott them and we hope no such situation will arise," she said, announcing the formation of a People's Deomcratic Alliance (PDA) to contest the polls.

The PDA will group Ms. Bhutto's Pakistan People's Party (PPP) with the small leftist parties Tehrik Isteqall, Tehrik Nifaz Fiqah Jafria and the Qasim group of what was previously the main opposition party, the Pakistan Moslem League.

Ms. Bhutto said the government's move was intended to intimidate her before she submitted candidate papers here early Tuesday for the first of five seats she would contest in next month's elections.

The former prime minister also called for the setting up of a judicial commission of supreme court judges to look into the conduct of all presidents and prime ministers since 1985.

The government has set up special courts to try former government officials

for alleged misconduct.

Seven of Ms. Bhutto's ministers have already been charged with embezzling government funds and illegally securing loans from state-owned banks.

Ms. Bhutto also called for the setting up of a judicial commission of supreme court judges to look into the conduct of all presidents and prime ministers since 1985.

LIMA (SEPT 10) - Some 10,000 oil industry workers went on a 48-hour strike Monday as part of a series of industrial actions to protest the government's freezing of salaries.

Some 35,000 bank employees had already announced they would start an indefinite strike Tuesday unless the authorities agreed to a new salary package.

Next Friday, it is the turn of teachers, with some 80,000 planning a 24-hour walk-out to protest the austerity measures of the new government headed by President Alberto Fujimori.

Union leaders attached to the communist and opposition centrist parties will meet Thursday to coordinate their industrial action in protest of the austerity program, while representatives of 60,000 miners and 500,000 civil servants are planning similar strategy meetings this week.

#90253d4360 09/10/1990 ~French/German News Agency

WASHINGTON (SEPT 10) - Iraqi President Saddam Hussein's invasion of Kuwait last month was intended to be the harbinger of a larger invasion aimed at capturing Saudi oil fields and dividing the booty with other Arab leaders, a U.S. congressman said here Monday.

Iraq's August 2 invasion of Kuwait "was a precursor to a move on the Saudi oil fields," said Representative Les AuCoin, who visited the Gulf last week as part of a U.S. congressional fact-finding mission.

"It was an operation far more ambitious than Kuwait," he said.

Mr. AuCoin said Arab leaders told his delegation of "conversations Saddam Hussein had with other Arab leaders outside Saudi Arabia to buy into this."

"They were talking about splitting the spoils," he said, adding that the other Arab leaders had rejected Mr. Hussein's plan.

"I am convinced if it had not been for the early (U.S.) military buildup ... the Iraqis would have marched right beyond the Saudi border and seized the Saudi Arabian oil fields," Mr. AuCoin said.

#90253d4490 09/10/1990 ~French/German News Agency

JERUSALEM (SEPT 10) - The Israeli shekel, under renewed pressure due to the Gulf crisis, tumbled on local markets Monday as the central bank applied a new policy allowing the currency wider margins of fluctuation.

The shekel lost 2.8 per cent of its value against the dollar, falling to 2.08 to the greenback from 2.02 Sunday, and slipped 1.5 per cent against a basket of five major currencies, the central bank said.

The latest selling spree came a day after the government announced that the shekel would be allowed to rise or fall by 10 per cent against the reference basket, rather than the five per cent range permitted since March.

The move was falsely interpreted Sunday by Israeli radio, quoting Finance Minister Yitzhak Modai, as a 10 per cent devaluation against the basket, formed by the dollar, Deutsche mark, French franc, pound sterling and Japanese yen.

But analysts here noted that allowing the unit to fall by 10 per cent against the basket was being seen in the market as an invitation to sell and the currency was likely to hit its new floor by the end of the week.

The shekel had been under pressure for several days as individual and corporate Israeli savers, fearing an imminent devaluation due to the Gulf crisis, rushed to buy dollars and other foreign currencies.

The crisis and its effect on oil prices has hit Israel's inflation-racked economy hard. In July Israel could still buy Egyptian crude at 13 dollars a barrel, but must now pay the world market price of around 30 dollars.

After money markets closed Monday, the government's statistics bureau announced that the trade deficit for the first eight months of the year had widened by 25 per cent from a year earlier to 2.06 billion dollars.

The bureau laid much of the blame on the sharp increase in oil prices.

Even before the Gulf crisis, the economy was already being stretched by the massive influx of Soviet Jewish immigrants, which has sharply increased housing rates and unemployment and dug deep into the government's budget.

#90253d4590 09/10/1990 ~French/German News Agency
OTTAWA (SEPT 10) - Canada has more to lose than to gain if it does not participate in talks between Mexico and the United States on a free-trade zone, the Royal Bank said in a report made public Monday.

"Canada can ill afford to stand aloof while current discussions take place between the United States and Mexico, which could reshape North American trade and investments flows," said Alex Thomson, a Royal Bank economist.

The United States and Mexico met last June to discuss the free-trade zone but have not ruled out Canada's participation. An accord is targeted for 1993.

Several Canadian organizations have argued that a such a zone would put thousands of Canadians out of work due to the cost of cheap Mexican labor.

But Mr. Thomson pointed out that "the cost of labor is just one aspect of a country's ability to compete and Mexico is hamstrung by a number of problems such as government meddling, absenteeism and poor transportation and communications."

Canada, on the other hand, has a highly-qualified workforce, a modern economic structure, an efficient economic system and motivated and competent administrators, the report said.

A free-trade zone stretching from Canada to Mexico with 360 million consumers would pose formidable competition to an integrated European Economic Community and the new industrialized countries of Asia, said the bank.

"Canada may not experience dramatic immediate gains from the addition of Mexico to a North American trading system, but it could nevertheless lose much by not being included," said Mr. Thomson.

The report noted the similarity between Canadian and Mexican exports to the United States, including automobile products, industrial machinery, metalwork, textiles, petrochemicals and paper products.

#90253d4680 09/10/1990 ~French/German News Agency

MOSCOW (SEPT 11) - Natural gas supplies from Azerbaijan to neighbouring Armenia were resumed Monday, the official Soviet news agency Tass reported.

Due to ethnic conflicts between Azeris and Armenians, the pipelines to Armenia had been shut down August 20 for the second time this year.

The blockade seriously damaged the Armenian economy, according to Tass quoting a report in the daily Izvestia. Among other things Armenia was unable to produce 450 tons of cellulose acetate needed by all Soviet tobacco factories. It would have been enough to produce 350 million cigarette filters.

Meanwhile tension rose again in the Armenian-populated Nagorno Karabakh region within Azerbaijan.

Tass said interior ministry troops detained 19 militants after Armenians occupied communist party buildings in three districts and damaged two monuments of Vladimir I. Lenin, founder of the Soviet state.

#90253d4920 09/10/1990 ~French/German News Agency

MEXICO CITY, (SEPT. 11) - The Mexican Finance Ministry Monday announced it would auction 1.5 billion dollars in bonds as part of its continuing debt-for-equity swaps.

Some of the bonds will go toward reducing debt restructured with commercial banks in February and some will go toward facilitating the sale of

state-owned firms, the ministry said in a statement.

Under the February accord, some 460 creditor banks holding 48.5 billion dollars in Mexican debt agreed to a three-option debt-reduction plan under which they could: exchange the Mexican debt for bonds with a fixed interest of 6.25 per cent; make new loans equal to a fourth of their outstanding medium- and long-term debt; or swap the debt for bonds giving Mexico a 35 per cent reduction in debt principal.

The government suspended debt-for-equity swaps in late 1988, because officials feared the program was fueling inflation.

In March, after the government announced the resumption of the program, the ministry said the new bonds would eliminate the inflationary effects of the previous swaps.

The Finance Ministry set a September 24 deadline for proposals for infrastructure projects to be included in the swap.

In the July auction, during which the government exchanged one billion dollars of debt for bonds, officials received 150 eligible proposed projects, but only 22 obtained the right to participate, said Deputy Finance Minister Jose Angel Gurria.

The ministry said a total of 3.5 billion dollars of Mexico's foreign debt had been approved for the swap program from 1989 to 1992.

TOKYO (SEPT. 10) - Japan and Britain issued a joint statement Monday

condemning Iraq's invasion of Kuwait and demanding Iraq's immediate withdrawal from the occupied Gulf country.

The statement, issued after a meeting between Japanese Foreign Minister Taro Nakayama and British Foreign Secretary Douglas Hurd, called on Iraq to comply fully with U.N. Security Council resolutions.

The British foreign secretary is here on a three-day visit to Japan through Tuesday.

Nakayama and Hurd agreed that it was essential for all countries to make ''the maximum possible contribution'' to the multi-national forces deployed in the Gulf, the document said.

The two ministers urged Baghdad to allow the free and rapid departure of all foreign nationals wanting to leave in accordance with U.N. Security Council Resolution 664.

In their talks, the two men also confirmed that their two nations would cooperate in three fields - support for East Europe, prevention of Earth warming and promotion of environmental protection and the furtherance of cultural exchanges.

In another joint release, the two countries agreed to join hands for the success of the Uruguay Round of the General Agreement on Tariffs and Trade (Gatt).

#90253d9610 09/10/1990 ~French/German News Agency

JAKARTA (SEPT. 10) - Indonesia has agreed to a South Korean request to sell oil to Seoul on a long term basis from November, the Mines and Energy Ministry said here Monday.

Indonesia promised to meet the request for 50,000 barrels per day (bpd) from South Korea at the annual meeting of the Joint Committee for Mineral Resources and Energy Cooperation which concluded in Seoul on Saturday, according to the agreed minutes released here.

Indonesia however could only start entering into a long term contract after November, when additional crude production came on stream, it said, adding that all current output had already been committed to exports.

Indonesia has announced that it will raise its crude oil output from around 1.30 million bpd at the end of last month to 1.37 million in November and 1.41 million in December. Indonesia currently exports about 700,000 bpd of its oil, about half of them to Japan and the rest to the spot markets.

In return for Jakarta's commitment, South Korea had agreed to double its purchase of Liquefied Natural Gas (LNG) from Indonesia by entering into a new long term purchase contract.

PESHAWAR, PAKISTAN (SEPT. 10) - Pakistani police Monday sent teams into the northwestern tribal area of Dir in their hunt for a Canadian missionary kidnapped at gunpoint Sunday from Peshawar, a senior police official said.

Special teams were dispatched to the semi-autonomous tribal belt bordering Afghanistan, the official said.

He said three armed men abducted Paul Campbell Murdoch, 37, from the city's upmarket University Town district Sunday morning as he was returning home after dropping his children off at the mission school.

The men chased Mr. Murdoch in a car before capturing him and forcing him at gunpoint into their vehicle, the official said.

Police found the Canadian's abandoned car on a canal road on the outskirts of the city, he added.

He quoted eyewitnesses as saying the kidnappers' car was registered in Dir.

The Canadian embassy confirmed the incident and said Mr. Murdoch, treasurer of the Evangelical Lutheran Mission in Peshawar, had arrived in Pakistan in 1988.

The police official said nobody had claimed responsibility for the kidnapping and the abductors' motive was unknown, although sources here said Mr. Murdoch, as a Christian missionary, may have angered local Moslems.

The local director of a humanitarian organization called SERVE, John Tarzwell, 32, of Alberta, Ontario, disappeared in Pakistan in November 1989 and has not yet been found.

BANGKOK (SEPT. 10) - A U.S. businessman has been arrested for allegedly attempting to smuggle gold and diamond jewelry worth about 1.2 million dollars into Thailand, Thai customs said on Monday.

Gad Shapiro, who arrived on Thursday from Singapore, was arrested after customs men discovered 73 pieces of jewelery, including gold rings, diamond studded brooches and cut diamonds weighing 559 carats.

Mr. Shapiro, whose hometown was not immediately known, has traveled throughout Asia and has passed through Thailand at least five times.

Police said under the Thai Customs Act, Mr. Shapiro faced having to pay four times the value of the jewelry plus tax and fines, or serve a 10-year prison term, or both.

JERUSALEM (SEPT. 10) - Israel has devalued its currency, the shekel, by 10 percent against a basket of international currencies, Finance Minister Yitzhak Modai announced late Sunday.

According to the Bank of Israel, the dollar would be exchanged at the new rate of 2.40 shekels. Other exchange rates will be detailed on Monday, he said.

The value of the shekel is determined by a basket of foreign currencies, including the U.S. dollar, Deutsche mark, Japanese yen, pound Sterling and French franc.

Officials of the Histadrut, Israel's syndicate of labor unions, have said the devaluation would trigger major price rises.

London (SEPT. 10) - An Iraqi Airlines Boeing 747 brought another 438 women and children from Iraq to London late Sunday.

The weary but smiling foreign nationals, all of whom had been held in Kuwait since the August 2 Iraqi invasion, were greeted by British State Secretary William Waldegrave as they arrived shortly before midnight after the six-and-a-half-hour flight from Baghdad.

On board were 186 Britons, 165 Americans and 32 Irish nationals.

Exhausted from their ordeal, only a few of those arriving were willing to talk with journalists. An 18-year-old English woman said she had been interrogated by Iraqi troops just before departure.

''They threatened to prevent me from flying unless I told them where my father was hiding. I finally had to tell them where he was,'' she said.

She said she later heard that her father had been taken to Baghdad. She added that she had been in Kuwait visiting her father, who has worked there for eight years.

Other women expressed concern for the safety of husbands and fathers left behind.

''We assume they've been taken to military installations,'' said a woman from Northern Ireland. ''But nobody at the embassies seems to know much about what has happened to them.''

TOKYO (SEPT. 10) - Japan's top steelmaker, Nippon Steel Corp. (NSC), said here Monday that it would start to market portable computers in the United States in November.

It has granted 15 million dollars in funding for its new U.S. subsidiary established last May to promote the sale of the computer, measuring 21.3 x 29.7 x 5.0 centimeters (8.5 x 12 x two inches) and weighing 2.8 kilograms

(six pounds), NEC officials said.

The target of sales in the U.S. market is 10 billion yen (71 million dollars) for the initial year, with the amount trebling a few years later, they said.

#90253d9880 09/10/1990 ~French/German News Agency

CANBERRA (SEPT. 10) - The government intends to end its monopoly in telecommunications and allow private competition against a giant government-owned merger, Prime Minister Bob Hawke said Monday.

He told reporters that his Labor government had decided to merge its domestic network, Telecom, with its international network, OTC.

The government would sell the debt-ridden satellite carrier Aussat to help form the basis for private competition against the TelecomOTC giant, Mr. Hawke said after a lengthy cabinet debate.

The decision, like that to sell equity in the government-owned Qantas and Australian airlines, must be approved by a special Labor Party conference on September 24.

Official party policy opposes privatisation of key assets.

In a historic turnaround for Labor, Treasurer Paul Keating recently rammed through a plan to partially privatise the Commonwealth Bank.

The government announced the partial sale of the airlines on Thursday, also saying it would introduce "effective competition" into the telecommunications industry but maintain 100 per cent ownership of Telecom.

Mr. Hawke said the changes would result in consumers paying less for long-distance domestic calls and a ceiling being imposed on many local call prices.

"The decision we have taken now will introduce to Australia an effectively competitive system which will ensure the maximum acceleration of implementation of technology in a way that will be of benefit to consumers."

He said OTC would form the basis of Telecom's international arm and that both Telecom and its unnamed rival would also compete overseas.

Asked whether Aussat would form the basis of Telecom's competitor, Mr. Hawke said: "Yes."

He added that the new competitor "will ultimately be Australian owned."

At a joint news conference with Mr. Hawke, Communications Minister Kim Beazley declined to say what proportion of foreign equity would be allowed in Telecom's rival.

The plan to merge Telecom and OTC was devised by Mr. Beazley, who was believed to have proposed that a private and predominantly foreign-owned company be invited into direct competition with TelecomOTC -- which he dubbed Megacom.

Analysts said the TelecomOTC giant would be worth more than 20 billion Australian dollars (16.4 billion U.S.).

#90253d9950 09/10/1990 ~French/German News Agency

Frankfurt (SEPT. 10) - West German consumption of petroleum products jumped 10.2 percent in the first half of 1990 in a development encouraged by cheap prices, it was reported here Monday.

The Federal Office of Industry said a total of 52.9 million tonnes of petroleum products were sold in West Germany in the first six months.

In particular, consumers of light heating oil took advantage of low prices to raise their purchases 39 percent to 15.8 million tons. Heavy heating oil sales rose only 3.2 percent to 3.4 million tons.

Petrol consumption increased only 2.2 percent to 13 million tons, while diesel fuel sales increased 3.5 percent to 8.5 million tons, the office reported.

#90253e0016 09/10/1990 ~Latin America New Agency

TOKYO (SEPT 10) EFE - Japan and Britain called Monday for "the maximum possible contribution of all countries" to multinational forces stationed in the Persian Gulf and for Iraq's immediate withdrawal from Kuwait.

Japanese Foreign Minister Taro Nakayama and British Foreign Minister Douglas Hurd signed the joint statement in Tokyo, condemning Iraq's August 2 invasion of Kuwait and calling on Baghdad to observe the United Nations charter and to respect Kuwait's territorial integrity.

The document called for the rigid application of United Nations economic sanctions against Iraq and a solution to the situation of refugees in Jordanian frontier camps.

Some 70,000 citizens of Bangladesh, the Philippines, Pakistan and Sri Lanka, who had immigrated to the Gulf nations in search of jobs, have fled to Jordan where they are waiting to be repatriated.

Japan and Britain demanded that Iraqi President Saddam Hussein release thousands of foriegn hostages being held against international laws and that he allow foreign embassies to function normally.

Hurd arrived in Tokyo Sunday to encourage the Japanese government to give more support to the Gulf crisis, following an initial donation of dlrs one billion to multinational forces and dlrs 22 million to the refugees.

Last Friday Japanese Prime Minister Toshiki Kaifu promised U.S. Treasury Secretary Nicolas Brady that Tokyo would contribute all it could to help cover deployment costs in the Persian Gulf.

Kaifu has said that Japan's constitution, drawn up after the country's defeat in the Second World War, does not permit the use of the Armed Forces in such a crisis.

U.S. politicians have said the initial donation is not enough, given the trade and energy interests Japan has in the Middle East.

#90253e0020 09/10/1990 ~Latin America New Agency

JERUSALEM (SEPT 10) EFE - Israeli soldiers shot dead an 18-year-old Palestinian during a clash with inhabitants of a town in the Occupied Territories, Israeli press reported Monday.

Citing Palestinian sources, the Israeli press said the young man was shot in the shoulder Sunday as he hurled stones at soldiers in the town of Beita al Fauqa in the occupied West Bank.

The Israeli Army was investigating the shooting which took place during a 24-hour general strike called Sunday in the West Bank and Gaza Strip to mark the 33rd month of protest against Israeli military rule.

The Israeli Army reinforced troops in the Occupied Territories after leaders of the popular Palestinian uprising, or intifada, last week called for increased protests.

Meanwhile, Israeli state radio reported a bomb, apparently planted by Arabs, exploded Monday in Tel Aviv's central train station.

No injuries were reported.

A second bomb planted on a truck carrying gas cylinders was defused Monday

in the Israeli city of Petah Tiqwa, 5 km east of Tel Aviv.

#90253e0021 09/10/1990 ~Latin America New Agency

BONN (SEPT 10) EFE - West German Defense Minister Gerhard Stoltenberg announced plans Monday to slash the number of troops in the future united Germany from 1.5 million to 500,000 by 1996.

The 1.5 million troops currently stationed in East and West Germany include those countries' armies, U.S., British, French and NATO troops and forces from the Soviet Red Army.

Stoltenberg said that by 1994 the 380,000-strong Soviet forces stationed in East Germany will have withdrawn, part of an agreement signed in July between West German Chancellor Helmut Kohl and Soviet President Mikhail Gorbachev.

At the same time the minister pointed out that by 1994 Washington had promised to reduce its forces by 60,000 to 195,000, while London is set to half its 50,000 strong Army of the Rhine.

Stoltenberg added that negotiations would also soon be underway with Belgium, The Netherlands, Canada, and France on reducing their military presence in the united Germany.

He said he was satisfied however, that France would reduce its armed forces in Germany to 50,000 and that by the end of the 1990s the total number of foreign troops in Germany would drop to 150,000 to 170,000.

The integration of the East and West German Armed Forces was scheduled to be completed by the October 3 unification date, he added.

Of the 90,000-strong East German Nationale Volksarmee, Bonn plans to integrate around 50,000 soldiers into the united German Army, which will count on some 370,000 troops.

The new army will adopt the uniform of the present Bundeswehr, although it has yet to be decided which to which flag allegiance will be sworn.

PANAMA (SEPT 10) EFE - U.S. Brigadier General William White Hartzog has been named the new head of the Panama-based Southern Command and will take up his post later this week, U.S. military officers said Monday.

Hartzog, 48, will take over Wednesday from Gen. Joseph Kinzer who

temporarily took charge of the post when former Southern Command head Gen. Marc Cisneros was assigned a new post in the United States in August.

Hartzog, who served in the U.S. forces during the war in Vietnam, is currently the Southern Command's operations chief.

#90253f0621 09/10/1990 ~United Press International

(SEPT. 10) UPI - The New York Yankees can no longer beat their old farm team.

The Oakland Athletics became the first team in history to sweep the season's series from the once-proud Bronx bombers when they won 7-3 Sunday in the 12th and final contest between the two this season.

The sweep has been accomplished by only four teams in modern history: Baltimore over Kansas City in 1970, the A's over the Orioles in 1978, and the Orioles over the Royals in 1988.

''Who doesn't want to be part of baseball history?'' asked Oakland Manager Tony La Russa rhetorically. ''It's something special.''

The final blow Sunday was applied by three ex-Yankees: Willie Randolph and Rickey Henderson scored the winning runs on a ninth-inning hit by Willie McGee. McGee had been traded by the Yankees as a farm hand and never played for the team in the majors.

''As a team, it's been a tremendous accomplishment,'' said Randolph. ''Obviously we had their number. We just did the right things at the right times. Each game is different. We just matched our pitching.''

The A's have won six games in a row on this road trip to open a 9 1-2 game lead over the Chicago White Sox. Most of the A's feel they have no weaknesses as a team - quite a reversal from the 1950s and 60s when the Yankees dominated baseball and the Athletics were New York's Triple- A farm team.

The Yankees have won 33 AL pennants and 22 World Series, more than any other club. They have also finished last, as they did in 1966 and as they may this year. But never had any Yankee or Highlander club ever lost all its games to an opponent in a single season.

''The Yankees are a team you like to get up for because when you were a kid you heard about them,'' Henderson said.

Dave Stewart, 19-10, lasted eight innings. Tim Leary, 8-18, went 8 1-3 innings.

With the score tied 3-3 in the ninth, Leary allowed a leadoff walk to Randolph. Randolph advanced on a groundout and Greg Cadaret replaced Leary. Cadaret fanned pinch-hitter Carney Lansford but walked Henderson to put men on first and second.

McGee drove the ball near the right-field wall, where Hall misjudged it and let it fall. Cadaret walked Jose Canseco and Harold Baines to re-load the bases. He was replaced by Eric Plunk, who allowed a two-run single to Mark McGwire.

''They are a good ballclub,'' Yankee Manager Stump Merrill said. ''I don't think there's any question about that. They can hurt you so many ways. They are not unbeatable, but you've got to play a hell of a lot better than we did to beat them.''

In other American League games, Seattle defeated Boston 3-1; Baltimore upped California 3-1; Toronto over Chicago 6-1; Cleveland routed Minnesota 12-9; Detroit blanked Milwaukee 5-0; and Texas edged Kansas City 6-5.

In the National League, it was Philadelphia 6, New York 2; Montreal 9, Pittsburgh 5; San Francisco 5, Houston 1; Los Angeles 6, Cincinnati 4; San Diego 5, Atlanta 4; and St. Louis 9, Chicago 2.

-- AROUND THE AL --

Mariners 3, Red Sox 1

At Boston, Matt Young tied a major-league record by striking out four in the first inning and scattered seven hits over seven innings, leading Seattle to a victory over Boston. Young improved to 8-14, and Bill Swift notched his fifth save. Boston's Joe Hesketh, making his first start since July 23, 1986, fell to 0-2. The feat - four strike outs - was the 21st time in major-league history the feat has been accomplished, the ninth time in the American League.

Blue Jays 6, White Sox 1

At Toronto, Fred McGriff and Greg Myers hit back-to-back homers in a four-run sixth inning, helping Toronto to a victory over Chicago. Jimmy Key, 10-7, was the winner as the Blue Jays pulled within 4 1/2 games of the first-place Boston Red Sox. Jack McDowell, 12-7, took the loss.

Indians 12, Twins 9

At Minneapolis, Candy Maldonado's tie-breaking two-run double capped a seven-run seventh inning, sending Cleveland to a triumph over Minnesota. Steve Olin, 3-4, pitched 4 1-3 innings of relief to pick up the win. Jack Savage, 0-2, suffered the loss.

Tigers 5, Brewers 0

At Milwaukee, Scott Aldred made his major league debut and led Detroit to a win over Milwaukee. Edwin Nunez pitched four innings to notch his fifth save. Bill Krueger fell to 5-8. He has not won since July 19. He is 0-3 in his last six starts.

Orioles 3, Angels 1

At Baltimore, Bill Ripken and Sam Horn drove in a run apiece, leading Baltimore to a victory over California and a sweep of their three-game series. Anthony Telford, 2-2, scattered five hits over 6 1-3 innings. Gregg Olson pitched the ninth for his 30th save. Kirk McCaskill, 11-10, suffered the loss.

Rangers 6, Royals 5

At Arlington, Texas, a four-pitch walk to Pete Incaviglia with the bases loaded and two out in the ninth inning scored Julio Franco and brought Texas a triumph over Kansas City. The win went to Brad Arnsberg, 6-1, the fourth Texas pitcher. Steve Farr, 10-7, was the loser.

#90253f0622 09/10/1990 ~United Press International

(SEPT. 10) UPI - Strikeouts are secondary to Los Angeles Dodgers pitcher Ramon Martinez when he's pitching in the heat of a pennant race.

''I'm not worrying about strikeouts, we need wins,'' Martinez said after he struck out eight batters to raise his NL-leading total to 200 in the Dodgers 6-4 victory over the Cincinnati Reds.

''We won't win the division on strikeouts.''

Martinez, 17-6, struggled in the first five innings, yielding a total of four runs on eight hits but finished the game. It was his ninth complete game this season in 29 starts, the most in the majors.

''I don't feel any pressure,'' the 22-year-old right-hander said. ''We needed that game and that was all I was thinking.

In the weekend series, the second-place Dodgers took two of three and moved within 5 1-2 games of the National League West leaders.

The Dodgers have 22 games left and both teams meet in Cincinnati for the final three encounters next weekend.

''(The victory) puts us in a better situation than we were before the series,'' Kal Daniels said. ''We have a lot of games to play and hopefully somebody else can beat up on the Reds. We have to look for some help and keep playing the kind of ball we're playing.

''They're no better than us. The first half of the season belonged to them the second half to us. It's going to go to the wire,'' Daniels said.

The Dodgers have a 35-23 record since the All-Star break. Meanwhile the Reds have a 29-31 record down the same stretch.

Rick Dempsey has experienced a lot of pennant races and knows what the Dodgers will have to do.

''We've got to bear down and play really hard,'' Dempsey said. ''We're getting the key hits when we need them. I only want to be in first place one day: the last day.''

For the Reds, first place looked like a lock in the first half of the season. Now it seems like they'll have to battle the Dodgers from overtaking them.

''No one said this was going to be easy,'' Reds Manager Lou Piniella said. ''We battled hard today. We scored four off Ramon, we should have come up with a win.''

Trailing 4-3, the Dodgers scored two times in the fifth to take a 5-4 lead on Dempsey's run-scoring single and Alfredo Griffin's perfect suicide squeeze bunt. The Dodgers made it 6-4 on Hubie Brooks solo home run in the seventh inning. It was Brooks 19th home run of the season. Brooks had two RBI in the game.

Danny Jackson, 5-4, gave up five runs - two unearned - on seven hits in five innings.

''Bad luck again,'' Jackson said. Jackson was making just his third start since coming off the disabled list twice in a row. ''I'm making the pitches, I'm just not getting the breaks. Things aren't going my way. I can't do anything about it, so I'll just keep going out there.''

So will the Dodgers.

In other National League games, Philadelphia downed New York 6-2, Montreal sunk Pittsburgh 9-5, San Francisco ripped Houston 5-1, San Diego scalped Atlanta in 11 innings 5-4 and St. Louis bashed Chicago 9- 2.

In the AL, it was: Oakland 7, New York 3; Seattle 3, Boston 1; Baltimore 3 California 1; Toronto 6, Chicago 1; Cleveland 12, Minnesota 9; Detroit 5, Milwaukee 0 and Texas 6, Kansas City 5.

-- AROUND THE NL --

Phillies 6, Mets 2

At Philadelphia, Dickie Thon doubled home the go-ahead run and pinch-hitter Darren Daulton singled in two more in a four-run seventh inning to rally Philadelphia and keep New York from gaining on first-place Pittsburgh. Pat Combs, 7-9, picked up the win. Joe Boever entered in the eighth to pick up his 12th save. Sid Fernandez fell to 9-12.

Expos 9, Pirates 5

At Pittsburgh, Mel Rojas, 2-1, pitched 3 2-3 innings of winning relief for injured starter Dennis Martinez and Delino DeShields drove in three runs to lead Montreal. Despite the loss, Pittsburgh retained a 3 1-2 game lead over second-place New York in the division. Bob Walk fell to 5-5. Rojas, replaced Martinez, when he was hit in the right clavicle by Wally Backman's comebacker.

Giants 5, Astros 1

At San Francisco, Kevin Mitchell drove in three runs with a two-run homer and a single and Mike LaCoss scattered seven hits over eight innings to lead San Francisco. LaCoss, improved to 6-3. Trevor Wilson pitched a scoreless ninth for his first save. Mark Portugal, 8-10, worked 7 1-3 innings for the loss.

Padres 5, Braves 4 (11 innings)

At San Diego, Garry Templeton's fielder's choice with one out in the 11th inning scored Phil Stephenson from third to lift San Diego. Kent Mercker, 4-4, took the loss. Eric Show, 5-8, pitched two scoreless innings to take the win.

Cardinals 9, Cubs 2

At Chicago, Felix Jose hit a solo homer and RBI single, while rookie Ray Lankford went 4 for 5 with a two-run single to pace St. Louis. John Tudor, 12-4, picked up the win in relief of Bryn Smith. Mike Bielecki, 7-10, took

the loss.

#90253f0638 09/10/1990 ~United Press International

(SEPT. 10) UPI - On a day of so many remarkable returns and debuts in the

NFL, Atlanta saw vengeance, Dallas saw a victory, and Jeff George saw stars.

The No. 1 overall draft pick and Indianapolis quarterback was welcomed to the pros with a concussion Sunday, when the NFL regular season opened with 13 games and five new coaches.

Jerry Glanville's Falcons welcomed him to Atlanta by routing his former team, the Houston Oilers, 47-27.

''You can't express the gratitude we feel toward the team,'' Glanville said. ''They gave the three coaches that came from Houston a game ball.''

Oilers Coach Jack Pardee is one of the rookies but Houston players were reminded of Glanville's trademarks as the Falcons turned four fumbles in the first quarter into scores and took 16 penalties for 109 yards.

New York Jets Coach Bruce Coslet and Phoenix's Joe Bugel were reminded of the success they left behind, losing their head coaching debuts in the towns where they served as longtime assistants, respectively 25-20 at Cincinnati and 31-0 at Washington.

And as the longest home losing streak in NFL history ended, Cowboys fans were reminded of the days when they watched a winner, more than a year ago. Dallas Coach Jimmy Johnson, who took over for Tom Landry last season, triumphed at Texas Stadium for the first time, with a 17-14 comeback against San Diego.

''We have been through a lot since last season's 1-15 record and a lot has passed unnoticed,'' Johnson said. ''It's just one win but it's the right way to start the season. A year ago it might have been a different story.''

A year ago, George was at University of Illinois unsure if he would leave school early to enter the draft. Sunday, the rookie quarterback was flat on his back in Buffalo after getting hit by linebacker Cornelius Bennett.

''It wasn't the hit, it was my head going back against the ground,'' George said quietly. ''I can't give him all the credit.

''I just remember hitting the ground,'' he added after Buffalo beat Indianapolis 26-10. ''I just remember banging my head. I'm still a little bit dizzy.''

In other games, Green Bay beat the Los Angeles Rams 36-24, Chicago blanked Seattle 17-0, Tampa Bay tamed Detroit 38-21, Kansas City nipped Minnesota 24-21, the Los Angeles Raiders overtook Denver 14-9, Miami overcame New England 27-24, Cleveland clobbered Pittsburgh 13-3, and the New York Giants downed Philadelphia 27-20.

-- AROUND THE NFL --

At Atlanta, three of the Falcons' TDS off recovered fumbles came within 1:50, including the opening 6-yarder by first-round pick Steve Broussard. The Falcons were 3-13 last season but 4-0 in exhibition. Houston quarterback Warren Moon finished 31 of 52 for 398 yards and four touchdowns.

At Orchard Park, N.Y., Scott Norwood kicked four field goals and Jim Kelly threw for 238 yards and a touchdown to help Buffalo spoil George's debut. Before leaving in the fourth quarter, George hit on 13 of 24 passes for 160 yards but was sacked three times.

At Irving, Texas, the Cowboys won with 1:58 left to play when Troy Aikman snuck 1 yard to give Dallas its first victory at Texas Stadium in 14 games since Dallas won the second game of the 1988 season against Atlanta. At 1-0, Dallas matched its entire victory total of 1989, when it only beat Washington on the road.

At Cincinnati, Jim Breech capped the Bengals' 15-point fourth quarter rally with field goals of 44 and 37 yards in the final five minutes. Jets receiver Al Toon scored both of his team's touchdowns.

At Washington, Mark Rypien capitalized on turnovers to throw three touchdown passes and Alvin Walton returned an interception 57 yards for a TD to spoil the homecoming and NFL head coaching debut of Phoenix's Joe Bugel. Bugel served as an assistant under Washington Coach Joe Gibbs for 11 seasons before taking over at Phoenix. The Redskins intercepted four passes, converting the first three into touchdowns to post their first opening game shutout since 1973. The Cardinals have dropped seven straight season openers.

At Green Bay, Wis., Anthony Dilweg, starting instead of Don Majkowski, threw three touchdown passes in the Packers' first season- opening triumph in six seasons. Dilweg, making his first regular-season start because Majkowski ended his 45-day holdout only Wednesday, completed 20 of 32 passes for 248 yards with no interceptions. The Rams' Jim Everett completed 24 of 40 passes for 340 yards, two touchdowns and two interceptions. Chris Jacke's 53-yard field goal tied the club record and also missed his first extra point in his last 46 attempts.

At Chicago, Neal Anderson ran for two touchdowns and the Bears' defense looked rejuvenated in the shutout of Seattle. The Bears' seventh straight season-opening victory marks the longest current streak in the NFL. Anderson carried 20 times for 101 yards and caught five passes for another 42 yards. The Bears had lost three straight to the Seahawks, last beating them in 1976.

At Pontiac, Mich., Vinny Testaverde threw three touchdown passes in the first half and Harry Hamilton recovered a fumble in the end zone in the third quarter to spark Tampa Bay. Tampa Bay running back Gary Anderson, who sat out last season in a contract dispute with San Diego, had an excellent debut for the Buccaneers. He rushed 21 times for 74 yards and added 79 yards on six receptions, including the go-ahead touchdown.

At Kansas City, Mo., Christian Okoye scored on a 2-yard run in the fourth quarter and Steve DeBerg threw two touchdown passes in the first against Minnesota. The game was billed as a duel between running backs Okoye and Herschel Walker. Okoye gained 92 yards on 28 carries and the touchdown. Walker was more rounded, adding five receptions - two for touchdowns - for 70 yards to his 68 yards on 14 rushes.

At Los Angeles, linebacker Jerry Robinson returned an interception 5 yards for a touchdown and cornerback Terry McDaniel brought a fumble back 42 yards for another Raiders score during Denver's disastrous third quarter as the Broncos blew their 6-0 lead with three consecutive turnovers. John Elway, coming off the best exhibition season of his career, completed only 3 of 15 passes in the first half.

At Foxboro, Mass., Dan Marino threw a 7-yard scoring pass to Tony Paige with 1:46 left in the fourth quarter to rally Miami and snap New England's six-game winning streak on Opening Day in addition to handing Rod Rust a loss in the former Pittsburgh assistant's first game as head coach. Miami, opening its Silver Anniversary season in the NFL, had lost its last five season-openers. The Patriots' Jason Staurovsky missed a 57-yard field goal try with 21 seconds left. Sammie Smith, who ran for 105 of his career-best 159 yards in the first half, scored to bring the Dolphins within 21-20. Smith carried the ball 23 times, 15 in the opening half.

At Cleveland, Anthony Blaylock returned a fumble 30 yards for the game's only touchdown and Jerry Kauric kicked two field goals against Pittsburgh. Defending AFC Central champion Cleveland gained just 158 yards, and Pittsburgh gained 210 yards, only 49 on the ground. In last year's season opener, the Browns scored three defensive touchdowns in a 51-0 victory at Pittsburgh. The triumph was Cleveland's eighth in the last nine meetings between the AFC Central rivals.

At East Rutherford, N.J., Rodney Hampton and Dave Meggett scored touchdowns within 1:56 of the third period and Lawrence Taylor recorded three sacks to help the Giants snap a four-game losing streak against Philadelphia. Running back Hampton, the Giants' first-round draft pick, caught a 21-yard pass from Phil Simms for the team's first TD 3:55 into the third quarter for a 13-10 lead and Meggett returned a punt 68 yards for a TD.

BANGKOK (SEPT. 10) XINHUA - THAI RICE EXPORT SITUATION IS IMPROVING IN THE SECOND HALF OF THIS YEAR DESPITE THE DISRUPTION CAUSED BY THE GULF CRISIS, ACCORDING TO A LATEST OFFICIAL NEWS BULLETIN.

THE BULLETIN SAID THAI RICE EXPORT IS EXPECTED TO BE ADVERSELY AFFECTED BY THE FULF CRISIS, AS THE TWO COUNTRIES INVOLVED, IRAQ AND KUWAIT, ARE BOTH MAJOR BUYERS. 60,000 TONS OF THAI FRAGRANT RICE UNDER CONTRACT WITH IRAQ STILL UNDELIVERED DUE TO THE TROUBLES IN THE REGION.

HOWEVER, THAILAND WILL HAVE A BRIGHTER PROSPECT FOR HER RICE EXPORTS IN THE SECOND HALF OF THE YEAR AS MANY COUNTRIES, TRADITIONAL AND NEW MARKETS FOR THAI RICE, HAVE PLACED ORDERS FOR RICE TO BE DELIVERED TOWARDS YEAR, AN ADVISOR TO THE THAI COMMITTEE ON RICE POLICIES AND MEASURES WAS QUOTED AS SAYING.

THAI RICE EXPORTS ARE EXPECTED TO REACH ABOUT 4 MILLION TONS FOR THE WHOLE YEAR.

NAIROBI (SEPT. 10) XINHUA - KENYA AIRWAYS WILL BUY 10 MORE AIRCRAFT NEXT YEAR, NEARLY DOUBLING ITS FLEET, TO KEEP IN LINE WITH THE EVER-GROWING TOURISM IN THE COUNTRY, SAID THE AIRLINE'S GENERAL MANAGER NATHANIEL MUTAI.

"DAILY NATION" TODAY QUOTED MR. MUTAI AS SAYING THAT THE 10 NEW AIRCRAFT WHICH INCLUDE THREE FOKKER 50S, THREE BOEING 757S, THREE AIRBUSES AND ONE DC8 WILL BE ADDED TO THE CURRENT FLEET OF KENYA AIRWAYS CONSISTING OF SEVEN BOEING, THREE FOKKER AND ONE DC AIRPLANES.

BESIDES BOOSTING IT'S FLEET, MR. MUTAI SAID, THE AIRLINE HAS ALSO AUTOMATED FACILITIES OF ITS AGENTS FOR MAKING CROSS- WOLD FLIGHT, HOTEL, CAR HIRE AND TOUR BOOKINGS.

IT IS BELIVED THAT THE MODERNIZATION OF THE AIRLINE IS PART OF A BIG PLAN TO EXPAND TOURISM OF THE EAST AFRICAN COUNTRY. ABOUT 889,000 TOURISTS CAN BE EXPECTED TO VISIT THE COUNTRY BY THE END OF THIS YEAR IN COMPARISION WITH 700,000 TOURISTS VISITED LAST YEAR.

TIANJIN (SEPT. 10) XINHUA - TIANJIN HAS EXPORTED ITS DAIHATSU MINIBUSES TO THE SOVIET UNION, ACCORDING TO A LOCAL OFFICIAL.

THE OFFICIAL SAID THAT AT AN EXHIBITION HELD IN MOSCOW LAST JUNE, THE

ENERGOMASHEXPORT, A SOVIET UNION COMPANY, PLACED ORDER FOR 360 DAIHATSU MINIBUSES. THE WHOLE CONTRACT INVOLVES 2.3 MILLION U.S. DOLLARS IN VALUE.

THE TJ110 TIANJIN-DAIHATSU MINIBUSES WERE SHIPPED TO THE SOVIET UNION FROM SEPTEMBER 8.

THE LOCAL OFFICIALS ADDED THAT ACCORDING TO THE CONTRACT, A "TIANJIN-DAIHATSU" SERVICE CENTER WILL ALSO BE SET UP IN THE SOVIET UNION.

CAIRO, (SEPT. 10) XINHUA - THREE BELGIAN NAVAL UNITS STREAMED THROUGH THE SUEZ CANAL TODAY ON THEIR WAY TO THE GULF REGION TO JOIN A U.S.-LED MILITARY BUILDUP, A CANAL OFFICIAL SAID.

THE OFFICIAL IDENTIFIED THE THREE GULF-BOUND BELGIAN VESSELS AS TWO MINEHUNTERS, IRIS AND MYOSOTIS, AND A SUPPLY SHIP, ZINNIA.

THE ZINNIA IS A COMMAND AND LOGISTIC SUPPORT SHIP WHICH OPERATED IN THE GULF IN 1987-88 AS PART OF AN INTERNATIONAL EFFORT TO REMOVE MINES PLANTED BY IRAN IN ITS WAR WITH IRAQ.

DOZENS OF WARSHIPS FROM THE UNITED STATES AND OTHER WESTERN COUNTRIES HAVE ASSEMBLED IN THE GULF AREA SINCE THE IRAQI INVASION OF KUWAIT ON AUGUST 2.

#90253h0051 09/10/1990 ~Chinese News Agency

BANGKOK (SEPT. 10) XINHUA - THE TOURISM AUTHORITY OF THAILAND (TAT) IS URGING WORLD TOURISM ORGANIZATION (WTO) TO CLOSELY COOPERATE WITH ECONOMIC AND SOCIAL COMMISSION FOR ASIA AND THE PACIFIC (ESCAP) TO DEVELOP NEW TOURISM PRODUCTS IN THIS REGION, ACCORDING TO THE LATEST REPORT OF TAT.

AMONG MAJOR NEW PLANS OF TAT IS TO ENCOURAGE THE DEVELOPMENT OF ASIAN HIGHWAY TO ENABLE DRIVING FROM ASIA TO EUROPE,

THE REPORT SAID THE TAT HAS SUGGESTED TO WTO TO COOPERATE WITH ESCAP IN PROMOTING THE PLAN, AND NOTED THAT THE SCHEME HAS BEEN FROZEN FOR MANY YEARS DUE TO POLITICAL PROBLEMS IN MYANMAR.

AT THE SAME TIME, THE REPORT QUOTED TAT GOVERNOR DHARMNOON PRACHUANBOH AS SAYING THAT THE COOPERATION BETWEEN THAILAND AND CHINA'S NATIONAL TOURISM ORGANIZATIONS IS IN PROGRESS WITH A HOPE OF LINKING THE NORTH OF THAILAND AND THE SOUTHERN PART OF CHINA THROUGH WATER TRANSPORTATION ALONG MEKONG RIVER.

"THIS IS NOT NONSENSE BECAUSE CHINA HAS ALREADY LAUNCHED A PLAN TO DEVELOP TOURISM IN LANCANG RIVER WHICH CONNECTS WITH MEKONG RIVER," DHARMNOON SAID.

HE NOTED THAT THE CURRENT UNCERTAINTY IN INTERNATIONAL POLITICS AND THE ECONOMIC SITUATION -- CAUSED BY INCREASES IN OIL PRICES AND AIR FARES -- WOULD AFFECT WORLD TOURISM.

"THERE IS NO DOUBT THAT THAILAND WILL BE HARD HIT BY THE EXTERNAL SITUATION, " HE ADDED.

HE STRESSED THAT FACING THE SITUATIONS, THE KEY CONDITIONS WOULD BE ON THE MAINTENANCE OF THE QUALITY OF EXISTING TOURISM SERVICES AND THE INTRODUCTION OF MORE TOURISM PRODUCTS TO THE MARKET.

WINDHEOK (SEPT. 10) XINHUA - NAMIBIA LAUNCHED OFFICIALLY HERE TODAY THE NATIONAL AIDS AWARENESS WEEK WITH AN AIM OF STOPPING THE SPREAD OF THE KILLER DISEASE IN THIS COUNTRY.

DR. NICKY IYAMBO, MINISTER OF HEALTH AND SOCIAL SERVICES, SAID ON THE OCCASION THAT DURING THE AIDS AWARENESS WEEK DIFFERENT ACTIVITIES WOULD BE CARRIED OUT AT SCHOOLS, ARMY BARRACKS AND SOCIAL GATHERINGS.

"PEOPLE MUST BE INFORMED, EDUCATED ON HOW THEIR OWN IN- DIVIDUAL ACTIONS, OVER WHICH THEY EXERCISE CONTROL, CAN HELP STOP THE SPREAD OF AIDS IN NAMIBIA," HE SAID.

ACCORDING TO "THE NAMIBIAN" NEWSPAPER, 396 AIDS CASES HAVE BEEN REPORTED IN THE COUNTRY, BUT THE REAL NUMBER OF AIDS CASES IS THREE TIMES HIGHER THAN THE OFFICIAL STATISTICS.

"THE TIMES OF NAMIBIA" REPORTED THAT 29 OUT OF 1,000 PEOPLE IN NAMIBIA WERE AFFECTED WITH HIV VIRUS.

THE AIDS AWARENESS WEEK IS ORGANIZED BY THE NATIONAL AIDS CONTROL PROGRAM WHICH HAS BEEN STAFFED BY VOLUNTEERS. THE WORLD HEALTH ORGANIZATION (WHO) AND THE NAMIBIAN GOVERNMENT HAVE FUNDED THE PROGRAM.

WHO REPRESENTATIVE IN NAMIBIA DAVID TEMBO SAID THAT THIS WEEK IS ALSO PART OF THE GLOBAL PROGRAM ON AIDS.

BEIJING (SEPT. 10) XINHUA - SOUTH CHINA'S GUANGDONG PROVINCE GAVE AWARDS TO 299 OUTSTANDING TEACHERS RECENTLY ON THE EVE OF "TEACHERS DAY", THE

"PEOPLE'S DAILY" REPORTED.

ACCORDING TO A LOCAL OFFICIAL, THE LIVING STANDARDS OF TEACHERS IN THE PROVINCE HAVE IMPROVED GREATLY OVER THE PAST FEW YEARS. FOR INSTANCE, 4.7 BILLION YUAN HAS BEEN RAISED TO BUILD 26.33 MILLION SQ M OF SCHOOL BUILDINGS, AND REPAIR OR REBUILD 11.2 MILLION SQ M OF SCHOOL BUILDINGS.

MEANWHILE, EAST CHINA'S SHANDONG PROVINCE CHOSE 20 HOUSEHOLDS AS "OUTSTANDING EDUCATIONAL FAMILIES" IN AN EFFORT TO ENCOURAGE MORE TEACHERS TO DEVOTE THEIR WHOLE LIVES TO EDUCATION.

IN HUBEI PROVINCE A TOTAL OF 68 TEACHERS WERE AWARDED THE TITLE OF "PROVINCIAL TEACHERS SPECIAL CLASS" LAST FRIDAY.

NORTHEAST CHINA'S HEILONGJIANG PROVINCE HAS ISSUED CERTIFICATES AND BONUSES TO SIX PRIMARY SCHOOL TEACHERS WHO HAVE BEEN TEACHING IN THE PROVINCE'S RURAL AND REMOTE AREAS.

STATE COUNCILLOR AND MINISTER OF THE STATE EDUCATION COMMISSION LI TIEYING MINISTER OF THE STATE PHYSICAL CULTURE AND SPORTS COMMISSION WU SHAOZU, AND MINISTER OF CONSTRUCTION LIN HANXIONG RETURNED TO THEIR OLD SCHOOL -- THE BEIJING YUCAI SCHOOL -- YESTERDAY TO CONGRATULATE THEIR OLD HEADMISTRESS, XIE ZHAO, ON HER 100TH BIRTHDAY.

LI TIEYING USED THE CHANCE TO EXTEND GREETINGS ON BEHALF OF THE STATE EDUCATION COMMISSION TO ALL TEACHERS THROUGHOUT THE COUNTRY ON TEACHERS DAY.

BEIJING (SEPT. 10) XINHUA - CHINA'S NONCOMMUNIST PARTIES AND NON-PARTY PERSONAGES WITH PROFESSIONAL KNOWLEDGE AND ENTHUSIASM FOR EDUCATION WILL BE INVITED TO STUDY EDUCATIONAL POLICY AND REGULATIONS, AND INSPECT THE EDUCATIONAL QUALITY OF VARIOUS KINDS OF SCHOOLS, ACCORDING TO TODAY'S "GUANGMING DAILY".

THE PAPER REPORTED THAT THE BEIJING MUNICIPALITY HAS DECIDED TO ADOPT MORE PRACTICAL MEASURES THIS YEAR TO IMPROVE EDUCATION, WHICH INCLUDE:

-- THE MUNICIPAL GOVERNMENT WILL ALLOCATE 1.5 MILLION YUAN (ABOUT 300,000 U.S.DOLLARS) TO LAUNCH A PILOT REFORM OF THE MANAGEMENT SYSTEM OF VARIOUS SORTS OF SCHOOLS UNDER THE BEIJING MUNICIPAL ADMINISTRATION.

-- ALL BEIJING'S ENTERPRISES AND INSTITUTIONS SHOULD PROVIDE PREFERENTIAL OPPORTUNITIES FOR COLLEGE STUDENTS SO AS TO LET THEM PARTICIPATE IN PRODUCTION AND SOCIAL PRACTICE.

-- THE MUNICIPAL GOVERNMENT WILL ALLOCATE A SPECIAL FUND OF THREE MILLION YUAN TO CONSTRUCT A MILITARY TRAINING BASE FOR COLLEGE STUDENTS AND TWO OR THREE FOR MIDDLE SCHOOL STUDENTS.

-- IT WILL ALSO ALLOCATE THREE MILLION YUAN TO BUILD TECHNICAL SCHOOLS AND TEACHER TRAINING CENTERS, AS WELL AS SIX MILLION YUAN FOR VOCATIONAL SCHOOL RENOVATION.

-- PRIMARY AND MIDDLE SCHOOL STUDENTS WILL BE GIVEN PRIORITY IN THE USE OF STADIUMS AND GYMNASIUMS IN THE MUNICIPAL AREA AFTER THE 11TH ASIAN GAMES.

HONG KONG (SEPT. 10) XINHUA - NTD PATENT AGENCY LTD. OF HONG KONG, A NON-GOVERNMENTAL ENTITY OFFERING SERVICE IN LEGAL AFFAIRS AND TECHNOLOGY ACTIVITIES, WAS RECENTLY DESIGNATED AS AN AGENCY HANDLING TRADEMARK APPLICATIONS FILED IN CHINA.

THIS IS ONE OF THE FIVE TRADEMARK AGENCIES DESIGNATED BY THE STATE ADMINISTRATION FOR INDUSTRY AND COMMERCE OF CHINA. THOSE FOREIGN FIRMS WHO WANT TO INVEST IN CHINA OR DEVELOP TRADE WITH IT CAN FREELY CHOOSE ANY ONE OF THE FIVE AGENCIES.

GE BO, MANAGING DIRECTOR OF THE NTD PATENT AGENCY LTD., SAID AT A PRESS CONFERENCE HERE TODAY THAT THE PROTECTION OF INDUSTRIAL PROPERTY INCLUDING PATENT AND TRADEMARK IS AN IMPORTANT CONDITION FOR PROMOTING FOREIGN INVESTMENT AND TECHNICAL TRADE.

HE SAID IN ORDER TO PROTECT FAIR COMPETITION AND THE LEGAL RIGHTS AND INTERESTS OF INVENTORS, SINCE THE VERY BEGINNING OF THE ESTABLISHMENT OF THE PATENT SYSTEM, CHINA HAS CARRIED OUT A MULTIPLE AGENCY SYSTEM.

HE NOTED THAT THE STATE COUNCIL OF CHINA HAS DESIGNATED FOUR FOREIGN-RELATED PATENT AGENCIES, SO FOREIGN PATENT APPLICANTS MAY CHOOSE ANY ONE OF THE FOUR AGENCIES ACCORDING TO THEIR OWN INTERESTS.

THE NTD PATENT AGENCY LTD. IS ONE OF THE FOUR FOREIGN-RELATED PATENT AGENCIES DESIGNATED BY THE STATE COUNCIL. IT HAS ITS HEAD OFFICE IN HONG KONG, AND BRANCH OFFICES IN BEIJING AND SHEZHEN.

AMMAN (SEPT. 10) XINHUA - AN EXPLOSIVE DEVICE EXPLODED IN THE MAIN BUS TERMINAL IN TEL AVIV TODAY, AN ISRAELI SPOKESMAN ANNOUNCED.

THE SPOKESMAN DID NOT DISCLOSE THE DAMAGE OR THE CASUALTIES CAUSED BY THE EXPLOSION.

HOWEVER, HE SAID POLICE AND BORDER GUARDS RUSHED TO THE PLACE AND ARRESTED SEVERAL PALESTINIANS.

HE NOTED THAT A SIMILAR DEVICE WAS DEFUSED IN THE WEST BANK TOWN OF RAMALLA.

CLASHES BETWEEN PALESTINIANS AND ISRAELI ARMY TROOPS WERE ALSO REPORTED TODAY IN SEVERAL REFUGEE CAMPS AND VILLAGES IN THE OCCUPIED WEST BANK, WHERE PALESTINIANS BROKE WINDSHIELDS OF ISRAELI ARMY VEHICLES.

REPORTS FROM THE OCCUPIED TERRITORIES SAID THAT THE ISRAELI AUTHORITIES ARRESTED 70 PALESTINIANS WITHIN THE PAST 24 HOURS IN THE OCCUPIED WEST BANK AND GAZA STRIP.

TOKYO (SEPT. 10) KYODO - HANWA CO. SAID MONDAY IT HAS SIGNED A MARKETING AND DISTRIBUTION AGREEMENT WITH UNITED TECHNOLOGIES CORP. OF THE UNITED STATES TO SELL HIGH-OUTPUT COMMERCIAL LASERS IN JAPAN.

HANWA OFFICIALS SAID IT WILL MARKET FOUR VERSIONS OF UNITED TECHNOLOGIES' COMMERCIAL CARBON DIOXIDE GAS LASERS.

UNITED TECHNOLOGIES IS A MANUFACTURER OF JET ENGINES, HELICOPTERS, AND AUTOMOBILE PARTS BASED IN HARTFORD, CONNECTICUT.

LASERS WITH A MAXIMUM 10-KILOWATT OUTPUT ARE CURRENTLY BEING USED IN JAPAN MAINLY FOR DRILLING HOLES AND CUTTING THIN METAL SHEETS, THE OFFICIALS SAID.

UNITED TECHNOLOGIES' LASERS RANGING FROM SIX TO 45 KILOWATTS IN OUTPUT WILL ENABLE MAJOR MANUFACTURERS TO CUT COSTS ON WELDING AND HEAT TREATMENT PROCESSES, THEY SAID.

HANWA PLANS TO MARKET THE LASERS TO STEEL AND METAL MANUFACTURERS, HEAVY ELECTRICAL EQUIPMENT MAKERS, SHIPBUILDERS, AND AUTOMAKERS. THE COMPANY FORESEES SALES OF 1.5 BILLION YEN IN THE FIRST YEAR.

#90253k0073 09/10/1990 ~Japanese News Agency

TOKYO (SEPT. 10) KYODO - BUSINESS ACTIVITY IN JAPAN'S SERVICE SECTOR REMAINED STRONG IN THE SECOND QUARTER OF 1990 ON ROBUST PERSONAL CONSUMPTION AND HEALTHY CORPORATE CAPITAL SPENDING, MINISTRY OF INTERNATIONAL TRADE AND INDUSTRY (MITI) SAID IN A REPORT MONDAY.

THE INDEX OF ACTIVITY IN THE SERVICE SECTOR IN THE APRIL-JUNE PERIOD STOOD AT 131.6, UP 7.2 PERCENT FROM THE SAME PERIOD LAST YEAR WITH 1985 AS THE BASE, THE REPORT SAID.

THE FIGURE REPRESENTS A 1.2 PERCENT CLIMB FROM THE PREVIOUS QUARTER, IT SAID.

THE 7.2 PERCENT YEAR-ON-YEAR UPSWING IN THE SECOND QUARTER FOLLOWED A 4.2 PERCENT ADVANCE IN THE JANUARY-MARCH PERIOD, THE REPORT SAID.

THE DISTRIBUTION AND RESTAURANT SECTORS WERE ESPECIALLY STRONG WITH A 10.1 PERCENT RISE IN THE INDEX FROM A YEAR EARLIER.

ALL OTHER CATEGORIES OF SERVICE BUSINESS EXCEPT REAL ESTATE AND PUBLIC SERVICES ALSO GREW BRISKLY, POSTING 5.6 PERCENT TO 7.8 PERCENT GAINS.

THE EXPANSION IN REAL ESTATE WAS A PALTRY 0.8 PERCENT AS SALES OF RESIDENTIAL PROPERTY AND APARTMENT HOUSES SLACKENED, THE REPORT SAID.

#90253k0079 09/10/1990 ~Japanese News Agency

TOKYO (SEPT. 10) KYODO - THE FINANCE MINISTRY SAID ON MONDAY IT HAS DECIDED NOT TO SELL STATE-OWNED NIPPON TELEGRAPH AND TELEPHONE CORP. (NTT) SHARES IN THE CURRENT FISCAL YEAR ENDING MARCH 31, 1991.

PRICES OF THE TELECOMMUNICATIONS CONGLOMERATE, WHICH WENT PRIVATE IN 1985, PLUNGED TO A RECORD LOW 849,000 YEN LATE LASTMONTH, DOWN FROM 1.19 MILLION YEN PER SHARE WHEN IT WAS INITIALLY OFFERED TO THE PUBLIC IN FISCAL 1989.

NTT SHARES, THE MOST EXPENSIVE ON THE TOKYO STOCK EXCHANGE, CLOSED MONDAY AT 881,000 YEN, UP 21,000 YEN FROM FRIDAY'S FINISH.

THE MINISTRY, WHICH PLANNED TO SELL ABOUT TWO MILLION NTT SHARES THIS FISCAL YEAR, SAID THE DECLINE IN THE STOCK MARKET STEMMING FROM THE CRISIS IN THE PERSIAN GULF ACCELERATED THE DEPRECIATION OF NTT STOCK.

THE 225-ISSUE NIKKEI STOCK AVERAGE PLUMMETED TO 23,737.63 YEN ON AUGUST 23
 ITS LOWEST POINT FOR THE YEAR.

#90253k0082 09/10/1990 ~Japanese News Agency

KOBE (SEPT. 10) KYODO - THE KOBE DISTRICT COURT ON MONDAY SENTENCED TWO SOUTH KOREAN SAILORS TO PRISON TERMS FOR SMUGGLING ABOUT 12 KILOGRAMS OF COCAINE WITH A STREET VALUE OF ABOUT 840 MILLION YEN INTO JAPAN FROM COLOMBIA.

KIM KI CHIN, 45, WAS SENTENCED TO EIGHT YEARS' IMPRISONMENT WITH AN 800,000 YEN FINE WHILE HA TAE CHONG, 43, WAS SENTENCED TO FOUR YEARS IN JAIL AND A 400,000 YEN FINE.

KIM AND HA TO SMUGGLED THE COCAINE INTO JAPAN FROM COLOMBIA BY SHIP AND HANDED THE COCAINE TO A JAPANESE ELECTRIC APPLIANCE AGENT WHEN THE SHIP ARRIVED IN KOBE PORT IN JULY LAST YEAR.

BUT THE AGENT, WHO IS ALSO ON TRIAL, THREW THE COCAINE INTO THE SEA WHEN CUSTOMS OFFICERS QUESTIONED HIM. THE COCAINE WAS CONTAINED IN A BAG LATER FOUND FLOATING IN THE WATER.

TOKYO (SEPT. 10) KYODO - INDONESIAN ENERGY AND MINING MINISTER GINANDJAR KARTASASMITA SAID MONDAY HE BELIEVES IT IS DIFFICULT FOR INDONESIA TO IMMEDIATELY BOOST ITS OIL SUPPLY TO JAPAN, BUT HOPED THE COUNTRY CAN DO SO OVER THE NEXT YEAR.

''HOPEFULLY, WE WILL INCREASE OUR SUPPLY TO JAPAN IN THE COMING MONTHS. ... HOWEVER, WE ALSO HAVE TO BEAR IN MIND THAT THERE ARE OTHER COUNTRIES WHO ALSO ASK FOR MORE OIL FROM INDONESIA, LIKE KOREA, THE PHILIPPINES, INDIA, AND PAKISTAN. I THINK THEIR PROBLEMS ARE MUCH BIGGER THAN THE PROBLEMS THAT THE JAPANESE FACE, BECAUSE YOU HAVE PLENTY OF STOCKS,'' GINANDJAR TOLD A PRESS CONFERENCE.

BUT HE PREDICTED INDONESIA CAN INCREASE OIL SUPPLY TO JAPAN IN THE NEXT YEAR, BOOSTING OUTPUT TO 1.42-1.45 MILLION BARRELS PER DAY (BPD), AGAINST THE CURRENT 1.28 MILLION BPD.

IN A BID TO EASE MOUNTING PRESSURES ON THE OIL MARKET AFTER IRAQ'S INVASION AND ANNEXATION OF KUWAIT, INDONESIA HAS ANNOUNCED THAT IT WILL IMMEDIATELY INCREASE ITS OIL OUTPUT BY 100,000 BPD. HE SAID HIS COUNTRY PLANS TO PRODUCE AN EXTRA 500,000 BPD FROM THE NEXT YEAR.

GINANDJAR, IN TOKYO AFTER A VISIT TO SOUTH KOREA, SAID IT IS IMPOSSIBLE TO

ARREST SURGING OIL PRICES NOW, AND THE SUPPLY-DEMAND BALANCE IS EXPECTED TO TIGHTEN TOWARD WINTER.

''PRICES WILL GO MUCH HIGHER. THEY WILL NOT GO DOWN, AT LEAST,'' HE SAID.

AT FULL CAPACITY THE OIL PRODUCTION BY THE ORGANIZATION OF PETROLEUM EXPORTING COUNTRIES (OPEC), EXCLUDING IRAQ AND KUWAIT, TOTALS AN ESTIMATED 21.5 MILLION BPD, FAR BELOW THE 24.5 MILLION BPD DEMAND PREDICTED FOR WINTER, HE SAID.

HE SAID IT IS NOT LIKELY FOR OIL PRICES TO RETURN TO THE 20 DOLLAR LEVEL.

GINANDJAR ALSO SAID HE DOES NOT EXPECT ANOTHER MEETING OF THE OPEC COUNTRIES BEFORE DECEMBER, IF THE GULF CRISIS REMAINS UNSOLVED.

BUT IF THE CRISIS IS SETTLED, THERE WILL HAVE TO BE A MEETING OF MEMBER STATES TO RETURN TO OIL PRODUCTION QUOTAS AGREED AT OPEC'S GENERAL MEETING IN JULY.

SHORTLY AFTER THE ERUPTION OF THE GULF TURMOIL, THE OIL CARTEL AGREED TO ABANDON THE JULY ACCORD AND ALLOWED MEMBERS TO PRODUCE AT FULL CAPACITY IN ORDER TO MAKE UP FOR THE SUPPLY SHORTAGE FROM INTERNATIONAL EMBARGOES AGAINST IRAQ AND KUWAIT.

KATHMANDU (SEPT. 10) KYODO - KING BIRENDRA OF NEPAL WAS PRESENTED WITH THE DRAFT OF NEPAL'S NEW CONSTITUTION BY THE CHAIRMAN OF THE CONSTITUTION RECOMMENDATIONS COMMISSION, BISWANATH UPADHYAYA, AT THE NARAYANHITY ROYAL PALACE ON MONDAY.

THE KING THEN HANDED THE DRAFT TO PRIME MINISTER KRISHNA PRASAD BHATTARAI FOR STUDY BY THE COUNCIL OF MINISTERS.

THE DRAFT WILL GO BACK TO THE KING LATER FOR PROMULGATION. THE PRESENTATION WAS ATTENDED BY GOVERNMENT MINISTERS, MEMBERS OF THE CONSTITUTION PANEL, REPRESENTATIVES OF THE UNITED LEFT FRONT AND HEADS OF CONSTITUTIONAL BODIES.

THE COMMUNISTS WHO HAD EARLIER DECIDED NOT TO ATTEND REVERSED THEIR POLICY AT THE LAST MINUTE.

NO OFFICIAL ANNOUNCEMENT HAS BEEN MADE ON THE TIMING OF THE PROMULGATION OF THE NEW CONSTITUTION BY THE KING.

AFTER RECEIVING THE DRAFT, THE KING THANKED THE COMMISSION CHAIRMAN FOR COMPLETING THE FRAMING OF THE NEW CONSTITUTION DESPITE DIFFICULT

CIRCUMSTANCES.

#90253k0093 09/10/1990 ~Japanese News Agency
TOKYO (SEPT. 10) KYODO - BRITISH FOREIGN SECRETARY DOUGLAS HURD ON MONDAY ENDED A DAY OF TALKS WITH JAPANESE GOVERNMENT AND BUSINESS LEADERS BY EMPHASIZING THE NEED FOR FURTHER JAPANESE CONTRIBUTIONS TO INTERNATIONAL EFFORTS IN THE PERSIAN GULF REGION.

''I KNOW THE JAPANESE GOVERNMENT WILL CONSIDER WHAT ELSE CAN BE DONE,'' HURD TOLD BUSINESS LEADERS IN A SPEECH AT THE POWERFUL FEDERATION OF ECONOMIC ORGANIZATIONS (KEIDANREN).

''IT WOULD BE WRONG FOR US TO LEAVE THE UNITED STATES TO SHOULDER THE WHOLE BURDEN OF DEFENDING OUR COLLECTIVE INTERESTS,'' HE ADDED.

HURD'S MEETING EARLIER IN THE DAY WITH FOREIGN MINISTER TARO NAKAYAMA PRODUCED A JOINT STATEMENT CONDEMNING IRAQ'S INVASION OF KUWAIT AND EXHORTING ALL COUNTRIES TO MAKE ''THE MAXIMUM POSSIBLE CONTRIBUTION'' TO THE INTERNATIONAL FORCES DEPLOYED IN THE GULF REGION.

NAKAYAMA WAS QUOTED BY FOREIGN MINISTRY OFFICIALS AS TELLING HURD THAT JAPAN IS MAKING ''MAXIMUM EFFORTS'' WITHIN THE CONSTRAINTS OF ITS WAR-RENOUNCING CONSTITUTION AND HOPES TO ENACT NEW LEGISLATION WHICH WOULD ENABLE IT TO BETTER RESPOND TO INTERNATIONAL CRISES IN THE FUTURE.

''I THINK ITS A GOOD START,'' HURD LATER TOLD REPORTERS IN REFERENCE TO TOKYO'S PLEDGE OF 1 BILLION DOLLARS IN SUPPORT OF THE MULTINATIONAL FORCES 22 MILLION DOLLARS IN EVACUEE RELIEF ASSISTANCE, AND AN AS-YET-UNSPECIFIED AMOUNT OF ECONOMIC AID FOR EGYPT, JORDAN, AND TURKEY.

BUT HURD SAID HE HAD SUGGESTED TO NAKAYAMA AND PRIME MINISTER TOSHIKI KAIFU THAT JAPAN REMAIN ''FLEXIBLE'' WITH REGARD TO THE SIZE OF ITS CONTRIBUTION, ''AS THE QUANTITY OF WHAT IS NEEDED INCREASES DAY BY DAY.''

THE TWO FOREIGN MINISTERS ALSO ISSUED A JOINT STATEMENT CALLING FOR TOP-LEVEL ''POLITICAL COMMITMENT'' TO ENSURE THE SUCCESSFUL CONCLUSION OF THE URUGUAY ROUND OF MULTILATERAL TRADE TALKS BY THE END OF DECEMBER.

ON THE ISSUE OF AID TO COUNTRIES IN EASTERN EUROPE, OFFICIALS SAID NAKAYAMA AGREED WITH HURD'S PROPOSAL FOR BRITAIN AND JAPAN TO OPEN UP A DIALOGUE FOR COLLABORATION ON ECONOMIC AND TECHNICAL ASSISTANCE PROJECTS.

''ITS CLEAR TO ME THAT BOTH BRITAIN AND JAPAN HAVE THINGS WHICH WE CAN CONTRIBUTE TO JOINT PROJECTS TO HELP THESE NEWLY DEMOCRATIC COUNTRIES,'' HURD TOLD REPORTERS. ;;MORE NNNN R158 R CA15 R :LEADALL HURD 2 TOKYO:

OFFICIALS SAID NAKAYAMA INFORMED HURD HE WOULD DISPATCH A TEAM OF AID EXPERTS TO LONDON IN THE NEAR FUTURE TO EXPLORE THE PROSPECTS FOR ANGLO-JAPANESE COOPERATION IN THE AREA, OFFICIALS SAID.

HURD EXPLAINED THAT BRITAIN ALREADY HAS A WELL-DEVELOPED SCHEME FOR PROVIDING WESTERN KNOW-HOW TO POLAND, HUNGARY, AND CZECHOSLOVAKIA IN SUCH AREAS AS FINANCE, DEVELOPMENT OF SMALL BUSINESSES, AND MANAGEMENT TRAINING.

''WE WILL DISCUSS IN DETAIL WITH THE JAPANESE SPECIFIC PROJECTS IN THOSE THREE COUNTRIES AND OTHERS WHERE JAPAN AND BRITAIN COULD CONTRIBUTE SKILLS TOGETHER,'' HE SAID.

NAKAYAMA AND HURD ALSO AGREED IN PRINCIPLE ON A SCHEME FOR JAPANESE BUSINESS ENTERPRISES IN BRITAIN TO RECEIVE BUSINESS PERSONS FROM EASTERN EUROPE FOR BUSINESS AND MANAGEMENT TRAINING.

SEVERAL MAJOR JAPANESE CORPORATIONS IN BRITAIN HAVE ALREADY AGREED TO ACCEPT THE TRAINEES AND THE MINISTRY OF INTERNATIONAL TRADE AND INDUSTRY (MITI) HAS REQUESTED FUNDS FOR THE SCHEME TO BE ALLOCATED IN ITS BUDGET FOR THE NEXT FISCAL YEAR BEGINNING APRIL.

OFFICIALS SAID IT WAS DECIDED IT WOULD BE MORE COST-EFFECTIVE TO HAVE THE TRAINEES STUDY AT JAPANESE ENTERPRISES IN BRITAIN RATHER THAN IN JAPAN DUE TO ITS GEOGRAPHICAL PROXIMITY. LANGUAGE AND CULTURAL DIFFICULTIES COULD ALSO BE CIRCUMVENTED, THEY ADDED.

OUT OF CONCERN FOR THE STABILITY OF HONG KONG AHEAD OF ITS REVERSION TO CHINA IN 1997, HURD EMPHASIZED THE NEED FOR JAPAN AND OTHER COUNTRIES TO AVOID GIVING ANY APPEARANCE OF HAVING LOST FAITH IN ITS FUTURE.

PROMOTING THE CONCEPT OF A ''TRIALOGUE'' IN HIS KEIDANREN ADDRESS, HURD CALLED FOR ''BETTER MECHANISMS OF CONSULTATION INVOLVING THE UNITED STATES EUROPE AND JAPAN.''

HURD SAID THE PROPOSED CONSULTATIONS SHOULD BE REGULAR ONES WITH THE GROUP-OF-SEVEN (G-7) FORUM SERVING AS THE CORE, ''WITHOUT CREATING A NEW BUREAUCRACY.''

''WE WOULD LIKE IT TO BE A MORE SUBSTANTIVE FORUM, SO THAT JAPAN'S VOICE CAN BE HEARD MORE DISTINCTLY AND HER PERSPECTIVE ON THE WORLD REFLECTED MORE CLEARLY,'' HE SAID.

OFFICIALS SAID NAKAYAMA AND HURD SHARED THE VIEW THAT BILATERAL RELATIONS ENJOY ''UNPRECEDENTEDLY GOOD CONDITIONS'' PARTLY BECAUSE THORNY BILATERAL ECONOMIC DISPUTES OF THE RECENT PAST HAVE NOW BEEN RESOLVED.

HURD HAILED THE FACT THAT BRITISH EXPORTS TO JAPAN INCREASED 30 PERCENT LAST YEAR AND ARE APPROACHING THE GOAL OF DOUBLING OVER A THREE-YEAR

PERIOD TO 3 BILLION POUNDS STERLING A YEAR, ''A VERY SATISFACTORY INCREASE.''

BUT HE CALLED FOR INCREASED ACCESS TO THE JAPANESE MARKET FOR BRITISH AEROSPACE INDUSTRY PRODUCTS.

HURD SAID THE DOORS OF BRITAIN REMAIN WIDE OPEN TO JAPANESE INVESTMENT AND NOTED THAT BRITAIN HAS SO FAR SUCCEEDED IN ATTRACTING 138 JAPANESE COMPANIES WHICH HAVE INVESTED A TOTAL OF 3.5 BILLION POUNDS.

AS FOR OTHER JAPANESE COMPANIES STILL CONTEMPLATING THE MOVE, HE SAID, ''THEY WILL FIND THE WELCOME NOTICE CLEARLY DISPLAYED ON THE WHITE CLIFFS OF DOVER.''

HURD WELCOMED THE EXPANSION OF CULTURAL EXCHANGES AND HAILED THE COMMENCEMENT ON MONDAY OF THE UK '90 PROGRAM, IN WHICH SOME 120 EVENTS WILL BE HELD IN JAPAN TO INTRODUCE BRITISH CULTURE AND LIFESTYLE TO THE JAPANESE PEOPLE.

#90253k0102 09/10/1990 ~Japanese News Agency

SHANGHAI (SEPT. 10) KYODO - THE MAYOR OF SHANGHAI SAID MONDAY THE CITY WILL ALLOW FOREIGN BANKS TO OPEN BRANCHES IN ITS EASTERN DISTRICT OF PUDONG.

FOREIGN EXPORT AND HIGH-TECHNOLOGY ENTERPRISES WILL BE WELCOME IN THE 350-SQUARE KILOMETER DISTRICT, MAYOR ZHU RONGJI ANNOUNCED IN A NEWS CONFERENCE. SENIOR CENTRAL GOVERNMENT OFFICIALS WERE ALSO PRESENT AT THE MEDIA GATHERING.

THE MAYOR SAID ENTERPRISES WILL ENJOY INCOME TAX BREAKS AS AN INCENTIVE TO SET UP BUSINESS IN THE AREA, ADDING THAT THE TERMS WOULD BE SIMILAR TO THOSE OFFERED FOR THE SHENZHEN AND AMOY SPECIAL ECONOMIC ZONES.

ZHU SAID THE NEW POLICY WILL ALLOW FOREIGN BANKS TO OPEN BRANCHES OR SET UP JOINT BANKS WITH CHINESE BANKS IN THE PUDONG DISTRICT.

THE POLICY ENCOURAGES THE INTRODUCTION OF FOREIGN CAPITAL FOR THE IMPROVEMENT OF INDUSTRIAL INFRASTRUCTURE LIKE AIR AND SEA PORTS AS WELL AS ROADS IN THE DISTRICT.

ZHU SAID FOREIGN BANKS WHICH ESTABLISHED A REPRESENTATIVE OFFICE MORE THAN THREE YEARS AGO AND ARE GIVEN A PERMIT TO OPERATE BY THE PEOPLE'S BANK OF CHINA MAY SET UP A HEAD OFFICE IN THE PUDONG DISTRICT IF TOTAL ASSETS EXCEED 10 BILLION DOLLARS. A BRANCH OFFICE CAN OPEN THERE IF TOTAL ASSETS EXCEED 20 BILLION DOLLARS.

FOREIGN BANKS ARE NOT PERMITTED TO OPEN BRANCHES IN MAINLAND CHINA EXCEPT IN SPECIAL ECONOMIC ZONES LIKE SHENZHEN.

ULAN BATOR (SEPT. 10) KYODO - MONGOLIAN PRESIDENT PUNSALMAAGIYN OCHIRBAT ON MONDAY APPOINTED FIRST DEPUTY PRIME MINISTER DASHIYN BYAMBASUREN AS PRIME MINISTER OF A NEW REFORM GOVERNMENT AT THE GREAT PEOPLE'S HURAL, OR UPPER HOUSE OF PARLIAMENT.

OCHIRBAT APPOINTED BYAMBASUREN AS PRIME MINISTER APPARENTLY FOR HIS EXPERTISE IN ECONOMICS IN HOPES OF REBUILDING THE NATION'S ECONOMY.

THE 48-YEAR-OLD PRIME MINISTER WILL APPOINT HIS CABINET MEMBERS. BYAMBASUREN WAS APPOINTED AS DEPUTY PRIME MINISTER LAST DECEMBER AND WAS PROMOTED TO FIRST DEPUTY PRIME MINISTER IN MARCH.

HE VISITED JAPAN IN MAY TO STUDY BUSINESS MANAGEMENT WHILE HAVING VISITED THE UNITED STATES AND WEST EUROPEAN COUNTRIES.

#90253k0108 09/10/1990 ~Japanese News Agency

TOKYO (SEPT. 10) KYODO - SAUDI ARABIA WILL PARTLY CANCEL ITS EARLIER DECISION TO SUSPEND IT SUPPLY OF PETROLEUM PRODUCTS AND WILL SHIP THEM TO JAPAN AT THE END OF SEPTEMBER AS ORIGINALLY CONTRACTED, JAPANESE PETROLEUM INDUSTRY SOURCES SAID MONDAY.

FOLLOWING THE AUGUST 2 IRAQI INVASION OF KUWAIT, SAUDI ARABIA ANNOUNCED THAT IT WOULD STOP SHIPMENTS OF PETROLEUM PRODUCTS SUCH AS KEROSENE AND GAS OIL FROM ITS JUBAIL OIL REFINERY IN SEPTEMBER. THE COUNTRY SAID IT HAS TO SUPPLY FUEL FOR THE U.S. MILITARY FORCES STATIONED IN THE MIDDLE EAST.

THE REASON FOR THE DECISION IS NOT YET KNOWN, ACCORDING TO THE SOURCES, BUT IT IS PROBABLY BECAUSE THE COUNTRY HAS AMPLE STOCKS OF OIL PRODUCTS FOR SUPPLY TO THE U.S. FORCES, THEY SAID.

THEY SAID THE U.S. MILITARY HAS BEEN BUYING FUEL IN MANY DIFFERENT PLACES SUCH SINGAPORE, BUT THAT IT MIGHT HAVE A SURPLUS SINCE NO MILITARY CONFLICT HAS OCCURRED SO FAR.

#90253m0001 09/10/1990 ~Market Consensus Surveys

FALLS CHURCH, VA (SEPT. 10) MCS - A SAMPLING OF TODAY'S COMMENTARY COMPILED BY MARKET CONSENSUS SURVEYS, INC. IN TWO SECTIONS (1) STOCKS (2)

MONEY & ECONOMY.

IN THE NEWS:

World stock prices are higher and crude oil is lower this morning in the wake of the Helsinki summit. ... In Tokyo, the Nikkei surges 1119 points, more than 4.5%. points at midday. ... U.S. stock prices are also higher overseas with the EXMI up about 1.50. ... Gold is lower and the dollar is mixed. ... GOODYEAR TIRE & RUBBER CO. says it expects to lose $65 million in the third-quarter and will lay off 1,180 people in Europe by mid-1992. ... MANVILLE has agreed to put up to $520 million into a trust fund to pay thousands of asbestos health claims. ... BANKAMERICA CORP. says it has acquired the 88 retail branches and assets and liabilities of the failed BENJAMIN FRANKLIN S&L.

WHAT'S AHEAD:

Budget negotiators resume talks this morning at Andrews Air Force Base after reporting little progress last night in three straight days of talks. ... The COMMERCE DEPARTMENT releases second-quarter manufacturers profits later today and the FEDERAL RESERVE issues July consumer credit figures. ... PRESIDENT BUSH addresses a joint session of Congress Tuesday night on the Persian Gulf situation. ... On Thursday, the COMMERCE DEPARTMENT issues July housing completions, manufacturers put out auto sales figures for the first 10 days of September and FED CHAIRMAN ALAN GREENSPAN testifies before the HOUSE BANKING COMMITTEE on deposit insurance reform. ... On Friday, the LABOR DEPARTMENT releases the producer price index for August, COMMERCE reports on retail sales and the FED issues industrial production and capacity utilization figures.

FROM THE BULLS:

"There is so much bearishness I think the stock market is setting up for a dynamite move up," says GLENN CUTLER, editor of "Market Mania" newsletter. "Almost every sentiment indicator ... is flashing market bottom. I hear so many people bragging about what they've 1 shorted. The crowd is always on the wrong side of the market." ("Investor's Daily", 9/10)

"I'm bullish on the market here [this morning]," says EUGENE PERONI JR. of JANNEY MONTGOMERY SCOTT, who believes the technical elements are in place for a gain in stock prices through the end of this quarter and into the next. Peroni thinks the August 22 Dow of 2484 represented an oversold extreme and says the current technical configuration around 2600 has "very bullish characteristics." Peroni is also encouraged by the high level of bearish sentiment and hopes volume does not pick up because that would indicate investors are turning optimistic too soon. "I think we need to see further skepticism." (FNN "World Business Update", 9/10)

"This has to be a buying opportunity," says GERALD JORDAN of HELLMAN-JORDAN MANAGEMENT CO. "Even if we are going into a depression, we have to rally first. The market is already discounting a doubling of the price of oil, war, a recession and higher interest rates. The risk has been taken out of the stock market." (NYT, 9/9)

FROM THE BEARS:

"I think we have only just begun [the market decline]," says financial journalist JAMES GRANT. "What makes me bearish is not so much the goings on in the Persian Gulf. I think this has precious little to do with the Middle East. I think it concerns events in Japan. ... The Japanese have suffered a terrific loss of wealth with the break in their stock market, and the significance in that is that the Japanese have been the marginal providers of bank credit to the world." He says as the Japanese banks "pull in their horns," it has an impact on the rest of the world. "They have spent their last billion on Pebble Beach." ("Wall Street Week", 9/7)

"I think the market has made the bulk of its retracement rally," says MARC CHALKIN of BOMAR SECURITIES. "For the next four or five weeks it could have a downward bias as it retests its recent low at the 2483 level of the Dow. It is possible the Dow may only pull back to 2550 and then hold and start back up again. Since August of 1987, waterfall drops have not undercut their lows on a retest. So it could happen again. If we are in a bear market - and my sense says we are ... - I don't think it will be a long, grind-it-out, old-fashioned affair." ("Investor's Daily", 9/10)

MICHAEL HOLLAND, head of SALOMON BROTHERS ASSET MANAGEMENT, says, "There are two things that are pretty clear to us: No. 1, we are in a recession. No. 2, we are in a bear market. ... The probabilities are that we can go down 10 or 20 percent from here which ... on the Dow Jones would be 2300-2200. Once we get there we would like to take another look." ("Wall Street Week", 9/7)

DAN DORFMAN reports in "USA Today" this morning that officials of MONTGOMERY SECURITIES will tell money managers at a four-day conference in San Francisco this week that the market slide is not over - that the Dow could drop as low as 2200 in three to six months. ("USA Today", 9/10)

MARSHALL ACUFF of SMITH BARNEY is wary of the impact a recession could have on stocks. He says, "The economy is deteriorating, and that in turn, of course, has negative implications for earnings and dividend growth in the future." (FNN "Marketwrap", 9/7)

STOCK MARKET:

The latest quarterly survey of 96 money managers by "Barron's" found 52% describing themselves as bearish on the stock market's "immediate outlook"

while 28% were bullish and 20% on the fence. "Still, most of the self-proclaimed pessimists ... believe that the worst of the stock price slide is over," the report says. The consensus is that the Dow will close the year at around 2675, rising to 2720 by next March and to 3000 by next September. ("Barron's", 9/10)

"I think [the market] will try to move ahead this week, but it will be difficult," MONTE GORDON says this morning. The director of research at DREYFUS CORP. says he expects the market to have a positive and "hopeful" reaction to the Helsinki summit. While a recession continues to weigh on stocks, Gordon says, "The market has come down a great deal. ... It is really not out of line with the sluggish performance the economy is showing." (CNBC "World Business Update", 9/10)

On a near-term basis, stock prices could respond favorably to an easing of the Persian Gulf crisis and relief of pressure on oil prices, says ABBEY COHEN, chief strategist at BARCLAYS de ZOETE WEDD. But longer term, Cohen remains bearish: "The reason is simple - the economy is weak, corporate profits are going to have a very difficult time increasing." She believes analysts' forecasts of big profit increases next year are highly unrealistic. (FNN "World Business Update", 9/10)

"The sentiment [in the market] has become so negative that sometime very soon, probably early next week, we will be in the throes of a good technical trading rally that could take us up near the 2700 level," says JACK CONLON of ROTHSCHILD & CO. But he sees a subsequent fall - perhaps to about 2200. (CNBC "Market Wrap-Up", 9/7)

"The public is as disillusioned about the stock market now as they were in 1930," says ALBERT SINDLINGER, who has been surveying American households for 36 years. A recent daily sampling found only 3.1 percent of the people who already own stock saying they planned to buy more in the near future. "Wall Street pros are punch drunk," says WILLIAM LeFEVRE of ADVEST CORP. "They were euphoric in July, but became depressed after the Middle East situation resulted in higher oil prices and a further erosion of the domestic economy." ("The Washington Post", 9/7)

"Our course is steady as it goes," says ARTHUR NICHOLAS of NICHOLAS, APPLEGATE CAPITAL. "We don't think we're looking at anything that's really severe in terms of the market's reaction." (NYT, 9/9)

"Short-term, I think we do have a buying opportunity," says WILLIAM WATERS. "We're incredibly oversold in the short-term and we've got a lot of bearish sentiment. I think we could see a bounce, but the upside potential is short-term - maybe 150 points on the Dow - where the downside is double or even triple that." He does see a better market in late 1991. ("Wall Street Week", 9/7)

-30- 8531
#90253m0002 09/10/1990 ~Market Consensus Surveys
FALLS CHURCH, VA (SEPT 10) MCS -- A SAMPLING OF TODAY'S COMMENTARY COMPILED BY MARKET CONSENSUS SURVEYS, INC. IN TWO SECTIONS (1) STOCKS (2) MONEY & ECONOMY.

MONEY & CREDIT:

"It's highly probable that we will see an 80-cent Deutschemark before we see a 40-cent one again," says SANFORD PINNA, president of the FOREIGN CURRENCY EXCHANGE CORP., in Tampa, Fla. ("Barron's", 9/10)

"This moderation in labor force activity [as shown in Friday's unemployment report] is clearly in keeping with the Fed's overall objectives, and I don't think we will see any immediate change in [monetary] policy because of that," says WILLIAM SULLIVAN, director of money market research at DEAN WITTER. (CNBC "Market Wrap-Up", 9/7)

"The Fed does not want to be in the position of accommodating an oil price shock as it did in the 1970s, and is not sure what the impact [of easing credit] on long-term interest rates will be," says LYNN REASER of FIRST INTERSTATE BANCORP in Los Angeles. "It wants to see how the Mideast crisis is resolved." ("Investor's 6 Daily", 9/10)

"The Wall Street Journal" says "there is a widespread consensus that the nation's central bank will soon lower the closely watched federal funds rate 1/4 to 1/2 a percentage point from its current target level of 8%." But the report says many economists say such a move would be too late to stimulate economic growth and "may not stave off a recession." ROBERT CHANDROSS of LLOYD BANK PLC says: "It doesn't matter whether they ease now or in four weeks from now. There is not a lot they can do to influence the path of the economy during the balance of 1990." (WSJ, 9/10)

"The increasing probability that the economy will be pushed into a recession argues for a further steeping of the yield curve, as an easing in official monetary policy looks more and more likely," says THOMAS SOWANICK of MERRILL LYNCH CAPITAL MARKETS. But he says "the probable outcome is that long-term interest rates will rise further as short-term rates decline" if the market perceived that the Fed has abandoned its inflation fight. ("Investor's Daily", 9/10)

"It's just a question of time before the Fed recognizes the real distinct probability of a recession sometime in the winter," says JOSEPH LIRO of S.G. WARBURG. (FNN "Marketwrap", 9/7)

"Over the next year, we think rates are going down," says MITCHELL MEISLER of LEHMAN BROTHERS. "We think there'll be 8% on the long bond sometime in

the early part of 1991, and we think we could have negative GNP in the third quarter and we're probably going to be in a recession in the fourth quarter and first quarter." (FNN "Marketwrap", 9/7)

"People at the Federal Reserve are very torn by what they see with the economy, which clearly calls for an easing of policy, [and] with the prospective inflation news, which gives them pause," says CHARLES LIEBERMAN, chief economist at MANUFACTURERS HANOVER SECURITIES. ("Nightly Business Report", 9/7)

"The ease will not come right now," predicts the president of MERRILL LYNCH's government securities division, JOSEPH PETRI. "In the long run, that's probably better for our market." He says the "credibility of the Fed" would be damaged if it were to ease in a time of inflationary worries. (CNN "Moneyline", 9/7)

"There is a worldwide shortage of money, and the rise in the price of money -- that is, interest rates -- is going to be as breathtaking as the rise of oil prices was in the 1970s," says MICHAEL ARONSTEIN of COMSTOCK PARTNERS. (NYT, 9/9)

"I think the major move in interest rates is going to be down," says CARTER RANDALL. "I think one of the major reasons for that is that the Fed will ease money. I also think that the demand for credit in the private sector, which is even bigger than the public sector, is going to diminish considerably during this sluggish economy and that will bring rates down." ("Wall Street Week", 9/7) 7

"I don't think [junk bond] defaults will slow down," says GABRIELLA PETRUCCI of SALOMON BROTHERS. "We'll see a lot more, especially in attempts to restructure debt." She conducted a survey that found $10 billion in junk bond defaults so far this year, already surpassing $8.8 billion in defaults last year. (NYT, 9/9)

THE ECONOMY:

"Employment is slightly stronger than I expected and, I think, probably an itsy-bitsy bit stronger than the market expected," says BILL WOLMAN, chief economist at "BusinessWeek" and "CNBC." "However, it still continues that dance along the zero line for the economy." Moreover, he says some other indicators -- like retail sales -- provide a better measure of what's ahead for the economy, and they continue to be weak. (CNBC "Market Wrap-Up", 9/7)

"The [employment] data confirm the weakness that has been on track in the economy for some time," says RAYMOND STONE of STONE & McCARTHY RESEARCH ASSOCIATES. "If the Fed was inclined to ease before the jobs data, they should be even more inclined to do so after the report." ("Investor's

Daily", 9/10)

"So far, the economic evidence shows there was not that much damage done by the invasion [of Kuwait]," says EDWARD YARDENI of PRUDENTIAL-BACHE. ADRIAN DILLON of the EATON CORPORATION in Cleveland, says, "Before the invasion the economy had been slowly regaining some momentum, making it better equipped to withstand the shock of the Iraq crisis. The economy is no longer accelerating, but it is not falling off a cliff either." (NYT, 9/10)

NORMAN ROBERTSON of MELLON BANK in Pittsburgh says the preoccupation with whether there is a recession is "just splitting hairs over a definition. The real point is: The economy's stopped growing." ("USA Today", 9/10)

DONALD RATAJCZAK, head of the economic forecasting project at GEORGIA STATE UNIVERSITY, is looking for oil prices to stabilize at about $23 a barrel as Saudi Arabia and Venezuela pump up production. "Right now the [oil] market is adjusting for dire conditions that don't see likely to merge," he says. (NYT, 9/10)

"This is the third or fourth consecutive month that we've had very big increases, very big upward revisions to employment," says JOHN PAULUS, chief economist at MORGAN STANLEY. He says this pattern "leads one to suspect that maybe next month, the 45,000 increase in overall jobs ... will end up getting revised to something north of 100,000 jobs." ("Nightly Business Report", 9/7)

"I would expect the unemployment rate to continue to rise pretty consistently over the balance of the year," says CHARLES LIEBERMAN, chief economist at MANUFACTURERS HANOVER SECURITIES. "There's also the potential for a very sharp rise, because the labor force is considerably understated." ("Nightly Business Report", 9/7)

"I think we're probably in a recession," says ELAINE 8 GARZARELLI of LEHMAN BROTHERS. "We'll be fluctuating somewhere between probably down three-quarters of a percent to up three-quarters of a percent for the next three quarters." She says the bottom should come in the second quarter of 1991 and that the end of this year, therefore, would be a good time to buy stocks. ("Nightly Business Report", 9/7)

IN WASHINGTON:

"The level of cynicism [on prospect for a deficit reduction accord] is terribly high and with good reason," says ROGER ALTMAN, a former Treasury officials who now heads the BLACKSTONE GROUP. "The markets are anticipating failure and that's one of the reasons for the present weakness in all financial markets." ("The Washington Post", 9/9)

The budget negotiations are progressing somewhat better than press reports indicate, says SOLOMON BROTHERS' STEVE BELL. He expects Congressional negotiators to announce some proposed agreement this week, possibly tomorrow. "Then for two weeks, everybody will say the deal is dead. Then I think at the end of it all, the deal will pass. They certainly are not going to allow sequestration to go into effect -- even a little bit." (CNN "Business Morning", 9/10)

While budget negotiators attempt to put on a happy face during their meetings in an officer's club at Andrews Air Force Base outside Washington tensions still run high between the two sides. "I don't believe we're going to tolerate an income tax increase out of this," says SEN. PETE DOMENICI (R. - New Mex.), but REP. RICHARD GEPHARDT (D. - Missouri) seems to have other ideas. "The President said during the summer that he thought that it was necessary in order to solve this problem that we have tax revenue increases as well as spending cuts as well as budget reform," says Gephardt. "That's where we all are. We agreed to that." (FNN "Marketwrap", 9/7)

ROSLYN, NY (SEPT. 10) PR NEWSWIRE - Cheyenne Software, Inc. (AMEX: CYE) and Acer Inc., a personal computer and network vendor based in Taiwan, signed an agreement that enables Acer to offer its customers an automated network data backup system for NetWare 286, 386 and standalone DOS applications. Acer plans to ship ARCserve(R) during the fourth calendar quarter of 1990.

Acer will offer ARCserve/286, ARCserve/386, and ARCserve/Solo as data backup application options for its computer customers.

Stan Shih, chairman and CEO of the Acer Group, explained, "Acer offers a variety of high-performance fileservers which are certified by Novell and well-accepted by the market. Acer's 1100/33, a 33-MHz, 386- based server was chosen as Editor's Choice of PC magazine and was reviewed as one of the best file servers for Novell Netware by LAN Times magazine."

ARCserve Cheyenne's ARCserve is the first centralized, totally automated backup software solution for Novell Netware networks. ARCserve provides the ability to perform unattended, continuous backup services for both file servers and workstations directly to a shared, centrally mounted device. This enables a network supervisor to schedule file server backup to process completely in the background, and individual workstations are free to perform other tasks.

The Acer Group The Acer Group, founded in 1976, is a manufacturer of high-performance personal computers, network products, monitors, and

peripherals, It is part of a multinational corporation with extensive operations in R&D, manufacturing, marketing, trading, investment, education, and publishing in the computer industry. Headquartered in Taiwan, Acer currently has companies active in the United States, Canada. West Germany, Holland, the U.K., France, Malaysia, Japan, Australia and Hong King. The company's consolidated sales in 1989 were US$689 million.

Cheyenne Software, Inc. In addition to ARCserve, Cheyenne's Network Products Group offers Monitrix(R), the first full-function network management and control program; and the Cheyenne Utilities for NetWare (including NetBack(R)), a set of integrate utilities for NetWare 286, 386 and portable NetWare networks. Cheyenne's Business Analysis Group offers the Organization Analyst(R), a PC-based software product which is used for corporate restructuring.

#90253p2747 09/10/1990 ~PR Newswire

DALLAS (SEPT. 10) PR NEWSWIRE - Systems Center, Inc. (NYSE: SMX) and Digital Equipment Corporation (NYSE: DEC) today announced an ongoing relationship to jointly develop, market and support products that will enable DECmcc users to monitor and control SNA network environments.

The two companies signed a Joint Development Agreement to enable the integration of Systems Center's NET/MASTER network management software with DECmcc, and to enable the exchange of network management information between IBM's NetView and DECmcc.

Under the joint development agreement, Systems Center and Digital plan to collaborate on the design and development of a connection between DECmcc and the SNA management environment. The purpose of the connection is to provide for the bi-directional exchange of network management information between DECmcc operators and both NET/MASTER and NetView operators in the syntax that each operator understands, regardless of whether it comes from the Digital or SNA network environment.

As a result of this development effort, DECmcc's consistent approach for the structure of management information, common user interface, and general purpose management applications will be extended to the SNA environment. This will result in a lower cost of operations for network users.

The two companies also announced their intent to develop the capabilities to enable Digital's DECmcc and Systems Center's NET/MASTER to interoperate as peers. With this new capability, users of both systems will

ultimately be able to manage each other's networks, systems, applications and databases. "This agreement provides an excellent technical template for any future developments between Digital and Systems Center," said Gail Daniels, Digital group manager of product marketing, telecommunications and networks.

The Reference Sell Agreement enables Systems Center to refer customers to Digital for the sale of Digital's DECmcc family of products. Conversely, where there is an interest in SNA management, the agreement enables Digital to refer customers to NET/MASTER. The companies also announced their intent to evaluate opportunities for joint demonstrations, development of pertinent marketing materials and cross sales force sales training.

"This announcement formalizes the establishment of a long-term relationship between our companies," said John Robinson, executive vice president of Systems Center. "There is a great deal of synergy between the Digital style of computing and the NET/MASTER approach to heterogeneous management solutions. We have long recognized that many of our customers are committed to corporate information systems based on both SNA and DECnet/OSI."

Systems Center and Digital will also cooperate to implement the OSI Common Management Information Protocol (CMIP) between DECmcc and NET/MASTER, thus continuing the companies' commitment to providing international standards-based solutions.

"This announcement continues to reinforce Digital's position as the performance leader in open networks, providing network managers with the tools they need to manage their information resources at any time, across any configuration of multivendor technology, from anywhere in the entire enterprise," said Daniels. "It further illustrates that Digital's EMA Architecture and DECmcc products are the preferred approach for the management of this environment."

Daniels added: "Digital has provided terminal connectivity to SNA and NetView for several years. Through the suite of DECnet/SNA Gateway products, customers are able to bring up color NET/MASTER or NetView screens from the DECmcc Management Station. As a result of the joint development agreement, we are moving customers to a new level of truly integrated management for both SNA and Digital environments."

The companies plan to announce product schedules over the next several months.

Systems Center, Inc. develops, markets and supports network, systems, and relational database software. The company offers over 50 products, including NET/MASTER for network and systems management; Network DataMover

for data transfer among multiple operating environments; VMCENTER II for IBM's VM operating system; AS/CENTER for IBM's AS/400; and relational database products for IBM's SQL/DS and DB2.

Digital Equipment Corporation, headquartered in Maynard, Mass., is the world's leading supplier of networked computer systems and services. Digital offers a full range of computing solutions and systems integration for the entire enterprise -- from the desktop to the data center.

BOCA RATON, FL (SEPT. 10) PR NEWSWIRE - David I. Fuente, chairman and CEO of Office Depot (NASDAQ: ODEP) announced that the four-year-old firm opened its 100th store today. The 100th store grand opening took place in Pittsburgh.

Office Depot opened its first store in October, 1986 in Fort Lauderdale, Fla. and currently operates 100 stores in 18 states throughout the South and Midwest. Office Depot plans to open 20 additional stores during the remainder of the year.

Office Depot is America's largest chain of office products warehouse stores. The company attributes its success to its commitment to meet the complete office products needs of the small to medium sized businesses of America. Each 25,000 square foot Office Depot store stocks 7,000 different items of name brand office furniture, business machines, computers and general office supplies at deep discounts. This format enables small businesses to purchase office products at prices formerly reserved for the largest businesses. The stores are open to the public, seven days and six nights a week and offer shop-by-phone and delivery services. A series of events to celebrate the 100th store and to salute America's small business community is planned.

AUSTIN, TEXAS (SEPT. 10) PR NEWSWIRE - Dell Computer Corporation (NASDAQ: DELL) today announced a major sales agreement with Soft Warehouse, Inc., the nation's largest computer superstore chain. Under the agreement, Dell's full line of 11 laptop, desktop and deskside personal computers will be offered through Soft Warehouse's expanding network of superstores,

which currently include 13 superstores nationwide. Soft Warehouse Superstores will be the exclusive retail source for Dell computers. Financial details of the agreement were not disclosed.

The agreement calls for Soft Warehouse to make significant purchases of Dell products directly from Dell through 1993. Dell will provide its complete package of toll-free technical support and next-day service from Xerox Corporation on all Dell systems purchased through Soft Warehouse.

"Our partnership with Soft Warehouse provides us with the opportunity to generate significant new business and increase Dell market penetration," said Michael S. Dell, chairman and chief executive officer, noting that Soft Warehouse reaches customer segments not currently penetrated by Dell.

"There will always be some percentage of PC customers -- particularly at the entry level -- who will want to physically 'touch and feel' a unit before they buy. The mass merchant channel serves this expanding consumer market and provides us with a way to reach these customers," he continued.

Founded in 1984, Soft Warehouse, Inc., is the leading operator of large format computer superstores in the United States. The privately held company currently has 13 stores, located in major metropolitan areas, and is continuing to expand nationwide. Soft Warehouse superstores offers more than 5,000 personal computer hardware, software and related products, combined with a high level of customer service. Revenues for the company's fiscal year ended June 30, 1990, were more than $300 million.

Dell Computer Corporation designs, develops, manufactures, markets, services and supports a complete line of personal computers compatible with industry standards. Dell pioneered the direct marketing of personal computers in 1984. Information on the company or its products may be obtained through its toll-free number: 800-426-5150.

#90253p2752 09/10/1990 ~PR Newswire

DETROIT (SEPT. 10) PR NEWSWIRE - Bonal International, Inc. has begun trading in the over-the-counter market with CUSIP No. 097-770-101. Bonal International is the new name of the former Sport Connection, Inc., a Utah corporation, which acquired Bonal Technologies, a Michigan corporation, in a reorganization completed in August 1990. Former Bonal Technologies shareholders now own approximately 75 percent of the 8,049,608 shares issued and outstanding of Bonal International. In addition to the name change, Bonal International was re-domiciled to Delaware.

Bonal Technologies will continue the manufacturing and marketing of Meta-Lax non-thermal, sub-resonant vibrational stress relief and weld conditioning systems. The Meta-Lax equipment and process are used by various metalworking industries as a fast, low-cost alternative to energy-intensive furnace heat treating to relax residual internal stresses in metal structures. The cost of sub-resonant stress relieving is negligible and it can be accomplished in minutes compared with hours or days for heat treating.

In welding conditioning applications, the Meta-Lax sub-resonant process improves and strengthens welded components. Mild vibrations applied to components as they are being welded accelerate the atomic activity in the metal to condition the welds to prevent cracking and embrittlement, which cause major problems in welded structures.

DENVER (SEPT. 10) PR NEWSWIRE - AMDURA Corporation (NYSE: ADU) today announced that United Hardware Distribution Company was the high bidder for certain operating assets of its AMDURA National Distribution Company (ANDCO). The all-cash bid was made during an auction conducted before the Bankruptcy Court on Friday, Sept. 7.

The bid is subject to various closing conditions and Bankruptcy Court approval. A Bankruptcy Court hearing on the sale is expected on, or before, Sept. 25, 1990.

Under the terms of the bid, United would acquire ANDCO's inventory and its distribution center in Milbank, S.D. Receivables and various other assets of ANDCO would not be purchased in the transaction.

The purchase price, to be received in cash at closing, is expected to total approximately $21.5 million. The purchase price, and cash proceeds, depends on asset values as of the date of closing.

Of the cash proceeds to be received at closing, approximately $1 million will be placed in escrow to pay employee benefit claims, not previously covered, and rebates due ANDCO's customers. Proceeds from the sale, held for the benefit of the estate of ANDCO, will remain in escrow pending settlement of the company's bankruptcy case or appropriate orders of the Bankruptcy Court.

The bid was entered under procedures established by the Bankruptcy Court in response to a motion to approve a proposed sale of the ANDCO assets to Our Own Hardware. The motion for sale to Our Own was filed with the court in early August. The bidding process provided that other interested parties could submit "higher or better bids."

On April 2, 1990, AMDURA Corporation and its hardlines distribution subsidiaries, including AMDURA National Distribution Company, filed for protection under Chapter 11 in the United States Bankruptcy Court, Denver. AMDURA's manufacturing subsidiaries, the Crosby Group, Inc. and Harris Waste Management Group, Inc., were not included in the filing.

ANDCO is a hardlines distributor supplying independently owned hardware retailers operating under the Trustworthy name in 11 upper-midwestern and western states. ANDCO has 270 employees, including 120 in Minnesota.

United Hardware Distributing Company is a Plymouth, Minn.-based dealer-owned hardware cooperative, serving approximately 600 independently owned, Hardware Hank stores.

WAUKEGAN, ILL. (SEPT. 10) PR NEWSWIRE - Cherry Electrical Products, Waukegan, today suspended operations for four hours so that its 1,000 employees could formally launch a "Total Quality Leadership" (TQL) program aimed at winning the United States' highest quality award, the Baldrige Award.

Cherry already has received Ford's and General Motor's top quality awards. It is the only switch manufacturer to receive GM's Targets Of Excellence award, which evaluates delivery, quality, management and technology. Less than three percent of Ford's 3,500 suppliers have earned its "Q1" award.

"We see earning these international quality awards as practice for the main event," Grant Hollett, president, said.

"It's time to turn up the heat on our competition and on ourselves by achieving the more stringent customer satisfaction and quality objectives associated with the Baldrige.

"Today's launching of TQL commits the company to maintaining nothing less than world class standards in quality, costs, delivery, service and technology. The ultimate measurement will be to top our proven success so that we can enhance satisfaction among our customers, suppliers, employees and others with whom we have relationships."

By 1993, TQL commits this division of The Cherry Corp. to producing fewer than two defects in every billion parts it produces, the "Six Sigma" standard used by the Baldrige Award.

The Cherry Corp. serves original equipment manufacturers as a multi-national developer, manufacturer and marketer of proprietary and custom precision switches, electronic data entry keyboards, displays, semiconductors and printed circuit boards. It has manufacturing, engineering and sales management facilities in Waukegan; Farmington, Mich.; El Paso, Texas; East Greenwich, R.I.; West Germany; England; France; Hong Kong; and Japan.

PHILADELPHIA (SEPT. 10) PR NEWSWIRE - Dr. Michael J. Rosenbush has been appointed senior vice president, business development-Europe, it was

announced today by Right Associates.

He will develop and coordinate the sales and marketing activities of Right Associates' European offices.

"Michael brings a unique approach and expertise to our industry," said Stanley R. Tilton, president of Right Associates, a leading career management consulting firm. "His experience and significant contributions in building Right's Canadian Network provide excellent testimony to his ability to successfully build a quality client service organization."

Rosenbush joined Right Associates in 1986 as managing partner of the Toronto office. He has spent 11 years in human resources and career transition consulting, helping individuals refocus and rebuild their career paths and working with organizations to plan staff changes and to improve performance.

Rosenbush began his career in production management and manufacturing in the furniture industry.

Prior to his consulting work, Rosenbush spent 14 years in academia, including seven years as an associate professor and chairman of the Department of German and Russian Studies at the University of New Hampshire and four years at the State University of New York. He has had extensive experience teaching and developing foreign language studies both in the United States and abroad.

Rosenbush holds Ph.D. and M.A. degrees in Russian/Soviet studies from the Universite de Montreal and a B.A. in economics/political science from McGill University. In addition to English, he is fluent in French, Russian German and Polish.

Right Associates is headquartered in Philadelphia and has more than 70 offices across the United States and around the world. It is one of the world's leading organizations specializing in outplacement counseling of executives and managers. Outplacement consulting services are designed to assist employers with termination issues and to help the separated employees develop skills and strategies to find new employment.

NOVATO, CA (SEPT. 10) PR NEWSWIRE - The Software Toolworks, Inc. (NASDAQ: TWRX), announced today that it has been granted a license by the Nintendo Corporation to market its Nintendo game cartridges in Japan. The company also announced the addition of two senior executives.

Addressing investment professionals at the Montgomery Securities Institutional Investor Conference in San Francisco this morning, Les Crane chairman of the board and chief executive officer, said that the Software Toolworks will be one of the select U.S.-based companies with rights to sell its Nintendo game cartridges in Japan. "There are currently over 15 million Nintendo Entertainment System units in Japan, with relatively little game cartridge penetration by Nintendo licensees.

"Our first titles to be released in Japan will be Days of Thunder, a stock car racing game based on the movie starring Tom Cruise, and Loopz, a multi-level loop building game featuring high resolution graphics," Crane continued, "and other titles will also be released in Japan later in the year."

Crane also announced that Robert Lloyd has been appointed president of the company's consumer product division. Lloyd was most recently president of DataEast, a privately-held, $100 million manufacturer of coin-operated video games, publisher of personal computer software, and an authorized Nintendo licensee. He was also previously president of Fila Sports, and vice president of sales and manager of marketing & research at Spaulding, Inc.

In addition, Randall Thier has been appointed president of international operations at the Software Toolworks. Thier was most recently vice president-international for Accolade, Inc., a privately- held developer and publisher of personal computer software. His previous affiliations include Electronic Arts, where he was vice president of affiliated labels, and Activision, Inc., as director of marketing services.

"We are privileged to have Messrs. Lloyd and Thier join our company," Crane said. "Each has extensive industry experience, and documented records of success in expanding their respective areas of responsibility.

"These appointments, coupled with the recent additions of Elizabeth Barker as president and chief operating officer, Judson Mitchell as senior vice president and chief financial officer, and Executive Vice President Joe Abrams' concentrated focus on our rapidly-growing OEM operations, provides the Software Toolworks with a team well qualified to manage the anticipated growth of our company," Crane continued.

The Software Toolworks is a diversified, vertically-integrated software company that develops, publishes and licenses software for personal computers and Nintendo entertainment systems. Among the company's best-selling, award-winning software products are The Chessmaster 2100, Mavis Beaco Teaches Typing, and Twist and Shout. The company develops and enhances personal computer operating environments for OEMs and sells a variety of personal computer software products for bundling by OEMs.

WASHINGTON (SEPT. 10) PR NEWSWIRE - Danaher Corporation (NYSE: DHR) announced today that it has entered into a credit agreement with Bankers Trust Company, as agent, and a syndicate of lenders which provides for senior financing of $300 million. The proceeds form the financing are being used primarily to refinance Danaher's existing senior debt, including debt assumed as part of the company's Easco Hand Tools, Inc. acquisition. The balance of the proceeds will be available for general corporate purposes. Annualized interest savings from the refinancing are expected to exceed $1 million.

George M. Sherman, president and CEO of Danaher, stated, "We are pleased with this facility from the standpoint of both lowering our cost of capital and adding to our financial flexibility. We view this agreement as another important acknowledgement of the progress we have made in improving our financial condition."

Danaher Corporation is a leading manufacturer of hand tools, process/environmental controls and transportation products.

#90253p2774 09/10/1990 ~PR Newswire

BURBANK, Calif. (SEPT. 10) PR NEWSWIRE - Mortgage and Realty Trust (NYSE: MRT) today announced it has filed a Plan of reorganization with the United States Bankruptcy Court for the Central District of California.

Terms of the plan call for the trust to make full paymenty in full to all creditors, plus interest, to be paid over a period of time following confirmation of the plan by the Bankruptcy Court. The plan also provides for payment of qualifying dividends so the company can continue as a real estate investment trust and provides for eventual resumption of its prior business activity.

On April 12, 1990, the trust filed a petition for reorganization under chapter 11 of the U.S. Bankruptcy Code. The trust defaulted on certain note payments as a result of a downgrading of its commercial paper rating by Standard & Poor's. This effectively denied the trust access to the commercial paper market as a source of funds for its investments and

operations. While a preliminary understanding had been reached with a group of lenders for a $425 million credit facility, the Trustees decided that because of the cost, the severity of operating and administrative convenants and the risks of pledging all trust assets to secure a two-year credit, the best interests of the shareholders would be better protected by reorganization under Chapter 11.

Following the Chapter 11 filing, the U.S. Trustee appointed a Creditors' Committee, representing all the trust's unsecured creditors (there are no secured lenders), and an Equity Holders' Committee, representing the trust's shareholders. Creditors' claims totaled approximately $397,000,000. The Trust's assets totaled approximately $595,000,000 as of June 30, 1990.

In making the filing today, the trustees said that, so far, discussions with the Creditors' Committee have not been successful and presently are at an impasse.

On Oct. 2, 1990, a hearing will be held in the Bankruptcy Court in Los Angeles, at which time all parties to this matter will have an opportunity to present their comments on the plan. Subsequently, when a plan is finally approved by the court, it will be submitted to a vote of creditors.

At the present time, Mortgage and Realty Trust is continuing to fulfill loan commitments made before the Chapter 11 filing, but, as previously announced, it will not make any new investments during the course of the bankruptcy proceeding. Since the Chapter 11 filing, no dividends have been paid. It is believed that dividends, if any, paid prior to June 1991 will apply toward REIT qualification for the trust's Sept. 30, 1990 fiscal year.

"This Reorganization Plan offers the creditors an opportunity to be paid in full, with interest, within an achievable period of time in today's real estate maket," C.W. Strong, Jr., president and chief executive officer of Mortgage and Realty Trust declared, "while still preserving the value of the trust's loan and real estate portfolio. The trust continues to produce income. The trustees believe that there will be sufficient income and assets to properly satisfy all creditors and that this Reorganization Plan provides the best opportunity to preserve shareholders' equity."

Mortgage and Realty Trust is a self-administered real estate investment trust with investments in floating-rate real estate loans and real estate equities nationwide. Shareholders' equity as of June 30, 1990 was approximately $180,000,000. The trust's 11,000,000 common shares are traded on the New York Stock Exchange under the symbol MRT.

BOCA RATON, Fla. (SEPT. 10) PR NEWSWIRE - First Medical International, Inc. (NASDAQ: HUGE) has executed an agreement in connection with the acquisition of Boca Raton-based Cardio Scan, Inc., for approximately $655,000 in cash and securities. Based upon financial projections provided as part of the agreement, the Cardio Scan division is expected to generate earnings of $500,000 in 1991 (approximately $0.16 per share). The announcement was made by Roberto Riva, president of First Medical International.

"The Cardio Scan acquisition is an exciting, established entry for First Medical International into the rapidly growing ambulatory (portable) cardiac testing industry," said Roberto Riva.

Cardio Scan is four years old and specializes in physician-directed EKG and EEG Holter Monitor system tests. The Medicare-approved company's services include detailed EKG and EEG magnetic recording and hardcopy conversion, as well as analysis for abnormal phenomena.

"Cardio Scan tests center around the Holter Monitor, a patient-worn apparatus, which provides 24-hour special magnetic tape recordings of up to 144,000 cardiac cycles vs. 50 to 100 for a standard EKG test. The existing test market is vibrant and growing - and profit growth in the next decade, at better than 25 percent annually, could be substantial," Riva said.

First Medical International (formerly called Humagen, Inc.) has the exclusive right to franchise, own and operate Medical Depot Superstores in the U.S.S.R., Mexico and Panama and a non-exclusive right to franchise, own and operate Medical Depot Superstores anywhere else outside the United States.

ST. LOUIS (SEPT. 10) PR NEWSWIRE - McDonnell Douglas (NYSE: MD) has entered into an agreement with Metropolitan Life Insurance Co. to purchase a group annuity contract that will provide benefits to about 14,200 retired participants in the company's salaried retirement income plan.

This action is intended to strengthen the benefit security under the McDonnell Douglas retirement program for salaried employees. "Retirees affected by this action now have their benefits guaranteed by one of the

oldest, largest and financially strongest insurance companies in the United States. In addition, this action increased the ratio of plan assets to liabilities for the remaining participants," said Richard M. Smoski, McDonnell Douglas director of pension and savings administration and payrolls.

As a result of the transaction, McDonnell Douglas will recognize an after-tax gain of about $234 million, or $6.11 per share, in the third quarter of 1990. This gain represents a portion of the excess of the market value of the plan's assets over the projected benefit obligation. No plan assets will revert to McDonnell Douglas and no cash will be received by the company as a result of this transaction.

The purchase of the annuity contract in no way alters the benefits due affected retirees or the manner in which the payments are made. The action affects the majority of participants who terminated employment prior to Nov. 27, 1989 and are receiving benefits under the plan.

WESTWOOD, MA (SEPT. 10) PR NEWSWIRE - LTX Corporation (NASDAQ: LTXX) announced today its financial results for the year ended July 31, 1990. Sales were $143,042,000 compared to sales of $141,794,000 in fiscal year 1989. Net loss was $(2,914,000) or (28 cents) primary loss per share compared to net loss of $(31,163,000) or $(3.23) primary loss per share in the prior year. The fiscal 1990 results included an extraordinary gain on an exchange of convertible debentures, net of taxes, of $14,440,000.

Fourth quarter sales were $41,626,000 compared to $28,469,000 in the fourth quarter of fiscal year 1989. Net income for the quarter was $13,304,000 or $1.14 primary earnings per share compared to a net loss of $(9,302,000) or (96 cents) primary loss per share in the same quarter of the prior year. The fourth quarter net income benefited from the extraordinary gain of $14,440,000, or $1.24 primary earnings per share, previously cited.

Graham Miller, LTX president, commented: "Fiscal year 1990 was a year of considerable progress, ending with operating profit in the fourth quarter. Spurred by record bookings for digital systems and record business in Japan, orders in the quarter rose to the highest level for any quarter in the Company's history. Bookings for the year increased over 40 percent and the order backlog rose to $62 million from $25 million last year."

Miller added: "We strengthened our balance sheet and consummated a joint venture in Japan, a step that already appears to be bearing fruit. With

the excellent market reception for our products and large order backlog, we believe that we can continue our steady progress into fiscal year 1991."

LTX Corporation is a leader in the design, manufacture and marketing of computer-controlled equipment for testing linear, digital and mixed-signal devices. For integrating the total production environment, from engineering through final test, LTX offers multi-platform networking and information products. Headquartered in Westwood, Mass., LTX has worldwide sales and service facilities to support their expanding customer base.

BRIDGEWATER, N.J. (SEPT. 10) PR NEWSWIRE - Thomas & Betts (NYSE: TNB) today announced it would record a pre-tax charge of $9 million, equal to 43 cents per share, related to consolidating manufacturing operations and reducing operating expenses. The charge is net of $4 million resulting from the disposal of excess assets.

"The actions are being taken to improve manufacturing efficiency, to adjust expense rates to reflect the increasing original equipment manufacturer (OEM) content of the company's sales, and to respond to weakening economic conditions," said T. Kevin Dunnigan, president and chief executive officer.

Thomas & Betts will reduce its workforce of 5,000 by approximately 5 percent, which will affect all geographic areas except the Far East.

Third-quarter financial results will be announced on Oct. 18. Thomas & Betts Corporation, based in Bridgewater, is a leading producer of connectors, components, accessories and systems for worldwide electrical and electronic markets.

LOS ANGELES (SEPT. 10) PR NEWSWIRE - Western Waste Industries (NASDAQ: WWIN) announced today that it has acquired privately held Sunset Sanitation Service, an 18 year-old central California-based waste collection company. Terms of the agreement were not disclosed.

Western Waste President and Chief Executive Officer Kosti Shirvanian said the acquisition "significantly expands our presence in the rapidly growing central California region, merging our existing Fresno County operations

with those of Sunset. In addition, we will now serve Tulare and King Counties through Sunset's established base in those areas."

The acquisition of Sunset, which has annual revenue of approximately $6 million, will make Western Waste the largest waste collection operation in the three-county central California region. Also, the acquisition will include Sunset's six exclusive municipal contracts.

Western Waste is a leading integrated waste management company, providing collection services, landfill, transfer station and recycling operations for commercial, industrial and residential customers. The company has operations in California, Texas, Arkansas, Louisiana, Florida, Colorado and Arizona. Western Waste reported revenue of $172 million for its fiscal year ended June 30, 1990.

OCALA, FL (SEPT. 10) PR NEWSWIRE - Microdyne Corporation (NASDAQ: MCDY) today announced increased sales and operating profits for its third fiscal quarter ended July 29, 1990. Sales revenue increased approximately 51 percent over the prior year period, to $7,468,000 from $4,956,000. Operating income for the third quarter increased 24 percent to $77,000, versus $62,000 during third quarter 1989. Net income for the third quarter was $107,000 or $.03 per share, compared with $198,000 or $0.05 per share during the comparable 1989 quarter.

For the nine month period, Microdyne's sales increased 28.3 percent to $18,548,000, from $14,458,000 in the prior year period. Net income was $274,000 or $.07 per share, compared with $438,000 or $0.11 per share a year earlier.

Kenneth G. Harple, president and chief executive officer, stated, "Investments in new product development and the expansion of our professional and sales marketing organization resulted in strong performances for our telemetry and communications business segments. Order input continues to improve and we anticipate continued revenue growth in these major business segments."

Harple continued, "Our Antennas for Communications business segment experienced inadequate order flow and operating losses resulting in lower-than-anticipated profits for the company. Management has addressed these problems and anticipates improving results."

Microdyne Corporation is a leading engineering and manufacturing company serving the aerospace, telemetry, satellite communications, systems design and integration, and the PC workstation markets.

CHICAGO (SEPT. 10) PR NEWSWIRE - Centel Corporation (NYSE: CNT) announced today that it has completed the acquisition of the cellular communications franchise in Laredo, Texas, from United Cellular Master Limited

Partnership. Terms of the purchase were not disclosed.

With the acquisition, Centel now provides cellular service in 45 markets and is the second largest cellular communications provider in the United States in terms of markets served. Based on ownership share, Centel has cellular communications franchises serving nearly 16 million people.

Laredo has a population of more than 120,000. Centel also provides cellular service in the Texas communities of Killeen, Longview, Marshall, Temple, Tyler and Waco and has minority interests in the Austin and Houston cellular systems.

Earlier this year, Centel announced the acquisition of the cellular franchises in four rural service areas in New Mexico, including the franchise along the New Mexico - Mexico border. Also, the company, along with three other partners, was granted a 20-year license to operate a cellular network in northern Mexico that adjoins parts of the New Mexico and Texas borders.

In addition to its cellular properties, Chicago-based Centel Corporation, which had 1989 revenues of $1.19 billion, provides local exchange telephone service through more than 1.6 million access lines in nine states, including Texas, and supplies electric power to more than 136,000 customers in Kansas and Colorado.

#90253p2808 09/10/1990 ~PR Newswire

CAMDEN, S.C. (SEPT. 10) PR NEWSWIRE - Builders Transport, Incorporated (NASDAQ: TRUK) announced today that Trism, Inc., has made a revised proposal to acquire all the outstanding common stock of Builders. The proposal provides that each share of outstanding common stock of Builders would be converted into the right to receive $9.00 per share in cash; $4.00 per share in a 12-year, 12 percent cumulative preferred stock; and one-fifth of a common share pursuant to a merger of a newly formed Trism subsidiary into Builders. The proposal contemplates that Trism will contribute $10,000,000 in equity to its new subsidiary and will finance the balance through senior debt and a preferred stock investment from Heller Financial, Inc. and Banque Paribas, who have provided proposal letters to Trism.

The terms of the preferred stock, which would be issued by the surviving company in the merger, provide for cumulative dividends to be paid quarterly when and as declared by the board of directors, mandatory sinking fund payments for one-half of the shares in 2001 and the remaining shares in 2002 and optional redemption on the part of the surviving

company after December 1995. Assuming full conversion of Builders' existing convertible debentures, the common stock issued by the surviving corporation in the merger to Builders' stockholders would represent 15 percent of the common equity of the surviving company. The proposal letters from Heller Financial, Inc. and Banque Paribas are not commitments to lend, and are subject to a number of conditions, including completion of due diligence review and asset appraisals by the lenders, approval by the lenders' credit committees and the issuance of formal commitment letters.

John R. Morris, president and chief executive officer of Builders Transport, said: "We received the revised proposal over the weekend and are in the process of reviewing it with our advisers and the independent committee of our board of directors. As we have previously indicated, Builders Transport is prepared to consider any fair and firmly financed proposal for the acquisition of the company."

Builders Transport also announced that it has entered into a definitive agreement to sell its refrigerated van operation. The sale of that operation is part of the company's previously announced restructuring plan which contemplates a more concentrated focus on the company's core business and niche markets and the sale of assets no longer properly aligned with the company's new strategic direction. Morris stated: "The sale of the refrigerated operation is an important part of our program to increase focus on the areas where Builders performs best. We are pleased about this agreement, and are continuing with our plan to enhance the company's profitability -- an approach we believe to be supportive of any satisfactory acquisition proposal for the company."

Builders Transport also announced that a Court of Chancery in Delaware has granted Builders Transport's motion to dismiss a recently instituted action by David C. Walentas, a dissident stockholder who leads a group that is currently waging a proxy contest to obtain control of Builders' board of directors.

In another matter related to the proxy fight, Builders Transport announced that it rejects the allegations Walentas made in a letter he sent to the Securities and Exchange Commission requesting the SEC to investigate certain matters relating to the letter of intent announced earlier this year with Comcar Industries, Inc. Robert E. Garner, Builders' general counsel, said: "Mr. Walentas' allegations are based on hearsay from unnamed individuals. These allegations appear to be self- serving statements made by Mr. Walentas in the waning days of the proxy contest he initiated. Obviously, we would not, and could not, have entered into any discussions with Comcar unless we believed Comcar's intentions to be legitimate. Moreover, it is inconceivable that Comcar would have entered into a letter of intent or expended the significant time and resources of so many of its key people in, and undertaken the costs associated with,

extensive due diligence had it not been very serious about its proposal."

TWINSBURG, OHIO (SEPT. 10) PR NEWSWIRE - James Adamson, executive vice president of marketing for Revco D.S., Inc., today announced the promotion of Paul Singh to the newly created post of marketing director of new business development.

Singh, formerly a senior buyer for Revco, will be responsible for development of new marketing programs, including programs to build sales volume in those Revco stores larger than 10,000 square feet. He will

report directly to Adamson.

Adamson said, "The programs directed by Paul, one example being the creative use of our larger stores, will complement Revco's traditional strengths and core drugstore merchandise mix. This will give us an opportunity to capture trends that will appeal to Revco's customers."

Singh, 41, joined Revco in 1988 as senior buyer, with overall responsibility for greeting cards, books and magazines, housewares, paper products, softgoods, film and photo finishing. Prior to joining Revco, he was most recently in charge of regional sales in seven western states for Stanley Blacker, based in San Francisco. His purchasing and marketing background includes western regional sales for Izod Lacoste of San Francisco, purchasing for Gottschalks of Fresno, Calif. and for Donaldsons of Minneapolis.

A native of India, Singh holds a master's degree in business administration from Mankato State College in Mankato, Minn. He, his wife Bonnie and their two children live in Solon, Ohio.

Revco, one of the nations's foremost drugstore chains, is a privately held company based in Twinsburg, Ohio.

#90253p2813 09/10/1990 ~PR Newswire

MINNEAPOLIS (SEPT. 10) PR NEWSWIRE - First Bank System, Inc. (NYSE: FBS) today announced an enhancement to its ATM (automatic teller machine) card called CHEXTRA. CHEXTRA transforms the card into an electronic checkbook that enables customers to make purchases at any VISA merchant worldwide. The customer can use CHEXTRA when they don't want to use a credit card, write a check, carry large sums of cash or if the merchant doesn't accept out-of-town checks. CHEXTRA purchases are deducted directly from their checking account with a float period like a check.

"The debit card concept is still relatively new in this market," said Philip G. Heasley, president of FBS Electronic Banking, "So we decided to take a two-pronged approach. First, give qualifying customers the card free for a year and make sure they have all the help they need to make it easy to use. If after a year they want to keep the card, they can do so for an annual fee of $12."

Heasley noted that the company's Central Bank affiliates in Colorado have offered the CHEXTRA card for nine years. He said 35 percent of Central Bank accounts have the CHEXTRA card and 55 percent use the card an average

of five or six times each month.

"Second, we know that you can't just send out cards. You need to be there for customers and support use, so we've made a strong commitment to education and personal contact," Heasley explained. "On the active side, we're implementing a telephone outreach project that confirms customers received the card and offers to answer questions." Heasely said a crew of 28 people will contact customers between 5 p.m. to 9 p.m. for about a month after the cards have been sent. "A passive, but equally important function, is a separate, CHEXTRA 24-hour customer service area that will be available for cardholders to call. And that isn't just for Twin Cities customers, but in all states through an 800 number. In addition, we're going to run promotional programs to encourage customer usage and employee contest to remind them to offer the card," he concluded.

Approximately 140,000 qualifying First Bank cardholders in Minnesota, North Dakota, South Dakota, Montana and Wisconsin will receive CHEXTRA. Existing and new customers can apply for a card beginning Sept. 10.

An ATM card without the CHEXTRA feature also will be available. First Bank System is a regional bank holding company headquartered in the Upper Midwest with assets of $19.4 billion. The company provides financial services to individuals and institutions through 32 banks and trust companies with more than 140 offices located in Minnesota, Colorado, Montana, North Dakota, South Dakota, Washington and Wisconsin.

RESEARCH TRIANGLE PARK, N.C. (SEPT. 10) PR NEWSWIRE - CompuChem Corporation (NASDAQ: CCEM), the nation's premier provider of forensic drug testing, today announced it has been awarded a major five-year contract covering 31,000 safety-related employees of the Federal Department of Transportation (DOT).

The contract, which involves pre-employment, annual physical, random and probable cause testing, covers nearly half of DOT's 67,000 employees. They work at facilities located throughout the country at such jobs as air traffic controllers, railway engineers, safety inspectors and drivers.

The new contract, which covers the period from Sept. 30, 1990 to Sept. 30, 1995, is essentially a renewal and expansion of an existing contract with the Federal Aviation Administration. Other DOT agencies covered under the new contract include the U.S. Coast Guard, the Federal Highway Administration, the National Highway Safety Administration, the Urban Mass Transit Administration, the Research and Specialization Program

Administration and the Saint Lawrence Seaway Development Corporation.

CompuChem is the forensic drug testing laboratory for nearly half of the Fortune 100 Companies, and is the major provider of drug testing for federal agencies, including the Bureau of Prisons, the Immigration and Naturalization Service, the Federal Railroad Administration, the Drug Enforcement Administration, the Federal Bureau of Investigation, the Secret Service, U.S. Marshalls, NASA, Department of Labor, Department of Commerce and the U.S. Army.

CompuChem Corporation, through its three subsidiaries, CompuChem Laboratories, Inc., ChemWest Analytical Laboratories, Inc. and Lifedata Medical Services, Inc., provides specialized analytical testing services for the accurate measurement of toxic chemicals and hazardous wastes in the environment, urinalysis collection and testing services for the detection of drugs of abuse, as well as physical examinations for life insurance applicants. The company also provides on-line data management systems for use by customers in managing their environmental and drug testing data bases. The company's environmental testing services are provided to major industrial companies, waste management companies, and consulting engineering firms, as well as the Environmental Protection Agency. The company's forensic drug testing services are provided to the military, other government agencies and major industrial firms. The company's physical examination services are provided to insurance carriers nationally.

NEW YORK (SEPT. 10) PR NEWSWIRE - Rosemary Moore has been appointed vice president-corporate communications and public relations for Joseph E. Seagram & Sons, Inc., the company announced today.

In this newly created position, Moore, 39, will be responsible for the worldwide coordination of public relations activities, implementation of communications programs and the development of corporate positions on public issues relating to Seagram and to the beverage industry in general.

She will be based in New York, reporting to Stephen E. Herbits, executive vice president corporate policy and external affairs.

"Rosemary has distinguished herself in a variety of assignments since she joined Seagram," Herbits said. "We are fortunate to have within the Seagram organization a person of her talent and experience, in both communications and journalism, to fill this new post."

Moore joined Seagram International in May, 1989 as director of research and communications, based in London. She will retain direct responsibility for communications and public relations for this division of The Seagram Company Ltd. (NYSE: VO).

Before coming to Seagram Moore was managing editor of Impact International the widely respected drinks industry publication and before that, an editor with the Financial Times of London Business Publishing Division.

Joseph E. Seagram & Sons, Inc., is the U.S. subsidiary of The Seagram Company Ltd., a leading worldwide producer and marketer of distilled spirits, wines, coolers, fruit juices and soft drinks. The Company's brands include Martell Cognacs, Chivas Regal and The Glenlivet Scotch Whiskies, Crown Royal and Seagram's V.O. Canadian Whiskies, Seagram's 7 Crown Blended Whiskey, Seagram's Extra Dry Gin, Sandeman Ports and Sherries, Mumm and Perrier-Jouet Champagnes, Barton & Guestier (B&G) Wines Sterling Vineyards Wines, Seagram's Coolers, Tropicana Pure Premium Orange Juice, Tropicana Twisters and Soho Natural Sodas.

NEW YORK (SEPT. 10) PR NEWSWIRE - W.R. Grace & Co. (NYSE: GRA) today announced the election of James P. Neeves as a corporate executive vice president. He will now be responsible for the Corporate Management Group consisting of corporate administration, business development and the food services division.

Business development is responsible for business and strategic planning, mergers and acquisitions, as well as divestments. Corporate administration includes the administrative services, employee relations, executive aviation and human resources divisions.

Neeves, 53, joined Grace in its Latin American group in 1960 and served with that group until 1969. He co-founded a company and rejoined Grace in 1974, serving in various managerial capacities in the company's former consumer units. In 1976, he joined the Office of Strategic Projects and Planning and in 1982 was named executive vice president for the General Development Group. He was elected a corporate vice president in 1985 and a senior vice president in 1989.

Neeves was graduated from Columbia University in 1960 with a B.S. degree. He is married to the former Cynthia Stone and resides in New York City.

ALBUQUERQUE, N.M. (SEPT. 10) PR NEWSWIRE - Diagnostek, Inc. (NASDAQ: DXTK) announced today Diagnostek's acquisition of the prescription drug mail service business of Rite Aid Corporation for Diagnostek common stock valued at $5 million. In the transaction, Diagnostek's mail service subsidiary, Health Care Services, Inc. ("HCS") will acquire Rite Aid's $13.5 million in mail order revenue contracts. In addition, Diagnostek will be permitted to purchase pharmaceuticals through Rite Aid, utilizing the leverage of Rite Aid's $1 billion in annual pharmaceutical purchases. The agreement provides that HCS will become the exclusive prescription mail service provider to Rite Aid. It also provides for HCS to be the mail service pharmacy provider to Cost Containment Co., a privately held firm offering comprehensive prescription drug cost containment services to benefit sponsors.

Nunzio P. DeSantis, Diagnostek's chief executive officer said that, "We are extremely pleased to have concluded this agreement which allows our mail service subsidiary to gain incremental revenues as well as to improve

its drug acquisition costs." Martin Grass, Rite Aid's president, added that, "Rite Aid shareholders interests were better served by Rite Aid participating in the growth of mail service pharmacy through its interest in Diagnostek, rather than in operating our own mail service pharmacy." The transaction is scheduled to close within the next two to three weeks.

ARMONK, N.Y. (SEPT. 10) PR NEWSWIRE - As part of its ongoing commitment to the improvement of kindergarten through 12th (K-12) grade education in the United States, IBM today announced that K-12 schools now are eligible for matching grants of computer equipment. Previously, only colleges and universities were eligible.

IBM employees, groups of employees, retirees or spouses now can donate IBM Personal System/2 (A) hardware, software and courseware to the eligible K-12 school of their choice. The IBM donor contributes 20 percent of the published retail price of the equipment; IBM contributes the balance. There is a maximum employee contribution of $5,000 per year per school.

"Approximately 20,000 IBM U.S. employees volunteer their time to support K-12 education in their local communities," said James G. Parkel, IBM director of corporate support and community programs. "Now IBM people will have one more way to support their schools by donating state-of-the-art technology. This extension of our matching grants program combines the best aspects of employee involvement with corporate contributions."

IBM began its matching grants program to higher education in 1959, making it one of the first corporations to have a program of this type. Since that time, the program has been enhanced steadily. The most recent enhancement occurred last year, when colleges and universities were given the option of receiving a five-for-one matching IBM equipment donation.

IBM's matching grants program is one aspect of its support to K-12 education in the U.S. In 1989, IBM spent approximately $20 million in support of K-12 education in the U.S., and in 1989-90 has committed more than $59 million over five years in grants of money, equipment and technical support for public education.

(A) Personal System/2 is a registered trademark of the IBM Corporation

PHILADELPHIA (SEPT. 10) PR NEWSWIRE - Peach Bottom Unit 2 was returned to service Sunday following a brief shutdown to repair an oil line leak in the non-nuclear portion of the plant.

Philadelphia Electric Co. (NYSE: PE) had removed Unit 2 from service Thursday and repaired the leaking line which supplies oil to the turbine-generator bypass valves which are used to control reactor pressure during plant start-ups and shutdowns.

Unit 2 is expected to reach full power later this week.

PITTSBURGH (SEPT. 10) PR NEWSWIRE - Pittsburgh Mayor Sophie Masloff; Donald R. Whitehead, president and managing director of the Pennsylvania Capital Bank; and Charles A. Warden, president of Mid Atlantic Capital Group Inc., today opened the bank's vault to officially commemorate its first day of business.

Located in the Times Building at 336 Fourth Ave., between Smithfield and Wood streets, it is Pittsburgh's first de novo bank in 15 years.

The Pennsylvania Capital Bank will provide full service private banking to individuals and closely held businesses. According to Whitehead, the bank is Pittsburgh's only financial institution to concentrate exclusively on private banking. "All of the financial services a client requires will be custom tailored by a single relationship manager," he said.

In late August, the bank cleared its final step in its organization process when the Federal Deposit Insurance Corp. (FDIC) notified the bank it would provide insurance coverage for the deposits of its customers. In April, the bank was granted its charter by the Secretary of Banking for the Commonwealth of Pennsylvania.

The bank's initial capital was raised by Mid Atlantic Capital Group through a stock offering that attracted more than 150 local investors who invested more than $6.8 million.

TYLER, TEXAS (SEPT. 10) PR NEWSWIRE - TCA Cable TV, Inc. (NASDAQ-NMS: TCAT) ("TCA") today announced results for the third quarter ended July 31, 1990.

Revenues for the quarter ended July 31, 1990, of $28,721,000, were up 49 percent over the 1989 revenues of $19,246,000, and operating income before depreciation of $15,251,000, was up 57 percent over the 1989 operating income before depreciation of $9,699,000. Net income was $1,070,000 or $.04 per share, as compared to $2,747,000 or $.11 per share in 1989. These third quarter results reflect the full impact of the acquisition made in the fourth quarter 1989 which added 31 percent more subscribers.

For the nine month period ended July 31, 1990, revenues increased 48 percent to $83,759,000 from $56,501,000 and operating income before depreciation increased 54 percent to $44,781,000 from $29,128,000 from the comparable period of 1989. Net income was $3,187,000 or $.13 per share, as compared to $8,544,000 or $.35 per share in 1989. TCA Cable TV, Inc. is engaged in the development and operation of cable television systems in Texas, Louisiana, Arkansas, New Mexico, Mississippi and Idaho. The company owns or manages 53 systems with approximately 410,000 subscribers. The company currently has 24,215,808 shares of common stock outstanding.

AZUSA, CA (SEPT. 10) PR NEWSWIRE - Optical Radiation Corp. (NASDAQ: ORCO) today reported continued strong increases in operating results for the fiscal year and fourth quarter ended July 28, 1990.

Income from continuing operations for the year, before a special charge, advanced 32 percent to $12,557,000, equal to $1.90 per share, from $9,533,000, or $1.42 per share, last year. A special charge of $6,684,000 relating to an adverse decision in a patent litigation case resulted in fiscal year net income of $7,324,000, or $1.11 per share. Sales for fiscal 1990 advanced 19 percent to a record $130,563,000 from $109,567,000 a year earlier.

For the fourth quarter ended July 28, 1990, income from continuing operations before the special charge rose 21 percent to $4,292,000, equal to $.64 per share, from $3,561,000, or $.55 per share, a year ago. Sales for the fourth quarter rose 22 percent to $36,840,000 from $30,183,000 for the comparable prior year period.

Richard D. Wood, president and chief executive officer, said the positive operating performance reflected significant contributions from the company's consumer optical group, most notably the Omega Optical subsidiary. He noted that the opthalmic surgical products group registered improved operating results on higher sales, while results for the scientific/industrial group were about equal to last year.

Wood said a major highlight of fiscal 1990 was the introduction of its Cinema Digital Sound technology, a process jointly developed by Optical Radiation and Eastman Kodak Company that provides compact disc quality sound to movie theaters. Wood stated that the system has been installed in a limited number of major metropolitan markets, with a target of 75 to 100 systems in place by year end. The system debuted in June with the feature film "Dick Tracy," and additional films are expected to be released for the Christmas season.

"The favorable trends of fiscal 1990 appear to be continuing into the new fiscal year," Wood added. "We are highly enthusiastic about the prospects for our new Cinema Digital Sound system, and our confidence extends to most of the company's established, as well as newer product lines."

Optical Radiation designs and manufactures a wide variety of precision optical components and systems for medical, industrial and scientific applications.

MIDDLEBORO, MA (SEPT. 10) PR NEWSWIRE - The Mayflower Co-operative Bank (NASDAQ: MFLR) announced net earnings of $45,000, or 5 cents per share, for the first quarter ending July 31, 1990, compared to earnings of $130,000, or 15 cents per share, for the same quarter last year.

William C. MacLeod, president and chief executive officer, stated, "The reduced earnings for the first quarter is a direct result of the continued depressed local and New England real estate markets. The bank has continued to review its loan portfolio which resulted in a provision for loan losses of $80,000 during the first quarter.

As of July 31, 1990, the bank's loans delinquent 90 days or more totaled $3.8 million or 5.08 percent of total loans and 4.19 percent of total assets. At July 31, 1990, the bank's reserve for loan losses totaled $508,000 which was 13.35 percent of loans delinquent 90 days or more and .68 percent of total loans.

The Mayflower Co-operative Bank, with three offices in southeastern Massachusetts, is a state-chartered co-operative bank and has its deposits insured by the Federal Deposit Insurance Corporation (FDIC) and the Share Insurance Fund (SIF) of Massachusetts.

NEW YORK (SEPT. 10) PR NEWSWIRE - Thomson McKinnon Asset Management L.P., a publicly traded limited partnership (NYSE: TMA) engaged in investment

management for private accounts and mutual funds, announced that it has changed its name to Thomson Advisory Group L.P. and its stock symbol to "TAG". The name change is effective Monday, Sept. 10; the company's shares will begin trading under the new symbol on Tuesday, Sept. 11.

The company also announced that Thomson McKinnon Investment Trust, a family of nine mutual funds, has been renamed, to Thomson Fund Group.

Thomson Advisory Group L.P. (TAGLP) manages a group of mutual funds and serves as advisor to private accounts through its Columbus Circle Investors and its Foxhall Investment Management divisions. As of June 30 1990, total assets under management exceeded $7 billion. TAGLP earlier this year announced an agreement under which senior members of its management, in conjunction with investment partnerships associated with Greylock Management Corporation and TA Associates, both of Boston, would purchase the general partnership interest in TAGLP from Thomson McKinnon Inc. It is anticipated that approval and closing of the transaction will take place around Oct. 1, 1990.

TROY, MI (SEPT. 10) PR NEWSWIRE R.P. Scherer Corporation announced today that it has signed a letter of intent for the sale of Scientific Associates, Inc. (SAI), its wholly owned subsidiary. The purchaser, SAI Acquisition Corporation, is headed by Peter J. Renaud, a former Scherer executive.

The undisclosed price includes a combination of cash, notes and the assumption of certain liabilities. Completion of the transaction is subject to the execution of a final agreement. It is expected that closing will occur before the end of September.

SAI is an independent testing laboratory in St. Louis and provides services to pharmaceutical, food and chemical companies. It employs 75 people and had sales last year of approximately $3.5 million.

Following the acquisition of R.P. Scherer by the group led by Shearson Lehman Hutton in June 1989, the company decided to undertake the program of divesting of certain of its non-encapsulating businesses. The sale of the assets of SAI is a part of this program.

R.P. Scherer is a leading developer and manufacturer of drug delivery systems. Scherer's proprietary and patented dosage delivery systems optimize the efficacy of drugs by regulating the dosage, rate of absorption and place of release. In addition to being the world's largest developer and manufacturer of softgels, Scherer's drug delivery range includes the patented Scherersol(R) and Zydis(R) systems. The company operates a global network of 14 facilities in 13 countries.

R.P. Scherer is now a subsidiary of RPS Corporation (OTC: RPCPP).

MINNEAPOLIS/ST. PAUL (SEPT. 10) PR NEWSWIRE - Mesaba Aviation, Inc., today reported that it flew 21.4 million revenue passenger miles during the month of August, a 14.0 percent increase over 18.7 million revenue passenger miles flown during the same month last year (one revenue passenger flown one mile equals one revenue passenger mile). The airline said it carried 101,106 passengers in August, an increase of 14.2 percent over 88,552 passengers carried last August. Mesaba's load factor during the month was 58.6 percent, compared to 60.2 percent last year.

Robert D. Swenson, president and chairman of Mesaba, was very pleased with the month's strong traffic results. He said, "This was the first time in Mesaba's history that we carried over 100,000 passengers in one month."

Mesaba operates as Northwest Airlink under an airline marketing agreement with Northwest Airlines at the Minneapolis/St. Paul, Detroit and Milwaukee airports. The regional carrier currently provides scheduled airline service to 37 airports in the 10 states of Illinois, Iowa, Ohio, Michigan, Minnesota, Nebraska, North Dakota, Pennsylvania, South Dakota and Wisconsin. The airline began new service to Kalamazoo, Mich., and Cincinnati, Ohio, from Detroit on Sept. 6, 1990.

Mesaba Aviation, Inc., is the wholly owned subsidiary of AirTran Corporation. AirTran's common stock is traded on the NASDAQ National Market System under the symbol ATCC.

#90253p2902 09/10/1990 ~PR Newswire

ANAHEIM, Calif. (SEPT. 10) PR NEWSWIRE - Ashton-Tate Corp. (NASDAQ: TATE) today announced dBASE IV for Sun. The product is a full implementation of dBASE IV version 1.1 software, which has been optimized for the SunOS operating system. dBASE IV for Sun will be available in the fourth quarter of 1990 through authorized resellers in the United States. The product will be marketed and supported worldwide by Ashton-Tate.

"We are excited about today's announcement and what it means to both existing dBASE users and the UNIX community," said David Proctor, vice president and general manager of Ashton-Tate's database division. "For the first time, dBASE IV users can transparently port their existing DOS-based dBASE applications to take advantage of the power and

sophistication of Sun workstations. And, the UNIX community now has the PC-level ease of use and 4GL productivity tools of dBASE IV available on the leading UNIX-based workstations," Proctor explained.

"dBASE IV for Sun supports our strategy of promoting development of industry-standard, shrink-wrapped UNIX software previously available only to PC users," said Ed Zander, vice president, corporate marketing at Sun Microsystems. "The new software offers an easy-to-use language and tool set, as well as the ability to port thousands of existing dBASE applications for use in Sun's distributed workgroup computing environment. We anticipate phenomenal gains in resulting workgroup productivity."

Product Overview dBASE IV for Sun is a full implementation of Ashton-Tate's dBASE IV for DOS version 1.1. The product has been enhanced to take advantage of the SunOS environment and features, including multi-user and multi-tasking capabilities, virtual memory and full security. This integrated 4GL (Fourth Generation Language) product combines a comprehensive data management system and flexible application development language with 4GL programming and productivity tools.

dBASE IV for Sun maintains the same look and feel as the DOS version of dBASE IV version 1.1 and allows existing DOS-based dBASE applications to run on Sun workstations with little or no modification.

Product, Features, & Benefits True Portability Protects Application and Training Investments

-- dBASE applications can be moved across DOS-based PCs, UNIX systems including Sun and VAX VMS systems without reprogramming or data conversion (except for hardware differences)

-- dBASE source files, data files and compiled object files are compatible across PCs, UNIX systems and VAX VMS systems so applications written in dBASE IV can be moved across these platforms without changes.

-- dBASE IV provides a migration path for thousands of dBASE applications that have been written and used on DOS-based PCs

-- The migration path is transparent to preserve existing application investment while bringing the greater depth and breadth of sophisticated SunOS features to the workgroup dBASE environment.

-- PC-based dBASE applications are enhanced by the extended features of the multi-user, multi-tasking SunOS environment such as extended data storage and data sharing, larger memory, higher performance and greater security.

4GL Tools Decrease Application Development Costs
 -- dBASE IV Design Tools allow developers to quickly create such objects as screens, reports, views, pull-down and pop-up menus and sign-on banners.

 -- The Automatic Code Generator produces documented code for the created objects to maximize developer productivity.

 -- The Template Language permits developers to control the operation of the Automatic Code Generator in order to generate custom-tailored code.

 -- The symbolic, multi-windowed debugger and integrated program editor reduce debugging time.

 -- dBASE IV Utilities such as dB-Link and Build simplify distribution of end-user applications.

 -- Menu-driven Interface Minimizes Training and Support
 -- An innovative user interface streamlines data management and allows users, regardless of their computer experience, to perform many tasks without MIS support
 -- The menu-driven Control Center, with its built-in design tools, lets users create tables, forms, reports, queries and labels without programming
 -- dBASE IV Complements Existing Corporate Databases
 -- dBASE IV complements an existing OLTP DBMS with an easy-to-use productivity tool for users who do not have extensive UNIX and DBMS expertise
 -- dBASE IV brings the power of Sun workstations to more users, for more tasks, thereby, leveraging hardware investments
 -- Worldwide Support Network to Ensure Successful Implementation
 -- dBASE IV for Sun was developed by Ashton-Tate with the engineering support and expertise of Sun Microsystems and Interactive Systems Corp.
 -- The product will be supported worldwide by Ashton-Tate Corp.
 -- dBASE users are backed by a worldwide network of third-party training and application development organizations Pricing and Availability dBASE IV for Sun, with similar features as the Developer's Edition on a PC, starts at $995 for the single-user license. A Multi-User Pack, which adds up to four users, is priced at $2,995. Single-user and four-user RunTime licenses can be purchased for $395 and $995, respectively. Additional documentation can be purchased for $195. dBASE IV for Sun will be available in the fourth quarter of 1990.

System Requirement dBASE IV for Sun will run on all Sun systems including Sun-3, Sun-4, Sun386i, SPARCstations and SPARCservers. dBASE IV for Sun requires the SunOS version 4.0 operating system and a minimum of 4 MB of memory.

Headquartered in Torrance, Calif., Ashton-Tate Corp. develops and markets microcomputer business applications and advanced connectivity software. The company's major product categories include database management systems word processing, integrated decision support, spreadsheets, graphics and software utilities. Ashton-Tate has international operations in most countries around the world, with products available in 20 languages in more than 50 countries. The company also offers a comprehensive line of training and support services for individuals, corporations and government agencies.

CLEVELAND (SEPT. 10) PR NEWSWIRE - BP America and its subsidiary BP Oil have entered into a conciliation agreement with the U.S. Department of Labor's Office of Federal Contract Compliance Programs (OFCCP). The agreement addresses alleged discrimination in the employment and promotion of minorities within the companies' clerical staffs. An OFCCP audit of BP's employment activity for the two-year period 1988-89 alleges that the difference between BP's percentage of minority applicants for clerical positions and the percentage of minorities actually hired in those positions constitutes discrimination based on race.

BP America officials believe that what the OFCCP alleges to be discrimination is in fact the result of the companies' aggressive programs to reach minority applicants. In 1988-89, 60.5 percent of the external applications for clerical positions at BP were from minority applicants; 42.4 percent of the external applicants actually hired by BP were minorities. The percentage of minorities in the Greater Cleveland area workforce with the requisite skills for clerical jobs during that same period was only 25.7 percent.

"While we disagree with the Labor Department's interpretation of the facts in this case, we have voluntarily entered into this agreement in order to

remove any question of discrimination in the future," said BP America President and CEO James H. Ross. "We remain steadfastly committed to the principles of equal opportunity and affirmative action and intend to press forward with minority-focused programs."

Under the terms of the agreement, approximately 300 internal and 200 external minority applicants for BP clerical jobs during 1988-89 will receive a one-time compensatory payment from the company. The amount of the individual payments will be determined by an OFCCP formula with total payments to be an estimated $445,000. The company will also award 25 additional clerical positions to qualified minority applicants covered by the agreement.

Efforts are underway to strengthen program monitoring to assure that the company can continue to work toward hiring greater numbers of qualified minority workers and fully comply with OFCCP reporting requirements. BP America management expects the initial phase of the voluntary agreement to be completed within the next 90 days.

#90253p2910 09/10/1990 ~PR Newswire

VINEYARD, UT (SEPT. 10) PR NEWSWIRE - Geneva Steel (NYSE: GNV) has completed the first of four phases in its environmental modernization program, company officials announced today.

The mill's Biological Wastewater Treatment Plant is a $7.5 million project that reduces the amount of ammonia in Geneva's coke flushing water. This is the first completed step in Geneva's $226 million modernization plan.

"This plant is the first of its kind in the world," said company President Joseph A. Cannon. "First, it uses a unique process that requires half the facilities of normal wastewater treatment plants. Second, it biologically treats full-strength ammonia wastewater without costly pre-treatment.

"The plant exemplifies Geneva's commitment to spend the money necessary to protect Utah County's environment," Cannon said.

The treatment plant not only improves the quality of Geneva's wastewater, but has significant air quality benefits as well.

Activated microorganisms in reactors remove ammonia from wastewater by converting it into water, nitrogen, and carbon dioxide.

The plant will also eliminate the current practice of cooling blast furnace slag with coke oven wastewater. The slag will now be cooled with

treated water, which will result in about an 85 percent reduction in particulate emissions from slag cooling.

"The patented Nite/Denite(TM) process that performs the treatment results in a more efficient and economical way to treat high-strength wastewater," said Richard D. Clayton, vice president of environment and special projects.

"The Geneva Team worked hard to complete this project on schedule," Cannon said. "We have built a complex, state-of-the-art facility in six months. The normal construction time is 18 to 24 months."

ENSR, a Houston-based environmental services firm, owns the technology for the treatment plant. Geneva contracted with ENSR to design, construct, and startup the plant.

"Whenever possible, Geneva used Utah suppliers, contractors, and equipment manufacturers," Cannon said. Utah-based Layton Construction began actual construction in March 1990.

PITTSBURGH (SEPT. 10) PR NEWSWIRE - H.J. Heinz Co. (NYSE: HNZ) announced today a 13.2 percent increase in net income and a 12.5 percent increase in

earnings per share for the quarter ended Aug. 1, 1990, compared with the same period last year.

Net income for the three-month period was $143,237,000, compared with last year's $126,546,000. Earnings per share increased to 54 cents from 48 cents for the same period last year. The earnings per share numbers for the two periods reflect the two-for-one stock split in the form of a distribution of shares, effective Sept. 27, 1989.

Consolidated net sales for the first quarter were $1,559,243,000, a 7.4 percent increase over last year's total of $1,451,949,000. The increase in sales came primarily from price increases and the translation of strengthening foreign currencies against the U.S. dollar. Prices increased for nearly all major product categories.

Anthony J.F. O'Reilly, Heinz chairman, president and chief executive officer, said that the increase in sales is indicative of the strength of the company's major brands in their respective market categories. The result was an increase in net income and profit margins.

"We are encouraged by the first quarter results and are optimistic about our performance for the balance of the fiscal year," O'Reilly said.

#90253p2916 09/10/1990 ~PR Newswire
NUTLEY, N.J. (SEPT. 10) PR NEWSWIRE - Hoffmann-La Roche today announced that it plans to further expand the availability of its anti- HIV drug ddC (dideoxycytidine) to patients with AIDS and advanced ARC in the United States. Preparations are beginning immediately to implement a program that will allow physicians to treat patients with ddC after AZT intolerance develops or treatment fails.

In June of this year, Roche initiated a program to expand the access of ddC beyond its use in controlled clinical trials for patients with AIDS and advanced ARC. The protocol required that patients be intolerant to or have failed AZT (zidovudine) and also have intolerance to the experimental drug ddI (dideoxyinosine). At the time the first ddC expanded access program was initiated, Roche announced that it would widen the availability of its antiviral drug when the company's medical professionals were satisfied that adequate safety information had been obtained from this study and other trials in the clinical research program.

First ddC Expanded Access Program Initiated on June 25 The original program, administered through an open-label safety protocol under an Investigational New Drug (IND) application submitted to the Food and Drug Administration (FDA), was implemented in two phases. During the first phase, only physicians having experience with ddC, also known as HIVID (TM), were permitted to administer the drug in an effort to carefully monitor patients and identify any unexpected drug-related toxicities. After studying the first group of patients for one month and finding no serious toxicities, Roche has moved the program into its second phase in which any licensed physician who has experience in treating AIDS is eligible to participate in the study.

Preparations Begin for New ddC Program In order to make ddC available as soon as possible to the expanded population, Roche will revise the current protocol to allow the physicians already registered in the program to enroll new patients who have failed AZT treatment or developed an intolerance. At the same time, a new streamlined protocol will be prepared to allow physicians not already registered to gain access to ddC for their patients. As with all studies involving investigational drugs, eligible patients will be required to meet specific entry criteria.

This ddC program builds upon the experience gained with the other ongoing ddC studies and combines the input of FDA officials, clinical investigators and the AIDS activist community. Whaijen Soo, M.D., Ph.D., director of the Clinical Virology Program at Roche, said, "Our main concern has always been patient safety, and we need to remain cautious

about ddC in this new patient population. However, we are hopeful that this expansion of our ddC program will help many persons with AIDS."

As with the previously announced study, physicians may call 1-800-ddC-21-HIV, Monday through Friday, from 9 a.m. to 8 p.m., Eastern Time, for more information about entering a patient into the ddC expanded access program.

Ongoing ddC Clinical Trials Roche has two pivotal ddC clinical trials currently open to enrollment. The first trial, being conducted at over 26 sites across the United States, compares ddC with AZT in patients with AIDS or advanced ARC. The second trial, recently expanded to 12 sites, compares AZT with ddC in patients who have completed one year of treatment with AZT. Patients in either study who become intolerant to AZT will be able to receive ddC. In addition, Roche is conducting clinical investigations where ddC is administered concomitantly or alternately with other therapeutic agents.

Patients and physicians can obtain more information about these trials by calling the AIDS Clinical Trials Information Service at 1-800-TRIALS-A or Roche at 1-800-526-6367.

About Hoffmann-La Roche Hoffmann-La Roche is widely known for original research and development in the health care field. The company has produced numerous important prescription drugs and is a leader in biotechnology. Roche also provides a wide range of diagnostic products and clinical laboratory services and is a major producer of pure bulk vitamins and medicinal products used in the food, pharmaceutical, cosmetic and animal health fields. In addition, the company recently launched a new business that provides infusion therapy for patients who can be treated outside the hospital.

#90253p2923 09/10/1990 ~PR Newswire

ENGLEWOOD CLIFFS, N.J. (SEPT. 10) PR NEWSWIRE - Konica U.S.A. Inc., a unit of Konica Corporation of Japan, has introduced a new formaldehyde-free color negative stabilizer.

The new Konica Formaldefree(TM) Color Negative Super Stabilizer eliminates the need for using formaldehyde in color film processing. Till now a key ingredient in the film processing procedure, formaldehyde has come under increasing attack by health agencies as a carcinogen and for otherwise harming the health of workers exposed to the gas.

"Konica Formaldefree represents a significant advance for the environment and for the health of people in professional and amateur photofinishing laboratories. Formulations are also available for wash and washless minilabs," said Maury Kahn, general manager of technical services at Konica U.S.A. Inc. "A safe substitute for film stabilizers containing formaldehyde, it maintains the same level of dye stability on color negative film that formaldehyde does."

In 1989, according to the Photo Marketing Association, Americans spent $5.34 billion on photofinishing.

Formaldehyde is listed as a possible carcinogen by a number of health organizations, including the EPA. The state of California considers products containing formaldehyde to be known carcinogens. Government health organizations report that formaldehyde exposure can cause irritations to the mouth, throat and eyes, and that ingestion can lead to liver and kidney damage.

"Under development for several years, Konica Formaldefree was created for its safety and photographic properties," Kahn said.

Konica Formaldefree Color Negative Super Stabilizer is available for use in professional and amateur photofinishing labs and in wash and washless minilabs. There were 15,500 minilabs in operation in 1989, the Wolfman Report notes.

"Ever since 1903, when the company made Japan's first photographic paper, Konica has been a leader in changing the photo industry to the benefit of the consumer," said Paul Gordon, advertising and marketing manager for Konica U.S.A. Inc. "By becoming the first company to announce the availability of a formaldehyde-free stabilizer product, Konica has once

again demonstrated its leadership role."

The product is distributed to Process C-41 and equivalent washless minilabs in packages that make 10 liters of replenisher and working solution. It is also available for professional and amateur photofinishing laboratories and minilabs using Process C-41 or equivalent with wash water in continuous or roller transport film processors, in packages that make 75 and 150 gallons.

The new stabilizer is available in 10 liter mixes for washless minilabs as Konica Color Negative Film Super Stabilizer and Replenisher Type 52. In large size mixes, it is available as Konica Formaldefree Color Negative Super Stabilizer.

Konica U.S.A. Inc., based in Englewood Cliffs, is a leading worldwide manufacturer and marketer of Konica brand 35mm cameras, color print film, color print paper, Nice Print minilabs, Still Video System and videotape.

CINCINNATI (SEPT. 10) PR NEWSWIRE - The United States Court of Appeals for the 8th Circuit in Minneapolis ruled Sept. 7 in favor of John Morrell & Co. in two cases involving the United Food & Commercial Workers Union's 1987 strike at Morrell's Sioux Falls, S.D., plant. John Morrell & Co. is a subsidiary of Chiquita Brands International, Inc. (NYSE: CQB).

In the first case, the Court of Appeals upheld a 1988 jury verdict against the union originally rendered in Rapid City, S.D. Federal District Court. The jury had found that the union's 1987 strike was illegal and awarded Morrell damages in the amount of $24.6 million. With accrued interest, this award against the union now has a value of approximately $27 million.

In the second case, the Court of Appeals upheld an earlier decision in favor of Morrell refusing to give back pay to the strikers.

Morrell's chairman, Milton J. Schloss, said, "We are pleased the Court of Appeals has ruled in Morrell's favor on all aspects of these cases."

DALLAS (SEPT. 10) PR NEWSWIRE - Southwest Airlines Co. flew 990.0 million

revenue passenger miles (RPMs) in August 1990, a 10.7 percent increase over the 894.0 million RPMs flown in August of last year. Available seat miles (ASMs) increased 9.1 percent to 1,447.9 million from the August 1989 level of 1,326.8 million. The load factor for the month was 68.4 percent, up 1.0 point from last year's load factor of 67.4 percent.

For the first eight months of 1990, Southwest flew 6,796.0 million RPMs, compared with 6,367.3 million RPMs recorded for the same period in 1989, an increase of 6.7 percent. Available seat miles increased 11.1 percent to 10,846.6 million from the 1989 year-to-date level of 9,763.0 million. The 1990 year-to-date load factor was 62.7 percent, compared to 65.2 percent for the same period last year, a decrease of 2.5 points.

ST. LOUIS (SEPT. 10) PR NEWSWIRE - Continuing a tradition established during World War I, America's largest brewer, Anheuser- Busch, Inc., today announced it will donate 22,000 cases of its O'Doul's Non-Alcoholic Brew to U.S. military personnel serving in Saudi Arabia and the Persian Gulf.

"More than 70 years ago," said Michael J. Roarty, Anheuser-Busch executive vice president/corporate marketing and communications, "we supplied U.S. troops with a non-alcoholic beverage called Bevo. And today, thanks to the cooperation of armed forces officials, we are glad to make a similar gesture to the thousands of American men and women who are also serving their country overseas.

"We decided on this quantity of donation -- 22,000 cases -- because we are told that would average a six-pack of O'Doul's for each serviceman or woman currently on duty in the Persian Gulf region."

A spokesperson for the U.S. armed services welcomed the gift as especially appropriate in light of the Middle East climate.

"The temperature in the region has been in the 110-degree range almost every day, so this is going to be well-received by our troops," said U.S. Rep. Marvin Leath (D-Texas), House Armed Services Subcommittee, chairman of the Morale, Welfare and Recreation Panel.

The troop supply of O'Doul's is being brewed and packaged at the company's plant in Tampa, Fla., Roarty said. From there, it will be trucked to Charleston, S.C., and there loaded aboard ship for transport to Saudi Arabia and distribution to American troops.

"The shipment will arrive in Saudi Arabia 10-12 days after that," he said.

Army and Air Force supply officials contacted Anheuser-Busch last week to inquire into the availability of a non-alcoholic brew for American troops

in the desert.

Leath noted that when a reporter asked an American tank crewman about the weather, he replied, "Send in the Budweiser plane."

"It is too bad that we can't accommodate this crewman," he said. "But because of religious and governmental restrictions in Saudi Arabia, it is not possible at this time to respond exactly to that request. So Anheuser-Busch has responded with an appropriate alternative."

Roarty said that in making the donation, Anheuser-Busch intended to send a message of encouragement as well as a supply of O'Doul's to U.S. troops.

Anheuser-Busch, a long-time supporter of the USO, recently donated $500,000 to the USO to help support various services and provide entertainment for U.S. troops in the Persian Gulf and Saudi Arabia. Included in those USO services is a commitment by comedian Jay Leno to entertain U.S. personnel in the Middle East during the Thanksgiving holidays.

PHILADELPHIA (SEPT. 10) PR NEWSWIRE - Philadelphia Electric Co. (PE) reported today that Unit 2 at the Limerick Generating Station in Montgomery County shut down automatically at 9:11 a.m., today, due to an instrumentation malfunction.

PE said plant systems operated as designed, resulting in a safe shutdown. There was no release of radiation. Federal, state and local officials were notified.

The company said the malfunction occurred in a steam line leak detection system of a main steam isolation valve, one of a series of valves that isolate the reactor from the unit's turbine generator.

The instrumentation falsely reported a high temperature reading in a steam line tunnel, causing the reactor to automatically shut down. The unit was operating at 100 percent power at the time.

PE said it will test to confirm the cause of the malfunction and perform maintenance on the reactor before returning it to service by the end of the week.

Limerick Unit 1 is out of service until late November for a scheduled

refueling outage.

CAMBRIDGE, MA (SEPT. 10) PR NEWSWIRE - T Cell Sciences, Inc. (NASDAQ: TCEL) today reported first-quarter fiscal year 1991 results which include sales revenues of $815,000, compared to $730,000 for the same period last year. Total revenues for the quarter were $2.7 million, a 30 percent increase over the same quarter a year ago.

Operating expenses also increased, totalling $3.7 million for the quarter, as compared to $2.7 million for the first quarter last year. The majority of this increase is related to accelerated product development work for the company's complement blocker, as well as several T cell antigen receptor projects. The operating deficit for the first three months of the fiscal year amounted to $987,000 ($.10 per share), as compared to last year's first-quarter loss of $637,000 ($.08 per share). Cash reserves as of July 31, 1990, were $11 million.

"Operating results for the quarter are in line with our expectations," said James D. Grant, chairman and chief executive officer of T Cell Sciences, Inc. "Our plan is to accelerate several product development programs, especially those aimed at targeting specific T cell antigen receptor therapeutic products for treating autoimmune diseases and cancer. Revenues continued to increase and we anticipate continued strong revenues as new products are marketed and as we reach milestones for our product development agreements."

Utilizing proprietary T cell receptor and soluble receptor technology, T Cell Sciences, Inc. is developing pharmaceutical products to treat heart disease and autoimmune diseases as well as products for diagnosing and monitoring immune system disorders and cancer. Located in Cambridge, the company currently markets products to the scientific community and an FDA-approved test kit to the diagnostic market.

TULSA, OK (SEPT. 10) PR NEWSWIRE - The J.E. Robert Companies announced today that it is offering for bulk sale eight multi-family apartment complexes totaling 2,015 units through a sealed bid process.

The high quality, well maintained properties, owned by Heartland Federal Savings and Loan Association of Ponca City, Okla., are located in Phoenix, Colorado Springs, Albuquerque, Dallas, San Antonio and El Paso. Current occupancy rates range as high as 96 percent.

The real estate is being sold for "Cash Sale Only" in bulk through a sealed-bid sale process. All bidding is open to the general public. Although bids on the entire package are preferred, offers will be considered on groups of properties within a particular region. Bid packages are available through the J.E. Robert Companies, Marketing Department, 11 Canal Center Plaza, Suite 200, Alexandria, VA 22314, or by calling 703-739-4400. Expected deadline for bid submission is Nov. 15, 1990.

Lighthouse-Robert Management Group, an affiliate of the J.E. Robert Companies, has been managing Heartland Federal under the government's management consignment program. The J.E. Robert Companies is one of the nation's largest firms whose primary business is the management, marketing and sale of commercial real estate, real estate loans, and other underperforming real estate assets. The J.E. Robert Companies also specializes in the active crisis management of failing financial institutions and their subsidiary companies.

Heartland Federal, a recapitalized institution with approximately $1 billion in assets, is the most profitable thrift in Oklahoma.

FOUNTAIN VALLEY, CA (SEPT. 10) PR NEWSWIRE - Newport Corp. (NASDAQ: NEWP) today reported sales for the fiscal year ended July 31, 1990, totaling $58,807,000 a 3 percent increase over the $57,329,000 reported for the previous year.

Earnings per share declined to 59 cents from the 85 cents reported for the 1989 fiscal year, while net income for the year decreased to $4,658,000, from the previous year's $7,066,000.

For the fourth quarter, sales totaled $16,138,000, up 10 percent over the $14,632,000 reported for the corresponding quarter in fiscal 1989. Net income for the quarter decreased $526,000 to $1,215,000 from the fiscal 1989 fourth quarter. On a per share basis, earnings for the quarter were 16 cents compared with 21 cents for the prior year period. The results for prior year fourth quarter included a net gain from sale of an investment totaling four cents per share.

"While domestic sales were up 10 percent over the third quarter results," noted Tom Galantowicz, president of Newport, "domestic orders continued to be weak reflecting an industry-wide weakness in research funding."

Galantowicz continued, "International sales continued to be strong, for the quarter up 41 percent over fiscal 1989 fourth quarter results. For the year they totaled $17,323,000, up 26 percent over 1989. Our international sales growth was broadly based throughout the world.

"This year's fourth quarter operating income," Galantowicz said, "was impacted by increased trade show and advertising expenses, receivable reserves and product development activity.

"We expect," Galantowicz concluded, "continuation during 1991 of the strong international sales growth aided by a higher backlog, new products and increased international marketing efforts. The domestic market, however, remains uncertain. We believe we are positioned for increased market penetration in strategic geographic markets in fiscal 1991."

Newport Corp. is the leading worldwide manufacturer and marketer of a comprehensive line of precision instruments, components and accessories for the laser and electro-optical market. Customers include Fortune 500 corporations, diverse small businesses, national research laboratories, government and educational institutions.

NEW HYDE PARK, N.Y. (SEPT. 10) PR NEWSWIRE - Welbilt Company announced today that Marion Antonini, recently named chairman of the company's board of directors, was elected president and chief executive officer. Richard Hirsch continues as chairman of the Welbilt executive committee and remains actively involved as a director and major shareholder of the company.

Antonini was most recently chairman of KD Equities, a New York-based investment firm. Previously, he served with Xerox Corporation as group vice president of worldwide operations and as president of international operations. In addition, Antonini was president of Eltra International and vice president of Kaiser Jeep. Besides Welbilt, his directorships include Engelhard Corporation, Vulcan Materials Company and Scientific-Atlanta.

Antonini stated, "I am pleased and excited by Welbilt's tremendous worldwide potential. We can look forward to productive continuity in the strong and positive relationships enjoyed by our people and products."

Welbilt is a major manufacturer of commercial food service equipment (including gas and electric ranges, deep-fat fryers, ice machines, warming equipment, steam cooking products and doughnut making equipment) and residential furnaces. Welbilt's products bear such well-known trade names as Garland, Frymaster, Ice-O-Matic, Cleveland Range and Belshaw and are market leaders with reputations for high-quality and reliable service.

#90253p2961 09/10/1990 ~PR Newswire

LOS ANGELES (SEPT. 10) PR NEWSWIRE - Legendary entertainer Steve Allen, MTM Enterprises Inc., and MTV Networks have entered into an historic TV deal whereby 100 half-hour episodes of the comedy classic "The Steve Allen Show" will be broadcast on MTV Network's "HA! The TV Comedy Network" commencing Oct. 1, 1990, it was jointly announced today by Steve Allen, William (Bill) Allen, executive vice president, MTM Television (and son of Steve), and Ed Bennett, president, "HA! The TV Comedy Network."

The agreement grants MTV Network's "HA!" network an exclusive U.S. broadcast window of three years for the episodes. MTM Enterprises Inc. holds worldwide distribution and home video rights to the episodes, and is in the process of preparing the original episodes for rebroadcast, under the personal supervision of Steve Allen.

The 100 episodes of the trend-setting, award-winning series have been culled from kinescopes stored by Steve Allen in his personal vault in a

Los Angeles warehouse over the years, and have not been televised since they were first aired live on NBC from June 24, 1956, through June 6, 1960. MTM Enterprises Inc. is producing new color introductions, in which Steve Allen sets up each episode with personal remembrances and anecdotes.

Regarding the historic re-broadcasting of "The Steve Allen Show," Allen said, "It was always obvious that both the writing of the series and our regular cast were terrific, but what is remarkable to me, now, seeing this material again after so many years, is how we were able to build strong and funny sketches around major stars who had never had the opportunity to test their comedic wings before. I think audiences today will get a kick out of the real laughs generated by some of their favorite, dramatic film stars, as well as enjoying the all-time great comedy specialists who joined us."

Bill Allen said, "The wealth of comedy ideas packed into each show is remarkable, especially considering that in the 1950s, 39 programs were delivered per year, not the 26 or less that are common now. And in addition to the topical and satirical sketches seen each week on 'The Steve Allen Show,' there were many regular departments that became popular such as 'Letters to the Editor,' 'The Question Man,' 'Crazy Shots,' 'The Allen Report to the Nation,' and of course, 'Man on the Street.'

"Another thing that impresses me about this series," Bill Allen adds, "is that there's nothing the least bit old-fashioned about it. 'The Steve Allen Show' group of players and the great sketches they did seem as hip now, in the 90s, as they were originally. This is really laugh-out-loud comedy.

Bennett added, "Steve Allen is certainly one of the pioneering giants of the television industry. His unparalleled improvisational skills and multi-faceted talents made 'The Steve Allen Show' one of the greatest comedy shows of all time. The stars who appeared on the program read like a virtual 'who's who' of the entertainment industry. 'HA!'s' acquisition of these episodes represents the goal we've set for our new channel, which is to provide the greatest comedy programming in the world to our viewers."

MTV Networks, a division of Viacom International Inc., owns and operates four cable television programming services: MTV: Music Television, VH-1, Nickelodeon/Nick At Nite, and "HA! The TV Comedy Network," which was launched April 1, 1990.

MTM Television is a division of MTM Enterprises Inc., which is wholly owned by TVS Entertainment PLC.

DALLAS (SEPT. 10) PR NEWSWIRE - Dallas-based United Medicorp, Inc. (NASDAQ: UMCI) announced today the formation of United Medicorp Finance Corporation (UMFC), a wholly owned finance subsidiary. UMFC, initially capitalized at $2 million, will provide advance funding to qualified United Medicorp clients and will also be the principal vehicle through which United Medicorp obtains public and private financing for its various programs.

Bernard Gawley, newly elected vice president of financial services, will be responsible for the management of UMFC. Gawley, most recently associated with Carnegie Evans as vice president/manager of health care funding, was previously a vice president with Merrill Lynch & Co. where he managed, consecutively, Merrill's long-term care finance unit and the insured mortgage finance department, with specific emphasis on the health care field and related financings.

G. Ray Miller, United Medicorp chairman and chief executive officer, said, "The formation of UMFC is another significant step forward in the establishment of United Medicorp as a major player in the medical insurance claim finance arena. We are especially fortunate to have the guidance and direction of Gawley who has a proven track record in health care finance."

United Medicorp provides medical insurance claims processing, management, collection and advance funding services to health care providers. The company employs proprietary electronic and computer technologies to address the claims management and cash flow needs of its customers, who are primarily hospitals, medical clinics and physicians.

DENVER (SEPT. 10) PR NEWSWIRE - Apache Corp. (NYSE: APA) today announced the completion of its Drummond No. 3-12 in the Ardmore basin of southern Oklahoma flowing 487 barrels of oil and 338 thousand cubic feet (Mcf) of gas per day from perforations in the Tulip Creek Sandstone between 4,645 and 4,940 feet.

The well was tested on a 26/64-inch choke with a flowing tubing pressure of 100 pounds per square inch (psi). Apache operates and owns a 35.1

percent working interest in the well, which it acquired as part of a farmout arrangement in mid-1988. The new producer is located in Marshall County's Aylesworth field, where the company has completed a total of four oil and gas wells since November 1989.

The company also reported the completion of two Anadarko basin gas wells it operates in Roger Mills County, Oklahoma's Moorewood field. The Joe Smith No. 1-16 flowed 4.4 MMcf of gas and 58 barrels of oil per day on completion in the Prue sand formation between 11,148 and 11,196 feet. The flow rate was gauged on a 15/64-inch choke with a flowing tubing pressure of 3,490 psi. Apache holds a 41.8 percent working interest in the well. About a mile to the west, the Williams No. 3-17, in which Apache owns a 8.5 percent working interest, was completed flowing 3.4 MMcf of gas per day from the Prue sand formation. This well was tested on a 12/64-inch choke with a flowing tubing pressure of 4,160 psi. Another Apache-operated well in Moorewood field is currently awaiting completion operations. The company has completed four gas wells in the field so far this year.

Apache is an independent energy company engaged in exploration, development and production of natural gas and crude oil. The company's securities are traded on the New York and Midwest Stock Exchanges (symbol APA).

NEW YORK (SEPT. 10) PR NEWSWIRE - U.S. employees of Reuters news agency have voted overwhelmingly to authorize their union leadership to call a strike against the company, the Newspaper Guild of New York announced Monday.

Guild members, in meetings in Reuters' (NASDAQ: RTRSY) major U.S. centers last week, voted by better than a 20-1 margin for the strike authorization. The Guild represents nearly 500 employees.

Contract talks began nearly a year ago and have become particularly contentious over Reuters' demands that it substantially raise the cost to employees for their health insurance, cut maternity benefits, and slash severance pay.

Guild negotiators have asked for a federal mediator to intervene. Reuters management, however, rejected that offer.

Reuters' employees have shown their anger over management's position through various job actions, including informational picketing at the New

York and American stock exchanges, and at Reuters offices.

The strike vote comes as Reuters, the London-based news and information agency, prepares to launch its long-anticipated financial- trading services.

One is called Globex, touted as allowing commodities brokers to trade futures contracts at the Chicago Mercantile Exchange after the exchange is closed.

Another is "Dealing 2000" which, if it proceeds as planned, will dramatically expand the ability of banks and other investors to trade currencies directly over Reuters screens.

"Reuters must realize that the validity of these products as well as the integrity of the current day-to-day business of the company depends on employees who feel they are being treated fairly," said Barry Lipton, president of the Newspaper Guild of New York.

The Guild represents journalists, technicians, computer operators, sales support staff, customer service and clerical employees.

"There have been some questions raised about the status of Reuters' new products," Lipton said.

"Reuters is a fine organization, in many ways, but it's bewildering that a company currently doing so well would risk so much by going out of its way to upset its employees," Lipton said.

SAN BERNARDINO, Calif. (SEPT. 10) PR NEWSWIRE - Japan Airlines (JAL) and Lockheed Corp. (NYSE: LK) reported today they have signed a memorandum of understanding (MOU) to discuss JAL's investment in Lockheed Commercial Aircraft Center Inc. (LCAC), a subsidiary of Lockheed. LCAC was formed by Lockheed in July 1990 to perform maintenance and modification of B-747 aircraft.

LCAC is headquartered in San Bernardino at Norton Air Force Base. Norton is one of the military facilities scheduled for closure by 1994. LCAC has signed a joint-usage agreement with the U.S. Air Force to occupy two bays of a four-bay hangar. When the Air Force vacates the facility LCAC will occupy the additional two bays. Each bay, which is 48,000 square feet, can

accommodate 747-size aircraft.

JAL anticipates there will be a significant number of its aging 747 aircraft requiring modification in the near future. The MOU initiates specifications regarding agreements for equity participation, JAL's technical and management assistance, and maintenance of JAL aircraft.

With 65 B-747 aircraft in current service, JAL has the world's largest B-747 fleet and has a wealth of experience in the maintenance and modification of this aircraft. JAL has on order another 69 of the latest version, the B-747-400, with 35 on firm contract and options for another 34.

LCAC is currently modifying the hangars to meet commercial specifications for maintenance and modification. The facility is expected to be operational in the first quarter of 1991. At the end of the first year LCAC will employ about 600 people, which will increase to nearly 1,000 employees by 1994.

LAS VEGAS, Nev. (SEPT. 10) PR NEWSWIRE - American Pacific Corp. (NASDAQ-NMS: APFC; PSE: APFP) announced today that it had filed a registration statement with the Securities and Exchange Commission on Sept. 4, 1990, relating to the proposed offer and sale of 2,062,000 shares of its common stock, 1,900,000 shares to be sold by it and 162,000 shares to be sold by certain selling stockholders. The managing underwriters of

the proposed offering are PaineWebber Inc. and Kidder, Peabody & Co. Inc. The company also indicated that it had granted the underwriters an option to purchase from it 309,000 additional shares of common stock to cover over-allotments.

American Pacific Corp. is engaged in the production of ammonium perchlorate for the aerospace and national defense industries, and in the development of commercial and industrial real estate and the production of pollution abatement and waste water treatment equipment. It also proposes to engage in the production of sodium azide, the principal component of the gas generator used in automotive airbag systems.

A registration statement relating to these securities has been filed with the Securities and Exchange Commission, but has not yet become effective. These securities may not be sold, nor may offers to buy be accepted, prior to the time the registration statement becomes effective. This press release shall not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of these securities in any state in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state. Copies of a prospectus relating to the proposed offering may be obtained from the managing underwriters at the following addresses: PaineWebber Inc., 1285 Avenue of the Americas, New York, NY 10019; or Kidder, Peabody & Co. Inc., 10 Hanover Square, New York, NY 10005.

WAUKEGAN, IL (SEPT. 10) PR NEWSWIRE - Outboard Marine Corp. (OMC) (NYSE: OM) today announced that its Australian subsidiary, Outboard Marine Corp. (Australia) Pty. Ltd., has signed agreements to acquire certain assets of an Australian company, D.S.& N. Nominees Pty. Ltd., that will allow OMC to manufacture and market Stacer Alloy Craft Boats.

The Stacer Alloy Craft line, according to OMC, includes aluminum fishing, runabout and utility boats ranging from 10 to 21 feet in length. OMC said it intends to acquire existing inventory of the boats as well as the company's manufacturing operations based in Altona, near Melbourne.

When its acquisition is completed, Stacer Alloy Craft will become the second Australian boat line to be purchased by OMC. OMC also recently purchased the Haines Hunter line of fiberglass boats.

"Hese acquisitions will support our strategy of strengthening our competitive position as a worldwide marketer of both boats and marine engines," said OMC President and Chief Executive Officer James C. Chapman.

"The purchase of the Stacer Alloy Craft and Haines Hunter lines will allow us to package both aluminum and fiberglass boats with our Johnson (R) and Evinrude (R) outboard motors for sale in the Australian market," Chapman said. "The acquisitions also will give us a manufacturing base that will allow us to efficiently expand sales of these boat-and-engine packages into other markets in the Pacific and Southeast Asia," he said.

According to OMC, the Stacer Alloy Craft operations will be organized as a separate division of OMC Australia. The Australian operations are part of OMC's international group headed by OMC Vice President and International Group President Dennis L. Jacobson.

Outboard Marine Corp. is a leading international marketer of marine engines, boats, accessories and services.

NORTH WILKESBORO, N.C. (SEPT. 10) PR NEWSWIRE - Lowe's Companies, Inc. (NYSE: LOW) announced that its directors have authorized the expenditure of up to $65,000,000 for the purchase of Lowe's common stock in the open market over the next twelve months.

According to Robert L. Strickland, Chairman, the directors authorized the stock purchases because they believe Lowe's stock is undervalued in the market, and Lowe's desires to acquire common stock for its employee stock ownership and stock option plans, and general corporate purposes.

Mr. Strickland said that purchases of stock will be carried out primarily on the New York Stock Exchange, but that Lowe's also has the option of making privately negotiated purchases directly from shareholders. He said the stock purchase program would be under the direction of Harry Underwood, II, the company's Chief Financial Officer.

The Board also declared a quarterly cash dividend of 13 cents per share to be paid on October 31, 1990 to shareholders of record on October 17, 1990. This will be the 117th consecutive cash dividend.

#90253p2994 09/10/1990 ~PR Newswire

CHICAGO (SEPT. 10) PR NEWSWIRE - United Airlines today reported that its total scheduled revenue passenger miles (RPMs) increased 10.1 percent in August compared with August 1989.

The airline's total scheduled RPMs were 7,868,157,000 compared with 7,145,738,000 in August 1989.

The passenger load factor was 75.3 percent, a decrease of 2.0 points from 77.3 percent a year ago.

For August, domestic revenue passenger miles totaled 5,657,275,000, an increase of 2.9 percent from 5,499,323,000 accumulated in August a year ago. Pacific revenue passenger miles totaled 2,110,812,000, an increase of 28.2 percent from 1,646,415,000 a year ago. Atlantic revenue passenger miles were 100,070,000.

Total scheduled available seat miles (ASMs) were 0,452,861,000, up 13.1 percent from 9,238,899,000 a year ago. Domestic ASMs were 7,762,676,000, an increase of 7.8 percent from 7,204,064,000 a year ago. Pacific ASMs totaled 2,559,584,000, up 25.8 percent from 2,034,835,000 a year ago. Atlantic ASMs were 130,601,000.

The airline flew 5,854,000 passengers in scheduled service in August, an increase of 7.8 percent from 5,428,000 flown a year earlier.

Total cargo ton miles for August were 121,778,000, up 8.5 percent from 112,219,000 a year ago.

Total RPMs including charter flights for August were 7,910,965,000 up 10.7 percent from 7,147,896,000 a year ago.

January-August Traffic For the first eight months of 1990, total scheduled RPMs increased 8.3 percent to 51,037,300,000 from 47,147,214,000 in the same 1989 period.

Total scheduled ASMs increased 8.2 percent to 75,454,878,000 from 69,748,998,000 last year.

Passenger load factor during the eight-month period was 67.6 percent, identical with a year ago.

Total cargo ton miles were 898,987,000, an increase of 4.5 percent from 859,973,000 in the first eight months last year.

Total RPMs including charter for the first eight months were 51,099,486,000, an increase of 8.3 percent from 47,174,228,000 in the first eight months of 1989.

SANTA BARBARA, CA (SEPT. 10) PR NEWSWIRE - Dr. Michael S. Feld, director of the George R. Harrison Spectroscopy Laboratory at Massachusetts Institute of Technology, last week revealed results of a two-year scientific study conducted at MIT and Cleveland Clinic Foundation and outlined a new laser system that has been optimized to remove plaque from clogged coronary arteries.

In a presentation to the Fourth International Workshop on Future Directions in Interventional Cardiology sponsored by the American College of Cardiology, Feld said the new LAS II system is based on results of the two-year study. He said the system's laser source is based on a novel concept and the system incorporates several new features thought crucial to reducing restenosis (reclosure) of treated coronary vessels.

Feld said the laser wavelength and laser delivery system has been optimized to insure maximum therapeutic benefit while minimizing trauma to surrounding healthy tissue. The laser pulse is stretched and sequenced

and delivered to the site of the blockage through a bundle of optical fibers tipped by an optical shield that creates uniform and complete light distribution on the laser catheter tip. This system is designed to overcome limitations demonstrated by other systems using multiple fiber delivery systems, Feld said.

The system incorporates diagnostic spectroscopy and is able to differentiate between four types of diseased and healthy tissue, Feld said allowing the laser to be fired only at the diseased area. The laser source is a solid-state tripled Nd:YAG laser operating in the ultraviolet spectrum at 355 nanometers. This combines the advantages of ultraviolet energy with the convenience and reliability of solid-state, rather than gas, technology, Feld said. In the past, the Nd:YAG laser has not been considered for plaque removal because, despite its excellent beam quality and ease of use in hospitals, its output pulses are too short to pass effectively through optical fibers. Pulse stretching and sequencing, a novel technique using optical delay lines, overcomes this problem, lengthening the pulse duration by a factor of 30, Feld said.

The system is being developed jointly by MIT, Cleveland Clinic Foundation and GV Medical, Inc. (NASDAQ:GVMI), Minneapolis. Clinical trials are scheduled to begin later this year at the Cleveland Clinic Foundation in Cleveland, Ohio, one of the nation's largest medical centers. An investigational device exemption (IDE), which would permit the beginning of clinical trials, has been submitted to the U.S. Food and Drug Administration.

Dr. John R. Kramer, cardiologist at the Cleveland Clinic, made a joint presentation with Feld at the ACC Workshop.

Dr. Kramer reported on a Cleveland Clinic Foundation study which indicated that restenosis of coronary arteries continues to be at unacceptable levels for traditional angioplasty cases. Dr. Kramer reported that restenosis rates have not been improved by currently available laser systems, drugs or atherectomy devices. Improving the restenosis rate, he said, will be the key to success for interventional cardiology.

BOSTON (SEPT. 10) PR NEWSWIRE - Healthco International, Inc. (NASDAQ: HLCO) announced today that it has filed an action in the U.S. District Court for the District of Delaware against Gemini Partners L.P., Emanuel Pearlman and other members of the Gemini group.

The action seeks to have written consents executed in favor of Gemini's nominees declared invalid and seeks an injunction against Gemini's consent solicitation. The complaint in the federal action alleges that Gemini violated federal securities laws by soliciting and obtaining written consents prior to dissemination of supplemental materials concerning Healthco's proposed merger with Hicks, Muse & Co. The complaint further alleges that Gemini is unlawfully asserting the validity of written consents obtained before stockholders knew of the proposed merger. The complaint also alleges that the defendants have made false and misleading statements in their solicitation, including unlawful statements concerning Healthco's value.

In making the announcement, the company also confirmed, based on its review of the consents delivered by Gemini last week, that Gemini has not in fact obtained consents representing a majority of Healthco's outstanding common stock. The company said that this information was being presented to the Delaware Chancery Court this morning in response to Gemini's attempt to have the election of its nominees declared valid by the court.

At the same time, Healthco confirmed that a lawsuit had been filed by Hicks Muse late on Friday afternoon in the Dallas County District Court claiming that the alleged new Healthco board of directors designated by Gemini and Pearlman had, by virtue of Gemini's announcement last week that it was actively soliciting buyers for Healthco, breached the "no shop" provision of Healthco's merger agreement with Hicks Muse.

Healthco said that the lawsuit claims damages for actual and anticipatory breach of contract and declaratory and injunctive relief. The company also said that the lawsuit claims exemplary damages in an amount equal to at least three times actual damages because of Gemini's willful breach of the implied duty of good faith and fair dealing.

TULSA, OK (SEPT. 10) PR NEWSWIRE - In a fierce battle for market share, rental car companies bombard consumers with messages of price/value, quality and convenience. What consumers haven't seen or heard, until now, is a message about safety.

Thrifty Car Rental focuses on that very subject - safety - in a :30 TV spot that's part of a new multi-million dollar advertising campaign starting this week. This new commercial features the driver-side air bags

that come as standard equipment on all Chrysler cars from Thrifty.

"Our emphasis is savings with an extra margin of safety," says Jim Philion president and CEO of Thrifty as he explains the company's commitment to safety. "Thrifty has always represented quality at a value price, but we want business and leisure travelers to know that we also stand for safety. We have made a long-term, on-going commitment to providing an important safety feature to our rental car customers - a commitment that is fueled by and reinforced by Chrysler's equally strong emphasis on safety."

Philion says that over 81 percent of Thrifty's new 1991 fleet will have air bags and about 50 percent of their current fleet already has air bags. The goal, he says, will be to have air bags in as many as 90 percent of Thrifty's cars by the end of 1991. Only a few select Chrysler models, such as minivans, specialty vehicles, and some cars made by other manufacturers, will not have air bags.

According to Steve Grosvald, senior vice president of marketing for Thrifty, there is no additional fee for an air bag equipped car.

"We know that the American public is concerned with their safety, especially when traveling, and we're pleased to join with Chrysler in providing this safety feature to our customers on an on-going basis," he adds. "When rates, service and quality are relatively equal from one rental car to another, then we believe consumers should and will opt for the added benefit of safety - and Thrifty is where they will find that."

Grosvald says that Thrifty's new air bag commercial is one of a series of three new commercials that introduce a new company themeline 'Because it's your money.'

In addition to the millions of dollars being spent nationally to promote Thrifty's commitment to safety and value, Thrifty licensees across the nation will be supporting and reinforcing 'Because it's your money' and the new air bag campaign with local radio and TV advertising.

Thrifty is the world's largest off-airport car rental company, the fifth largest of all daily car rental companies in North America in rental locations and the fastest growing car rental company in Europe and Canada. Thrifty has more than 750 locations in 49 states and 35 countries.

BURLINGTON, N.C. (SEPT. 10) PR NEWSWIRE - Environmental Diagnostics, Inc. (NASDAQ: EDIT) announced today that Mr. William Eastham has resigned from the Company's Board of Directors.

Mr. Eastham, age 73, has been a Director of the Company since 1985 and was instrumental in defining its early directions. Mr. Eastham has been associated with a number of companies but has recently chosen to discontinue many of his business affiliations in order to devote his efforts and time to his family.

Dr. Sam Powell, the Chairman of EDI's Board, extended his best wishes and his deep thanks to Mr. Eastham for the many hours that he has devoted to EDI as it has made its transition from a research and development operation to a commercial corporation.

James D. Skinner, the EDI President and Chief Executive Officer, expressed his regrets at Mr. Eastham's resignation and complimented him on the many strategic and operational contributions he has made to the Company during the years he has been associated with EDI.

Environmental Diagnostics, Inc. develops and manufactures human clinical and agricultural diagnostics specifically designed for on-site testing by non-technical personnel. The Company's Conventional Biodiagnostic Products are used by government agencies, researchers, clinical testing laboratories and other companies for clinical and veterinary testing. The Company's EZ-SCREEN products provide the accuracy of laboratory results in minutes.

#90253p3015 09/10/1990 ~PR Newswire
ALLISON PARK, PA. (SEPT. 10) PR NEWSWIRE - Laurel Savings Association (NASDAQ: LARL) today reported year-end earnings for fiscal 1990.

For the 12 months ended June 30, 1990, net income was $547,000 or $1.09 per share. These results compare with net income of $936,000 or $1.92 per share for the same period a year ago. Net interest income, before provision for loan losses, decreased 4.3 percent to $4,221,000 vs. $4,411,000 in fiscal 1989.

Results for the current year reflect slightly lower net interest income due to the rise in interest rates on savings deposits, compared to fiscal 1989. In addition, the association recorded a significantly higher charge for possible loan losses as compared with the prior year. The increased provision for loan losses reflects management's ongoing policy to prudently accrue for the possibility of problem loans.

For the three months ended June 30, 1990, the association's net income was $105,000 or $0.20 per share compared with $175,000 or $0.36 per share for the same quarter last year. Net interest income, before provision for loan losses, was $1,122,000 vs. $1,128,000 in the same period a year ago.

Results for the current quarter were affected by a greater charge for possible loan losses and slightly higher operating expenses than in the fourth quarter of fiscal 1989. At June 30, 1990, Laurel Savings had total assets of $158,257,000 and stockholders' equity of $10,069,000 or $20.58 per share.

In discussing the results of the year, Edwin R. Maus, president and chief executive officer, stated, "Fiscal 1990 was a challenging year for Laurel Savings. Despite lower reported per share earnings, the association's core earnings remained strong and stockholders' equity rose 4.5 percent."

Laurel Savings Association is a 103-year-old, Pennsylvania-chartered, SAIF-insured savings association with six offices in Allegheny and Butler counties.

MONTVALE, N.J. (SEPT. 10) PR NEWSWIRE - The Great Atlantic & Pacific Tea Company, Inc. (NYSE: GAP), yesterday unveiled its new "Look At Us Now!" advertising campaign, with the first television commercials featuring the upbeat message airing on television stations in the Metropolitan New York area markets.

The new campaign marks the initial collaboration between A&P and its new advertising agency, Bozell, Inc. of New York, and was developed as an

extension of the chain's previous theme, "We Built A Proud New Feeling," according to Michael J. Rourke, vice president-communications and corporate affairs.

"Although both the previous theme and the new campaign use similar styles to project a very upbeat, energetic feeling about the atmosphere in our stores, the 'Proud New Feeling' series focused primarily on the pleasant, helpful attitudes of our employees," said Rourke. "The new 'Look At Us Now' theme emphasizes positive customer reactions, to demonstrate that our stores provide a satisfying and enjoyable shopping experience in a variety of ways," he added.

R. Donald O'Leary, A&P's vice president of marketing, responsible for the development of the new campaign, said, "We are focusing on customers of various types and ages in different areas of the stores to convey the many pluses of shopping with us. The commercials make it clear that today's new A&Ps are modern, attractive stores offering top quality perishables, excellent product selection, great specials and friendly service. And we follow those images with exciting promotions and special events."

He said the introductory television commercials include one 60-second spot two 30-second versions, and a third 30-second spot that accommodates specific item/price offers and other special promotions, inserted throughout the commercial for maximum impact. "We did it in this way as opposed to tagging all the specials at the end of the spot, to allow customers to focus more closely on each item, while still getting our overall image message across," O'Leary said.

The television commercials are being supported by radio spots which also began airing on Sept. 9 on key stations in the metropolitan area.

MIAMI (SEPT. 10) PR NEWSWIRE - J. Larry Rutherford, today was named executive vice president of operations of General Development Corporation (NYSE: GDV). Rutherford, 44, comes to GDC from Gulfstream Land & Development Corp. where he was president and chief executive.

A native of Virginia, Rutherford held various executive positions at Gulfstream since 1982 and from 1986 until May of 1989 was president and chief operating officer.

Rutherford holds a bachelor's degree from Virginia Military Institute and received his MBA degree from the Univeristy of Virginia.

From 1977 to 1982 Rutherford managed Wintergreen Development, Inc., a company affiliated with Bankers Trust Company of New York. The company was involved in managing real estate assets controlled by Bankers Trust.

Thomas J. Hutchison, president and CEO of General Development, said Rutherford will play a key role in the effort to reorganize GDC. "We are delighted to have a person with his broad experience in Florida real estate development join our management team. His leadership and expertise will play an invaluable role in my effort to revitalize General Devolopment and create a successful company in the future," Hutchison said.

TORONTO (SEPT. 10) PR NEWSWIRE - Canadian Auto Workers (CAW) negotiators are continuing talks with Ford of Canada in an effort to achieve a new collective agreement before the strike deadline this Friday at midnight.

Negotiations were held throughout the weekend at the main economic committee level as well as at the local tables. Harold Poling, Ford worldwide chairman of the board and chief executive officer, arrived over the weekend to meet with CAW leadership for top-level discussions.

"While we have had a number of serious economic discussions, we still don't have a clear indication of when we will get an economic proposal from the company," says CAW President Bob White. "There is still a massive amount of work, and although we are working very hard, it will be difficult to arrive at an agreement before the strike deadline."

The CAW represents 12,800 workers at five Ford plants and two offices in Canada. Talks opened with all the Big Three auto makers in July. Last Wednesday the CAW chose Ford as the target to set a pattern for the auto industry over the next three years.

WASHINGTON (SEPT. 10) PR NEWSWIRE - United Press International today confirmed that UPI and its partners, States New Service and Financial World magazine, have agreed to distribute The Latest News hourly newspaper aboard The Trump Shuttle on Trump's Washington, New York and Boston routes according to UPI Chairman Earl W. Brian.

The three news organizations inaugurated The Latest News aboard The Pan Am Shuttle April 2, and the newspaper has been published each weekday since, with editions revised for each of four consecutive afternoon shuttle flights from Washington's National Airport to LaGuardia Airport at New York City.

With the shift to The Trump Shuttle, the group will immediately serve Washington-New York passengers and later this month will begin new distribution on Trump's LaGuardia-to-Washington return leg and aboard New York-Boston roundtrip flights, Brian said.

"The Latest News has proven very popular among frequent fliers in search of an authoritative news update," said Brian. "Our publishing group plans to expand availability of The Latest News for other routes, with Trump Airlines and other sponsors, beginning as early as October."

Washington-based States News Service, founded in 1973, edits and produces The Latest News, using chiefly UPI news reports. Financial World magazine

representatives have sole responsibility for advertising sales for the 26-page newspaper. The Latest News is also distributed weekdays in Duke Zeibert's and The Palm restaurants here.

For weekday flights between 2 p.m. and 7 p.m., the newspaper is updated and produced hourly by States News' editorial staff using desktop-publishing facilities. The Latest News is transmitted electronically to printing sites, then photocopied and bound at high speed for distribution by host airline staff.

UPI, founded in 1907, is owned by Infotechnology Inc. (NASDAQ: ITCH), the New York City-based information and communications company that also owns 47 percent of Financial News Network Inc. (NASDAQ: FNNI).

WILKES-BARRE, PA (SEPT. 10) PR NEWSWIRE - North East Water and Pennsylvania Gas & Water Company (PG&W) have received approval from the Luzerne County Industrial Development Authority for the future issuance of up to $85 million in tax exempt bonds. The financing will be used to fund construction of three new water filtration plants designed to serve PG&W's Spring Brook service area. The financing application, which covers expenditures related to Crystal Lake, Ceasetown and Watres filtration plants, will be forwarded to the state for approval.

Robert A. Gerber, chairman of United Water Resources, stated it would be North East's intent to maximize the use of lower cost tax- exempt financing whenever practical to reduce the cost to customers. Gerber said the parties are anxious to push ahead with other commitments required under the ambitious construction schedule targeted at providing complete water filtration to all customers.

North East Water is the company formed by United Water Resources (NYSE: UWR) to acquire the water business and related assets from PG&W and its parent company, Pennsylvania Enterprises Inc. (PEI).

GRAND RAPIDS, MI (SEPT. 10) PR NEWSWIRE - Gantos, Inc. (NASDAQ: GTOS)

today announced that it had notified City Center Limited partnership, the landlord of the City Center project in Grand Rapids, that Gantos is exercising its option to terminate its lease unless Lazarus or another department store resumes non-discount operations within 90 days. If the termination of the lease becomes effective, Gantos will close its City Center operation.

The action by Gantos was prompted by the permanent closing of the Lazarus City Center store on Sept. 7. If a replacement tenant is not obtained within 90 days, Gantos will officially terminate its lease effective Jan. 6, 1991.

Gantos is considering an immediate reduction in the hours its City Center store is open. The anticipated decline in consumer traffic the closing of Lazarus will likely cause, makes economic operation of the City Center location more difficult. Even with Lazarus in operation, the location has not lived up to initial expectations either in terms of sales volume or profitability.

Commenting on the decision to give notice of termination of the lease, Gantos President L. Douglas Gantos said, "We have taken this action reluctantly. The reality, however, is that a project like City Center must have a major tenant like Lazarus to be successful. Despite our desire to see downtown Grand Rapids revitalized, we are obligated to act in the best interests of this company."

Gantos is a leading retailer of quality women's apparel. The company currently operates 158 stores in 23 states.

SAN FRANCISCO (SEPT. 10,) PR NEWSWIRE - Charles Schwab and Co. Inc. (NYSE: SCH), has released The Equalizer 2.3, an upgraded version of the popular personal investment package created for IBM PC-compatible users. The new version includes faster transmission speed, a new installation program and system diagnostics in addition to the primary features: online trading, quotes, research, portfolio management and account information. Using The Equalizer's trading capability, customers can have direct access to Schwab's computers to quickly buy and sell stocks, bonds, options and mutual funds. This completely eliminates the need for contact with a broker. Trades executed through The Equalizer receive a 10 percent discount off Schwab's already low discount commissions.

The upgraded program reduces transmission request time by as much as 25 percent allowing transactions to occur more rapidly. A new menu- driven

installation program permits users to quickly get to work with The Equalizer 2.3 by reducing time required for system setup. The new installation program saves time and aids investors who have little computer background by determining information about the user's system and modem configuration. In addition, the new version also includes system diagnostics which will quickly identify and solve modem communication and system configuration problems. Users of earlier versions of The Equalizer 2.0 or higher can update their versions automatically without affecting current data files. The Equalizer 2.3 is one of Schwab's leading electronic delivery services that allows individual investors to access up-to-the- minute information to help make investment decisions, then quickly trade online with privacy, control and convenience.

People who are interested in purchasing or upgrading to The Equalizer 2.3 may call Charles Schwab between 6 a.m.-8 p.m. PST at 1-800-648-4248.

RHINEBECK, NY (SEPT. 10) PR NEWSWIRE - John C. VanWormer, president of Community Bancorp, Inc., and Charles Hahm, president of Beacon Federal Savings Bank, announced today that the companies have entered into a definitive agreement providing for the acquisition of all six upstate branch offices of Beacon Federal.

Pursuant to the terms of the agreement, First National Bank of Rhinebeck, a subsidiary of Community Bancorp, Inc., will purchase the deposits of six offices as follows:

235 Fair Street, Kingston, N.Y.
632 Broadway, Kingston, N.Y.
576 Albany Post Road, Hyde Park, N.Y.
340 Main Street, Beacon, N.Y.
291 Main Mall, Poughkeepsie, N.Y.
171 North Plank Road, Newburgh, N.Y.

The transaction is subject to several conditions and must be approved by regulatory authorities.

Deposits in the six offices being acquired amount to approximately $100 million. Employees of the six offices will become employees of First National Bank of Rhinebeck as a result of the acquisition.

The acquisition, VanWormer said, "is consistent with the planned growth of Community Bancorp." The six locations will allow Community Bancorp to expand its operations in areas immediately contiguous to its current operations.

Hahm stated that "the sale of the branches to an independent, locally owned commercial bank in the mid-Hudson region would preserve and enhance current customer relationships and provide for expanded career opportunities for the employees of these branches."

Community Bancorp's primary subsidiary is First National Bank of Rhinebeck a commercial bank founded in 1853. Total assets of Community prior to the acquisition are in excess of $200 million. First National Bank of Rhinebeck currently conducts its business through offices in Rhinebeck, Red Hook, Highland and Saugerties.

BURBANK, CA (SEPT. 10) PR NEWSWIRE - Consistent with the innovative and ground-breaking nature of its first-run syndicated series, "The

Challengers," Buena Vista Television has entered into a unique arrangement involving promotions with Citibank MasterCard & Visa and for the distribution of all contestant winnings earned on the strategy-filled new topical game show.

According to the arrangement, Citibank MasterCard & Visa will underwrite a portion of the prize pool for "Challengers" and will be responsible for the distribution of all contestant winnings, which will be offered in the form of a credit balance on a Citibank Mastercard or Visa or in cash. Citibank will also develop and implement national promotions revolving around the series. As part of the agreement, Citibank will receive in-program credit in each episode of "The Challengers."

"We are very pleased to be associated with 'The Challengers,'" said Richard Srednicki, general manager, Citibank MasterCard and Visa. "In addition to providing daily exposure on over 120 television stations, we will benefit from positive association with Dick Clark and The Walt Disney Company. It will give Citibank the opportunity to offer new promotions to our customers, and offers potential for local tie-ins with other Citibank MasterCard and Visa activities."

Commenting on the announcement, Buena Vista Television President Bob Jacquemin said, "We are extremely pleased to have established such a creative promotion, and natural sponsorship environment for Citibank. The relationship we have established with Citibank is compatible with our program format and should be extremely beneficial to all parties, particularly our contestants."

Unlike most game shows, all contestants on "The Challengers" keep their winnings. Those contestants who choose to receive their winnings in the form of Citibank MasterCard or Visa credit balance receive all the related benefits and services that apply to Citibank cards, including Buyer's Security, Extended Warranty, Citibank's Lost Wallet Service, and 24-hour Customer Service.

"The Challengers" is produced by dick clark productions in association with Ron Greenberg Productions and distributed by Buena Vista Television, a subsidiary of The Walt Disney Company. Hosted by five-time Emmy Award-winner Dick Clark, it is the first game show in history to feature 52 weeks of original programming and questions culled from weekly news events. The series is premiering in over 80 percent of the country and is designed for news adjacency time periods, fringe or access.

Citibank Mastercard and Visa is the nation's largest issuer of bank cards. More than 27 million cards are in distribution to nearly 17 million American households.

"The Challengers" is distributed by Buena Vista Television, a subsidiary

of The Walt Disney Company.

BROOKFIELD, WIS. (SEPT. 10) PR NEWSWIRE - American Medical Buildings, Inc. (AMEX: A) announced today that Jack A. Amormino has been named as the company's president and chief executive officer. Amormino succeeds Michael A. Carlson who resigned as the company's president and chief executive officer effective Sept. 7, 1990. Carlson will continue to serve as a member of the company's board of directors and, at the company's request, has agreed to be available as a consultant regarding certain projects currently under construction or in development.

Since Jan. 1, 1989, Amormino has served as the company's executive vice president and chief operating officer.

On Aug. 15, 1990, the company filed for relief pursuant to Chapter 11 of the United States Bankruptcy Code.

The company, which maintains its headquarters in Brookfield, Wis., is a healthcare facilities consulting firm which provides planning, architectural, engineering and construction services to hospitals and physician group practices throughout the United States.

LANDOVER, MD. (SEPT. 10) PR NEWSWIRE - Hechinger Company (NYSE: HECHA, HECHB) today announced plans to expand and convert four units in North Carolina to its Home Quarters (HQ) Warehouse division.

The stores, located in Winston-Salem, Greensboro, Fayetteville and Raleigh are currently operated as Hechinger stores. Remodeling to accommodate the HQ warehouse merchandise presentation will begin immediately in two locations and will be completed at all locations by summer 1991. It is expected that most Hechinger employees will join HQ.

In making the announcement, John W. Hechinger Jr., president, stated: "We believe that operating under the HQ banner in these markets will significantly increase sales and profits. HQ already operates a store in Winston-Salem and also operates stores in the Raleigh-Durham market. We believe the conversion of these stores to the HQ format will increase consumer awareness, create operating efficiencies and enhance our ability to serve our customers."

Other HQ expansion news includes Boston where HQ recently experienced the most successful grand openings in its history with the opening of the first two of approximately 12 stores planned for the market. Other expansion plans include Birmingham and Montgomery, Ala.; Memphis, Tenn.; Louisville, Ken.; and Cincinnati.

Hechinger also announced plans to close its store in Newport News, Va., in December. The company already adequately serves the market with HQ stores in nearby Hampton and a recently opened unit in Denbigh.

Hechinger Company operates 87 Hechinger stores, 20 Home Quarters Warehouse Stores and six Triangle Building Centers in 14 states and the District of Columbia.

PITTSBURGH (SEPT. 10) PR NEWSWIRE - Westinghouse Electric Corp. (NYSE: WX) today officially entered the competition for a contract, valued at several hundred million dollars, to produce superconducting dipole magnets for the planned Superconducting Super Collider (SSC) in Waxahachie, Texas.

The SSC, a U.S. Department of Energy project administered by the Superconducting Super Collider Laboratories (SSCL), will be the world's largest and most powerful particle accelerator.

It is scheduled to begin operation in 1998 at an estimated cost of $8 billion.

"Westinghouse has really been preparing for the SSC magnet contract for nearly four decades," Bruce Boswell, general manager of the corporation's collider dipole magnet division said. "We've been a leader in superconductivity since 1952 and have built more types of superconducting magnets than any other U.S. corporation. Westinghouse also developed, in 1962, the niobium and titanium alloy wire required for the SSC magnet coils."

The corporation today submitted a detailed response to a SSCL request for competitor proposals for the magnet contract. The SSCL will select an industrial team composed of "leader" and "follower" corporations this fall. The goal is to develop two manufacturers with full magnet manufacturing capability. SSCL will then conduct a competition between the two selected suppliers to manufacture and test 8,150 16.5-ton magnets at a rate of ten per day.

The Westinghouse proposal pledges leader-follower teamwork based on

"personnel and data sharing, total cooperation and trust."

"The traditional leader-follower approach is unnecessarily adversarial and leaves room for the leader to fail to transfer vital and timely information to the follower," Boswell said.

"Westinghouse's commitment to total leader-follower cooperation will leverage the best expertise and technology of both organizations to ensure that SSCL receives flawless magnets on time and within budget."

#90253p3111 09/10/1990 ~PR Newswire

FT. WORTH, TX (SEPT. 10) PR NEWSWIRE - Primerica Corporation (NYSE: PA) and its subsidiary, Transport Life Insurance Company, today announced that they have commenced discussions with KWA Financial Corp. concerning KWA Financial's assuming the underwriting of the association group major hospital insurance currently underwritten by Transport Life.

Transport's intention is to discontinue new sales of association group major hospital insurance, which accounts for approximately 35 percent of the company's revenues, but makes only a small contribution to its profits. It is anticipated that KWA Financial Corp. will assume ownership of the independent Keith Wood Agency, which markets this product line to individuals and small businesses, and will consolidate within its own operation both a sales and underwriting capability by purchasing from Primerica its World Service Life Insurance Company of Colorado charter.

Any transaction which may result from these discussions would be subject to the completion and execution of a definitive agreement as well as necessary regulatory approvals. At this time, Primerica does not expect to realize a material gain or loss on the sale of World Service Life of Colorado's charter to KWA Financial Corp, nor will any resulting transaction have a material effect on the company's ongoing profitability.

J. Truett Richardson has resigned as Transport Life's President to join KWA Financial Corp. and John T. Sharpe, Transport Life's Chairman, will also assume the duties of Chief Executive Officer.

The transaction under discussion would not affect insurance currently in force at Transport or the company's other business lines, which include group employee benefits marketed by an in-house salesforce, specific-disease insurance, and long-term care and credit coverages.

In commenting on the discussions, Wood of KWA Financial Corp. noted that, "A marketing organization the size of the Keith Wood Agency benefits

greatly by having the life company and the agency under common control. We are pleased that Primerica is working with us to accomplish this goal, which is a natural step in our organization's development."

Primerica Corporation is a diversified financial services company principally engaged in life, credit, accident & health and property & casualty insurance, investment banking and securities brokerage, mortgage banking, mutual funds, asset management, consumer lending, credit cards and direct mail marketing. The company had assets of approximately $21 billion as of June 30, 1990.

TEL AVIV, ISRAEL (SEPT. 10) PR NEWSWIRE - Istec-Industries and Technologies Ltd. (NASDAQ: ISTUF, ISTEF, ISTWF), today reported results of operations for the second quarter and first six months of 1990, ended June 30, 1990.

Total sales for the six months ended June 30, 1990, increased by some 49 percent, reaching approximately NIS 2,160,000 (about $1,039,000) compared with total sales of approximately NIS 1,447,000 (about $696,000) for the first half of 1989. Net loss for the first six months of 1990 amounted to approximately NIS 939,000 (about $452,000), compared with a net loss of approximately NIS 1,822,000 ($877,000) which was offset by a one-time income of some NIS 2,395,000 ($1,152,000) from a share offering of Istec's

subsidiary, Healthcare Technologies Ltd.

Total sales for the second quarter of 1990 rose by about 48 percent and to reach some NIS 1,051,000 ($506,000) compared with NIS 708,000 ($341,000) for the same period last year. Net loss for the second quarter of 1990 decreased somewhat and amounted to approximately NIS 570,000 (about $274,000), compared with a net loss of NIS 637,000 ($306,000) in the corresponding period in 1989.

Istec's deficit in working capital of NIS 9,299,000 ($4,475,000) reveals the company's current liquidity problem which resulted primarily from its acquisition of Aryt Optronics Industries Ltd. at the end of 1989.

As previously announced, Istec is negotiating to sell its shares in Aryt to Geotek Industries Inc. for approximately $5.6 million. If completed, this disposition will enable the company to decrease the deficit in working capital by some $4.2 million.

Istec's shareholders' equity continued to decrease and was approximately NIS 1,579,000 (about $760,000) at June 30, 1990, compared with approximately NIS 2,731,000 (about $1,314,000) at Dec. 31, 1989.

The financial results for Healthcare Technologies Ltd., a major Istec subsidiary, continued to improve during the second quarter of 1990. Healthcare reported net income for the second quarter of 1990 of approximately NIS 49,000 (about $23,000), compared with a net loss of NIS 286,000 ($138,000) in the corresponding period last year.

A decision was reached by the company's board of directors to concentrate its activities in healthcare and to divest itself of investments in unrelated fields at the appropriate time.

Istec and its subsidiaries maintain their accounts and present their financial statements in New Israeli Shekels (NIS) adjusted to reflect changes in the Israeli Consumer Price Index, and all the figures stated herein are adjusted NIS. All dollar figures are convenience translations using the exchange rate as of June 30, 1990 of NIS 2.078 to U.S.$1.00.

WOODCLIFF LAKE, N.J. (SEPT. 10) PR NEWSWIRE - Ingersoll-Rand Company (NYSE: IR), today announced that it has agreed in principle to acquire assets relating to the paving and road-widening machinery businesses of Barber-Greene Company, a subsidiary of Astec Industries, Inc.

The proposed purchase is subject to negotiation of a definitive agreement and to required government approvals. The companies expect to complete the transaction by year-end. The purchase will include Barber- Greene's manufacturing facilities at DeKalb, Ill., but will not include assets related to pavement milling machines, material transfer equipment, asphalt mixing plants and aggregate crushing equipment.

The acquisition will significantly expand Ingersoll-Rand's current asphalt paving equipment product line, which is manufactured by the company's road machinery division.

"This acquisition strengthens Ingersoll-Rand's ability to serve road-construction contractors with quality equipment and solidifies the

company's position in the important road building and rebuilding market," said William G. Mulligan, executive vice president.

Ingersoll-Rand Company is a leading worldwide manufacturer of industrial machinery, construction equipment, mining machinery, pumps, tools, bearings, door hardware and security systems. Through joint ventures and its own operations, Ingersoll-Rand is a leading supplier of hydrocarbon production and processing equipment and services.

Astec Industries, Inc., based in Chattanooga, Tenn., is a manufacturer of asphalt mixing plants, paving equipment, heat transfer equipment, aggregate crushing equipment and excavating and trenching equipment.

DOWNERS GROVE, IL (SEPT. 10) PR NEWSWIRE - James C. Smith, president and chief executive officer of HealthCare COMPARE Corp. (NASDAQ: HCCC),

announced today that the company and its wholly owned subsidiary, AFFORDABLE Health Care Concepts, have entered into agreements to provide utilization review and PPO services with, among others: McDonald's Corp.; Pioneer Financial Services; Safeco Insurance; The Wisconsin UFCW: Universal Health Services; Casualty Insurance Co., and Walgreen Co.

In addition, Smith stated that the company has recently entered into an agreement with Rollins Burdick Hunter of Illinois Inc. (RBHI) to provide workers' compensation managed care services to clients of RBHI in Illinois. RBHI is a subsidiary of Rollins Burdick Hunter (RBH), which is one of the nation's largest insurance brokers.

Rollins Burdick Hunter is a subsidiary of Aon Corp. (NYSE: AOC). Aon Corp. is a leading diversified insurance holding company offering through its subsidiaries a specialized group of products and services to both the commercial and individual insurance markets. Aon Corp. is listed on the New York, London and Midwest stock exchanges and has assets in excess of $9 billion.

Smith noted that he was very excited about the opportunity to work with RBHI, since this agreement will further accelerate the distribution of COMPARE's services and presence within the workers' compensation managed care area and allows COMPARE to work with RBHI, which is a leader in the insurance brokerage industry.

Smith also stated that based upon the new agreements that have recently been signed, and commitments the company has received, he is quite encouraged about the prospects for 1991.

HealthCare COMPARE Corp. is one of the nation's leading independent managed care/cost management companies. The company provides data analysis, extensive utilization management and provider negotiation services (PPO development and management). Its services are provided to indemnity health care payors as well as alternative delivery systems. The company manages costs and utilization without compromising the quality of care available to health care plan participants.

#90253p3131 09/10/1990 ~PR Newswire

ST LOUIS (SEPT. 10) PR NEWSWIRE - McDonnell Douglas Training Systems (MDTS) is reorganizing its management structure and consolidating its business operations into two geographic centers to better focus resources and talents within the organization.

This reorganization will create two operating divisions within MDTS: a Training Systems and Services Division in Aurora, Colo., and a Simulation Division in St. Louis.

The MDTS Training Systems and Services Division will center its efforts on producing high-quality computer-based training systems for aircraft pilots and mechanics. These systems include training management, curriculum development, classroom operation, and product and operations support. The division will continue to research and develop training technologies.

The MDTS Simulation Division will market and build training simulators and conduct research and development in flight simulation and related technologies.

"Consolidating our work into two facilities and restructuring our management system will position MDTS to compete, win and manage our business more effectively," said Dennis Behm, vice president and general manager of MDTS. "It clearly focuses all our resources and talents to the benefit of our customers and our operation."

Under the new management structure, program managers for each MDTS total training program will report to Behm. Directors for each of the two operating divisions will oversee operations at the respective geographic locations and also report to Behm.

The consolidation of MDTS will result in a shutdown of operations at the company's Bedford, Texas, facility, which employs 85 people. Transition of Bedford programs and personnel to Aurora and St. Louis will begin in January 1991 and be completed by mid-year.

The St. Louis-based Simulation Division currently supplies simulators for major aircraft programs inside and outside of McDonnell Douglas (NYSE: MD) including the U.S. Marine Corps' AV-8B Harrier II and the U.S. Navy's A-12 Avenger II, F-14 Tomcat and A-6 Intruder programs.

MDTS was formed in January 1990 with the merger of three independent McDonnell Douglas training units at facilities in Aurora, Bedford and St. Louis. MDTS employs more than 1,400 people and is part of the McDonnell Aircraft division of McDonnell Douglas.

NEW YORK (SEPT. 10) PR NEWSWIRE - Effective on Dec. 2, 1990, American Airlines will begin daily flights to Nassau from New York and Raleigh/Durham. The announcement was made today by the Director General

of Tourism, Baltron B. Bethel, in a television interview at the headquarters of the American Society of Travel Agents in Alexandria, Va.

From New York and Raleigh/Durham, two of America's largest hubs, it will be possible to make convenient connections to scores of other American cities in northern, mid-Atlantic, mid-western and southern U.S. gateways.

Bethel pointed out that the Honorable Sir Clement Maynard, Deputy Prime Minister of Tourism, was particularly appreciative of the support of the Prime Minister, the Minister of Finance, the Minister of Transport and the local government in attracting American Airlines to the Bahamas. He was confident that this important development will provide a major boost to Bahamas tourism.

American Eagle, a subsidiary of American Airlines, started service from Miami to Freeport, Marsh Harbour and Treasure Cay last January. American Eagle has plans to expand service to Eleuthera in the near future.

American Airlines will be supported by an aggressive marketing strategy involving the Ministry of Tourism, the airline, tour operators and the hotel industry.

LA JOLLA, CA (SEPT. 10) PR NEWSWIRE - Intermark, Inc. (AMEX: IMI) today announced that Frederick B. Chaney and Paul N. Schwartz, former Directors of Triton Group Ltd., have been elected to the Intermark Board of Directors. The elections follow the merger of Triton into a wholly owned subsidiary of Intermark which was consummated on August 30, 1990.

Dr. Chaney, 53, has been the President and Chief Executive Officer of Vedax Sciences Corporation since 1981. Vedax Sciences designs and implements learning technology systems for corporate executives. He is also a Director of Hobie Sports, Inc. Dr. Chaney was a Director of Triton from December 1988 until the merger with Intermark.

Mr. Schwartz, 44, has been Senior Vice President-Corporate Development of MAXXAM Inc., formerly MCO Holdings, Inc., since 1987, and served as Vice President of MCO Holdings, Inc. from 1982 to 1987. He is also a Director of United Financial Group, Inc. Mr. Schwartz served as a member of the Board of Directors of Triton from June 1987 until the merger.

The Company also announced that Mark G. Foletta, 30, was promoted to Corporate Controller. Mr. Foletta joined Intermark in 1986 after serving with Ernst & Young as Audit Manager, and was named Assistant Corporate Controller in 1987.

Intermark is a $2 billion operating/holding company whose business is to acquire a controlling interest in, operate through and add value to well-established, successful, mid-sized American growth companies in broadly diverse industries.

SAN FRANCISCO (SEPT. 10) PR NEWSWIRE - The U.S. Environmental Protection Agency (EPA) today announced the settlement of a complaint which had been issued against Crowley Maritime Corp., for violations of the Toxic Substances Control Act at their facility located at 321 Embarcadero, Oakland, Calif.

The facility had been cited for failure to: conduct required PCB (polychlorinated biphenyls) inspections, maintain proper PCB records, and register PCB transformers with the fire department; as well as failure to mark a PCB transformer and the access to it with a caution label.

As a result of the consent agreement and final order, Crowley Maritime will pay a penalty of $20,000 and come into compliance with all applicable PCB regulations.

TSCA authorizes EPA to regulate the manufacture, processing, distribution, use, disposal and marking of PCBs. PCBs belong to a broad family of organic chemicals known as chlorinated hydrocarbons. PCBs are toxic, extremely stable, and have been widely used in hydraulic systems, heat transfer systems, and as insulating fluid in electrical equipment.

EPA banned the manufacture of PCBs in 1979 because of their toxicity and persistence in the environment. They are classified as a probable human carcinogen.

#90253p3149 09/10/1990 ~PR Newswire
DALLAS (SEPT. 10) PR NEWSWIRE - Digital Communications Associates Inc. (NYSE: DCA), and Microsoft Corp. (NASDAQ: MSFT) today announced the availability of the DCA/Microsoft Select Communications Server Version 1.0 (Select CS), a communications software product that enables personal computers (PCs) on local area networks (LANs) to access and share information with mainframe and peer computers.

Developed jointly by DCA and Microsoft with Data Connection Limited (DCL) of Enfield, England, Select CS is a key component of the networking strategy announced recently by Microsoft that also includes the LAN Manager network operating system and SQL Server database server.

"Select CS will help make enterprise-wide connectivity a reality in the 1990s," said C. "Garry" Betty, president and chief executive officer of DCA. "It will give end users increased flexibility to access mainframe resources through a variety of new data communications methods while at

the same time preserving the organization's investment in older equipment. Select will also allow customers to make client/server distributed applications an integral part of their networks."

"In order to broadly deploy distributed computing systems, corporate MIS departments require a connectivity environment that meets exacting reliability and manageability standards," said Bill Gates, chairman and chief executive officer of Microsoft. "Microsoft is proud to be associated with our partners in delivering Comm Server, which is a significant component of the Microsoft networking platform."

Betty and Gates will host over 200 computer network resellers at a special event during the Networld computer trade show here to formally kick-off Microsoft's Network Specialist Program. The program is expected to authorize up to 600 resellers in the United States and about 400 resellers internationally over the next 12 months to sell and support Select CS, LAN Manager and SQL Server.

Under the multi-million dollar program, Microsoft plans to increase significantly its domestic and international network sales, support, developer and training personnel. In addition, Microsoft will launch a wide ranging network end user marketing program including an advertising campaign, seminar series, trade show participation and direct marketing activities.

Microsoft LAN Manager authorized resellers will be conditionally authorized to sell Select CS. To receive full authorization, the resellers must attend a Select CS installation, configuration and emulation class within a six-month period.

Upon completing the class, the resellers will receive a copy of the eight concurrent user version of Select CS and access to the Select Reseller Priority Support Program which provides, among other things, maintenance release notification and priority telephone support.

Resellers See Select CS As Emerging Standard "All of our clients who are moving to the newer technologies are asking for tighter linkages to mainframes and minicomputers," said Michael Clifford, vice president of Computer Essentials in Atlanta, one of the first firms to join the Network Specialist Program as a reseller of Select CS. "We are very pleased with the degree of integration that Select CS shares with LAN Manager and SQL Server. We are confident that these products will provide the power needed in the highly sophisticated networks we are building for our clients."

MOSCOW (SEPT. 10) TASS - PROMINENT ISRAELI POLITICIAN ARIEL SHARON IS IN MOSCOW, TASS HAS DISCOVERED.

AMBASSADOR OF THE STATE OF PALESTINE IN MOSCOW, NABIL AMR, SENT A LETTER TO TASS IN CONNECTION WITH THE VISIT, DESCRIBING SHARON AS "THE KEY FIGURE RESPONSIBLE FOR THE MASSACRE IN THE PALESTINIAN REFUGEE CAMPS OF SABRA AND SHATILA" IN 1982.

THE LETTER SAYS: "IT IS ESPECIALLY PUZZLING THAT ARIEL SHARON, RESPONSIBLE FOR THE DESTRUCTION OF THOUSANDS OF PALESTINIAN AND LEBANESE HOUSES, HAS ARRIVED IN MOSCOW AT THE INVITATION OF THE MOSCOW CITY COUNCIL TO COORDINATE ACTIONS IN RESOLVING THE HOUSING PROBLEM".

IN AMR'S OPINION, "THE VISIT AT THIS MOMENT WILL BE ASSESSED AS PROVOCATIVE THROUGHOUT THE WORLD".

TASS ASKED THE SOVIET FOREIGN MINISTRY INFORMATION DIRECTORATE TO EXPLAIN. THE DIRECTORATE CONFIRMED THAT, INDEED, SHARON "ARRIVED IN MOSCOW LAST THURSDAY AND PLANS TO STAY IN THE USSR UNTIL NEXT FRIDAY".

A FOREIGN MINISTRY SPOKESMAN STRESSED AT THE SAME TIME THAT SHARON ARRIVED IN THE USSR "ON A PRIVATE INVITATION". SHARON WAS INVITED TO MOSCOW BY THE MODUL BUILDING COOPERATIVE. THE INVITATION WAS "SUPPORTED" BY THE MOSCOW CITY COUNCIL.

ACCORDING TO UNCONFIRMED REPORTS, THE MODUL COOPERATIVE PLANS TO PARTICIPATE IN THE CONSTRUCTION OF HOUSING IN ISRAEL IN EXCHANGE FOR FRUIT AND VEGETABLE SUPPLIES TO MOSCOW.

BRUSSELS (SEPT. 10) TASS - A MEETING OF NATO FOREIGN MINISTERS OPENED HERE TODAY. U.S. SECRETARY OF STATE JAMES BAKER HAS ARRIVED IN THE BELGIAN CAPITAL FROM HELSINKI TO ATTEND THE MEETING. HE WILL INFORM AMERICA'S NATO ALLIES ON THE RESULTS OF THE SOVIET-U.S. SUMMIT TALKS.

BAKER TOLD JOURNALISTS UPON HIS ARRIVAL IN BRUSSELS THAT THE HELSINKI SUMMIT WAS SUCCESSFUL AND THAT HE WOULD CONFIRM THIS TODAY. HE SAID THAT, IN HIS OPINION, THE NATO NATIONS WOULD REACT POSITIVELY TO THE RESULTS OF THE NEGOTIATIONS.

THE SESSION WILL ALSO DISCUSS THE GULF SITUATION AND PROSPECTS FOR SETTLING THE CONFLICT PROVOKED BY IRAQ'S INVASION OF ITS TINY NEIGHBOUR.

MOSCOW (SEPT. 10) TASS - "MY COUNTRY AND THE SOVIET UNION HAVE BEGUN SERIOUS CONTACTS AIMED AT ESTABLISHING DIPLOMATIC RELATIONS," SAUDI ARABIA FOREIGN MINISTER PRINCE SAUD AL-FAISAL AL-SAUD SAID IN JEDDA ON SUNDAY, ACCORDING TO THE FRANCE PRESSE AGENCY.

A SPOKESMAN FOR THE USSR FOREIGN MINISTRY'S MIDDLE EAST AND NORTH AFRICAN DEPARTMENT COMMENTED ON THE NEWS AT THE REQUEST OF THE OFFICIAL SOVIET NEWS AGENCY TASS.

AN ACTIVE EXCHANGE OF VIEWS WITH THE SAUDI LEADERSHIP IS UNDERWAY THROUGH A VARIETY OF CHANNELS, THE FOREIGN MINISTRY SPOKESMAN SAID. THIS EXCHANGE COVERS A NUMBER OF MAJOR ISSUES, INCLUDING A MIDDLE EAST SETTLEMENT, THE AFGHAN PROBLEM AND WORLD OIL PRICES. PERSONAL CONTACTS HAVE BEEN ESTABLISHED AT AN ADVANCED POLITICAL LEVEL. THE LEADERS OF THE TWO

COUNTRIES HAVE EXCHANGED MESSAGES.

THE GULF CRISIS STIMULATED THE EXCHANGE OF VIEWS WITH THE SAUDI SIDE BECAUSE IT AFFECTED THE INTERESTS OF BOTH THE SOVIET UNION AND SAUDI ARABIA, THE SPOKESMAN SAID.

A SPECIAL ENVOY FROM THE SAUDI LEADERSHIP, BANDER IBN SULTAN, VISITED MOSCOW ON AUGUST 22-23 TO MEET SOVIET FOREIGN MINISTER EDUARD SHEVARDNADZE AND OTHER FOREIGN MINISTRY OFFICIALS FOR TALKS.

ALTHOUGH THERE WAS NO DISCUSSION OF THE POSSIBLE RESUMPTION OF FULL-SCALE DIPLOMATIC RELATIONS AT AMBASSADORIAL LEVEL THE SIDES STATED THAT THERE WAS AN URGET NEED TO SOLVE THE PROBLEM. IN THIS CONTEXT THE SAUDI FOREIGN MINISTER'S STATEMENT REFLECTS THE ACTUAL STATE OF AFFAIRS AND SOVIET INTENTIONS, THE SPOKESMAN NOTED.

#90253t1332 09/10/1990 ~ts
BY: TASS POLITICAL ANALYST YURI KORNILOV

MOSCOW (SEPT. 10) TASS - "A NEW ERA HAS BEEN OPENED IN COOPERATION BETWEEN THE TWO SUPER-POWERS", "MOSCOW-WASHINGTON COOPERATION HAS BEEN PLACED ON A DURABLE FOUNDATION", "IDEAL UNANIMITY IN THE ASSESSMENT OF THE SITUATION" - THIS IS HOW THE WASHINGTON POST, THE JAPANESE NIHON KEIZAI NEWSPAPER, AND THE FRENCH TF-1 TELEVISION NETWORK ASSESS THE RESULTS OF THE HELSINKI SUMMIT.

ONE CAN HARDLY DISAGREE WITH THESE EVALUATIONS. THE FIRST AND CHIEF RESULT OF THE MEETING IS THAT THE TWO GREAT POWERS HAVE COME OUT IN A UNITED FRONT AGAINST AGGRESSION FOR THE FIRST TIME IN THE POST-WAR PERIOD, THEREBY PROVING THAT REALLY RADICAL CHANGES HAVE OCCURRED IN SOVIET-AMERICAN RELATIONS AND THAT WORLD POLICY IS RAPIDLY SHEDDING ITS ERSTWHILE "IDEOLOGICAL" GARB.

BUT THIS IS NOT THE ONLY CONCLUSION THAT CAN BE DRAWN FROM THE RESULTS OF THE HELSINKI DIALOGUE. EQUALLY IMPORTANT IS THE FACT THAT IN CONDEMNING AGGRESSION BOTH MOSCOW AND WASHINGTON UNDERSCORE THEIR ADHERENCE TO U.N. SECURITY COUNCIL RESOLUTIONS AND CALL FOR THEIR FIRM IMPLEMENTATION.

TODAY'S COMMENTS SHOW THAT THIS CALL WAS HEARD AND SUPPORTED IN MOST COUNTRIES. "WHEN HUSSEIN LAUNCHED HIS AGGRESSION AGAINST KUWAIT, HE HOPED THAT THE TRADITIONALLY CONTRADICTORY AMERICAN AND SOVIET INTERESTS IN THE MIDDLE EAST WOULD FACILITATE THE REALISATION OF HIS PLANS," THE AMERICAN ABC TELEVISION NETWORK BELIEVES. NOW IT IS OBVIOUS THAT BAGHDAD'S CALCULATIONS HAVE FALLEN THROUGH.

ON THE EVE OF THE HELSINKI SUMMIT BAGHDAD TRIED TO WHITEWASH ITS

AGGRESSION BY HARPING ON THE THESIS THAT IT IS NOT AGAINST A SETTLEMENT OF THE GULF CRISIS, BUT IN ONE PACKAGE WITH OTHER MIDDLE EAST PROBLEMS. SOME FOREIGN, INCLUDING ARAB NEWSPAPERS "DECIPHERED" THIS THESIS AS MEANING THAT THE USSR IS "TURNING A BLIND EYE" TO THE PALESTINE ISSUE BY OPPOSING KUWAIT'S ANNEXATION.

THEY IGNORED MOSCOW'S TRUE POSITION RECORDED, SPECIFICALLY, IN THE RECENT JOINT SOVIET-FRENCH STATEMENT NOTING THAT THIS CRISIS "REVEALS ONCE MORE THE VITAL NEED TO STEP UP EFFORTS AIMED AT QUICKLY SETTLING OTHER CONFLICTS IN THE MIDDLE EAST, PARTICULARLY THE PALESTINE ISSUE."

NOW THE SAME IDEA IS STRESSED IN THE JOINT SOVIET-AMERICAN STATEMENT. AND IF PRACTICAL EFFORTS TO SETTLE THE PALESTINE ISSUE HAVE SLACKENED, IS THIS NOT BECAUSE THE IRAQI AGGRESSION HAS SHIFTED ACCENTS IN THE WORK OF THE U.N. SECURITY COUNCIL AND HAS DIVERTED PUBLIC OPINION FROM THIS PROBLEM?

AND LAST BUT NOT LEAST. THE HELSINKI SUMMIT HAS ANSWERED THE QUESTION THAT ALARMED NOT ONLY THE ARABS BUT ALL THE WORLD - DO CERTAIN WASHINGTON CIRCLES INTEND TO EXPLOIT THE PRESENT SITUATION FOR PERPETUATING THEIR MILITARY PRESENCE IN THE GULF AREA? PRESIDENT BUSH HAS REPLIED UNEQUIVOCALLY AND WITH A SENSE OF FULL RESPONSIBIITY THAT THE ADMINISTRATION HAS NO SUCH PLANS. THIS STATEMENT WAS RECEIVED WITH SATISFACTION NOT ONLY IN ARAB STATES.

THE HELSINKI SUMMIT HAS STRENGTHENED THE HOPES THAT THE GULF CRISIS WOULD BE SETTLED BY POLITICAL AND NOT MILITARY MEANS. HOWEVER, IF CURRENT EFFORTS DO NOT STOP THE AGGRESSION, THE SOVIET UNION AND THE UNITED STATES AS NOTED IN THE SOVIET-AMERICAN STATEMENT, ARE PREPARED TO CONSIDER THE POSSIBILITY OF ADDITIONAL STEPS IN KEEPING WITH THE U.N. CHARTER.

IT REMAINS TO BE HOPED THAT IN ANALYSING THE RESULTS OF THE HELSINKI SUMMIT THE IRAQI LEADERSHIP WILL NOT OVERLOOK THIS DECLARATION. AFTER ALL, IT IS A VERY SERIOUS MATTER IF THE SOVIET UNION AND THE UNITED STATES, AS WELL AS THE OVERWHELMING MAJORITY OF OTHER MEMBERS OF THE INTERNATIONAL COMMUNITY, OPPOSE AGGRESSION SO RESOLUTELY.

#90253t1340 09/10/1990 ~ts

MOSCOW SEPTEMBER 10 TASS - PRESIDENT MIKHAIL GORBACHEV HAS DEMANDED TO "OVERCOME LEGAL NIHILISM IN SOCIETY, WHICH IS FRAUGHT WITH DECOMPOSITION OF THE SYSTEM OF LEGISLATIVE, EXECUTIVE AND JURIDICAL POWER".

HE HAS SENT A TELEGRAM ON STRENGTHENING OF LAW AND ORDER TO PRESIDENTS OF UNION REPUBLICS AND OF UNION AND AUTONOMOUS REPUBLICAN SUPREME SOVIETS, CHAIRMEN OF REGIONAL, TERRITORIAL AND DISTRICT COUNCILS.

PERESTROIKA IS MOVING AHEAD "WITH DIFFICULTIES AND CONTROVERSY, AND IS

FRAUGHT WITH REAL DANGERS. IT IS OPPOSED BY DEFINITE FORCES", THE TELEGRAM READS. THE CHARACTER OF SOCIAL AND ECONOMIC CHANGES AND DIFFICULTIES CONNECTED WITH THEM DEMAND THAT AUTHORITIES AT ALL LEVELS ACT FIRMLY, FULLY USING ALL THEIR POWER AND THE POWER OF LAW.

WEAK POINTS, SERIOUS DRAWBACKS AND BLUNDERS APPEARED IN THE ACTIVITIES OF CENTRAL, REPUBLICAN AND LOCAL BODIES. ALL THIS UNSETTLES THE COUNTRY, CAUSES ALARM AND ANXIETY OF PEOPLE, CREATES THE ATMOSPHERE OF MISMANAGEMENT, AROUSES DISCORD IN ACTIVITIES, IRRESPONSIBILITY AND INTOLERABLE ATTITUDE TO LAWS AND STATE DISCIPLINE, THE TELEGRAM READS.

THE CURRENT STATE OF AFFAIRS CANNOT BE TOLERATED, THE PRESIDENT SAID. IN ANY CASE, UNCONDITIONAL IMPLEMENTATION OF CONSTITUTIONAL NORMS AND OBSERVANCE OF THE CURRENT LEGISLATION IS NEEDED. LAWLESSNESS IS ESPECIALLY DESTRUCTIVE IN THE ECONOMIC SPHERE, AS IT UNDERMINES THE VERY FOUNDATIONS OF THE COUNTRY'S LIFE AND EACH MAN'S WELL-BEING, THE MESSAGE READS.

NOTING THAT VIOLATIONS OF LAW IN MANY CASES REMAIN UNPUNISHED (THIS CONCERNS MANAGERS, COLLECTIVES AND CENTRAL MANAGING BODIES), THE PRESIDENT NOTES THAT EMPLOYEES IN THE ECONOMIC SPHERE AT ALL LEVELS, ARE FULLY RESPONSIBLE FOR THE IMPLEMENTATION OF THEIR DUTIES.

CRIME IS A SERIOUS DANGER FOR SOCIETY, THE TELEGRAM READS. ITS GROWTH NEGATIVELY AFFECTS THE MORAL AND POLITICAL CLIMATE IN THE COUNTRY, UNDERMINES FAITH IN THE STATE'S ABILITY TO ENSURE PEOPLE'S LEGAL RIGHTS AND SECURITY.

"WE SHALL NOT REACH THE SET GOALS, IF WE DO NOT ENSURE THE TRIUMPH OF LAW. THE SOVIET UNION'S NATIONAL, STATE AND LEGAL RESTRUCTURING, THE TRANSITION TO MARKET RELATIONS AND MORAL RENOVATION OF SOCIETY WILL REMAIN ONLY GOOD INTENTIONS, IF MANAGING BODIES AT ALL LEVELS AND THE PUBLIC DO NOT TAKE UP A HARD AND URGENT TASK OF STRENGTHENING LAW, ORDER AND DISCIPLINE," THE PRESIDENT STRESSED.

PRESIDENT GORBACHEV INVITED ADDRESSEES TO REPORT OF MEASURES TAKEN AND THEIR RESULTS BY OCTOBER 15 AND BY JANUARY 1, 1991.

#90253t1344 09/10/1990 ~ts

MOSCOW (SEPT. 10) TASS - THE SOVIET UNION AND CHINA TODAY OPENED THEIR TALKS IN MOSCOW ON MUTUAL CUTS IN ARMED FORCES AND CONFIDENCE-BUILDING MEASURES IN THE MILITARY FIELD ON THE SOVIET-CHINESE BORDER.

THE FIRST MEETING WAS OPENED BY THE COUNTRIES' DEPUTY FOREIGN MINISTERS IGOR ROGACHEV AND TIAN ZENGPEI.

ROGACHEV DESCRIBED THESE TALKS AS "ONE OF THE MAIN ELEMENTS IN THE PROCESS

OF STRENGTHENING SOVIET-CHINESE RELATIONS". TIAN ZENGPEI POINTED TO THE IMPORTANCE OF THE TALKS AND EXPRESSED CONFIDENCE THAT THEY WOULD PRODUCE CONCRETE RESULTS.

THE SOVIET DELEGATION TO THE TALKS IS LED BY GENRIKH KIREYEV, HEAD OF THE FOREIGN MINISTRY'S ASIAN SOCIALIST COUNTRIES DEPARTMENT. THE CHINESE DELEGATION IS LED BY LIU GUANZHI, DEPUTY HEAD OF THE FOREIGN MINISTRY'S DEPARTMENT FOR THE SOVIET UNION AND EASTERN EUROPE.

MOSCOW (SEPT. 10) TASS - U.S. SECRETARY OF STATE JAMES BAKER ARRIVED IN MOSCOW TODAY TO PARTICIPATE IN THE "TWO PLUS FOUR" TALKS OF THE FOREIGN MINISTERS OF THE SOVIET UNION, THE UNITED STATES, BRITAIN, FRANCE, AND EAST AND WEST GERMANY. THE TALKS WILL BE HELD ON SEPTEMBER 12.

BAKER WILL ALSO HOLD TALKS WITH SOVIET OFFICIALS. A SOVIET FOREIGN MINISTRY OFFICIAL TOLD TASS THAT THE SOVIET-U.S. TALKS WILL FOCUS ON THE "FURTHER DEVELOPMENT AND INVIGORATION OF SOVIET-U.S. TRADE AND ECONOMIC TIES".

BAKER IS CO-CHAIRMAN OF A PRESIDENTIAL TRADE-AND-ECONOMIC MISSION, NOW STAYING IN THE SOVIET UNION. THE OTHER CO-CHAIRMAN IS COMMERCE SECRETARY ROBERT MOSBACHER. AT MOSCOW'S AIRPORT, BAKER WAS WELCOMED BY SOVIET DEPUTY FOREIGN MINISTER ALEXEI OBUKHOV.

TALLINN (SEPT. 10) TASS - A SESSION OF THE ESTONIAN SUPREME SOVIET OPENED HERE TODAY. ESTONIAN PRESIDENT ARNOLD RUUTEL AND PRIME MINISTER EDGAR SAVISAAR REPORTED TO THE PARLIAMENT ON RECENT DEVELOPMENTS IN THE REPUBLIC, POINTED TO THE INSTABILITY IN THE POLITICAL AND ECONOMIC SPHERES AND CALLED THE DEPUTIES TO DISPLAY CALM AND WISDOM IN TACKLING PROBLEMS RELATING TO THE RESTORATION OF THE REPUBLIC'S POLITICAL AND ECONOMIC SOVEREIGNTY.

THEN THE DEPUTIES BEGAN DISCUSSING A PROPOSED AGENDA, INCLUDING ITEMS ON TALKS WITH THE SOVIET UNION AND THE RUSSIAN FEDERATION, ON THE ABOLITION OF STATE SUBSIDIES TO PARTIALLY REBATE MEAT, DAIRY AND FISH PRODUCT PRICES AND ON THE INTRODUCTION OF COMPENSATION PAYMENTS TO THE POPULATION.

ESTONIAN DELEGATION LEADER YULO NUGIS TOLD DEPUTIES ABOUT TALKS IN MOSCOW WHICH HAVE BEEN SUSPENDED LATELY, BECAUSE FROM THE POINT OF VIEW OF THE SOVIET CONSTITUTION ESTONIA IS AN INTEGRAL PART OF THE SOVIET UNION AND CANNOT ACT AS A SUBJECT OF TALKS.

NUGIS SAID THAT TALKS PROCEEDED NORMALLY AT THE OUTSET BUT THEN MOSCOW

SOUGHT TO REVISE THEIR STATUS AS CONSULTATIONS AND EVENTUALLY IT WAS ANNOUNCED THAT THE MOSCOW DELEGATION HAD NO RESPECTIVE AUTHORITY TO CONDUCT TALKS.

THE LOCAL PRESS HAS REPEATEDLY SAID THAT THE DEVELOPMENT OF TALKS WERE DISRUPTED FOLLOWING A SALLY KAITSELIJT ORGANISATION MEMBERS WHO ATTEMPTED ON SEPTEMBER 2 TO RESTORE THE PRE-WAR ESTONIAN BORDER ON THE TERRITORIES OF THE LENINGRAD AND PSKOV REGIONS UNDER THE GUISE OF COMMAND STAFF EXERCISES.

DEPUTY MALKOVSKY'S PROPOSAL TO WORK OUT A PARLIAMENTARY POLICY STATEMENT AND MEASURES TO FORESTALL ACTS OF THIS KIND WAS TURNED DOWN AS INCOMPATIBLE WITH THE AGENDA. THE SESSION WILL CONTINUE ITS WORK ON TUESDAY.

#90253t1354 09/10/1990 ~ts

VILNIUS (SEPT. 10) TASS - THE WORLD CONGRESS OF LITHUANIAN BUSINESSMEN OPENED HERE TODAY. IT IS ATTENDED BY ETHNIC LITHUANIANS LIVING IN THE UNITED STATES, CANADA, BRITAIN, AND WEST GERMANY.

SPEAKING AT THE OPENING OF THE CONGRESS, LITHUANIAN PRIME MINISTER KAZIMIERA PRUNSKIENE NOTED THAT THE FUTURE OF THE ECONOMIC REFORM IN LITHUANIA DEPENDS, TO A GREAT EXTENT, ON POLITICAL DECISIONS, PARTICULARLY ON THE RESULTS OF TALKS BETWEEN LITHUANIA AND THE SOVIET UNION.

AFTER THE MORATORIUM HAD BEEN DECLARED, THE ECONOMIC BLOCKADE WAS SUSPENDED FOR THE THIRD QUARTER OF 1990, SHE SAID. THE PRIME MINISTER SAID SHE IS WORRIED WITH THE FACT THAT HEADS OF MANY BRANCHES OF INDUSTRY, INCLUDING METALLURGY AND TRANSPORT, FAILED TO GET A PERMISSION TO MAINTAIN ECONOMIC TIES WITH LITHUANIA IN THE LAST QUARTER OF 1990.

SHE SAID THERE IS NO INFORMATION ALSO ABOUT SALES OF OIL AND GAS TO THE REPUBLIC. AS LITHUANIA IS NOT AWARE OF THE SOVIET UNION'S INTENTIONS, IT IS TAKING MEASURES TO STORE OIL AND FOOD PRODUCTS, PRUNSKIENE SAID.

#90253u0087 09/10/1990 ~United Press International

(SEPT. 10) UPI - President Bush and Soviet President Gorbachev Sunday showed a united front against Iraq's occupation of Kuwait. They agreed that NOTHING short of a return of Kuwait's sovereignty will end the international embargo against Iraq. Bush told reporters he is more likely to seek economic aid for Moscow following its support. But Gorbachev emphasized that the Soviet Union is NOT co-operating with the United States in return for money.

A planeload of 300 Americans freed from Iraqi control burst into song with a rendition of ''God Bless America'' Sunday upon touching down in Charleston, South Carolina. Most of those returning were women or children... but one man said he escaped Kuwait by posing as a mute Arab... stealing a car and using it for a bribe... and walking through the desert to Jordan.

Across the Atlantic... what is expected to be the last major airlift of Britons landed in London Sunday. Nearly 400 former British, American and Irish women and children were flown out of Iraq. Most said they were well treated by their Iraqi guards... although some complained of bad food. Some reported intensifying armed resistance by Kuwaitis against their Iraqi occupiers.

Western diplomatic sources say Liberian President Samuel Doe was shot in the legs and captured by rebel forces Sunday. A report by the British Broadcasting Company says fighting broke out when Doe made an Unscheduled trip to the headquarters of the West African peace-keeping force in the captiol, Monrovia. 64 people were believed killed... mostly members of the presidential guard.

-30- 1755

#90253u0130 09/10/1990 ~United Press International

(SEPT. 10) UPI - A planeload of Americans arrived in their homeland Sunday just out of Iraqi hands... and some encouraged war on Baghdad. Some 300 freed hostages sang ''God Bless America'' after their plane landed in Charleston, South Carolina. One woman said most of the hostages in Kuwait wished the United States would- in her words- ''hurry up and attack.'' Another woman said she would tell President Bush ''where to point the missles.''

President Bush returned to the White House Sunday happy with his meeting

with Soviet President Gorbachev to show a united front against Iraq. Aboard Air Force One en route from Helsinki, Finland, Bush assessed the summit as going ''very well.'' The chief executive said the summit sends a strong message to Iraqi President Saddam Hussein ''that he's NOT going to divide and conquer.''

Thousands of reservists have gotten the call-up to serve in the U-S troop deployment in the Middle East... but Hollywood has barely gotten noticed. The U-S-O has sent hundreds of entertainers to past military operations. Bob Hope performed for soldiers in the Persian Gulf just two years ago. But Hope hasN'T got a call for the latest crisis. Comedian Jay Leno is the only show business personality scheduled for the Middle East so far.

A news report from Gainesville, Florida, says investigators have found a knife at the home of a suspect in the stabbing deaths of five college students. Sunday's story cites UNidentified sources familiar with the probe saying jailed suspect Edward Humphrey told detectives the knife was in a milk carton in his grandmother's home.

-30- 1774

#90253u0134 09/10/1990 ~United Press International

(SEPT. 10) UPI - Western diplomatic sources confirm that rebels have captured the president of Liberia. The British Broadcasting Corporation reports Liberian President Samuel Doe was shot in the legs and taken away Sunday in a fight that left 64 dead in the capital... Monrovia. Rebel leader Prince Johnson told the B-B-C he will take over the country... but U-S television reports say opposing rebel leader Charles Taylor declared himself in charge.

Former Philippine first lady Imelda Marcos and hundreds of supporters in Honolulu Sunday celebrated the birthday of her late husband... former President Ferdinand Marcos. Imelda Marcos again asked that she be allowed to bring her husband's body back to his homeland for permanent burial. Supporters said Marcos may run for Philippine president... but she says that is ''the last thing'' on her mind.

(SEPT. 10) UPI - Authorities say weekend fighting in the South African black township of Soweto killed 16 people. People fired shotguns and teargas to break up the warring black groups. Residents accused police of complicity in the killings and threw stones and gasoline bombs at officers. Police fired to chase away the demonstrators.

Israeli police yesterday arrested six aides to the interior minister and searched their homes. The aides were taken to police headquarters for questioning. The minister is suspected of illegally transferring government money to his family.

Police sources in the Kashmir Valley of India say Moslem rebels killed a 12-year-old girl during the weekend. The girl's body was found shot yesterday. A note from a Moslem group was stuffed in her pocket saying she was a police informant. The Moslems in Kashmir are fighting for independence from India.

Police believe a multiple killer may have murdered up to nine women in Northeast Philadelphia. The latest victim was found Saturday in her apartment. She was stabbed at least 17 times. Eight other women in the area have died in a similar manner in the past five years.

Workers at Cape Canaveral turned their attention to the shuttle Discovery over the weekend. The Ulysses spacecraft that is to make a five-month voyage to the sun was loaded aboard the shuttle. Engineers also worked on the other shuttle, Columbia, whose flight has been delayed by fuel leaks.

#90253u0231 09/10/1990 ~United Press International

DALLAS (SEPT. 10) UPI - A single-engine plane piloted by state Rep. Sam Johnson crashed and burned in the middle of a highway Sunday night, injuring Johnson and three others aboard, authorities said.

The aircraft apparently was trying to make an emergency landing shortly before 9:30 p.m. onto the Dallas Tollway. There were no reports of injuries on the ground.

The Texas Department of Public Safety said the plane apparently clipped and knocked down a chain-link fence running along the west side of the tollway while attempting to land.

Johnson, 59, a Republican from Plano, was in critical condition in Parkland Memorial Hospital with burns to 16 percent of his body, said spokeswoman Carolyn Storm.

James Melton, 55, the co-pilot, was listed in serious condition with burns over 22 percent of his body, while passenger Jack Pittman, 32, was in fair condition with burns to 12 percent of his body, Storm said.

Passenger Norman Dobrich was not admitted to the hospital.

#90253u0237 09/10/1990 ~United Press International

FOLKESTONE, ENGLAND (SEPT. 10) UPI - Dozens of ex-fighter pilots gathered to attend an air show in commemoration one of the greatest air battles in history - the Battle of Britain.

Fifty years ago, the battle was waged in the skies above southern England. It was to change the course of World War II.

The pilots who returned Sunday to County Kent, the garden of England in the southeast corner of the country, recalled that it was the epicenter of that epic conflict. They also remembered the scores of Britons and others who helped to defend the island against Germany's powerful Luftwaffe, or air force.

''This was not just the Battle of Britain, it was the battle for Britain '' Royal Air Force Air Chief Marshal Sir Christopher Foxley- Norris told

the group at a luncheon.

Foxley-Norris expanded on Winston Churchill's Aug. 20, 1940, speech praising the RAF in which the prime minister said: ''Never in the course of human conflict was so much owed by so many to so few.''

''The few,'' Foxley-Norris noted, ''were the sharp end of the pyramid ... at the bottom were the English people.''

Former British fighters pilots were reunited with some 30 American veterans who had volunteered for the RAF to watch their old aircraft, including Hurricanes and Spitfires perform in an air display.

During the battle 50 years ago, the clear blue skies were criss- crossed with vapor trails of the RAF's Spitfires and Hurricanes fighting the might of the Luftwaffe.

The threat of invasion was real. By 1940, Folkestone had become a virtual ghost town. Its population had decreased from 45,000 to 10,000 people with 4 out of 5 shops closed and shuttered.

Barricades and barbed wire lined the seafront. The German invasion plan called ''Operation Sealion'' was imminent.

In the air, the Hawker Hurricane, the most predominant RAF fighter, and the Supermarine Spitfire, were closely matched by the Luftwaffe Messerschmit 109s.

Indeed, the Me 109, also code-named Emil, could climb faster below 20,000 feet and had superior handling at low speeds. However, it did lack the maneuverability of the Spitfire.

The Spitfire was the only Allied aircraft to be in continuous production throughout World War II. This immortal aircraft remained in RAF service until 1959.

The Battle of Britain was not just about the superlative aircraft. Pilots from many nations flew with great distinction. Poles, Czechs and Americans who had volunteered to join the RAF also joined the fight.

The veterans from Eastern Europe are only now being honored in their own countries. They were once branded traitors. During the Battle of Britain, Polish pilots destroyed over 200 enemy aircraft.

Battle of Britain pilots had little idea as to how important their role was to become. Some flew for the sheer enjoyment of flying and camaraderie.

These gladiators of the sky semmed fearless. RAF Flight Lt. Geoffrey Page,

a pilot during the battle, recalled that ''youth always thinks it is immortal.''

September marks a month of Battle of Britain celebrations in Britain, the climax being a massive fly-past over Buckingham Palace set for next Saturday.

#90253u0259 09/10/1990 ~United Press International

MCALESTER, Okla. (SEPT. 10) UPI - Charles Troy Coleman, a convicted double murderer, was put to death early Monday by injection, becoming the first person executed in Oklahoma in 24 years.

Coleman, 43, the son of a sharecropper, was given the injection at 12:25 a.m. and pronounced dead at 12:35 a.m.

''Just tell everyone I love them and I have peace and quiet heart,'' Coleman said in his last statement. He requested that several bible verses be read before the injection began.

At 12:26 a.m. he turned to one of his attorneys, Mandy Welch, and mouthed, ''I love you,'' before closing his eyes and taking two or three deep breaths.

Coleman was the first person in Oklahoma to be executed by lethal injection and the 137th person in the United States to be put to death since the Supreme Court restored the death penalty in 1976. The state's last execution, in 1966, was by electric chair.

The Supreme Court refused twice Sunday to consider appeals filed by Coleman's lawyer. Among the eight justices now on the court, only death penalty opponent Thurgood Marshall dissented both times. Justice Harry Blackmun was listed as not participating in either decision.

Coleman's lawyers filed more than 20 unsuccessful bids in five courts to overturn his sentence. He was moved at 7 a.m. Sunday from his death row cell to an 8- by 15-foot holding cell next to the execution chamber.

The holding cell contains a metal cot with a mattress, sheets, a shower stall and a steel toilet-sink unit.

Coleman was sentenced to death for the February 1979 shotgun killing of a man during a burglary in Muskogee. John Seward and his wife, Roxie, were fatally shot when they surprised Coleman as he burglarized the home of Seward's sister.

He was sentenced to death in October 1979 for the husband's slaying, but

was never prosecuted in the death of the wife.

Coleman was captured several hours after the killings, but escaped from jail while awaiting trial. He later allegedly overpowered a police officer in Luther, Okla., and slashed his throat.

The officer survived, but Coleman later used the sidearm he stole from the officer to kill a man in Sand Springs, near Tulsa, and steal his car. Coleman finally was captured in Arizona and also was convicted of murder in the Sand Springs case.

More than 100 protesters of Oklahoma's death penalty rallied Saturday on the steps of the state Capitol. Oklahoma City's Roman Catholic Archbishop Charles A. Salatka delivered to Gov. Henry Bellmon's office Friday an appeal for clemency on behalf of Pope John Paul II.

#90253u0265 09/10/1990 ~United Press International

TOKYO (SEPT. 10) UPI - Tokyo stock prices leaped nearly 5 percent Monday, but some analysts said it was just another technical rebound for a market that had lost almost 8 percent the week before.

The Nikkei average of 225 selected shares, the market's key indicator, jumped 1,118.83 points, or 4.7 percent, to end at 25,080.90. The Nikkei had ended the previous week with a mild rally of 150.16 points following four straightlosses.

The Tokyo Stock Price Index of all major shares, which slipped 0.10 points Friday, advanced 57.35 points to close at 1,903.28.

Volume was light, with an estimated 330 million shares traded, down from Friday's 443.36 million.

Buyers were encouraged by the yen's increasing strength against the U.S. dollar and by optimism over the result of the Helsinki summit between President Bush and Soviet leader Mikhail Gorbachev, analysts said.

But the lack substantial commitment on the market floor led some to conclude the rally was unsustainable.

''Volume was pathetic,'' said analyst Brian Tobin of S.G. Warburg Securities. ''There is ample evidence that this was simply a technical rebound.''

He pointed to the scarcity of institutional buying Monday.

The market was simply repeating a pattern set in midsummer of rebounding

after massive losses in short-lived rallies led by dealer- buying, individual investment and arbitrage buying, he said.

Buying centered on blue-chip issues, especially those that were hard-hit the week before, suggesting that arbitrage propelled much of market rise, brokers said.

''People are taking very short-term positions in the current market,'' said a Japanese broker who declined to be named.

Shipping lines advanced on word that the Japanese government will offer them tax breaks to compensate for higher insurance and fuel costs resulting from the Gulf crisis.

#90253u0290 09/10/1990 ~United Press International

(SEPT. 10) UPI - Lightning flashed and thunder rumbled Monday from Colorado to Tennessee and flood warnings were posted in Texas, while hot weather covered the West and fog enveloped the Mid-Atlantic states.

Storms moved off the Rocky Mountain foothills over Boulder, Colo., carrying lightning and heavy rain.

Storms also hit Wisconsin, Michigan, Missouri and Tennessee where heavy rain was reported along a line of storms that ran from Milwaukee, Wis., to northwest of Muskegon, Mich.

Thunderstorms, some of them severe, also rolled across much of the South early Monday. A roof blew off a textile building near the northwest Georgia town of Chatsworth. No injuries were reported.

The National Weather Service posted flash flood watches in Texas from Corpus Christi to Waco after a large area of showers that included thunderstorms passed across the region.

The West continued to fry under hot skies. Tucson, Ariz., posted 105 degrees Sunday, breaking the previous record for that date of 104 degrees and even Los Angeles suffered a bit with a 99-degree high.

Skies were sunny in Northern California and temperatures were in the 60s along the coast and in the 80s and 90s inland but rose to 102 at Paso Robles in the coastal mountains of central California. More of the same was expected through midweek.

Dense fog covered western Pennsylvania and southwestern North Carolina, cutting visibility to less than a mile and making driving dangerous. Conditions were made worse by drizzle in some areas.

Mostly cloudy skies were reported throughout much of the Northeast, with some drizzle and light rain falling in upstate New York, Massachusetts and northwestern Virginia. Temperatures remained slightly cooler than normal for this time of year, but were considered seasonable.

#90253u0297 09/10/1990 ~United Press International

TOKYO (SEPT. 10) UPI - British Secretary of State Douglas Hurd Monday joined a growing chorus of Western leaders asking Japan to give more than the $1 billion it has already pledged to support a multinational fight against Iraq's invasion of Kuwait.

Japan, which announced its billion-dollar contribution on Aug. 29 after a drawn-out domestic debate, has come under increasing pressure to increase the figure.

Treasury Secretary Nicholas Brady met with Prime Minister Toshiki Kaifu Friday to push for Japan's contribution to a multi-billion dollar aid package to the front-line states, the Middle East countries most heavily burdened by the U.N. economic sanctions imposed on Iraq following its Aug. 2 invasion of Kuwait during an oil and border dispute.

Brady asked Japan to give an additional $2 billion, according to Japanese news reports. Those reports said Japan could announce its additional aid plan by the end of this week.

Japan's Foreign Minister Taro Nakayama, who was scheduled to leave Monday for a three-day trip to Vancouver, Canada, canceled his trip to help formulate Japan's response to the gulf crisis, a Foreign Ministry official said.

Hurd said Japan's $1 billion contribution to the multinational forces was ''a good start.''

But he added Japan must now come up with a plan to back nations like Egypt Jordan and Turkey that are said to be suffering from a U.N. embargo on trade with Iraq.

Asked if Japan was being pushed into contributing rather than taking a lead in the effort, Hurd said, ''I would say she is taking a willing part.''

Japan pledged to spend $1 billion on non-military suplies and logistics such as food, medicine and civilian transport, in addition to sending 100 medical personnel to the Persian Gulf.

Japan has also said it will give $22 million to aid the evacuees in Jordan.

But Tokyo decided not to send military personnel because its Constitution, written after its defeat in World War II, prohibits the dispatch of forces overseas.

Japan is coming under increasing pressure to make up for its inability to contribute manpower with a larger financial contribution.

U.S. Ambassador to Japan Michael Armacost said Sunday Japan's $1 billion contribution was a ''welcome first step'' but urged the Japanese to do more.

''As the world's second largest economy, you possess an obvious capacity to contribute,'' Armacost said in a speech in Ito, a seaside resort southwest of Tokyo.

Armacost said the size of Japan's contribution ''will indicate what share of the costs and risks you are prepared to shoulder in coping with crises in the post-Cold War world. Americans hope you will be generous and farsighted.''

Also Monday, Bank of Japan Governor Yasushi Mieno said the gulf crisis will not seriously damage Japan's economy.

As long as oil prices stay below $40 a barrel, the Japanese economy is resilient enough to adapt, the chief of Japan's central bank said at a meeting with foreign reporters.

He added higher interest rates imposed by the central bank in the wake of Iraq's invasion of Kuwait could actually benefit the nation's economy, by easing the labor shortage through slower economic growth.

#90253u0302 09/10/1990 ~United Press International

CAIRO, Egypt (SEPT. 10) UPI - A radical Iranian daily urged world Moslems Monday to rise up against the reported dispatch of some 10,000 Egyptian women to entertain U.S. troops in Saudi Arabia. But an Egyptian spokesman described the report as ''nonsense.''

Iran's Islamic Republic News Agency quoted the daily Jomhuri Eslami as saying in an editorial that ''such a disgraceful conspiracy must be foiled from the very beginning because tomorrow is too late.''

The daily, which gave no source or evidence for its allegations, said Moslems who died in the act of preventing ''the materialization of this filthy move'' would be considered martyrs.

The newspaper said it was the duty of world Moslems to ensure Moslem Egyptian women were not ''abused and used for entertainment of the American forces.''

An Egyptian foreign ministry spokesman described the Iranian newspaper report as ''complete and utter nonsense.''

Radical factions in Iran opposed to the country's pragmatist President Hojatoleslam Ali-Akbar Hashemi Rafsanjani have used harsh terms to condemn the presence of U.S.-led forces deployed in the Persian Gulf.

The Iranian government has condemned Iraq's Aug. 2 invasion and continuing occupation of Kuwait, but diplomatic sources said Tehran may allow clandestine trading across the Iraq-Iran border to help Baghdad bust U.N.-imposed sanctions.

NORWALK, CA (SEPT. 10) UPI - A utility truck speeding along a freeway shoulder slammed into a stopped pickup truck, killing four children and injuring 10 other people, authorities said Monday.

The 14 victims were packed into a pickup truck stopped on the shoulder of the southbound Santa Ana Freeway about 10:50 p.m. Sunday, California Highway Patrol Officer Dave Boyland said.

A utility truck driven by a 35-year-old man slammed into the pickup truck, he said. The truck was loaded with carpenter's tools and equipment.

''Witnesses put him on the (freeway) shoulder at 60 to 65 mph prior to impact,'' Boyland said.

The impact scattered debris, nails and construction tools over all four lanes.

Two boys and two girls, ages 2, 6, 8 and 16, died at the scene, Boyland said.

Three other people in the pickup truck were in critical condition and seven others were less injured.

The victims' names were not immediately released.

The utility truck driver was treated for minor injuries and taken to a hospital for a blood-alcohol test. He faced arrest on suspicion of vehicular manslaughter, Boyland said.

The crash closed all southbound freeway lanes for several hours while investigators gathered evidence, he said.

#90253u0398 09/10/1990 ~United Press International

(SEPT. 10) UPI - President Bush says his one-day summit with Soviet President Gorbachev in Helsinki, Finland, was a success. In a show of East-West solidarity, the two leaders declared themselves ''united in the belief that Iraq's aggression must NOT be tolerated.'' The statement threatened pressure if Iraq does NOT respond to diplomatic efforts to resolve the Persian Gulf crisis. .

A chartered Northwest Airlines Boeing 747 landed at Charleston International Airport in South Carolina yesterday carrying 311 Americans who were trapped in Kuwait. The Americans arrived in Amman, Jordan, Friday after passing through Baghdad. Five passengers- two women and three children- got off the plane in Halifax, Nova Scotia, suffering from an UNknown illness.

Budget negotiators continue their talks this morning at Andrews Air Force Base outside Washington. The negotiators are in a race against time to come up with a deficit-reducing agreement that will trim 500-BILLION dollars during the next five years. If there's NO agreement by October 1st automatic across-the board cuts go into effect.

Western diplomatic sources say Liberian President Samuel Doe is in the hands of rebel forces following his capture yesterday. Sources say rebel troops loyal to Prince Johnson shot and then captured Doe at the headquarters of the West African peace-keeping force in the Liberian capital of Monrovia. The U-S State Department is NOT confirming Doe's capture.

#90253u0550 09/10/1990 ~United Press International

BOSTON (SEPT. 10) UPI - Massachusetts has suspended the licenses of 1,020

drivers with drug-related convictions in three months under a new state law, even if those convictions had nothing to do with automobiles, it was reported Monday.

Several other states have similar laws, but Massachusetts is apparently the first to enforce it, the Boston Herald reported.

The measure was approved last fall and went into effect three months ago, resulting in suspensions ranging from one to five years and catching a number of lawyers off guard.

State Registry of Motor Vehicles officials said they have received numerous calls from drivers and lawyers who did not realize the new law allows licenses to be suspended for any drug-related crime, even in the home.

''You don't have to be in your car,'' Registrar Robert Hutchinson said. ''You'll lose your license if you're caught in your home, in the ballpark, anywhere.''

He said it is estimated there will be from 50,000 to 100,000 drug- related convictions a year, and ''none of them are aware they're going to lose their license.''

''We anticipate a deluge this year,'' Registry spokeswoman Kathi Connelly said.

#90253u0578 09/10/1990 ~United Press International

(SEPT. 10) UPI - Charles Troy Coleman was put to death by lethal injection early this morning in Mcalester, Oklahoma. The 43-year-old convicted double murderer was the first person executed in Oklahoma in 24 years. The Supreme Court yesterday twice refused to consider appeals filed by Coleman's lawyer.

About 27 anti-abortion protesters in Pompano Beach, Florida, said they were just doing their laundry, but the explanation did NOT wash with authorities. Three people were were arrested Saturday at the Pompano Beach shopping center for harassing women entering a nearby clinic that offers abortion services.

The F-A-A says two small planes collided in flight near Alaska's Denali National Park during bad weather. A spokesman for the Alaska State Troopers says it's believed each plane carried one pilot and NO passengers. The accident occurred Saturday. Rescuers are approaching the wreckage on horseback because of rugged terrain.

Two Australians and an American have reached the summit of K-2, the world's second highest mountain located on the China-Pakistan border. A spokesman for the expedition says the climbers, including 36-year-old Steve Swenson of Seattle, carried NO radios and took a particularly long route up the 28-thousandfoot mountain.

Ellis Island shows off its new look today when it formally opens to the public following an eight-year, 160-Million-dollar restoration. The island will serve as a memorial to those Millions who passed through its doors on their way to a new life in America. The facility operated from 1892 to 1943.

-30- 1743

#90253u0621 09/10/1990 ~United Press International

(SEPT. 10) UPI - Today is the unofficial deadline negotiators for the White House and Congress have set for agreeing on ways to cut the budget deficit. They started meetings Friday at Andrews Air Force Base near Washington. So far, little progress is reported. If the negotiators doN'T act, the Gramm-Rudman law will trigger automatic spending cuts of 106-BILLION dollars on October 1st. The negotiators want to bend the limits and cut only 50-BILLION dollars in the coming fiscal year... and a total of 500- BILLION over five years.

The Soviet Union's parliament- the Supreme Soviet- met today for its autumn session. The official Tass news agency says the session ''marks the end of the preparatory stage of perestroika.'' Lawmakers will debate steps for returning the Soviet Union to a market economy. Premier Nikolai Ryzhkov favors a step-by-step transition. A plan devised by a commission set up by President Mikhail Gorbachev calls for a faster end of centralized control of the economy.

President Bush and Soviet President Mikhail Gorbachev finished yesterday's summit in Finland with a stern warning to Iraqi President Saddam Hussein. They threatened more pressure on Iraq if diplomatic means do NOT resolve the crisis in the Persian Gulf region. Gorbachev does NOT favor a military solution. Bush says- ''There is some difference, but NOT on the fundamental point'' of an Iraqi withdrawal from Kuwait.

Thunderstorms rumbled into the South this morning. A roof was blown off a building near Chatsworth, Georgia. Flash flood watches were posted from Corpus Christi to Waco, Texas, following a series of thunderstorms. The West is hot. Tucson, Arizona, had a record 105 degrees yesterday. It the 99 in Los Angeles. Storms were common in the middle United States.

HOUSTON (SEPT. 10) UPI - The domestic rig count increased last week, while offshore drilling declined slightly, industry monitors reported.

Baker Hughes Inc. said Sunday a total of 1,039 rotary rigs were working last week, compared with 1,012 the previous week and 950 the same week a year ago.

Drilling activity declined in the Gulf of Mexico and European waters last week, but picked up in other offshore areas, Offshore Data Services reported.

In the gulf, 144 of the fleet of 213 rigs were working, compared with 146 the week before. Last week's utilization rate was 67.6 percent.

In European waters and the Mediterranean Sea, one fewer rig was working last week. But the utilization rate remained virtually unchanged at 94.8 percent because one rig left the Mediterranean for Southeast Asia, ODS said.

There was a gain of four rigs under contract elsewhere, resulting in a net gain of one rig under contract worldwide, compared with the week before. Last week, 550 of the world's 668 mobile offshore drilling rigs were working, for an 82.3 percent utilization rate.

Other relevant rig counts included Louisiana, 146 last week, 143 the week before and 136 the same week a year ago; New Mexico, 48, 43 and 28; Oklahoma, 122, 120 and 136; Texas, 349, 338 and 295; and Canada, 97, 104 and 93.

#90253u0654 09/10/1990 ~United Press International

CAPE CANAVERAL, FL (SEPT. 10) UPI - Engineers replaced leaking fuel pumps aboard the shuttle Columbia over the weekend, with NASA managers optimistic the ship will be ready for another takeoff try around Sept. 17 to finally end a four-month launch drought.

At nearby launch pad 39B, meanwhile, engineers were readying the shuttle Discovery for blastoff on a higher-priority $750 million mission around Oct. 5 to carry the European-built Ulysses probe into space for a five-year voyage to the sun.

Ulysses was loaded into Discovery's cargo bay Saturday, and the ship's five-man crew flew to the Kennedy Space Center from Houston Sunday to review emergency procedures and participate in a practice countdown.

The mock countdown, a traditional test to make sure the launch team is ready for the real thing, began at 8 a.m. EDT Monday. It is scheduled to end Tuesday with the simulated ignition of Discovery's three main engines.

''This is a milestone for us in getting ready for (launch),'' commander Richard ''Dick'' Richards told reporters Sunday. ''We've still got some hurdles in front of us over these next three weeks, but all of us are confident that next October, we're finally going to get Ulysses down the road on its five-year journey to the sun.''

Richards, 44, co-pilot Robert Cabana, 41, Bruce Melnick, 40, William Shepherd, 41, and Thomas Akers, 39, plan to climb aboard Discovery Tuesday for the final hours of the mock countdown.

Discovery's launch processing is running about two days behind schedule with engineers continuing to assess the potential impact of a slow Freon leak in one of the shuttle's two cooling systems.

NASA spokesman Bruce Buckingham said it appears Discovery can fly as is, although additional inspections will be required before the issue is resolved once and for all.

''It looks like we're not going to have to replace any of the (Freon) lines and with the current (leak) rate, we're probably going to be able to fly as is,'' Buckingham said.

As for Columbia, engineers worked to remove and replace a package of three hydrogen recirculation pumps in the shuttle's cramped engine room that was blamed for a fuel leak that grounded the ship last week.

Engineers removed insulating foam from around the pumps Saturday and worked Sunday to remove the entire package. With the repair work on schedule at pad 39A, NASA managers could set a new launch date as early as Monday.

''We're very confident we can meet the early part of the week of the 17th '' Buckingham said.

Columbia's seven-man crew originally was scheduled for blastoff May 30, but the shuttle was grounded the night before liftoff by a hydrogen fuel leak.

A second launch attempt Sept. 1 was canceled because of trouble with an on-board telescope, and a third try Sept. 6 was scuttled by yet another hydrogen leak.

The leak in May was blamed on damaged seals inside a 17-inch-wide fuel

line fitting. A similar leak grounded the shuttle Atlantis in July. But engineers now believe two leaks were present in May and that only one of them, the one involving the 17-inch fuel line fitting, was fixed.

It appears the leak last week came from the recirculation pumps, which are used to keep supercold liquid hydrogen circulating through the shuttle's engines before liftoff. Replacing the pumps should fix the problem, officials say.

Assuming no other glitches crop up, Columbia could be ready for the start of yet another launch countdown as early as Friday at 1 a.m. EDT for a launch attempt around 1:30 a.m. Sept. 17.

KARACHI, PAKISTAN (SEPT. 10) UPI - Government officials lodged two complaints of official misconduct in a special court Monday in a bid to bar ousted Prime Minister Benazir Bhutto from participating in Pakistan's October elections.

Officials filed the cases on behalf of President Ghulam Ishaq Khan, who fired Bhutto on Aug. 6, accusing her administration of corruption and nepotism. Khan also dissolved the government and dismissed the National Assembly, calling for new elections Oct. 24.

After taking the action against the government, the president established several special courts to hear cases of corruption and misuse of power against Bhutto, her cabinet members and other former legislators.

The two cases lodged Monday were the first against Bhutto in the special courts. The cases accused Bhutto of official misconduct in the hiring of a consultant to administer a government bank loan and the awarding of a contract for cotton export.

Bhutto has repeatedly denied any wrongdoing and has charged that the president's decision to dismiss her government was illegal and unconstitutional. She has launched legal action to challenge the constitionality of the special courts established by Khan.

If found guilty of the misconduct charges, she could be barred from participating in politics for seven years. The cases are to be heard by Justice Wajihuddin Ahmed and will be conducted in an open and public court.

Bhutto, 37, became the first female prime minister of a Moslem country when her Pakistan People's Party came to power following the November 1988 elections, the first democratic voting in Pakistan in 11 years.

Before she was dismissed, Bhutto had been criticized for failing to control the growing ethnic violence in southern Sind Province, sparking tensions between her government and the army. She also had been criticized for corruption by her administration and family.

The president appointed opposition leader Ghulam Mustafa Jatoi as caretaker prime minister.

Pakistan has been under military rule for most of its 43-year existence. Bhutto's election came after Gen. Mohammed Zia ul-Haq, the country's president, died in a mysterious plane crash in August 1988. Zia had ruled since his 1977 coup ousted Bhutto's father, Zulfikar Ali Bhutto, as prime minister.

WASHINGTON (SEPT. 10) UPI - After-tax profits of American manufacturers averaged 4.7 cents per dollar of sales in the second quarter of 1990, up 0.5 cents from the first quarter of the year, the Commerce Department said Monday.

The figures were adjusted for seasonal factors.

After-tax profits in April, May and June totaled $32.6 billion, up $4.1 billion, or 14.2 percent, over January, February and March, according to the quarterly data compiled by the department's Census Bureau.

After-tax profits for the manufacturers of durable goods advanced $3.9 billion - or 33.6 percent - in the second quarter over the first quarter of the year, the Commerce Department said.

''Stone, clay, and glass, instruments and other durables were up sharply from last quarter,'' the report said. ''Primary metals increased by 30 percent; machinery and transportation were up over 20 percent.''

But the manufacturers of electrical equipment reported their after- tax profits were flat in April, May and June.

For the manufacturers of non-durable goods, after-tax profits were up $3.3 billion, or 20.8 percent, in the second quarter over the first quarter, the department reported.

''All the underlying categories showed increases except petroleum,'' the report said. ''Food and chemicals contributed chiefly to the upturn; textiles and rubber also improved significantly over last quarter.''

The Commerce Department also reported that manufacturers' sales in the second quarter of 1990 stood at $689.5 billion, up $5.9 billion, or 0.9 percent, from the first quarter of the year.

In addition, the government said that the annual rate of return on stockholders' equity for American manufacturing corporations, after taxes, climbed to 13.5 percent in the second quarter from 10.8 percent in the first quarter.

(SEPT. 10) UPI - The official Islamic Republic News Agency reports Iraq and Iran have agreed to resume diplomatic ties that were broken by an eight-year war. The report, monitored in Athens, says the two neighbors will reopen their embassies. The announcement follows a one-day visit by Iraqi Foreign Minister Tareq Azis to Iran that included meetings with Iranian President Hashemi-Rafsanjani.

The traditional mock countdown has begun at Cape Canaveral as technicians aim toward getting the shuttle Columbia off the ground. Three previous attempts have failed for one reason or another and the latest effort is headed for a possible liftoff around September 17th. Work crews were busy over the weekend replacing leaking fuel pumps aboard Columbia that prompted last week's launch scrub.

One-thousandrelated convictions won't be doing much driving in the next three months. A new state law calls for suspension of their licenses, even if the drug convictions have nothing to do with automobiles. State officials estimate the law covers anywhere from 50-thousand to 100-thousand drug convictions in Massachusetts every year.

South African authorities report they've found the bodies of seven people killed during the night in the black township of Soweto. That pushes weekend deaths in the area to 33. At least 600 lives have been claimed in what is now six weeks of bloody factional violence between rival groups in

South Africa.

#90253u0827 09/10/1990 ~United Press International

JAKARTA, INDONESIA (SEPT. 10) UPI - Cambodian resistance leader Prince Norodom Sihanouk informed organizers of the peace talks Monday he is taking a six-month leave of absence for health reasons and will not become a member of a U.N.-sanctioned organization embodying the sovereignity of his homeland.

''I support the resolutions and decisions concerning Cambodia which shall be taken by all the participants,'' Sihanouk added in a statement.

Sihanouk, who reportedly had a heated argument with Chinese Premier Li Peng over his refusal to attend the crucial Jakarta session, also plans to leave Beijing for a trip to the North Korean capital of Pyongyang, said Prince Norodom Ranariddh, Sihanouk's son and representative at the meeting.

While the mercurial Sihanouk's announcement initially jolted the delegates from the warring factions, they said they had reached an agreement that could pave the way to an end of the 11-year-old Cambodian conflict.

Cambodian Prime Minister Hun Sen and the three parties in Sihanouk's faction all endorsed the formation of a Supreme National Council to hold Cambodia's seat in the United Nations prior to free elections.

They also supported equal representation of six each between the resistance coalition and the Phnom Penh government, plus an option for an elected chairman as the 13th member.

Previously, the resistance designated five seats for Phnom Penh and five for each of Sihanouk's parties, a formula rejected by Hun Sen.

''Everything is going smoothly now,'' said former Cambodian Prime Minister Son Sann, head of the other non-communist faction in Sihanouk's coalition. ''I think we will have a good outcome.''

''We are all satisfied,'' said Khmer Rouge leader Khieu Sampan. ''We are approaching peace.''

Formation of the council has assumed particular urgency with the U.N. General Assembly opening Sept. 18. The council is an essential part of the plan approved by the five permanent members of the U.N. Security Council last month and would embody Cambodia's sovereignity after a cease-fire.

Worked out by the United States, Britain, China, France and the Soviet Union, the plan includes provisions for separation and disarmament of all forces in Cambodia and a major U.N. supervisory role in running the country until free elections are held.

Formal approval of the council would represent the first major breakthrough in two years of unsuccessful peace talks on Cambodia, including three held in Jakarta and an international conference in Paris last year.

''My father refuses to be a member or president of the Supreme National Council,'' Ranariddh said.

Citing poor health for his sudden leave of absence, Sihanouk, a former Cambodian ruler, said Ranariddh would take his place and confer with foreign diplomats, ambassadors and others wishing to discuss Cambodia.

Long known as the ''mercurial prince'' for his rapid reversals of position, frequent resignations and leaves of absence, Sihanouk has often resorted to seemingly flighty switches as part of a tactical game meant to maintain his influence.

Son Sann and Khieu Samphan both said they hoped Sihanouk would reconsider and be available to become chairman of the council.

But Ranariddh insisted his father ''refuses to be a member or chairman.'' Armed with three messages from Sihanouk, Ranariddh said he ''expressed his great sadness'' to Indonesian Foreign Minister Ali Alatas and Edwige Avice French deputy foreign minister, co-hosts of the talks.

A senior diplomatic source said Sihanouk had an argument with Li Peng over his refusal to attend the talks. The prince announced Saturday he was too ill with kidney stones to fly to Jakarta, sparking skepticism from Hun Sen who arrived on the condition Sihanouk would participate.

Sihanouk's coalition has been battling the Hanoi-backed regime in Phnom Penh since 1979. The United States provides aid to the non-communist parties, but the China-armed Khmer Rouge is militarily the strongist.

The Khmer Rouge is blamed for the deaths of 1 million Cambodians during their four-year rule prior to the Vietnamese invasion in 1978. Fears of the regime's possible return to political power prompted the United States in July to withdraw recognition of the resistance coalition at the United Nations.

Sihanouk's factions and Hun Sen have all accepted the U.N. plan as the framework for a settlement of the civil war.

#90253u0873 09/10/1990 ~United Press International

(SEPT. 10) UPI - Here is a roundup of the latest major events in the Persian Gulf crisis stemming from the Aug. 2 Iraqi invasion of the oil-rich emirate of Kuwait.

BAGHDAD, Iraq - Iraq says President Bush's statements after the Helsinki superpower summit display his hatred for Arabs, but refrained from attacking erstwhile ally Soviet leader Mikhail Gorbachev. Bush's ''statements displayed his hatred for the Arab nation, because Bush ignored the crisis of the Palestinian people who are suffering under the Zionist nightmare,'' the official Iraqi News Agency quoted a government spokesman in Baghdad as saying.

LONDON - Prime Minister Margaret Thatcher said in her first public comment

on the Helsinki summit: ''I think it's very good for the world to know that the two great powers, the United States and the Soviet Union, are absolutely at one in saying that what the U.N. said should be done (about an Iraqi withdrawal from Kuwait), will be done.''

CHARLESTON, S.C. - A charter flight arrived Sunday night carrying about 300 former hostages from occupied Kuwait via Iraq and Jordan. They sang ''God Bless America'' after landing on U.S. soil. Another flight with about 165 freed American women and children was expected to arrive at Baltimore Washington International Airport Monday afternoon.

CAIRO, Egypt - A radical Iranian daily is urging world Moslems to rise up against what it described as the dispatch of some 10,000 Egyptian women to entertain U.S. troops in Saudi Arabia. But an Egyptian spokesman described the report as ''nonsense.'' The Iranian daily Jomhuri Eslami cited no source or evidence for its allegations in Monday's editions.

BAGHDAD, Iraq - Iraqi Foreign Minister Tariq Aziz flew home from Iran Monday after winning agreement on a restoration of diplomatic relations between the two adversaries in the 1980-1988 Persian Gulf War. Although Aziz received a formal welcome in Tehran, Iranian authorities refused to fly the Iraqi flag and continued to insist that Iraq withdraw from Kuwait.

TOKYO - British Secretary of State Douglas Hurd joined a growing chorus of Western leaders asking Japan to give more than the $1 billion it has already pledged to support the multinational opposition to Iraq's invasion of Kuwait.

BRUSSELS, Belgium - NATO foreign ministers gathered Monday for a briefing on the Helsinki superpower summit by Secretary of State James Baker and to further coordinate Persian Gulf strategy.

#90253u0915 09/10/1990 ~United Press International

(SEPT. 10) UPI - President Bush is back in the White House after yesterday's day- long superpower summit in Finland and he's voiced his pleasure with what went on. Bush says his meeting with Soviet President Gorbachev helped to solidify international pressure on Iraq's Sadam Hussein.

Iran and Iraq have agreed to resume diplomatic relations broken when they

went to war against each other in 1980. It is NOT known what that means when it comes to the embargo against Iraq. The move comes as Iraq executes more of its citizens as food horders.

Government officials in Pakistan are trying to keep ousted Prime Minister Benazir Bhutto from taking part in elections scheduled for October. Bhutto was dismissed August 6th and two complaints of official misconduct now have been filed. Bhutto repeatedly has denied any wrongdoing.

Secretary of State Baker today indicated the landmark U-S-Soviet agreement on troop levels in Europe already is outdated. Baker said after a meeting of NATO foreign ministers in Brussels that the accord allowing 225-thousand U-S troops and 195-thousand Soviet troops was rendered obsolete by Moscow's agreement in July to withdraw all its troops from East Germany within four years.

In Moscow, the Soviet Parliament reconvened today for its fall session. The Supreme Soviet faces the difficult task of implementing practical steps to move toward a market economy. At the same time, lawmakers must deal with widespread unrest and staggering shortages of everything from bread to tobacco.

The Illinois Prisoner Review Board has denied a parole petition for convicted mass murderer Richard Speck, convicted 24 years ago of stabbing eight students nurses to death. Board spokesman Joe Volpe says the petition was denied without comment today and the case was continued until 1993.

The place where Millions of people first stepped onto American shores opened to the public today as a memorial museum to America's immigrant experience. Tourists traveled by ferry to Ellis Island in New York Harbor today to visit the restored main immigration building which operated from 1892 to 1954 as the gateway of dreams for 17-Million people.

-30- 2351

#90253u0928 09/10/1990 ~United Press International

NEW YORK (SEPT. 10) UPI - Ellis Island, where millions first stepped onto American shores, opened to the public Monday with a few hundred tourists claiming the honor of being the first visitors to the memorial to America's immigrant experience.

The early birds traveled by ferry to the three-acre island in New York Harbor to visit the restored main immigration building which operated from 1892 to 1954 as the gateway for families of an estimated 140 million Americans.

The fare was $6 for adults, $3 for children, more than many original

immigrants arrived with.

Although the 9 a.m. ferry was only about one-third filled with passengers, the number of visitors was expected to increase as the day progressed under increasingly sunny skies. The admission-free museum, the gateway of dreams for 17 million people, opens at 9:30 a.m. daily.

The first visitors entered the red brick, copper domed masterpiece of beaux-arts architecture through the baggage room, just as immigrants did, and climbed to the Registry Room stairs that doctors used to spot asthmatics, heart patients and other who were physically impaired.

From there, they visited waiting rooms with original grafiti on the walls, the Special Inquiry Room where rejected immigrants pleaded their cases, a dormitory with three-tier iron pipe bunks for immigrants who were held overnight, and a departure room with access to trains going west.

America's newest citizens and a handful of its oldest immigrants dedicated the museum, located in New York Harbor near the New Jersey shoreline and adjacent to the Statue of Liberty, on Sunday - eight years and $160 million after restoration began.

Six elderly immigrants, representative of the 12 million hopefuls who got their first glimpse of America at Ellis Island, sat alongside Vice President Dan Quayle to reopen the island and dedicate its new museum.

Irish-born Johanna Flaherty, who emigrated in 1923 at age 16, chatted with Quayle as the U.S. Army Band and Herald Trumpets played and stood proudly - wearing a green corsage - when her name was called in honor of her trek to begin a new life in America.

The white-haired Queens, N.Y., resident, now 84, said she fled her country to escape farm life.

''It's really very good to see the place,'' Flaherty said. ''It was the start of my life. It's marvelous.''

Supreme Court Justice Antonin Scalia led 46 adults and three children in the oath of citizenship.

''I'm very proud and happy to be an American citizen,'' said Jorge Luis Cedeno, 31, of the Bronx. ''It's quite a compliment to be here for this special occasion. It makes this day unforgettable.''

Quayle - substituting for President Bush, who canceled a long- planned appearance to meet Soviet President Mikhail Gorbachev in Helsinki - recalled the impact of immigration on the nation.

''I wish every one of today's Americans could make a pilgrimage here,'' Quayle said. ''We all need to feel the extraordinary human drama that still pulses within these walls.

''What we celebrate in Ellis Island is nothing more than the triumph of the American spirit,'' the vice president said. ''We must hold in our hearts and memories our immigrant ancestors.''

Automotive executive Lee Iaccoca, who created the Statue of Liberty-Ellis Foundation that raised the $160 million used in the eight- year restoration of the island's main building, said Americans sacrificed to create the monument to the immigrants who have already paid a price for the country's freedom.

''This is a very special moment for me. I happen to be standing on the very piece of land that my mother and father first set foot on,'' Iaccoca said.

Americans, said Iaccoca, feel an emotional bond with the place where many of their ancestors first touched this country's soil.

''Thousands of different names, thousands of different stories, but stick them all together and you have one huge saga. And it's our saga,'' he said.

-30- 4191

#90253u0937 09/10/1990 ~United Press International

MANILA, PHILIPPINES (SEPT. 10) UPI - The number of AIDS cases in 18 countries in the western Pacific has nearly doubled over the past year, the World Health Organization reported Monday.

Australia, Japan and New Zealand accounted for most of the reported cases of people afflicted with the acquired immune deficiency syndrome, said the report released at the annual WHO regional conference in Manila.

As of July 1, the WHO said 2,406 aids cases were reported in the region, up 46 percent from 1,650 a year ago.

The highest number of cases - 93 percent - were reported in Australia, Japan and New Zealand.

In the other 15 countries covered by the WHO regional headquarters, the number of cases increased to 160 this year from 89 over the past year, the report said.

''This indicates that the AIDS pandemic is spreading in the region,'' said the report. It added that as reporting about the disease improves, more cases are likely to be discovered.

Australian AIDS cases accounted for 77 percent of the total, and 55 percent of those victims died, the report said.

#90253u0964 09/10/1990 ~United Press International

MOSCOW (SEPT. 10) UPI - The Soviet Parliament reconvened Monday for its fall session, facing the difficult task of implementing practical steps to move toward a market economy while dealing with staggering shortages and widespread unrest.

''In effect, the session marks the end of the preparatory stage of perestroika, which resulted in the disintegration of the old political and economic system,'' the official Tass news agency said.

Monday's meeting of the Supreme Soviet, or Parliament, was devoted to a report by its chairman Anatoly Lukyanov and the consideration of an agenda that included 31 bills.

''We have entered a stage of serious tests,'' Lukyanov said. ''Sharp polemics are under way as to further ways of development of our state.''

The first controversy arose when Leningrad Mayor Anatoly Sobchak, a leader of the so-called inter-regional group of radical deputies, proposed an alternative agenda while saying the official agenda was full of secondary items.

Sobchak called for the resignation of Premier Nikolai Ryzhkov and demanded President Mikhail Gorbachev address Parliament on the state of the country.

''Today we have absolutely no right to leave in office a government that has proved incapable of pulling the country out of crisis,'' Sobchak said.

Preliminary debate on proposals for a move to a market economy was not expected until Tuesday, when Ryzhkov's government was to make its report on the transition to a market and urgent measures needed to stabilize the economy.

During its spring session, the Supreme Soviet rejected the government's previous proposal for ''transition to a regulated market'' and ordered it revised.

Ryzhkov favors a step-by-step transition to some sort of market economy. His revised plan is still conservative and envisages much continued central control, a stand that has led to numerous calls for his resignation.

A rival blueprint for the move to a market economy, developed by economist Stanislav Shatalin and a commission set up by President Mikhail Gorbachev and Russian republic leader Boris Yeltsin, calls for much more radical reforms to quickly privatize property and decentralize control.

Although Gorbachev, Yeltsin and other officials have said only one plan should be presented to Parliament, the two proposals had major differences and it was not clear what would finally be presented to the Supreme Soviet.

Ryzhkov told the independent Interfax news agency he would present his plan to Parliament and probably include ''analysis of some articles of the program worked out by Shatalin's group.'' He said he did not know if anyone would present the entire Shatalin program.

Shatalin told Interfax he did not know if his plan would be discussed by Parliament at all, although he was ready to present it if asked.

The Supreme Soviet convened after a summer of shortages of everything from bread to tobacco, and long lines at shops - common in the Soviet Union for years - have recently spawned consumer protests and even riots.

Inter-ethnic clashes and worker unrest have cut production and despite food shortages, much of a record crop is likely to be wasted because of problems with harvesting and transport including fuel shortages.

The country is behind on payments of foreign debt and Moscow has recently been selling hundreds of tons of gold to earn desperatly needed hard currency to pay for even more desperately needed imports.

Besides the economy, the Parliament must consider the idea of a new ''union treaty'' on links between the central government and the 15 Soviet republics, which have nearly all declared independence or sovereignty in the last six months.

Also on the agenda is a bill on freedom of emigration linked by the United States to better economic ties, as well as new laws on military reforms and freedom of conscience.

BRUSSELS, BELGIUM (SEPT. 10) UPI - The landmark U.S.-Soviet agreement on troop levels in Europe has been ''overtaken by events'' and should be re-examined, U.S. Secretary of State James Baker said Monday.

The pact allowing 225,000 U.S. troops and 195,000 Soviet troops was rendered obsolete by the Soviet Union's agreement in July to withdraw all its troops from East Germany within four years, Baker said after a meeting of NATO foreign ministers.

The U.S. and Soviet troop levels, to be incorporated into the Conventional Forces in Europe (CFE) talks in Vienna, were agreed to in February at the Open Skies conference in Ottawa.

''The understandings that were reached in Ottawa have been overtaken by events,'' Baker said. ''So the question of the overall levels of U.S. forces is one that is very much in the air.''

He said he would likely discuss U.S. and Soviet troop levels in Moscow, where he was slated to arrive late Monday after his visit in Brussels.

Baker's comments followed a report that the chief Soviet CFE negotiator told U.S. negotiators that U.S. troop levels should be reduced to between 70,000 and 80,000, due to the slated withdrawal of Soviet forces from Eastern Europe.

The United States now has about 305,000 troops in Europe.

The Soviets agreed to withdraw their troops within four years in July 16 talks between Soviet President Mikhail Gorbachev and West German Chancellor Helmut Kohl in the Soviet Caucasus Mountains. The agreement, which allows a united Germany to remain in NATO, also calls for a limit of 370,000 troops in a united Germany within four years.

An overall CFE agreement is sought in time for a Nov. 17 summit, in Paris, of the 35-nation Conference on Security and Cooperation in Europe. That conference includes all of Europe except Albania, plus the United States and Canada.

MIAMI (SEPT. 10) UPI - Tropical Storm Isidore rejuvenated in the mid-Atlantic, approaching hurricane strength again Monday but staying well away from land.

At 6 a.m. EDT, Isidore was centered near latitude 29.5 north, longitude 45.7 west, or about 1,070 miles southwest of the westernmost Azores.

Isidore was moving northwest at a laggardly 6 mph and was expected to continue that motion for the next 24 hours.

Its maximum sustained winds were near 70 mph, just 4 mph shy of hurricane strength. Forecasters said little change in strength was likely Monday.

Tropical storm-force winds extended up to 175 miles from the center.

Isidore was downgraded from a hurricane to a tropical storm Saturday when winds in the upper atmosphere sheared off the top of the system, causing its circulating winds to diminish.

It gradually regained strength Sunday and Monday as it slowed its forward trek through the open Atlantic.

Isidore, the ninth named storm of the Atlantic-Caribean hurricane season, was born from a tropical wave Sept. 5. Its strength has waxed and waned, but it has posed little threat except to marine interests.

The hurricane season runs from June 1 to Nov. 30, peaking in September.

MONTGOMERY, LA (SEPT. 10) UPI - A man who killed four family members and wounded three other people apparently was angry over the recent marriage of his sister, investigators said.

Thomas Silman, 41, surrendered to police Sunday after shooting and killing his father, his uncle, his sister and her husband.

Two police officers and a neighbor also were wounded by shotgun blasts.

Investigators said Silman warned his sister Carolyn, 33, he would kill her and James Lewis, 40, if they married. He opposed the marriage because he believed their two families were related.

As the newlywed couple drove up to the Silman home, Thomas Silman walked out with a shotgun and shot Lewis, witnesses said. His sister struggled with him and he shot her, the witnesses said.

Silman then went back inside where he allegedly shot and killed his father Thomas Silman, 80, and an uncle, Kermit Allen, 67.

Silman's mother escaped through a back door, witnesses said.

Also wounded in the shooting spree were Montgomery Police Officer Dan Fletcher, who was the first law enforcement officer on the scene, and Grant Parish Sheriff's Deputy John Rollins. Fletcher was in stable condition and Rollins in good condition following the shootings.

A neighbor, Frances Dalhme, also was treated and released for wounds she apparently suffered in the shooting.

When more police arrived, Silman allegedly was firing at random through broken windows. A short time later, he surrendered to authorities.

''He was as cool as a cucumber when he came out,'' said an unidentified deputy. ''He wanted to know what all the fracas was about.''

Neighbors described Silman as a quiet man.

''He has never been violent,'' said a neighbor. ''He never raised his voice to anyone and he didn't drink.''

Authorities in the northwest Louisiana community found a .20-gauge pump shotgun and a .22-caliber rifle in Silman's home following the shooting.

Silman was booked on four counts of first-degree murder and six counts of attempted first-degree murder.

#90253u1046 09/10/1990 ~United Press International

WARSAW, POLAND (SEPT. 10) UPI - Poland is considering purchase of American F-16 or French Mirage 2000 jet fighters because Moscow hiked prices for its aviation equipment and is reluctant to sell it, military sources confirmed Monday.

The youth newspaper Sztandar Mlodych said the Kremlin has turned a cold shoulder to Polish military negotiators who recently conducted talks on the purchase of Soviet MiG-29 jet fighters, one of the most technologically advanced planes made by the Russians.

''The military experts are considering such a (purchase) possibility,'' a Defense Ministry source said when asked about the possibility of purchasing F-16s or Mirage 2000s.

''Preliminary indications are there would be advantages if it happened,'' said the source, who requested anonymity.

The expert said Moscow requested payments for their MiGs in American dollars. It initially offered them for $24 million apiece, and later lowered the price to $18 million, but nevertheless appeared reluctant to sell them.

''The Polish team which conducted talks in Moscow on the purchase of some MiG-29s got an extremely cool reception and encountered a lot of troubles '' the newspaper said. ''So far it is not sure if more planes of this kind will be delivered to Poland.''

Another military expert contacted by UPI said the unification of Germany prompted the Soviets to cut the price of their planes. He said former East German Communist Party leader Erich Hoenecker concluded a contract with the Kremlin on the purchase of several dozen MiG-29s and now Bonn refuses to take them.

''Now Moscow is trying to sell them to some other East Bloc countries.'' the expert said.

According to the military source, former communist Poland was not as well equipped with the Soviet planes as the other East Bloc countries.

The country has a long tradition of aviation and Polish pilots have been described by British commanders as among the best pilots during the Battle of Britain against the Nazis in 1940.

The military source said the shape of the Polish air force is ''deplorable'' because Moscow never trusted Poland and preferred selling its more advanced planes to Hungary, Czechoslovakia or East Germany.

''Poland has about 14 Mig-29 planes only and the others are old- fashioned types of MiGs,'' the expert said, adding some were of the vintage of ''the time of the Vietnamese war.''

The expert said F-16s and Mirage 2000s are comparable with the MiG- 29 but ''they have better avionics'' (electronic equipment).

He said American and French planes are steered by computers while the Soviet ones have conventional systems.

The expert said the Polish army is being reduced and modernized and more sophisticated weapons will be preferred by Polish commanders.

''The first studies indicate that it would be better to have the Western weapons.'' he said. ''Polish pilots also dream about flying better planes

than the Soviet ones.''

#90253u1050 09/10/1990 ~United Press International
JOLIET, IL (SEPT. 10) UPI - The Illinois Prisoner Review Board Monday denied a parole petition for Richard Speck, convicted of the stabbing and strangling 24 years ago of eight student nurses - a case prosecutors said ''shocked and dismayed the world.''

Board spokesman Joe Volpe said the petition was denied without comment and the case continued until September 1993.

Speck's parole petition drew more than 21,000 letters of protest.

In a hearing before the board last week, a classmate and relatives of the nurses killed July 13, 1966, by Speck pleaded with with the board to keep the killer in prison.

''We were all very close,'' said classmate Bernadette Keliher. ''When we found our classmates were murdered, we shared the grief and we shared the guilt of surviving.''

Speck, originally sentenced to death and now serving eight consecutive prison terms of 50 to 150 years, did not attend the hearing. He also skipped his last hearing three years ago.

''The pain and anguish caused by this man is more than I can ''

Cook County State's Attorney Cecil Partee also objected to the latest parole request.

''The murders of these eight student nurses shocked and dismayed the world '' Partee said. ''I will fight the parole of Richard Speck on behalf of the families of the victims and the people of Cook County.''

Illinois parole officials, in past requests, never have indicated they are close to granting Speck's freedom. Relatives of the victims have expressed doubt Speck would be safe outside prison walls - even almost a quarter-century after his crimes.

Speck forced his way into a South Side townhome being used as a residence by student nurses from South Chicago Community Hospital. He bound the young women with strips torn from a sheet and he stabbed and strangled eight of them during the course of several hours.

One resident of the townhouse, however, managed to survive.

Corizon Amurao rolled under a bed and hid. Speck apparently lost count of his victims and left the apartment not knowing Amurao had escaped his deadly attack.

Speck was found July 17 in a skid row flophouse on Chicago's near West Side and arrested when a doctor treating a cut on his arm recognized him.

His trial was moved to Peoria and delayed for eight months because of the extensive publicity surrounding the killings. He was convicted and sentenced to death - a sentence that was nullified when the U.S. Supreme Court declared most of state death penalty laws unconstitutional.

Speck was resentenced June 5, 1967.

(SEPT. 10) UPI - Troublesome fuel pumps have been replaced as engineers work to get the shuttle Columbia mission going. They are aiming for

possible liftoff early next week in a mission already months behind schedule. And they also face competition from a higher-priority effort to put a European space probe up for a five-year mission to the sun. It is tentatively set for around October 5th.

Forecasters once again upgraded Isidore to hurricane status... one day after it was reduced to a tropical storm. The National Hurricane Center in Miami says the storm has grown in strength in the last six hours with maximum sustained winds at 75 miles an hour. Currently, Hurricane Isidore is located about one-thousand-70 miles southwest of the westernmost Azores and is moving toward the northwest nearly eight miles an hour.

Police in Montgomery, Louisiana, say a man killed four family members and wounded three other people apparently because he was angry over the recent marriage of his sister. Investigators say 41-year-old Thomas Silman shot and killed his father, his uncle, his sister and her husband yesterday before surrendering. Police say Silman warned his sister he would kill her and her new husband if they married because he believed their two families were related.

#90253u1068 09/10/1990 ~United Press International

(SEPT. 10) UPI - Iraqi leader Saddam Hussein threw a curve ball Monday at international trade sanctions against his country by offering to supply third-world countries with oil free of charge.

The action came a day after President Bush and Soviet President Mikhail Gorbachev declared after a summit meeting they would work together to pressure Iraq to withdraw from Kuwait, an action Saddam said showed Bush's hatred for Arabs. The Iraqi leader refrained from criticizing Gorbachev.

A spokesman for the Iraqi leader said Monday on Iraqi television, ''We declare we are prepared to supply third-world countries with oil free of charge.''

The action was being taken as an act of solidarity with third-world nations whose economies were being hurt by the Persian Gulf by having to pay enormous prices for oil, the spokesman said.

He said the offer was made irrespective of the countries' positions on the gulf conflict, and that it did not violate U.N. sanctions because it was being offered free of charge.

The countries should apply to Iraq indicating the quantity and type of oil they want, and then should sent their own ships to fetch the oil because Iraq would not be able to transport it, the spokesman said.

Earlier, Saddam said Bush's statements after Sunday's superpower summit ''displayed his hatred for the Arab nation, because Bush ignored the crisis of the Palestinian people who are suffering under the Zionist nightmare,'' the official Iraqi News Agency quoted a government spokesman in Baghdad as saying late Sunday.

''It is the policy of big countries to move according to their material interests and election pressures,'' INA quoted the spokesman as saying.

But the Iraqi spokesman refrained from attacking Baghdad's former staunch ally Moscow, even though Gorbachev accused President Saddam Hussein of leading Iraq into a dead end and called in Helsinki for the immediate and unconditional withdrawal of Iraqi occupation troops from Kuwait, which Baghdad invaded Aug. 2.

Also in Baghdad, Iraqi Foreign Minister Tareq Aziz returned home from Iran Monday after persuading Tehran to restore diplomatic relations between the two former foes. But there was no indication he convinced wary Iranian leaders to allow food and oil across the Iran-Iraq border.

Although Aziz received a formal welcome in Tehran, Iranian authorities refused to fly the Iraqi flag and a senior Iranian official said Iraq must withdraw from Kuwait. The Aziz visit was the first to Iran by a top Iraqi official since before the 1980-88 Iraq-Iran war and followed Baghdad's complete capitulation to Iranian demands for peace.

The statement came as more Western hostages released by Saddam flew home Sunday. A charter flight landed in Charleston, S.C., with 311 liberated Americans who sang ''God Bless America'' and told of daring escapes. Another flight with about 165 freed American women and children was expected to arrive at Baltimore Washington International Airport Monday afternoon.

The latter group of Americans had been aboard a chartered Iraqi Airways flight also carrying 186 Britons and 32 Irish that flew from Baghdad to Gatwick airport outside London Sunday evening.

On Sunday, Baghdad Radio had quoted an Iraqi spokesman as saying no more chartered flights carrying Western hostages would be allowed to fly to the Jordanian capital Amman, because Jordan could not handle any additional air traffic.

Bush and Gorbachev, at their daylong summit in Helsinki Sunday, threatened further pressure on Iraq if diplomacy fails.

''We are united in the belief that Iraq's aggression must not be tolerated '' Bush and Gorbachev said in a joint statement issued after the summit. ''No international order is possible if larger states can devour their

smaller neighbors.''

''Nothing short of a return to the pre-Aug. 2 status of Kuwait can end Iraq's isolation,'' Bush and Gorbachev said in their joint statement. ''Nothing short of the complete implementation of the United Nations Security Council resolutions (ordering an Iraqi withdrawal) is acceptable.''

In London, Prime Minister Margaret Thatcher said in her first public comment on the summit, ''I think it's very good for the world to know that the two great powers, the United States and the Soviet Union, are absolutely at one in saying that what the U.N. said should be done, will be done.''

Bush apparently did not achieve the goal stated by American officials of getting Moscow to pull all military advisers out of Iraq, its former ally. Gorbachev did say, however, that the number of advisers had been reduced from 193 at the outset of the crisis to about 150.

-30- 4934

#90253u1081 09/10/1990 ~United Press International

WASHINGTON (SEPT. 10) UPI - Dr. Bernadine Healy of the Cleveland Clinic Foundation apparently has been picked by Health and Human Services Secretary Louis Sullivan to fill the long-vacant job of director of the National Institutes of Health, officials said Monday.

''As best as I can tell, she is Dr. Sullivan's nominee,'' said William Raub, acting NIH director, prior to a news conference on women's health issues at the NIH's Bethesda, Md., campus.

Healy's appointment would require approval from the White House and Senate. A White House spokesman said Monday that President Bush had not yet received Sullivan's recommendation.

Sen. Barbara Mikulski, D-Md., said she did not know much about Healy's background but said it was important to fill the post, which has been vacant more than one year.

''It would be extremely helpful to have a woman head of NIH because it would show women are included in the top research posts,'' Mikulski said.

Healy, 46, who could not be reached for comment Monday, would replace Dr. James Wyngaarden, who resigned as NIH director on July 31, 1989, when the Bush administration indicated it wanted to choose its own chief.

The job has been vacant since then, generating criticism over leaving such an influential position open.

The NIH is the nation's premier biomedical research institution, conducting a wide range of research and providing funding for university and private research.

The search for a replacement generated controversy because the Bush administration initially questioned candidates about their views on abortion.

When William Danforth, chancellor of Washington University in St. Louis, rejected the job he complained about the use of abortion views as a litmus test for top health appointments.

Danforth also stated discomfort with the administration's ban on the use of fetal tissue from aborted fetuses in medical research.

Healy twice voted to support government financing for fetal tissue research while a member of NIH advisory panels.

Healy was deputy director of the White House Office of Science & Technology from 1984 through 1986 before leaving to serve as chairwoman of the Cleveland Clinic Foundation's Research Institute.

Cleveland Clinic was a pioneer in heart bypass surgery and is recognized as one of the leading health centers in the world, having cared for King Hussein of Jordan, King Fahd of Sauda Arabia, the Shah Mohammad Reza Pahlavi of Iran and President Joao Figuieredo of Brazil.

Healy is a past president of the American Federation of Clinical Research, a former professor at John Hopkins School of Medicine, and a veteran of half a dozen NIH advisory panels.

The search for a replacement also has been hampered by low morale at the NIH and the job's relatively low pay - between $83,600 and $100,000 a year.

NIH comprises 13 institutes, each covering a particular disorder. With an estimated $8 billion annual budget and 15,000 employees, the agency conducts research and hands out 22,000 grants annually to laboratories and reserachers.

#90253u1083 09/10/1990 ~United Press International

YAMOUSSOUKRO, IVORY COAST (SEPT. 10) UPI - Pope John Paul II, praising the ''generosity'' of President Felix Houphouet-Boigny, Monday consecrated a $200 million basilica that the Ivory Coast head of state regards as the crowning achievement of 30 years of one-party rule.

''This basilica has been built, by the head of state, to render homage to Our Lady, to render homage to Christ the Redeemer, who calls all men to join in the union of his body,'' the pontiff told 100,000 people gathered for a three-hour Mass in and outside the vast building.

The basilica, taller than St. Peter's in Rome, towers over the coconut plantations and tin shacks of the country's political capital, Yamoussoukro, 150 miles from the capital of Abidjan.

John Paul, dressed in a white miter and a white cassock, made no direct reference in his homily to the estimated $200 million cost of the Basilica of Our Lady of Peace, which has 272 pillars and seating for 7,000.

But the Polish pope praised the 85-year-old Roman Catholic president for paying for a hospital and a Catholic university that Houphouet-Boigny agreed to build near the basilica at the request of the Vatican to show the concern of the Holy See that social problems not be neglected.

The pope said that ''thanks to the generosity'' of Houphouet- Boigny, ''close to this sanctuary there has been built a social center, the International Foundation of Our Lady of Peace, to join under the same roof the gatherings of faith and the concrete service of brothers.''

''This service will be carried out by a hospital, of which I will bless the cornerstone at the end of this ceremony, and by an institute for the formation of youth,'' John Paul said.

Hundreds of armed police kept all but 10,000 invited guests outside the acres of formal gardens that surround the basilica. Foreign dignitaries attending the mass included Paris Mayor Jacques Chirac and South African Foreign Minister Pik Botha.

John Paul effectively rejected the controversy over the cost of the building, which was constructed out of the president's personal fortune, at a time when the Ivory Coast, with a Roman Catholic community of only 10 percent of the population, has a foreign debt of $15 billion.

''Every sanctuary is a place chosen to worship God, so that all believers gather in his presence to listen to his word,'' the pope said.

''In every epoch and in all the continents, the sons of the church have consecrated the best of their art to building these visible signs that help understand that God lives in the midst of his people, that the church of Christ is founded on the land of men.''

A choir of 100 sang a mixture of traditional hymns and African songs during the mass, which was attended by 50 cardinals and bishops.

The impeccable organization of the event went awry only once, when a heavy light fell from high on a wall behind the altar during the service and barely was saved by its cable from crashing to the floor.

Police reported no incidents during the mass, which authorities had feared might become a focus for anti-government protests. Houphouet- Boigny agreed in July to accept plans for multi-party democracy.

Yamoussoukro, the birthplace of the aging president, was the last stop on the pope's African tour that also took him to Tanzania, Burundi and Rwanda.

#90253u1093 09/10/1990 ~United Press International

BEIJING (SEPT. 10) UPI - Chinese officials said Monday fund raising for the Beijing Asian Games this month had already reached the target and could go higher, and they denied persistent reports the government had forced donations by Chinese workers.

The officials, however, declined to give specific answers on questions relating to the apparently poor response from foreign corporate sponsors to the games. One official publicly chided Japanese businesses for what he said were skimpy contributions.

Funding for the games, a quadrennial Asian sports competition staged between Olympics, has been in question this year, but the Beijing Asian Games Organizing Committee officials, speaking at a news conference, claimed they are now satisified.

The games are to open Sept. 22 and run through Oct. 7.

''The objectives set have now been achieved, and it is expected we may surpass that goal,'' said Liu Yuling, deputy executive secretary general for BAGOC.

China is hosting the games for the first time. The event has been troubling for the organizers, particularly since the June 1989 violent suppression of the pro-democracy movement in China.

The games are publicly said to cost $530 million, with about $468 million for construction and renovation of facilities and the remainder for actually staging the event.

The national and Beijing governments are putting up the lion's share of the total, about $405 million.

The major headache for the committee was the $125 million to be raised through sales of event tickets, souvenirs and other licensing items,

advertising sold to corporate sponsors, public lotteries and donations.

Wang Zhiliang, fund-raising director, said the committee already had just over $100 million in receipts and commitments or pledges that would push the total to around $132 million.

The officials said about $50 million had been raised through donations. But they denied frequent charges by Chinese that the government has deducted ''donations'' from individuals paychecks and demanded quota donations from large numbers of work units.

''There is no such practice as setting quotas for units,'' Wang said. ''I believe most of the contributions from China are the result of patriotic feeling among the Chinese people.''

This, he said, is ''fund-raising with Chinese characteristics.''

The officials, however, refused to say whether they could determine that there had been no incidents of forced contributions, even though some such episodes have been detailed in the state press.

The committee has also had difficulty in persuading foreign corporations, even some major companies doing business in China, to sign on as sponsors.

Wang acknowledged that of the 1,755 contracts sold for advertising on signboards at stadiums and other Games sites, only 230 are from ''foreign customers.''

He further chided Japanese businesses for making ''very few donations,'' saying most Japanese activities related to the games ''are commercial.''

''Frankly, comparing to the Japanese share of the Chinese market, Japan has done something incompatible with its share,'' Wang said.

TALLAHASSEE, FL (SEPT. 10) UPI - Most drug users apparently are not driven by their habits to commit violent crimes or property crimes and may be no more a threat to society than people who use alcohol, researchers said Monday.

David Rasmussen, a professor of economics and policy sciences, and Bruce Benson, an economics professor, both of Floriday State University, studied 45,096 people arrested in Florida for drug offenses in 1987.

They found that 76 percent had no prior arrest for violent crimes, and a small percentage of those who had been arrested before committed most of the violent offenses.

Eighty-eight percent had never been arrested for property crimes, including burglary or possession of stolen goods.

''This study suggests we are incarcerating people for the use of drugs when they do not commit other crimes and tend not to commit other crimes '' Rasmussen said. ''They may be no more a threat to society than people who use alcohol but don't commit other crimes.''

The study, conducted for the Florida Legislature, reached similar conclusions regarding people convicted of drug offenses who return to

prison or probation later. It looked at 4,398 people convicted of drug crimes since 1985 but released before April 1990.

Of the 51 percent who returned to Department of Corrections control, 35 percent were for repeat drug offenses and 16 percent were for non-drug offenses. The remaining 49 percent had not returned to state control.

''Some people do commit crimes to support their habit, but the universe of drug users is far greater than that,'' Rasmussen said.

''Alcohol is a perfect example. Most people who use alcohol, and many who abuse it, do not commit crimes. What you get is a connection in the public mind that drugs cause crime because many people sho commit crimes are associated with drug and alcohol abuse.

''It's a classic logical fallacy that because things are related, they're causal. Our study and other studies suggest that this simply is not true.''

Rasmussen said the study should provoke thought about what the state should do with people caught using drugs, but not committing other crimes.

CHICAGO (SEPT. 10) UPI - Gov. James R. Thompson Monday denied a clemency petition for condemned killer Charles Walker, clearing the way for the state's first execution in nearly three decades.

Walker, 50, of Belleville, is scheduled to receive a lethal injection Wednesday at 12:01 a.m. at Stateville Penitentiary for killing a couple during a robbery in 1983.

Thompson told a Chicago news conference he will not block the execution because Walker has made it clear he wants to die and because there are no ''moral or legal'' grounds to reduce Walker's sentence to life in prison.

''Mr. Walker has put himself to death by the commission of the crime,'' the governor said.

Walker halted all appeals on his behalf and has refused to take part in any challenge of the constitutionality of the Illinois death penalty law. He suffers from emphysema and has said being forced to serve a life sentence would amount to cruel and unusual punishment.

Walker has been on death row since 1985 for slayings two years earlier of Sharon Winker and Kevin Paule, a Mascoutah couple he robbed for beer money.

Six Roman Catholic bishops Sunday released a letter they had written to the governor on Walker's behalf.

''We do not request this commutation as a mitigation of Mr. Walker's heinous offenses or with insensitivity to the continuing loss experienced by the family and friends of Sharon Winker and Kevin Paule,'' the letter said. ''It is our faith that prompts us to emphasize that combatting violence with violence further undermines the request for life and human dignity which is the foundation of our Bill of Rights and our system of law.''

The 7th U.S. Circuit Court of Appeals Friday refused to expedite an appeal by death row inmates of a district judge's refusal to delay Walker's execution because of questions about the lethal injection machine.

The lawsuit contends the machine is corroded and there is a good chance it will not function properly, causing a slow and painful death. The suit also says the execution method is unconstitutional.

The last person executed in Illinois was James Dukes, who died in the electric chair in 1962 for the murder of a police officer.

#90253u1161 09/10/1990 ~United Press International

MANILA, PHILIPPINES (SEPT. 10) UPI - Government forces mounted raids in the capital and arrested two people in a crackdown on rebel soldiers attempting to oust President Corazon Aquino, officials said Monday.

Police, meanwhile, swooped down on a residential area in suburban Paranaque Monday and arrested a businessman for possession of $80,000 worth of explosive devices.

Police Brig. Gen. Levy Macasiano said the man, identified as Jun Takata, was being investigated for possible involvement in a string of 18 bombings in Manila over the past three weeks. Seven people were injured in the

incidents, which have been blamed on rebel soldiers.

Suspected communist guerrillas shot and killed a police colonel while he was driving his jeep in Batangas city, 50 miles south of Manila, police said.

Lt. Col. Prudencio Umahon, Batangas deputy police commander, sustained multiple gunshot wounds in the head and body and died on the scene, said police Sgt. Gavino Africa.

Africa said the slaying was under investigation but police believed assassins of the communist New Peoples Army were involved.

The 19,000-strong NPA has been battling the Manila government for 21 years.

The military also reported a soldier and four guerrillas were killed in two weekend encounters in Quezon and Mindoro provinces.

Maj. Gen. Rodolfo Biazon, acting armed forces chief, told reporters troops on Sunday arrested a driver of dismissed Constabulary Col. Billy Bibit in his apartment in nearby Mandaluyong town. Bibit, who eluded arrest, is one of the key leaders of the rebels.

Biazon reported to Aquino Monday on the rebel attempt before dawn Sunday to spirit 70 high-powered firearms and ammunition out of the armed forces hospital armory in the Manila suburb of Quezon City.

Troops arrested four of the raiders and recovered the firearms.

Biazon said he had known about the hospital raid and planned a trap. He said the troops allowed the rebels to sneak out the weapons in a bus and an ambulance and tried to follow them in hopes it could lead to the capture of their leaders.

But Biazon said the rebels knew they were being followed and opened fire. A soldier and one of the four rebels were wounded in the brief gun battle.

Biazon said the incident showed military dissidents, who have tried six times to oust Aquino, no longer have the capability to mount another coup attempt.

''Staging another coup is going to be foolish on their part,'' said Biazon.

He added the four arrested were civilians, indicating the dissidents have failed to recruit supporters in the armed forces.

The army commander of the hospital and two of his aides were fired after the raid. Two sergeants also were arrested for allegedly sleeping on the

job, officials said.

#90253u1165 09/10/1990 ~United Press International
WASHINGTON (SEPT. 10) UPI - President Bush reported to foreign leaders Monday on his weekend summit with Mikhail Gorbachev, confident their show of superpower solidarity tightened the squeeze on Iraqi President Saddam Hussein.

''This sends from a major power, a superpower, a very strong message to him that he is not going to divide and conquer,'' Bush said Sunday while en route home from Helsinki, Finland. ''It's wonderful. We think it is superb.''

White House press secretary Marlin Fitzwater said Bush, who returned home to face not only the Persian Gulf crisis but tough negotiations with Congress on the budget, planned to telephone a number of foreign leaders about Sunday's talks with Gorbachev.

As allied and friendly governments welcomed the East-West unity displayed in Helsinki, Bush worked on a speech he will deliver Tuesday night to Congress and the American people on the confrontation with Iraq and the budget mess at home.

An upbeat Bush told reporters Sunday night on the flight home from Helsinki that he ''couldn't be more pleased'' with the outcome of his hastily arranged summit with Gorbachev.

In a firm if symbolic signal of East-West alignment, Bush and Gorbachev declared themselves ''united in the belief that Iraq's aggression must not be tolerated'' and threatened further unspecified action against Iraq if Saddam refuses U.N. calls to reverse his Aug. 2 takeover of Kuwait.

Though the two leaders essentially reaffirmed their earlier support for U.N. Security Council resolutions condemning the invasion and ordering a virtual trade embargo against Iraq, the show of East-West unity was designed to rachet up the pressure on Saddam.

''Nothing short of the complete implementation of the United Nations Security Council resolutions is acceptable,'' they said. ''Nothing short of a return to the pre-Aug. 2 status of Kuwait can end Iraq's isolation.''

Beneath the veneer of superpower solidarity lay subtle if definable differences, centered on the use of military force and intimidation to push Iraqi troops out of Kuwait.

Bush acknowledged he and Gorbachev did not agree on ''every nuance and

every question,'' but brushed aside their areas of disagreement by touting the ''loud and clear'' message the summit sent to Baghdad.

''There is no rift,'' he said. ''There are some differences, but not on the fundamental point. The fundamental point is there is a clarion call for compliance with these sanctions.''

The language flowing from the summit finale seemed more to follow what Bush characterized as Gorbachev's ''eloquent appeal'' to give diplomacy a chance than the bellicose rhetoric heard in defense of the massive deployment of American military forces in and near the gulf.

Bush was forced to play down U.S. concern about the continued presence of Soviet military advisers in Iraq as well as the American desire for expanded military cooperation to broaden the multinational facet of the U.S.-led containment of Saddam.

Gorbachev asserted the Soviet military advisers in Iraq - ''not so much advisers as specialists or experts working under contract'' - had dropped in number from 196 to 150 and would continue to leave as their projects were completed. Bush minimized that issue as ''not a major irritant.''

On the question of Soviet troops in the gulf region, Gorbachev, who extracted the Soviet Union from an expensive and painful 10-year occupation of Afghanistan, displayed little interest in seeing Soviet and American troops stand shoulder to shoulder on the Arabian Peninsula.

Gorbachev alluded to possible attempts at Soviet mediation and fresh prospects for diplomatic approaches to Iraq, which has been Moscow's closest ally in the Middle East. At the same time, he pointedly noted that the consequence of further military provocation by Iraq ''

Urging Saddam to ''display sobriety'' and ''look carefully at the whole situation,'' Gorbachev said: ''No one has any intention of trying to exclude Iraq from the community of nations. But what the present Iraqi leadership is going is driving it into a dead end, and I hope that President Saddam Hussein will heed this appeal to him.''

Consistent with the Soviet emphasis on a political settlement, the summit discussions dealt at length with the latitude and limits of the five U.N. Security Council resolutions on the conflict between Iraq and Kuwait, which was born of disputes over territory, money and oil.

The summit outcome lacked drama or surprise, but was lauded by a senior U.S. official as the first time the superpowers had been able to confront a Third World crisis ''and really talk with pretty much the same vocabulary.''

#90253u1181 09/10/1990 ~United Press International
WASHINGTON (SEPT. 10) UPI - White House and congressional negotiators trying to cut the multibillion-dollar federal deficit were ''going nowhere fast'' Monday, but the administration held out hope an agreement could be reached.

Treasury Secretary Nicholas Brady said he was ''not very optimistic'' that the deficit can be reduced enough before mandatory cuts kick in on Oct. 1, the start of the new fiscal year.

''President Bush called for the summit some 90 days ago on the basis that we simply have to reduce our deficit. I would say that talks are going nowhere fast,'' Brady said on the ABC program ''Good Morning, America.''

Little progress was reported in weekend negotiations at Andrews Air Force Base, 15 miles east of Washington, as the deadline for reaching a $500 billion deficit-reduction agreement approached.

Budget negotiators have given themselves an unofficial deadline of Monday to reach an agreement.

Bush had invited House Democratic leader Richard Gephardt of Missouri, who is taking part in the talks, to the White House for a Monday morning meeting, but that meeting was canceled late Sunday.

At a Monday morning staff briefing, budget director Richard Darman reported on the lack of progress. ''He was not optimistic,'' one official said, ''but left the door open that something could budget today.''

Bush, returning from Finland after a one-day summit with Soviet President Mikhail Gorbachev, is scheduled to address a joint session of Congress and the American people on Tuesday.

That address would be an ideal time for Bush to try to rally the nation behind the series of difficult and politically unpopular spending cuts and tax increases that are expected to be part of the deficit- reduction package being crafted by negotiators.

Upon arrival in Washington from Helsinki, White House Chief of Staff John Sununu said he had been in touch with the budget negotiators and could report ''not much progress'' in the talks. He said he expected the meetings would continue through Monday.

Democrats have prodded Bush since the talks began on May 15 to tell Americans about the sacrifices that would be needed to cut the soaring federal deficit. Bush has declined, however, saying he would prefer to address the nation after a budget agreement is reached.

If negotiators fail to reach agreement to cut the estimated $168.8 billion fiscal year 1991 deficit, it would on Oct. 1 trigger $105.7 billion in automatic spending cuts split between defense and domestic programs.

Negotiators are trying to craft a deficit-reduction package of $50 billion in fiscal 1991, which begins Oct. 1, and $500 billion over five years.

Both Democrats and Republicans have put several proposals on the bargaining table, but it was unclear Sunday how close or far away they were from final agreement. There had been reports, however, that negotiators had narrowed their differences in several key areas, including defense and domestic spending cuts.

#90253u1187 09/10/1990 ~United Press International

MOSCOW (SEPT. 10) UPI - The Soviet Parliament reconvened Monday for its fall session, facing the difficult task of implementing practical steps to

move toward a market economy while dealing with staggering shortages and widespread unrest.

''In effect, the session marks the end of the preparatory stage of perestroika, which resulted in the disintegration of the old political and economic system,'' the official Tass news agency said.

Monday's meeting of the Supreme Soviet, or Parliament, was devoted to a report by its chairman Anatoly Lukyanov and the consideration of an agenda that included 31 bills.

''We have entered a stage of serious tests,'' Lukyanov said. ''Sharp polemics are under way as to further ways of development of our state.''

The first controversy arose when Leningrad Mayor Anatoly Sobchak, a leader of the so-called inter-regional group of radical deputies, proposed an alternative agenda while saying the official agenda was full of secondary items.

Sobchak called for the resignation of Premier Nikolai Ryzhkov and demanded President Mikhail Gorbachev address Parliament on the state of the country.

''Today we have absolutely no right to leave in office a government that has proved incapable of pulling the country out of crisis,'' Sobchak said.

Preliminary debate on proposals for a move to a market economy was not expected until Tuesday, when Ryzhkov's government was to make its report on the transition to a market and urgent measures needed to stabilize the economy.

During its spring session, the Supreme Soviet rejected the government's previous proposal for ''transition to a regulated market'' and ordered it revised.

Ryzhkov favors a step-by-step transition to some sort of market economy. His revised plan is still conservative and envisages much continued central control, a stand that has led to numerous calls for his resignation.

A rival blueprint for the move to a market economy, developed by economist Stanislav Shatalin and a commission set up by President Mikhail Gorbachev and Russian republic leader Boris Yeltsin, calls for much more radical reforms to quickly privatize property and decentralize control.

Although Gorbachev, Yeltsin and other officials have said only one plan should be presented to Parliament, the two proposals had major differences and it was not clear what would finally be presented to the Supreme Soviet.

Ryzhkov told the independent Interfax news agency he would present his plan to Parliament and probably include ''analysis of some articles of the program worked out by Shatalin's group.'' He said he did not know if anyone would present the entire Shatalin program.

Shatalin told Interfax he did not know if his plan would be discussed by Parliament at all, although he was ready to present it if asked.

The Supreme Soviet convened after a summer of shortages of everything from bread to tobacco, and long lines at shops - common in the Soviet Union for years - have recently spawned consumer protests and even riots.

Inter-ethnic clashes and worker unrest have cut production and despite food shortages, much of a record crop is likely to be wasted because of problems with harvesting and transport including fuel shortages.

The country is behind on payments of foreign debt and Moscow has recently been selling hundreds of tons of gold to earn desperatly needed hard currency to pay for even more desperately needed imports.

Besides the economy, the Parliament must consider the idea of a new ''union treaty'' on links between the central government and the 15 Soviet republics, which have nearly all declared independence or sovereignty in the last six months.

Also on the agenda is a bill on freedom of emigration linked by the United States to better economic ties, as well as new laws on military reforms and freedom of conscience.

-30- 4117

#90253u1189 09/10/1990 ~United Press International

YAMOUSSOUKRO, IVORY COAST (SEPT. 10) UPI - Pope John Paul II, praising the ''generosity'' of President Felix Houphouet-Boigny, Monday consecrated a $200 million basilica that the Ivory Coast head of state regards as the crowning achievement of 30 years of one-party rule.

''This basilica has been built, by the head of state, to render homage to Our Lady, to render homage to Christ the Redeemer, who calls all men to join in the union of his body,'' the pontiff told 100,000 people gathered for a three-hour Mass in and outside the vast building.

The basilica, taller than St. Peter's in Rome, towers over the coconut plantations and tin shacks of the country's political capital, Yamoussoukro, 150 miles from the capital of Abidjan.

John Paul, dressed in a white miter and a white cassock, made no direct reference in his homily to the estimated $200 million cost of the Basilica

of Our Lady of Peace, which has 272 pillars and seating for 7,000.

But the Polish pope praised the 85-year-old Roman Catholic president for paying for a hospital and a Catholic university that Houphouet-Boigny agreed to build near the basilica at the request of the Vatican to show the concern of the Holy See that social problems not be neglected.

The pope said that ''thanks to the generosity'' of Houphouet- Boigny, ''close to this sanctuary there has been built a social center, the International Foundation of Our Lady of Peace, to join under the same roof the gatherings of faith and the concrete service of brothers.''

''This service will be carried out by a hospital, of which I will bless the cornerstone at the end of this ceremony, and by an institute for the formation of youth,'' John Paul said.

Hundreds of armed police kept all but 10,000 invited guests outside the acres of formal gardens that surround the basilica. Foreign dignitaries attending the mass included Paris Mayor Jacques Chirac and South African Foreign Minister Pik Botha.

John Paul effectively rejected the controversy over the cost of the building, which was constructed out of the president's personal fortune, at a time when the Ivory Coast, with a Roman Catholic community of only 10 percent of the population, has a foreign debt of $15 billion.

''Every sanctuary is a place chosen to worship God, so that all believers gather in his presence to listen to his word,'' the pope said.

''In every epoch and in all the continents, the sons of the church have consecrated the best of their art to building these visible signs that help understand that God lives in the midst of his people, that the church of Christ is founded on the land of men.''

A choir of 100 sang a mixture of traditional hymns and African songs during the mass, which was attended by 50 cardinals and bishops.

The impeccable organization of the event went awry only once, when a heavy light fell from high on a wall behind the altar during the service and barely was saved by its cable from crashing to the floor.

Police reported no incidents during the mass, which authorities had feared might become a focus for anti-government protests. Houphouet- Boigny agreed in July to accept plans for multi-party democracy.

Yamoussoukro, the birthplace of the aging president, was the last stop on the pope's African tour that also took him to Tanzania, Burundi and Rwanda.

#90253u1191 09/10/1990 ~United Press International
PHILADELPHIA (SEPT. 10) UPI - Sen. John Heinz said Monday he was surprised to find U.S.troops in Saudi Arabia in such good spirits. The troops did, however, question Americans' support of their role in the Middle East.

''What I found was that our young men and women had very good morale, that they felt they were being well provided for in spite of the very harsh conditions,'' said Heinz, R-Pa., at a news conference. ''But they had two questions.

''They wanted to know whether the American people were really behind them. They were a little bit worried this might be Vietnam doubt that's in the back of everybody's mind,'' Heinz said of his Labor Day weekend trip to Saudi Arabia. They also wanted to know what the news was back in the states.

The Pittsburgh senator was in Philadelphia to host a women's conference and meet with a handful of relatives and friends of U.S. soldiers sent to defend Saudi Arabia after Iraq invaded Kuwait Aug. 2.

-30- 1146
#90253u1193 09/10/1990 ~United Press International
BRUSSELS, BELGIUM (SEPT. 10) UPI - The landmark U.S.-Soviet agreement on troop levels in Europe has been ''overtaken by events'' and should be re-examined, U.S. Secretary of State James Baker said Monday.

The pact allowing 225,000 U.S. troops and 195,000 Soviet troops was rendered obsolete by the Soviet Union's agreement in July to withdraw all its troops from East Germany within four years, Baker said after a meeting of NATO foreign ministers.

The U.S. and Soviet troop levels, to be incorporated into the Conventional Forces in Europe (CFE) talks in Vienna, were agreed to in February at the Open Skies conference in Ottawa.

''The understandings that were reached in Ottawa have been overtaken by events,'' Baker said. ''So the question of the overall levels of U.S. forces is one that is very much in the air.''

He said he would likely discuss U.S. and Soviet troop levels in Moscow, where he was slated to arrive late Monday after his visit in Brussels.

Baker's comments followed a report that the chief Soviet CFE negotiator told U.S. negotiators that U.S. troop levels should be reduced to between 70,000 and 80,000, due to the slated withdrawal of Soviet forces from

Eastern Europe.

The United States now has about 305,000 troops in Europe.

The Soviets agreed to withdraw their troops within four years in July 16 talks between Soviet President Mikhail Gorbachev and West German Chancellor Helmut Kohl in the Soviet Caucasus Mountains. The agreement, which allows a united Germany to remain in NATO, also calls for a limit of 370,000 troops in a united Germany within four years.

An overall CFE agreement is sought in time for a Nov. 17 summit, in Paris, of the 35-nation Conference on Security and Cooperation in Europe. That conference includes all of Europe except Albania, plus the United States and Canada.

#90253u1195 09/10/1990 ~United Press International

SANTA BARBARA, CA (SEPT. 10) UPI - Responsible nutritionists have carped about diet and heart disease for more than three decades. The American Heart Association has sermonized about its ''prudent'' (30 percent fat) diet for almost as long. Prevention, the battle cry went. Practice prevention. But prevention is a crusader's game lacking punch. We want cure.

At last, after decades of scholarly bickering and academic hype, we do have the hint of a cure. Dean Ornish of San Francisco and his associates reported recently in the The Lancet, the British medical journal, that a strict, low-fat vegetarian diet, moderate aerobic exercise, stress management training, abstinence from smoking and group support - including meditation, but no medication - can actually turn the disease, atherosclerosis, around.

In work going back more than a decade, another group, led by David H. Blankenhorn of Los Angeles, who also made its evaluations with before-and-after X-rays (angiograms), showed that atherosclerosis in leg arteries and in heart arteries (the coronaries) can be made to regress-another hint of a cure.

Blankenhorn used cholesterol-lowering drugs, however, along with a moderate diet, while Ornish foregoes drugs. His program features a diet with only a third of the fat (10 percent fat) that the American Heart Association has recommended. This 10 percent fat program, by the way, is similar to a regimen advocated by diet expert Nathan Pritikin since the late 1970s without, in Pritikin's case, enough scientific evidence to win over the nutritional establishment.

If the nutrition experts should be persuaded now, their concept and

management of the disease will be changed. Although practicing physicians may have proffered hope, they have believed that atherosclerosis, once evident, advances like a tank force overrunning a village, relentlessly. Hence the stress on prevention; deter the invasion. Therefore we have had the American Heart Association prevention diet, which has been bedeviled by controversy.

There also has been controversy associated with cholesterol control, with some expressing doubt about the life-saving value of low cholesterol intake. Responsible medicine likes good evidence, but its collection on these matters could take decades. Meanwhile, coronary heart disease must be managed.

Current management utilizes drugs and surgery as well as diet and lifestyle advocacy. When they learned that a blood clot may be the final episode that blocks a diseased blood vessel, causing a heart attack, researchers turned to clot-dissolving drugs - as we turn to Drano for a plugged pipe. These important drugs may have reduced heart-attack mortality by as much as 40 percent. One of them, TPA (tissue plasminogen activator), at $2,200 per treatment, became the fastest selling new drug in history. Cholesterol lowering drugs, too, such as the ones Blankenhorn used, play a role, and by reducing the likelihood of heart attacks a whole array of antihypertensive medications have an indirect effect on the ravages of coronary heart disease.

After decades of blundering surgical attempts, prospects for invasive treatment changed dramatically in 1967 with coronary artery bypass grafting. A medical industrial complex of instrument makers, hospitals and practitioners materialized to be nourished by the not quite bottomless resources of medicare and private insurance. Sound reasons for performing this operation emerged slowly. There is evidence, unfortunately, that as many as one-half of the operations, as now practiced, may be unnecessary.

Coronary angioplasty - less invasive, less expensive - has intruded on the bypass terrain with a confusing fanfare of technical innovations and a host of relatively inexperienced practitioners, but without adequate evidence of precisely when it might help. In any case, local repair by either of these invasive techniques is something like putting out small flare-ups while the forest burns. They may be disconcertingly late and temporary; often they are not clearly better than non-surgical management. Thus we return to the possibility of diet as a decisive alternative to both drugs and surgery.

What now? Coronary heart disease, our country's biggest killer, threatens each of us, in the long run, far more vitally than does Iraq or cocaine. By middle age we're apt to harbor a few hardened arteries. If a vegetarian regimen will reverse the dread process in those already disabled, shouldn't we all heed the message and go on the 10 percent diet?

Ornish is cautious. "The point of our study," he says, ''was to determine what is true, not what is practicable." Adherence to the lifestyle program needs to be very good, he adds, for regression to occur. His austere diet provides no animal products except egg white and one cup per day of non-fat milk or yogurt.

His study is sure to come under criticism. It was small (28 patients in the experimental group and 20 in the control group), and it tells us nothing about the most important end point: Does the program prolong life? The only death during the yearlong study occurred in the experimental group, involving what the study described as a patient who greatly exceeded exercise recommendations in an unsupervised gym.

Could the regimen actually harm some people, as may be the case with cholesterol lowering regimens? This isn't known. At any rate, in the program's favor, even if death is not postponed, or postponed only a little, one might hope that restoration of a vigorous blood flow would somehow ease the pain of aging.

#90253u1201 09/10/1990 ~United Press International

(SEPT. 10) UPI - Iraq is offering free oil to third-world countries that want to send tankers to pick it up. The offer is seen as a way to divide countries on the Persian Gulf crisis... but it's unclear what would happen if the tankers try to run the naval blockade around Iraq. Saddam Hussein is engaged in other fence-mending, renewing diplomatic relations with Iran after the two fought a bloody eight-year war.

President Bush is back in Washington as Congressional leaders try to work out a budget deficit compromise before the current fiscal year ends September 30th. Bush listed his own satisifaction with results of yesterday's five-hour summit with Soviet President Gorbachev. The two did NOT agree on everything at the Helsinki talks, but Bush says the results still send a strong message to Iraq.

Two U-S warships and more than 500 sailors arrived in the Soviet port of Vladivostok today. The official visit by the cruiser U-S-S Princeton and the frigate U-S-S Reuben James is the first American port call at the far eastern Soviet city since the lend-lease program of World War Two. It's part of a naval exchange under improved U-S-Soviet relations. Vladivostok is the chief Soviet port and naval facility in the Pacific. Until recently was closed to all foreigners.

Military sources in Warsaw say Poland is considering buying American F-16 or French Mirage 2000 jet fighters. The sources say Poland is turning to the West because Moscow hiked prices for its aviation equipment and is

reluctant to sell it. A newspaper says the Kremlin has turned a cold shoulder to Polish military negotiators who recently conducted talks on the purchase of Soviet MiG- 29 jet fighters.

Pope John Paul continues his latest tour of Africa by consecrating a 200-Million-dollar basilica today in the Ivory Coast, a country with grinding poverty and a 15-BILLION-dollar debt. The church is taller than St. Peter's in Rome and it can hold seven-thousand worshipers. There were 10-thousand guests invited to hear the pontiff... armed police kept everyone else away.

#90253u1205 09/10/1990 ~United Press International

DALLAS (SEPT. 10) UPI - Complications from balloon angioplasty have not declined despite a decade of experience and improved technology in the surgical procedure used to clear blocked heart arteries, a study showed Monday.

About 250,000 Americans undergo angioplasty annually to reopen the vessels that supply blood to the heart muscle. But 5 percent to 10 percent of those attempts wind up closing down, rather than re-opening, the occluded vessel.

During angioplasty, a thin tube, or catheter, with a tiny deflated balloon on its tip is introduced into a vessel and pushed until the tip reaches the disease-narrowed artery. When the balloon is inflated, the narrowed segment of the artery is dilated, or widened.

Angioplasty is done as an alternative to open-heart surgery, but 35 percent of the patients in whom the procedure fails to keep the blocked vessel open still require bypass surgery, researchers with the National Heart, Lung, and Blood Institute's angioplasty registry reported in the journal Circulation.

Researchers said closure of the treated artery remains a serious complication, and ''one of the most important risk factors'' for in-hospital deaths and heart attack.

''After hospital discharge,'' they report, ''an excess mortality continued in the occlusion groups.''

Dr. Katherine Detre, an epidemiologist at the University of Pittsburgh directed the study of 1,801 patients who underwent angioplasty during 1985 and 1986 at 15 medical centers in the United States and Canada. She also directed the registry's initial evaluation of the safety of angioplasties performed in 1977-81, when the procedure was first being used in humans.

''We reopened the registry because we wanted to see whether the results had improved,'' Detre said.

Instead, researchers found the rate of complications was unchanged from the first study, mainly because the procedure is now being used in higher risk, older patients with more extensive coronary artery disease.

Dr. Daniel Kulick, cardiologist at Mission Regional Medical Center in Mission Viejo, Calif., said ''virtually 100 percent of the time,'' balloon dilation causes a small tear in the inner lining of the treated vessel. Most of the time there are no adverse results, but the torn lining may form a flap that can close off the artery, blocking blood flow.

''Sometimes when we do angioplasty, we make things worse rather than better, and the vessel goes from being partially blocked to being totally blocked,'' Kulick said.

Recent technology advances have given angioplasty operators better images of the narrowed arteries. Improved catheters as well as metal coils, called stents, that can be left in the artery to keep it open after the balloon has been deflated have been developed, he said.

As a result, the number of patients who need emergency bypass surgery during angioplasty may be much lower in 1990 than it was during the mid-80s when the registry data were collected.

Kulick also says devices that may become available within the next year or two may reduce the need for emergency surgery even further.

Circulation is a journal of the American Heart Association.

#90253u1210 09/10/1990 ~United Press International

BANGKOK, THAILAND (SEPT. 10) UPI - The Thai cabinet, after years of delays, formally approved Monday a Canadian company's proposal to build a $1.69 billion ''skytrain'' project to ease Bangkok's worsening traffic congestion.

A government statement said the cabinet's economic ministers granted the contract for an elevated railway to the Lavalin International Group - partly owned by the Canadian Government - to construct a modern mass transit system for Bangkok.

The award, after 20 years of studies, delays and changes, appeared to end the hopes of Lavalin's main competitor, the Asia Euro Consortium, to undertake the project.

The award came amid rising public criticism of the government for failure to take effective action against traffic congestion that wastes millions of manhours and millions of dollars each year in massive traffic jams.

Investment in the first phase of the project will be $1.69 billion, the statement said.

The statement said construction was set to begin next year and that service on the first route was expected to start in 1995. The second route of the first stage was scheduled for completion in 1997.

The skytrain project has been under consideration since 1970, but previous Thai governments failed to make any final decisions on the system.

The statement said Thailand promised to grant investment promotion privileges, including tax exemption on overseas loans to Lavalin.

''The government will receive about $3.5 billion in dividends from the project during the period of the 13th to 30th years, for an average return of 21 percent,'' the statement said.

#90253u1212 09/10/1990 ~United Press International

LONDON (SEPT. 10) UPI - Freed Irish hostage Brian Keenan said Monday he believes Terry Waite, who was taken hostage in Lebanon nearly four years ago, is alive.

For the first time since he was freed last month, Keenan revealed details about Waite's captivity in a basement cell, saying the envoy to the archbishop of Canterbury was being held alone and had been ill at one point.

''I know Terry Waite is alive,'' Keenan told the Independent Television News in an interview from County Donegal, Ireland.

''I know that he has been ill ... I heard him coughing very heavily at night. The illness I do not think is serious.''

Keenan said Waite was held in the same ''apartment'' as he and Briton John McCarthy, and had frequent visits from his captors while he was ill. McCarthy remains in captivity.

Keenan told ITN his door was adjacent to Waite's, and through it he heard the guards frequently call the hostage ''Terry.''

Although he never saw Waite's face, Keenan said he was able to identify him by listening to his English accent and seeing large shoes which he

thought belonged to the tall Briton, who has been called ''a gentle giant.''

''We always counted the number of people being taken to the toilet. We knew there was another hostage. We knew it wasn't Terry Anderson. ''

''When he was being taken to the toilet there was a large pair of shoes to walk about to the bathroom, plastic sandals,'' Keenan said.

Waite had for six years negotiated with Iran, Libya, and Lebanon for the release of Western and other hostages before he disappeared Jan. 20, 1987, on a mission to Lebanon. The year before he was kidnapped, Waite had worked for the release of American journalist Anderson, who is still being held.

The Bergen Record in New Jersey noted in an editorial that Anderson marked his 2,000th day in captivity last Wednesday. Anderson was chief Middle East correspondent for the Associated Press when he was captured March 16, 1985 and has been a prisoner for longer than any of the 13 Western hostages.

The Record said Keenan had described Anderson ''pacing a cell in tattered socks, desperate for conversation. He and the others are leading lives of monotony, of dread, of isolation that brings them near the brink of madness.''

Keenan, in his interview with ITN, said he had seen Waite being interviewed on television several times before he went to Lebanon, and knew he was a tall, soft-spoken man.

He also described some of the conditions under which Waite was held.

''He had been kept for a long time in a room in which there was a small generator to generate electricity because the power situation in Lebanon ... they don't have any,'' he said.

''So he was sitting listening to this six hours a day, pounding, pounding, pounding in his ear.''

While Keenan, 39, was held for most of the 4 1/2 years with McCarthy, whom he said helped make their captivity bearable through his wit and mimicry, Waite was held on his own.

Keenan said he thought Waite must be despondent after being in solitary confinement for three years, eight months.

''I think he must be distressed, and he must have very, very black, painful times.''

Keenan said he was hopeful for Waite and McCarthy would be released because his captors had told him before his release three weeks ago that the British hostages could be freed within months, ITN said.

McCarthy and Keenan were taken hostage by an Islamic group in April 1986 after the U.S. bombing of Libya. No one has claimed responsibility for Waite's capture.

A spokesman for the archbishop of Canterbury, Robert Runcie, told ITN Keenan's remarks about Waite were the ''most concrete news'' of Waite the church had received. Spokesman John Lyttle said he believed the news would inspire Runcie to reinforce his efforts to get Waite released.

''There are considerable indications from Tehran that they are anxious now to dispose of this problem altogether, to use their influence to bring about the release of the remaining hostages,'' Lyttle said.

He praised Keenan's ''enormous spirit.''

#90253u1215 09/10/1990 ~United Press International

FOXBORO, MA (SEPT. 10) UPI - The Foxboro Co. said Monday it has laid off more than 300 employees at its Foxboro headquarters and expects to slash another 500, also mostly in Massachusetts, by the end of the year.

With another 800 jobs to be eliminated in Europe, the cuts represent more than 12 percent of the process equipment maker's worldwide work force of 6,400.

The announcement came only days after the company was sold to Siebe PLC of England.

Siebe also confirmed that it had dismissed Gary K. Willis, the Foxboro president and chief executive officer who negotiated the sale of his company to Siebe.

On Friday the ''roughly some 300 plus people were let go'' in Foxboro, said John C. Fuller, a company spokesman. ''Not too many people in the manufacturing area'' were dismissed, Fuller said. The cuts were ''a lot of overhead people, a lot of types of functions you just don't have when you're a subsidiary of another company ... some finance, some legal people p.r., functions like that,'' he said.

Foxboro has two plants in Foxboro, one in East Bridgewater and a fourth in Plymouth. The Plymouth plant had already been earmarked for closing.

Foxboro also said it will ''out source'' certain components, that is, buy them from other producers rather than continue making them itself. However the company said it will close a manufacturing plant in Redhill, England, and transfer the work and 180 jobs from it to Foxboro, thus reducing the number of U.S. jobs eliminated.

E. Barrie Stephens, chairman of Siebe, said the ''repositioning was absolutely essential for us'' to take advantage of global markets, improve manufacturing, better focus technology and streamline its infrastructure.

In Europe, Foxboro manufacturing operations in Holland and England will be closed and the company's European headquarters moved from Redhill to Germany.

All laid off employees will receive a minimum of six months' severance pay Fuller said.

Stephens said that ''while the path we have chosen is ambitious and initially painful, especially for the people directly impacted, the results of these actions will be improved prosperity and growth. Increased revenues and income will allow us to invest in future technology and capital equipment....''

#90253u1222 09/10/1990 ~United Press International

LONDON (SEPT. 10) UPI - Stock prices closed higher Monday on the London International Stock Exchange encouraged by better-than-expected provisional retail price figures and the Helsinki summit.

The blue-chip Financial Times 100-stock index, which added 2.0 points Friday, closed up 24.1 points to 2,147.0. The narrower top 30 industrial average gained 16.6 points to 1,655.1.

Volume amounted to around 296 million shares, compared with 332 million shares changing hands Friday.

Analysts said prices were boosted by a favorable report from the Central Statistical Office showing Britain's retail sales volume fell a provisional 1.6 percent in August from July and was up 0.4 percent from August 1989.

Market watchers said the figures were taken as positive, showing consumer spending was coming under control, which would help in the battle against inflation.

In a seperate report, the CSO reported Britain's producer output prices, or prices of manufactured goods, rose 0.2 percent in August from July

while producer input prices, or prices of raw materials and fuels purchased by manufacturing industry, rose an unadjusted 0.8 percent in August from July.

Analysts were expecting input prices to rise 1.2 percent and output prices to have risen 0.4 percent.

Analysts said prices were also helped by the strong performance in Tokyo where stocks posted their sixth-largest daily gain in percentage terms in history.

Although the Middle East overshadows the market, one market watcher noted the show of unity between Soviet President Mikhail Gorbachev and President Bush in condemning Iraq over the weekend, helped to boost sentiment.

Among the most widely traded stocks, oil stocks slumped as the price of Brent crude oil slid below $30 a barrel.

London Scottish & Marine Oil fell 18 cents to $8.60 under the price slide and on rumors of a large line on offer.

The oil price fall had a beneficial effect on some industrial shares.

Imperial Chemical Industries gained 32 cents to $16.08, while BOC Group gained 34 cents to $8.87.

Grand Metropolitan gained 21 cents to $10.18 in anticipation of a report on its pub-swapping deal with Elders, while Guinness shares advanced 18 cents to $12.65.

Elsewhere in Europe, stocks closed higher in light trading on the Frankfurt Stock Exchange in what analysts called a purely technical rally.

The weighted German Stock Index or Dax, which gained 5.8 points Friday, gained 37.53 points to 1,600.45.

Market watchers said prices were boosted by the strong performance in Tokyo.

#90253u1233 09/10/1990 ~United Press International

SANTA ROSA, CA (SEPT. 10) UPI - An abalone diver got an unusual view of a great white shark: from the inside.

''My head was in its mouth,'' Rodney Orr, 49, said. ''I could see the teeth at an angle.''

Orr was on a paddle board in the Pacific Ocean about 25 yards offshore at Russian Gulch Beach near Jenner, Calif., Saturday when a huge shark rammed the board, knocked him off and gripped him in its jaws.

Orr tried to beat off the shark with a spear gun, but didn't fire the device.

''I resorted to being a cave man and clubbed it,'' he said. ''I was beating on him something fierce. I wasn't going to take this sitting down.''

The shark let go and Orr paddled back to shore, suffering only from a few gashes on his face and neck.

''It was a really frightening experience,'' said Orr in his Santa Rosa home, where he was recovering after receiving numerous stitches at a hospital. ''You think you know what is going to happen to you, but then you really don't.''

The shark's mouth was as wide as a man's shoulders, one official said.

Orr, who survived a similar attack several years ago, said his diving hood probably saved him from more serious injuries.

#90253u1237 09/10/1990 ~United Press International

LONDON (SEPT. 10) UPI - One of the most revered items in the English gentleman's wardrobe has gone the way of Levis, braces and waistcoats.

Girls at Britain's oldest private school, The King's School in Canterbury, are now wearing wing collars. Until the new autumn term, the distinctive stiff turned-up shirt collar worn with the points turned down over the tie was reserved exclusively for boys.

Formerly, the girls were simply required to wear black and white, or sometimes gray, to complement the boys' uniform, which is a black jacket, pinstriped trousers, white shirt, detachable wing collar and black tie.

Now all girls are expected to wear a specially designed uniform: black jacket, pinstriped skirt and the ubiquitous wing collar.

''The new uniform is not as relaxed as the old one, but it is smart,'' said Beverly Tarr, a senior girl. ''Girls used to look scruffy compared to the boys. It is good to look like the boys and keep up the tradition of the school. After all, the wing collar is synonymous with King's.''

Founded in 597 by St. Augustine, The King's School has been educating boys

for nearly 1,400 years. Past pupils include Christopher Marlowe, Somerset Maugham and, more recently, David Gower, a cricketeer.

Girls have been admitted to King's at age 16 for some time, but this year the school has been made fully co-educational with the arrival of 30 13-year-old girls.

The enrollment is 549 boys and 158 girls. Boarding fees are the equivalent of $17,600 a year.

#90253u1238 09/10/1990 ~United Press International

BANGKOK, THAILAND (SEPT. 10) UPI - War, mismanagement and human encroachment has destroyed more than half of Vietnam's forest cover in the last 40 years and Vietnam is looking for international help to stop the destruction, officials said Monday.

The Vietnam News Agency said senior officials from the Vietnamese Ministry of Agriculture and international agencies met with ambassadors from potential donor countries in Hanoi recently to analyze Vietnam's rapid deforestation.

''It was a very probing kind of meeting. We wanted to explain the seriousness of the situation and find out the interest of international donors in helping Vietnam with its environmental difficulties,'' said Y.S. Rao, regional forestry officer for the Food and Agriculture Organization in Bangkok.

Rao, who addressed the meeting, said the initial reaction was positive, but more work is needed to develop specific project proposals.

He said Vietnam, with 57 percent of its territory covered by forest in 1940, now has only about 24 percent forest cover left.

VNA said forests continued to be destroyed at a rate of more than 770 square miles per year.

The agency said years of war and a doubling of the population were to blame for the deforestation. Other Vietnamese sources have blamed government mismanagement and the failure to give peasants any stake in forest lands as other causes.

''The overall ramifications to Vietnam's forest resources are extremely serious: soil erosion leading to flooding, reduction of fuelwood, energy reduction for industrial use, harmful effects on agriculture, to name a few,'' the agency said.

Rao said the lack of forest cover on much of Vietnam's hill country has sharply increased silting of streams and rivers and has also shortened the useful lives of irrigation and hydropower projects.

He blamed part of the problem on ''shifting cultivation'' by hill tribesmen who cut down forests, plant crops for a few years until the soil is exhausted and then move on to new areas.

''Many slopes are completely bare, but dealing with the hill people is a sensitive political problem,'' he said, adding such mobile farmers are operating in some 38,000 square miles of forest.

Defoliants such as ''Agent Orange'' dumped on parts of Vietnam by U.S. forces during the Vietnam War also had a destructive impact, he said.

Rao said the Vietnamese government has accepted the seriousness of the problems and has begun to take action.

One idea under consideration is to lease forest land to private owners on 30-year leases on the condition they reforest the land for commercial sales to timber and paper mills. There are also programs to encourage better watershed management, he said.

Vietnam has joined the Tropical Forestry Action Plan, a grouping of 66 countries working with U.N. organizations to reduce deforestation.

''The Vietnamese understand that deforestation is a long-term threat to their agriculture,'' Rao said.

#90253u1252 09/10/1990 ~United Press International

JOHANNESBURG, SOUTH AFRICA (SEPT. 10) UPI - The government-controlled council in the white town of Parys cut off all electricity and most water to a neighboring black township Monday in a bid to force payment of arrears in utility bills.

Council Secretary Joop Ferreira said police had been summoned to patrol the increasingly tense township following the decision to cut all electricity and 90 percent of water to the 40,000 residents of Tumahole, outside the conservative Orange Free State province town.

He said Parys ''is not punishing the township residents for being black,'' but could no longer afford to make payments to utility companies on their behalf.

The town's action coincided with the beginning of a sixth week of bloody factional violence in townships around Johannesburg and the death of seven

people overnight.

Police reported stone-throwing and vehicle-burning early Monday in Katlehong township, to the east, and a Katlehong Hospital official said several people were admitted with gunshot wounds.

In Soweto, unknown assailants shot or stabbed the seven to death in Tladi and Naledi suburbs, a police spokesman said. The casualties pushed to 33 the number of people killed in Soweto over a weekend of sporadic battles and to about 600 the death toll since the fighting began Aug. 13.

The strife is unrelated to payment boycotts, but black leader Nelson Mandela will meet with President Frederik de Klerk Tuesday to discuss ways to stabilize townships and ensure a return to peace.

More than 50 townships nationwide have been boycotting service payments for periods ranging from months to years, at a total cost of about $780 million, over allegations that their racially based local administrations provide poor service.

Tumahole is the second township to face cutoffs. The town of Carolina in the northern Transvaal province ended services to Silobela for two days late in August as a warning measure.

Planning and Provincial Affairs Minister Hernus Kriel formally opened the way for mass cutoffs Aug. 30, when he said the government would stop all bridging finance to local authorities for the provision of services to non-paying neighboring communities.

''We simply couldn't afford to support Tumahole any longer,'' Ferreira said, noting the township owed $78,000 in arrears over the past three months.

The seven town councillors, all members of the ruling National Party, ''are not anti-black... it's that the people of Parys will not stand for it if we keep pouring money into Tumohale,'' Ferreira said.

He noted the council held talks through Monday with township representatives. ''They will be taking the issue to the people. But we have given them weeks of warnings.''

Kriel said last month electricity and water cutoffs would be at the discretion of controlling authorities, which could decide what utilities to curtail and when.

Townships have alleged the services they receive are often not worth the payments required and are sometimes administered by officials insensitive to the needs of poverty-stricken residents.

But the government has replied that regardless of the arguments against payment, it can no longer supply finance to boycott-hit authorities and indifinitely pay for services provided.

Kriel noted the government was ''unhappy'' with developments and said, ''This is a financial issue, not a political issue. If you want services you must pay... it is as simple as that.''

Mandela and a high-level delegation of his African National Congress will meet a government team under De Klerk at the Union Buildings government complex in Pretoria to ''focus on the violence'' which killed the seven people overnight, the ANC said Monday.

Emergency rule imposed in the 27 hardest-hit townships straddling Johannesburg Aug. 26 failed to quell the country's worst-ever suburban internecine conflict. Troops and police enforcing effective martial law have since been accused of excess violence and abusing their authority.

Mandela has branded the three-month renewable emergency measures ''totally useless,'' noting a 51-month-old state of emergency in strife- torn Natal province has failed to stem battles between the ANC and Inkatha which since 1987 have killed up to 4,000 people.

But Mandela has refused to meet directly with Inkatha President Mangosuthu Buthelezi, charging the Zulu chief with fomenting the conflict to undermine the ANC's preeminent position among black movements before formal power-sharing talks with the white minority government.

JOHANNESBURG, SOUTH AFRICA (SEPT. 10) UPI - Diamond-mining giant De Beers

has reached agreement with the National Union of Mineworkers on a wage package providing for wage increases of up to 17 percent for some 10,000 workers, De Beers said Monday.

The agreement raises the lowest level wages by 17 percent to a minimum of $300 from $247 per month and highest skilled worker categories received a 16 percent increase.

The deal covers 10,000 workers, most of them represented by the NUM, at five De Beers mines and a geological research section.

De Beers, which mines gem and industrial diamonds, also markets through the Central Selling Organization more than 85 percent of the world's diamond production.

The annual increase put De Beer's lowest paid workers over minimum wage standards in South Africa. NUM, regarded as a prime mover in the push for a statutory minimum wage, already has adopted the minimum wage of $272 as policy.

Independent labor analysts estimate household subsistence levels at $259.

Annual wage negotiations between De Beers and the NUM briefly broke down in 1989, triggering eight days of national strike action - the first in the company's history.

#90253u1264 09/10/1990 ~United Press International
NEWPORT, RI (SEPT. 10) UPI - A judge Monday sent a 77-year-old woman to prison until she reveals the whereabouts of two granddaughters who have been missing for five years.

Superior Court Judge Mark A. Pfeiffer signed an order that will keep Mary Pigeon of Warwick in jail until she produces Kimberly and Kelly Ann Yates or provides the identities of those who know where the children are, a court clerk said.

Pigeon was sent to the women's unit of the state prison complex.

Pigeon's daughter, Elaine Yates, took the children from their Warwick home in August 1985. Kimberly was 3 at the time, and Kelly Ann was 10 months. Yates' husband, Russell Yates Jr., filed a civil suit against Pigeon in the hope of finding his children.

Pfeiffer told Pigeon last month she would be imprisoned if she did not say where the children are, but Pigeon stuck to her contention that she does not know. The judge has concluded Pigeon does know where the children are and the state Supreme Court has backed him up.

At an Aug. 15 hearing, Pigeon's lawyer, Daniel Schrock, said his client was scared about going to jail, and he hoped Elaine Yates would contact Pigeon and somehow settle the matter.

Russell Yates said he was pleased with the prospect of Pigeon going to prison, but doubted that his mother-in-law would relent unless her daughter tells her to do so.

''She'll sit (in prison) until hell freezes over,'' he said.

-30- 1632
#90253u1292 09/10/1990 ~United Press International
(SEPT. 10) UPI - ESPN, without a president and chief executive officer since Roger Werner unexpectedly resigned Aug. 29, will promote Steve Bornstein to the cable network's top spot, United Press International learned Monday.

Television sources said Bornstein, ESPN's executive vice president for programming and production, will take over the largest basic cable network with more than 56 million subscribers.

Bornstein, 38, was overseeing the network's program acquistions and scheduling, programming, ''SportsCenter'' news and highlight shows, engineering and operations departments. He joined ESPN early in 1980 as program coordination manager and became the No. 1 production presence in May 1988.

Under Bornstein, ESPN has won five Emmy and 13 ACE awards for cable broadcast excellence.

Werner, the president and CEO for two seasons, resigned to head Prime Ventures Inc., a new company being formed by television sports mogul Bill Daniels.

Werner's resignation came on the heels of unexpected losses in ESPN's first year of a four-season, $400 million baseball package. Werner now predicts a loss of $40 million this season, about $10 million more than the original forecast.

ESPN, which began televising NFL games in 1987, says it will break even this year on its football investment. The decade-old network paid $446 million for three years of half-season coverage.

''We have a group of people at ESPN who love what they're doing, and we will continue to capitalize on that,'' Bornstein said before the baseball season.

The network, which had pretax 1989 earnings of more than $100 million, expects profits short of that number.

''ESPN is extremely well positioned to have another 10 years of growth, at least,'' Werner said.

(SEPT. 10) UPI - NASA managers could set a new launch date for the shuttle Columbia as early as today now that engineers have replaced leaking fuel pumps aboard the spacecraft. The managers are optimistic Columbia will be ready for another blastoff attempt around September 17th... ending a four-month launch drought.

Convicted double murderer Charles Troy Coleman was executed by lethal injection early today at an Oklahoma prison. The 43-year-old Coleman was the first person executed in that state in 24 years. He requested that several passages be read from the Bible before he was put to death.

Governor James Thompson of Illinois today refused a clemency petition for condemned killer Charles Walker, saying Walker himself has made clear that

he wants to die. The 50-year-old Walker is scheduled to die by lethal injection at 1:01 a-m Wednesday for killing a couple during a 1983 robbery.

The Illinois Prisoner Review Board announced today that mass murderer Richard Speck's petition for parole had been denied without comment. Speck was convicted of killing eight student nurses in Chicago 24 years ago... a crime that shocked the nation. He cannot re-apply for a parole again before September 1993.

A couple of economics researchers at Florida State University of Tallahassee report that most drug abusers apparently are NOT driven by their addictions to commit violent crimes or property crimes. They say a study they conducted for the Florida Legislature disclosed that the drug abusers may be NO more of a threat to society than people who use alcohol.

JAKARTA, INDONESIA (SEPT. 10) UPI - In the first major breakthrough aimed at ending the 11-year-old Cambodian conflict, the warring factions agreed Monday to unify behind a new United Nations seat and endorsed the world body's peace plan.

Although resistance leader Prince Norodom Sihanouk unexpectedly announced he is taking a six-month leave of absence for reasons of health, his three-party coalition and Cambodian Prime Minister Hun Sen unanimously supported the formation of a Supreme National Council.

It would embody Cambodian sovereignity and hold the U.N. seat prior to free elections.

''We have now entered a new era when a comprehensive political settlement can be achieved,'' said Indonesian Foreign Minister Ali Alatas, who had hosted three unsuccessful peace conferences in Jakarta and co-hosted the international talks in Paris last year.

''A lot of work is still ahead,'' Alatas stressed, and called for the reconvening of the Paris conference.

After two days of negotiations, Hun Sen and Sihanouk's coalition supported equal representation of six members each for the resistance and the Phnom Penh government on the council, plus an option for an elected chairman as the 13th member. The formula provides each of Sihanouk's factions, including the Khmer Rouge, with two members.

Previously, the resistance designated five seats for Phnom Penh and five for each of Sihanouk's parties, a formula rejected by Hun Sen.

Holding up the agreement, Hun Sen declared, ''This document is the best we have ever achieved.''

Formation of the council took on particular urgency with the U.N. General Assembly opening Sept. 18. The seat is currently held by the resistance, but the United States in July withdrew diplomatic recognition out of fear the militarily superior Khmer Rouge could return to power.

''The way has now been paved for the Paris conference to resume and to finish its work,'' said Edwige Avice, French deputy foreign minister and co-host of the Jakarta meeting. ''Finally peace in Cambodia seems to be accessible.''

The council is an essential part of the plan approved by the five permanent members of the U.N. security council last month. Worked out by the United States, Britain, China, France and the Soviet Union, the blueprint for peace includes provisions for separation and disarmament of all forces in Cambodia and a major U.N. supervisory role in running the country pending elections.

''The Cambodian parties accepted the framework document in its entirety as the basis for settling the Cambodian conflict,'' said a joint statement.

The mercurial Sihanouk, 67-year-old head of the rebel factions fighting the Hanoi and Soviet-backed Phnom Penh government, cited poor health for his sudden leave of absence. From his residence in Beijing, he said his son, Prince Norodom Ranariddh, will assume his duties.

The former monarchs coalition includes his own followers, those of former Prime Minister Son Sann and the Khmer Rouge, blamed for the deaths of 1 million Cambodians during their four-year rule prior to the Vietnamese invasion in 1978. The United States provides aid to the non- communist factions of Sihanouk and Son Sann, while China arms the Khmer Rouge.

Althrough Ranariddh said his father made it clear he will not become a member of the council or accept the chairmanship, Khieu Samphan insisted Sihanouk was the man to head the body.

''There is no other person than Sihanouk who can make it work,'' he told a news conference.

Sihanouk reportedly had a heated argument with Chinese Premier Li Peng over Li's refusal to attend the crucial Jakarta session,

Long known for his rapid reversals of position, frequent resignations and leaves of absence, Sihanouk has often resorted to seemingly flighty switches as part of a tactical game meant to maintain his influence.

He announced Saturday he was too sick with kidney stones to fly to Jakarta, bringing skepticism from Hun Sen, who arrived on the condition Sihanouk would participate.

Despite five resignations or long leaves of absence as head of the rebel coalition, Sihanouk is still regarded in international circles as the only person capable of unifying war-torn Cambodia.

Sihanouk first headed to Beijing in 1970, shortly after he was deposed by the U.S.-supported Lon Nol. He returned to Phnom Penh in 1976, only to become the prisoner of the Khmer Rouge. He was not freed until hours before Vietnamese invasion forces entered Phnom Penh in January 1979, and headed back to Beijing.

WASHINGTON (SEPT. 10) UPI - President Bush announced Monday that he is nominating Washington lawyer Frederick Porter Hitz to fill the new position of inspector general of the CIA.

Hitz, 50, served as legislative counsel to the director of the CIA from 1978 to 1982. He also held the post of deputy Assistant Secretary of Defense for Legislative Affairs from 1975 until 1977. Hitz is a managing partner with the law firm of Schwabe, Williamson and Wyatt.

WARSAW (SEPT. 10) UPI - The Soviet Union, the principal supplier of oil and natural gas to Eastern Europe, Monday said it will cut exports to Poland next year due to a drop in production and because greater control of natural resources is being shifted to individual Soviet republics.

''The Soviet planning commission has informed that because of an anticipated considerable drop in the production of fuels ... it is estimated that only 34 million tons of oil can be exported (to all countries),'' said a statement by Deputy Foreign Trade Minister Stanislaw Amanowicz.

Earlier, a government official said the Soviets wanted to reduce its oil exports to Poland - fixed at 12.8 million tons this year - practically to zero. Each ton equals roughly 7 barrels.

That would cost Poland another $3 billion to $4 billion in addition to the losses of supplies from Iraq because of the U.N. embargo imposed in the wake of the Aug. 2 invasion of Kuwait.

The statement did not indicate what Poland's final share of the Soviet exports would be.

The Soviet Union cited changed relations between the central government and the individual Soviet republics concerning foreign contacts and suggested that Polish officials deal directly with the republics.

Amanowicz said the Foreign Trade Ministry is making arrangements to establish contacts with the republics with regard to oil, natural gas and also other raw materials.

Moscow is behind in its contractual deliveries of oil and gas this year by about 30 percent and there is little hope the situation will change in coming months.

It has been estimated that 1990 Soviet crude-oil production will decline 600,000 barrels a day from 1989's level to 11.5 million to 11.6 million barrels daily.

The Soviets need western technology and help in finding new oil fields and raising output from old ones.

A group of U.S. businessmen are in Moscow this week to explore possible joint ventures that could eventually increase Soviet production.

Amanowicz also said the Soviet government could only commit itself to 183.6 million cubic feet of natural gas, a sharp drop of 35 percent from this year's contracted delivery of 282.4 million cubic feet.

The Polish government was told to negotiate directly with the republics in this area as well.

Andrzej Charlemagne, spokesman for Poland's Planning Office, said the Soviets indicated during recent business talks in Moscow their desire to completely abandon exports to Poland of oil products - diesel oil, gasoline and others - of which 2.2 million tons were scheduled for this year.

#90253u1374 09/10/1990 ~United Press International

WASHINGTON (SEPT. 10) UPI - A blues musician who began his career in backstreet dance halls and an actress who once mended her own costumes in backroom theaters in London were honored on center stage at the White House Monday.

B.B. King and Jessica Tandy were among 12 individuals and one corporation presented the National Medal of Arts by President and Barbara Bush for

their career accomplishments in encouraging the arts through achievement or support.

Others honorees were: Hume Cronyn and George Francis Abbott, both actors and directors; opera singer Beverly Sills; choreographer Merce Cunningham; painters Jasper Johns and Jacob Lawrence and landscape architect Ian McHarg.

''Taken together, today's honorees represent an apparently inexhaustible reserve of creativity,'' Bush said in an East Room ceremony that was followed by a White House luncheon.

''Each is a trailblazer,'' the president said, ''an authentic pioneer who literally helped shape his or her art form.''

In addition to the nine artists, four patrons were also honored. They were: Harris and Carroll Masterson of Houston; David Lloyd Kreeger of Washington, D.C., and Southwestern Bell Corp. of St. Louis.

This is the sixth year of the award that was proposed by President Ronald Reagan, a former actor, and approved by Congress. It is administered, in part, by the National Endowment for the Arts.

This year's recipients included a married couple, Tandy and Cronyn. Tandy, who received an Oscar for her performance last year in ''Driving Miss Daisy,''could not attend the affair so her husband accepted the medal on her behalf.

Bush interrupted his prepared remarks to say: ''I probably shouldn't do this, but I might tell you of a frustration, not an overwhelming frustration, but a frustration that I have.''

''I think that Barbara Bush is secretly in love with Hume Cronyn,'' he said, drawing laughter from the gathering of about 100 people and prompting the first lady to smile and nod.

Cronyn, playing to the crowd, stood and took a bow.

''There they go again,'' Bush howled.

The president noted that this year's recipients come from across the country, many from small towns, and that three were foreign born.

''Today, they are Americans all, striving for the creation of beauty,'' he said. ''They helped define America ... as one of the cultural giants of the world.''

''Most had humble beginnings,'' he said. ''I think of Jessica Tandy sewing

her own costumes in a backroom theater in Soho (in London, of) B.B. King touring backstreet bars and dance halls - on the road for over 20 years before most Americans would ever even hear his name.''

Five of this year's recipients - Tandy, Cronyn, Sills, Cunningham and Johns - now live in New York City. Abbott is from Forrestville, N.Y., King lives in Las Vegas, Lawrence is from Seattle and McHarg lives in Unionville, Pa.

#90253u1377 09/10/1990 ~United Press International

BRUSSELS, BELGIUM (SEPT. 10) UPI - Secretary of State James Baker, bolstered by the results of Sunday's superpower summit, Monday urged NATO allies to send ground troops to the Persian Gulf to contribute to the U.S. military deployment, but received no promises.

''We would welcome additional ground-based forces in the region should any of the countries see fit to send them,'' Baker said after addressing a meeting of NATO foreign ministers. ''We would welcome them even if only symbolic.''

NATO Secretary General Manfred Woerner said the alliance's foreign ministers gave a ''favorable response'' to a long list of Gulf aid requests from Baker, but gave no vows of additional ground forces.

''In his discussions with President Bush, President Gorbachev reaffirmed his commitment to seeing the Iraqi aggression undone,'' Baker said of Sunday's summit in Helsinki, Finland. ''Around the table today, our NATO colleagues also stood united behind the principle of no partial solutions.''

Woerner said the NATO allies ''unanimously and very strongly welcomed the results of the summit meeting in Helsinki.''

Members of the U.S. Congress have urged America's European allies to send ground troops to the Gulf to demonstrate their commitment to forcing Iraq's withdrawal from Kuwait.

Britain and France have already sent ''ground-based forces'' to the Gulf, and NATO member Turkey also has large numbers of ground troops in the region, Baker said.

The U.S. secretary of state said he had received promises of aid from Saudi Arabia, Kuwait and the United Arab Emirates totalling $12 billion through the end of the year.

Half the money, or $6 billion, will directly offset costs of the U.S.

military deployment, with much of it representing ''in-kind'' contributions like food and water. In testimony to Congress last week, Baker said the Pentagon's additional costs this year from the deployment would be about $6 billion.

Other money from the oil-rich states will go largely to helping Egypt, Jordan and Turkey, three countries particularly harmed by economic sanctions on Iraq.

Baker, who was slated to fly from Brussels to Moscow late Monday, also announced he would have Gulf crisis talks on Friday in Syria, a country long on the U.S. list of nations supporting terrorism.

Baker said President George Bush asked him to go to Damascus, because Syria's opposition to Iraq's Aug. 2 invasion of Kuwait graphically ''illustrates the isolation of Saddam Hussein.''

The plea for ground troops was just one item on an eight-point list of requests from Baker to NATO allies during a briefing on Sunday's superpower summit in Helsinki.

''There was a unanimous conviction that still more can and will be done'' by the NATO allies, said Woerner.

He said the foreign ministers pledged ''they will not budge one iota'' in seeking complete and unconditional Iraqi withdrawal from Kuwait through ''watertight'' sanctions on Baghdad.

Among Baker's other requests of NATO allies were additional airlift and sealift support, extension of naval forces into the eastern Mediterranean to protect the southern flank, help for refugees in Jordan and stepped-up enforcement of sanctions.

He also urged financial assistance to Turkey, Egypt and eastern European countries harmed by sanctions on Iraq, and asked that NATO's Civil Emergency Planning committee help coordinate sealift and airlift help from Europe.

Baker said West Germany, Greece, Belgium and Denmark pledged additional airlift or sealift support, to help transport troops or equipment to the Gulf, or to evacuate refugees. Britain, Italy and Portugal offered ships last week to help transport U.S. troops and equipment to the Gulf, but American officials have been disappointed with the overall European response.

Baker was slated to fly on to Moscow and Syria following the meeting at NATO headquarters.

The meeting of alliance foreign ministers is the second since Iraq invaded Kuwait on Aug. 2 during a dispute over boundaries and oil production.

On Aug. 10, the foreign ministers agreed to adopt U.N. sanctions against Iraq, but took no joint military action due to NATO's restriction against ''out-of-area'' activity.

The out-of-area doctrine, part of the Western alliance's 1949 charter, has been challenged in recent weeks by U.S. officials, who seek a broader interpretation of what constitutes a security threat to NATO members.

#90253u1399 09/10/1990 ~United Press International

LONDON (SEPT. 10) UPI - An explosion damaged an army recruiting office in a shopping center in Derby Monday, police said.

Derbyshire Police said preliminary investigations indicated the explosion was caused by a bomb placed on a rooftop in Derby, 135 miles northwest of London. An army recruiting center and an adjacent seven- story building were extensively damaged.

No one was injured but debris was showered on the few people who were in the area when the blast occurred at 9:15 a.m., police said.

An army bomb disposal unit was called in to search the shopping center for additional devices.

The attack was suspected by police to be part of the outlawed Irish Republican Army's campaign to drive British troops out of Northern Ireland so that it can be united with the Irish Republic.

Increasingly, the IRA has struck targets on the British mainland. In July, an IRA car bomb killed Ian Gow, a prominent Conservative Party member of Parliament and a strident critic of the IRA.

#90253u1402 09/10/1990 ~United Press International

ATHENS, GREECE (SEPT. 10) UPI - Iraqi Foreign Minister Tareq Aziz flew home from Tehran Monday after a one-day visit during which the two sides discussed the Gulf crisis and agreed to resume diplomatic ties, the official Islamic Republic News Agency said.

Aziz, who met Iranian President Akbar Hashemi-Rafsanjani before his departure, was accompanied by Iraqi Oil Minister Issam Abdul Rahim Chalabi and a high-ranking Iraqi delegation.

An IRNA dispatch monitored in Athens said Aziz held talks with Iranian Foreign Minister Ali Akbar Velayati, and the Iraqi visitor ''called for the restoration of diplomatic ties'' and the reopening of the Iranian and Iraqi embassies in Baghdad and Tehran.

The Iraqi news agency later said an agreement had been reached to re-establish ties.

Diplomatic relations between the two sies were broken toward the end of the undeclared 1980-88 Gulf war, and the embassies remained open even while the war raged.

Aziz left Tehran in early afternoon for Baghdad after the one-day trip, the first by a high-ranking Iraqi official since the Islamic revolution of 1979.

Sunday, Aziz held 2 1/2 hours of discussions with Velayati. The two officials focused on the gulf crisis and on efforts to establish a durable peace between Iran and Iraq after eight years of war between 1980 and 1988.

Chalabi held separate discussions with Iranian Oil Minister Gholamreza Aqazadeh and the two oil officials were also present at the foreign ministers' meeting. There was no immediate explanation for Chalabi's presence in Tehran.

An earlier report from Tehran hinted Iraq would ask Iran to break U.N. Security Council sanctions and provide a conduit for some Iraqi oil exports, but there was no immediate confirmation this was discussed.

Iran last month pledged to comply with U.N. sanctions against Iraq for invading Kuwait, but Ayatollah Mohammad Yazdi, a leading Iranian cleric, suggested Iran fall out of step with the rest of the world in applying the sanctions.

IRNA quoted Yazdi as saying ''political disputes and even the issue of war should not overshadow humanitarian considerations such as the health of children and the security of civilians.''

Last week, the Tehran Times, an English-language newspaper that normally reflects Rafsanjani's views, said Iran may assist Iraq with food and medicines. The newspaper said food and medicines were not included in the U.N. sanctions.

Iranian First Vice President Hassan Habibi however said Sunday: ''Iraq should withdraw from Kuwait unconditionally,'' and the Iraq- Kuwait dispute should be settled through negotiations.

''The international borders (between Iraq and Kuwait) should on principle

remain valid and we will not accept any change in the geographical status of the region,'' Habibi said.

Aziz's visit took place at Baghdad's request. The Iraqi media played down the trip and the state-owned Iraqi News Agency waited 24 hours before saying Aziz was in Tehran.

The Iraqi foreign minister invited Velayati to make an official visit to Baghdad, but Iran did not immediately say if it accepted the invitation.

#90253u1403 09/10/1990 ~United Press International

BOISE, ID (SEPT. 10) UPI - The mother and wife of hostage Jesse ''Jon'' Turner said Monday they are hopeful the Boise native will be released by his Islamic captors in Lebanon during the family's three month reunion in Boise.

''There have been a lot of rumors that there's a possibility that they may release the hostages from Beirut due to the fact that they are not as valuable as bargaining agents as they used to be because we have so many more hostages at the present time and we're hoping that will come true,'' said Estelle Ronneburg, Turner's mother who lives in Boise.

Bader Turner, Jesse Turner's wife said she came to Boise from Dubai, United Arab Emirates, to see her husband.

''I have the feeling he will be released while I'm here,'' Bader said.

Despite her confidence, Bader said she plans to return to her home in Beirut after her stay in Idaho.

''Most probably I'm going back to Beirut,'' Bader said, indicating it was time to return to her home after staying for the past several months with her brother in Dubai. But Bader indicated that if her husband is released during the next several weeks, returning to Beirut would be unlikely.

Turner, 42, is being held along with Alan Steen, 50, of Boston by the Organization of Islamic Jihad for the Liberation of Palestine.

Turner was among four U.S. professors, including Robert Polhill and Indian-born Mitheleshwar Singh, who were abducted by armed men disguised as policemen at the American-affiliated Beirut Unitersity College. Both Singh and Polhill have since been released by their captors.

Twelve Westerners are believed to still be held by Moslem terrorist groups in Lebanon; six Americans, four Britons, two West Germans and an Italian.

Turner, who was captured in Beirut on Jan. 24, 1987, has never seen his daughter Joanne, and the reunion gave Ronneburg her first opportunity to see her 3-year-old granddaughter in person.

Since Bader and Joanne Turner's arrival in Boise Saturday, Ronneburg said the family has been mostly talking and looking at pictures, ''catching up'' on each others lives.

And seeing her granddaughter for the first time was a joy for Ronneburg.

''All I've seen in the past is pictures and, well, I can look at her and see quite a bit of my son in her and that makes it even better,'' Ronneburg said.

Bader Turner said the reunion has been emotional rollercoaster, much like her feelings throughout the past three and a half years. At times she has been very happy while spending time with Ronneburg and her husband Eugene - but at times she is very sad when thinking about her husband.

''For half an hour, I'm happy, then for a half an hour I'm sad,'' Bader said.

The whole family will stay in the Ronneburg's East Boise home for the next two to three months.

#90253u1411 09/10/1990 ~United Press International

SEOUL, South Korea (SEPT. 10) UPI - Opposition legislators boycotted the opening ceremony of a National Assembly session Monday and said they will stay away from the one-house parliament unless the government party accepts their demands for political reform.

Opposition lawmakers called on the the ruling Democratic Liberal Party to annul 26 laws it rammed through the National Assembly on July 14.

Kim Dae Jung and 78 other opposition legislators resigned to protest that move, but National Assembly speaker Park Jyun-kyu Friday sent back their letters of resignation and urged them to return to parliament.

Kim's Party for Peace and Democracy said Monday the ruling party must apologize for the ''unlawful'' legislation and take disciplinary actions against those who are responsible for the controversy.

The smaller opposition Democratic Party whose eight lawmakers joined Kim's party in the walkout said the ruling party should not only apologize but also agree to dissolve the current assembly and call new elections.

The 26 laws included one placing the entire armed forces under a unified command and another designed to restructure the nation's broadcast system.

The opposition has said the command realignment could weaken civilian control over the military and the broadcast restructuing will put networks under government control.

The government has said the new command system was needed to meet changes in the military situation and the broadcast reorganization was designed to accommodate demands for more varied information and improve management of the existing networks.

The current assembly session must approve a government budget bill for 1991.

#90253u1413 09/10/1990 ~United Press International

BUCHAREST, ROMANIA (SEPT. 10) UPI - The former commander of the Securitate, ex-dictator Nicolae Ceausescu's dreaded secret police, went on trial Monday for allegedly directing the slaughter of anti-government protesters during the December uprising.

Gen. Iulian Vlad, who faces a charge of complicity in genocide, is one of the highest-ranking military officers of the Ceausescu regime to face trial since the dictator was overthrown and executed Dec. 22.

As chief of the State Security Department, he allegedly ordered Securitate units to fire on demonstrators and rebellious army troops who took to the streets to demand Ceausescu's ouster. More than 1,000 people died in the violence.

The military tribunal presiding over the case heard arguments Monday for combining Vlad's trial with that of a group of more than 20 top-ranking members of the Ceausescu government facing trial on related charges.

#90253u1430 09/10/1990 ~United Press International

MCALESTER, OK (SEPT. 10) UPI - Convicted double murderer Charles Troy Coleman was put to death early Monday by injection, becoming the first person executed in Oklahoma in 24 years.

Coleman, 43, the son of a sharecropper, was given the injection at 12:25 a.m. and pronounced dead at 12:35 a.m.

''Just tell everyone I love them and I have peace and quiet heart,'' Coleman said in his last statement. He requested that several Bible verses

be read before the injection began.

At 12:26 a.m. he turned to one of his attorneys, Mandy Welch, and mouthed, ''I love you,'' before closing his eyes and taking two or three deep breaths.

Coleman was the first person in Oklahoma to be executed by lethal injection and the 138th person in the United States to be put to death since the Supreme Court restored the death penalty in 1976. The state's last execution, in 1966, was by electric chair.

The Supreme Court refused twice Sunday to consider appeals filed by Coleman's lawyer. Among the eight justices now on the court, only death penalty opponent Thurgood Marshall dissented both times. Justice Harry Blackmun was listed as not participating in either decision.

Coleman's lawyers filed more than 20 unsuccessful appeals in five courts to overturn his sentence. He was moved at 7 a.m. Sunday from his death row cell to an 8- by 15-foot holding cell next to the execution chamber.

The holding cell contains a metal cot with a mattress, sheets, a shower stall and a steel toilet-sink unit.

Coleman was sentenced to death for the February 1979 shotgun killing of a man during a burglary in Muskogee. John Seward and his wife, Roxie, were fatally shot when they surprised Coleman as he burglarized the home of Seward's sister.

He was sentenced to death in October 1979 for the husband's slaying, but was never prosecuted in the death of the wife.

Coleman was captured several hours after the killings, but escaped from jail while awaiting trial. He later allegedly overpowered a police officer in Luther, Okla., and slashed his throat.

The officer survived, but Coleman later used the sidearm he stole from the officer to kill a man in Sand Springs, near Tulsa, and steal his car. Coleman finally was captured in Arizona and also was convicted of murder in the Sand Springs case.

More than 100 protesters of Oklahoma's death penalty rallied Saturday on the steps of the state Capitol. Oklahoma City's Roman Catholic Archbishop Charles A. Salatka delivered to Gov. Henry Bellmon's office Friday an appeal for clemency on behalf of Pope John Paul II.

RALEIGH, N.C. (SEPT. 10) UPI - A new variety of soybean is outproducing the Southeast's common varieties and promises to give farmers a greater yield for their investment, a state plant specialist said Monday.

Field tests showed the new variety, called Brim, surpassed Young, the state's most popular kind, by about 6 percent in crop yields.

''If enough farmers grow it, it might increase the overall yield of the crop,'' said Joe Burton, a U.S. Department of Agriculture plant breeder and faculty member at N.C. State University's Department of Crop Science, where the breed was developed.

''The thing is, there are so many different varieties being grown, it's difficult to expect that one will have a huge impact,'' said Burton. ''But for farmers who use (Brim), it should help them, give them a boost in yield that they would normally have.''

Field tests conducted over four years show Brim averaged 48.6 bushels an acre in comparison to Young's 46.6 bushels an acre. Asgrow 6785 averaged 46.6 bushels an acre and Leflore had a yield of 41.1 bushels an acre.

Seed producers will begin growing the new variety next year, and farmers can purchase Brim seed by 1992, Burton said.

North Carolina devotes 1.5 million acres to growing soybeans - more land than any other crop. The 1989 crop of 41.9 million bushels reaped about $232 million.

The higher-yield Brim may not have an impact on price initially, but it will save farmers money by giving them more for their work, said Burton.

''It's more yield for same amount of input,'' he said.

North Carolina exports about half its soybean crop, which is used for cooking oil, livestock and pet foods and human dietary products.

Brim, in comparison to other varieties, produces a greater protein, which will make better oil and food products, said Burton.

#90253u1445 09/10/1990 ~United Press International

CAPE CANAVERAL, FL (SEPT. 10) UPI - Engineers replaced three suspect fuel pumps aboard the grounded shuttle Columbia Monday, presumably eliminating

a hydrogen leak and clearing the way for yet another launch attempt next week, officials said.

On nearby launch pad 39B, meanwhile, a two-day practice countdown began Monday for the shuttle Discovery, with engineers recommending the ship be launched as is around Oct. 5, despite a slow leak in a critical cooling system.

While Discovery's mission to launch the European Ulysses solar probe is NASA's highest priority, agency managers are especially eager to get Columbia off the pad and into orbit around Sept. 17 to end a four-month launch hiatus.

Columbia's seven-man crew was grounded last week when sensors detected hydrogen gas leaking into the ship's engine room the night before liftoff. Engineers believe the leak came from a package of small pumps used to keep hydrogen circulating through critical engine systems before launch.

The suspect pumps were removed over the weekend and replaced with a spare package.

While initial tests on the original pumps failed to duplicate the leak blamed for grounding the spaceship last week, NASA officials were optimistic more extensive checks at the Johnson Space Center in Houston would resolve the issue once and for all.

''They didn't find a thing,'' NASA spokeswoman Lisa Malone said of tests on the original pump package. ''We shipped it out last night. The new one is in, it's been bolted down and we're making the final connections.''

If all goes well, Columbia's oft-interrupted countdown could resume at 1 a.m. EDT Friday for a launch attempt at 1:27 a.m. Sept. 17, more than three months behind schedule because of repeated fuel leaks and trouble with an on-board telescope.

The Air Force, meanwhile, is believed to be gearing up to launch a powerful unmanned Titan 4 rocket from the Cape Canaveral Air Force Station. Launch had been scheduled for around Sept. 17, but whether the flight might be moved up a few days or delayed until after Columbia's flight was not immediately clear.

As for Discovery, launch preparations slipped into high gear Monday with the start of a practice countdown that sets the stage for blast off next month the $750 million Ulysses mission.

Discovery's five-man crew - commander Richard ''Dick'' Richards, 44, co-pilot Robert Cabana, 41, Bruce Melnick, 40, William Shepherd, 41, and Thomas Akers, 39 - reviewed emergency procedures Monday and planned to

climb aboard the shuttle Tuesday for the final hours of the mock countdown.

Engineers decided Monday to recommend that Discovery be cleared for flight as is, without making major repairs to fix a leak in one of the ship's two cooling systems.

To accomplish its mission, Ulysses must be launched between Oct. 5 and Oct. 23 or the flight will have to be delayed for 13 months. It already is running four years late because of the Challenger disaster and the mission currently is NASA's top priority.

Given such a tight, 18-day launch period, or ''window,'' NASA wants to have Discovery ready for takeoff as close to Oct. 5 as possible in case any problems come up at the last minute - a common occurrence for the space agency in recent months.

Over the past two weeks, more than 10 percent of the ship's Freon supply has seeped away because of a leak in one of Discovery's two cooling systems.

To find out if the leak will worsen in flight, engineers deliberately over-pressurized the system overnight Sunday. After debating the issue Monday, they decided test data showed the leak would not get worse in flight and that Discovery could be safely launched without any major repairs.

''They're going to recommend ... flying it as is,'' said NASA spokesman James Hartsfield. ''They're still going to watch it ... and see if it changes any. The test points to the fact that they have a constant, slow leak that is one we can fly with. The only concern was that it could grow. As it is ... it could triple in size and we wouldn't have a problem in flght so we have a lot of leeway.''

It was not immediately clear whether shuttle program director Robert Crippen and other top NASA managers would go along with that recommendation.

The space shuttle uses Freon refrigerant to carry away the heat produced by the ship's myriad electrical systems. Without such a cooling system, the shuttle's electrical systems could fail and the crew would be unable to make a safe landing.

#90253u1466 09/10/1990 ~United Press International

WARSAW, Poland (SEPT. 10) UPI - The fourth trip of Pope John Paul II to his homeland next year will be his first in free Poland and its leadership will no longer fear his message, Cardinal Jozef Glemp said Monday.

In an interview with the news agency PAP, Glemp said the papal visit will for the first time include participation of the army, police and other institutions whose inclusion was not possible under communist rule.

''The authorities will no longer fear what the pope will say, whether he will not do some harm or go half-a-step too far,'' Glemp said, adding that authorities need no longer pay attention to ''what will the (East Bloc) neighbors say.''

The free atmosphere in turn will lead to ''openness to what the pope will try to tell us, to the spiritual values of his message,'' he said.

On his previous visits, John Paul was careful not to unduly antagonize the communist leadership, for example by not referring directly to the then-banned Solidarity union.

The pope will actually make two visits to Poland next year - in early May, on the 200th anniversary of the proclamation of a democratic constitution in Poland, and the second Aug. 14-15 for a world rally of youth.

The Polish primate said the papal visit will also provide the setting for the first meeting ever of bishops from Germany and Poland, including those of other faiths.

''We have to project a new vision for the years to come and the two churches of both nations can do a lot in this respect,'' he said. ''With this idea in mind we intend to organize a meeting of the episcopates of the two countries, including the Catholic episcopate, the evangelical (faith) and Protestants.''

The papal visit will take place near the 25th anniversary of a letter by Polish bishops to German bishops which paved the way for the reconcilation of both nations. In the letter, the Polish bishops said, ''We forgive, and ask your forgiveness.''

Poland suffered more casualties and damage than any nation except Germany itself as a result of the Nazi attack on Poland that started World War II.

John Paul's fourth visit will coincide with the 200th anniverary of the May 3 constitution, which was modeled on the U.S. constitution and outlined democratic reforms in Poland.

Its progressive elements alarmed Poland's neighbors - Prussia, Russia and Austria - and two years later they partitioned the country off the map. Poland lost its independence for 123 years until the armistice of Nov. 11, 1918, that ended World War I.

The pope will be in the holy shrine of Czestochowa Aug. 14-15 to attend the world rally of youth.

#90253u1473 09/10/1990 ~United Press International

WASHINGTON (SEPT. 10) UPI - David Dinkins, mayor of New York City, told a House panel Monday that extending Medicaid eligibility to Americans infected with the AIDS virus but not yet suffering the full effects of the disease would be a move toward ''fiscal wisdom.''

Dinkins used a hearing before the House subcommittee on health and the environment to urge approval of legislation creating Medicaid eligibility for those in the early stages of AIDS. That would provide coverage for certain drugs, outpatient services and doctor visits. New York is home to the largest number of AIDS patients in the nation.

''The old adage certainly applies here: an ounce of prevention is worth a pound of cure,'' Dinkins testified.

A Bush administration official testified against the measure, introduced by Reps. Henry Waxman, D-Calif., and James Scheuer, D-N.Y.

Gail Wilensky, who heads the Health Care Financing Administration, said it is ''inappropriate to establish Medicaid eligibility on the basis of a specific disease'' and said the measure would cost the government $270 million next year and about $2.9 billion over the next five years.

Dinkins said providing Medicaid reimbursement on the early stages of acquired immune deficiency syndrome could save on expenditures in the

future by emphasizing preventive treatment.

He said the AIDS measure and other Medicaid bills under consideration ''require that we spend reasonably in the present so that we will not be obliged to spend extravagantly in the future. ... This bill of compassion recognizes human suffering and seeks to ease it. The legislation also recognizes fiscal wisdom and embraces it.''

Medicaid is the nation's largest source of health care financing for the poor. Medicaid payments are expected to exceed $40 billion this year alone.

#90253u1485 09/10/1990 ~United Press International

CAIRO, EGYPT (SEPT. 10) UPI - Iraq's Saddam Hussein threw a curve ball Monday at international trade sanctions against his country by offering to supply third-world countries with free oil, an offer U.S. officials called a transparent attempt to deflect attention from his invasion of Kuwait.

''We declare we are prepared to supply third-world countries with oil free of charge,'' an Iraqi Information Ministry spokesman said Monday on Iraqi television.

The action - taken a day after President Bush and Soviet President Mikhail Gorbachev declared they would work together to pressure Iraq to withdraw forces from Kuwait - was described as an act of solidarity with third-world nations whose economies were being hurt by huge oil prices resulting from the Persian Gulf crisis.

The Iraqi spokesman said that the country's offer of free oil was made without consideration of third-world countries' positions on the conflict and that it did not violate U.N. sanctions because it was being offered free of charge.

The countries should apply to Iraq indicating the quantity and type of oil they want and then should send their own ships to fetch the oil because Iraq would not be able to transport it, the spokesman said.

In Washington, White House press secretary Marlin Fitzwater asserted the U.N. sanctions against Iraq do not ''delineate between free exchanges or those paid for'' and called Saddam's offer ''a transparent attempt to deflect the focus of world attention from his blatant aggression against another country.''

''It is an affront to all countries for Saddam to think that they would sacrifice the principles of freedom and non-aggression for the Iraqi oil or the oil that he has taken through his naked aggression against Kuwait '' he said.

Thousands of Iraqis marched Monday on the U.S. Embassy in Baghdad, Iraq's capital, chanting ''Death to America'' in opposition to the U.S. military presence in the gulf.

Meanwhile, the British Foreign Office announced in London that a joint U.S.-British charter flight on a Iraqi Airways jet is expected to take women and children out of Kuwait and Iraq Wednesday, the British Foreign Office said.

France and the European Commission will begin airlifting some 2,200 to 2,300 Bangladeshis home from the gulf region Monday evening aboard an Air France jet that they will rent for one week, the French Foreign Ministry said.

Secretary of State James Baker said Monday he fly to Syria Thursday for talks about the gulf crisis, despite U.S. criticism of Syria for supporting terrorism.

''We still have difficulties with Syria,'' Baker said in Brussels, but he said President Bush asked him to go to Damascus because Syria's opposition to Iraq's invasion of Kuwait ''illustrates the isolation of Saddam Hussein.''

Iraq had made inroads with at least one Arab neighbor, however. Iraq and Iran have restored diplomatic relations two years after the countries fought an eight-year war, Iraq's official news agenc INA reported Monday.

Iraq several weeks ago gave back territory it took during that war, and Iran said last week it is considering sending food and medicine to Iraq despite the embargo as a humanitarian gesture.

There was no further indication that Iraqi Foreign Minister Tariq Aziz, who negotiated the restoration of relations, had been promised shipments food or other supplies any time soon.

At the White House, press secretary Fitzwater responded to a question about such Iranian shipments by saying: ''It's hard to believe Iran is going to be supportive to a man who murdered millions.''

British officials said it was unclear how many U.S. and British women and children would take up the offer to fly out of the gulf region Wednesday. But the British Broadcasting Corp. was broadcasting messages to British women and children still trapped in Kuwait to get in touch with the British Embassy to arrange their evacuation.

''It is hoped that the 100 or so women and children who could leave Kuwait if they want to will,'' a Foreign Office spokesman said.

The estimate of Britons in Kuwait has dipped to ''three figures'' from more than 1,800 who were trapped when Iraqi troops invaded the emirate, and less than 400 are known to be in Baghdad.

The United States has not said specifically how many women and children are in the two countries, but it says there 1,592 men, women and children in Kuwait, including eight diplomats, and 227 Americans in Iraq, a figure that includes 60 diplomats.

About 500 American, British and French men are being held at strategic locations in Iraq for use as human shields to deter attack by U.S.-led forces, diplomats in the region said.

More than 186 British, 165 American and 32 Irish former hostages arrived at London's Gatwick airport from Baghdad late Sunday aboard a chartered Iraqi Airways jet. Most of the women said they were well treated by their Iraqi guards, although some complained of bad food.

Some 164 freed American hostages are scheduled to fly into Baltimore early Monday evening.

U.S. officials called Iraqi Ambassador Mohammed al Mashat to the State Department Monday morning to protest Iraq's failure to allow embassy officials access to the American reportedly wounded by an Iraqi soldier in Kuwait last week.

British Premier Margaret Thatcher, in her first public comment on Sunday's summit in Finland, applauded the unity Bush and Gorbachev expressed in their summit statement.

''I think it's very good for the world to know that the two great powers, the United States and the Soviet Union, are absolutely at one in saying that what the U.N. said should be done, will be done,'' Thatcher said.

Iraq lambasted Bush for comments made after the summit and said he had displayed his hatred for Arabs. But Iraq refrained from attacking Soviet leader Mikhail Gorbachev.

''Bush's statements displayed his hatred for the Arab nation, because Bush ignored the crisis of the Palestinian people who are suffering under the Zionist nightmare,'' the INA news agency quoted a government spokesman in Baghdad as saying.

''It is the policy of big countries to move according to their material interests and election pressures,'' INA quoted the spokesman as saying.

Arab analysts in Cairo said the superpowers had apparently given Saddam a

last chance to abandon his occupation of Kuwait before deciding on further measures against Iraq, which they said could include military force.

The government-run Baghdad Observer newspaper scoffed at Bush Monday, saying he was frightened of Iraq. ''What is all the fuss about?'' the newspaper said.''Iraq is known for its peace policies. It has not committed any aggression against any country in the world.''

Arab radio stations pointed out Bush had pledged to the Soviet leader that U.S. troops would not stay in the Persian Gulf region after the Iraqi danger to the region had ended.

In a clear message to the United States and Palestinian moderates, Egyptian Foreign Minister Boutros Ghali linked Iraq's occupation of Kuwait with Israel's continued hold on the occupied territories.

Ghali said Monday that while Egypt - which has sent troops to help defend the oil-rich gulf states of Saudi Arabia and the United Arab Emirates - praised the outcome of Sunday's superpower summit, in which the U.S. and Soviet leaders declared they would work together to pressure Iraq to leave Kuwait, Cairo wanted to see action against both Iraqi and Israeli aggression.

''The Helsinki summit's statement affirms the inability to separate the concept of aggression or occupation of territories by force, whether this concerns the gulf crisis or the Palestinian issue,'' Ghali said in a statement carried on state-owned Cairo Radio.

Also in Cairo, Arab foreign ministers began an emergency session Monday expected to formally approve the transfer of the headquarters of the 21-member Arab League back to Cairo from Tunis.

About nine Arab states - including Sudan, Libya Tunisia, Yemen, Jordan and the Palestine Liberation Organization, which have bee more or less sumpathetic to Saddam - boycotted the meeting in a show of disapproval. Egypt was still expected to receive a majority of votes in favor of transferring Arab League headquarters to Cairo.

The Arab League voted to transfer its headquarters to Tunis after Egypt signed a controversial peace treaty with Israel in 1979. But Monday's vote was expected to crown Egyptian diplomatic efforts to return to the mainstream of Arab political life.

In a further indication sanctions may be working, Iraq last week executed an Iraqi woman accused of hoarding food, diplomats in the region said Monday. Iraq ordered the death penalty for food hoarders and anyone hiding foreigners in Kuwait or Iraq.

In Jordan, Queen Noor toured sprawling refugee camps in the neutral zone between Iraq and Jordan Monday and also opened a new refugee camp near the border town of Azraq, Amman Radio reported.

Pakistan decided to join India in sending food for its nationals stranded in Kuwait. And a ferry carrying Indian workers who were stranded in Kuwait after Iraq's invasion left for Bombay from the United Arab Emirates port of Dubai Sunday.

In a separate development, a radical Iranian daily urged world Moslems Monday to rise up against the reported dispatch of some 10,000 Egyptian Moslem women to entertain U.S. troops in Saudi Arabia. An Egyptian spokesman described the report as ''nonsense.''

#90253u1486 09/10/1990 ~United Press International

PARIS (SEPT. 10) UPI - A bottle of French champagne will likely cost 10 to 20 percent more in 1991 largely due to a jump in the price of grapes in eastern France, the largest champagne producer said Monday.

Yves Bernard, president of Moet et Chandon, attributed the increase to a 20 percent rise in the price of grape varieties used in champagne, which resulted after a 30-year contract between grape growers and champagne producers expired.

For the 1990 harvest, grape prices will be negotiated freely between growers and wine producers, replacing a system of fixed prices under the old contract.

''Champagne runs the risk of being more expensive in the next five to 10 years unless there is a serious economic crisis,'' Bernard said, adding that worldwide champagne consumption continues to rise.

A major exception to that trend is in the United States, where champagne consumption is on the decline, he added.

#90253u1496 09/10/1990 ~United Press International

WASHINGTON (SEPT. 10) UPI - U.S. consumer credit jumped $4.47 billion in July at an annual growth rate of 7.4 percent after gaining only $116 million in June, the Federal Reserve announced Monday.

Private analysts expected a net increase of $1.5 billion for July following June's weak showing and annual growth rate of 0.2 percent.

''The July increase was concentrated in revolving and 'other' credit

outstanding,'' the Fed's report said. ''Automobile loans contracted while outstanding mobile home borrowings were about unchanged in July.''

By category:

-Automobile loans fell nationwide $534 billion in July after diving by $1.76 billion in June;

-Revolving, or credit card, use advanced nearly $3.77 billion in July after gaining $1.2 billion in June;

-Mobile home loans inched up $33 million in July after falling $83 million in June;

-''Other credit,'' which includes loans by finance companies and retailers increased $1.2 billion in July after adding $753 million in June.

The Federal Reserve also reported that U.S. consumer credit increased $3.65 billion in May at an annual growth rate of 6.1 percent, mainly on credit card loans.

In addition, the Fed also reported Monday that auto finance companies charged 12.68 percent interest for a new car loan in July and 15.96 percent on a used car loan during the month.

In June, the rates on a new car loan and a used car loan were 12.58 percent and 16 percent, respectively.

There were also several figures available for August.

The Fed said commercial banks charged 11.89 percent last month on a 48-month new car loan, 15.46 percent of a 24-month personal loan, 14.09 percent on a mobile home loan and 18.18 percent on a credit card.

Comparable data for July were not provided.

-30- 1958

#90253u1519 09/10/1990 ~United Press International

CAIRO, EGYPT (SEPT. 10) UPI - Arab League ministers met Monday to decide whether to move their headquarters from Tunis to Cairo in a symbolic vote expected to split the organization into two camps on opposite sides of the Iraq crisis.

The twelve of 21 Arab League foreign ministers who arrived in Cairo for the Monday evening conference were expected to unanimously approve the move to Cairo, which has been a staunch supporter of the U.S.-led military effort in the Gulf region.

But nine members, all of them more or less sympathetic to Iraq, boycotted the meeting after letting it be known they disapproved of returning the offices to Egypt.

The League, established in 1945, was moved from Cairo to Tunis in 1979 after Egypt signed a peace treaty with Israel.

Analysts in the Middle East say the Iraq crisis has severely strained relations within the League and that the move to Cairo is symbolic of the widening split between member states.

The rift is not based so much on Iraq's Aug. 2 invasion of Kuwait as it is on the Western response to the takeover of the tiny oil rich emirate. The United States alone has deployed 100,000 troops to the region to guard Saudi Arabia against possible attack by Iraqi troops, a move angrily denounced by some Arab states who see it as Western interference in an Arab problem.

At an Arab League meeting shortly after the invasion, all of the members except Iraq, Yemen and the Palestine Liberation Organization voted to condemn Saddam Hussein's grab for a larger share of the oil- rich Arabian peninsula.

The nine states that boycotted Monday's meeting in Cairo, including Jordan Libya and Tunisia, have criticized the Iraqi invasion, but have been more vocal in their objections to Western troops in the Gulf.

In contrast, Egypt, Syria and Morocco have sent troops to join the U.S.-led force and Saudi Arabia and the United Arab Emirates have allowed the Western soldiers to be deployed on their soil.

The Arab League had acutally decided at an Arab summit this past spring to move the League headquarters to Cairo in October of this year, but the decision became more political when League Secretary General Chedli Klibi, a Tunisian, resigned from his post last week.

Klibi had been criticized by some moderate Arab states, especially Saudi Arabia, for the Leagues response to the Gulf crisis. He was replaced by Acting Secretary General Assad al-Assad, a Lebanese, whose government has long been at odds with Iraq.

Analysts and diplomats say the League will survive this difference of opinion just as it has survived past disputes.

''It is premature to say there is a split and that there will be two leagues,'' said Abdulrazak al-Kandari, the exiled Kuwaiti government's ambassador to Cairo. ''There is a split in the political attitudes over

the invasion. If it continues it will effect the League, but it is too early to say they will break away.''

''This is not a black and white issue. There are lots of shades of gray,'' said a Western diplomat based in Cairo. ''Those on one side of this fence are not in complete agreement with everyone on their side.''

Still the vote Monday, expected to be a formality, is seen as a victory for the moderate, pro-Western policies of Egyptian President Hosni Mubarak.

Besides Tunisia, Jordan and Libya, the League members that stayed away from Cairo Monday were Iraq, Sudan, Algeria, Mauritania, the Palestine Liberation Organization and Yemen.

(SEPT. 10) UPI - Unionized teachers returned to classrooms Monday in Michigan, Pennsylvania and Washington state as 4,700 educators pressed walkouts over wage and classroom issues, disrupting classes for about 73,000 students nationwide.

Strikes by 2,200 teachers in five Michigan school districts prolonged summer vacation for more than 37,000 students. In Ypsilanti, 384 teachers went on strike Monday, while a strike in Cheboygan was settled during the weekend and walkouts moved into a second week in Troy, Saginaw, Gwinn and St. Igance.

A strike by 900 teachers in Saginaw extended summer vacation for 16,000 students. Union leaders said negotiations stalled on ''quality education

issues,'' such as class size, student discipline and use of professional time.

''At this point there are no meetings scheduled. The last bargaining session was Saturday and it broke off,'' said Joel Tanner, a member of the Saginaw Education Association's executive board.

Teachers in Ypsilanti voted to strike Sunday after their school board rejected the recommendations of an independent fact-finder, who suggested a one-year contract with a 5 percent salary increase. Teachers approved the recommendation Thursday, but the school board rejected it as too costly.

Teachers met Sunday and agreed to set up picket lines Monday morning, closing classrooms for about 6,300 students.

Some 2,400 students in the Cheboygan school district were scheduled to return to classrooms Tuesday. The district's 114 teachers agreed to a three-year contract after a 20-hour mediation session that began Saturday afternoon.

No bargaining sessions were scheduled in the Troy school district, where a strike by 700 teachers idled 11,000 students. Both sides in the dispute were awaiting the appointment of an independent fact-finder.

In Illinois, 1,629 students were out of class Monday because of strikes by 109 teachers. About 30 teachers in the rural Dongola unit district went on strike Monday, two weeks after school began for the district's 329 students.

Teachers in western Pennsylvania's Ligonier Valley School District returned to classrooms Monday after reaching a tentative contract settlement to end a four-day strike. A six-hour bargaining session Sunday ended with a proposed five-year contract scheduled for a ratification vote Monday.

The settlement left 898 teachers in six Pennsylvania districts on strike, affecting 12,420 students, officials said.

Three New Jersey school districts were on strike Monday in defiance of back-to-work orders, disrupting classes for nearly 12,000 students.

Some 240 teachers in the Evesham School District in southern New Jersey voted to strike Monday, canceling classes for 3,800 students.

A strike by 303 teachers and 28 secretaries in Deptford Township has disrupted classes for 3,330 students. Substitute teachers were hired in the Deptford School District and in the South Orange-Maplewood School District, where a strike by 390 teachers and 182 support staff affected

4,800 students.

About 50 parents picketed Sunday outside the Deptford Municipal Building, carrying signs saying, ''End it now.''

With classes set to start in two days, teachers in the Exeter-West Greenwich, R.I., school system voted Monday to strike over wages, health benefits and several other grievances. The vote by the 120-member union came after an all-night bargaining session at the state Labor Department.

Teachers had been scheduled to report for orientation Monday and were to begin classes Wednesday. About 1,400 students attend school in the district.

''We're basically hung on six or seven issues: salaries, co-payment of health benefits, class sizes, insurance, association rights, academic freedom and retirement benefits,'' said union bargaining team member Michael Magee.

He said it was difficult to gauge the chances for a settlement in time for the start of classes. ''We're going to be negotiating all night long tonight and have a better feel in the morning,'' Magee said.

In Washington state, some 1,200 teachers returned to school Monday after settling a week-long strike that provided an extra week of vacation for 22,500 students at 32 schools in Redmond, Kirkland and Juanita.

Teachers met Sunday night at Juanita High School and overwhelmingly approved a three-year contract in a near-unanimous vote. The agreement was hammered out Friday by negotiators for the union and the Lake Washington School District.

''We won, let's face it. We kicked their you-know-whats,'' said Doug Lundvall, president of the Lake Washington Education Association.

WASHINGTON (SEPT. 10) UPI - Yields were mixed on 13-week and 26-week T-bills Monday at the government's weekly auction.

The Treasury Department auctioned $9.2 billion of 13-week bills at an average discount of 7.41 percent, up from 7.39 percent last week and the highest since Aug. 27, when the auction yielded 7.49 percent.

The Treasury also sold $9.23 billion of 26-week bills at an average of 7.34 percent, down from 7.36 percent last week and the lowest since Aug. 13 when the yield stood at 7.31 percent.

The investment rate was 7.66 percent on the 13-week bills at an average price of $9,812.70 per $10,000 face value. The rate on the 26- week bill was 7.73 percent at $9,628.90.

#90253u1557 09/10/1990 ~United Press International

NEW YORK (SEPT. 10) UPI - Mayor David Dinkins led the defense of New York City Monday by calling it ''still the greatest urban center in the world'' in the wake of a Time magazine cover story headlined ''The ''magazine cover story

The latest issue of the magazine said the current crime wave in New York confirmed what most Americans already believed: New York is ''an exciting but dangerous place'' where deadly violence, once mostly confiend to crime-ridden ghetto neighborhoods ''is now lashing out randomly at anyone, anytime, even in areas once considered safe.''

Dinkins, in Washington for testimony before a House subcommittee, said he was distressed to hear that a Time poll showed a majority of New Yorkers would like to live somewhere else.

''I think that when things are put in perspective, people appreciate the greatness of our city,'' he said. ''It is still the greatest urban center in the world. Unfortunately, we are plagued with violence and crime, as are other jurisdictions within these United States.''

''We don't seek to answer our problems by saying that the grass is not in fact greener elsewhere,'' the mayor said. ''We know that to be the fact. What we do instead is try to resolve our problems.''

Tourism officials were quick to note that the number of conventions held locally had risen this summer, as had the number of tourists, though they acknowledged the industry could suffer in the long run from negative articles like the Time story.

''Crime and violence isn't affecting what tours are already booked, but it might affect what is being booked,'' said Lou Cavalaro, vice president for marketing for Gray Line Tours. ''The gang rape of the jogger in Central Park cost us several groups who were just firming up their plans.''

#90253u1566 09/10/1990 ~United Press International

COLUMBUS, GA (SEPT. 10) UPI - Eleven protesters entered the second week of a hunger strike outside the gates of Fort Benning Monday, demanding an end to the training of Salvadoran soldiers at the base.

Charlie Liteky, a Vietnam veteran, recipient of the Congressional Medal of Honor and a former chaplain at Fort Benning, was among the protesters. Liteky alleged Monday that Salvadoran soldiers trained at the U.S. Army School of the Americas, located at the base, return to El Salvador to participate in death squads terrorizing the country.

''They're being taught torture techniques,'' Liteky said.

The 59-year-old former soldier said that while Salvadorans trained at the facility also are taught humanitarian principles, they soon are forced to disregard that part of their training.

''They almost have to, because (the El Salvador military) is a structure that doesn't respect human rights,'' Liteky said.

Grif Godwin, a public information specialist for Fort Benning, said the protesters had caused no problems for the facility. Beyond that, he could not comment on training, and officials for the School of the Americas were unavailable for comment Monday.

Liteky, who served as chaplain at the base for six months in 1966 and 1967 before the School of the Americas was founded, said the protesters hope to refocus attention on human rights abuses in El Salvador in a time when everyone seems to be concentrating on the crisis in the Middle East.

''El Salvador's government is allowed to go on with its murderous tricks without being subjected to the public eye,'' said Liteky, who traveled to the country with 10 other Vietnam veterans in 1985.

He described El Salvador as ''another Vietnam,'' saying, ''The only thing that's missing is the introduction of U.S. troops. And that could happen anytime.''

Liteky said the protesters have not decided how long they will continue the hunger strike.

''I don't think any of us right now are thinking of a terminal fast. However, that's possible,'' he said.

The 11 protesters, nine members of a core group that planned the hunger strike and two others who joined in the first day, live on a small patch of grass on city property just beyond the boundaries of the base.

One of the two who joined the protest at the last minute is 71- year-old John Shields, a veteran peace activist.

The group originally began Aug. 3 on federal property near the fence, but

moved after Army surveyors plotted the exact property boundary and painted a line the protesters are not supposed to cross.

''We have to say the city police have been very cooperative and haven't hassled us,'' Liteky said.

Members of the group have had nothing but water since the hunger strike began.

''I'm feeling pretty good. We have intermittent periods of extreme weakness,'' Liteky said.

The Vietnam veteran said they have faced some harassment, mostly from young soldiers who blow their horns at night and shout while driving by.

''We understand that,'' Liteky said. ''It's a way for young men to express their manhood, I suppose.''

#90253u1569 09/10/1990 ~United Press International

WASHINGTON (SEPT. 10) UPI - President Bush reports to Congress and the American people Tuesday night on the Persian Gulf crisis, heartened by broad backing at home and abroad while guarded about the consequences of a prolonged standoff.

Just back from a quick summit with Soviet President Mikhail Gorbachev, Bush reported to foreign leaders Monday while drafting a speech for delivery at 9 p.m. EDT Tuesday before a joint session of Congress.

White House press secretary Marlin Fitzwater said Bush called the leaders of Canada, Egypt, France, Saudi Arabia and Turkey to underscore ''the historic nature'' of the joint statement he and Gorbachev issued Sunday against Iraq.

''All the leaders expressed satisfaction on their concerted efforts against Iraq," Fitzwater said, ''and pledged continued cooperation in this endeavor.''

The televised appearance on Capitol Hill, his third as president, will enable Bush to report on the summit, but go beyond the unified stand he and Gorbachev took Sunday in Helsinki, Finland, against Iraq's armed takeover of Kuwait.

Advised by some members of Congress in recent weeks to take steps to sustain the popular support he has received so far for his actions in the gulf, Bush will again lay out the interests at stake in the showdown with Saddam Hussein.

Since the Aug. 2 Iraqi invasion of Kuwait, that rationale has not always been well defined. Low oil prices, Kuwaiti sovereignty, regional stability and the American ''way of life'' all have variously been mentioned by Bush as reasons for American intervention.

In Helsinki, Bush and Gorbachev agreed on the need to stand united against Saddam, but not spell out why or how. Firmly aligned on the ultimate goal - forcing Saddam to withdraw from Kuwait - they differed over the means.

Gorbachev made no secret of his skittishness over the huge, U.S.- led show of military firepower in and near the gulf and his desire to avoid a violent outcome to the confrontation, which to date has been impervious to diplomatic efforts.

The United States has more than 70,000 troops on the ground in Saudi Arabia and a massive naval force arrayed in and near the gulf, at a current estimated cost of $46 million and more a day.

Bush and Gorbachev also disagreed over whether the crisis, sparked by Iraqi-Kuwaiti disputes over money and oil, should be brought under the umbrella of the broader Middle East peace process, which in effect would link it to the intractable Arab-Israeli conflict over the future status of Palestinians in the occupied territories.

It will be points of U.S.-Soviet agreement that Bush will trumpet before Congress, while acknowledging the financial costs and personal sacrifices Americans may be forced to pay in the drive to repel Saddam.

Left unanswered, however, will be the question left hanging in Helsinki: What the United States and other nations allied against Iraq will do if diplomacy fails and Saddam, feeling the pinch of economic sanctions but armed with Western hostages, settles in for a long siege.

For various reasons, including the absence of a consensus on long- term strategy and a need to keep their options open, Bush and Gorbachev left that point vague Sunday in toughening their stand against Iraq with a threat of further action to reverse its ill-gotten gains.

''Too hypothetical,'' Bush retorted when asked at a news conference about future intentions.

''That would draw us into consequences which we can't at this stage forecast,'' he said when asked what he would do in the absence of an Iraqi withdrawal from Kuwait.

Those answers may have enabled Bush and Gorbachev to avoid being pinned down at the summit, but the questions are among those fueling domestic

concern about the gulf crisis. Key members of Congress, even the many who support his actions to date, have said Bush must continue to make clear his objectives and their importance to U.S. interests to retain the strong backing he now enjoys, especially if tense confrontation turns to outright armed conflict.

To that end, aides said, Bush will emphasize Tuesday night that the United States is not alone in the challenge to Saddam and is pursuing political solutions through the United Nations and third-party mediation even while massing a huge military force in the region.

Polls show that 70 percent or more of all Americans approve of how Bush has handled the problem. Denied a swift and painless end to the crisis, his speech Tuesday night is viewed as only the latest in what could be a long series of steps to protect that high approval rating from anxiety or frustration.

#90253u1571 09/10/1990 ~United Press International

CLEVELAND (SEPT. 10) UPI - BP America Inc. said Monday it will pay 500 minority job applicants an estimated $445,000 and give 25 minorities clerical jobs as part of a settlement of racial discrimination allegations made by the government.

The agreement with the Labor Department's Office of Federal Contract Compliance Programs settles alleged discrimination in the hiring and promoting within clerical staffs of BP America and its BP Oil subsidiary.

The government alleged the difference between BP's percentage of minority applicants for clerical positions and the percentage of minorities hired in those positions in 1988 and 1989 constituted discrimination based on race.

BP America, however, said it believed the difference was the result of its ''aggressive programs to reach minority applicants.''

The company said 60.5 percent of the applications for clerical positions in 1988 and 1989 were from minority applicants and 42.4 percent of the applicants hired were minorities.

''While we disagree with the Labor Department's interpretation of the facts in this case, we have voluntarily entered into this agreement in order to remove any question of discrimination in the future,'' President James Ross said. ''We remain steadfastly committed to the principles of equal opportunity and affirmative action and intend to press forward with minority-focused programs.''

BP America said under the agreement about 300 internal and 200 external minority applicants for clerical jobs during 1988 and 1989 will receive a one-time compensatory payment from the company with an average payment of about $900.

And the company said it will give 25 additional clerical positions to qualified minority applicants covered by the agreement.

-30- 1936

#90253u1572 09/10/1990 ~United Press International

GROSSE POINTE, MI (SEPT. 10) UPI - Mercedes-Benz North America said Monday it will pay nearly $18.6 million in penalties this year for not meeting government-mandated corporate average fuel economy (CAFE) standards.

The West German luxury car distributor, during a preview of its 1991 models in the posh Detroit suburb of Grosse Pointe, said its CAFE this year will be 21.2 mpg. The CAFE standard for 1990 is 27.5 mpg, up from 26.5 mpg in 1989.

Last year, Mercedes paid $20.4 million in CAFE penalties because of its overall rating of 21.4 mpg, officials said.

MBNA executives justified the penalties by saying its owners still desire heavy, substantial and safe cars. ''Advanced safety has its weight penalties,'' said Peter Patrone, MBNA's manager of product planning.

Nonetheless, the carmaker plans to counter the fuel penalties with a line of new diesel-engined cars introduced this year that have so far been selling slightly above projected levels of 4,000 a year - although they are prohibited from sale in California because of stricter emission laws.

Mercedes also plans to redesign all of its gasoline engines and adopt more four-valve-per-cylinder designs and new fuel injection systems in coming years, Patrone said.

Also intended to offset some of the mileage fines for 1991 is a new version of its compact 190E line, fitted with a 130-horsepower 2.3 liter four-cylinder engine with either a manual or automatic transmission.

Prices are $28,050 and $28,950 respectively, and they are the first Mercedes offered in two years for under $30,000.

Mercedes cars cost up to $89,300, excluding an owner-paid $1,050 gas guzzler tax, for its 500SL roadster introduced for 1990, though its best selling model is the mid-sized 300E sedan, which costs $47,200.

MBNA announced an average 3.3 percent price late last month.

Albert Weiss, general manager of marketing at the company's Montvale, N.J. headquarters, said Middle East tensions have so far not affected U.S. sales because people still want high-technology, safety and V8 engine power.

''The cost-of-fuel issue does not seem to be a problem at this time,'' Weiss said, but cautioned that limited fuel availability could crimp sales for Mercedes as well as other manufacturers.

Weiss said he expects MBNA's U.S. sales this year to total 75,000 cars as projected, down slightly from 75,714 cars sold in 1989. About 40 percent of those deliveries are for leases.

But Weiss declined to forecast sales for 1991 among its 420 U.S. dealers because of the uncertain economy and unstable geopolitical events.

While most car models are unchanged for 1991, Mercedes will offer three new electronic systems to improve traction and ride comfort.

The traction devices are called ASD and ASR, acronyms derived from German abbreviations that loosely translate into ''automatic locking differential'' and ''automatic slip control.''

ASD, a $1,050 option on selected models, automatically locks the car's rear differential to offer improved traction. ASR, a more sophisticated system offered as an option for between $1,975 and $2,475 depending on model, electronically applies the brakes to the drive wheel or wheels that are about to spin, while reducing engine output to match available traction.

Offered as a $3,800 option on its 300SL and 500SL roadsters is ADS (adaptive damping system), which automatically adjusts the shock absorber settings for optimum ride.

Last July, MBNA announced a corporate restructuring to decentralize its operations and align its marketing areas according more to demographics than geographic sales zones.

The restructuring, the first since MBNA was created in 1965, breaks the country into four regions instead of seven sales zones.

#90253u1582 09/10/1990 ~United Press International

ALBANY, NY (SEPT. 10) UPI - U.S. Sen. Alfonse D'Amato, R-N.Y., Monday characterized the Japanese as greedy profiteers who will not take part in

the Persian Gulf crisis unless there is a buck in it.

''I certainly believe the Japanese have been acting totally within the character that they usually do,'' D'Amato said.

In demanding more participiption, especially financial, from the United States' allies in the gulf, D'Amato also pulled no punches in assessing the participation of West Germany and Egypt.

But he saved his harshest commentary for Japan.

''They are motivated by profit, greed and avarice, and for them to not step forward and make a contribution to this mission is unconscionable,'' D'Amato said.

D'Amato, who sits on the Senate Intelligence Committee, stressed he does not believe the Japanese should, or must, play an active military role but said they should help pay the freight.

He suggested Japan might finance relief efforts for thousands of refugees stranded in camps along the Jordanian-Iraq border.

''That's the kind of effort the Japanese could so easily take up and pay for. (But) they'd try to find a way to swing a deal, to make some money, to keep people from starving or from thirst. Theirs is an attitude that really is repugnent to what is taking place,'' D'Amato said.

D'Amato also criticized the West Germans for not taking a large enough role in containing Iraq's aggression.

''Where are they? It's nice that they've got East Germany. It's nice that they've got unification. It's wonderful they've got a strong economy. But what about their participation in a meaningful way economically?'' D'Amato asked.

He said he believed Egypt should also play a larger military role in Saudi Arabia.

''At certain times we had more congressmen in the sands of the desert in Kuwait visiting than they had troops,'' D'Amato said.

TORONTO (SEPT. 10) UPI - Union paperworkers at Abitibi-Price Inc. mills in Ontario, Quebec and Newfoundland set up picket lines Monday, shutting down operations at seven locations, the company said.

Negotiations between the Canadian Paperworkers Union and Abitibi- Price were continuing, with the talks focusing on contract language and salary issues, said company spokeswoman Sharon Paul.

About 4,700 Abitibi-Price workers, union and non-union, were affected by the picket lines.

Two CPU-represented mills in Quebec and four non-CPU mills in Quebec, Manitoba, Georgia and Alabama were continuing to operate, Paul said.

Serge Lord, a union spokesman, said negotiations are ''in a delicate phase''. He said the union is waiting for the company to respond to the CPU's latest proposal.

Lord said the company has accepted a wage proposal, similar to one accepted in July by Stone-Consolidated Inc. of Montreal, which will boost the base rate of 2,350 workers by 5.5 percent each year of a three-year deal. Under the deal, base salaries will increase from $13.06 an hour to $15.34 an hour over the course of the contract.

Lord said the key issues still to be resolved include flexibility for tradesmen and running time on statutory holidays.

The wage package fell short of the union's original objective of 8 percent a year in a two-year contract, plus automatic cost-of-living adjustments.

The two sides began their current set of talks Friday after being called back to the bargaining table by provincial government conciliators. Talks began in April and focused on local issues until negotiations were adjourned in late August.

#90253u1617 09/10/1990 ~United Press International

DALLAS (SEPT. 10) UPI - Texas Instruments Inc. Monday dismissed a lawsuit by Tandy Corp. challenging the semiconductor maker's patent policies and the royalties received on them as a counterclaim typical in patent cases.

''The main thing is that this lawsuit contains the type of counterclaim that regularly occurs as a defense against a patent assertion,'' said Stan Victor, spokesman for the Texas Instruments, of Dallas. ''Typically, these counterclaims attack the patent's validity. From our point, we believe TI acted appropriately at all times in attaining, obtaining and enforcing its patents.''

Victor said his company would contest the lawsuit.

In its action filed in San Francisco Friday, Tandy, a $4.5 billion consumer electronics company headquartered in nearby Fort Worth, Texas, accused TI of violating antitrust laws. It said TI demanded unreasonably

high royalty payments on its technology and forced Tandy to buy licenses it didn't need to obtain other TI technologies.

Tandy did not specify the damage it was seeking but asked they be trebled and also a ruling that some of the TI patents are invalid. Since 1986, TI has made over $600 million in royalty revenues from companies that use its technology.

Victor said while filing the lawsuit, Tandy also indicated it intended to continue its royalty payments to TI. Those payments, which were not disclosed, are part of a settlement the two reached in the first quarter of this year and relates to microprocessor systems, Victor said.

''Basically we have eight patents that broadly govern how the microprocessor interfaces with other components of the microprocessor systems,'' Victor said.

Tandy said it accepted the agreement because of TI's dominance of the market.

''Because of the number, importance and uniqueness of the patents its owns and controls, TI has the ability to control prices and/or exclude competition in the license market in the U.S.,'' the suit said.

Some analysts contend TI has pursued its patent policy too vigorously and may have antagonized some U.S. companies.

But Victor defended his company's policy, saying the royalty payments have helped TI to invest more in research and development.

''That extra money has helped us go ahead with capital expenditures of over $2.5 billion and make long-term investment in new capacity that will come on stream in the future. If we didn't have this income, we would have been able to take only a short-term view.''

#90253u1622 09/10/1990 ~United Press International

JERUSALEM (SEPT. 10) UPI - Arab labor organizers said Monday thousands of Palestinians have been deported from Saudi Arabia and Gulf states, but urged them to try to return to their jobs because little work was available in the Israeli-occupied territories.

The General Federation of Trade Unions in the territories estimated 56,675 Palestinians had been deported from Saudi Arabia and the Gulf region since the Iraqi invasion of Kuwait. The figure, however, could not be confirmed.

The Palestine Liberation Organization has backed Iraqi President Saddam

Hussein during the Gulf crisis and demonstrations supporting Iraq have erupted in the Israeli-occupied West Bank and Gaza Strip.

During a news conference in East Jerusalem, leaders of the Palestinian labor organization said they were concerned about the return of Palestinians to the territories because few jobs were available to them. They called on wealthy Palestinians to help finance projects in the territories in order to provide more jobs.

''There are no places for them to work,'' said Salah Abu Qutaish, a executive committee member of the General Federation of Trade Unions. ''We must tell them to stay at their jobs and to return to the countries where they used to work.''

Federation members estimated unemployment in the territories at roughly 30 percent and claim the high rate is in part a result of Soviet Jewish immigration.

They estimated 8,000 Palestinians have returned to the territories while another 80,000 remain stranded in Jordan. However, it was not clear how many Palestinians have identification cards that enable them to live in the occupied territories.

JERUSALEM (SEPT. 10) UPI - A boy and his sister were seriously injured Monday when a grenade they dug up in the Gaza Strip exploded when they started playing catch with it, Palestinian sources said.

The accident happened in the Israeli-occupied territories on the outskirts of the Gaza Strip town of Khan Younis, the sources said.

An 11-year-old boy lost an arm and leg in the explosion while his 8-year-old sister was in moderate condition with multiple injuries, the sources said.

It was not clear why the Czechoslovakian-made grenade had been buried on the outskirts of the town but it apparently had been in the area for a long time, Israeli military sources said.

Elsewhere in the Gaza Strip, a new Palestinian group identifying itself as the ''Tigers'' has said it would chase down and kill collaborators, Palestinian sources said. The threats were made in slogans written on Rafah area walls, the sources said.

Confrontations erupted in the West Bank Tulkarm refugee camp between supporters of the PLO's Fatah wing and the Islamic fundamentalist Hamas movement, Palestinian sources said.

The sources said 13 Palestinians were wounded during the confrontations, which began last night. The military clamped a curfew on the camp.

WASHINGTON (SEPT. 10) UPI - Iraqi chemical weapons plants are high priority targets in the event of war, but experts said Monday nerve and mustard gases have been stockpiled in underground concrete bunkers and would be difficult to destroy.

Iraq produces more than 1,000 tons of chemical agents a year - between 250,000 and 500,000 artillery rounds and bombs, depending on the mix of munitions produced - according to a report by Michael Eisenstadt, an analyst with the Washington Institute for Near East Policy, a pro- Israel ''think tank.''

In addition, Iraq is said to be adapting Soviet-built Scud-B surface-to-surface missiles to carry chemical warheads.

These figures mean that Iraq has ''the largest chemical weapons production capability in the Third World,'' said the newly published report, which was written before Iraq's Aug. 2 invasion of Kuwait. ''Such a production capability is sufficient to support sustained combat operations.''

Iraq began developing a chemical weapons production capability in 1974 and used poison gases against Iranian troops during its eight-year war with Iran and against its own Kurdish rebels. Chemical agents, which were used during World War I with devastating effect, were outlawed in wartime in 1925.

Some Middle Eastern leaders have urged a military solution to the Persian Gulf crisis as a means of ensuring the destruction of Iraq's chemical and biological weapons stockpiles and its fledgling nuclear weapons program. Israel destroyed an Iraqi nuclear reactor in 1981.

''Chemical weapons constitute the backbone of Iraq's strategic weapons capability as well as a key tactical weapon,'' the report said. ''Consequently, it will continue to stockpile chemical weapons and possibly biological weapons for the forseeable future.

''Moreover, it is expected to commence production in the near future of chemical missile warheads, vastly increasing the lethality of its strategic forces.''

Iraq's chief chemical weapons production facility is situated near Samarra about 45 miles northwest of Baghdad, the Eisenstadt report said. In addition, there are several dispersed underground storage sites for the weapons that are hardened against air attack.

Its principal biological weapons research center is situated near Salman Pak, about 20 miles southeast of Baghdad, the study said.

''Iraq is reportedly producing and stockpiling botulin toxin in militarily significant quantities and has reportedly conducted research with anthrax, typhoid and cholera,'' the report said, referring to congressional testimony by CIA Director William Webster 19 months ago.

Botulism, often associated with poisoning from canned food, is a bacterial disease that causes paralysis of the respiratory system and death by suffocation.

Experts knowledgeable about Iraq agree that facilities for the production or development of chemical, biological and nuclear weapons are vulnerable to air attack but that it would be much more difficult to get at weapons stockpiled elsewhere.

''You can't put a chemical plant underground, but the situation is trickier with existing stocks (of chemical weapons),'' said Seth Carus, an analyst with the institute.

The bunkers have been hardened with concrete and decoy bunkers have been built to spoof war planners, he said.

''It's not going to be a simple operation to destroy those bunkers,'' Carus said. ''You would not be able to destroy more than a fraction of their existing stocks. We probably could destroy the ''e probably could destr

Anthony Cordesman, a Middle East analyst for Sen. John McCain, R- Ariz., estimated there were 20 to 30 targets involving chemical and biological weapons sites but that it would take 200 to 300 sorties by strike aircraft to wipe them out. A sortie is one flight by one plane.

A limited air strike of up to 50 sorties could result in some success, he said.

But any planned strike against Iraqi military facilities would carry with it the risk of killing or wounding Western male hostages who are being used as shields against attack.

By comparison to Iraq's chemical weapons production of 1,000 tons a month, the United States has stockpiled 30,000 tons of chemical agents, the Soviet Union 50,000 tons, the Eisenstadt report said.

#90253u1694 09/10/1990 ~United Press International

WASHINGTON (SEPT. 10) UPI - Education Secretary Lauro Cavazos said Monday he has ordered a review of seven agencies that accredited 89 schools, mostly vocational, with the highest student loan default rates.

"I am convinced that any accrediting agency that takes its role seriously must focus on education effectiveness and must be concerned that institutions with high default rates are held accountable," Cavazos said.

The announcement came two days before a Senate subcommittee hearing on schools that continue to be accredited for federal funds despite steep default rates.

"It's no coincidence," a congressional source who requested anonymity said of the timing of Cavazos' action. "The secretary is trying to divert the heat ... the criticism he's going to be getting at the hearing because of all the problems with the student loan program."

Education Department spokesman Rodger Murphey insisted the timing was coincidental, not political. "It would have all the appearances of a simultaneous release, but it is not. There is no cause and effect," Murphey said.

A federal advisory committee recommends to the secretary which accrediting agencies should be recognized. Those agencies, in turn, accredit schools - a necessary step to participating in federal student loan programs.

The secretary ordered the advisory committee to scrutinize the policies of the seven agencies that have accredited the 89 schools, which have the highest percentage of students defaulting on 1988 loans and the highest volume of loans in default.

Cavazos also directed Assistant Secretary Leonard Haynes III to meet with the agencies' top executives and "urge them to review their policies and procedures."

The 1988 loans in default made by the 89 schools total $365 million. Of the 89 schools, 28 have been closed, one is open but no longer participates in federal loan programs and the rest remain active in federal loan programs.

In a written statement, Sen. Sam Nunn, D-Ga., chairman of the subcommittee said the hearings Wednesday and Thursday will provide "an insider's view of a national scandal in the making," showing how unscrupulous trade school owners make huge profits but offer little or no useful training.

"Far too many of these bad schools continue to be licensed, accredited and certified for federal funds. Obviously, the student loan program as now structured and administered is based on quantity of students rather than on quality of education," Nunn said.

Cavazos said it is reasonable to expect that the level of student loan defaults at a school is related to the quality of its education. A spokesman for one of the seven agencies disagreed.

"Just because a school has a high default rate doesn't mean there's a poor level of education being offered at a school," said Brian Thompson, spokesman for the National Association of Trade and Technical Schools, which has an independent accrediting division. "We use default as one of the many factors to accredit a school. It's not the sole criteria."

The seven agencies under scrutiny are: The Accrediting Bureau of Health Education Schools; The Accrediting Council for Continuing Education and Training; The Association of Independent Colleges and Schools, Accrediting Commission; The National Accrediting Commission of Cosmetology Arts and Sciences; The National Association of Trade and Technical Schools, Accrediting Commission; The National Home Study Council, Accrediting Council; and Southern Association of Colleges and Schools, Commission on Occupational Education Institutions.

WASHINGTON (SEPT. 10) UPI - Education Secretary Lauro Cavazos said Monday he has ordered a review of seven agencies that accredited 89 schools, mostly vocational, with the highest student-loan default rates.

''I am convinced that any accrediting agency that takes its role seriously must focus on education effectiveness and must be concerned that institutions with high default rates are held accountable,'' Cavazos said.

The announcement came two days before a Senate subcommittee hearing on schools that continue to be accredited for federal funds despite steep default rates.

''It's no coincidence,'' a congressional source who requested anonymity said of the timing of Cavazos' action. ''The secretary is trying to divert the heat ... the criticism he's going to be getting at the hearing because of all the problems with the student-loan program.''

Education Department spokesman Rodger Murphey insisted the timing was coincidental, not political.

''It would have all the appearances of a simultaneous release, but it is not. There is no cause and effect,'' Murphey said.

A federal advisory committee recommends to the secretary which accrediting agencies should be recognized. Those agencies, in turn, accredit schools - a necessary step to participating in federal student- loan programs.

The secretary ordered the advisory committee to scrutinize the policies of the seven agencies that have accredited the 89 schools, which have the highest percentage of students defaulting on 1988 loans and the highest volume of loans in default.

Cavazos also directed Leonard Haynes III, an assistant secretary, to meet with the agencies' top executives and ''urge them to review their policies and procedures.''

The 1988 loans in default made by the 89 schools total $365 million. Of the 89 schools, 28 have been closed, one is open but no longer participates in federal loan programs and the rest remain active in federal loan programs.

In a written statement, Sen. Sam Nunn, D-Ga., chairman of the subcommittee said the hearings Wednesday and Thursday will provide ''an insider's view of a national scandal in the making,'' showing how unscrupulous trade school owners make huge profits but offer little or no useful training.

''Far too many of these bad schools continue to be licensed, accredited and certified for federal funds. Obviously, the student loan program as now structured and administered is based on quantity of students rather than on quality of education,'' Nunn said.

Cavazos said it is reasonable to expect that the level of student loan defaults at a school is related to the quality of its education. A spokesman for one of the seven agencies disagreed.

''Just because a school has a high default rate doesn't mean there's a poor level of education being offered at a school,'' said Brian Thompson, spokesman for the National Association of Trade and Technical Schools, which has an independent accrediting division. ''We use default as one of the many factors to accredit a school. It's not the sole criteria.''

WASHINGTON (SEPT. 10) UPI - The free distribution of the promising AIDS drug DDC is being widened to include possibly thousands more patients, a drug company announced Monday.

In June, the Food and Drug Administration gave Hoffmann-La Roche Inc. of Nutley, N.J., permission to provide dideoxycytidine, or DDC, to AIDS patients who cannot take the two currently available drugs to combat the AIDS virus. Those drugs are AZT, the only fully approved AIDS-fighting drug, and DDI, an experimental drug already offered through a similar expanded access program.

About 100 people with AIDS or advanced AIDS-related complex have been receiving DDC through that route, and another 1,000 patients are taking the drug in the more strictly monitored tests required for government drug approval, said Paul Oestreicher, a Hoffmann-La Roche spokesman.

Now, the drug maker is dropping the requirement that a doctor must demonstrate that a patient cannot take DDI before being allowed to start DDC. That move will likely increase the number of patients in the expanded-access program. ''It could potentially be thousands more,'' Oestreicher said.

So far, the most serious side effect of DDC has been pain in the nerves of the feet and hands. About 10 percent of patients eventually have to stop

therapy because of side effects, Oestreicher said.

DDI can cause similar pain, but also poses the risk of potentially life-threatening inflammation of the pancreas. The side effects associated with AZT include bone marrow suppression and anemia, and more than one third of patients have to stop treatment due to side effects.

Preliminary results have indicated therapeutic strategies that alternate the various anti-viral drugs may prove to be less toxic than long-term treatment with one drug.

For patients to receive DDC outside traditional tests, their doctors must contact Hoffmann-La Roche. Patients of doctors who registered with the company earlier this summer will be able to start receiving DDC almost immediately, while it will take ''several weeks'' for those whose physicians must register now, company officials said.

The distribution of DDC, as well as DDI, is considered a prototype for the ''parallel track'' system of testing AIDS drugs proposed by the government in May.

Under the plan, which is not yet final, some experimental AIDS drugs would be provided to AIDS patients who have no other treatment options, but who cannot take part in traditional drug tests for medical or travel reasons. A second track would consist of more strictly monitored tests.

The phone number for information on the DDC distribution plan is 1-800-DDC-21-HIV.

#90253u1788 09/10/1990 ~United Press International
WASHINGTON (SEPT. 10) UPI - Negotiators continued squabbling Monday over "virtually every element" of a $500 billion deficit-reduction plan, and it appeared certain that bargainers would miss their unofficial midnight deadline for reaching an agreement.

The bipartisan group of White House and congressional budget negotiators met only briefly Monday with negotiators spending most of the day caucusing in separate party meetings.

And, late in the afternoon, Republicans who had finished their caucus were told they could leave Andrews Air Force Base, Md., where the talks were under way, for up to three hours while Democrats continued meeting. Some Republicans were believed to have returned to Capitol Hill while others headed for the base golf course while awaiting an expected resumption of the talks.

"There are problems everywhere," said an aide to a Democratic negotiator. "There's a debate over virtually every element (of the deficit-reduction plan)." The Democratic aide said that sharp divisions remained over taxes and defense spending levels in particular.

"They (Republicans) continue to cling to a capital gains package that we think is a disgrace," the Democratic aide said. "They want a big tax break for the wealthy."

The aide also said Republicans so far were unwilling to cut defense spending next year by more than about $4 billion - a figure that includes the huge cost of the current U.S. military deployment in the Middle East. Democrats have been insisting on a defense cut of $10 billion or more that would not include the cost of the current deployment.

"We're not going to take $5 (billion cut) in defense," the Democratic aide said. "We're going to take double digits in defense." If the Republicans do not agree, the aide said, "I don't see how we can get an agreement. They (Republicans) are going to have to give on something. ... They have moved on nothing."

"We are waiting for the Democrats," said an aide to one Republican negotiator. "They are doing some negotiating. We're all ready to roll."

White House chief of staff John Sununu attended Monday's session. The budget negotiators gave themselves an unofficial deadline of midnight Monday to agree on how to cut the deficit by $50 billion in fiscal year 1991 and by $500 billion over five years.

Earlier in the day, top administration officials were pessimistic about chances for success of the talks, which began Friday. "I would say the talks are going nowhere fast," Treasury Secretary Nicholas Brady said on ABC's "Good Morning America."

Budget director Richard Darman reported on the lack of progress at during a morning staff meeting. "He was not optimistic ... but left the door open that something could budge today," a White House official said.

Later, on Capitol Hill, House Speaker Thomas Foley, D-Wash, acknowledged that the attempt to reach a complicated a budget agreement was "a slow

process," but said "I'm confident we'll get an agreement."

"I'm not sure we're going to get one (Monday), but both sides are earnestly working toward an agreement," Foley said. They've worked very hard since the begining of the weekend. While some progress has been made obviously there was a hope we would make more by this time, but we're going to continue."

Failure to reach and implement an agreement by Oct. 1, the beginning of the fiscal year, would trigger automatic spending cuts of $105.7 billion split between defense and domestic programs.

Those cuts are required under the Gramm-Rudman balanced budget law, which sets annual deficit-reduction targets and forces spending to be cut to a level that would meet that year's target. The fiscal year 1991 deficit target is $64 billion, but the projected deficit next year is about $169 billion, according to the administration.

Some programs, such as Social Security and those aiding the poorest Americans, are exempt from the Gramm-Rudman cuts. Cuts in Medicare payments are limited to two percent.

President Bush has exempted military personnel from any Gramm-Rudman cutbacks. Any cuts in Pentagon spending would hit hardest on civilian employees, procurement, and weapons systems.

#90253u1858 09/10/1990 ~United Press International
OTTAWA (SEPT. 10) UPI - There will be no amnesty for Mohawk Indians suspected of crimes in the eight week standoff between natives and Canadian Armed Forces at a reserve south of Montreal, the Canadian government said Monday.

Indian affairs minister Tom Siddon told reporters at a news conference that Mohawks want to conduct their own investigation into a standoff that began July 11 over a land dispute. Natives have also offered to compensate the Quebec government for damage to rail lines and highways.

But Siddon said such a parallel system of government would be unconstitutional. He said there was only one system of law and it applied to all Canadians, including natives.

Siddon also repeated earlier statements that the federal government would not negotiate with the Mohawks on their land claim until members of the Warriors Society, a militant faction of the Mohawk nation, who are holed up in a detoxification center on the Kanesatake reserve, have surrendered their weapons.

The Indian Affairs minister said he would ask Iroquois chiefs meeting Monday in Ottawa to help bring a peaceful end to the conflict by convincing the Warriors to lay down their weapons.

The eight-week standoff at Oka, Quebec, where the Kanesatake reserve is located, began July 11 when Quebec police stormed a barricade set up around disputed land that Mohawks claimed was an ancient burial ground. A police officer was killed in the action.

Days later, sympathetic Mohawks at the Kahnawake reserve threw up barricades across major highways and the Mercier Bridge, linking the town of Chateauguay to downtown Montreal. The bridge was finally reopened a week ago after Mohawks and the Canadian army agreed to jointly dismantle the barricades.

The standoff has continued however, at the Kanesatake reserve where several hundred soldiers have surrounded a drug treatment center, the last stand for militant Warriors as well as a handful of women and children.

On Saturday, one of the Warriors was severely beaten by soldiers who were conducting reconnaissance behind the Mohawk lines. He was later hospitalized in Montreal.

Siddon said the current standoff by Warriors should not be considered a ''noble endeavour'' and that a few lawless natives were delaying negotiations on land claims and other native issues.

''There is no place in Canadian society for Warriors who use AK-47 (rifles) to achieve their ends,'' Siddon said.

The dispute between Mohawks and the Canadian government has been complicated by contradictory statements and positions put forth by various factions of the Mohawk nation, some supporting the Warriors Society and others opposed to any show of militancy.

On Monday, Oren Lyons, chief of the Onandaga nation south of Syracuse, New York, was one of a small number of people authorized by the Iroquois Confederacy to negotiate with the federal and Quebec governments on behalf of the Mohawks period.

Lyons, who apppeared at a news conference with Kanesatake chief Gabriel

Samson, said that land was the main issue behind the conflict despite attempts by other Mohawk factions to divert negotiations into other area such as additional policing powers for reserves and soveriegnty for the six Iroquois nations.

''There are a lot of agendas out there,'' Lyons said.

#90253u1859 09/10/1990 ~United Press International

(SEPT. 10) UPI - A federal energy expert told Congress today that there could be- what he calls- ''localized shortages'' of gasoline in the months ahead. Energy Information Administration chief Calvin Kent says U-S refineries should be able to meet demands for gasoline and heating oil this year. But Kent reflected concern that the loss of oil from Iraq and Kuwait could have a damaging affect.

The chairman of a key House subcommittee says the Persian Gulf crisis will cause increased resistance to foreign aid programs because of the economic squeeze currently gripping middle-class Americans. Democrat David Obey of Wisconsin- chairman of a foreign operations panel that is the first to see foreign aid proposals- says he expects active opposition to such aid. He says the sluggish economy and cuts in federal spending on education and other domestic programs are adding to moves against foreign aid.

British officials are joining other Western leaders in calling for Japan to give more money to support the multi-national fight against Iraq's invasion of Kuwait. British Foreign Minister Douglas Hurd says Japan's one-BILLION-dollar donation was ''a good start.'' But Hurd says Japan must help those Middle Eastern nations hit hardest by the sanctions against Iraq.

Republican Senator Alfonse D'Amato of New York ripped the Japanese today as greedy profiteers, charging they will NOT take part in the allied efforts in the Persian Gulf unless they can make a profit on it. D'Amato also criticized Egypt and Germany for NOT taking larger roles in containing Iraqi aggression.

Palestinian sources in Jerusalem report that an 11-year-old boy and his eight-year-old sister were seriously injured when a grenade they dug up in the Gaza Strip exploded as they played catch with it. The sources say the boy lost an arm and a leg in the blast, which caused multiple injuries to the girl.

#90253u1880 09/10/1990 ~United Press International

NEW YORK (SEPT. 10) UPI - A late, rumor-driven rally in oil prices wiped

out a day of sharp gains in the stock market Monday, with prices on the New York Stock Exchange closing mixed in light trading.

The Dow Jones industrial average, which rose 23.26 Friday, lost 3.96 to close at 2615.59.

Among broad market gauges, the New York Stock Exchange composite index lost 0.80 to 176.71 and Standard & Poor's 500-stock index dropped 1.77 to 321.63. The price of an average share fell 14 cents.

Advances led declines 771-738 among the 1,963 issues traded. NYSE volume totaled 119,730,000 shares vs. 123,802,280 traded Friday.

The Dow opened sharply higher, bolstered by the U.S.-Soviet unity against Iraq shown at the superpowers' summit this weekend. The Dow industrials were up as much as 33 points in early trading.

President Bush and Soviet leader Mikhail Gorbachev declared they were united against the aggression of Iraqi President Saddam Hussein at their daylong summit Sunday in Helsinki, Finland. Gorbachev and Bush threatened further pressure on Iraq if diplomacy failed.

Stocks drifted with those gains for most of the day. But an afternoon, rumor-driven rally in crude oil prices wiped out the rally in stocks.

October crude oil futures, which extended their losses at midday to about $1.20 a barrel and fell below the $29 level, swung wildly and turned higher in late trading. Prices closed up $1.26 to $31.30 a barrel.

Traders cited rumors of military activity in the Mideast - violations of Saudi Arabian airspace and movement of Iraqi troops toward the Jordanian border. But State Department spokesman Jim Smith, part of the task force handling questions about the Gulf crisis, said, ''We have nothing to indicate that's the case.''

Other analysts said the reversal in oil prices began when the White House threw cold water on Saddam's offer Monday of free oil to Third World countries. Saddam said through a spokesman that the offer did not violate U.N. sanctions because the oil was being offered free of charge.

But press secretary Marlin Fitzwater asserted the U.N. sanctions against Iraq do not ''delineate between free exchanges or those paid for'' and called Saddam's offer ''a transparent attempt to deflect the focus of world attention from his blatant aggression against another country.''

''What this shows is that everyone was thrilled with Bush and Gorby hugging and kissing one another but there are still problems out there,'' said Ralph Bloch, chief analyst at Raymond James & Associates in St.

Petersburg, Fla.

The problems ''out there'' continued to keep trading light, as it has been since before Labor Day, as anxiety about the Middle East crisis continued to pin many players to the sidelines. The thin trading made the market vulnerable to rumors, analysts noted.

''Even though these were all rumors coming out of the oil pits, they were enough to throw a scare into the market,'' said Jeff Kaminsky, head of institutional sales trading at Mabon, Nugent & Co.

On the trading floor, Pacific Gas & Electric was the most active issue, down 1/8 to 21 1/4 in dividend-related trading.

Toys ''R'' Us followed, down 1 to 22 1/8. AT&T was third, down 3/4 to 30 3/8.

Among the other blue chips, IBM rose 3/8 to 105 7/8, extending Friday's rally, General Electric added 1/2 to 61 1/8, and Coca-Cola gained 3/8 to 42 1/4. Oil issues were lower despite the surge in oil prices. Exxon fell 1/2 to 50 3/8, Chevron slumped 1 1/4 to 76 3/4 and Texaco lost 1 1/8 to 63 3/8.

Volume of NYSE-listed issues, including trades in stocks on regional exchanges and in the over-the-counter market, totaled 143,892,410 shares, compared with 148,569,970 shares traded in the previous session.

Prices eased in moderate trading on the American Stock Exchange.

The Amex Market Value index fell 0.56 to 323.21. Declines led advances 260-244 among the 773 issues traded. The price of an average share fell 2 cents. Composite volume was 12,604,100 shares vs. 11,839, 385 shares traded Friday.

PaineWebber's call warrants on the Tokyo market's Nikkei index led the Amex issues, down 1/2 to 7 5/8.

The National Association of Securities Dealers composite index rose 1.36 to close at 381.74.

#90253u1886 09/10/1990 ~United Press International

ABIDJAN, IVORY COAST (SEPT. 10) UPI - Liberian President Samuel Doe was killed by Prince Johnson's rebels and his bullet-riddled body displayed at their camp outside Monrovia, news and government reports said Monday.

Witnesses returning to the city center told the British Broadcasting Corp.

that Doe died in a rebel camp where he was taken Sunday after he was wounded and captured by rebel forces in a fierce gun battle in the capital of his war-torn West African nation. Witnesses said Doe's body had been exhibited on Bushrod Island, the city suburb that Johnson has controlled since attacking Monrovia two months ago.

Doe was shot in both legs during the battle, but arrived at Johnson's headquarters alive, they said. It was not clear whether he was shot again later or died from the wounds he had already received.

BBC correspondent Elizabeth Blunt, who was in Monrovia, said it was impossible to to confirm the witnesses' reports at present but they were "almost certainly true."

In Washington, a senior State Department official said, "We have been informed by various parties, including the rebels, that President Doe died of gunshot wounds suffered in a shootout over the weekend." He said the information was sketchy and it is not known who had taken charge of the country since Doe's death.

A spokesman for rival guerrilla leader Charles Taylor told the Cable News Network in a telephone interview that "I have no reason to doubt they may have killed him."

Doe was seized Sunday by forces loyal to Johnson in Monrovia after a firefight at the headquarters of a West African peacekeeping force that has been trying to resolve the civil war that erupted in December.

Witnesses said the peacekeepers had arranged a meeting between Johnson and Doe, who left his heavily fortified mansion for the first time since July. The meeting took in the Monrovia port that has been in Johnson's hands for almost two months.

A spokesman for Johnson said in a BBC interview that an argument erupted after Johnson asked Doe about money he allegedly stole from state funds during his ten years in power. "Doe had invited the peacekeeping force in because he was planning to leave the country and we are not going to have that," the spokesman said.

The diplomatic sources said a gun and grenade fight ensued between government forces and rebel troops, and 64 people were believed killed, mostly members of the presidential guard. Doe was wounded in both legs and taken into custody, and Johnson said he would be "court-martialed."

Even with Doe's death, the country remained in turmoil. After Doe was captured Sunday, the armed forces chief, Brig. Gen. David Nimlay, declared the formation of the National Interim Defense Council. The first task of the council will be to appeal for a cease-fire, he said.

Nimlay has, however, inherited only the tattered remnants of Doe's army and government. Most of the army has either died, deserted, or joined the rebel forces.

Fighting was reported Monday around the presidential mansion between followers of Doe and Johnson. Johnson said he will replace Doe as leader of the country until elections can be held.

Charles Taylor, the rival guerrilla leader whose troops control two-thirds of Liberia, declared he was in charge of the nation after learning of Doe's capture. The two factions have been struggling for months to overthrow Doe. Following reports of Doe's death, Taylor said the two rebel armies should now sit down and talk.

Taylor's spokesman Tom Woweiyu said, "Prince Johnson has been fighting us throughout the past few months. But now we are saying, let's get together and put the guns down. We control 90 percent of this country and Prince Johnson controls about one percent. Let's get together and end the suffering of our people."

While Taylor's spokesman appeared conciliatory, it is unlikely Taylor himself will settle for anything less than the leadership of the interim government. Taylor has been unflinching in his determination to become president by military means.

But severe discipline problems among his forces have revealed the increasing frustration of his young fighters as the war has dragged on and degenerated into a tribal conflict of nightmare proportions.

Johnson does not have sufficient support outside Monrovia to take the country for himself. To do so would require a lengthy war against Taylor's National Patriotic Front of Liberia.

Fears that Americans might be harmed as the fighting escalated in early July prompted President Bush to send four U.S. warships, carrying more than 2,200 Marines, to positions off the coast of Liberia to evacuate Americans as needed.

The West African nation of some 2.5 million people is roughly the size of the state of Oregon. It sits on the coast of the Atlantic Ocean. Liberia was founded around 1822 by U.S. black freedmen who settled there with the assistance of the American Colonization Society, a private organization dedicated to the African repatriation of freed slaves. It became a republic July 26, 1847.

#90253u1899 09/10/1990 ~United Press International
LONDON (SEPT. 10) UPI - A ferry company and seven former employees pleaded innocent to manslaughter Monday in the deaths of 193 people who were aboard a ferry that capsized off the coast of Belgium in 1987.

Their pleas were entered in London's Central Criminal Court on the opening day of a trial that may last up to four months. Charges were filed against three P and O European executives and four seamen.

A coroner's jury previously ruled that the victims died ''unlawfully'' because negligence and carelessnesss caused Britian' worst maritime disaster since the Titanic sunk in 1912.

The stern loading doors on the Herald of Free Enterprise were left open and thousands of tons of water flowed into the ferry when it departed from Zeebrugge, Belgium, March 6, 1987. The ferry with its 540 passengers and crew capsized and 193 of them died, most from drowning.

The company director, the deputy chief superintendent and technical director are charged with manslaughter, along with the ship's master, captain, first officer and bosun.

It is only the second time a firm has been charged with corporate manslaughter in Britain. The first attempt, made 25 years ago against a mining and construction firm, was unsuccessful.

The prosecution is seeking to prove the directing parties of P and O were reckless or grossly negligent. If successful, there is no limit on the fine the judge may impose.

#90253u1901 09/10/1990 ~United Press International

WASHINGTON (SEPT. 10) UPI - Congressional anger over America's burden in the Persian Gulf surfaced Monday as the Senate adopted a resolution calling on President Bush to make sure other countries are contributing their fair share to the defense of the region.

In its first day at work after its August recess, the Senate, on a voice vote, approved the resolution as an amendment to a bill appropriating money for the Treasury Department and the U.S. Postal Service.

''Other countries can and should do more,'' said Sen. Dennis DeConcini, D-Ariz., the resolution's sponsor, who singled out Japan and West Germany as shirking their responsibilities.

''The burden and the responsibility must be shared. If not, I do not think the American people will be as willing to support similar operations in the future which also benefit other wealthy countries,'' he said.

The resolution applauds the president for his diplomatic efforts encouraging U.S. allies to share the financial burden of defending Saudi Arabia but calls on him to ''take steps'' to ensure the allies are ''sharing an appropriate portion of their collective defense of theiur interests in the gulf.''

In a reference to Japan and West Germany, whose constitutions limit their military involvement, the measure says Bush also should ensure that countries ''precluded from any overt military participation'' pay for ''an appropriate financial share'' of the effort.

Oil-producing countries that may benefit from the rise in oil prices triggered by the crisis also should be encouraged to shoulder some of the economic burden of the effort, the resolution said.

The resolution was approved as members of Congress from both parties returned to work saying their constituents believe that many U.S. allies - particularly Japan and West Germany - are not doing enough in the Persian Gulf.

''You hear people expressing deep concern about what this going to do to our budget deficit, deep concern about what it's going to do to our economy, deep concern that we're going to get stuck holding the bag and paying the bill as well,'' said liberal Rep. David Obey, D-Wis.

Conservative Sen. John McCain, R-Ariz., calling on Japan to contribute $8 billion instead of the $1 billion it has promised to the Gulf effort, put it this way: ''The tokenism of the actions of the Japanese government to date merit nothing but the world's contempt and American hostility.''

The House, meawhile, was to consider a possible amendment Tuesday that would require Japan to pay all of the roughly $7.4 billion it costs to keep about 50,000 troops in Japan and to cut troop strength by 5,000 a year if Japan does not do so. Japan is providing about $2.9 billion of the total price tag.

Rep. Barney Frank, D-Mass., said the amendment ''gives us a chance to say to our allies: 'The free ride is over. We are willing to be equal participants in defense of common interests. We are not willing to be suckered and pay and pay and pay a subsidy to those who are at least as wealthy as we are.'''

TORRANCE, CA (SEPT. 10) UPI - Toyota Motor Corp. may announce plans for a second U.S. car-assembly plant within the next two months, a spokeswoman said Monday.

''We're looking for ways to increase sales,'' said Mindy Geller, spokeswoman for Toyota's U.S. marketing arm. ''But we have not yet settled on anything specific.''

Toyota builds the compact Camry at a factory in Georgetown, Ky., and some Corolla subcompacts at its joint-venture plant with General Motors Corp. in Fremont, Calif.

The Japanese automaker is also planning to open a truck-assembly line at

the California plant next summer that will build 100,000 compact pickups per year.

Toyota, with about 950,000 in annual sales, currently has a market share of more than 9 percent in the United States.

Geller said that several sites are under consideration for the new plant, including one adjacent to the facility in Georgetown.

(SEPT. 10) UPI - A report made public by a pro-Israel group contends that Iraq has the Third World's ''largest chemical weapons production capability.'' But the Washington Institute for Near East Policy says limiting Iraq's potential use of such weaponry is NOT as easy as a military strike. A spokesman for the organization says production facilities could be destroyed, but he said most of Iraq's stockpile of chemical warfare devices would survive.

News and government reports out of Liberia say President Samuel Doe was killed by rebels led by Prince Johnson. Travelers returning to the capital of Monrovia say Doe died in a rebel camp where he was taken yesterday after being wounded in a heated gun battle. They say his badly mutilated body was displayed at the rebel camp outside the capital. Rebel leader Charles Taylor says both rebel groups should now sit down to talks.

It appears certain that White House and congressional budget negotiators will miss their UNofficial midnight deadline for reaching a deficit-reduction agreement. The negotiators disagreed on virtually every

aspect of a 500-BILLION-dollar reduction plan. The two sides talked face-to-face only briefly today, with most of their time spent in separate party meetings.

NASA officials say the path is clear for the shuttle Columbia to take off next week. Space agency technicians replaced three suspect fuel lines during the weekend, presumably repairing the latest glitch grounding the spaceplane. Meanwhile, a two-day practice countdown is underway for the shuttle Discovery in preparation for its scheduled October 5th launch.

#90253u1965 09/10/1990 ~United Press International
(SEPT. 10) UPI - The manufacturer of a promising new AIDS drug says it is cutting some of the red tape that people with AIDS previously had to go through to get the drug. Hoffman-La Roche will NO longer require AIDS patients to prove that they are UNable to take two other AIDS medications in order to qualify for D-D-C. Among the apparent benefits of D-D-C is that it has fewer side effects when compared to other medications available.

Radical deputies in the Supreme Soviet are calling for the forced resignation of Premier Nikolai Ryzhkov. The deputies issued the call as the parliament opened its fall session today... citing Ryzhkov's reluctance to support a quick switch to a market economy. They also proposed changing the agenda of the parliamentary session... charging that the official program was full of secondary items.

Authorities in Gainesville, Florida, refused to comment today on published weekend reports that police had turned up a knife possibly used in the murder of five college students. Investigators did reveal that they are analyzing blood and semen in an attempt to shed light on the brutal homicides. Police have eight suspects. Two are in custody.

Education Secretary Lauro Cavazos says he has ordered a review of seven agencies that continue to accredit schools with a high amount of student loan defaults. The announcement by Cavazos comes two days before a Senate subcommittee hearing on the problem. A congresisonal source who did NOT want to be identified says Cavazos is trying to divert the heat he'll receive because of problems with the student loan program.

#90253u1983 09/10/1990 ~United Press International

CUPERTINO, Calif. (SEPT. 11) UPI - Tandem Computers Inc., citing economic weakness in several markets, said Monday it expected growth to fall below Wall Street expectations.

Although sales remain strong, the amount of time to close orders has been longer than expected, James Treybig, chief executive officer, said in a statement issued after the close of the stock market.

Tandem has instituted cost control measures to maintain acceptable profit margins during the period of slower growth, Treybig said.

Tandem, which makes fail-safe computers used in banking, airline reservations, stock trading and other markets, said economic slowdowns in several geographic regions, including the Eastern United States, Canada, the United Kingdom, and Australia, made it difficult to forecast results.

In the third quarter ended June 30, Tandem posted earnings of $32.4 million, or 30 cents a share, on revenue of $472 million.

The company said new products, including the year-old Cyclone mainframe computer and the newer Unix-based Integrity S2 system, are selling well, particularly is such high-growth areas as Japan, Southeast Asia, Germany, the Netherlands, Italy and Spain.

#90253u1986 09/10/1990 ~United Press International
(SEPT 10) UPI - A late rally Monday that may have been triggered by unfounded rumors of Iraqi troop movements toward Jordan and Saudi Arabia wiped out earlier losses and drove U.S. crude-oil prices up more than a $1 a barrel.

On the New York Mercantile Exchange, West Texas Intermediate crude for October delivery ended the day up $1.26 at $31.30 a barrel after being down on the day as much as $1.69. The Merc was trading WTI near $29 a barrel about an hour before the 3:10 p.m. EDT close.

''There were rumors circulating, although I didn't hear them until after the close,'' said Michael McDermott of Paine Webber Inc. in New York.

''I never heard them until after the close. Nobody knew until after the fact,'' concurred Kirk Kinnear of the Phibro Division of Salomon Brothers, Greenwich Conn. ''It was the craziest thing I ever saw.''

The State Department denied that there had been any unusual movement of Iraqi troops.

Kinnear attributed the rise mainly to traders taking profits on prior short positions staked out in anticipation of prices falling and the rally accelerating as prices passed through key resistance levels.

''The critical factor was short covering. It was a short-covering rally that just got out of hand,'' the analyst said.

Once the WTI price rose through Friday's $30.04 closing price about 15 minutes before the Monday close, the rally picked up momentum and it really picked up speed when prices pierced Friday's $30.85 high, McDermott said.

''There was no news that would justify this move. I think it shows how panic-stricken the market is,'' said Tom Bentz, trading director at New York's United Energy Inc.

Overseas on the European spot market where crude barrels are bought and sold for cash, Britain's North Sea Brent shot up 70 cents to $31.10 a barrel after being down $1.10 earlier.

The United Arab Emirates' Dubai light - the key OPEC crude from the Middle East shipped primarily to the Far East - gained 55 cents to $27.15 a barrel. Earlier, it was down 80 cents from Friday's quote.

On the U.S. Gulf Coast spot market, prompt delivery WTI was quoted at $31.25 a barrel, a rise of $1.25.

On the Merc, October delivery unleaded gasoline was up 1.50 cents to 94.56 cents a gallon after trading as low as 87 cents a gallon.

October home heating oil added 1.91 cents to 85.89 cents a gallon, after being as low as 78.50 cents a gallon.

Marathon Oil Co., the Findlay Ohio unit of USX Corp., raised the posted price it will pay for crude as it comes out of the wellhead by $1.50 to $30 a barrel.

The plunge in crude prices early in the day was attributed to the weekend summit between President Bush and Soviet leader Mikhail Gorbachev not agreeing on military action to oust Iraq from Kuwait, which it has occupied since the Aug. 2 invasion, and Iraq offering free oil to Third World nations.

''Bush and Gorbachev did not issue a joint declaration of war. That's the cute reason,'' said Peter Gignoux of Shearson Lehman Hutton's London office.

A Saddam spokesman on Iraqi television said, ''We declare we are prepared to supply Third World countries with oil free of charge.''

He said the action was being taken as an act of solidarity with Third World nations whose economies were being hurt by the enormous rise in oil prices caused by the Aug. 6 U.N. embargo on Iraqi and Kuwaiti crude imposed in the wake of the invasion.

The offer was made irrespective of the countries' positions on the gulf conflict, and that it did not violate U.N. sanctions because it was being offered free of charge, the Iraqi spokesman said.

-30- 3827

#90253u1990 09/10/1990 ~United Press International

NEW YORK (SEPT. 10) UPI - Seattle's 40-year-old Ken Griffey and Pittsburgh pitcher Doug Drabek Monday were named Players of the Week in their respective major leagues for last week.

Griffey, united with his 20-year-old son Ken Griffey Jr. on the Mariners after being released from Cincinnati, went 12 for 19 for a .632 batting average last week. He had two doubles, a home run, seven RBI and an .895 slugging percentage.

Drabek pitched the Pirates to two victories last week. He completed one game and allowed just two earned runs on 11 hits over 16 2-3 innings. He struck out nine and walked two.

White Sox reliever Bobby Thigpen, Oakland teammates Mark McGwuire and Rickey Henderson and Minnesota's Kirby Puckett and Shane Mack were also nominated in the AL. Other NL nominees include Mets pitcher Dwight Gooden and rookies Dave Justice of Atlanta and Delino DeShields of Montreal.

-30- 1071

#90253u2023 09/10/1990 ~United Press International

WASHINGTON (SEPT. 10) UPI - House and Senate negotiators have agreed tentatively on key clean air legislation concerning industrial sources of urban smog, with senators generally accepting tougher House-passed provisions, congressional aides said Monday.

The aides, who asked not to be identified, said staff discussions had produced the preliminary agreement, which still must be formally approved by lawmakers on the House-Senate conference committee working out differences between the versions passed by the two chambers earlier this year.

Aides said it was not yet decided when the conference committee would meet but it could happen this week.

Assuming it holds up, the tentative agreement on industrial sources of smog would mark a key victory for environmentalists as well as a major step forward for the negotiators, who have been criticized for moving too slowly.

Environmentalists say the House position on industrial sources of smog - such as factories, dry cleaners and commercial printing shops - is much more stringent than that passed by the Senate.

In particular, the House bill would place emission controls on facilities releasing as little as 10 tons of smog-causing pollutants each year in the dirtiest cities, such as Los Angeles. In contrast, the Senate bill would regulate only those emitting 100 tons or more per year, no matter how bad a city's smog problem.

The House bill also would require the Environmental Protection Agency to impose pollution cleanup plans on states or cities that drag their feet on costly but necessary emission controls. The Senate bill would allow - but not require - such federal enforcement.

Environmentalists say the threat of a ''federal implementation plan'' is a major factor pushing state and local officials to act on air pollution. They also noted such EPA intervention was required under current law.

On a third key issue, the House bill does not contain a key loophole

inserted in the Senate measure that would allow state and local officials to avoid imposing emission controls costing more than $5,000 per ton of pollutants eliminated.

Environmentalists said that waiver authority would undermine the bill's over-arching requirement that all cities that do not meet federal air quality standards must reduce smog-causing emissions by 3 percent each year until they come into compliance.

They said the waiver authority would allow state and local authorities to avoid economically unpalatable controls even if they were needed to meet the 3 percent annual reduction rule.

The conference committee reportedly also has reached a tentative agreement on provisions requiring all industrial polluters to obtain permits specifying the emission control measures they must take.

Environmentalists say strong permit provisions are essential to ensure federal and state officials have the legal tools to enforce the clean air goals set out by the bill.

However, industry lobbyists say Congress must provide industry with some level of certainty that authorities will not toughen permits after factory operators go through the long process of obtaining them. They also want some flexibility allowing plant operators to change manufacturing processes - and thus emissions - without excessive red tape.

-30- 3536

#90253u2030 09/10/1990 ~United Press International

NORFOLK, Va. (SEPT. 11) UPI - A federal prosecutor charged Monday that the founders of Landbank Equity Corp. defrauded creditors across the country through a massive pyramid scheme that left millions of dollars in unpaid debt.

Landbank, which grew to become one of the East Coast's larger second-mortage firms before folding in 1985, was founded by William and Marika Runnells. The two are standing trial on dozens of fraud charges related to the collapse of the firm, formally based in Virginia Beach, Va.

Joseph Fisher, a special assistant U.S. attorney, told jurors in opening statements that the Runnellses perpetuated a ''massive scheme to defraud savings and loan institutions nationwide,'' as well as ''countless'' other creditors.

''The losses are in the tens of millions of dollars and are still growing '' said Fisher, noting the scheme would ''rob Peter to pay Paul.''

Defense attorneys for the Runnellses acknowledged their clients had made mistakes, but countered they were not part of any scheme to defraud the public and the government.

''It's an American dream which just failed,'' said David Bouchard, an attorney representing Marika Runnells.

The trial in U.S. District Court began nearly 2 1/2 years after the Runnellses were first indicted on charges including bankruptcy fraud, racketeering, conspiracy and tax evasion. Two indictments name William Runnells on some 95 counts.

The couple fled Virginia to avoid prosecution, but U.S. District Judge J. Calvitt Clarke has ruled prosecutors cannot present the information to jurors. The two were arrested in Dallas earlier this year, where they ran hypnosis clinics similar to those they previously had operated in California.

Fisher revealed Monday he will call House Speaker A.L. Philpott, D-Bassett, to testify about Landbank's meddling in the establishment of interest rate caps in Virginia. Fisher noted the Runnellses paid the late state Sen. Peter Babalas $66,000 in an attempt to influence his voting on banking legislation.

Fisher said a proposal several years ago to cap rates at eight points could have helped prevent Landbank from making an additional $60 million in tenuous loans. Babalas had a hand in blocking the legislation, Fisher said.

Fisher said the Runnellses thrived on providing high-interest loans - up to 18 percent - to poor credit risks. The loans at one point reached $200 million.

Fisher said Landbank once operated 33 branches in Virginia, Maryland, South Carolina, Georgia and Florida. Insurers based as far away as California and London backed loans.

Bouchard and William Runnells's attorney, Richard Brydges, said creditors and insurers must share blame for Landbank's demise.

''Points are not immoral,'' Bouchard said in reference to interest on loans. ''They're not illegal.''

Brydges said William Runnells, an eighth-grade dropout, deserved credit for developing a major business. He suggested Runnells may have gambled away money in an effort to get back at his wife.

Several Runnells family members and former Landbank executives have been

convicted of various fraud charges in recent years.

#90253u2036 09/10/1990 ~United Press International

GROSSE POINTE, Mich. (SEPT. 11) UPI - Mercedes-Benz North America said Monday it will pay nearly $18.6 million in penalties this year for not meeting government-mandated corporate average fuel economy (CAFE) standards.

The West German luxury car distributor, during a preview of its 1991 models in the posh Detroit suburb of Grosse Pointe, said its CAFE this year will be 21.2 mpg. The CAFE standard for 1990 is 27.5 mpg, up from 26.5 mpg in 1989.

Last year, Mercedes paid $20.4 million in CAFE penalties because of its overall rating of 21.4 mpg, officials said.

MBNA executives justified the penalties by saying its owners still desire heavy, substantial and safe cars. ''Advanced safety has its weight penalties,'' said Peter Patrone, MBNA's manager of product planning.

Nonetheless, the carmaker plans to counter the fuel penalties with a line of new diesel-engined cars introduced this year that have so far been selling slightly above projected levels of 4,000 a year - although they are prohibited from sale in California because of stricter emission laws.

Mercedes also plans to redesign all of its gasoline engines and adopt more four-valve-per-cylinder designs and new fuel injection systems in coming years, Patrone said.

Also intended to offset some of the mileage fines for 1991 is a new version of its compact 190E line, fitted with a 130-horsepower 2.3 liter four-cylinder engine with either a manual or automatic transmission.

Prices are $28,050 and $28,950 respectively, and they are the first Mercedes offered in two years for under $30,000.

Mercedes cars cost up to $89,300, excluding an owner-paid $1,050 gas guzzler tax, for its 500SL roadster introduced for 1990, though its best selling model is the mid-sized 300E sedan, which costs $47,200.

MBNA announced an average 3.3 percent price increase late last month.

Albert Weiss, general manager of marketing at the company's Montvale, N.J. headquarters, said Middle East tensions have so far not affected U.S. sales because people still want high-technology, safety and V8 engine power.

''The cost-of-fuel issue does not seem to be a problem at this time,'' Weiss said, but cautioned that limited fuel availability could crimp sales for Mercedes as well as other manufacturers.

Weiss said he expects MBNA's U.S. sales this year to total 75,000 cars as projected, down slightly from 75,714 cars sold in 1989. About 40 percent of those deliveries are for leases.

But Weiss declined to forecast sales for 1991 among its 420 U.S. dealers because of the uncertain economy and unstable geopolitical events.

While most car models are unchanged for 1991, Mercedes will offer three new electronic systems to improve traction and ride comfort.

The traction devices are called ASD and ASR, acronyms derived from German abbreviations that loosely translate into ''automatic locking differential'' and ''automatic slip control.''

ASD, a $1,050 option on selected models, automatically locks the car's rear differential to offer improved traction. ASR, a more sophisticated system offered as an option for between $1,975 and $2,475 depending on model, electronically applies the brakes to the drive wheel or wheels that are about to spin, while reducing engine output to match available traction.

Offered as a $3,800 option on its 300SL and 500SL roadsters is ADS (adaptive damping system), which automatically adjusts the shock absorber settings for optimum ride.

Last July, MBNA announced a corporate restructuring to decentralize its operations and align its marketing areas according more to demographics than geographic sales zones.

The restructuring, the first since MBNA was created in 1965, breaks the country into four regions instead of seven sales zones.

SAN JOSE, Calif. (SEPT. 10) UPI - The semiconductor industry's benchmark indicator dipped in August to its lowest level since November, the Semiconductor Industry Association said Monday.

The closely watched book-to-bill ratio, which compares orders with shipments, fell to 0.99 in August from 1.0 in July, the SIA reported. It was the first time the measure, which is based on a rolling three-month average, had dropped below 1.0 since November 1989, when it was 0.95.

A book-to-bill ratio of 0.99 means that for every $100 of semiconductors shipped to the U.S. market in the three months ended in August, chip manufacturers received new orders worth $99. A ratio of less than 1.0 is considered unhealthy for the industry.

Growth in shipments outpaced growth in orders, the SIA said.

Average monthly bookings, or orders, for the three months ended in August were $1.2 billion, up from $1.19 billion in the three months ended in July the SIA said.

Average monthly billings, or shipments, was $1.22 billion, up from $1.19 billion in the July-ended period, the trade group said.

#90253u2055 09/10/1990 ~United Press International

(SEPT. 10) UPI - Iraq today announced it will provide Third World nations with free oil. An Iraqi Information Ministry spokesman said the offer would NOT go against U-N trade sanctions against Baghdad. But the White House says whether the oil is free or NOT... it would violate the U-N embargo. Presidential spokesman Marlin Fitzwater adds that the offer is an attempt by Saddam Hussein to deflect attention from his aggression in Kuwait.

.

Lawmakers returned to the upper chamber today and expressed anger at the lack of involvement... militarily or monetarily... of certain countries in responding to the Persian Gulf crisis. In the first day of activity since the August recess... Senators adopted a resolution calling on President Bush to ensure that other countries shoulder their fair share of responsibilities in th Middle East.

Witnesses in the West African nation of Liberia today said the bullet-riddled body of President Samuel Doe was being displayed at a rebel camp outside the capital of Monrovia. Doe was killed by rebels led by Prince Johnson... one of two guerrilla leaders who had been fighting to oust him. The other rebel leader- Charles Taylor- says the groups should now hold talks to end their differences.

B-P America Incorporated has agreed to pay 445-thousand dollars to settle racial discrimination charges made by the government. The money will go to 500 minority job applicants who were NOT hired for clerical positions. The government says the difference between B-P's percentage of minority applicants and percentage of minority hires constituted racial discrimination. The firm says the difference resulted from its recruitment

of minority applicants.

#90253u2058 09/10/1990 ~United Press International
(SEPT. 10) UPI - Cambodian resistance leader Prince Norodom Sihanouk today told organizers of peace talks in Jakarta, Indonesia, that he's taking a six-month leave of absence for health reasons. Sihanouk says the illness will prevent him from becoming a member of a U-N-sanctioned body that will represent his homeland. Delegates at the talks say they've reached an agreement that could pave the way for an end to Cambodia's 11-year war.

Pope John Paul wrapped up his 10-day African visit today by blessing a massive house of worship in the Ivory Coast. 100-thousand people gathered in and around the 200-Million-dollar Basilica of Our Lady of Peace. The pontiff praised the generosity of the Ivory Coast's Roman Catholic president for constructing the house of worship. The temple was built despite the country's 15-BILLION-dollar foreign debt.

The Canadian government says it will NOT give amnesty to Mohawk Indians suspected of crimes during an eight-week standoff with authorities at a reserve south of Montreal. Officials say the Indians want to set up a parallel government to conduct its own investigation of the confrontation. Canadian officials say a separate government would be UNconstitutional.

A lawyer for the pop music group New Kids on the Block says he will appeal today's decision by a federal judge to dismiss lawsuits against two newspapers that used the group's trademarks to hawk 900-line phone surveys. The Los Angeles judge said the papers were protected by the First Amendment from trademark infringement.

-30- 1706
#90253u2093 09/10/1990 ~United Press International
SEATTLE (SEPT. 10) UPI - A Congressional bill that would place highly restrictive quotas on imported textiles would damage U.S. relationships with international trading partners and hurt American consumers, U.S. Trade Representative Carla Hills said Monday.

Hills said the Textile, Apparel and Footwear Act of 1990, which passed the Senate by a 68-32 margin in July and is pending in the House, would reverse years worth of negotiations in breaking down international trade barriers and would open up trade wars that could wreak havoc on developing nations.

The bill, which passed the Senate after heavy lobbying by the U.S. textile industry, would effectively scrap textile and apparel agreements the

United States has negotiated with 38 nations and sharply reduce the growth of textile imports to about 1 percent a year, down from a current annual average of 3.5 percent. Israel and Canada would be exempt from the bill's provisions.

Hills' comments at a luncheon sponsored by the Washington Council on International Trade repeated earlier denunciations of the bill by the Bush administration. President Bush is expected to veto the bill should it be passed by Congress.

''The textile industry wants not to just preserve the three decades of protections that have kept U.S. apparel prices artificially high, but to expand them,'' Hills said.

''The bill before the House would apply quotas to new items and make existing protections permanent. It would eliminate incentives for the industry to adjust to market forces as the rest of American industry must do,'' she said.

Despite the vehement objections of the free-trade oriented administration, however, Hills said she expected the fight over the textile bill to be ''a very tough one.''

If the bill becomes law it will have far-reaching consequences affecting more than just the textile industry, Hills said.

She said countries directly affected by the stiffer quotas would retaliate by raising their tariffs on U.S. exports, such as agricultural goods and high-technology products.

Hills said the cost to American consumers would be high - an estimated $160 billion over the next five years, or about $2,600 a year for a family of four.

She also said it would undercut developing nations with large textile industries, including political allies.

''This would tell our allies that the United States is willing to ignore its obligations at the very moment we are seeking to forge an historic international alliance to confront Iraqi aggression,'' she said, referring to efforts to isolate Iraq because of its Aug. 2 invasion of Kuwait.

''Passage of the bill would directly abrogate agreements recently entered into with Turkey and Egypt, two countries that are indispensable to our efforts to solidify crucial international cooperation,'' she said.

Hills said the bill would send ''precisely the wrong message'' to the countries involved in the current four-year round of the General Agreement

on Tariffs and Trade, or GATT, the on-going negotiations aimed at easing international trade. The current GATT talks are scheduled to end in December.

''To pass such a piece of protectionist legislation closing the U.S. market after 3 1/2 years of negotiating to open world markets will be seen as the height of hypocrisy - in essence saying to the world, 'Do as we say not as we do.'''

-30- 3625

#90253u2126 09/10/1990 ~United Press International

CHICAGO (SEPT. 10) UPI - Three former Sundstrand Corp. executives wove a web of lies to prevent auditors from uncovering a defense fraud scheme that cost taxpayers millions of dollars, a federal prosecutor said Monday.

''These defendants were sharp,'' Assistant U.S. Attorney Lisa Kate Osofsky told Senior U.S. District Judge Prentice H. Marshall. ''They knew Sundstrand's accounting procedures inside and out and they used their knowledge to confuse government employees.''

But defense attorney Henry Schuelke said the case was the result of semantic wrangling over accounting procedures.

Defendants Joseph McCarthy, 54, and Ralph G. Hamann, 64, both of Rockford, Ill., and Ray John Chapel Jr., 47, of Reston, Va., waived their right to a jury trial, agreeing to have Marshall render the verdict.

They are charged with conspiracy to defraud, scheming to conceal fraudulent practices and making false statements. If convicted, they could face up to five years in jail.

''At the heart of this case are the defendants' lies,'' Osofsky said in the government's opening argument. ''They knew what Sundstrand should have been doing and they knew it wasn't doing it.''

Rockford-based Sundstrand pleaded guilty to five counts of a federal indictment for defense fraud on Oct. 21, 1988, and agreed to pay $115 million in penalties and reparation - the biggest recovery ever in a defense fraud case.

The company also agreed to repay the government an additional $62.3 million on administrative issues regarding its accounting procedures.

Sundstrand, a Fortune 500 company, has 15,000 employees worldwide, including 4,000 in Rockford. It manufactures electronic, mechanical and hydraulic systems for the government and diversified aerospace and industrial markets.

Osofsky said the company often got government contracts by submitting bids at below cost - then recovered the loss and turned a profit by padding overhead expenses.

Under contracting procedures, there are separate accounts for each government contract placed with a contractor. In addition, there is another account for so-called ''overhead costs'' - like adminstrative expenses - that are not specifically associated with fulfilling any single contract.

The overhead costs are then divided based on what percentage of the contractors' business each client provided. If 60 percent of a company's revenues came from defense contracts, 60 percent of overhead costs would be billed to the government.

Osofsky said Sundstrand used these accounts to bill cost overruns on contracts for which it submitted artificially low bids. She also said the company often would bill engineering and design costs through the overhead account so it could retain design rights, which would normally pass to the government.

McCarthy was vice president for finance and administration in the Aviation Division of Sundstrand's Advanced Technology Group. Hamman was a supervisor in the pricing and government accounting section, and Chapel was pricing manager and director of business planning.

''The defendants aren't charged with implementing Sundstrand's faulty cost-accounting procedures,'' Osofsky said. ''What they are charged with and what they did was lie about that faulty practice and conceal it from the United States government.''

She said evidence would show that the illicit procedures were questioned by the defendants' subordinates at least three times between 1980 and 1986 and that, each time, the defendants moved to cover up the improprieties.

One one occasion, she said, McCarthy ordered destruction of a report that said cost overruns were being improperly billed to overhead accounts.

#90253u2131 09/10/1990 ~United Press International

(SEPT. 10) UPI - The Senate returned to work today after its August recess and immediately turned its attention to the Persian Gulf crisis.

Many members of Congress are angered by the huge financial burden the United States has taken on in trying to halt Iraqi aggression in the Persian Gulf.

Senators approved by a voice vote today a resolution that applauds President Bush for his diplomatic efforts on behalf of the U-S operation.

But it also calls on Bush to make sure that other countries are contributing their fair share to the defense of the region.

The measure was sponsored by Arizona Democrat Dennis DeConcini, who says other countries can and should do more to support the effort to drive Iraq out of Kuwait. DeConcini pointed out Japan and West Germany as nations that are shirking their responsibilities.

The resolution also said oil-producing countries that may benefit from the jump in crude prices caused by the crisis should help shoulder the cost.

President Bush is spending the evening putting the finishing touches on the speech he will present to the American public tomorrow night.

The scheduled appearance before a joint session of Congress comes as Bush enjoys UNprecedented public approval for his handling of the situation in the Persian Gulf. But there are rumblings on Capitol Hill that Bush needs to present a clear image of what U-S interests are at stake in the Middle East.

Since Iraq's invasion of Kuwait August 2nd, Bush has justified deploying U-S troops to... preserve low oil prices... to re-establish Kuwaiti sovereignty... to maintain regional stability... and to protect the American ''way of life.''

.

Presidential spokesman Marlin Fitzwater said the president spent today shoring up international support to maintain the pressure against Iraq. Fitzwater said Bush contacted the leaders of Canada, France, Egypt, Saudi Arabia and Turkey to stress the unity he and Soviet leader Mikhail Gorbachev displayed yesterday.

However, although the two men showed UNprecedented harmony in opposing Iraqi aggression, there are points of contention. One was Gorbachev's refusal to accept Washington's bid to increase the Soviet miltary presence in the region.

#90253u2145 09/10/1990 ~United Press International

(SEPT. 10) UPI - The reported death of Liberian President Samuel Doe has prompted three groups to declare themselves in control of the western African nation.

Doe was first reported to have been injured in a fierce battle yesterday between his presidential guard and rebels loyal to Prince Johnson. 64 people were said to have been killed in the bloodshed, and Doe was placed under arrest by Johnson's men.

Witnesses and radio reports say Doe later died, although it is NOT clear if his death came from wounds already received or injuries possibly incurred later.

The three groups assuming control include Johnson's rebel group. Another rebel leader... Charles Taylor... says he will take command until elections can be held. Also calling for control on an interim basis is the head of the armed forces, Brigadier General David Nimlay, who declared the formation of the National Interim Defense Council when Doe was seized yesterday.

NO progress was reported today at Andrews Air Force base, where Democratic and G-O-P budget negotiators met in an attempt to pare the fiscal 1991 spending plan by 50-BILLION dollars.

Sources say the day was punctuated by squabbling and what a Democratic aide called the refusal of Republicans to compromise on any points. The bickering made it doubtful that the two sides would piece together a spending package before tonight's self-imposed deadline.

Earlier in the day, White House officials expressed doubt that the talks would lead to any concrete measures. Treasury Secretary Brady said that the sessions were- in his words- ''going NOWHERE fast.''

A White House official also cited Budget Director Richard Darman's pessimism toward achieving a deficit-reduction plan before automatic budget cuts are enacted at the start of the fiscal year, October 1st.

House Speaker Thomas Foley disagreed with the negative assessments, saying an agreement would be reached.

#90253u2149 09/10/1990 ~United Press International

(SEPT. 10) UPI - There's now evidence that points to a possible sexual assault in the slayings of five students knifed to death in Gainesville, Florida.

A crime laboratory expert revealed today that technicians were analyzing blood and semen samples as part of their investigation into the slayings.

Before today, authorities had refused to say whether any of the victims

had been sexually assaulted.

But Florida Department of Law Enforcement laboratory worker Steve Platt acknowledges that D-N-A tests are being run on semen samples.

Platt says lab experts are going over 500 pieces of evidence gathered from the three apartments where the victims were found two weeks ago. He compares the investigation to putting together three complex puzzles at the same time.

A newspaper report over the weekend says one of those pieces of evidence is a knife that was discovered hidden in a milk carton at the home of suspect Edward Humphrey.

Platt and other authorities today refused to discuss the knife.

The shuttle Columbia has been tentatively cleared for another launch attempt. NASA officials have tabbed September 17th as the tentative date the ailing space plane will lift off and conduct a 10-day astronomical mission.

However, space agency officials concede that the three fuel pumps replaced during the weekend may NOT be the source of the craft's latest problem. Tests conducted on the suspect pumps failed to produce the same leak blamed for grounding the shuttle last week.

.

Meanwhile, the shuttle Discovery is in the midst of a two-day practice countdown. Discovery is slated to lift off October 5th with the Ulysses solar probe in its payload.

Technicians are keeping a close eye on Discovery's cooling system to ensure that a slow Freon leak does NOT worsen. Engineers recommended clearing Discovery for its time-limited launch date.

#90253u2152 09/10/1990 ~United Press International

DETROIT (SEPT. 10) UPI - Iveco Trucks of North America, Inc., a U.S. subsidiary of Italian carmaker Fiat's Iveco S.p.A., confirmed Monday it will pull out of the U.S. market by mid-1991 after 13 years because of intense competition.

Company spokesman Bill Eichner said the Blue Bell, Pa., distributors of medium-duty trucks was told of the decision late last week by Iveco, headquartered in Torino, Italy.

The decision to cease new truck sales was made because Iveco now markets only diesel- powered medium-duty trucks, when its competitors - mostly Japanese nameplates, market a full range of gasoline and diesel trucks, Eichner said.

Iveco will no longer distribute its Italian-built ''Euro'' product line in the United States, effective Dec. 31, 1991. It will continue to accept orders for those models until June 30, 1991.

Iveco spokesmen said it was not technically or economically feasible to continue a product line sold only in the United States, or to develop a new line for the U.S. market.

''The product that they are developing would have to be modified too much to meet U.S. standards,'' Eichner said, adding that Iveco North America will continue to provide parts and service support for models sold in the United States for the next 10 years or so.

Iveco sold 1,442 trucks through the first seven months of 1990, up from 1,134 last year, industry figures show.

The company had slated a series of dealer meetings later this month to announce a sales incentive program to sell remaining 1990 models. Those meetings are still planned, Eichner said, but the main topic among Iveco's 160 U.S. dealers will concern the market withdrawal.

''I'm speechless,'' Dave Busby, an Iveco dealer in San Diego, told trade publication Automotive News. ''They were saying they would have a full line and were serious about this market.''

#90253u2167 09/10/1990 ~United Press International

RIO DE JANEIRO (SEPT. 10) UPI - Brazilian President Fernando Collor de Mello said he would stand by a U.N. embargo of Iraq despite an Iraqi offer to give petroleum to Third World countries that break the trade ban.

Presidential spokesman Claudio Humberto Rosa e Silva told reporters the president made the decision in a six-hour meeting with ministers and other high government officials Monday afternoon.

Rosa e Silva said that Brazil's standing by the U.N. embargo ''was a consequence of and in accord with the decision of the Security Council of the United Nations'' to ban trade with Iraq and Kuwait following the August 2 Iraqi invasion of its smaller neighbor.

Prior to the outbreak of the Persian Gulf conflict, Iraq was Brazil's chief external source of petroleum. With the U.N. boycott, Brazil lost

petroleum imports of 160,000 barrels per day from Iraq and 30,000 barrels from Kuwait.

Brazil, the largest country in Latin America with the world's fifth largest economy, consumes 1.1 million barrels of crude each day, approximately 500,000 barrels of which is imported. Since the embargo, Brazil has had to increase petroleum imports from Venezuela, Iran and Malaysia to make up for losing the Iraqi crude.

In a surprise televised speech Monday, an Iraqi government spokesman offered Third World countries free petroleum if they would break the U.N. blockade.

#90253u2168 09/10/1990 ~United Press International

(SEPT. 10) UPI - The Soviet parliament opened its fall session today... one which the Tass news agency says ''marks the end of the prepatory stage of perestroika.''

Many of the deputies in the Supreme Soviet made it immediately known that they are ready to get to the working stage of perestroika... calling for Premier Nikolai Ryzhkov's forced resignation.

The radical deputies are angered because they say Ryzhkov is moving too slow toward a market economy.

One deputy said the parliament had NO right to leave in office a government that- in his words- ''has proved incapable of pulling the country out of crisis.''

The Parliament chairman said a NO-confidence vote could only be considered after Ryzhkov presented a revised goernment plan for dealing with a tumbling economy and the move toward a market system. The premier is scheduled to give that report tomorrow.

Soviet President Gorbachev is also set to attend tomorrow's session. The radical deputies want Gorbachev to address the body about the state of the nation.

#90253u2318 09/10/1990 ~United Press International

(SEPT. 10) UPI - Secretary of State Baker issued an eight-point request package to NATO allies today in Brussels. Among the requests was the deployment of ground troops and financial aid to bolster the U-S-led effort against Iraqi aggression. NATO Secretary General Manfred Woerner said the alliance's foreign ministers gave a ''favorable response'' to Baker's list. But the Western alliance did NOT make vows to send military personnel.

Iraq and Iran... bitter foes who waged a bloody war from 1980 through 1988... agreed today to resume diplomatic relations. Iraqi Foreign Minister Tariq Aziz called for the resumed bond as he visited Iranian officials in Tehran. Iran's state-run news agency today announced at least symbolically improved relations. There's NO word if Iran will provide an export channel for Iraqi oil.

The fourth planeload of Americans who were detained in Kuwait and Iraq touched down on U-S soil this evening. The 164 passengers... more than half of them children... seemed subdued as they stepped off the plane at the Baltimore-Washington Intrernational Airport. Many of those aboard the flight said they lived in constant fear following the Iraq invasion.

A 77-year-old grandmother received an indefinite prison sentence today from a judge in Newport, Rhode Island, who thinks the grandmother knows the location of her two missing grandchildren. Mary Pigeon is to remain in prison until she reveals the whereabouts of her two granddaughters. Pigeon's daughter took off with the children five years ago. The

children's father initiated the legal proceedings.

#90253u2334 09/10/1990 ~United Press International
(SEPT. 10) UPI - A federal judge today found that California's ban on the sale of assault weapons IS constitutional. The ruling in Fresno dismissed a suit by the National Rifle Association... which claimed that the law violates the Second Amendment right to bear arms. The judge said U-S Supreme Court rulings prevent federal restrictions on gun ownership... but do NOT prevent states from similar action.

Massachusetts Lieutenant Governor Evelyn Murphy withdrew today from the state's Democratic primary for governor. Murphy recently failed in an attempt to use a trip by Governor Michael Dukakis as a chance to issue a series of executive orders to tackle the state's budget deficit. Dukakis postponed his trip when he learned of Murphy's plans and implemented budget cuts of his own.

Freed Irish hostage Brian Keenan says he was held in the same apartment with Anglican church envoy Terry Waite during part of his nearly four years in captivity in Lebanon. Keenan says Waite was ill... but he believes the former hostage negotiator is alive. Keenan says Waite was held alone in a basement cell... but he identified him by his voice.

House and Senate negotiators have come to terms over key clean air legislation concerning industrial sources of urban smog. Congressional aides say senators generally agreed to accept a tougher House-passed clean air provision. The agreement still needs formal approval from lawmakers on the House-Senate conference committee to iron out differences between the two versions of the legislation.

-30- 1713
#90253u2364 09/10/1990 ~United Press International
BEVERLY HILLS, Calif. (SEPT. 11) UPI - Federal regulators have turned down the proposed $3 billion sale of Columbia Savings and Loan Association's junk-bond portfolio, the thrift said Monday.

The Office of Thrift Supervision told Columbia, which is insolvent and facing seizure from the government, that the financial institution should also seek bids for the portfolio in other formats.

Columbia announced July 25 that it had reached an agreement with a Canadian investor group - Gordon America L.P., a partnership affiliated with merchant bank Gordon Investment Corp. of Toronto - to sell its entire junk-bond portfolio at a slight premium.

But regulators said they could not approve the proposed sale, which called for Columbia to finance 90 percent of the deal on a so-called non-recourse basis. That provision meant that if the bonds lost more than 10 percent of their value, Gordon could walk away from the deal and leave Columbia with the bonds.

''We are confident that we have obtained from Gordon America L.P. the most favorable bid for the purchase of Columbia's high-yield bond portfolio in a Columbia-financed transaction,'' said Edward G. Harshfield, president and chief executive officer.

''We will now move expeditiously to seek bids designed to address the alternative financial structures for the purchase requested by OTS,'' Harshfield said.

Columbia became insolvent earlier this year after a massive plunge in the junk-bond market produced nearly $900 million in losses in its portfolio since last summer. Harshfield has said previously that the sale of the portfolio was a key to keeping regulators from seizing Columbia, once among the nation's most profitable thrifts.

Columbia lost $591.1 million last year and $429.9 million for the first six months of this year. As of June 30, it had a negative net worth of $352.2 million.

The OTS said in its announcement that it had asked Columbia to seek other bids because the proposed transaction may not have been in compliance with last summer's thrift bailout legislation requiring all thrifts to divest their junk bonds by 1994. The proposed deal would have left Columbia with a 10-year note for the bonds.

The OTS also said that it withheld approval of the sale because Columbia had not sought all-cash bids for the portfolio and had not considered bids that would have preserved Columbia's interest in any future appreciation of the securities.

The agency, however, praised Harshfield, who took over the posts after Thomas Spiegel resigned late last year. ''We appreciate the manner in which the current management of Columbia, headed by Edward Harshfield, has dealt with this an other problems inherited from the Thomas Spiegel era,'' said OTS Director Timothy Ryan.

The OTS is seeking $25 million in restitution and penalties from Spiegel.

#90253u2378 09/10/1990 ~United Press International

HONG KONG (SEPT. 10) UPI - Three men overpowered a guard and tossed

homemade bombs into a crowded nightclub early Tuesday, setting a blaze that killed at least six people and injured 23 others, police said.

The three men overpowered the guard at the entrance to the restaurant and gambling club in Hong Kong's Hung Hom district just before 3 a.m. and threw gasoline bombs into crowds of people, police said.

The men escaped in a waiting car, police and witnesses said. Authorities said they suspected the incident was a revenge attack by warring organized crime factions.

Forty people escaped from the burning building. Six people died in the blaze and 23 were injured, seven of them were listed in poor condition at a nearby hospital, officials said.

Firefighters battled the blaze for nearly two hours before putting it out and said the building was heavily damaged and filled with smoke.

#90254b0003 09/11/1990 ~Business Wire

LOUISVILLE, CO (SEPT. 11) BUSINESS WIRE - Storage Technology Corp. (NYSE:STK) Tuesday announced and made available software which makes the StorageTek 4400 ACS available to those data centers with large Siemens AG mainframe processors running the BS2000 R.9.5 and above operating systems.

The Siemens Client Software Component was developed by StorageTek's subsidiary in Germany, Storage Technology GmbH. StorageTek will support Siemens users by managing the connectivity from its subsidiary whose principal offices are in Frankfurt.

Several hundred Siemens processors are installed throughout Europe, especially in Germany, France, Italy, the Netherlands, Switzerland and the U.K.

The Storage Server concept allows ACS attachment to non-IBM operating systems. With the increased connectivity, StorageTek customers in heterogeneous (multivendor) environments will be able to take advantage of the 4400 ACS.

A 1989 International Data Corp. survey of the value of installed CPUs indicates StorageTek has the capability to support 90 percent of the large-scale ''mainframe-class'' CPUs installed worldwide.

Jack Scott, StorageTek vice president of OEM (original equipment manufacturer) and new markets, stated, ''StorageTek continues to demonstrate its commitment to supply information storage and retrieval solutions to its customers.

''Now our 4400 ACS technology, which has set the standard for the industry is available to Siemens mainframe users. Siemens is the largest Europe-based EDP (electronic data processing) and mainframe manufacturer.

''Siemens users now have the increased storage flexibility that the 4400 ACS technology has provided to other mainframe users. This is an important advantage for our Europe-based customers and a response to Siemens strong presence in Germany. In addition, in multiprocessor environments, customers now can share the same 4400 ACS among IBM, Siemens and other mainframes.''

StorageTek introduced the 4400 ACS in January 1987. The 4400 ACS automates 18-track cartridge handling, previously a manual function. Each library module holds approximately 6,000 cartridges.

Sixteen modules containing up to 96,000 cartridges can be connected using pass-through ports. The 4400 ACS integrates robotics, software, hardware and microcode into a system that stores and retrieves data cost-effectively.

With the Siemens connectivity, the StorageTek 4400 ACS now is announced for use in 10 operating environments including Control Data Corp., Cray Research, Digital Equipment Corp., Fujitsu, Bull HN/S.A., IBM, International Computers Ltd., Unisys and UNIX.

Storage Technology Corp. manufactures, markets and services, worldwide, information storage and retrieval subsystems for high-performance computers.

SANTA CLARA, CA (SEPT. 11) BUSINESS WIRE - Capcom U.S.A. Inc. and Walt Disney Computer Software Inc. have signed a licensing agreement in which the Santa Clara-based designer of video games will produce four more video game titles featuring Disney characters, the two companies announced Tuesday.

''Our relationship with Disney gives us an excellent strategic advantage, particularly in the successful marketing of Capcom titles and the resulting sell-through to consumers familiar with Disney quality entertainment,'' said Joe Morici, Capcom senior vice president.

Under the terms of the agreement Capcom U.S.A. Inc. will produce the

following titles: TaleSpin, based on a new Disney cartoon that will air on the ''Disney Afternoon'' program starting in September; and three Game Boy titles -- DuckTales, Who Framed Roger Rabbit and a game starring Mickey Mouse.

The first Game Boy title slated for release is DuckTales, due out in November 1990, followed by Who Framed Roger Rabbit in January 1991 and the Mickey Mouse product in May 1991.

TaleSpin, which will be developed for the Nintendo Entertainment System, is expected to be released by the first quarter of 1991, according to Morici.

Disney presented Capcom, U.S.A., with an award at the January Consumer Electronics Show in Las Vegas, Nev., for having produced the two top-selling video games licensed by Disney in 1989 for use with the Nintendo Entertainment System.

Morici expects that Capcom U.S.A.'s sales, which skyrocketed from $30 million to $100 million for the fiscal year ending March 31, 1990, may double on the strength of the Disney titles alone.

Capcom U.S.A. Inc. was founded in 1985 as a manufacturer of arcade games. One of the first companies to produce games for the Nintendo Entertainment System, Capcom is now a leading international video game developer. The company is setting the pace for state-of-the-art video game design and technology.

AKRON, OH (SEPT. 11) BUSINESS WIRE - Bridgestone/Firestone Inc. Tuesday announced a price increase for all its major, associate and private label brand tires effective Nov. 1.

''The price increases for Bridgestone, Firestone and Dayton house brands and private label brand tires will vary from 2 percent to 6 percent,'' said James P. McCann, executive vice president of North American tire sales.

''These increases are due to escalating raw material and distribution

costs,'' McCann said.

The details of these increases will be contained in the brand communications to the trades during the next several weeks.

CINCINNATI (SEPT. 11) BUSINESS WIRE - Star Banc Corp. (NASDAQ/NMS:STRZ) announced that the board of directors Tuesday voted a regular quarterly dividend of 24 cents per share.

This dividend is payable Oct. 15 to shareholders of record Sept. 28. The announcement was made by Oliver W. Waddell, chairman and chief executive officer of the Cincinnati-based holding company.

The corporation and its principal subsidiary, Star Bank N.A., Cincinnati, have paid a dividend each year since the bank's founding in 1863.

Star Banc Corp. common stock is traded on the NASDAQ National Market System.

Star Banc Corp.'s Star Bank subsidiaries operate 159 offices in Ohio, Kentucky and Indiana.

NEW HAVEN, CT (SEPT. 11) BUSINESS WIRE - First Constitution Financial Corp., the holding company that owns First Constitution Bank, said its board voted to enlarge its size from 11 to 12 members and elected Daniel J. Miglio to serve as a new member.

Miglio is chief financial officer of Southern New England Telecommunications Corp. and its principal subsidiary, The Southern New England Telephone Co. (SNET).

First Constitution's directors serve concurrently as directors of the bank subsidiary, according to John J. Crawford, president and chief executive officer.

''We are pleased that Dan Miglio is joining our board,'' Crawford said.

''For more than 25 years, he has distinguished himself by effectively carrying out increasingly important financial and corporate responsibilities at SNET, as evidenced by his being elected senior vice president of finance and planning in 1984. He has lived in our area for many years and has continually been active in a diversity of community activities and initiatives.

''An experienced corporate director himself, we know we can count on Dan Miglio to add important insights to our board's direction of First Constitution's business.''

Miglio, 50, joined SNET in 1962, following graduation from the Wharton School at the University of Pennsylvania, where he majored in economics.

He progressed through a series of financially oriented staff positions, in addition to holding management assignments in operating areas of the company. He serves as a board member of Southern New England Telecommunications, manages financial and investment operations, and directs strategic planning, legislative and regulatory affairs, and corporate communications. His career includes substantial experience in customer relations.

A resident of Branford, Conn., Miglio is a director of the United States Telephone Assoc., chairman of the finance committee of the Connecticut Joint Council On Economic Education, and a director of the New Haven Symphony Orchestra.

First Constitution Bank is a state-chartered, FDIC-insured savings institution with 22 branches in communities in Fairfield and New Haven counties.

The common shares of the holding company are traded on the NASDAQ National Market System, where the trading symbol is FCON.

RESTON, VA (SEPT. 11) BUSINESS WIRE - SprintMail(sm), US Sprint's innovative electronic messaging service, celebrated it's tenth anniversary this month as the world's premier electronic mail service.

SprintMail was introduced in 1980 as Telemail, and was the first major E-mail service on the market. SprintMail, as it is now known, was designed specifically for intra- and inter-company business messaging for large corporations and government agencies.

Its customers today include Baxter Healthcare, GTE Corp., TRW, Upjohn, the U.S. Department of Agriculture and NASA, among many others.

Since 1980, SprintMail has grown from a simple, computer-based mailbox service with a few thousand users to an applications-driven, global messaging service that can be used to reach hundreds of thousands of users on SprintMail itself, and millions more on interconnected systems, services, local area networks (LANs) and by the off-network delivery of messages through telex, fax and the U.S. Postal Service.

The hallmarks of SprintMail service have always been high reliability, adherence to international standards and leadership in bringing advances in E-mail to market.

The company was instrumental in drafting the international X.400 standards for interconnecting E-mail systems, just as it earlier had helped draft the X.25 standards for the underlying data communications networks.

US Sprint was an early pioneer in offering telex and facsimile delivery, batch delivery via the 3780 protocol, and delivery by the U.S. Postal Service.

Unlike most of its competitors, which provide only public E-mail service, US Sprint also sells Telemail electronic messaging systems and licenses SprintMail(sm) software to national telecommunications administrations and other organizations around the world. More than a dozen Post, telephone and Telegraph (PTT) administrations use SprintMail (Telemail) as their country's national, public messaging service.

Through its systems sales, the company has established solid business relationships with PTT administrations and multinational corporate customers around the world. This unusual combination of services and systems expertise has given US Sprint a definite edge in a marketplace that is increasingly global in its nature and scope.

US Sprint is a unit of United Telecommunications Inc., a diversified international telecommunications company, based in Kansas City, Mo.

DALLAS (SEPT. 11) BUSINESS WIRE - Mountain Network Solutions Inc., an industry leader in data management solutions for high-performance personal

computers, workstations and LANs, Tuesday unveiled a comprehensive software platform that for the first time allows local area network administrators to protect and manage valuable corporate data in a truly distributed manner.

Mountain's FileTalk 2.0 network data management software system is a set of extensive data management tools. It advances Mountain's software from just hard disk backup utilities to a distributed data management software platform supporting multiple operating environments and host computer systems.

When fully configured, FileTalk 2.0 software will provide network managers the flexibility to create a customized environment that is tailored to their individual requirements.

The FileTalk 2.0 system, because of its distributed nature, can be executed on both single-user workstations and network servers.

FileTalk 2.0 software is the first product that addresses network data protection and data management from the perspective of PC users and network managers. It offers flexibility rather than locking users into structured, centralized schemes that overlook the protection of local hard disk data.

While other products offer some of FileTalk's features, no competitive product offers the integrated solution of the graphical user interface, multiplatform support, flexibility in setup and ease of use.

The company was founded in 1977 and is a wholly owned subsidiary of Nakamichi Corp. Mountain Network Solutions has headquarters at 240 Hacienda Ave., Campbell, Calif., with manufacturing and engineering facilities in nearby Scotts Valley and advanced software research and development facilities in San Diego.

SAN FRANCISCO (SEPT. 11) BUSINESS WIRE - The investment banking firm of Van Kasper & Co. Tuesday announced that Bruce P. Emmeluth has been named managing director, corporate finance, effective immediately.

He has also been named to the executive committee and board of directors.

Emmeluth will have headquarters in the firm's new Los Angeles office.

Emmeluth had previously been associated with Seidler Amdec Securities Inc. since 1970, most recently as senior vice president, corporate finance and a member of Seidler Amdec's board of directors. He was also president of its SAS Capital Corp. subsidiary.

Previously, he was a senior investment analyst in the corporate finance department of The Prudential Insurance Company of America for five years.

Van Kasper, chairman, said, ''Bruce Emmeluth's widely recognized expertise in investment banking throughout his 25-year professional career makes him an invaluable addition to Van Kasper & Co.'s senior management.''

A graduate of Claremont McKenna College with a bachelor's degree in economics, Emmeluth received his master's degree in business administration, finance, from UCLA. He is an allied member of the New York Stock Exchange Inc., a director of Yes Clothing Company Inc. and Denar Corp., a member and past president of the Los Angeles Chapter of The Association for Corporate Growth and a member of the board of advisors of the Entrepreneurial Studies Program at UCLA's John E. Anderson Graduate School of Management.

LOS ANGELES (SEPT. 11) BUSINESS WIRE - GE Capital Transportation & Industrial Funding, a unit of GE Capital that provides financing to manufacturing, industrial, energy and transportation-related companies, has added three vice presidents, one assistant vice president and two operations/portfolio support professionals to its West Coast Corporate Investments Financing Group and has moved into new offices to better serve its clients.

Based in Century City, vice presidents Brandon Blaylock, Lance Rosenzweig and Stephen Zoota, and assistant vice president, Michael Kane, are responsible for originating, structuring and closing transactions in the $20-million-and-above range.

Transportation & Industrial Funding provides financing for all layers of the capital structure for corporate expansion and recapitalizations, leases and capital projects.

Transportation & Industrial Funding's new Los Angeles offices are located at 1999 Avenue of the Stars, 30th Floor, Los Angeles, Calif. 90067; 213/286-0763. Its West Coast operation oversees business transactions in a geographic area covering Alaska, Arizona, California, Hawaii, Idaho, Montana, Nevada, Oregon and Washington. GE Captial has other Transportation & Industrial Funding offices in Chicago, Dallas, New York, Toronto, Stamford, Conn., and an affiliated group in London.

Blaylock has 11 years experience in finance and the energy industry. Prior to coming to GE Capital, Blaylock was a vice president for First Interstate Bank's capital formation and capital markets group. He also worked in a variety of engineering, marketing and managerial capacities for the Exxon Corp., Crocker Bank and Wells Fargo Bank.

Lance Rosenzweig brings substantial expertise in domestic and international corporate recapitalization and acquisitions to his role of vice president. Before joining GE Capital, Rosenzweig was a vice president of corporate finance at Dean Witter Reynolds and senior vice president at the Australian investment bank, Capel Court Pacific Inc. He also was corporate planning manager for international paper and packaging giant Jefferson Smurfit Corp.

Transportation & Industrial Funding is one of 20 separate business components of AAA-rated GE Capital, a subsidiary of Stamford, Conn.-based GE Financial Services. GE Capital, one of the nation's largest diversified financial service companies, has more than $59 billion in assets.

#90254b0052 09/11/1990 ~Business Wire

KANSAS CITY, MO (AUG. 11) BUSINESS WIRE - The West Kootenay Power subsidiary of UtiliCorp United (NYSE:UCU) has modified a pending rate increase request to incorporate a three-year schedule of rate relief.

Under the new request, West Kootenay Power is seeking a 5.5 percent, $3.4 million rate increase that would be effective this year, a 5.6 percent, $3.9 million increase effective in 1991, and a 4.9 percent, $3.7 million increase effective in 1992. The 5.5 percent increase for this year is already being collected on a refundable basis.

It is anticipated that the three-year rate relief schedule will mean a substantial savings in hearing costs. It is the first time that West Kootenay Power has sought a three-year schedule of increases. A hearing before the British Columbia Utilities Commission has been scheduled for Oct. 22.

An earlier one-year request that would have raised rates this year by 6.9 percent, or $4.3 million annually, was reduced due to the availability of additional low priced hydro power under the company's purchased power contract.

The increases are needed to pay for increased costs of purchased power capacity, improvements to transmission and distribution facilities and to offset the impact of inflation. Due to significant load growth in its service territory, West Kootenay Power has increased the amount of wholesale power it purchases and has initiated an aggressive energy conservation program aimed at residential, commercial and industrial customers.

Even with the rate increase, West Kootenay Power's rates will remain among the lowest in North America. All of its generating facilities are hydroelectric. The utility serves approximately 65,000 direct customers and another 40,000 wholesale customers in south-central British Columbia.

Based in Kansas City, UtiliCorp provides electric and gas service to approximately 820,000 customers in eight states and in British Columbia.

Its divisions are Missouri Public Service, Peoples Natural Gas, Michigan Gas Utilities, West Virginia Power, Northern Minnesota Utilities and Kansas Public Service. West Kootenay Power is a Canadian subsidiary. PSI and UtilCo Group are non-regulated subsidiaries engaged in utility and energy related enterprises.

LOS ANGELES (SEPT. 11) BUSINESS WIRE - Spear Financial Services Inc. (NASDAQ:SFNS) Tuesday announced that its second largest shareholder, Liberty Mutual Insurance Co. of Boston, has agreed to sell its 1,086,221 shares of Spear stock to the company for approximately $3.4 million cash.

This transaction, which was solicited by Spear, was at a price of $3-1/8 per share. At the close of trading on Sept. 10, the NASDAQ composite bid for Spear shares was $2-1/2. Prior to this transaction, there were approximately 6.9 million shares outstanding.

''The company reported record revenues for the second quarter of 1990,'' said Charles Spear, chairman and chief executive officer. ''We have looked at a number of acquisition opportunities recently, and we believe that our best opportunity is the reacquisition of our own shares.''

The execution of this trade was handled by Weeden & Co.

SALT LAKE CITY (SEPT. 11) BUSINESS WIRE - Plexus Resources Corp. reports that a drilling program to define reserves at its 100-percent-owned Bornite project, a copper, gold and silver deposit in Marion County, near Mill City, Ore., is completed.

Sixteen holes were drilled and to date 29 holes totalling 21,403 feet have penetrated the cylindrical shaped deposit. Highest grade mineralization tends to occur in the perimeter regions of the deposit, and most holes were designed to transect it and thus have more than one mineral intercept.

Jim Alto, project engineer said, ''We are extremeley pleased with the drilling results. Earlier interpretations of the deposit shape have been confirmed by the program, and reserves are expected to increase from earlier estimates.''

Prior drilling had shown the presence of a high-grade breccia pipe located just beneath the surface and extending vertically for approximately 800 feet. Prior to this year's work, indicated geologic reserves were 2.8 million tons grading 2.44 percent copper, 0.020 ounce per ton gold and 0.58 ounce per ton silver at a 1 percent copper cut off.

Another target is indicated about 1,800 feet to the east of the Bornite pipe and geophysical work is scheduled in September to see if drilling is warranted.

Plexus has established a project office in Mill City, from which project planning and permitting actitivies will be run. The permitting process is scheduled to begin this autumn.

Plexus Resources Corp. is an expanding U.S. natural resources organization with precious metals and oil and gas production as well as extensive base metals interests. The company's shares are listed on the Toronto Stock Exchange (PXS) and trade in the United States on NASDAQ (PLUSF).

     #90254b0062 09/11/1990 ~Business Wire

DALLAS (SEPT. 11) BUSINESS WIRE - Informix Software Inc. (NASDAQ:IFMX) announced Tuesday that it plans to deliver its Informix-OnLine database engine as a NetWare Loadable Module (NLM) for Novell's NetWare 386 operating environment in the fourth quarter of 1990.

OnLine is expected to be the first database server for NetWare 386 providing fault tolerant, online transaction processing (OLTP) performance for users on Novell local area networks.

The new database server for NetWare 386 combines the functionality of Informix-OnLine for the UNIX operating system with support for the multi-threading capabilities and 32-bit architecture of the new Novell environment. OnLine is the first OLTP database engine to support multimedia applications.

With OnLine for NetWare 386, users on Novell LANS can store information objects -- such as word processing documents, graphs, spreadsheets, digitized images, facsimiles and voice -- in an SQL-based relational

database.

Any tool from Informix's complete line of professional and end user application tools can be used to build OnLine database applications. These tools include the Informix-4GL family and Informix's Wingz graphic spreadsheet with the HyperScript graphical programming language.

''With Informix-OnLine for NetWare 386 and Informix's powerful fourth generation programming tools, corporate users for the first time can build and run OLTP-caliber client/server applications on Novell local area networks,'' said Jeff Bork, vice president of marketing for Informix.

''Informix's unique combination of sophisticated application tools and high-performance database server technology enables the company to provide complete, corporate-wide data management solutions to customers.

''For ten years, Informix has been the leader in delivering information management products for open systems environments. The delivery of Informix-OnLine for NetWare 386 reinforces our open systems focus by making our leading DBMS technology available on the standard operating environment for local area networks.''

Informix-OnLine for NetWare 386 delivers the high data availability and performance required for critical business applications that must run 24 hours a day/seven days a week. The product offers easy installation and maintenance as well as online archiving, disk mirroring, fast recovery, support for multimedia data types up to two gigabytes in size, multi-threading capabilities and support for distributed database applications.

High data availability is supported through full and incremental archiving which enables system backup to occur while the application continues to run at peak performance. Disk mirroring automatically duplicates data on a separate disk to protect information in the event of a disk failure. Fast recovery features protect the integrity of the database after a system failure.

OnLine includes a state-of-the-art optimizer that ensures optimal performance by determining the most efficient way to handle complex database queries. Informix has also enhanced the performance of OnLine through the use of shared memory and group commits. The group commit capability enables OnLine to send groups of transactions to the disk at the same time.

The new database server for NetWare 386 also includes a multi-threaded architecture for maximum server performance. In a single-threaded architecture, a separate database engine process is launched on the server for each user accessing the database, draining processing power from the

system. With the multi-threaded architecture, several users can share the same database engine process, significantly reducing the drain on the central processor.

The NetWare 386 version of OnLine also offers an easy-to-use interface for installation and maintenance. The product's three-level installation program enables users installing the database engine to specify their skill level as beginner, intermediate or advanced. For users with little technical expertise, the interface will provide a series of basic questions on the organization's database needs.

Based on the answers, the program will then automatically configure complex parameters such as log buffers and shared memory. More advanced database administrators can use the user-friendly interface to configure the systen exactly to their requirements.

Informix-Star, Informix's distributed database software, is bundled with Informix-OnLine for NetWare 386. With Informix-Star, users can transparently share data from OnLine databases on multiple UNIX-or NetWare 386-based servers.

Informix's full line of application tools will work with Informix-OnLine for NetWare 386. These tools include Wingz, Informix's leading graphic spreadsheet with HyperScript. With the DataLink capability in Wingz, users can access information from an Informix database directly into a Wingz spreadsheet or use HyperScript to create custom graphical database applications.

Wingz is currently available for all major graphical environments including the Macintosh, Microsoft Windows 386, OS/2 Presentation Manager, NextStep for the Next Computer, Open Look for Sun workstations, and Motif for UNIX-based platforms.

Informix's application tools also include the Informix-4GL family of fourth generation programming tools; Informix-SQL, a menu-driven relational database management system; and the Informix-ESQL family of development tools for embedding SQL into C, COBOL and Ada programs. These tools are available for DOS-, OS/2-, and UNIX-based platforms.

Informix plans to make Informix-OnLine for NetWare 386 available worldwide through distributors such as TechData and through authorized resellers. The product has a suggested list price of $4995 for an unlimited number of users.

Informix Software Inc. is a leading supplier of information management software providing solutions from the database through the desktop.

Informix products include powerful distributed database management systems

robust application development tools, and graphical- and character-based productivity software for delivering information to every significant desktop platform.

Headquartered in Menlo Park, Calif., Informix has a European headquarters in London and an Asia/Pacific headquarters in Singapore.

#90254b0076 09/11/1990 ~Business Wire

OCEANSIDE, CA (SEPT. 11) BUSINESS WIRE - Athens Corp., a developer and manufacturer of chemical purification technology and equipment, and Texas Instruments have entered into an agreement relating to the purification of hydrofluoric acid.

Under the agreement, Athens will supply Texas Instruments with the chemical reprocessing systems and technical know-how to meet TI's internal requirements for ultra-pure HF. The agreement also allows Athens to market the ultra-pure HF purified and packaged by Texas Instruments to other semiconductor device manufacturers, making Athens a new merchant supplier of ultra-pure chemicals.

The new agreement enables the two companies to leverage their investment to attain world leadership in chemical purity and sub part-per-billion analysis.

TI recently completed its new world class Dallas Chemical Center which supplies ultra-pure chemicals to its Texas semiconductor fabrication sites. Athens Corp., a leader in chemical purification and reprocessing technology, will provide TI the capability to meet its current and future ultra-pure HF needs.

''Our relationship with Athens allows the TI Chemical Operations team the opportunity to promptly meet the requirements currently established for 16MB DRAM fabrication and perhaps beyond,'' notes Dale M. Pescatrice, vice president of Texas Instruments' Semiconductor Materials Division.

Under terms of the agreement, Athens will provide its patented HF purification technology for the new TI Chemical Center. Incoming HF will be purified and packaged for internal use by TI, beginning with the Dallas Memory Wafer Fab. In addition, TI will also package ultra-pure HF for exclusive distribution by Athens.

This agreement signals a diversification for Athens which has traditionally marketed their reprocessing systems to end users for yield

enhancement as well as reductions in chemical consumption and associated toxic waste. With the Texas Instruments pact in hand, Athens will soon be in the position to meet the semiconductor industry's demand for high purity packaged chemicals.

''In recent years, U.S. semiconductor materials leadership has moved offshore,'' noted Athens' president and chief executive officer, Tony Jurvetson. ''Coupling Athens' purification technology with Texas Instruments' world class packaging facility returns aqueous HF purity leadership to the U.S. and benefits the entire semiconductor industry.''

The market for ultra-pure chemicals is expected to grow as stricter containment controls are required for wafer geometries below the 1 micron threshold. In the future, Athens' purification technology will be applied to other high purity chemicals essential to submicron device manufacturing as part of Athens' long-term strategy.

Founded in 1985, Athens Corp. is a world leader in the development and manufacturing of on-site chemical purification and management systems for the semiconductor industry. Athens' customers include the leading captive and merchant semiconductor device manufacturers in the United States, Japan and Korea.

Texas Instruments Inc., headquartered in Dallas, is a high-technology company with sales and operations in more than 30 countries. TI develops, manufacturers and markets semiconductors, defense electronics systems, software productivity tools, computer systems, industrial automation and control systems, electrical controls, metallurgical materials and consumer electronics products.

#90254b0079 09/11/1990 ~Business Wire

MILPITAS, CA (SEPT. 11) BUSINESS WIRE - California Micro Devices Corp. (NASDAQ:CAMD) Tuesday reported profits of $1,173,000, or 28 cents per share, for the fiscal year ended June 30, 1990, compared with a loss of $3,006,000, or 76 cents per share, for the previous fiscal year.

Revenue for the year was up by 17 percent to $32,286,000, vs. $27,605,000 for the last fiscal year.

Net profit for the fourth quarter ended June 30, 1990, was $68,000, or 2 cents per share, on revenue of $6,969,000, compared with a net loss of $1,058,000, or 27 cents per share, on revenue of $8,339,000 for the like period last year.

''The fiscal year results were a significant improvement over the last year with an increase of $4.7 million in revenue and a corresponding increase of $4.2 million in net profit,'' said Chan Desaigoudar, chairman and chief executive officer of the company.

''The increase in revenue for the fiscal year ended June 30, 1990, is attributed to the expansion of our customer base during the first two quarters of fiscal 1990, as well as the expansion of applications available to the end users of our data processing and telecommunication products.

''The company has achieved higher revenue per employee. Cost reductions, a higher revenue base, increased efficiencies and better yields contributed to the turnaround,'' added Desaigoudar.

''We are optimistic about our inkjet printhead program and our recently introduced BiCMOS product line of very high-speed data acquisition components. We anticipate revenue growth from these two product areas in the latter part of this fiscal year.

''Because current market conditions for the semiconductor industry are uncertain, and due to reduced shipment levels, we are keeping a close check on expenses so that the company may emerge in a strong financial position to fully capitalize on the BiCMOS and inkjet product opportunities.''

A high-performance, microelectronics component technology company, California Micro Devices designs, manufactures and markets a wide range of electronic components through its microcircuits, Vanguard Semiconductor and Thin Film Division. These components are marketed to communications, computer, industrial, medical, aerospace and military customers.

HOUSTON (SEPT. 11) BUSINESS WIRE - Continental Airlines Tuesday reported that its August traffic rose three-tenths of a percent vs. August 1989.

Continental's 69.2 percent August load factor was based on 4.1 billion revenue passenger miles (RPMs) and 5.9 billion available seat miles (ASMs).

Year-to-date, Continental's load factor is 61.8 percent, which is comparable to the 1989 level. In the January-August period, Continental flew 26.7 billion RPMs and 43.2 billion ASMs.

Continental Airlines
Preliminary Systemwide Traffic Results

AUGUST	1990	1989	Change
RPMs (000)	4,109,314	4,096,409	+ 0.3 percent
ASMs (000)	5,935,713	5,726,752	+ 3.6 percent
Load Factor	69.2 percent	71.5 percent	- 2.3 points

YEAR-TO-DATE	1990	1989	Change
RPMs (000)	26,673,728	26,580,295	+ 0.4 percent
ASMs (000)	43,163,649	42,971,931	+ 0.4 percent
Load Factor	61.8 percent	61.9 percent	- 0.1 points

#90254b0094 09/11/1990 ~Business Wire

DALLAS (SEPT. 11) BUSINESS WIRE - Microsoft Corp. announced Tuesday at NetWorld that it will include Windows Workstation Release 3 from Automated Design Systems Inc. with Microsoft LAN Manager version 2.0, to further enhance the tight integration between Microsoft's network operating system and the popular Windows 3.0 graphical environment.

The recently released update of Windows Workstation consists of a set of graphical utilities that improve users' ability to access network resources. It also allows network administrators to efficiently implement Windows as a consistent, easy-to-use working environment for every user on a LAN Manager-based network, regardless of the size of the LAN. Windows Workstation and Microsoft LAN Manager also offer network administrators centralized control over menus, printers, initialization files and Windows applications.

A five-user version of Windows Workstation is included at no charge with every LAN Manager package under the special promotion. Windows Workstation Enhances LAN Manager Integration With Windows

In addition to supporting Windows workstations as clients in all three Windows modes (real, standard, and enhanced), LAN Manager also includes full support of the Applications Programming Interface (API) for Windows. This means independent software developers can write Windows applications

that are ready to run on LAN Manager and corporate developers can build client-server applications under Windows. Further, the integration of LAN Manager into the Windows shell insulates the user from the network operating system's native commands. Windows users automatically get network-related menus for access to various servers and printers; tasks such as selecting a network printer or a file on the network are reduced to a mouse click.

Windows Workstation tightens the integration of LAN Manager with Windows through the addition of several network-specific utilities. These utilities allow users to more easily access network printers, and use customized network menus; extend network security to protect unattended workstations; and provide more flexibility in sending network messages.

Manage From a Central Location

Windows Workstation enables the administrator to manage these resources from a central location. Using Windows Workstation's menuing facility and script language, the administrator can automatically update or modify each user's initialization file from a central location, for example to upgrade the user environment on a network-wide basis; and to automate basic tasks such as changing access to servers, changing working directories, or running applications. Administrators can also add or subtract individuals from group names, move printer locations, or do similar housekeeping chores, in a way that is transparent to users.

Windows Workstation complements the underlying network administration facilities in LAN Manager to considerably ease the management problems encountered in large network environments, and to leverage Windows' ability to build larger LANs by making them more supportable.

''Windows Workstation follows the LAN Manager philosophy of providing complete functionality in all packages regardless of the size of the user's network,'' said Stan Levine, Automated Design Systems' vice president of engineering.

''Windows Workstation and the LAN Manager administration facilities automate and simplify so much of the daily management duties that companies can now afford to expand their networks as fast as they need to, without having to wait until they can also expand the support staff. And they can scale their software purchases to meet their needs.''

''Two converging trends in our industry are the growth of networks and the growth of Windows,'' said Mike Murray, general manager of the network business unit at Microsoft. ''We are committed to integrating LAN Manager and Windows for the benefit of users. We are delighted to offer our LAN Manager customers a chance to use this award-winning Windows product.'' Windows Workstation was named product of the year in 1990 by LAN Magazine.

Demonstrations of Windows Workstation and Microsoft LAN Manager will be running during NetWorld 1990 at Microsoft's booth (No. 1610), Automated Design System's booth (No. 2653), and Compaq Computer Corp.'s booth (No. 1714).

LAN Manager is Microsoft's industry-standard local area network that provides the foundation for information- and resource-sharing among personal computer users. Windows Workstation Release 3 supports Microsoft Windows environment version 3.0 on LAN Manager and other network operating systems.

A five-user version of Windows Workstation is included with every LAN Manager package. Additional 10-user licenses for Windows Workstation are available for $695 each from Automated Design Systems. Site licenses are also available.

Founded in 1985, the privately held Automated Design Systems Inc. is the leading independent software supplier of Microsoft Windows applications for local area networks.

Microsoft Corp. (NASDAQ: MSFT) develops, markets and supports a wide range of software for business and professional use, including operating systems network products, languages, and application programs, as well as books, CD ROM products, and hardware for the microcomputer marketplace.

SANTA CLARA, CA (SEPT. 11) BUSINESS WIRE - One year after introduction of its Precision 5000 WCVD system for blanket tungsten deposition, Applied Materials Inc. announced that it had met or exceeded all of its aggressive goals for penetrating the tungsten market.

''At the time of introduction we said that we expected to exceed $25 million in system revenue by the end of fiscal 1990. We will not only meet that goal, we have placed systems with 17 of the top 25 semiconductor manufacturers worldwide,'' said Dr. Sass Somekh, vice president of the Applied Conductor Technologies organization.

''Customers are now placing orders for multiple systems, many of which are for full production applications.''

To enhance the system's capabilities, Applied Materials announced in June the availability of an integrated deposition/etchback process, the industy's first fully integrated blanket tungsten process for plug-filling applications.

Since its announcement, the integrated system, which uses an etchback chamber in conjunction with one or more deposition chambers, has been ordered by a number of customers seeking tungsten plug-filling capability.

The single-wafer, multi-chamber system is available with up to four chambers, and systems have been shipped with 4-inch, 5-inch, 6-inch and 8-inch (200mm) wafer sizes.

''The modularity of the Precision 5000 WCVD's multi-chamber design is an obvious benefit to our customers because they can easily tailor the system's processes and capacities to their specific needs,'' Somekh said.

In its first year, the Precision 5000 WCVD has received extraordinary acceptance in the market. After the typical several-month-long evaluation phase, in which customers took delivery of ordered systems and conducted their qualification testing, bookings for the fiscal quarter ending July 29 increased more than 300 percent over the previous quarter, with repeat and multiple-unit orders fueling the growth.

Applied Materials Inc. is a global growth company based in Santa Clara,

and is the leading independent supplier of wafer fabrications systems to the worldwide semiconductor industry. It is a market leader in chemical vapor deposition, dry plasma etching and silicon deposition.

The company is also a leading manufacturer of ion implantation and physical vapor deposition systems.

VANCOUVER, WA (SEPT. 11) BUSINESS WIRE - Innovative Medical Technology has acquired Mono-Lite Corp. and is changing the name to Monolite Industries, reflecting the infusion of new technology and corporate management.

As of Aug. 28, 1990, the Securities and Exchange Commission and the National Quotation Bureau has changed the name from Innovative Medical Technology to Monolite Industries. The new CUSIP number is 609 791 108.

This was a direct one-for-one stock transfer: each share of IMED stock currently held is equivalent to one share of Monolite Industries' stock. The issuance of the new certificates will be at the transfer of ownership, or unless otherwise notified by the Transfer Agent.

Monolite Industries has selected First Interstate Bank to be its new Transfer Agent. Monolite, with its corporate counsel and First Interstate may elect to issue all new certificates.

The board of directors will consist of Ronald Huegli, president; Brian Burgoyne, vice president; and Susan Frost, secretary-treasurer. The leadership changes are due to the infusion of new technology and a mineral deposit by Huegli, yielding an asset base of $3 per share. This change of technological direction requires experienced people appropriate to meet these fresh challenges.

Monolite Industries brings aerospace technology with a widespread application. This technology involves a patented, proprietary monolithic composite panel with extraordinary benefits far surpassing any known products used today. Some of the unique properties and benefits are: longer product life, greater strength, lightweight, high insulation rating fireproof, and waterproof.

The technology has been evaluated by Battelle Northwest and several other leading and respected engineering firms noted for their expertise in the

composite industry. Their findings support the company's claims.

Monolite Industries will receive its new mass-production machinery at the end of the first year of limited production. A subsidiary of Alcoa, the leader in composite equipment for the aerospace industries, will jointly design and fabricate the machinery with Monolite Industries. Additional equipment and personnel will be implemented to minimize the company's sales backlog.

A number of executives from Fortune 500 companies, financial analysts and engineers predict that within a three-year period Monolite Industries will be the leader of composite manufacturing.

SAN DIEGO (SEPT. 11) BUSINESS WIRE - Cipher Data Products Inc. has announced a contract renewal agreement with Arrow Electronics Inc., with headquarters in Melville, N.Y., appointing Arrow as a major Cipher distributor in North America.

Arrow operates 51 selling locations in the United States and Canada dedicated exclusively to the distribution of semiconductors and computer products.

''Cipher wanted one primary national distributor to complement the nine Cipher regional distributors throughout North America,'' said Wes Bankston

Cipher's vice president of North American sales. ''This strategy will allow Cipher to focus on fewer distributors, yet provide effective sales coverage and service to our end users.

''In addition to Cipher's half-inch tape drive lines, Arrow's complementary product lines include quarter-inch drives from Archive.''

Arrow's senior vice president of sales, Bill Smith, said that ''the agreement was an extension of Arrow's previous agreement with Cipher and existing relationship with Cipher's parent company, Archive Corp. Arrow now distributes products for several Archive companies including Archive Technology in Costa Mesa, Cipher Data Products Inc. in San Diego and Maynard in Casselberry, Fla.

Cipher Data Products Inc. is a leading supplier of removable information storage solutions. Founded in 1968, the company designs and manufacutures a broad range of half-inch magnetic tape and cartridge drive systems providing interchange, data backup and permanent storage solutions for a variety of computers.

Cipher is located in San Diego and is a wholly owned subsidiary of Costa Mesa-based Archive Corp.

SAN DIEGO (SEPT. 11) BUSINESS WIRE - Furnishings 2000 Inc., a home furnishings retailer with 37 California locations, announced that as a result of its continuing losses, its liquidity has become severely impaired and the company intends, in the near future, to seek protection under the Federal Bankruptcy Code.

The company incurred a net loss of $3.8 million on sales of $23.3 million for the quarter ended July 28 compared with a net loss of $2.8 million on sales of $21.7 million for the quarter ended June 30, 1989.

The net loss for the quarter ended July 28, 1990, was due principally to sales volume below the company's break-even point and a decrease in gross profit as a percentage of sales to 41.6 percent from 45.1 percent due to lowering of prices and general adverse market conditions.

A summary of the company's operating results for the three- and six-month periods ended July 28, 1990, and June 30, 1989, follows: -0-

BERKELEY, CA. (SEPT. 11) BUSINESS WIRE - Andros Analyzers Inc. (NASDAQ/NMS:ANDY) Tuesday reported record sales of $26,445,200 and record net income of $1,892,500 (55 cents a share) for its fiscal year ended July 29.

Sales were 43 percent higher than last year when sales were $18,549,800 and net income was $390,000 (12 cents a share).

Total medical sales reached a record level of $11,777,200, and represented 45 percent of total sales. Angiotec's fiscal 1990 sales were a record $4,475,100, a 43 percent increase over last year. Medical gas analyzer sales were a record $7,302,100, a 9 percent increase. Total automotive sales were a record $14,668,000, up 68 percent over last year.

Fourth quarter fiscal 1990 sales were a record $8,438,700, up by 77 percent over last year's fourth quarter. Net income was $517,900 (15 cents a share) in fourth quarter fiscal 1990 compared to a loss of $204,400 (6 cents a share) in last year's fourth quarter.

George A. Schapiro, president and chief executive officer, said, ''Fiscal 1990 was a good year for Andros. We saw the resurgence of our automotive market as demand for more sophisticated vehicle test equipment increased in response to intensified Clean Air Act requirements. And we saw satisfying growth in sales and profits in our medical markets as the products which we introduced over the past two years became key components for our customers and for Andros.''

Andros Analyzers designs, manufactures and sells instrumentation to manufacturers of medical systems and automotive test equipment on a world-wide OEM basis.

SEATTLE (SEPT. 11) BUSINESS WIRE - Alaska Airlines has received U.S. Department of Transportation approval to inaugurate four new routes to Mexico, the carrier announced Tuesday.

Service on two of the routes -- Los Angeles-Mazatlan-Puerto Vallarta and Los Angeles-Guadalajara -- will begin Oct. 1.

Alaska will offer one daily round trip flight on each route, with nonstop and one-stop segments on the Mazatlan and Puerto Vallarta route alternating between the Mexican cities.

The carrier's two-for-one fare promotion underway on existing Mexico routes will apply to the new routes. Under the promotion, travel must originate by Oct. 31 and be completed by Nov. 7. A one-day advance purchase is required and tickets are non-refundable.

Alaska's other new routes -- San Francisco-Los Cabos and San Diego-Los Cabos -- will be inauguarted Nov. 15. One daily nonstop round trip is planned on each of the routes.

Boeing 727-200 aircraft will be used on all four routes, the airline said.

Alaska also announced today that it has applied to the U.S. Department of Transportation for authority to begin daily nonstop round trip service between Mexico City and Los Angeles.

Seattle-based Alaska Airlines serves 36 cities in Alaska, Mexico and five Western states. Service to Mexico was launched in 1988.

DALLAS (SEPT. 11) BUSINESS WIRE - El Chico Corp. (NASDAQ:ELCH) Tuesday announced financial results for the quarter ended Aug. 20, 1990.

The net income for the quarter increased 15 percent to $353,000, or 8 cents per share, up from $307,000, or 7 cents per share, for the same 12-week period a year ago. Increased restaurant sales, fewer asset write downs, lower interest expense and decreased income-tax expense accounts for the increase in profits. Operating margins declined due to increased restaurant-labor costs.

System-wide sales, including sales from franchised restaurants, were $29,002,000, down 1 percent from $29,309,000 recorded in the prior year. Net sales from company operations were $20,785,000, a decrease of 1.7 percent from the $21,135,000 recorded a year ago.

Both declines were due to a decrease in sales at Pronto Design, a subsidiary specializing in kitchen design and equipment sales, from $1,711,000 to $690,000. Comparable store sales increased 3.1 percent for company-owned restaurants and 6.4 percent for franchised restaurants.

The 50-year-old Dallas-based company owns and franchises a group of 90 full-service ''Tex-Mex'' style Mexican and concept restaurants in 12 states throughout the southern and southwestern regions of the United States.

#90254b0205 09/11/1990 ~Business Wire

VANCOUVER, BRITISH COLUMBIA (SEPT. 12) BUSINESS WIRE - Skyline Gold Corp. Tuesday announced a progress report on exploration work under way on the Bronson Creek and Bonanza prospects of its joint venture property with Placer Dome Inc. in the Iskut River region of northwestern British Columbia.

Exploration work in the current season has to date focused on completing surface geological work and evaluating data developed to date prior to developing a comprehensive drilling program to assess the mineralized potential of the prospects.

One deep hole (Hole 975) was drilled to test a strong geophysical conductor on the Bonanza structure. The conductor was interpreted to lie 240 metres down dip from the surface expression of the zone and 120 metres down dip from a 1984 drill hole intercept of the zone.

Gross Contained Metal Value

The Bonanza Zone is felt to be the strike extension of the Twin Zone located on the SNIP joint venture property currently under development for production by Cominco Ltd. Hole 975 is approximately 3 km from the Twin Zone on the SNIP joint venture property.

The Bonanza and Twin Zones are identical in strike and dip, and are hosted by foliated shear zones in dark fine grained volcanic sedimentary rocks. The Bonanza Zone has been traced by geochemistry and trenching 1 km to the northwest and 1 km to the southeast of Hole 975. Mapping and geophysics is in progress to trace the zone a further 1 km to the northwest to the boundary of the SNIP joint venture.

Mineralization encountered in Hole 975 was generally consisted with geological interpretations for the area and confirmed the existence of a 10 metre wide zone which presents the opportunity for significant tonnage. This zone was intersected 320 metres down the drill hole.

Down hole geophysics are being completed on Hole 975 together with additional mapping and surface geophysics in the area before additional drilling is undertaken to assess the full potential of the structure. Step out drilling along the structure will be under taken to identify

areas of higher gold mineralization and increased polymetallic base metal values.

The Vancouver Stock Exchange has not reviewed and does not accept responsibility for the adequacy or accuracy of this release.

#90254b0219 09/11/1990 ~Business Wire

DALLAS (SEPT. 11) BUSINESS WIRE - Oryx Energy Co. (NYSE:ORX) announced Tuesday a transaction with the Glenmede Trust Co. involving 25.3 million shares of common stock.

Oryx Energy purchased 18 million shares at $53-3/4 per share for a total consideration of $968 million, and exchanged 7.3 million shares of convertible preferred stock for a like amount of common. All of the stock acquired from Glenmede was owned by charitable trusts for which Glenmede is a trustee.

The preferred stock is non-voting and convertible into common under certain conditions. Glenmede plans to sell all of the underlying 7.3 million shares of common stock in a broadly based public offering as soon as it is practical.

''We entered into the transaction as a result of the difference between Glenmede's investment objectives, including its desire for higher current yields, and our plan to reinvest cash flow for growth,'' said Robert P. Hauptfuhrer, chairman and chief executive officer of Oryx Energy.

''It became apparent that Glenmede's long-term objectives were incompatible with Oryx Energy's strategic plans. This transaction allows us to devote our full energies and attention to continued enhancement of shareholder value.

''From our standpoint, we believe that the purchase, at $53-3/4 per share, is an excellent investment for such a large block, and we have structured the transaction in such a way so as to preserve our financial strength and to continue with our value-creating business strategies,'' said Hauptfuhrer.

Oryx Energy will initially finance the purchase with new debt, but intends to reduce debt to about current levels by Sept. 30, 1991. While the transaction will temporarily increase the company's debt and interest expense, Oryx is moving quickly to accelerate its ongoing program to divest assets.

Oryx Energy expects to apply some $750 million net proceeds against the debt over the next 12 months. The company also cited increased cash flow resulting from higher oil prices as another source to be used to pay down debt.

''Assuming a reference price of $21 per barrel, set at the July OPEC meeting, we are confident that we can accomplish our financial objectives '' said Hauptfuhrer. ''In this scenario, which translates into an approximate $23 per barrel West Texas Intermediate (WTI) spot price, Oryx would expect to be able to generate approximately $9.70 per share in discretionary cash flow in 1991.

''If you assume a WTI spot price of $27 per barrel, we would expect to be able to generate approximately $11.20 per share in discretionary cash flow next year.''

Oryx said it expects to be able to reduce its debt to about $1.5 billion while maintaining its annual capital spending program in the half-billion range over the next couple of years.

''This will enable us to continue to apply advanced technologies, such as our horizontal drilling program, to find and develop new reserves, to build our domestic offshore position in natural gas and to expand on our internationl base. Operationally, the company has performed well with this level of investment, and it can continue to demonstrate strong business results in this range,'' said Hauptfuhrer.

The company also announced the arrangement of a $1.8 billion credit agreement to replace its previous $1.4 billion credit facility. The purpose of the bank facility is to provide a source of funds for the stock purchase, refinancing for the company's currently outstanding commercial paper and for working capital requirements.

The Glenmede Trust Co. acts as fiduciary for charitable trusts established by the Pew family, founders of Sun Company Inc., the former parent of Oryx Energy. ''The trusts have had a long and successful relationship with this company and we are confident that Oryx has a very bright future,'' said Thomas Langfitt, president and chief executive officer of The Glenmede Trust Co.

Dallas-based Oryx Energy Co. is the largest independent oil and gas company in the world, with assets in excess of $5 billion and proved reserves of more than one billion equivalent barrels.

#90254b0224 09/11/1990 ~Business Wire
CHICAGO (SEPT. 11) BUSINESS WIRE - Packaging Corporation of America (PCA), a subsidiary of Tenneco Inc., Tuesday announced it, together with GE Capital and other major investors, is negotiating with Georgia-Pacific Corp. to acquire from Georgia-Pacific two containerboard mills, 19 box converting plants and approximately 540,000 acres of timberland in Wisconsin, Michigan, Georgia and Florida.

The price of the transaction is expected to be approximately $740 million.

The transaction is subject to definitive documentation and the approval of the boards of directors of Georgia-Pacific and Tenneco.

GE Capital would purchase the paper mills in Valdosta, Ga., and Tomahawk, Wis., and lease them to PCA. J.P. Morgan is financial advisor to Tenneco for this transaction. John Hancock Mutual Life Insurance Co. and Metropolitan Life Insurance Co. have agreed in principle with Tenneco to acquire the timberland and lease it to PCA.

PCA, a Tenneco company based in Evanston, Ill., is a leading manufacturer of containerboard products, recycled paperboard, molded fiber, aluminum foil and plastic packaging. The company also operates more than 60 facilities worldwide including seven wholly owned or joint venture international businesses. Sales in 1989 were $1.3 billion. Operating income in 1989 was $200 million.

Tenneco Inc. (NYSE Symbol: TGT) is a Houston-based diversified industrial corporation with major business interests in natural gas pipelines, farm and construction equipment, automotive parts, shipbuilding, packaging, chemicals and minerals. Sales in 1989 were $14 billion. Net income was $584 million.

DALLAS (SEPT. 11) BUSINESS WIRE - Oryx Energy Co. (NYSE: ORX) announced Tuesday that its board of directors adopted a stock purchase rights plan.

The board declared a dividend distribution of one stock purchase right on each outstanding share of the common stock of Oryx, payable Sept. 28, 1990 to holders of record of the common stock of Oryx on that date. A summary of the rights plan will be sent to all stockholders of record on that date.

The rights plan is primarily designed to assure that all Oryx stockholders receive fair and equal treatment in the event of any attempt to acquire the company. Rights plans have been adopted by more than 1,200 U.S. corporations.

The rights plan is not being adopted in response to any specific threat to acquire control of the company, nor is the company aware of any effort to acquire control of the company. ''The purpose of the plan is to help to deter any attempt to acquire the company in a manner or on terms which are not in the best interests of all the stockholders,'' said Robert P. Hauptfuhrer, chairman and chief executive officer of Oryx Energy.

Initially, the rights will be represented by the certificates of Oryx common stock and will trade with the common stock. The rights will not be exercisable unless certain future events occur. The rights will expire Sept. 9, 2000, unless they are earlier redeemed by the company.

The company said each right will entitle stockholders to buy one one-thousandth of a share of the company's newly created Series A preference stock at an exercise price of $150. The rights will be exercisable (A) if a person or group, with certain exceptions, acquires 20 percent or more of Oryx, (B) if a person or group is determined by the board to have intentions toward the company that are not in the long term best interests of the company or the company's stockholders and that person or group has or acquires beneficial ownership of a percentage of the company's common stock in excess of an ownership limitation designated by the board (which limitation may not be below 10 percent) for such person or group, or (C) 10 business days after a person or group announces a tender offer that would result in ownership of a 20 percent or more stake, Oryx said.

The company said if Oryx is acquired or if a person or group (with certain exceptions) acquires 20 percent or more of the common stock of Oryx, each right will entitle its holder to purchase, at the then-current exercise price, a number of the acquiring company's common stock, or of the common stock of Oryx, as the case may be, that would have a market value of twice the exercise price or, if a person or group is determined by the board to have intentions toward the company that are not in the long term best interests of the company or the company's stockholders and that person or group has or acquires beneficial ownership of a percentage of the common stock of Oryx in excess of the ownership limitation applicable to such person or group, each right will entitle its holder to purchase, at the then-current exercise price, a number of shares of the common stock of Oryx that would have a market value equal to two times the exercise price multiplied by a fraction, the numerator of which is 20 percent and the denominator of which is the lesser of the applicable ownership limitation and 20 percent.

Oryx said it can redeem the rights, at the discretion of the board, at any time before (A) a 20 percent position has been acquired, with certain exceptions, or (B) an applicable ownership limitation has been exceeded by a person who has been determined to have intentions toward the company that are not in the best long term interests of the company or the company's stockholders.

Dallas-based Oryx Energy Co. is the largest independent oil and gas company in the world, with assets in excess of $5 billion and proved reserves of more than 1 billion equivalent barrels. Oryx Energy trades on the New York Stock Exchange with the symbol ''ORX.''

PORTLAND, OR (SEPT. 11) BUSINESS WIRE - Directors of Portland General Corp. (NYSE:PGN) have approved payment of a regular quarterly dividend of 30 cents per share on the company's common stock.

The dividend is payable on Oct. 15, 1990, to shareholders of record as of Sept. 25, 1990.

At the same time, directors approved the regular quarterly dividends on Portland General Electric Co.'s (PGE) six series of preferred stocks. PGE is Portland General's principal subsidiary.

PGE's preferred dividends include 65 cents on the $2.60 series $25 par value preferred issue. Preferred dividends are also payable Oct. 15, 1990 to holders of record as of Sept. 25, 1990.

Portland General is an energy company with businesses offering a range of regulated and commercial energy products and services. PGE serves more than 575,000 retail electricity customers in northwest Oregon, as well as wholesale electricity customers through its ownership of the largest non-government share of the Pacific Intertie transmission line to California.

SUNNYVALE, CA (SEPT. 11) BUSINESS WIRE - Advanced Micro Devices Tuesday said it will appeal a verdict in the U.S. District Court in San Diego finding that AMD had infringed patents and maskwork rights held by Brooktree Corp.

The case involves microchips known as color palettes which are used to control the display of colors on computer monitor screens.

''This was a very complex case for a jury to decide, and we are shocked and disappointed at the verdict,'' said Richard Previte, president and chief operating officer of AMD.

''AMD absolutely does not condone violations of intellectual property rights. We did not copy Brooktree's designs, and any infringement of their recently issued patents, if infringements occurred, were inadvertent. AMD invented the color palette, and the devices at issue in this case were introduced prior to the issuance of the Brooktree patents '' said Previte.

This case involved recently issued patents on certain integrated circuit features, technical chip design questions and whether patent infringement and maskwork copying occurred. The case was the first-ever jury trial of an alleged violation of the Semiconductor Chip Protection Act.

''Immediately upon entry of the judgment, AMD will file an appeal to the Court of Appeals of the Federal Circuit, which was specifically established to hear cases involving intellectual property issues,'' said Thomas Armstrong, AMD vice president and general counsel. ''We believe that the verdict is not supported by the facts of the case.''

Armstrong noted that AMD has a patent infringement case of its own pending against Brooktree in the same jurisdiction. ''The AMD patent is broader than the Brooktree patents,'' said Armstrong.

''The follow-on case will offer another opportunity to demonstrate that AMD's color palette designs are our own and were not copied from Brooktree's devices. In the meantime, we will seek review of this decision through the appellate process,'' Armstrong concluded.

''AMD is now working on advanced color palette designs that will employ different technology,'' said Anthony B. Holbrook, AMD vice chairman and chief technical officer. ''These new devices will avoid patent or maskwork infringement problems. ''Meanwhile, the loose interpretation given the Semiconductor Chip Protection Act by this court decision is contrary to the intent of the act itself,'' Holbrook continued.

''The act was intended to prevent copying while allowing development of competitive engineering solutions that has been the hallmark of this

industry for three decades. The resultant competition has created enormous benefits for the ultimate consumers of products that depend upon semiconductor technology,'' said Holbrook.

Holbrook noted that color palette sales contributed less than one percent of AMD's $1.1 billion in revenues in 1989.

CARSON, CA (SEPT. 12) BUSINESS WIRE - Nissan Motor Corp. in U.S.A. announced Tuesday the appointment of Sheleme M. Sendaba to the position of vice president, finance and information systems.

Sendaba, 40, was previously comptroller, Truck & Bus Group Janesville, General Motors Corp., and possesses over 11 years of experience in the automotive industry.

He began his career in 1979 in the masters of business administration financial training program at Buick and proceeded to hold various assignments in finance, MIS, marketing, engineering, manufacturing and assembly and strategic business planning.

In 1983, Sendaba became director of general accounting and special studies at the Buick Motor Division in Flint, Mich., and in 1984 was appointed to the same position for the Buick-Oldsmobile-Cadillac Flint Product Team. In 1986, he was named comptroller of B-O-C Chicago, General Motors.

Sendaba holds a bachelor's degree in finance and accounting from the University of Illinois and a masters in business administration degree in international business finance from the Walter Heller Graduate School of Business, Chicago. He is a member of the MBA Association, American Management Association and AICPA, and currently resides in Irvine, Calif., with his wife and three children.

WELLINGTON, NEW ZEALAND (SEPT. 12) BUSINESS WIRE - Ameritech (NYSE:AIT) and Bell Atlantic (NYSE:BEL) and two New Zealand firms Tuesday officially

assumed ownership of the Telecom Corporation of New Zealand Ltd., that country's principal supplier of domestic and international telecommunications services, including cellular mobile and directory services.

Today's transfer of ownership of Telecom by the New Zealand government completes a process that began June 14 when the government selected the consortium of four firms -- Ameritech, Bell Atlantic, Fay Richwhite Holdings Ltd. and Freightways Holdings Ltd. -- and their NZ $4.25 billion bid for Telecom.

''We are delighted to be a part of the teaming of New Zealand Telecom with two top U.S. communications companies,'' said Thomas C. Burns, chairman and managing director of the Ameritech and Bell Atlantic investment companies in New Zealand: Ameritech New Zealand Ltd. and Bell Atlantic New Zealand Ltd.

''This combination of talents and resources will yield significant technological, economic and strategic benefits for Telecom's customers and for New Zealand,'' Burns said.

To maximize New Zealand investor participation in the company and comply with a government condition for the sale, the U.S. firms will reduce their Telecom holdings to 49.9 percent by offering up to 40.1 percent of Telecom shares in public offerings on the New Zealand Stock Exchange and in international equity markets, including the United States, over the next three years.

The New Zealand consortium members will own a total of 10 percent.

Formerly part of the New Zealand Post Office, Telecom was incorporated as a state-owned company in February 1988. It was sold to the New Zealand-U.S. consortium as part of the New Zealand government's ongoing privatization of state-owned enterprises.

Ameritech is the Chicago-based parent of Bell companies serving more than 16 million access lines in Illinois, Indiana, Michigan, Ohio and Wisconsin. Other Ameritech companies provide cellular communications, directory publishing, lease financing, voice messaging and audiotex services.

Bell Atlantic Corp. is the Philadelphia-based parent of telephone companies serving more than 17 million access lines in the mid-Atlantic region of the United States. The corporation also is the parent company of businesses that provide cellular communications, computer maintenance and financial and leasing services in the United States and international markets.

SAN JOSE, CALIF. (SEPT. 11) BUSINESS WIRE - Kodiak Technology, a leading manufacturer of Ethernet-based Netware interface boards, announced it is offering a family of cards for diskless workstations.

The Raven-8 B/R is for thick (ThickNet) and thin wire (ThinNet) Ethernets, while the Raven-8 UTP and the Raven-16 UTP are for 10Base-T networks.

The new cards enable system integrators to purchase any computer and immediately connect it to an Ethernet LAN running Novell Netware. Upon powering up the disk-free workstation, the boot ROM provides automatic communication between the Raven board and the file server allowing the user to log in, collect operating software and have access to data files.

The Raven-8 B/R provides standard Ethernet physical layer interface via ThickNet or ThinNet. The Raven-8 UTP B/R and Raven-16 UTP B/R provide physical layer interface that complies with the most recent draft of the 10Base-T standard.

Raven interface boards reduce total system cost, by allowing network managers to use diskless workstations. Even when configured with powerful CPUs, diskless workstations substantially reduce total system cost. Kodiak's boot ROM option is one half the cost of adding a floppy drive to a node. The boards are certified compatible with Emerald Computers and Wyse Technology diskless workstations.

In addition to the low cost, there is greater system security on a disk free node because access to all software and data files must be made via the network and data are not removeable from the system. Also, data and files are centrally stored and backed up to aid in disaster recovery.

As a complement to the cost and security benefits, the Raven interface cards are supported by Kodiak's commitment to service. All Raven products have a five-year warranty and are covered by a Federal Express next day replacement policy. In addition, Kodiak supplies a technical hotline and dedicated technical service support.

Kodiak Technology, a subsidiary of SEEQ Technology Inc., is a supplier of high performance network solutions, including interface cards (adapter boards) and file servers. Kodiak is located in San Jose.

MOUNTAIN VIEW, CA (SEPT. 11) BUSINESS WIRE - ASK Computer Systems Inc. (OTC:ASKI) and Ingres Corp. (OTC:RELY) of Alameda, Calif., Tuesday announced the signing of a definitive agreement for Ingres to be acquired by ASK for $9.25 per share in cash, or approximately $110 million.

Simultaneously, ASK announced that EDS Corp. and Hewlett-Packard Company have signed a definitive agreement whereby EDS and HP will acquire ASK common stock for an aggregate of $60 million in cash. Upon completion of the agreement, ASK will have approximately 18,840,000 shares outstanding, of which EDS will hold 19.7 percent and HP will hold 10 percent.

Ingres has a broad array of ''beginning of life-cycle'' products that have been introduced in recent months. These include an intelligent relational database which can perform distributed data management; Windows/4GL, an object-oriented graphical user interface (GUI) development tool; and multi-vendor, multi-database connectivity products.

Under the definitive agreement, EDS and HP have agreed to certain limits on the maximum percentage of outstanding ASK shares they can own. ASK will sell the shares to EDS and HP at an agreed-upon price of $10.78 per share, which represents a 15 percent premium over the average closing price of ASK shares for the 30 trading day period ended Aug. 10, 1990.

Under the agreement with Ingres, a subsidiary of ASK will shortly commence a tender offer for all of the outstanding common stock of Ingres at a cash price of $9.25 per share. The tender offer will be conditioned upon, among other things including the receipt of regulatory approvals, a majority of the Ingres shares being validly tendered and not withdrawn.

The tender offer is to be followed by a merger in which any remaining shares of Ingres common stock will be converted into the right to receive $9.25 per share in cash.

The tender offer is also subject to concluding the financing, through the anticipated sale of ASK common stock to EDS and HP and through bank

funding. ASK stated that its subsidiary has received a commitment from the Chase Manhattan Bank for the financing necessary to consummate the tender offer and the merger.

#90254b0624 09/11/1990 ~Business Wire

WALNUT CREEK, CA (SEPT. 11) BUSINESS WIRE - A lawsuit filed Tuesday in Santa Clara County Superior Court challenges the way Ford forces auto insurance onto a customer and then charges a ''service fee'' in excess of $1,200 for ''arranging'' the deal.

If the court finds that this fee constitutes price gouging, the suit could result in the return of this service fee to all Ford Motor Credit customers for the last three years.

The suit seeks to have all the service charges for ''arranging insurance'' and all other unconscionable charges refunded to all Ford Motor Credit Co.'s customers. In addition, it seeks to restrain Ford from ever conducting this business practice in the future.

The suit arises from the recent experiences of Miguel Valdes, a Contra Costa County man, who, though already fully insured, was, four months after the purchase of a new $8,000 truck, billed a total of $3,364 for an annual comprehensive and theft insurance from an insurance carrier chosen by Ford and an additional $1,200 service charge for arranging the deal.

After challenging the fairness of these charges, Valdes' new Ford Ranger was repossessed, even though Valdes was not in arrears on his loan payments and the truck was fully insured. In addition, Valdes also complains that Ford consistently charged him fees of 24 percent to 84 percent per annum on payments Ford says were late, even though his payments were timely.

Named in the suit are Fremont Ford Sales Inc., of Newark, Calif., where the truck was purchased and Ford Motor Credit Co., a Michigan-based

corporation with offices in San Jose, Calif.

Before filing suit, Valdes made several attempts to meet with Ford in order to discuss his complaints, but Ford refused to speak with him. Lawyer's letters addressed to Ford Motor Credit Co. and Fremont Ford Sales Inc., giving them 30 days to stop these practices and requesting a meeting have also met with no response.

DEERFIELD BEACH, FLA. (SEPT. 11) BUSINESS WIRE - Sensormatic Electronics Corporation (SNSR/NASDAQ) today announced that its Board of Directors has declared a quarterly cash dividend of $0.075 per common share.

The dividend is payable October 16, 1990 to shareholders of record on September 25, 1990.

Sensormatic Electronics Corporation is the world leader in loss prevention technology. Sensormatic's electronic article surveillance (EAS) systems are used primarily by retailers to deter shoplifting.

Sensormatic also manufactures and markets closed circuit television systems for retail, commercial and industrial applications, and its POSdata subsidiary is the fastest growing distributor of point of sale bar code scanners in the United States. All of the company's divisions are linked to the largest worldwide sales and service organization in the EAS industry.

SAN JOSE, CALIF. (SEPT. 11) BUSINESS WIRE - Storage Dimensions, a leading suppler of hard disk and optical storage systems for DOS, Novell Netware, Macintosh and PC Unix/Xenix desktop computer environments, Tuesday announced it will offer a full two-year, ''system-level'' warranty on all internal and external hard disk subsystems.

The new warranty covers all parts and labor necessary to correct any subsystem malfunction, regardless of the point of origination, within two years of the date of purchase.

Because Storage Dimensions manufactures and warrants its products as complete systems, individual components which may carry a lesser manufacturer's warranty (such as the controller, host bus adapter, or the disk drive) are automatically covered under the company's warranty for a full two years.

In addition, Storage Dimensions maintains single-source accountability for all parts of the subsystem. This approach saves customers the problems associated with determining which component vendor is accountable for the failure and, subsequently, the repair.

''Storage Dimensions has always taken a systems approach to product design and manufacturing,'' said Gene Bowles, vice president of Marketing and Business Planning.

''Our support policies are another way our customers benefit from purchasing a complete storage subsystem, as opposed to a number of individual components which must be integrated together.

The new warranty is the latest addition to the company's comprehensive service and support program which includes a pre-replacement policy on any storage system failure within 60 days of the date of purchase.

Founded in 1985, Storage Dimensions is a leading supplier of hard disk and optical storage subsystems over 100 megabytes (MB) for personal/desktop computers and microcomputer-based networks. The company also produces a family of high-performance fileservers.

Storage Dimensions is a wholly owned subsidiary of Maxtor Corp. Maxtor (NASDAQ:MXTR), founded in 1982, is a leading supplier of a high-capacity storage products.

ROY, UT (SEPT. 11) BUSINESS WIRE - Iomega Corp. (NASDAQ/NMS:IOMG) and Dell Computer Corp. (NASDAQ/NMS:DELL), of Austin, Texas, have entered into an OEM agreement under which Bernoulli 44-megabyte internal and external removable mass storage drives will be incorporated into Dell Computer's products for sale through its custom manufacturing and direct-to-the-customer marketing system.

The OEM agreement includes Iomega's Bernoulli ''Insider'' and external single-drive 44-megabyte subsystems, which are part of the new Bernoulli Universal family of products. Each incorporates the Small Computer Systems Interface standard and works with the entire range of PC and networking environments supported by Iomega.

Dell Computer Corp. designs, develops, manufactures, markets, services and supports a complete line of personal computers compatible with industry standards. The company is recognized in independent surveys as having the highest level of customer satisfaction in the industry for its line of personal computers. Dell pioneered the direct marketing of personal computers in 1984.

Iomega Corp., Roy, develops, manufactures and sells high-performance removable mass storage products for desktop computers. Iomega's patented Bernoulli Technology provides unlimited data storage capability by combining the removability of floppy drives with the high capacity and performance of rigid drives.

DALLAS (SEPT. 11) BUSINESS WIRE - As part of an ongoing effort to stimulate sales through distribution channels, Ungermann-Bass Tuesday introduced a standards-based network driver which greatly expands the number of application environments in which Ungermann-Bass products can be integrated.

The Net/One NDIS driver, which was unveiled at the NetWorld Tradeshow in Dallas, provides network support for emerging NDIS-compatible applications such as: IBM OS/2 Extended Edition; DEC PCSA; Sun NFS; and Banyan Vines; in OS/2, Windows 3.0 and DOS environments.

The Net/One NDIS driver is based on the Network Driver Interface Specification developed by Microsoft. It transmits and receives packets between NDIS-compliant protocols and Ungermann-Bass' adapters.

All NDIS options, such as interrupt support, loopback, buffering and network management, are included. Ungermann-Bass' NDIS driver is fast and small. The driver can handle up to 7,000 packets per second and requires only seven kilobytes of memory -- the most efficient NDIS driver available today.

Ungermann-Bass' Net/One NDIS driver is available immediately, for $50 per server, single quantity U.S. list.

Founded in 1979, Ungermann-Bass pioneered enterprise networking -- the sharing of data resources among dissimilar computer systems throughout an organization. Today, Ungermann-Bass is a leading international designer and supplier of standards-based networking hardware and software data communications systems.

DALLAS (SEPT. 11) BUSINESS WIRE - Software Publishing Corp. Tuesday introduced InfoAlliance, a client/server software product designed to enable PC users on a network to transparently access and easily manipulate data located in disparate databases throughout the organization.

Building on client/server technology, InfoAlliance is the first product in a new PC software category called datasource integration. Key elements of

InfoAlliance include a graphical information interface, an easy-to-use application generator and report-writing capabilities as well as a full set of data security and integrity features. The product was announced at the NetWorld '90 conference in Dallas.

Software Publishing Corp., one of the original personal computer software companies, is a leading international supplier of business productivity software for the IBM Personal Computer and compatibles.

The company currently develops and markets a wide range of decision-critical software for accessing and presenting information, including the market-leading Professional and Harvard series and the recently introduced InfoAlliance products.

HAUPPAUGE, NY (SEPT. 11) BUSINESS WIRE - North Atlantic Industries Inc. (NASDAQ: NATL) today announced the receipt of another order for its Navy Standard Teleprinter (NST) AN/UGC- 143A (V).

The order, in excess of $6.3 million, brings the company's total backlog to over $25 million, a record high. To date, orders received for NSTs total more than $34 million.

North Atlantic received approval for full production in late 1989 and has shipped more than 750 units to the Navy. During the five year contract period, which ends June 1994, the company expects the NST program to account for over $100 million in revenues.

The NST is the most technologically advanced teleprinter on the market. The unit has been fully approved by the Navy and is designed to function in any of four configurations. These include Receive Only (RO), Receive-Only with bulk memory storage, Keyboard Send and Receive (KSR) and the sophisticated Automatic Send and Receive (ASR) version.

North Atlantic Industries designs, manufactures and markets computer, computer peripheral, communications and instrumentation products to government and aerospace industry customers. The company is a leading supplier of TEMPEST printers, MIL-SPEC teleprinters and tape storage systems, as well as phase sensitive instruments.

DALLAS (SEPT. 11) BUSINESS WIRE - RAD Network Devices Inc. (RND) announced Tuesday at NETWORLD, the TRE-8M, a token-ring extender that provides a low-cost alternative for connecting up to eight workstations to a remote token-ring LAN with network management support.

The connection is made using a pair of TRE-8Ms connected by a serial communication link, operating at rates up to 128 Kbps, via a point-to-point link or a public network, such as ISDN.

The TRE-8M operates similarly to a MAC level bridge, performing filtering and forwarding. It is completely transparent to all higher level protocols and operates in any token-ring environment -- Source Routing or Non-Source Routing.

In addition, the TRE-8M can be managed by the same Remote Internetwork Management (RIM) station that manages the rest of tS RND bridge/router network, including remote token-ring bridge/routers (RTBs) and local token-ring bridges (LTBs)

The TRE-8M is immediately available from RND and RND-certified distributors. Customers can select a variety of interface options including V.35, V.24, X.21, V.26, RS-530 and a special built-in short-range modem. Prices for the TRE-8M start at $2,099.

The addition of the TRE-8M gives RND the most extensive line of token-ring internetworking products in the market today. All products are fully IBM compatible and can be managed from a single Remote Internetwork Management Station.

LAN/WAN users can connect 4 Mbps token rings to a 16 Mbps backbone token ring, or several remote token rings via T1 lines, including active loop topologies for load distribution and redundancy.

RND is the technological leader in internetworking products for the local and wide area networking markets. Founded in 1987, the company introduced the industry's first combination bridge/router to provide enterprise-wide networking solutions for the global market.

RND's family of bridge/router products allow users to interconnect local and remote LANs into a single, integrated network for a wide range of applications and vertical market sectors. RND is a member of the RAD Group of Companies.

#90254b0637 09/11/1990 ~Business Wire

DALLAS (SEPT. 11) BUSINESS WIRE - Ungermann-Bass Tuesday introduced TCP for NDIS, at the NetWorld tradeshow in Dallas.

The high-performance protocol stack, based on the Network Driver Interface Specification (NDIS) from Microsoft, provides the fastest Transmission Control Protocol/Internet Protocol (TCP/IP) throughput for third-party adapters available in the industry.

''Ungermann-Bass' protocol stacks and applications can now be integrated into existing networks using installed 3COM, Western Digital and IBM adapter cards; and those cards can be managed through a single Ungermann-Bass network management console.

''This simplifies the process of incorporating new users into an enterprise network while preserving their adapter card investment,'' said Roger Bertman, vice president of marketing for Ungermann-Bass.

He added that the NDIS introduction comes on the heels of a push to expand the company's presence through alternate channels and he expects that the NDIS products will enable Ungermann-Bass integrators to break into previously untapped markets.

TCP for NDIS offers throughput of over 650 kilobytes/sec, but even at these high speeds, the powerhouse protocol only requires as little as 80 kilobytes of memory.

The product includes Telnet (a terminal to host protocol) and File Transfer Protocol (FTP) applications, as well as access to LAN Manager and servers.

The stack's network management agent provides configuration, performance and resource management for multiple vendors cards. TCP/IP is supported in DOS, Windows 3.0 and OS/2 operating environments.

NDIS for TCP is available immediately for $395, single quantity U.S. list.

DALLAS (SEPT. 11) BUSINESS WIRE - RAD Network Devices Inc. (RND), Tuesday announced at NETWORLD, the LTB stand alone local token-ring bridge, the first bridge to support the emerging source routing transparent (SRT) bridge standard.

The LTB filters and forwards both source and transparent non-source Routing packets at filtering rates of up to 120,000 frames per second. In addition, by supporting the Spanning Tree Algorithm for transparent bridging, the LTB can be implemented in closed loop topologies, providing built-in redundancy without packet duplication.

Another powerful LTB feature is intelligent traffic control, which allows network managers to build customized, multilayered filters based on packet information such as protocol type and network addresses. These filters provide greater control over network operations and make it possible to fine tune the interconnected LANs for IBM SNA (LU 6.2), NETBIOS, APPC, IPX TCP/IP or any mix of protocols.

The LTB can be managed both locally and remotely using RND's Rim (Remote Internetwork Management) station and the IBM LAN manager. This provides full compatibility with any IBM environment and full support of NetView.

The LTB is available from RND and certified distributors and comes in two models. Prices start at $3,995.

RAD Network Devices is the technological leader in the internetworking products for the local and wide area networking markets. Founded in 1987, the company introduced the industry's first combination bridge/router to provide enterprise-wide networking solutions for the global market.

RND's family of bridge/router products allow users to interconnect local and remote LANs into a single, integrated network for a wide range of applications and vertical market sectors.

DALLAS (SEPT. 11) BUSINESS WIRE - Software Publishing Corp. Tuesday announced its first program for value-added resellers, the Authorized Solutions Provider Program.

The program was announced at NetWorld '90 in conjunction with the introduction of InfoAlliance, the company's new datasource integration software product. The Authorized Solutions Provider Program, one of the primary channels for distributing InfoAlliance, is targeted toward VARs with expertise in developing, servicing and supporting client/server applications.

Software Publishing is targeting VARs with the capability to develop and service customized client/server applications. The company plans to limit the number of participants in the Authorized Solutions Provider Program.

The first product in the new PC software category of datasource integration, InfoAlliance leverages OS/2 PM technology and client/server processing to enable PC users on a network to access and manipulate data from various sources throughout the organization. InfoAlliance integrates data through a graphical information interface and includes an easy-to-use application generator.

VARs participating in the Authorized Solutions Provider Program will receive a base discount off the suggested list price of InfoAlliance. Additional rebates and incentives will be available to VARs who develop and support InfoAlliance applications.

Software Publishing Corp., one of the original personal computer software companies, is a leading international supplier of business productivity software for the IBM Personal Computer and compatibles.

The company currently develops and markets a wide range of decision-critical software for accessing and presenting information, including the market-leading Professional and Harvard series and the recently introduced InfoAlliance products.

VAN NUYS, CALIF. (SEPT. 11) BUSINESS WIRE - Martin Lawrence Limited Editions Inc. (NASDAQ:MLLE) announced Tuesday that it had filed an application with the New York Stock Exchange to list its common stock.

The company's common stock is currently traded on the NASDAQ National

Market System.

In making the announcement, Allen A. Baron, the company's chief financial officer, stated that, ''The company intends to list its common stock on the New York Stock Exchange and is excited by the prospects of being associated with what we believe to be the most prominent stock exchange in the international financial marketplace.''

Baron further stated that the company believes that listing on the New York Stock Exchange also provides the potential for increased visibility for the company.

Martin Lawrence Limited Editions is an integrated publisher, retailer and wholesaler of limited edition serigraphs, lithographs, sculptures and other works of fine art created by internationally renowned and emerging artists.

The company also purchases, for resale, original works of art, as well as limited edition works by recognized artists not published by the company.

DENVER (SEPT. 11) BUSINESS WIRE - Nevada Goldfields Corp. Tuesday announced significant progress in its continued financial restructuring to eliminate the majority of its long-term debt.

When the company's debt restructuring is completed, it will have US $3.7 million in debenture debt and a US $4 million gold loan outstanding, compared with US $25.5 million in long-term and gold loan debt outstanding one year ago.

As of Aug. 31, 1990, approximately US $6.2 million of Nevada Goldfields US $9.9 million convertible debentures had been converted to common stock of the company. Additionally, the remaining debentureholders have granted the company a two-year moratorium on interest payments on the US $3.7 million of debentures outstanding.

Nevada Goldfields has reached agreement with certain European institutions and investors to facilitate two private equity placements. The initial private placement of US $700,000 has been completed. The placement involved the issuance of 1,750,000 shares of the company's common stock at a price of US $.40 per share. Nevada Goldfields will utilize $200,000 of the proceeds to acquire 1 million shares of the common stock of Antioch Resources Ltd. in the first step of the acquisition of Antioch, which has

an advanced stage gold exploration project in Nova Scotia, Canada.

Two European investment institutions have agreed to proceed with the second equity placement of US $6 million on a best efforts basis. A portion of the placement will be used to repurchase and cancel approximately US $7 million of debt pursuant to an agreement reached with the company's banks.

The remaining US $3.5 million will be primarily utilized in expanding mineable reserves in order to continue operations at the company's Kingston facility and to endeavor to expand reserves at its Aurora Mine sufficient to justify expansion of the facility. The offering memorandum is in the final stages of preparation and will require regulatory approval.

Nevada Goldfields recently completed the first phase of mining at its Manhattan Project in Nye County, Nev. The company's Kingston mill, which processes the Manhattan ore, has been placed on standby. The second phase of the Manhattan Project development will include drilling on the Jumbo deposit and layback of the Keystone pit wall to access additional ore. This work will commence upon completion of the private placements.

Nevada Goldfields Corp. is a Canadian public company with two gold mines in Nevada. Its shares trade on The Toronto Stock Exchange under the symbol NGF, on NASDAQ under the symbol NGFCF, and on the Stuttgart Exchange, West Germany, under the symbol NGF SG.

LOS ANGELES (SEPT. 11) BUSINESS WIRE - Texasville Inc., a wholly owned subsidiary of Cine-Source Inc., has delivered the print of ''Texasville'' to Nelson Entertainment, it was announced Tuesday by Cine-Source President Robert Whitmore.

The eagerly awaited sequel to Peter Bogdanovich's 1971 film, ''The Last Picture Show,'' ''Texasville'' will be released nationally on Sept. 28 by Columbia Pictures.

Written, directed and produced by Bogdanovich, ''Texasville'' reunites ''Last Picture Show'' stars Jeff Bridges, Cybill Shepherd, Timothy Bottoms Randy Quaid and Cloris Leachman. Both films were based on novels by Pulitzer Prize-winning author Larry McMurtry.

Cine-Source is in development for three music-driven films: a remake of ''Black Orpheus;'' ''Five-O,'' starring platinum rap musician Kool Moe Dee; and ''Three-Part Harmony, starring Irene Cara. The company also has

recently retained Strategic Growth International Inc., as its financial public relations representative.

An international firm, Strategic will assist Cine-Source in creating interest in the financial community by enhancing communications with investors and shareholders. The company was founded by Wall Street veterans Stanley Altschuler and Richard Cooper.

SANTA ANA, CA (SEPT. 11) BUSINESS WIRE - Amplicon Inc. (NASDAQ:AMPI) Tuesday announced that revenues for the fourth quarter ended June 30, 1990 were up 67 percent to $46,701,000, compared with $28,015,000 for the comparable period in the prior fiscal year.

Earnings before taxes increased 65 percent to $2,803,000, compared with $1,695,000 for the comparable period in the prior fiscal year. Fourth-quarter net income was $1,728,000, or 29 cents per share, compared with $1,401,000, or 22 cents per share, for the year-earlier period.

For the fiscal year ended June 30, 1990, revenues were $158,293,000, as compared with $137,905,000 for fiscal 1989. Net earnings for fiscal 1990 were $5,644,000, or 93 cents per share, as compared with $5,209,000, or 81 cents per share, for fiscal 1989.

Commenting on fiscal-1990 results, Patrick E. Paddon, chairman of the board and president, stated: ''We are pleased with the results achieved during fiscal 1990, particularly with the momentum demonstrated by our strong fourth-quarter results. Throughout the year, our sales force progressively gained needed maturity and we are optimistic as we plan for the future.

''As a company, we continue to be judicious in our use of cash and the management of our balance sheet remains a high priority. With no recourse debt currently outstanding, Amplicon is well positioned within our industry, with the flexibility to make significant future investments in our core business.

''I am confident in the company's ability to continue to achieve high rates of growth and superior rates of return.''

IRVINE, CA (SEPT. 11) BUSINESS WIRE - CORTEX Pharmaceuticals Inc. (NASDAQ:CORXU/CORX/CORXW) Tuesday announced the appointment of Vaughan H.J. Shalson, a 15-year healthcare industry veteran, as its new president and chief executive officer.

Shalson, 44, has been since October 1987 president and chief executive officer at Bio-Response Inc., a San Francisco Bay area biotechnology company recently acquired by Baxter Healthcare. Prior to that, he was vice president marketing for Cutter Biological, a division of Miles Pharmaceuticals.

Previously, he served at Baxter International Inc. in various management positions. He received his bachelor's and master's degrees from Cambridge University in England and, in 1975, a master's in business administration from Harvard Business School.

Shalson is a seasoned and successful healthcare executive whose appointment marks an important milestone for the company. Under his direction, CORTEX looks forward to capitalizing on the tremendous opportunities presented by the rapidly expanding field of neurological pharmaceuticals.

CORTEX, with laboratories in Irvine, is focused on discovery and development of therapeutics for age-related brain and memory disorders including stroke and Alzheimer's disease.

#90254b0667 09/11/1990 ~Business Wire
SACRAMENTO, CA (SEPT. 11) BUSINESS WIRE - Supermail International Inc. (NASDAQ:SPML) second quarter revenues (June 30, 1990) rose more than 50 percent to $1,026,484, from $677,026 last year, while losses declined by more than half to $74,686 from $183,985, according to Christine A. Umbertino, Supermail president.

For the six months ended June 30, 1990, the company recorded a loss of $154,061, down from last year's six month loss of $433,899, while revenues rose more than 53 percent to $1,927,213, from $1,259,252 last year.

Revenue increases were due primarily to newly acquired locations, but also to an increase in check cashing revenue generated by existing core stores. Other service revenue, including electronic mail, money transfer

commissions and pack and ship, declined in line with the company's shift of emphasis to the more profitable and faster-growing check cashing activities.

While losses declined, the company continued to operate unprofitably, primarily as a result of its acquisition activities, which also resulted in the assumption of debt and ''non-compete'' good will, which is written off against operating profits.

Umbertino said that the profit picture will continue to improve as the company continues to acquire additional locations.

The company considers acquisitions the most efficient and fastest method of expansion. Acquisition terms, while involving cash and the assumption of debt, have been exceedingly favorable for the company, according to Umbertino. She pointed out that the company has acquired several entities with an established significant revenue stream, with profit margins of 25 percent or more.

Supermail International Inc. operates 20 financial and communications centers in California and Nevada. These centers offer a variety of services, including check cashing, Western Union money transfers, money orders, peso exchange, lottery and lotto tickets, food stamps, facsimile and electronic mail, as well as packaging, shipping and postal services. The company is also the largest independent Western Union agent in the west.

LOS ANGELES (SEPT. 11) BUSINESS WIRE - The LIVE Specialty Retail Group, a wholly owned subsidiary of LIVE Entertainment Inc. (NYSE:LVE), has named William A. Laupus executive vice president and chief operating officer, it was announced Tuesday by Melvin A. Wilmore, president and chief executive officer for the company.

Laupus will oversee store operations and chain-wide distribution for the 141-store Specialty Retail Group, which includes the 107-store Strawberries Records, Tapes & CDs, the leading specialty music retailer in the New England area and the 34-store Waxie Maxie music chain, a leading specialty music retail chain in the metro-Washington, D.C. and Baltimore areas. He will report directly to Wilmore.

Additionally, Ivan Lipton, who has been with Strawberries for more than 10 years, has been named executive vice president and chief merchandising officer of the Specialty Retail Group, also reporting directly to Wilmore. In his new capacity, Lipton will oversee all buying and sales promotions for the chain.

Prior to joining LIVE, Laupus spent six years with the Zale Corp., a 1,300-store specialty jewelry retail chain, most recently as corporate vice president of stores and operations overseeing 250 stores and 17 regional managers. Previous positions at Zale's included executive vice president and director and senior vice president for the western region.

Prior to Zale's, Laupus spent six years as vice president and store manager with Abraham & Straus Department Stores. In addition, he has held executive positions with John Wanamaker Department Stores, May Company and Gimbel Brothers.

Lipton has spent more than 10 years with Strawberries and was promoted a year ago to executive vice president from vice president, operations. He joined Strawberries in 1980 as a store manager, later serving as a district manager and also as general chain manager.

Said Wilmore: ''Both Bill and Ivan have a wealth of retail experience - at all levels - that makes them invaluable to a broad-based operation such as ours. I look forward to Bill's insights and contributions and to a continuing relationship with Ivan, who has contributed much to the growth and success of this operation. I believe this move puts in place a formidable management team for the LIVE Specialty Retail Group.''

LIVE Entertainment is a diversified entertainment software supplier, distributor and retailer, with headquarters in Los Angeles and is the parent company of Los Angeles-based home video supplier LIVE Home Video Inc.; Minneapolis-based rackjobber Lieberman Enterprises Inc.; the LIVE Specialty Retail Group, with headquarters in Milford, Mass., which includes Strawberries Records, Tapes & CDs, and the Waxie Maxie music chain; and indirect subsidiary VCL/Carolco Communications GmbH, a home video distributor based in Munich, Germany.

PHOENIX (SEPT. 11) BUSINESS WIRE - CyCare Systems Inc. (NYSE:CYS) Tuesday announced its plans to begin a stock repurchase program whereby up to 500,000 shares of its common stock may be purchased in the open market from time to time.

The company stated that its board of directors believes that the recent trading prices of the company's stock have been adversely affected by circumstances relating to the stock market and technology companies generally, and that such prices are not reflective of the company's true value. Accordingly, the company's board has authorized the repurchase program to reduce the number of outstanding shares, thereby increasing earnings per share.

The company intends to use the repurchased shares for employee stock option and incentive plans.

CyCare Chairman and Chief Executive Officer Jim Houtz, stated: ''We view this repurchase program as being an attractive use of the company's available cash to enhance reported per share earnings for our shareholders in future periods. This repurchase program is in addition to the 420,000 shares of common stock repurchased in 1989.''

CyCare is one of the nation's leading providers of computerized information processing systems and services to the healthcare industry with over 4,800 clients, including physicians, medical group practices, faculty practice plans, hospitals and managed care organizations.

Headquartered in Phoenix, the company's business, product and sales/service centers are located in Atlanta; Chicago; Dallas; Detroit; Dubuque, Iowa; Houston; Long Island, N.Y.; Minneapolis; Portland, Ore.; San Antonio; San Diego; Wausau, Wis.; and Woodland Hills, Calif.

#90254b0683 09/11/1990 ~Business Wire

LOS ANGELES (SEPT. 11) BUSINESS WIRE - Nantucket Corp. Tuesday began shipping Clipper 5.0, its application development system for PCs.

The company also announced that Clipper 5.0 now includes a Virtual Memory Management System (VMM), effectively removing any practical limits to the size of DOS applications.

Fulfillment of upgrade orders received to date will proceed in the order they were received and be completed within the next two weeks. Shipments to distributors and resellers will immediately follow. The company is gearing up for its second production run, with current orders already exceeding the first run of 40,000 units.

Nantucket's virtual memory management system automatically stores memory variables and database buffers in a dynamically sized memory space comprised of main memory, expanded memory (LIM 3.2 or higher) and hard-disk swap space. The new memory manager consists of two software subsystems performing different, but related tasks.

The ''segmented'' virtual memory subsystem can address up to 64 megabytes of memory space, in one to 64 kilobyte segments, with the actual maximum amount set by the developer. For database buffering, Clipper 5.0's database driver uses virtual memory up to the available capacity of RAM plus expanded memory, usually eight to nine megabytes.

Complementing the segmented memory is a separate object memory that manages, in the segmented memory, character and array values generated by Clipper 5.0 applications. The object memory subsystem also has garbage collection capabilities, automatically reclaiming memory occupied by values no longer needed. Object memory can address up to 16 megabytes of the segmented virtual memory space.

Clipper 5.0 is the first PC application development system to implement virtual memory management on this scale.

Founded in 1984 and based in Los Angeles, Nantucket is the leading developer of application development systems for microcomputers. Nantucket products are distributed internationally through an office in the Soviet Union, subsidiaries in the United Kingdom, West Germany, Japan and Canada, and a network of full-service distributors throughout the world.

#90254b0684 09/11/1990 ~Business Wire

NEWBURY PARK, Calif. (SEPT. 11) BUSINESS WIRE - Semtech Corp. (ASE:SMH) Tuesday announced results for the second quarter and first half of fiscal year 1991.

The company reported revenues of $4,870,000 and net income of $137,000 in the second quarter ended July 29 compared with revenues of $5,054,000 and net income of $332,000 in the second quarter of the previous year.

Revenues of $9,331,000 and net income of $192,000 were reported for the first half of fiscal 1991 compared with revenues of $9,681,000 and net income of $579,000 in the like period of the previous year.

Net income for the current quarter was negatively impacted by $55,000 on lower sales volume and $73,000 in price reductions on commodity products

compared with fiscal 1990. European operating expenses were about $20,000 higher in the second quarter than the previous year.

Additionally, income taxes were $22,000 higher in the second quarter compared with the previous year. Income was higher in Europe during the quarter, which is currently subject to a higher tax rate than the United States because of Semtech's domestic net operating loss carryforward.

Although results for the second quarter are below the results for the second quarter of the previous year, revenues and net income have improved in the past two quarters. Balance sheet ratios continue to improve with the current ratio at 4.8, quick ratio at 2.8 and inventory turns at almost 3.1.

The company reported a cash increase of $550,000 in the second quarter compared with a cash decrease of $200,000 in the second quarter a year ago.

New orders of $5,260,000 were recorded in the second quarter compared with $5,713,000 in the first quarter and $4,387,000 in the second quarter a year ago. The year-to-date book-to-bill ratio is 1.18. The company reported that although new order rates are above the previous year, more orders are being placed for deliveries in the next six to 12 months.

Orders on new products, including microelectronics, have improved steadily over the past six months.

Semtech announced on Aug. 20, 1990, that it has signed a letter of intent with Lambda Electronics Inc. to purchase Lambda Semiconductors located in Corpus Christi, Texas, and Reynosa, Mexico. Semtech said the transaction is conditional upon completing a definitive purchase agreement by Sept. 30 1990.

Subsequent to the completion of the acquisition, Semtech plans to consolidate its silicon foundry business in Corpus Christi. All products produced at Semtech's wholly owned subsidiary, Polycore Electronics Inc., will be moved after safety stocks have been built for all customers and the products have been requalified at the Corpus Christi facility.

Semtech said it expects the move to be totally transparent to its foundry customers.

During the third quarter, Semtech said it expects to record a one-time non-operating charge to earnings of approximately $300,000 to write off the remaining unutilized assets of Polycore Electronics due to its relocation to the Corpus Christi facility.

The building containing Polycore's operations will be sold by Semtech. It is believed the value of the building may exceed net book value, but no

gain can be ascertained with certainty until a sale is completed.

Semtech Corp. was founded in 1960 and is a leading international manufacturer of high-quality silicon rectifiers, high-voltage monolithic capacitors, power hybrids and related devices. Semtech focuses its efforts on producing these precision components for military and commercial customers.

COSTA MESA, CA (SEPT. 11) BUSINESS WIRE - Emulex Corp. (NASDAQ:EMLX), a leading supplier of high-performance storage and networking products for the computer industry, has announced the first in a series of microchip controllers supporting the SCSI-2 standard.

The FAS200 is a high-performance single-microchip controller that provides easy implementation of the emerging fast SCSI-2 standard for computers and peripherals.

It offers sustained synchronous data-transfer rates between the computer and the peripheral device of up to 10 megabytes per second, which is more than twice the rate of present SCSI microchips, according to Kenneth Davis president of Emulex Micro Devices, an Emulex division.

SCSI stands for Small Computer Systems Interface and is an intelligent computer-interface bus for adding peripheral devices, primarily disk or tape-storage subsystems, to computer systems. Its use as a standard interface is growing rapidly among computer vendors, and Emulex is a leader in development of high-performance SCSI products in microchip form for storage peripherals.

The demand for faster performance has led to the fast SCSI-2 standard, which offers a more sophisticated and higher-performance bus and will be

put into high-end systems as soon as possible and eventually used in personal computers.

Emulex designs, manufactures and markets high-performance computer-enhancement products in the areas of system/network connectivity and storage control. Emulex addresses the DEC and IBM PC marketplaces, as well as markets for industry-standard protocols such as SCSI, TCP/IP and X.25.

The company sells worldwide to end users, OEMs, systems integrators and value-added resellers through direct-sales and indirect-distribution channels.

COSTA MESA, CA (SEPT. 11) BUSINESS WIRE - Emulex Corp. (NASDAQ:EMLX), a leading supplier of system and network-enhancement products for the computer industry, has announced two new personal-computer communications products.

The PC01 Smart UNIX Serial Card is designed to enable personal-computer workstations to be used as platforms for multiuser UNIX or XENIX systems, and the DCP-286/MC is a powerful front-end communications processor for personal-computer workstations. Both products are designed for use in IBM or IBM-compatible personal computers.

According to Jon Asahina, Emulex's director of communications marketing, ''Emulex is committed to offering for our customers high-performance connectivity solutions for multivendor environments by supplying products that support widely used computer-bus and network-protocol standards.

''These new PC communications products for IBM PC AT or Micro Channel personal-computer workstations demonstrate that commitment.

''The PC01 allows a PC running the popular UNIX operating system to be used as a multiuser platform for a number of users. It acts as a terminal controller, handling all character input/output and is ideal for use in powerful 386- or 486-based desktop systems.

The PC01 UNIX Serial Card is available now for volume shipment to value-added resellers (VARs) and large end-user customers. The list price is $1,195 for the eight-line board and $1,595 for the 16-line board.

First units of the DCP-286/MC communications board will be available in

September. Primarily intended for original equipment manufacturers (OEMs) it carries a list price of $1,895 for the standard four-port package.

Emulex designs, manufactures and markets high-performance computer-enhancement products in the areas of system/network connectivity and storage control. Emulex addresses the DEC and IBM PC marketplaces, as well as markets for industry-standard protocols such as SCSI, TCP/IP and X.25.

The company sells worldwide to end users, OEMs, systems integrators and value-added resellers through direct-sales and indirect-distribution channels.

AGOURA HILLS, Calif. (SEPT. 11) BUSINESS WIRE - Fortune Petroleum Corp. (NASDAQ:FPEX) announced Tuesday a new oil and gas field discovery on its Montebello Prospect located near the city of Montebello on the east side of the Los Angeles Basin, a major petroleum province.

Fortune, along with a consortium of other companies, farmed out its Montebello Prospect to a group of companies with Trio Petroleum Inc. of Bakersfield as operator for the group.

By farming out its 20 percent working interest, Fortune retains a 2 percent carried working interest in the new well, Benton Montebello 2-6 Redrill, until payout of the drilling investment when it will convert to an 8 percent working interest.

Trio Petroleum as operator drilled the exploratory well to a total depth of 9,550 feet and completed in one of three productive zones at a rate of 175 net barrels per day 35 API gravity oil and approximately 65 mcf gas per day at pressures and rates that were continuing to improve when the test period was terminated and the well was shut in until necessary permits are obtained to place the well on production.

This is the first of several wells anticipated within the 500 acre land block. Reserves remain to be established by additional drilling.

Working interest participants in the Benton Montebello 2-6 Redrill in addition to Trio Petroleum include Benton Oil and Gas, a Ventura, Calif.-based company; Transpacific Exploration Inc. with offices in Irvine Calif; and Oregon Natural Gas Development Corp. out of Portland, Ore.

Fortune Petroleum is an independent oil and gas exploration and production company with its principal properties located in California.

#90254b0696 09/11/1990 ~Business Wire

HOUSTON (SEPT. 11) BUSINESS WIRE - Enron Corp. Tuesday announced that agreements have been signed for power sales, joint venture operations and gas supply for Enron's Teesside, United Kingdom power project, which is one of the world's largest gas-fired, combined cycle gas-turbine heat and power (CHP) projects.

An affiliate of Enron will design, construct and operate the 1725 megawatt(Mw) independent power facility to be located at ICI Chemicals & Polymers Limited's Wilton Works plant near Redcar, on Teesside in Northeast England.

The project, which is dependent on several important pending governmental permission and consent agreements, will add approximately 3 percent to England and Wales' power generating capacity and will supply a substantial portion of ICI's steam needs at Wilton.

Power sales agreements have been executed for all 1725 Mw of firm capacity. Four regional electricity companies and ICI are the primary

purchasers. The regional electricity companies and their respective power commitments are:

Midlands Electricity	500 Mw
Northern Electric	400 Mw
South Wales Electricity	200 Mw
South Western Electricity	200 Mw

ICI has committed to 257 Mw as well as receiving the steam production from the power facility. A marketing company jointly owned by Enron and ICI has committed to the remaining 168 Mw for additional sales to the United Kingdom electricity market.

The power sales agreements have an initial term of 15 years beginning April 1, 1993 with options to extend. The power price provisions of these agreements include fixed escalating components to cover the project's non-fuel costs and effectively pass through the project's primary fuel costs.

The four regional electricity companies are expected to assume a 50 percent equity ownership, with Enron retaining the remaining 50 percent ownership in the joint venture. ICI may purchase up to 10 percent of the equity from Enron after the plant commences commercial operation, and will have as site owner, a special shareholder's interest.

A long-term gas supply contract has been signed with the Amoco/Gas Council Group whose members are affiliates of Amoco Corporation, Amerada Hess Corp. and British Gas Plc. The contract provides for approximately 300 million cubic feet of natural gas per day to be delivered from the North Sea to Teesside for a period of 15 and 1/2 years beginning April 1, 1993.

Price terms on the gas and power contracts were not disclosed.

The natural gas is to come from the development of two new fields, Everest and Lomond, in the Central Graben area of the North Sea. The fields lie about 140 miles east of the U.K. in about 300 feet of water. Everest lies principally in Blocks 22/9 and 22/10a with an extension into Block 22/14a. The Lomond field lies in Block 23/21.

Gas is to be piped to Teesside via a new pipeline system called CATS, the Central Area Transmission System. The proposed CATS system is a 36-inch diameter line with a peak capacity of approximately 1.4 billion cubic feet per day.

The system would be initiated by the development of Everest and Lomond but would be designed to allow significant transportation of gas from other fields yet to be developed in the Central North Sea. Participants in the joint venture formed to develop and own the CATS system are the same as

those in Amoco/Gas Council Group.

Plans for the development of the field and CATS pipeline are subject to approval of the Secretary of State for Energy.

Separate Enron/ICI joint ventures will have rights to transport an additional 300 MMcf/d of gas through the CATS pipeline, and have certain rights to the liquids contained in the natural gas.

The joint venture power company has entered into a fixed price turnkey construction contract with an affiliate of Enron at a purchase price of 595 million pounds (equal to approximately $1.1 billion U.S. dollars).

The fixed price excludes certain U.K. power grid interconnection fees and the pipeline connection as well as interest during construction, financing and legal fees and working capital requirements. Commercial operation of the facility is expected to occur on or before April 1, 1993.

General site contractor bids from U.K. firms have been received and awards are scheduled to be announced shortly in order for site preparation to begin. Major construction activity will commence upon the receipt of relevant permissions from local and national authorities.

The power generation equipment will consist of eight combustion turbines and two steam turbine packages designed by Westinghouse Electric Corporation. Heat recovery boilers for the project will be provided by a U.K. subsidiary of Rolls Royce Plc.

Westinghouse will provide engineering and equipment from its facilities in the U.S. and through its relationship with Mitsubishi Heavy Industries in Japan, and Brush Electric in the United Kingdom.

Financing for the project is in progress. The permanent financing is expected to be non-recourse and off-balance sheet to the joint venture owners and is expected to be underwritten by major international banks.

''We are extremely pleased to bring this project to contractual reality,'' said Kenneth L. Lay, chairman, president and CEO of Enron Corp. ''This project not only represents a major new market for our already large U.S. power generation business but also signifies the role that natural gas can play in providing clean, cost-efficient energy in the independent power production market worldwide.''

Lay also noted that while the project earnings will begin in 1993, certain project development fees are expected to be recognized in income beginning in 1990.

''This combined heat and power project significantly improves ICI's cost

base and strengthens its operations on Teesside as well as improving the environmental air quality in the Northeast England area,'' said Ralph Hodge, chief executive of ICI Chemicals & Polymers Limited.

Hodge also noted that the local area will benefit from the substantial employment to be created during the development of the gas fields and pipeline system and the construction of the power station.

''The overall energy efficiency of this proposed project will be greater than existing fossil fuel power stations,'' said Robert C. Kelly, vice chairman and chief development officer of Enron Power Corp., the Enron subsidiary developing the plant.

''There also are major environmental benefits as natural gas produces virtually no sulphur or particulates and significantly less carbon dioxide emissions than other traditional fuels used for power generation,'' Kelly said.

Enron Corp., America's leading natural gas company with approximately $10 billion in revenues and $9 billion in assets, operates the largest natural gas transmission system in the United States, markets natural gas liquids, crude oil and refined products worldwide, owns 84 percent of Enron Oil & Gas Co., one of the U.S.' largest independent (non-integrated) natural gas production companies, and also is one of the largest independent producers of electricity in the U. S. with extensive experience in combined heat and power installations.

#90254b0699 09/11/1990 ~Business Wire

VALHALLA, NY (SEPT. 11) BUSINESS WIRE - ComponentGuard Inc., now the world's leading brand name consumer warranty program, has been officially awarded the AAFES (Army & Air Force Exchange Service) military contract, confirmed company Chief Executive Officer Robert Minnick.

The company is a publically traded corporation traded Over-The-Counter, (OTC - PLUG).

AAFES is ranked the 11th largest retailer in the world. For the fiscal year 1989, AAFES' overall worldwide sales were $6.8 billion; $3.71 billion in the continental United States and $3.1 billion overseas. Sales of items to be covered by extended warranties (electronics, cameras, computers, appliances) was approximately $1.36 billion or 20 percent of total sales. AAFES served 14 million authorized patrons in 1989.

The military contract now enables ComponentGuard to offer its warranty protection to the active duty military, government employees and retirees who shop at the 265 military exchanges worldwide, a first in the consumer electronics warranty business, notes Minnick. Of that total, 171 are located in the continental United States and 94 overseas.

ComponentGuard has also been given approval to roll out its program to all Marine Corp. exchanges, as well as the Coast Guard Exchange System.

ComponentGuard's unique access to the worldwide availability of repair service centers located conveniently to the military bases and inovative approach to packaging consumer warranties just like any other consumer product were key factors in its acceptance by the military.

One of the newest features that made the ComponentGuard program a winner was its special ''800'' number arranged through AT&T International. With this innovative feature, warranty owners in the overseas military market may dial the local AT&T operator who in turn will connect them via satellite to the ComponentGuard's 800 number. Wherever the consumer is, they are just a local call away from knowledgeable customer service personnel.

In addition to its newest offerings in cameras and sporting goods, ComponentGuard offers warranty programs for virtually every consumer electronics product available, including car stereo and mobile electronics audio and video products, and key major appliances.

VALHALLA, NY (SEPT. 11) BUSINESS WIRE - ComponentGuard Inc., the world's leading brand name extended warranty service plan, has announced the warranty industry's most comprehensive service plan available over the counter to the consumer at retail, according to company chief executive officer Robert Minnick.

The company is a publically traded corporation traded Over-The-Counter, (OTC - PLUG).

Called ComponentGuard's PROTECTION PLUS, this latest in off-the-shelf packaged warranties offers these outstanding benefits for today's value-conscious and on-the-move consumer.

- A toll-free CONSUMER ANSWER LINE, similar in concept to the G.E. answer

line, is staffed by friendly experts whose guiding philosophy is, ''There's no such thing as a dumb question.'' Consumers' anxieties over equipment hook-up, specific programming features (in VCRs and the like), product compatibility (e.g., computers and peripherals), and routine maintenance questions are handled in a helpful, non-threatening fashion by skilled professionals.

- PURCHASE PROTECTION is provided for a full 90 days from date of purchase, covering loss, theft, fire, or accidental breakage of new product. - FREE ANNUAL ''SPEC CHECK'' entitles consumers to bring any audio or video product (except projection TVs) to a service center to determine if the product is meeting a manufacturer's claimed specifications. Products are 'tuned up' to spec.

Product categories covered by The ComponentGuard PROTECTION PLUS Plan include the following: Audio/Video (1, 2 and 4-year totals); Car Stereo (3 year totals); and home office (1 and 2 year).

To validate the ComponentGuard PROTECTION PLUS Plan, the consumer simply returns the GuardCard enclosed in the ComponentGuard package. The company then imprints it with the customer's name, account number and service term. In addition, the company provides special stickers to attach to the equipment.

MERIDEN, CT (SEPT. 11) BUSINESS WIRE - Cenvest Inc. (NASDAQ:CBCT), a bank holding company for Central Bank, First Central Bank, and Meriden Trust and Safe Deposit Co. announced Tuesday that its Chairman, James H. Doak Jr., has informed the board of directors of his intention to retire at year end and that a committee of the board has been formed to search for his successor.

Doak will complete a 31 year career with the institution which was The Meriden Savings Bank when he joined it in early 1960. During his 13 year tenure as chief executive officer the institution has grown in assets from $150 million to $850 million and became a publicly owned multibank holding company.

''It has been challenging work especially since much of it was concentrated in the recent period of extraordinary change and deregulation within the banking industry,'' said Doak. ''I am grateful,'' continued Doak, ''to the board of directors, the staff and officer corps of the institution, and the loyal customers we have served for the opportunity to do meaningful work that has measurably helped the communities we serve.''

DALLAS (SEPT. 11) BUSINESS WIRE - Proteon Inc. Tuesday announced a new series of high performance drivers that enable its ProNET-4/16 network interface cards (NICs) to exploit virtually the full bandwidth of a 16 Mbps token ring network.

Working in tandem with ProNET-4/16's bus master architecture, Proteon RapiDrivers set a new standard for PC LAN performance.

In tests run with Novell NetWare 386, ProNET-4/16 has demonstrated throughput of more than 15 Mbps as measured by Perform-3, the industry standard benchmark for Novell NetWare performance. RapiDriver lets users access up to 95 percent of the 16 Mbps network bandwidth for their applications, giving them the fastest response possible in demanding file server environments.

''Users of such high performance networking environments as Novell NetWare and Microsoft LAN Manager are looking for physical layer connectivity products of equal caliber,'' said Carl Blume, Proteon product manager for network interface cards. ''With RapiDrivers, our ProNET-4/16 products deliver the full performance of 16 Mbps token ring.''

RapiDrivers more than double the performance of the ProNET-4/16 family.

In initial Perform-3 tests under NetWare 386, the Proteon p1990 EISA network interface card achieved throughout 1807 KiloBytes per second, or 15.3 Megabits per second, and the p1390 PC AT network interface card was measured at 1467 KiloBytes per second, or 12 Megabits per second.

The drivers adhere to Novell's Open Data-Link Interface (ODI) standard and support packets as large as 4 KiloBytes. The drivers are designed for complete certification by Novell.

Similar performance gains are achieved for all networking environments supported by Proteon, including Microsoft LAN Manager, Banyan VINES and the IBM PC LAN Program.

All RapiDriver editions use a new beta release of microcode for the Texas Instruments TM$380C16 processor as well as Proteon-developed bus transfer techniques that improve the speed and efficiency of sending data across the PC's I/O bus.

RapiDrivers are designed specifically for ProNET-4/16 network interface cards that support the Micro Channel, EISA and PC AT bus architectures. They come standard with the appropriate ProNET-4/16 network interface cards or cost $75 (US list) if sold separately. They are backward compatible with all ProNET-4/16 network interface cards and will be available by the end of 1990.

Proteon is a leading supplier of reliable token ring solutions that support today's critical applications. Proteon's PC LAN solutions are designed to provide exceptional price/performance and increased network availability which results in a low cost of network ownership.

DALLAS (SEPT. 11) BUSINESS WIRE - Proteon Inc. Tuesday expanded its high performance 4/16 Mbps family with the introduction of the p1890 ProNET-4/16 Micro Channel Adapter.

Designed for file server and high performance networking applications, the p1890 provides greater throughput at a lower price than competitive IBM 16/4 adapters. The p1890 also offers the industry's first lifetime warranty for 4/16 Mbps token ring.

The p1890 Micro Channel Adapter uses a nng interface circuit based on the Texas Instrument TMS38053 chip and has been extensively tested by Proteon for interoperability with the IEEE 802.5 standard and the IBM 16/4 Adapter/A.

#90254b0711 09/11/1990 ~Business Wire

LONDON (SEPT. 11) BUSINESS WIRE - The board of TVS ENTERTAINMENT PLC has declared an interim dividend of 3.0 pence per ordinary share for the first six months of 1990.

Group profits are 7.8 million pounds sterling before exceptional items and taxation, against 13.4 million pounds sterling for the corresponding period of 1988-89. The fall is due to increases in the Channel Four subscription (2.4 million pounds) and the Exchequer Levy (4.8 million pounds) which cut into the profits of TVS Television.

TVS Television's share of Net Advertising Revenue rose during a difficult time for the industry.

The company's U.S. Television production subsidiary, MTM Entertainment, made a trading profit of 0.7 million pounds, after making a trading loss of 8.9 million pounds in the eight months ended Dec. 31, 1989. Staff numbers have been reduced by 25 percent and development and overhead expenditure by 45 percent over the comparable period.

New production and marketing strategies have been introduced. New series include ''Evening Shade,'' a comedy by the creators of ''Designing Women'' and starring Burt Reynolds.

The interim statement will be sent to shareholders. Copies will be available for inspection at the company's head office, 84 Buckingham Gate, London, SW1E 6PD.

The Chairman's Statement Results For The Six Months Ended June 30, 1990
Unaudited figures for the six months ended 30 June show a group profit of 7.8 million pounds before exceptional items and taxation, compared with 13.4 million pounds in the six months ended 30 April 1989. Last year, in common with a number of other television companies, TVS ENTERTAINMENT changed its accounting reference date to 31 December. The latest interim figures do not therefore cover the same calendar months as in the previous

year.

These results relate to an exceptionally difficult period for the television industry. They also underline the strength and resilience of TVS Television.

TVS Television

The trading profit of UK Television is 9.9 million pounds against 15.5 million pounds in the six months to 30 April 1989. The difference is more than accounted for by substantial increases in two areas of cost outside our control. Our Channel Four subscription, which is geared to advertising revenue in the previous year, increased by 2.4 million pounds (17.9 percent) to 15.8 million pounds. The Exchequer Levy went up by 4.8 million pounds (133.3 percent) to 8.4 million pounds. The higher Levy is the result of a change in the basis of calculation from the beginning of this year (the Levy is now based mainly on advertising revenue, not on profit) coupled with the scheduling of some of our major programs.

UK Television's turnover is down 8.7 percent to 105.4 million pounds. Program sales are 13.5 million pounds lower, primarily because of the scheduling of certain programs. Well received TVS productions transmitted in the first half of this year included ''Perfect Scoundrels,'' a comedy drama starring Peter Bowles and Bryan Murray; ''Motormouth,'' the weekend children's series; and a factual children's series ''Art Attack.''

TVS Television's share of net advertising revenue (''NAR'') in the first six months was 11.5 percent, compared with 11.3 percent for the six months ended 30 April 1989. NAR increased by 3.8 percent between the first six months of 1989 and the first six months of this year against an average increase for the industry of 2.9 percent. These figures are a tribute to TVS Television's sales and marketing skills and the quality of its programming.

MTM Entertainment

The US domestic syndication market on which MTM depends for profitabe exploitation of successful series originally made for national television networks, remains difficult. Unfortunately, none of the new MTM series - ''Capital News,'' ''FM,'' and ''City'' - reached its target audience figures and none was renewed by the networks. ''Newhart'' also ended eight successful years on the network as an MTM produced program.

MTM has high hopes for ''Evening Shade,'' a new series starring Burt Reynolds, created, written and produced by Linda Bloodworth-Thomason and Harry Thomason. This successful husband and wife team who were responsible for ''Designing Women'' have been joined at MTM by Graham Kerr whose ''healthy'' cooking program has been sold in advance to sufficient

US independent television stations to justify production. This is MTM's first series for the first-run syndication market. MTM is negotiating new three year agreements with the talented Paul Haggis, a writer and producer of the popular ''thirtysomething,'' and the creative partnership of Mark Egan and Mark Solomon, executive producer of ''Newhart.''

MTM made a trading profit of 0.7 million pounds in the first half of this year, compared with 0.8 million pounds in the six months to 30 April 1989. In the remainder of 1989 MTM made a trading loss of 8.9 million pounds. The decline in profitability was arrested by a rigorous reduction in overhead and development costs and strict budgeting. Comparing the six months to 30 June 1990 with the six months to 30 April 1989, production and administrative staff have been reduced by 25 percent and development and overhead expenditure has been reduced by 45 percent.

#90254b0713 09/11/1990 ~Business Wire

IRVINE, Calif.(SEPT. 11) BUSINESS WIRE - Matsushita Avionics Development Corp. (MADC), a company that will develop in-flight communications equipment for airline passengers, has been established by Matsushita Electric Industrial (MEI) Co. Ltd., Osaka, Japan.

''Avionics'', as airline passenger information and communciations equipment is known, includes audio systems, television and video systems, as well as in-flight telephones and facsimile units. The demand for avionics equipment is on the rise, due primarily to the current expansion of aircraft manufacturing.

Matsushita entered the worldwide avionics market in 1981, with the establishment of Masushita Avionics Systems (MAS) in Seattle. MAS currently holds the leading market share of in-flight audio systems.

''The new company will work closely with the U.S. aircraft and airline industry on creating an advanced, computerized audio-video entertainment and passenger management system for planes of the future,'' explains Richard Kraft, president of Matsushita Electric Corp. of America (MECA), MEI's North American subsidiary.

''Being in Irvine puts us very near our customers. MADC is an example of Matsushita's worldwide commitment to localized research and development activities.''

MADC, which officially began operations in September, is MEI's seventh U.S. research laboratory. Matsushita's U.S. labs are involved in such projects as speech recognition and sythesis, digital image processing and high density data recording, communciation systems, advanced computers, advanced point-of-sale terminals and HDTV. Equipmemt developed by MADC will be produced in Japan by MEI's Audio Video System Division.

MECA, with 11,000 employees in North America and 29 subsidiaries and affiliates, including 15 factories, markets and produces both consumer and industrial products. MECA's consolidated sales for 1989 reached $5.4 billion.

Established in 1918, MEI is the world's leading manufacturer of consumer and industrial electronics products. Annual sales for the fiscal year ending March 1990, reached $37.75 billion.

MEI has more than 190,000 employees worldwide, with 120 factories and sales offices in 38 countries. Matsushita's 14,000 different electronics products are marketed under the Panasonic, Technics, Quasar and National brand names.

WAYNE, Pa. (SEPT. 11) BUSINESS WIRE - ECC International Corp. (NYSE: ECC) Tuesday announced that it had signed a new revolving credit agreement with its lead banks, Mellon Bank East, Sun Bank N.A. and Daiwa Bank Ltd.

Under terms of the new agreement, the company's revolving line of credit was increased from $10 million to $20 millon. The company is expecting to see an increase in foreign contracts this year and therefore also negotiated an increase in its standby letter of credit facility.

George W. Murphy, president and chief executive officer, stated that the new banking arrangement would comfortably support the continued growth the company expects to achieve in its new fiscal year, which began July 1.

For the year ended June 30, ECC reported net income of $3,129,000, or 55 cents per share, on record sales of $55,867,000.

The company completed the 1990 fiscal year with an order backlog, including government exercisable production options, of $188.6 million.

ECC International Corp. is a world leader in the design, research and

production of simulators and related training programs for crew, operator and maintenance training.

Through its headquarters and Instructional Systems Development Group in Wayne; its Systems Design and Production Center in Orlando, Fla.; and through a wholly owned subsidiary, ECC Simulation Ltd. in Shoreham, England, the company provides a wide range of products and services used by all branches of the U.S. Department of Defense and by armed forces in 25 foreign countries.

WHITE PLAINS, N.Y. (SEPT. 11) BUSINESS WIRE - New features in two IBM typewriters announced Tuesday effectively raised the level of function and performance which businesses should be expect from compact and basic electronic typewriters.

The IBM Wheelwriter(a) 15 and Personal Wheelwriter 2 both include more capabilities than IBM's previous compact and basic office typewriters--and do so at same price.

''The level of price/performance our customers want and expect from typewriters continually increases,'' said Marvin L. Mann, chairman of the IBM's Information Products subsidiary in Lexington, Ky. ''Advances in technology enable us to incorporate richer function in our products while maintaining the same suggested price.''

The enhancements include more flexibility in formatting individual documents; the capability to store a variety of formats for forms, letters and envelopes; versatile letter and line spacing to enhance the look and legibility of documents; and other features designed make typing simpler, easier and faster.

DALLAS (SEPT. 11) BUSINESS WIRE - AT&T Computer Systems Tuesday announced new products and services that make it easier for customers to manage computers and widely dispersed networks made up of many vendor's products.

''Networked computers are often located in places like retail shops where

there's little technical expertise,'' said Scott Perry, vice president of marketing and strategy. ''AT&T Computer Systems is offering a menu of management systems and services that let customers manage these complex, remote networks from a central site. The offerings are part of a framework called Networked Computing Support, which will help customers cope with a range of management needs from routine operations to disaster recovery.''

The new AT&T StarGROUP(R) Systems Manager provides an easy- to-use graphical interface for managing various networks, systems and routers, including devices that use the Simple Network Management Protocol (SNMP). When the Systems Manager is used with other StarGROUP tools -- Computer Manager, Network Manager and Router Manager -- customers can manage a nationwide network of computers from a single location. AT&T's Remote Management Package monitors temperature and enviromental conditions around AT&T Intel-based UNIX(R) servers in remote locations.

PHILADELPHIA (SEPT. 11) BUSINESS WIRE - Philadelphia's Whitman's Chocolates, whose support of American forces overseas dates back to World War I, is sending more than 12 tons of boxed sweets to forces stationed in the Saudi Arabian desert, Whitman's President Jay G. Shoemaker announced Tuesday.

Whitman's is sending more than 50,000 individual boxes of candy -- including its patented Sampler collection -- which will be delivered by military carriers, Shoemaker explained.

He added that the Saudi shipment is in keeping with a company tradition of supporting American forces overseas with a delicious taste of home. ''During both World Wars, Whitman's shipped candies to our soldiers, and many were accompanied by notes of support from our employees. We're proud to continue that fine tradition.''

Whitman's employees are enclosing personal greetings and best wishes, and Philadelphia residents are also being invited to send notes which will be forwarded with the candy.

The candy communications should be addressed to Whitman's Chocolates c/o Treats for Troops, P.O. Box 6070, Philadelphia, Pa. 19114.

Shoemaker said the company had some concerns about shipping chocolates to

the troops, but that the military specifically asked for the sweets.

''The chocolates will be sent in refrigerated storage, so it should be fine until it gets off the plane in Saudi Arabia,'' he explained, ''and then our guess is it won't have time to melt.''

The first shipment of candy is scheduled to leave Philadelphia, Tuesday, Sept. 11, for Fort Bragg, N.C.

Whitman's Chocolates is a division of PET Inc., a Whitman Co.

LITTLETON, MA (SEPT. 11) BUSINESS WIRE - Alliant Computer Systems Tuesday announced an easy and cost efficient way to let users in a Digital VAX local area network access an Alliant supercomputer.

Alliant's new DNX/LAT capability enables FX/Series supercomputers to provide Digital's Local Area Transport (LAT) services to VAX users in a network. LAT is Digital's proprietary network protocol that allows network access for VAX terminals using low cost LAT terminal servers.

DNX/LAT reinforces Alliant's position as a leader in providing supercomputing resources to VAX users. In addition to DNX/LAT, Alliant offers a VAX integration package which includes DNX, a DECnet-compatible working package; DNX-Batch, for batch submission from VAX systems; EDT+, a full-featured EDT editor; and VCL, a DCL command shell.

DNX/LAT provides an easy migration path between Alliant's multiprocessor UNIX environment and the VAX/VMS world. It supports LAT terminal server print services, allowing users to print from both the Alliant supercomputer or VAX host computer.

DNX/LAT also supports remote login functions, letting remote VAX users access supercomputer resources from any location over a telephone connection.

To manage LAT host services and network statistics on the Alliant FX/Series, DNX/LAT includes a LATCP network management program. DNX/LAT is available for Alliant supercomputers running Concentrix 5.0 (or higher) or Concentrix-2800 2.0 (or higher), Alliant's UNIX operating system. DNX/LAT uses a standard Ethernet controller and can run concurrently with TCP/IP.

DNX/LAT is available on the FX/2800 and costs from $15.25K depending on

FX/2800 configuration.

Alliant Computer Systems Corp. manufactures standards-based parallel supercomputers with visualization tools that enable scientists and engineers to quickly interpret and solve complex problems.

LOS ANGELES (SEPT. 11) BUSINESS WIRE - Century MediCorp (NASDAQ:CEMC) Tuesday announced that it expects to report that revenues for the year ended June 30, 1990 will be approximately $60,000,000, an increase of approximately 36% from the $43,760,567 in revenues reported in the prior fiscal year.

Net income for the year will be approximately $1.7 million or $.38 per share, including a net operating loss carry-forward of approximately $600,000 or $.12 per share. In the prior fiscal year, net income was $606,542 or $.15 per share including a net operating loss carry-forward of $206,224 or $.05 per share. All earnings per share calculations reflect the one-for-five reverse stock split effected May 11, 1990. Management believes that the substantial increase in net income is primarily the result of increases in enrollment at AmeriMed and its acquisition of VIP Health Plan during April, 1990.

According to Jacob Terner, M.D., President, ''With regard to the outlook for the fiscal year ending June 30, 1991, in that Century MediCorp's revenues are currently running at the annualized rate of approximately $90,000,000, we expect that for the year as a whole, both revenues and profitability will be up significantly over fiscal 1990.''

The Company noted that these are preliminary estimates and audited figures will be available by the end of this month.

Century MediCorp operates as a health maintenance organization through its wholly-owned subsidiaries, AmeriMed, based in Pasadena, VIP Health Plan in Oxnard and Loma Linda Health Plan in San Bernardino, all California-licensed HMOs. The HMOs provide comprehensive health care services to their approximately 80,000 Southern Californian members as an alternative to traditional indemnity medical insurance coverage. Century MediCorp also operates East Los Angeles Doctors Hospital, a 128-bed acute care hospital facility.

#90254b0729 09/11/1990 ~Business Wire

NEW YORK (SEPT. 11) BUSINESS WIRE - ECC Group plc (NASDAQ:ECLAY) announced Tuesday that a second interim dividend of 13.0 pence per ordinary share or 51.99 pence per American Depositary Share (inclusive of U.K. tax credit) was declared for the fifteen months ending December 1990.

The dividend is payable on Dec. 14, 1990 to shareholders of record on Oct. 18, 1990. The payment date for holders of American Depositary Shares is Dec. 21, 1990. One American Depositary Share equals three ordinary shares.

The payment of a second interim dividend this year follows the company's decision, announced in December 1989, to change its year end from Sept. 30th to Dec. 31st, commencing in 1991. The final dividend for fiscal 1990 will be declared in March 1991, payable in June 1991. For the year 1991 and thereafter, ECC will return to its practice of paying two dividends per year, declaring an interim dividend in September, with a payment date in December and declaring a final dividend in March, with a payment date in June.

Year-end results for the twelve months to Sept. 30, 1990 will be announced Nov. 20, 1990.

In a separate development, ECC said that it intends to reduce its level of activity in homebuilding. Sales of land holdings and houses are expected to yield in excess of 200 million pounds in cash flow income to the company over the next three to four years. Further realizations are likely to occur over a number of years after that date at a reduced level.

ECC said it wishes to concentrate on consolidating and extending its mineral extraction and construction materials operations worldwide.

With annual sales of approximately $1.6 billion, U.K.-based ECC Group is a leading producer of industrial minerals for the paper, specialty chemical and ceramic industries worldwide.

It produces kaolin (or china clay), calcium carbonate, ball clay and other

industrial mineral products. The company is also engaged in the production of construction materials, such as concrete building blocks, aggregates and road surfacing. The company's U.S. headquarters are based in Atlanta.

OTTAWA, ONT. (SEPT. 11) BUSINESS WIRE - The Computerized Dispatch Systems division of Gandalf Technologies Inc. has sold two of its Cabmate systems to U.S. taxi companies, in contracts with a combined value of nearly $1.5 million (U.S.).

One of the systems is being installed for a taxi company in suburban Washington, D.C. The other installation is in New York City, where three other Cabmate systems already are in use.

Gandalf's Cabmate computerized dispatching systems reduce waiting time for taxi customers, reduce unproductive driving time for drivers, provide for equitable distribution of fares to drivers, and facilitate fleet operation with a variety of management reports.

Gandalf Cabmate systems are in operation in five cities in Canada and in operation or under installation in 15 cities in the U.S.

Gandalf Technologies Inc. provides computer communications solutions to end users. The company is a leading international designer, manufacturer and supplier of a broad range of computer and communications systems which it markets through subsidiaries worldwide.

#90254b0736 09/11/1990 ~Business Wire

COLUMBUS, OHIO (SEPT. 11) BUSINESS WIRE - Max & Erma's Restaurants Inc. (NASDAQ:MAXE) announced record third quarter revenues and record fully-taxed quarterly earnings resulting in part from a 27 percent gain in total revenues and a lower effective tax rate.

For the third quarter of 1990 the company reported total revenues of $7,246,000, fully-taxed income and net income of $289,000 or 9 cents per share income as compared to revenues of $5,709,000, fully-taxed income of $211,000 or 7 cents per share and net income of $320,000 or 11 cents per

share for the third quarter of 1989.

Net income in the third quarter of 1989 was aided by a $109,000 (4 cents per share) tax benefit of a net operating loss carryforward.

Year-to-date total revenues rose 23 percent to $22,880,000 in 1990 from $18,612,000 in 1989. For the year, fully-taxed income rose 12 percent from $635,000 or 22 cents per share in 1989 to $710,000 or 21 cents per share in 1990. Year-to-date in 1989 the benefit of the loss carryforward increased net income by $327,000 (12 cents per share) to $962,000 or 34 cents per share.

Todd Barnum, president, chief executive officer and chairman of the board said the quarter's results represent the company's best quarterly performance this year. He noted several factors affecting the quarter's results; older units continue to record increased customer traffic counts and record customer satisfaction levels; new units, clustered in existing markets, are beginning to create economies of scale and, as a result, corporate overhead as a percentage of sales reached an all-time low.

Barnum went on to say that the company's performance this quarter is an indication that restaurants opened earlier in the year are beginning to make meaningful contributions to the company's bottom line. The three restaurants opened so far this year are reporting sales close to 10 percent above company average.

He also added that a fourth restaurant, located in Pittsburgh, opened shortly after the end of the third quarter and is off to an excellent start. He said this now brings the Pittsburgh total to three and the company total to 16 in operation.

Max & Erma's Restaurants Inc. operates 16 restaurants in Columbus and Dayton, Ohio; Indianapolis; Detroit; Pittsburgh; and Lexington, Ky.; and franchises one restaurant in Canton, Ohio. Two new restaurants are under construction in Indianapolis and Detroit.

#90254b0738 09/11/1990 ~Business Wire

CAMBRIDGE, MA (SEPT. 11) BUSINESS WIRE - Lotus Development Corp. Tuesday announced Freelance Graphics for OS/2 with Presentation Manager, a new presentation graphics software package that gives PC business users a fill-in-the-blanks approach to creating presentations.

The product will ship in the fourth quarter of this year.

Freelance Graphics introduces SmartMasters, families of presentation templates that manage graphics design and layout work for users.

In addition to providing professionally designed presentation backgrounds, SmartMasters' fill-in-the-blanks pages prompt users to place text and/or graphics on each page of a presentation. SmartMasters control the sizing, placement and formatting of the information, tasks which usually require graphics design expertise and a significant time investment.

Freelance Graphics also provides many presentation features that enable users to easily create business presentations, such as the ability to treat each presentation as a single file for easy global editing. Powerful charting capabilities, seamless integration with 1-2-3/G -- Lotus' graphical spreadsheet for OS/2 -- and extensive drawing and editing tools are also provided to give users all the graphics functionality they need in a single product.

''Freelance Graphics makes professionally designed presentations instantly accessible to the typical business person, who may have little or no design experience,'' said Tim Davenport, general manager of Lotus' Graphics Products Division. ''Freelance Graphics represents the next major step in Lotus' strategy to provide presentation graphics applications across major PC platforms.''

''With Freelance Graphics, the entire process of creating a presentation -- from start to finish -- is much easier than ever before,'' said Jeffrey A. Kahn, president of GreyMatter International, a Cambridge-based software consulting firm. ''Whatever you need to do -- from giving presentations a

consistent look or changing a typeface on all pages of a file to adding symbols -- is completely quick and painless. Best of all, the end result looks great.''

Presentation Features

SmartMasters come in pre-designed sets. Each set provides nine of the most frequently used presentation page types (such as title page or a one-graph page, for charts or diagrams), a consistent background design, as well as a coordinated color palette and pre-selected typefaces.

To create a presentation with Freelance Graphics, users simply select a SmartMaster design and the page templates they need, and drop their text and graphics into the designated areas on each. Each SmartMaster page prompts the user to ''type text here'' or ''place graphic here.'' As a result, users can create professional-quality presentations quickly and easily.

Thirty professionally designed SmartMaster sets ship with Freelance Graphics. Users may choose any of the existing sets, edit and customize sets to suit their needs, or create new sets. SmartMaster sets can also be switched at any time, even after a presentation has been completed. When the new design is selected, the SmartMaster will automatically transfer existing text and graphics to the new design, placing it in the appropriate location on the new pages.

Users may recycle existing graphics or develop entirely new presentations by opening multiple presentation files and moving and copying pages among them.

Another presentation feature is the Page Sorter, which lets users see miniature versions of their presentation pages in a single view. From this perspective, users may work with their entire presentation, either adding, moving or deleting pages.

Freelance Graphics also includes a spell checker as well as screen show capabilities for displaying presentations on PC monitors. Run-time versions of screen shows may be created and saved to disk for use on DOS machines -- even those without Freelance.

Printed handouts with one to six images per page can be generated automatically from either color or black-and-white presentations.

Charting and 1-2-3/G

Freelance Graphics for OS/2 offers numerous charting capabilities including:

-- More than 50 pre-defined chart styles which can be viewed and selected from the Graph Gallery, a visual menu of chart choices;

-- Mixed chart types, created by selecting individual data sets and specifying their format such as area, bar, or line;
-- Hot links to worksheets in memory for automatic updating of charts;
-- Built-in composition that automatically handles chart design and layout;
-- A variety of customization options for fonts, colors, text attributes, drop shadows and placement of chart components.

Freelance Graphics also offers unique integration with 1-2-3/G, Lotus' graphical spreadsheet for OS/2. When the products are used together, they share common functionality for printing, filing and other routine functions. They also share the Graph Tool for charting capabilities. As a result, those who use both products need to learn only one charting model. Additionally, charts created with Graph Tool can be included in Freelance presentations without losing links to data.

Drawing and Editing Features
Freelance Graphics' complete set of drawing and editing tools help users design and compose better-quality business graphics. They include:

-- An on-screen gallery of more than 500 fully editable symbols;
-- Straight lines, bezier curves, arrows, circles and other graphic primitives for editing existing symbols or for creating new graphics or diagrams;
-- A variety of editing commands and alignment tools help users make precise edits without requiring a lengthy, painstaking editing process.

OS/2 Optimization and User Interface Enhancements
Freelance Graphics for OS/2 complies with IBM's System Application Architecture (SAA) and Common User Access (CUA) guidelines for Presentation Manager applications. It takes full advantage of OS/2 Presentation Manager and supports Dynamic Data Exchange (DDE), the OS/2 clipboard, and Presentation Manager metafiles for the transfer of data and graphics between applications. The mouse is fully supported for direct access to features and any part of a graphic or presentation page.

Freelance Graphics also follows the user interface innovations and enhancements implemented in 1-2-3/G. They include dialog box previews to see the effect of a setting -- from chart types and color choices to font attributes and alignment selections. In Freelance Graphics, double clicking with the mouse on any object will bring up a dialog box, which provides a snapshot of all attributes. System Requirements, Compatibility, Availability and Pricing

Freelance Graphics for OS/2 requires an IBM PC AT, PS/2 model 50Z, 60, 70, P70, 80, a Compaq 286, 386, 386 Portable, or 100-percent compatibles. OS/2 Version 1.2 or higher is required, as is a mouse. Four megabytes of

random access memory (RAM) is also required, five megabytes if users are running 1-2-3/G or network software. Freelance Graphics is designed for use with networks that support OS/2 Version 1.2 or higher.

Freelance Graphics for OS/2 is file-compatible with Freelance Plus 3.0/3.01 for DOS. Freelance Graphics presentation files can be exported to Freelance Plus as a series of .DRW files for each page of the presentation and a Portfolio (.PFL) list of the files. Freelance Plus 3.0/3.01 .DRW and Portfolio files can be read into Freelance Graphics for OS/2, as well.

Freelance Graphics for OS/2 will be available in the fourth quarter through the reseller channel for approximately $400. Freelance Plus 3.0/3.01 users may upgrade to Freelance Graphics for OS/2 for $150. Customers should call 1-800-TRADE-UP for upgrade mailing instructions.

In addition, server and node editions that provide network administration features for controlling concurrent access and security of files will be available 90 to 120 days after the first customer ship of the standard edition of Freelance Graphics for OS/2.

Lotus Development Corp. is the leading developer of application software for personal computers and information services on CD ROM, and a leading provider of application software for workstations, minicomputers and mainframes.

FRAMINGHAM, MASS. (SEPT. 11) BUSINESS WIRE - Dennison Manufacturing Co. (NYSE/DSN) announced that its stockholders have approved the merger of Dennison with Avery International Corp. at a special meeting held Tuesday.

As previously announced, the merger agreement between Dennison and Avery calls for Dennison stockholders to receive 1.12 shares of Avery common stock for each share of Dennison common stock.

Avery's shareholders are meeting later today to vote upon the merger. As previously announced, in order to allow the Antitrust division of the Department of Justice to complete its review of the proposed merger, Avery and Dennison have committed to the Antitrust division that they will not, prior to Sept. 28, 1990, consummate the merger.

Avery and Dennison have also announced that they anticipate being in a position to close the transaction shortly after the Antitrust Division has

completed its review.

#90254b0758 09/11/1990 ~Business Wire

HOUSTON (SEPT. 11) BUSINESS WIRE - Exxon Co., U.S.A. announced Tuesday it will discontinue branded motor fuel marketing in the state of Colorado on March 15, 1991.

Exxon supplies on a direct basis 34 service stations in Colorado, most of which are located in the Denver and Colorado Springs areas. In addition, the market withdrawal will affect four distributors with bulk storage facilities at Akron, Wiggins, Berthoud and Trinidad. This action by Exxon applies only to motor fuel sales and not to the other products sold in the state by the company. With annual motor fuel sales of 2,000 barrels per day, Exxon does not have a major market presence in the state.

Coincident with the market withdrawal, Exxon has agreed to sell its interest in 33 service station properties in Colorado to a group of three trusts created in connection with a series of property exchanges involving a wholly-owned subsidiary of Conoco Inc.

Consistent with federal law, affected dealers, who have not terminated their agreements with Exxon, will be offered the right of first refusal to meet the trust offer and purchase the company's interest in their individual service stations. These dealers will also have the right to continue selling Exxon's branded motor fuels until March 15, 1991.

An Exxon statement said, ''In the normal course of business, Exxon continuallly evaluates the viability of the company's marketing distribution system and its ability to adequately meet the needs of its customers.

''In the case of Colorado, the viability of Exxon's motor fuel operations was found to be disappointing due to our inability to generate acceptable motor fuel margins. The decision to withdraw was prompted by the trust offer and was based on the relative merits of continuing the current operations vs. selling the properties.

''Exxon intends to implement this market withdrawal in an orderly manner. The company expects to convey its service station properties to the new owners over an extended period of time beginning in the middle of November.

DALLAS (SEPT. 11) BUSINESS WIRE - Northern Telecom (NYSE:NT) Tuesday introduced DPN Lanscope, a software package for remote management of local area networks over wide-area networks based on the DPN-100 digital data packet networking system.

''Many companies are wrestling with the issue of how best to maintain a rapidly growing population of LANs,'' said William Pfeiffer, vice president, data networks, Northern Telecom Inc. ''DPN Lanscope offers effective, centralized management of multiple LANs over a wide-area data network.''

DPN Lanscope was introduced and demonstrated at the NetWorld '90 Conference and Exhibition in the Dallas Convention Center.

DPN Lanscope provides fault and performance monitoring, resource management, software distribution, and usage tracking for geographically dispersed LANs. Network configuration, status, alarms, and performance information are presented to a centralized LAN administrator through a graphics-based user interface.

DPN Lanscope is being developed by Connect Software Inc. in conjunction with Northern Telecom.

''Lanscope is already the most comprehensive LAN management package on the market today,'' said Tom Kieffer, president, Connect Computer Co. ''By working with Northern Telecom, we bring the same LAN management capabilities to the wide-area network level with DPN Lanscope.''

DPN Lanscope will be available in May 1991. Suggested list pricing for DPN Lanscope begins at $700, with volume discounts available.

Northern Telecom is the leading global supplier of fully digital telecommunications switching systems, providing products and services to telephone operating companies, corporations, governments, universities and other institutions worldwide. Northern Telecom, with 1989 revenues of $6.1 billion, employs more than 49,000 people around the world.

LOS ANGELES (SEPT. 11) BUSINESS WIRE - Security Pacific Corporation today announced that it has reached agreement in principle with the management of Hoare Govett, its London-based stockbroking subsidiary, on a proposal for the sale of 51 percent of the equity of the firm to employees.

This development is a further step in Security Pacific's Alliance Project, which calls for the formation of a global network of securities firms. Under the proposed transaction, Hoare Govett will be split into two groups one of which will focus on the United Kingdom and Continental Europe and the other on the markets of Southeast Asia.

A wide number of employees in each firm will be invited to purchase equity. Both firms will be sufficiently capitalized to continue in current lines of business, as well as allow for future growth. David R. Lovejoy, vice chairman of Security Pacific Corporation, said, ''Hoare Govett will continue to play a crucial role in the Alliance, which gives our domestic and international clients access to the global capital markets.

''Security Pacific Alliance Limited which will hold significant minority interests in Burns Fry in Canada, McIntosh Securities in Australia, and Hoare Govett in Europe and Southeast Asia, has a global network of clients and information which will give each firm, including Security Pacific, a strong competitive advantage.'' Security Pacific Corporation is the fourth largest bank holding company in the United States with more than $94 billion in assets.

HOUSTON (SEPT. 7) BUSINESS WIRE - Quanex Corp. (NYSE:NX), a leading

manufacturer of specialty metal products, announced Tuesday the sale of Transhield Trucking (Transhield), acquired in August 1989 with the acquistion of Nichols-Homeshield.

Certain of Transhield's assets together with various rights and interests were sold to a subsidiary of Midwest Coast Transport, Sioux Falls, S.D., for immediate cash proceeds of approximately $900,000. Quanex intends to liquidate remaining Transhield assets before fiscal year-end. In a separate transaction, the company said that it had also completed the sale of certain Houston-area real estate for cash proceeds of $1.1 million. Carl E. Pfeiffer, chairman and chief executive officer said, ''We are continually evaluating all of our businesses for strategic fit and profitability. Our specialty metal products are manufactured for niche markets where Quanex has the core strengths to produce a significant competitive advantage and higher returns on our shareholders' investment.

''Businesses and assets without this potential will be sold and the proceeds used to move toward our strategic goal of becoming a specialty materials company.''

MIAMI (SEPT. 11) BUSINESS WIRE - General Development Corp. President Thomas J. Hutchison Monday announced several promotions which he said will round out the new management team at the company and put it in a strong

position to complete its reorganization.

Charles M. Andolsek was named executive vice president and chief financial officer. Andolsek, 43, who is also a member of the board of directors, joined the company in February 1990 as senior vice president and chief financial officer.

Before coming to GDC, Andolsek was executive vice president/finance and chief financial officer of Vinters International Co. Inc. in New York. Prior to that he served in a number of executive positions with Joseph E. Seagram & Sons Inc.

Margaret A. Graff, 39, has been promoted to senior vice president/corporate planning. Graff joined GDC in 1987 as assistant vice president and assistant treasurer. Since March 1990 she has served as vice president/treasurer.

A native of North Wilkesboro, N.C., she received a Bachelor Degree in Economics from Appalachian State University.

Joseph P. Zdon, 48, was named senior vice president/controller. He joined the company in 1973 and has been vice president and controller for the company for the last 10 years.

A native of Minnesota, Zdon obtained a Bachelor of Science in Accounting from the University of Minnesota and a Masters of Science in Finance from Florida International University.

Lisa Davis Anness, 34, has been named vice president of Planning Project Management. She joined GDC in 1978 as a biologist in the Environmental Programs Department and later became director of Environmental Planning and Engineering. She was promoted to assistant vice president in October 1988.

Anness was born in Morocco. She holds a Bachelors degree in biology and a Masters degree in Business Administration both from the University of Miami.

Nelly Medel has been named director of Corporate Communications. Medel, 35 joined GDC in 1987 as administrative coordinator in the Corporate Communications Department.

She was named manager of Corporate Communications in March 1990. Originally from New York, Medel worked in the financial division at Centrust Savings Bank, within the computer sales division of Tandy Corp. and earlier was affiliated with severl South American corporations.

VIENNA, VA (SEPT. 11) BUSINESS WIRE - Children of all ages who have thrilled to the traditional sights and sounds of the legendary Ringling Brothers and Barnum & Bailey Circus soon can experience that excitement year round through a new shopping adventure in malls across the country.

Circus President Kenneth Feld announced here Tuesday (Sept. 11) that his company will launch a new national chain of Circus theme retail stores this fall. The specialty shops are designed around Ringling Brothers and Barnum & Bailey's colorful motif and will feature high quality merchandise ranging from the coolest fashion apparel and interactive toys to authentic handcrafted memorabilia of The Greatest Show On Earth.

Merchandise will be moderately priced.

The new venture, Ringling Brothers and Barnum & Bailey Retail Inc., opens its first unit late next month in Fair Oaks Mall at Fairfax, Va. Other stores already are scheduled for West Farms Mall in Farmington, Conn., and The Mall of Short Hills in Short Hills, N.J.

The stores' products have been specially designed and crafted for Ringling Brothers and Barnum & Bailey and will be available exclusively in the retail shops.

Feld said the company has considered for some time how the unique Ringling Brothers and Barnum & Bailey tradition might be brought to life for children and their parents 365 days a year. He said the venture into retailing comes only after long and careful planning to insure something unique for shoppers.

The new retail operation will be directed by President and Chief Operating Officer Kathy Self, former vice president for stores with Ann Taylor, and a 20 year veteran of the industry. Self began her retailing career as an assistant buyer for Carson Pirie Scott and has been associated with a number of other prominent stores, including Bloomingdale's, Lazarus and John Wannamaker's.

Store personnel are trained by Ringling Brothers and Barnum & Bailey Clown College graduates to entertain as well as serve customers.

The announcement and preview were staged in the new headquarters building lobby against the backdrop of a mammoth Ringling Brothers and Barnum & Bailey Circus mural by noted artist William Woodward, commissioned by Feld to capture the flamboyance color and excitement of The Greatest Show On

Earth.

The retailing venture will be based in the new corporate world headquarters where Feld directs his global live entertainment empire.

MARLBORO, MA (SEPT. 11) BUSINESS WIRE - Stratus Computer Inc. was ranked number one in customer satisfaction among minicomputer and microcomputer vendors, according to results of the 1990 Mini/Microcomputer Survey released yesterday by the Cowen & Co. brokerage firm and Datamation magazine.

Stratus, which has been ranked number one for five consecutive years, held a significant lead over its closet competitors -- Tandem Computers and Digital Equipment Corp. -- as well as International Business Machines Corp.

Among computer users polled in the independent survey, Stratus customers unanimously indicated that they were not planning or considering a switch to another computer supplier.

Respondents for the survey were U.S.-based computer users in a wide range of industries, including: manufacturing, communications and other utilities, wholesale/retail, banking and brokerage, insurance, business services, education, and government.

Stratus also ranked number one in customer satisfication in a study of European users published by INPUT, a leading international research firm. According to this study, the 1989 Annual Report on Customer Services in Western Europe, issued by INPUT earlier this year, Stratus received the highest satisfaction ranking among customers for hardware and software service. In this survey, Stratus competed against major European computer vendors such as ICL and Siemens, as well as the prominent U.S. computer suppliers.

Banks, manufacturers, retailers, securities firms, and telecommunications companies worldwide depend on Stratus' fault-tolerant XA2000 Continuous Processing Systems to provide uninterrupted and fast processing for critical businessfunctions such as electronic funds transfer, factory floor control, point-of-sale authorizations, stock trading and telephone services.

Stratus Computer Inc., is a leading supplier of fault-tolerant systems for critical online applications, such as online transaction processing and

online data communication and telecommunication applications. The company offers the broadest range of fault-tolerant systems and maintains the highest standard for computer reliability. One of the fastest-growing companies in the industry, Stratus reported revenues of $341.3 million for fiscal year 1989, up 29 percent from $265.3 million in 1988.

The company, whose headquarters are in Marlboro, Mass., U.S.A., has eleven international subsidiaries. Stratus Computer Inc. common stock is traded via the New York Stock Exchange and the Boston Stock Exchange under the trading symbol SRA.

NEW HYDE PARK, NY (SEPT. 11) BUSINESS WIRE - Bamberger Polymers Inc. (ASE:BPI) Tuesday announced the acquisition, for an undisclosed sum, of Coast Polymers Inc., a west coast resin distributor and trading company.

The company said the business will operate as a separate subsidiary within Bamberger, maintaining its own identity and market niche. Chris Landis and Jerry Malcolm will operate Coast as co-chief operating officers, as well as managing the west coast facility of Bamberger Polymers.

Lawrence Ubertini, president of Bamberger's domestic operations stated that ''this acquisition demonstrates our renewed vigor toward expanding our domestic operations.''

Frank Padula, executive vice president of Bamberger, stated that ''this action aggressively positions Bamberger in the rapidly expanding western market. We look forward to this relationship.''

Bamberger Polymers is an international plastics merchant involved in compounding, distribution and sales of thermoplastic resins, the raw materials for a broad range of plastic products.

COLUMBUS, OH (SEPT. 11) BUSINESS WIRE - National City Corporation (NYSE:NCC) announced today that two of its member companies, National Processing Company (NPC) and The First National Bank of Dayton (FNB), have been selected by Food and Nutrition Services of the United States Department of Agriculture to pilot the electronic delivery of Food Stamp Benefits utilizing ''off-line'', ''smart'' card technology.

Under the pilot program, each recipient will receive a plastic card, similar to an automated teller machine (ATM) card. The smart card, called ''smart'' because of a micro processor chip embedded in the card, will differ from an ATM card in that it will contain the clients' benefit balance and deduct the amount of each purchase at the point-of-sale without requiring a call to a central computer.

Both public welfare recipients and retailers will benefit from this program. The program eliminates long delays at food stamp centers and at store check-out counters for recipients. Previously, when a recipient's food stamps were lost or stolen, he or she would have no recourse. With the smart card this risk has been eliminated. Retailers would benefit from decreased check-out time; timely reimbursement for food stamp benefits; elimination of the current cash-back feature; and reduced paperwork.

Approximately 9,000 Dayton households and 70 retailers will participate in the demonstration. If the program is as successful as anticipated, it could be rolled out statewide. Nationwide, there are approximately eight million households who redeem over 2.2 billion food coupons annually at 240,000 authorized food stores.

National Processing Co., Inc. is a leader in the processing and settlement of consumer-to-corporate financial transactions. NPC has over 3,000 employees nationwide and an annual volume of over $137 million in a variety of processing services. The First National Bank of Dayton has 27 offices in the greater Dayton area, with assets of over $1 billion. FNB is in the process of merging with Gem Savings Association, a $1.5 billion thrift located in Dayton.

National City Corporation is a $23 billion bank holding company headquartered in Cleveland, Ohio. The Corporation's principal banking units include National City Bank, Cleveland; BancOhio National Bank, Columbus; and First National Bank of Louisville. Other member banks include National City Bank, Akron; First National Bank, Dayton; Gem Savings Association, Dayton; CommerceNational Bank, Lexington; and Ohio Citizens Bank, Toledo. National City also has 11 community banks serving cities and towns throughout Ohio, Kentucky and southern Indiana.

LINTHICUM, MD (SEPT. 11) BUSINESS WIRE - Noise Cancellation Technologies Inc. Tuesday announced that its previously announced temporary reduction of the exercise price of 2,493,676 of its outstanding Common Stock Purchase Warrants (the ''Warrants'') from $1.00 per share to 40 cents per share for the period commencing on August 7, 1990 and ending on Sept. 14, 1990, will be extended by the company to Oct. 14, 1990 (The ''Warrant Exercise Price Reduction Offer Period'').

Each Warrant is exercisable to purchase one share of the company's common stock. During the Warrant Exercise Price Reduction Offer Period, holders of Warrants will be able to exercise their Warrants at a reduced warrant exercise price of 40 cents per share. At the conclusion of the Warrant Exercise Price Reduction Offer Period, the warrant exercise price will revert to $1.00 per share through expiration of the Warrants at varying dates through December 1992.

Swartwood, Hesse Inc. is acting as exclusive agent for the company to solicit the exercise of the Warrants for a fee of 2 cents for each Warrant exercised during the Warrant Exercise Price Reduction Offer Period.

Holders who wish to exercise Warrants during the Warrant Exercise Price Reduction Offer Period should complete and execute the form on the back of the Warrant certificate and deliver the same, along with payment of the proper warrant exercise price by hand or by mail to: American Stock Transfer & Trust Co., 99 Wall Street, N.Y., N.Y. 10005, attention: Debra McAuliffe.

While the method of delivery is at the option and risk of the holder, if delivery is made by mail, it is suggested that it be by registered or certified mail properly insured. Payment of the warrant exercise price may be made, at the holder's option, in the form of cash or certified or official bank check made payable to Noise Cancellation Technologies Inc.

In order to obtain the benefits of the reduced warrant exercise price, warrants tendered for exercise must be received in good order by American

Stock Transfer & Trust Co. on or before 5:00 p.m. New York City time on or before the date the Warrant Exercise Price Reduction Offer Period expires.

The company's common stock is traded on NASDAQ under the symbol NCTI. The closing bid price for such Common Stock, as reported by NASDAQ, was $7/16 per share on August 10, 1990.

NEW YORK (SEPT. 11) BUSINESS WIRE - The Home Insurance Co., a subsidiary of AmBase Corp. (NYSE:ABC), Tuesday announced that it had discontinued negotiations to sell US International Reinsurance Co.

The chairman, president and CEO of The Home, James J. Meenaghan, said the company was taking USI Re off the market because he was confident other options to an outright sale would produce a greater economic benefit to the company.

''After extensive negotiations with potential buyers and the receipt of an offer exceeding the statutory carrying value of USI Re, we decided the net proceeds were not enough because we believe the inherent value of USI Re is greater than the price we could obtain in today's market.

''We are now examining several financial alternatives which we are confident will maximize The Home's equity in the net assets of USI Re,'' according to Meenaghan.

''This decision is consistent with our announcement to sell our Canadian subsidiary, Commonwealth Insurance Co. From a strategic viewpoint, separating The Home from these other insurance operations, allows us to focus our attention and resources on our core business of writing U.S. primary property-casualty business,'' according to Meenaghan.

Meenaghan also said that, effective immediately, USI Re will no longer accept new or renewal reinsurance business, but all existing contracts will be fully honored and serviced.

This decision, as well as the decision to sell Commonwealth, has no effect on the previously announced proposals to sell The Home or a controlling interest in AmBase since all proceeds will be retained in The Home Insurance Co.

BLUE BELL, PA (SEPT. 11) BUSINESS WIRE - Unisys Corp. announced Tuesday a new high-performance cache disk storage subsystem for its 1100/2200 line of mainframe computers, the M9740.

The Unisys M9740 supports from 16MB to 64MB of cache memory, and it has a disk storage capacity of 32GB. It features a level of reliability and functional redundancy designed to meet the high- speed, non-stop requirements of On-Line Transaction Processing (OLTP) and information hub mainframe users.

The M9740 design combines many improved component performance characteristics to deliver the fastest input-output response time ever offered to 1100/2200 mainframe users.

Unisys will begin shipping the M9740 in October. An entry-level configuration (consisting of a dual BMC unit, 16MB of cache, and 7.92GB of disk storage) is priced at $275,707. The maximum configuration (dual WDC control unit, 64MB cache, dual SDTs, channel expansion module, and 31.68GB disk) is priced at $762,355.

NASHVILLE, TN (SEPT. 11) BUSINESS WIRE - Surgical Care Affiliates Inc. (NASDAQ/NMS:SCAF) the Nashville based owner and operator of outpatient surgery centers Tuesday announced it acquired the Scranton Surgery Center in Scanton, Pa.

Joel C. Gordon, chairman and chief executive officer, stated: ''We are pleased to announce that SCA purchased the Scranton Surgery Center and intend to form a joint venture between local physicians practicing in the Scranton area and Surgical Care Affiliates. The center has three operating rooms, two minor procedure rooms, and will serve the outpatient surgery needs of Scranton and the surrounding areas.

''Plans have already been approved by the State to relocate the center to another site and to purchase state-of-the-art equipment for the facility. The Scranton Center is the third facility to be operated in Pennsylvania. The other centers are located in Lancaster and Camp Hill, Pa.''

Gordon added: ''Outpatient surgery is enjoying increased utilization throughout the country. Currently, in excess of 50 percent of all surgery is done on an outpatient basis. This is expected to increase to a 60 percent level in the early 1990s. The acquisition of the Scranton Surgery Center will not only contribute to the overall profitability of SCA, it will further reinforce our commitment to establish a major presence in the mid-Atlantic states. Further acquisitions and new developments are scheduled in this year and throughout 1991.''

Surgical Care Affiliates Inc. currently operates 30 surgery centers located in 16 states, a diagnostic center and an HMO. The stock is traded under the symbol of SCAF in the over-the-counter market of the National List of the NASDAQ system and is listed daily in the Wall Street Journal.

NEW YORK (SEPT. 11) BUSINESS WIRE - Philip Morris Companies Inc. announced Tuesday the appointment of Mr. William I. Campbell as President and Chief Executive Officer of Philip Morris USA, the company's domestic tobacco unit.

Campbell succeeds Mr. Ehud Houminer who has been appointed Senior Vice President of Philip Morris Management Corporation.

The announcement was made by Hamish Maxwell, Chairman and Chief Executive Officer of Philip Morris Companies Inc.

Campbell joined the company in 1967. He has held positions of increasing responsibility in Benson & Hedges Canada, Philip Morris Asia, Philip Morris USA, and most recently as Senior Vice President Corporate Planning for Philip Morris Companies Inc.

Houminer's new position will involve special projects of a strategic nature, covering various aspects of Philip Morris' businesses. He has held a variety of important positions since joining the company in 1966 in Europe, Asia, and the United States. Just prior to being appointed to President and Chief Executive Officer of PM USA, he was Senior Vice President Corporate Planning.

Both appointments are effective immediately.

STAMFORD, CONN. (SEPT. 11) BUSINESS WIRE - Re Capital Corp., (American Stock Exchange: ''RCC'') (the ''company'') announced Tuesday that is board of directors approved an addional stock buy-back program to purchase for its treasury in the open market up to an additional $2 million worth of its common stock.

The new stock buy-back program supplements earlier buy-back programs under which the company has repurchased 1,224,925 shares of its common stock at a price of approximately $12,523,000.

Approximately $1,677,000 remains available from previously announced buy-back programs, in addition to the $2 million authorized today. The funds for the new stock buy-back program will come from existing corporate funds of the company and/or from bank borrowings. Thus, the buy-back program will not use capital of the company's principal subsidiary, Re Capital Reinsurance Corp. Purchases may be suspended from time to time or be discontinued.

The company's board of directors today also made two amendments to the Rights Agreement currently in effect for the company. The first amendment changes the definition of ''Acquiring Person'' from ''...the Beneficial Owner (as defined) of 20 percent or more of the common shares of the company...'' to ''...the Beneficial Owner (as defined) of 25 percent or more of the Common Shares of the Company...''.

The second amendment adds a provision to the Rights Agreement that if a person (a ''Potential Person'') would become an Acquiring Person solely by reason of the company repurchasing its own Common Stock, then (a) such Potential Person will be allowed a period of thirty (30) days in which to dispose of sufficient shares of common stock so as to not become an Acquiring Person and (b) such Potential Person will have an option, for such thirty (30) day period, to sell to the company the number of shares of common stock necessary so that such Potential Person does not become an Acquiring Person, at a price per share equal to the price paid by the company for the most recent purchase of shares of its common stock which caused such person to become a Potential Person.

Both amendments are effective with regard to persons potentially becoming Acquiring Persons on and after July 1, 1990.

In addition, the board of directors of the company Tuesday granted a conditional approval to a proposed purchase of shares of common stock of the company by John Deere Insurance Group Inc. (''Deere'').

MIAMI (SEPT. 11) BUSINESS WIRE - Video Jukebox Network Inc. (VJN) (NASDAQ:JUKE) Tuesday announced that it is continuing to negotiate wtih TeleCommunications Inc. (TCI) in an effort to conclude a previously announced stock purchase agreement.

Although, the Aug. 30 date for completion of the purchase stipulated in the agreement in principle has passed, the two companies continue to work actively toward concluding the transaction.

''I am confident that we will successfully conclude our final negotiations and go forward with the sale of the stock to TCI,'' commented VJN President/Chief Executive Officer Andrew H. Orgel.

''The course of completing due diligence and settling the final points of the deal has taken longer than either party anticipated, but we fully expect to complete the sale and begin expanding the distribution of The Jukebox Network to key TCI systems around the country.''

Additionally, the company, through Communications Equity Associates, its investment banker, is continuing discussions with other qualified parties

to complete the remainder of the $10 million private placement.

Video Jukebox Network Inc. is an interactive television company that currently operates 111 units of The Jukebox Network, the leading interactive television network in the country. The Jukebox Network is available in 29 states and reaches 9.8 million households.

SYDNEY, AUSTRALIA (SEPT. 11) BUSINESS WIRE - Westpac Banking Corp. (NYSE:WBK) Tuesday announced that it had signed agreements with IBM following IBM's evaluation of Westpac's CS90 technology.

Westpac's Managing Director Stuart Fowler said the signing of the agreements clearly established Westpac as a leader in the development of banking technology.

The agreements:

-- Provide IBM with worldwide marketing rights to certain CS90 technologies.

-- Provide for Westpac services to IBM, initially in transferring Westpac technology through implementation assistance and training, and in due course in product and marketing support.

''With IBM being a major supplier of information technology to the banking industry worldwide, we see this as a significant endorsement of Westpac's investment in CS90 technology,'' Fowler said.

The agreements were signed by Westpac's Chief General Manager, Management Services Bill McInnis with the IBM Corp. headquartered in White Plains, N.Y.

IBM Australia Ltd.'s Managing Director Brian Finn said that IBM plans to use the Westpac technology in conjunction with the IBM Financial Application Solutions architecture for the 1990's and that the technology transfer services will commence immediately at the IBM Services Sector Division development laboratory in Manassas, Va.

''IBM Australia has had a long and close relationship with Westpac for nearly 20 years during which time Westpac has become one of IBM's largest customers in the Asia Pacific region, and we see this latest event as another very positive step in the relationship,'' Finn added.

Westpac Banking Corp. is an international financial service group headquartered in Australia with operations extending offshore to 29 countries. In its home markets of Australia, New Zealand, Papua New Guinea, and the South West Pacific, Westpac offers a full range of banking and financial services. Specialized services are provided through the Westpac offices in Asia, Europe, and the United States.

SCHEDULE 13D

SEC - AMENDMENT NUMBER: 10

GROUP LED BY D.S. LEE OWNS 1,882,915 SHARES (16.50%) OF QUME CORP (TICKER: QUME) OF MILITAS, CA.

ANNOUNCEMENT:

On Sept. 7, 1990, the company mailed a proxy statement to shareholders. This amendment constitutes amendment no. 10 for David S. Lee, amendment no. 4 for New Qume Corp. and amendment no. 3 for the remaining filers.

PURPOSE:

Distribution of proxy materials.

-30- 569
#90254c0017 09/11/1990 ~Comtex
SCHEDULE 13D

SEC - AMENDMENT NUMBER: 4

GROUP LED BY MARINA HOLDINGS CORP OWNS 1,689,375 SHARES (99.00%) OF AIFS INC (TICKER: AIF) OF SAN FRANCISCO, CA.

ANNOUNCEMENT:

On June 13, 1990, the second class action suit, Shields v. AIFS Inc. et al, was voluntarily dismissed and a settlement agreement was entered into that was approved by the Delaware court on July 31, 1990. Upon the satisfaction of the merger conditions, Marina was merged into AIFS Inc. on Aug. 31, 1990.

PURPOSE:

Merger.

#90254c0020 09/11/1990 ~Comtex
STAMFORD, CT (SEPT. 11) COMTEX - Ft. Lauderdale, Fla.-based Blockbuster Entertainment Corp.(TICKER: BV), the owner and operator of the nation's largest video-rental chain, has received a $200 million credit line from Security Pacific National Bank, according to a Securities and Exchange Commission filing.

This 8-k Filing was submitted to the Securities and Exchange Commission on Sept. 10, 1990.

-30- 559
#90254c0021 09/11/1990 ~Comtex
STAMFORD, CT (SEPT. 11) COMTEX - CML Group Inc.(TICKER: CML), an Acton, Mass., holding company, sold its Carol Reed Inc. women's retailing unit Aug. 24 to Carol Reed International Ltd., a subsidiary of Swire Pacific Ltd., for $11.66 million.

CML, which has been shedding assets over the last year, sold its Boston Whaler boat-manufacturing unit last spring in the face of a takeover threat by Minneapolis corporate raider Irwin L. Jacobs.

CML owns the Britches of Georgetown retailing outlets and NordicTrak exercise- machine manufacturers.

This 8-k Filing was submitted to the Securities and Exchange Commission on Sept. 10, 1990.

SCHEDULE 13D

SEC - AMENDMENT NUMBER: NONE

GROUP LED BY CONTROL TECHNIQUES USA INC OWNS 513,582 SHARES (50.40%) OF ELECTRONIC CONTROL SYSTEMS INC (TICKER: ELCS) OF FAIRMONT, WV.

ANNOUNCEMENT:

On Aug. 31, 1990, Control Techniques USA Inc. entered into an option agreement pursuant to which Control Techniques USA agreed that prior to Sept. 5, 1990, it would deliver a merger proposal to Electronic Control Systems Inc. providing for a cash payment of $2.43 per share, less any costs associated with the transaction. The option shareholders have agreed to vote their 443,582 shares in favor of the merger and to grant an option to Control Techniques USA Inc. purchase such shares, along with options for an additional 70,000 shares would be exercised by the option shareholders. On Sept. 5, 1990, Control Techniques USA delivered a letter to the board of Electronic Control Systems Inc. setting the expiration of the offer at Sept. 29, 1990 and on Sept. 10 forwarded a form of merger agreement for the board's consideration.

PURPOSE:

Merger.

By MICHAEL STRAUSS - Comtex Washington Correspondent

WASHINGTON (SEPT. 11) COMTEX - Congress was told today the nation's deposit insurance fund, with a balance of $13.2 billion at the end of 1989 could face an additional drop of $4 billion to $6 billion next year.

The General Accounting Office reviewed 300 banks in its audit of the bank

insurance fund, including the nation's 100 largest banks. It found that 35 banks are in such severe financial condition, that without some form of recapitalization, they are likely to fail in the next year, costing the fund between $4.4 billion and $6.3 billion.

"Not since it was born in the Great Depression has the federal system of deposit insurance for commercial banks faced such a period of danger as it does today," said the GAO report.

The bank deposit insurance fund has sufficient resources to handle anticipated bank failures estimated at a cost of $2 billion in 1990.

But the GAO concluded a worst case scenario suggests over the next few years low levels of reserves coupled with a recession could result in a level of bank failures which exhaust the fund and result in taxpayers assistance.

From 1987 through 1989, the deposit insurance fund fell 28 percent from $18.3 billion to $13.2 billion and its ratio of reserves to deposits fell to an historical low of 70 cents per $100 of deposits.

The Financial Institutions Reform, Recovery, and Enforcement Act of of 1989 (FIRREA) has targeted a minimum reserve ratio of $1.25 per $100 of deposits by 1995 but the GAO believes this may be unattainable and insufficient.

"We should not just accept this 1.25 percent," Charles Bowsher, the Comptroller General of the United States, told the Senate Banking Committee. "We are concerned that even if the minimum reserve ratio could be achieved, it would not be sufficent to protect the taxpayers in the event of a recession."

The Federal Deposit Insurance Corp. recently proposed to increase the annual assessment rates to insured commercial banks from 12 cents per $100 to 19.5 cents per $100, the maximum allowed under FIRREA.

The GAO says other steps are needed in addition to the proposed rate increase to boost the fund's capital position. It urges the Treasury Secretary to determine a reserve ratio target that would protect taxpayers by maintaining the fund in the event of a recession, calls for on-site examinations of problem banks and large banks on an annual basis and seeks a review of accounting procedures so bank management does not have too much discretion in recognizing and determining loss amounts as reported in financial statements.

"Rebuilding the fund and capital of individual banks are top two (priorities)," said Bowsher. "I would not like to say we are in a crisis but I think we are in a stage where timely action is needed."

#90254c0321 09/11/1990 ~Comtex
WASHINGTON (SEPT. 12) COMTEX - The registration statement filed at the SEC shows Varsity Development Inc. is proposing to offer to sell 15 million shares of its common stock, at $0.02 per share.

The company was organized to engage in the acquisition of any type of assets, properties and business, and primarily to undertake a public offering to create a pool of capital to be used by management to acquire or enter into a business or business opportunity.

It has not been operational since it was incorporated on Dec. 31, 1985, has no specific plan of operation, and has virtually no assets.

If this offering is successful, management will have a "blank check" with respect to investors' funds, since no determination has been made as to how such funds will be used.

Alliance Securities Corp. is underwriting the offering.

Varsity Development Inc. offices are located at 40 South 600 East, Second Floor, Salt Lake City, UT 84102, and its telephone number is (801) 322-0475.

-30- 1148

#90254c0322 09/11/1990 ~Comtex
WASHINGTON (SEPT. 12) COMTEX - The registration statement filed at the SEC

shows Zet Resources Inc. is offering to sell up to 2 million shares of its common stock at a cash price of $0.05 per share.

The company is engaged in attempting to acquire assets and properties in one or more as yet unidentified industries, and presently has no specific type of business, asset or property.

The company's address is 3483 South 3170 East, Salt Lake City, UT 84109, and its telephone number is (801) 467-9698.

-30- 669

#90254c0324 09/11/1990 ~Comtex

WASHINGTON (SEPT. 12) COMTEX - The registration statement filed at the SEC shows Winston Financial Inc. is offering to sell 5 million shares of its common stock.

Also offered are 40 million Class A common stock purchase warrants, and 40 million Class B common stock purchase warrants.

One Class A warrant entitles the holder to purchase one share of the company's common stock at $0.05 per share during the period ending April 21, 1991.

One Class B warrant entitles the holder to purchase one share of common stock at $0.10 per share during the period ending April 12, 1992.

Eighty million shares of common stock underlying the Class A and Class B warrants are also offered.

The company reports it is in a development stage and has not yet commenced operations.

It was formed April 12, 1988 to acquire a participation interest in one or more business opportunities.

The company's offices are located at Sabana Norte San Jose, Costa Rica, Central America, and its telephone number is (506) 327740.

-30- 1174

#90254c0325 09/11/1990 ~Comtex

WASHINGTON (SEPT. 12) COMTEX - The 8-K report filed at the SEC shows United Financial Corp. was authorized effective Aug. 24, 1990 by its board of directors to purchase up to 50,000 shares of its common stock in the open market or in negotiated transactions at such times and such prices as management may decide.

Shares repurchased by the corporation will be reserved for employee benefit plans.

The corporation presently has 2,153,000 shares of common stock outstanding.

#90254c0326 09/11/1990 ~Comtex

WASHINGTON (SEPT. 12) COMTEX - The 8-K report filed at the SEC shows Passcard Inc. acquired 1.19 million shares of Lavi Investment, effective Aug. 1, 1990.

This acquisition represents 21.3% of the voting shares.

Consideration for this transaction in the amount of $15,180 was provided by the company's investment banker in the form of a demand loan.

Additionally, Albert N. Esses acquired 3.5 million shares of Lavi, representing 62.7% of the voting shares.

Consideration for this transaction was provided in the amount of $44,820 by the company's investment banker, Hasan, Growney & Co. as a demand loan.

Also on Aug. 1, 1990, David M. Levitt was appointed as chairman of the board of directors and a director of Lavi, and Albert N. Esses was appointed president and director of the company.

Lavi Investment's executive office is located at 17 Battery Place, Suite 2222, New York, NY 10004 and its telephone number is (212) 319-6380.

#90254c0327 09/11/1990 ~Comtex

WASHINGTON (SEPT. 12) COMTEX - The 8-K report filed at the SEC shows LaserMaster Technologies Inc.(TICKER: LMTS), effective June 2, 1990, acquired all the outstanding capital stock of La Societe Anonyme Inc. (LSA).

The company issued 90,000 shares (after adjustment for a 3 for 2 stock split through a dividend payment June 22, 1990) of its common stock to Ronald Subler, Michael Parker and Ann Roe-Hafer, LSA's three shareholders, for all LSA's outstanding common stock.

LaserMaster changed the name of LSA to Digital Typeface Corp.

Immediately before the acquisition by LaserMaster, two shareholders of LSA purchased all LSA's accounts receivable in exchange for cancellation of $310,000 of indebtedness to the company's shareholders and assumption of

substantially all of LSA's other liabilities.

LSA's assets at the time consisted primarily of patents and proprietary rights.

#90254c0328 09/11/1990 ~Comtex

STAMFORD, CT (SEPT. 11) COMTEX - Citicorp said it will discontinue its weekly commercial paper auctions after next Tuesday's (Sept. 18), noting that consumer deposit growth, balance sheet management and direct placement of commercial paper have eliminated the need for the auctions.

Citicorp currently auctions $100 million per week, divided equally between 91 and 182-day paper. This accounts for less than 1% of its overall funding. In September 1978 when the auction began, the global financial services company auctioned $100 million of 91-day paper every tuesday, accounting for 1.5% of total funding. In the early 1980's, when the commercial paper auction was at the height of its importance to Citicorp, volumes reached $200 million per week and accounted for 2% of total funding.

Since then, consumer deposits have increased significantly in Citicorp's funding mix, reducing the need for higher-cost sources; and balance sheet management has limited asset growth and dependence on traditional funding, particularly through the securitization and sale of credit card receivables, mortgages and other loans.

In its final commercial paper auction next Tuesday, Citicorp will sell $50 million of 91-day and $50 million of 182-day paper.

For Info.: John Maloney (212) 559-4285

LIMA (SEPT 11) - Chinese Foreign Minister Qian Qichen met with Peruvian President Alberto Fujimori Tuesday to talk about bilateral economic cooperation, commerce and culture, officials said.

On Monday, Mr. Qian and Peruvian Foreign Minister Luis Marchand launched a labor commission Monday which is to be sealed with China's approval of a seven-million-dollar credit for Peru, a government spokesman said.

Also Monday, China donated 630 million dollars for rural dwellers in the Andes mountains hard-hit by drought.

#90254d0060 09/11/1990 ~French/German News Agency
VANCOUVER, Canada (SEPT 11) - Japan indicated Tuesday that it is unlikely to open its doors wider to agricultural imports, as Pacific Rim trade ministers continued seeking ways to salvage the current round of GATT negotiations.

Japanese trade officials quoted Kabun Muto, minister of international trade and industry, as telling his colleagues that Japan had already taken big steps to import more food from abroad.

But he added that Japanese citizens are worried by what they feel is a sagging level food self-sufficiency, saying that Japan now imports 51 per cent of its food needs as measured on a calorie basis.

Agricultural exporters, led by the United States, have been pressuring Tokyo to permit more foreign food on Japanese markets to ease gaping trade deficits with the Asian economic giant.

Trade in farm products is one of the big stumbling blocks in the slow-going Uruguay Round of talks involving the 97 signatory nations of the General Agreement on Tariffs and Trade (GATT).

Trade ministers from the 12-member Asia-Pacific Economic Cooperation (APEC) group -- which accounts for 60 per cent of all GATT trade -- are meeting in this Western Canadian city until Wednesday in an effort to find some consensus to speed up the Uruguay Round.

Officials fear the four-year round of talks will expire in December as scheduled without guarantees of freer world trade -- the basic aim of the GATT process that dates back to 1947.

"The cost of failure is very great -- lower growth, more protectionism, less confidences in the future, and increased unilateral action," said John Crosbie, Canada's trade minister and chairman of the Vancouver meetings.

Japan's position on agriculture contrasted with an offer by the ASEAN members of APEC to make sweeping concessions, including tariff cuts, to help perk up the Uruguay Round.

Malaysia's minister of trade and industry, Dato' Seri Rafiday Aziz (eds: correct), said the United States in particular "was positive to our proposals about textiles."

APEC groups Australia, Canada, Japan, South Korea, New Zealand, the United States, and the six ASEAN members -- Brunei, Indonesia, Malaysia, the

Philippines, Singapore and Thailand.

DAKAR (SEPT 12) - Representatives of an interim government for Liberia left the Gambian capital Banjul on Tuesday for Monrovia to begin organizing an administration following the reported death of President Samuel Doe, according to official sources here.

The government, set up earlier this month under the auspices of the Economic Community of West African States (ECOWAS) which has sent an intervention force to Liberia, is to administer the country and hold elections in October 1991.

A spokesman for the interim government, whose full composition has not been publicly announced, said among those those who left for Monrovia were Levy Zangai, general secretary of the Liberian Action Party, and James Fromoyan a Liberian exile who returned to Africa Monday from the United States.

A former Liberian political science professor, Amos Saywer, has been unofficially named interim president.

The interim government representatives are to work with General Arnold Quaino, commander of the ECOWAS peacekeeping force.

Meanwhile it was officially announced in the Ghanaian capital Accra that Ghana was reexamining its participation in the ECOWAS peacekeeping force following the death of Mr. Doe.

With Nigeria, Ghana is the major contributor to the 3,000-strong force.

Mr. Doe has been reported killed Sunday and his mutilated body put on display by a rebel faction led by Prince Johnson.

WASHINGTON (SEPT 11) - The U.S. Senate overwhelmingly approved a resolution Tuesday calling for Iraqi President Saddam Hussein and Iraqi leaders to be prosecuted as "war criminals" if hostilities break out in the Gulf.

The Senate passed the nonbinding resolution by a 97-to-2 vote only hours before President George Bush addressed a joint House and Senate session to report on the Gulf crisis.

Mr. Hussein "has violated standards of civilized conduct by willfully

seeking to endanger the lives of foreign civilians in Kuwait and Iraq," the resolution said.

"... In the event of hostilities between the United States and the government of Iraq, it shall be the policy of the United States to pursue Saddam Hussein and other such perpetrators as may be determined responsible in order to bring them to justice as war criminals," it said.

MOSCOW (SEPT. 12) - The KGB, anxious to improve its image, has opened a public relations center, officials of the Soviet secret police and intelligence agency said here Tuesday.

At a news conference in the infamous KGB headquarters building in Moscow, three officials told journalists that the agency wanted new legislation to change its structures and activities.

KGB director Alexander Karbaynov admitted the agency had committed numerous "errors," some "tragic."

But pressed by newsmen, he declined to reveal how many people were still employed by the KGB. "That is a government secret," he said. "If a parliamentary inquiry is opened we will reveal these figures."

He said, however, that the number of informants did not top one percent of KGB personnel.

WELLINGTON (SEPT. 12) - Children adopted from Romania have a "great risk" of carrying the AIDS virus, New Zealand's Social Welfare Department said in a report Wednesday.

The report, authored by department deputy director-general Robin Wilson, stressed that tests for the aquired immune deficiency syndrome on children under three were "known to be unreliable."

The report comes as pressure grows on the government here to ease normally tough adoption regulations so New Zealanders can adopt Romanian children. At least 25 New Zealand families have people in Romania currently trying to complete adoption formalities.

Mr. Wilson, who went to Romania to investigate the situation, said that many of the thousands of children in Romanian orphanages were suffering serious respiratory problems.

In the report, which sets out policy suggestions for adoption procedures, Mr. Wilson recommended the New Zealand Government "note that the health and emotional development of the children must be suspect".

"From my own observation most of the children are suffering markedly from the effects of lack of stimulation," he said.

The plight of thousands of children living in abysmal conditions in Romanian orphanages came to light following the fall of that country's late dictator Nicolae Ceausescu.

#90254d0710 09/11/1990 ~French/German News Agency

TOKYO (SEPT. 12) - Fuji Heavy Industries Ltd., maker of the Subaru car, said on Wednesday it has decided to pay no dividends on its stock for the interim six-month period through September 1990.

Officials of the Japanese firm said the profits from a expected 13 percent sales increase during the April-September period over a year earlier would be eclipsed by increased sales promotion costs for its new mini-vehicles.

The company has yet to decide whether it will pay dividends to stockholders in the second half of the fiscal year, they said.

Fuji Heavy, an affiliate of Nissan Motor Co. Ltd., suffered an operating loss of almost 30 billion yen (200 million dollars) in the year to March, with its net profit plunging 47.3 percent to 5.7 billion yen (38 million dollars).

The company said its poor performance reflected declining sales of small cars, particularly in the United States but also in Japan.

-30- 1096

#90254d0850 09/11/1990 ~French/German News Agency

TOKYO (SEPT. 12) - Citizen Watch Co. said Wednesday it had signed an exclusive agreement with Nippon Telegraph and Telephone Corp. (NTT) to manufacture and market integrated circuit (IC) cards internationally.

Under the agreement, Japan's second-largest watchmaker will invest one billion yen (7.2 million dollars) to manufacture low-cost, high-performance IC cards, company officials said.

The new IC cards will be priced at 8.00 to 8.50 dollars each against conventional cards costing 21 to 28 dollars each, and distributed through the overseas network of NTT International, an NTT subsidiary, they said.

The cards, containing integrated circuits or large-scale integrated chips, can be used by customers in a variety of sectors such as banking, social insurance, mass-merchandising and the health care fields.

Sales will start in next month, with a target of one million cards sold in the fiscal year beginning April 1991, mainly in West Europe where demand for IC cards has expanded in recent years, they said.

#90254d5150 09/11/1990 ~French/German News Agency

TOKYO (SEPT. 11) - The number of Japanese over age 100 is to reach a record high of 3,298 by the end of September, an increase of 220 from a year ago, the Health and Welfare Ministry announced Tuesday.

Women account for 2,618 or 79.4 per cent of the total, compared with 680 men.

The number of Japanese centenarians has been increasing since 1971. Women dominate the rankings, holding the top nine places.

The oldest woman is Waka Shirahama, 112, of Miyazaki Prefecture insouthern Japan. Nisaburo Matsuyama of Ishikawa Prefecture is the oldest man at 108.

Mrs. Mitsu Fujisawa, of Nagano Prefecture in northwestern Japan, who had been the nation's oldest person for four consecutive years, died in January at the age of 113.

#90254d5310 09/11/1990 ~French/German News Agency

SAN SALVADOR (SEPT. 11) - Leftist rebels said they killed 16 government soldiers and wounded 24 others in central El Salvador, where rebels and army troops have been fighting since Sunday.

The clandestine Radio Venceremeos of the Farabundo Marti National Liberation Front (FMLN) said Monday's "successful military maneuver" raised to 4,062 the number of government casualties during the first eight months of this year.

The radio said FMLN rebels inflicted the latest army casualties in fighting near Tecoluca, some 50 kilometers (30 miles) east of the capital, in the central province of San Vicente. A rebel was killed and a wounded woman guerrilla was captured, the radio said.

However, the army press office, COPREFA, said six soldiers were killed in the fighting and added that five rebels were wounded.

Rebel antiairraft fire damaged a U.S.-made C-47 transport plane and a UH-1H helicopter during the fighting, rebel radio reported.

The rebel radio also said the FMLN captured 236 weapons, shot down eight helicopters and damaged 51 military aircraft with gunfire during the first eight months of this year.

#90254d5330 09/11/1990 ~French/German News Agency

BOGOTA (SEPT. 11) - Security forces killed 10 leftist rebels and captured seven others in various battles across Colombia, the armed forces said.

The army high command said the most violent of the clashes Monday occurred in the southwestern province of Cauca near the town of El Bordo, where rebels of the Colombian Revolutionary Armed Forces (FARC) attacked a police patrol.

Four rebels were killed in the attack, while two guerrillas and a policeman were wounded, the army said.

In the town of Samaniego, in the southwestern province of Narino, soldiers from the army's 3rd Brigade killed three rebels in a gunbattle with another FARC unit, and seized the rebels' weapons and gear.

The army also said its soldiers battled guerrillas of the FARC and the National Liberation Army in the provinces of Cesar, Cordoba and Santander. Three rebels were killed and seven others were captured in those engagements, the army said.

#90254d5810 09/11/1990 ~French/German News Agency

TOKYO (SEPT. 11) - Japanese machinery orders hit a record high of 1.03 trillion yen (9.2 billion dollars) in July, the Economic Planning Agency (Epa) reported Tuesday.

The orders were 22.1 percent higher than in June, for the largest month-to-month rise since April 1984. The figure surpassed the previous record high of 1.01 trillion yen set last April.

Of July's total, foreign machinery orders accounted for more than half, at 508 billion yen, down 5.1 percent, the EPA said.

-30- 668

#90254d5930 09/11/1990 ~French/German News Agency

SYDNEY (SEPT. 11) - Almost 1,500 prisoners throughout New South Wales were locked into their cells Tuesday as officials sought to enforce plans to confiscate personal property and make it harder to conceal AIDS-infected syringes.

Director of custodial services John Horton said that the prisoners had been locked up following riots in Bathurst jail on Monday night which left several guards and inmates injured.

The state government has drawn up a harsh list of banned items following the stabbing of a 21-year old prison warder with a blood-filled syringe in July.

The officer has been confirmed as a carrier of the deadly Acquired Immune Deficiency Syndrome (AIDS) virus which robs the body of its ability to fight disease.

Among items banned are educational materials, crucifixes and family photographs.

Prison warders went on strike after the stabbing incident to back calls for the segregation of prisoners with AIDS, a demand state officials rejected.

A police spokesman said trouble started at Bathurst Jail when about 290 prisoners lit fires and smashed windows and furniture after a meeting.

Warders fired shots and used teargas to gain control.

Mr. Horton said prisoners at the other jails declared they were "on strike" and had refused to go to work.

-30- 1472

#90254d5950 09/11/1990 ~French/German News Agency

Madrid (SEPT. 11) - A car bomb went off in Cartagena late Monday, injuring 17 persons in the latest of a series of bombings in Spain attributed to Basque separatists and leftist terrorists.

Police said Tuesday that the car laden with 70 kilos of explosives had been parked outside living quarters for 400 Guardia Civil personnel and their dependents in the Mediterranean coastal city.

Injuries were due to flying shrapnel, police said.

No group claimed responsibility, but police said the explosives were the same as those used in other bombings by the Eta basque separatist organisation.

The leftist terrorist Grapo organisation claimed responsibility for Monday's bombing of a Spanish Socialist Party office headquarters in Barcelona in which no one was injured.

Police were still looking for clues Tuesday to the bombing of a refinery pipeline in Tarragona.

Meanwhile, bogus bomb threats continued to plague authorities in Madrid. The foreign ministry and federal accounting office were evacuated as a precaution after anonymous phone calls warned of concealed bombs. dpa eg 111130 sep 90

MANILA (SEPT. 11) - Two Philippines oil companies have petitioned for average oil price increases of 73 and 45 percent, officials said Tuesday.

The Energy Regulatory Board (ERB) said it had received a petition from Caltex Corp. which demanded an average increase of 3.27 pesos (13 U.S. cents) per liter for its products, a 73 percent increase from the current prices.

It also received another proposal from Shell Corp. which petitioned for a 2.03-peso (eight U.S. cents) per liter increase, a 45 percent increase.

ERB spokesmen said the board still has to wait for a petition from the state-run Petron oil firm before acting on the two petitions.

The Philippines depends on oil for 62.3 percent of its energy needs, and imported 97.4 percent of the 72.79 million barrels it consumed last year, official figures show.

Domestic fuel prices are currently subsidized. Members of Congress have

asked President Corazon Aquino to defer the deregulation of the domestic oil industry, which was scheduled to start next January.

The depletion of the oil industry subsidy and the Gulf crisis has put pressure on the Aquino government, which is wary of raising oil prices because such decisions have traditionally triggered social unrest.

TOKYO (SEPT. 11) - The Japanese government is divided over the question of sending troops to the Middle East, with most officials opposed to the idea, foreign ministry spokesman Taizo Watanabe said Tuesday.

Mr. Watanabe, asked about a further contribution promised by Tokyo to help enforce the world embargo against Iraq, said a bill was being drafted that would allow Japan to "contribute more" to United Nations-led peace efforts.

But he would not disclose details of the bill, which he said would be ready by the end of September.

The Kyodo news agency, quoting government sources, said Tokyo was considering sending military personnel in a temporary "peace cooperation team" under the foreign ministry to support efforts to defend against further expansionism by Iraq, which annexed Kuwait after invading it on August 2.

Mr. Watanabe would not confirm the report, but acknowledged ongoing "exchanges of view" within the government over the new law.

"Some say the Self Defense Forces (SDF - Japan's army) should be sent, and some are utterly opposed to it," he added, stressing that "a majority is for non-involvement of SDF forces."

The Japanese constitution forbids the use of force to settle disputes.

Prime Minister Toshiki Kaifu on August 29 first mooted the idea of a new law permitting Japan to take part in the U.N. peace efforts when he pledged one billion dollars in logistical support for the U.S.-led multinational force in the Gulf together with 22 million dollars for refugees fleeing Iraq and Kuwait.

Tokyo's Western partners, especially the United States, deemed the program insufficient.

Government spokesman Misoji Sakamoto said on Tuesday that the second part of Japan's aid package would be ready before Mr. Kaifu leaves for a September 29-30 visit to the United States.

Tokyo is expected to pledge a substantial amount of financial aid to countries affected by U.N. sanctions against Iraq, such as Egypt, Jordan and Turkey.

Informed sources here said U.S. Treasury Secretary Nicholas Brady requested an additional two billion dollars from Japan when he made his lightning visit here last week.

Mr. Sakamoto said Japan's new aid plan would be "in line with" Mr. Brady's request.

Colombo (SEPT. 11) - The Gulf crisis is expected to hurt the Sri Lankan economy badly, affecting the second and third biggest sources of the country's foreign exchange earnings, experts in Colombo say.

Tea exports and remittances from emigrants, the second and third highest foreign exchange sources, respectively, have been adversely affected in Sri Lanka, which was on the path of economic recovery after its civil war with the Sinhala Marxist Janatha Vimukthi Peramuna (people's liberation movement) rebels last year.

Colombo now faces a major unemployment problem, with over 100,000 Sri Lankans employed in Kuwait beginning to return home virtually empty-handed.

Unemployment, which had already reached 18 percent in an estimated population of 16.8 million, is now expected to rise steadily in the coming months as Lankans return from Kuwait. Those workers account for about 20 per cent of the some 500,000 Lankans employed in the Middle East.

The Gulf crisis has shattered Colombo's hopes of reaching the projected 400 million dollar target from foreign exchange remittances by emigrants at the end of this year against the 325 million dollars earned in 1989.

Foreign employment agents in the capital have already recorded a severe drop in migrants for employment in the Mideast, which accounts for over 40 per cent of the foreign job market for Sri Lankan workers. Some of the recruitment agencies have started reducing their staffs.

#90254d6190 09/11/1990 ~French/German News Agency

PARIS (SEPT. 11) - Michel Camdessus, managing director of the International Monetary Fund (IMF), Tuesday told industrial countries to pursue even more careful policies to "ward off the threat of recession and

inflation" stemming from the Gulf crisis.

In his first public statement on the economic consequences of the August 2 invasion of Kuwait by Iraq and the ensuing rise in oil prices, Mr. Camdessus said the direct impact of the crisis, on present assumptions about prices, was likely to be "manageable."

He said this was partly due to efforts made over the past two decades to reduce the consumption of hydrocarbons.

However, Mr. Camdessus said, "there is still a serious element of vulnerability which gives the industrial countries an obligation to manage the major macroeconomic balances even more carefully, so as to ward off the threats of recession and inflation."

Addressing a United Nations conference on the Least Developed Countries (LDCs), the IMF chief said the Fund believed, "on the basis of plausible assumptions regarding the oil price increase in 1990 and 1991", that the direct impact of the crisis could be to reduce growth in the industrial countries by about 0.25 percentage point this year and by O.5 percentage point next year.

He said consumer prices could rise by just over 0.25 percentage point this year and by 0.5 to 0.75 percentage point in 1991 compared wioth earlier IMF projections.

DHAKA (SEPT. 11) - Bangladesh plans to import 27 million dollars worth of crude oil from Saudi Arabia to offset possible fuel shortages caused by the Gulf crisis, official sources said Tuesday.

Necessary import formalities, including letters of credit, were completed with a local bank Monday, the sources said, but they did not say how much crude was to be purchased.

This will be Bangladesh's first import order of crude since Iraq's August 2 invasion of Kuwait sparked the Gulf crisis, they added.

Bangladesh needs to import about 1.1 billion tonnes of crude oil annually -- mainly from Saudi Arabia and the United Arab Emirates -- for its single refinery in the southeastern port city of Chittagong.

The Government last month said it had adequate stocks of fuel oil to meet domestic needs for two to three months.

KUALA LUMPUR (SEPT. 11) - Malayan Banking Bhd., with assets amounting to 33.53 billion dollars (12.42 billion U.S.), at the end of June last year, heads the list of 23 locally incorporated commercial banks, a merchant bank said Tuesday.

Arab-Malaysian Merchant Bank Bhd. said in a statement to launch its 13th annual Kuala Lumpur Bankers Directory that Malayan Banking, which was also the top bank last year, led in all categories of consolidated accounts.

It had deposits amounting to 22.74 billion dollars (8.42 billion U.S.), shareholders' funds of 1.26 billion dollars (467 million U.S.) and a pretax profit of 181.88 million dollars (67.36 million U.S.).

Bank Bumiputra Bhd. ranked second in terms of assets and deposits which amounted to 30.69 billion dollars (11.37 billion U.S.) and 20.46 billion dollars (7.58 billion U.S.) respectively at the end of March 1989.

Among the 16 foreign incorporated banks operating here Standard Chartered Bank ranked first with assets amounting to 9.93 billion dollars (3.68 billion U.S.) at the end of 1988.

The Hong Kong and Shanghai Banking Corp. was second with assets of 9.43 billion dollars (3.49 billion U.S.) at the end of 1989 while Citibank N.A. followed with 7.18 billion dollars (2.66 billion U.S.) at the end of 1988.

But Hong Kong and Shanghai Banking Corp. ranked top in terms of deposits and pre-tax profit, which amounted to 4.93 billion dollars (1.82 billion U.S.) and 157.38 billion dollars (58.29 billion U.S.) respectively.

JOHANNESBURG (SEPT. 11) - Sales of new cars increased by 11.4 per cent to 20,460 units compared to July's figure of 18,367, the National Association of Automobile Manufacturers (NAAMSA) said Tuesday.

Compared to the corresponding month in 1989, August's sales show an improvement of 8.5 per cent or 1,600 units.

In a statement here, NAAMSA predicted that sales were expected to remain under pressure for the rest of the year as a result of the prevailing economic climate and the continuing high cost of finance.

TOKYO (SEPT. 11) - Japan's Honda Motor Co. Ltd. said Tuesday it would form a joint venture with Mitsubishi Corp. and two Philippine partners to assemble vehicles under the Manila government's "people's car" program.

The leading carmaker said it would also set up a separate wholly-owned unit to produce engines for the new Manila-based company, with total investment in the two projects amounting to 4.6 billion yen (33 million dollars).

The joint venture, known as Honda Cars Philippines Inc., will be capitalised at three billion yen (21 million dollars) with Honda holding 47 per cent and Mitsubishi 23 per cent, a statement said. The rest will be shared by investment firm Ayala Corp. and Rizal Commercial Banking Corp. holding 15 per cent each.

Honda said the company would be set up next month ahead of receiving formal approval to take part in the program to provide cheaper cars to the country's middle class. Under the program, the government aims to reduce minimum cost of a car from 260,000 pesos (10,400 dollars) to 175,000 pesos (7,000 dollars).

The joint venture plans to start producing a modified version of the 1200 cc Honda Civic from March next year. Output is targetted at 12,000 cars a year by 1995, about one-third of this year's estimate for the entire Philippine market.

Honda said it would also set up a separate company, Honda Engineering Manufacturing Philippines Inc., to produce engines from the beginning of 1992. The company, a wholly-owned subsidiary capitalised at one billion yen (seven million dollars), will also start operating next month, it said.

The Japanese carmaker, the country's third-biggest, said the Philippines was the only member of the Association of Southeast Asian Nations (ASEAN) where Honda cars were not sold. Other ASEAN members are Brunei, Indonesia, Malaysia, Singapore and Thailand.

#90254d6330 09/11/1990 ~French/German News Agency

MELBOURNE, AUSTRALIA (SEPT. 11) - Australia's future corporate watchdog, the Australian Securities Commission (ASC), will investigate 16 companies when it starts work on January 1, Chairman Tony Hartnell said Tuesday.

Mr. Hartnell told a lunch here that Alan Bond's Bond Corp. Holdings, Christopher Skase's failed Qintex group and Laurie Connell's collapsed financier Rothwells would be scrutinized.

The companies were "a natural group for investigation and possibly litigation," he said, adding the ASC would take a hard line on enforcing

corporate law.

"There is no doubt that the enforcement of the law which we have to date has been totally inadequate to deal with a clearly dramatic increase in abuses of company law.

"Clearly there is a public expectation that (the ASC) will deal with the excesses of the past," Mr. Hartnell said.

"That is when people engaged in conduct three or four years ago that was perceived by community mores as normal and appropriate, and is now clearly perceived in retrospective analysis to be wrong and approaching criminality."

Mr. Hartnell admitted insider trading laws were technical and prosecutions hard to obtain.

Australia's reputation was one of "corporate recklessness which has not been adequately checked by either commercial morality or the government," he said.

The speech came the same day that the Brisbane District Court ordered the arrest of Mr. Skase, whose media and leisure empire Qintex Australia Ltd. and 28 associated companies went into receivership in November shortly after making a 1.5 billion U.S. dollar bid for Hollywood studio MGMUnited Artists.

Mr. Connell was recently accused in the Western Australia parliament of milking 324 million dollars (261 million U.S.) from Rothwells before the financier collapsed in late 1988.

Canberra has created the ASC to replace the set-up run by the National Companies and Securities Commission (NCSC) along with each of the states' Corporate Affairs Commissions.

WINDHOEK (SEPT. 11) - The first consignment of Zambian copper to be exported through the South African port enclave of Walvis Bay was due to arrive in Namibia Tuesday, a spokesman for the Namibian national carrier Transnamib said.

Transnamib and Zambian Consolidated Mining have signed a contract to transport 30,000 tons of copper a month from the Zambian copperbelt to Walvis Bay until the end of March 1992.

Transnamib spokesman Uno Hengari told the South African news agency SAPA:

"This is the first agreement signed by Namibia as a nation with any land-locked South African Development Coordination Conference (SADCC) nation."

Zambia has previously exported its copper through Dar es Salaam in Tanzania and Beira, Mozambique, a port whose rail links have frequently been sabotaged by the Mozambican rebel movement Renamo.

Namibia became the 10th member of SADCC after gaining independence from South Africa on March 21.

But Namibia has only one viable port - Walvis Bay - which is still part of South Africa, the country whose regional economic dominance SADCC aims to counteract.

#90254d6360 09/11/1990 ~French/German News Agency

Hamburg (SEPT. 11) - The Aral and Esso oil companies of West Germany followed Deutsche Bp's example Tuesday and raised petrol prices by 5 pfennigs (3 U.S. cents) per litre.

Two other companies, Shell and Dea, meanwhile said they were still holding back while they study the market further.

Aral and Esso cited the rise in oil prices on the Rotterdam spot market for their increases, the same reason given by Deutsche Bp, the subsidiary of British Petroleum, for its decision on Monday.

Petrol prices in West Germany are now running 17 pfennigs (11 U.S. cents) per litre higher than before the August 2 invasion of Kuwait by Iraq.

West German petrol prices now range between an average of 1.31 marks per litre of normal gasoline (3.13 dollars per U.S. gallon) to 1.45 marks for leaded super gasoline (3.47 dollars per gallon).

#90254d6390 09/11/1990 ~French/German News Agency

London (SEPT. 11) - A british government inquiry into the December 1988 Lockerbie bombing says passenger planes should be constructed to better withstand the force of a mid-air explosion.

The report by the Department of Transport inquiry into the bombing of PanAm Flight 102 said the force of a blast in the forward cargo hold of the ill-fated Boeing 747 caused sufficient damage that the jumbo jet disintegrated in mid-air.

The plane had just reached cruising altitude of over 30,000 feet on a flight from London to New York on December 21, 1988, when the bomb went off. The plane broke up into several large pieces, which rained down on the town Lockerbie, Scotland, killing a total 270 persons.

Forensics experts traced the blast to plastic explosives concealed in a radio cassette player in luggage in the forward hold, located behind the cockpit and under the first class lower-level deck.

The report said the breakup occurred so quickly that Flight 102's black box registered no sign of an explosion.

HELSINKI (SEPT. 11) - Finland's right-left coalition government painted a gloomy outlook Tuesay when it submitted a draft 1991 budget to parliament predicting a heavy current account deficit and rising unemployment.

Output growth will almost come to a halt, and cost pressures will remain strong as a result of the rise in oil prices, the government said.

The budget, which represents an increase of about 11 percent, or four percent in real terms, over the 1990 budget, totals 157.7 billion markka (42.4 billion dollars).

Social Democrat Minister of Finance Matti Louekoski said the budget would be 8.6 billion markka (2.3 billion dollars) in surplus, giving the government possibilities to pay back foreign loans.

The biggest expenditure item was social security, at 31.5 billion markka (about 8.5 billion dollars) or 20 percent of the total, followed by education, science and culture with 29.1 billion markka.

Defense expenditure would be 9 billion markka, or 5.7 percent of the budget.

Some 0.7 percent of gross national product (GNP) or 3.7 billion markka would go to development aid in line with a U.N. recommendation.

Income tax would go down slightly but at the same time turnover tax would be increased from 17 to 17.5 percent, giving a slight increase in the total tax burden.

Output growth, which last year was five percent, was expected to slow to 2.5 percent this year and a mere half a percent next year, the government said.

The trade deficit would fall but the current account deficit would grow this year by 1.7 billion markka to 23.7 billion (about 6.2 billion dollars), reaching 24.8 billion markka or 4.3 percent of gross national product (GNP) next year.

#90254d6420 09/11/1990 ~French/German News Agency

BERN (SEPT. 11) - Switzerland and Austria decided on Tuesday to evacuate their remaining diplomats in Kuwait to Baghdad because of the deteriorating security situation in Kuwait City, a spokesman for the Swiss foreign affairs department said here.

Switzerland only has two diplomats remaining in the Iraqi-occupied capital, charge d'affaires Franco Besomi and the head of the chancellery Bernhard Bischoff.

The spokesman, Michel Pache, said their departure along with the Austrian ambassador was a joint decision with Vienna prompted by the deteriorating security in Kuwait City where "nationals from Asian countries are going on pillaging sprees that are not stopped by the Iraqi troops".

The Austrian Government confirmed that it was preparing to evacuate ambassador Johann Demel "in coordination with the Swiss".

An Austrian Foreign Ministry spokesman said Mr. Demel was the last remaining Austrian diplomat in Kuwait City. He will return home to Vienna via Baghdad, but his departure from Kuwait will "certainly not be today", the spokesman said.

Official sources here said the Swiss and Austrian diplomats were likely to travel out together, perhaps as soon as Wednesday. They said final arrangements still had to be made with the Iraqi authorities.

Sweden and Norway already pulled their diplomats out of Kuwait City last week.

The Bern spokesman said Switzerland had been considering the evacuation for several days, but did not want to take a position different from Austria, on the one hand, or the European Economic Community on the other. Switzerland and Austria are both neutal.

EEC Foreign Ministers meeting in Rome on Saturday decided to maintain their diplomats in Kuwait City as long as their lives were not in danger.

Mr. Pache said a Swiss foreign affairs department crisis committee had "taken all necessary measures to ensure the departure" of its diplomats.

Diplomatic sources said it was not yet known if they could use their cars with diplomatic registration plates or whether they would make the six-hour road journey to Baghdad in cars provided by Iraq.

They too said the journey would not be before Wednesday since "we plan to get the maximum guarantees for their security from Iraqi authorities".

Iraq no longer recognizes the diplomatic status of foreign embassies in Kuwait City after ordering them to close down on August 24.

#90254d6630 09/11/1990 ~French/German News Agency

SOWETO, South Africa (SEPT 11) - Leading churchman the Reverend Frank Chikane toured the strife-torn Naledi district of Johannesburg's largest black township on Tuesday, urging the government to rein in the police.

As police spokesman Colonel Tienie Halgryn reported that another four bodies had brought the death toll in Soweto since Friday to 41, Mr. Chikane warned that the fighting would only stop if the government persuaded police to be impartial.

Squatters at the Tladi camp on the outskirts of Naledi, who lost at least 10 neighbours on Saturday evening when vigilantes from Zulu leader Chief Mangosuthu Buthelezi's Inkatha party swarmed out of the massive Merafe single-sex hostel complex, told him of police bias.

Mr. Chikane, General Secretary of the South African Council of Churches (SACC), said that when he visited Tladi camp early Sunday he found bodies so riddled with bullets that he doubted Inkatha alone could have been responsible.

"You don't waste bullets if they are illegal supplies," Mr. Chikane said.

Several Tladi and Naledi residents said on Sunday they had seen white men disguised as blacks among the heavily-armed Inkatha raiding party,

prompting leading figures including Anglican Archbishop Desmond Tutu to speculate that a mysterious "third force" was orchestrating violence.

As Mr. Chikane held prayers in the Tladi camp on Tuesday one youth was heard to say: "You can pray but don't close your eyes."

Mr. Chikane warned that the violence might degenerate into total anarchy, saying that the problem was no longer simply between Inkatha and residents but between residents and the police, recalling the worst township violence of 1984.

An AFP correspondent saw police fight running battles with Naledi residents Sunday without any apparent attempt to go into Merafe hostel to interview Inkatha supporters residents blamed for the killing.

A French Roman Catholic priest in Mr. Chikane's party, Father Jacques Anyot, spoke of a pattern emerging from the series of Inkatha attacks around Johannesburg which have sparked South Africa's worst-ever wave of violence, leaving well over 600 dead since August 13.

Fr. Anyot said attackers had been dropped off from white minibuses and picked up again after the slaughter was over.

"These people kill a few people, maim them, and run away," he said.

Mr. Chikane and his team also visited the Merafe hostel to talk to hostel dwellers, amid relative quiet.

Col. Halgryn rejected claims of police bias, saying: "Many more people would have been killed if the poolice were not here."

Asked if the security forces could stop the killing he said: "The police can't get to the root of the cause of the violence."

Meanwhile police spokeswoman Captain Ida van Zweel reported 22 deaths from overnight fighting "between Zulus and Xhosas" at Katlehong, east of Johannesburg, one of the three townships where fighting on August 13 sparked two weeks of carnage around Johannesburg that left more than 500 people dead.

Capt. Van Zweel said most of the victims had been stabbed or hacked to death in clashes that lasted into the morning. Police expected to find more bodies, she said.

A correspondent for the South African news agency SAPA who lives in the township said hostel-dwellers armed with guns began fighting residents in the Ramokonopi and Mosiliki sections of the township, while Inkatha men from the nearby Kwesine hostel vowed to kill all the locals.

African National Congress (ANC) Deputy President Nelson Mandela was due to see President Frederik de Klerk in Pretoria Tuesday afternoon to discuss violence.

ANC spokesman Saki Macozoma told AFP the focus would be on Natal province, where a Zulu civil war between Inkatha and ANC supporters has left more than 4,000 dead since late 1986.

Herman Cohen, U.S. Assistant Secretary of State for African Affairs, was also expected to raise the issue of violence in simultaneous talks in Pretoria with Foreign Minister Pik Botha.

#90254d6680 09/11/1990 ~French/German News Agency

TUNIS (SEPT 11) - A high-ranking official of the Palestine Liberation Organisation (Plo) Tuesday proposed here an Arab League meeting to discuss again the controversial issue of the league's headquarters.

Faruk Kaddumi, the Plo's foreign affairs chief, called on ''Arab brothers'' to tackle the problem with ''patience and calm'' and debate the issue in Tunis on September 17.

Observers said Kaddumi indirectly rejected Monday's decison by an Arab League foreign ministers meeting, which confirmed the Egyptian capital as the site of the organisation's headquarters. The decision was taken by only 12 nations of the 21-member league.

Monday's meeting was boycotted by Iraq, Jordan, Sudan, Yemen, Libya, Tunisia, Algeria, Mauritania and the Plo.

A move of the headquarters from Tunis back to Cairo was approved in March, but was called into question because of the split in the league over the Iraqi occupation of Kuwait last month.

Cairo is laid down as site of the headquarters in the 1945 league charter. The league had moved its headquarters to Tunis in 1979 in protest after Egypt signed peace with Israel.

Iraq, angered at a recent Egyptian-led move to send league troops to defend Saudi Arabia against a possible Iraqi attack, challenged the headquarters decision on August 10.

NEW DELHI (SEPT 11) - Over 20 suspected Moslem militants were charred to

death Tuesday when a bus in which they were travelling caught fire following an encounter with Indian security forces in the violence-rocked north Indian state of Kashmir.

The United News of India (Uni) news agency reported that the incident occurred at Thueen town when a Border Security Force patrol intercepted a vehicle on a random check.

As soon as the bus, coming from the tourist resort town of Sonmarg to Gandebal, stopped four radicals got down from it and opened fire.

The security forces returned fire as a result of which the bus caught fire and all the militants on board were burnt alive, Uni said. The authorities later recovered 16 charred bodies from the gutted bus.

The agency quoted official souces in the state capital of Srinagar as saying that the security forces recovered two rocket launchers, seven Ak-47 assault rifles and two rockets from the wrecked vehicle.

India and Pakistan have fought two of their three wars for the control of Kashmir since both nations became independent from British colonial rule in 1947.

India holds nearly three-fourths of the area while Pakistan occupies the rest which Islamabad calls ''Azad Kashmir'' (Independent Kashmir).

BANGKOK (SEPT. 11) - Thai Airways International (THAI) has suspended flights to Dhahran and Riyadh in Saudi Arabia indefinitely because of the Gulf crisis, a senior THAI official said here Tuesday.

THAI had taken the decision "out of concern for the safety of passengers,"

vice president for marketing Nares Hovatanakul said, and services to the two Saudi Arabian destinations would be stopped immediately.

THAI normally operates three flights a week to Dhahran and one to Riyadh.

Mr. Nares said these flights would be resumed as soon as the situation in the Gulf, sparked by Iraq's August 2 invasion and subsequent annexation of Kuwait, returned to normal.

#90254d6850 09/11/1990 ~French/German News Agency

PERTH, Australia (SEPT. 11) - Perth's only afternoon newspaper, the Daily News, was placed in provisional liquidation Tuesday after a fair trade watchdog blocked Alan Bond's bid to buy the paper, union officials said.

The Australian Journalists' Association said 200 staff had been sacked after Canberra's Trade Practices Commission (TPC) barred the bid by Mr. Bond's West Australian Newspapers (WAN).

WAN, publisher of the Perth morning daily newspaper, The West Australian, had said it would call in printing debts of nine million dollars (7.2 million U.S.) if the sale was not approved.

The TPC, which had acknowledged that blocking WAN's bid would result in the newspaper's "probable immediate closure," said the decision was made to avoid a monopoly of the Perth newspaper market.

The Daily News's losses meant the paper would have shed many of its 200 staff anyway, the TPC said.

In a front-page editorial, the Daily News said it faced closure because of a decision by a "naive and misguided bunch of bureaucrats."

#90254d6860 09/11/1990 ~French/German News Agency

TOKYO (SEPT. 11) - Budget requests from Japanese ministries and government agencies for fiscal year 1991 rose 7.4 percent from 1990 to 71.11 trillion yen (508 billion dollars), officials said Tuesday.

The requests are expected to be slashed when the finance ministry compiles the government's 1991 budget in December, officials said. The fiscal year starts in April.

Budget requests for national defense represented a rise of 5.8 percent, while those for official development assistance (ODA) to developing countries jumped 10.1 percent, the finance ministry said without

specifying the amounts.

-30- 763
#90254d6890 09/11/1990 ~French/German News Agency
TOKYO (SEPT. 11) - Japanese business confidence remained strong in August but was down slightly from May, mainly reflecting reduced optimism among paper, chemical and ceramic manufacturers, the Bank of Japan said Tuesday.

The central bank's quarterly short-term survey of enterprises showed that most manufacturers had upwardly revised sales and profit forecasts to reflect "strong domestic demand and expectations of moderate export increases."

The outlook for the rest of the year deteriorated slightly but remained strong, despite the recent surge in crude oil prices, the bank said.

Confidence among non-manufacturers meanwhile strengthened with most firms - particularly those involved in personal consumption and construction - predicting "firm sales and steady profit increases."

But the survey also found that Japan's acute labour shortage had worsened during the period and that many companies were predicting higher prices for their goods and services, partly due to higher oil prices.

"Labour conditions of enterprises, regardless of industry or size, have further tightened. Against the background of buoyant domestic demand, the continued tightness in product markets is expected to persist," it warned.

The bank said its diffusion index - the percentage of respondents with a favourable outlook minus the percentage of those with unfavourable views - fell from 48 points in May to 46 points in August for big manufacturers. The forecast for the final three months of the year was 43 points, the bank said.

The index for the basic materials sector was down with the paper, chemicals and ceramic sectors all citing a decline in business conditions while iron and steel along with non-ferrous metal manufacturers said business was unchanged.

Most industries in the processing sector reported improved conditions in the same period, notably manufacturers of metal products, general machinery and precision instruments along with shipbuilders and carmakers.

The diffusion index for small to medium-sized manufacturers meanwhile rose from 3.1 points to 3.2 but was forecast to fall to 2.8 by the end of the year.

In the non-manufacturing sector, the index for large companies rose from 4.8 points to five and was forecast to retreat to 4.9 points by year's end.

The index for small to medium-sized non-manufacturers rose from 3.3 points to 3.4 but was expected to decline to 2.4 in the coming months.

PARIS (SEPT. 11) - Some 120 extra police and traffic wardens were called in to enforce draconian new parking regulations which came into force in the traffic-snarled centre of Paris Tuesday.

City authorities decided to introduce "red roads" banning cars from parking along some central boulevards and on the south bank of the river Seine in order to ease the traffic jams in the city centre which have increased by 400 percent in the past 10 years.

The "red roads", on a north-south, east-west axis cover a total 27 kilometres (17-miles). Delivery vehicles are also affected by the new measures, and are only allowed to park on the "red roads" overnight and in the morning.

No longer will Parisians be able to leave their car double parked while they grab a quick coffee in a street cafe, or stop outside a store while a passenger runs inside to do the shopping, police said.

But police on Tuesday took a lenient attitude towards offenders, warning motorists that if they tried to park, or even stop, on the designated roads from Thursday, their vehicles would be towed to the car pound.

Seven motorists on the north-bound boulevard de Sebastopol were fined 230 francs (43 dollars) on Tuesday morning and informed that they would have to pay three times as much, as well as travel to the car pound, if caught from Thursday.

Some store-owners complained to police that they would be unable to receive deliveries, with one threatening to start a protest petition. A police officer explained that special delivery zones had been set up, but admitted that in some parts of the centre, such as the streets where the rag trade is located "it will be difficult to work out".

Paris mayor Jacques Chirac has promised to create a total 130,000 extra fee-paying parking spaces to compensate for the parking ban, which is to be extended to cover 100 kilometres (60 miles) at a later stage.

#90254d6920 09/11/1990 ~French/German News Agency
CAPE TOWN (SEPT. 11) - Seven more political prisoners were freed here Tuesday under an accord between the government and the black nationalist African National Congress (ANC), an AFP correspondent said.

Eighteen prisoners have now been released since the second historic session of preliminary talks between the two sides in Pretoria on August 6.

Justice Minister Kobie Coetsee said on August 31, the day before releases were due to start in terms of the accord, that a joint working group had failed to meet to identify candidates, so only 15 prisoners would be freed, instead of the 125 expected by the ANC.

ANC spokesman Saki Macozoma told AFP in Johannesburg Monday that the working group had now begun meeting.

Tuesday's releases included for the first time a prisoner who had not served two-thirds of his sentence and would not normally have qualified for remission, a spokesman for the seven, Anderson Ncivata, told a media conference.

Mr. Ncivata said morale on the notorious Robben Island prison off Cape Town, which had held five of those freed Tuesday, had been high since the signing of the Pretoria Minute, as prisoners now expected to be released.

BONN (SEPT. 11) - The West German government Tuesday again condemned the Iraqi ''aggression'' against Kuwait and called for Iraq's pullout from the oil-rich Gulf state.

The state minister at the foreign ministry, Helmut Schaefer, said Iraq has plunged the world into a deep crisis by invading Kuwait on August 2 and later annexing it.

Speaking at a ceremony in honor of the Iranian ambassador to Bonn, who is to return home at the end of his assignment, Schaefer said West Germany would intensify its cooperation with Iran.

LONDON (SEPT 11) - The Dalai Lama predicted a breakthrough in Tibet's stalemate with China in the coming decade but warned there was a "serious" danger of Tibetans being pushed aside under swelling Chinese immigration.

"Once the Chinese government's attitude becomes more open, more reasonable,

then there is a real opportunity to discuss" the situation in Tibet, the Dalai Lama said.

"We are not against the Chinese," the exiled spiritual leader of Tibet told reporters during a 45-minute news conference at a hotel near London's Heathrow airport.

"I am hopeful" that a dialogue with Beijing could be opened within five to 10 years, he said.

The Dalai Lama, 55, reiterated that he had no plans to be the leader or a member of a future Tibetan government, saying any Tibetan administration should be elected democratically by the Tibetan people.

"I'm quite sure that within a few years things will change for the better -- that means more democracy, more freedom," he said.

"There is a basic desire that human beings have for democracy and freedom and no force can stop that," the Dalai Lama added.

He said there were "signs of softening on certain points" within China's hardline leadership and asserted that with the fall of the Berlin Wall and the spreading of democracy throughout eastern Europe change in China could no be far behind.

"Outside world opinion makes a tremendous impact on the Chinese mind," he said, adding that Chinese authorities were compelled to lift martial law in Beijing as a result of world pressure.

He confirmed that hundreds of people were killed in Lhasa prior to China's declaration of martial law there on March 8, 1989, but said he had heard of figures ranging from 200 to 800.

PRETORIA (SEPT. 11) - South African Foreign Minister Pik Botha met black African leaders including the Prime Minister of Benin Nicephore Soglo on his two-day trip to the Ivory Coast, his spokesman Pieter Swanepoel confirmed Tuesday.

Mr. Botha held informal talks with the delegations Senegal and Ghana sent to Yamoussoukro for Monday's consecration by Pope John Paul II of the giant Basilica of Our Lady of Peace, the controversial brainchild of Ivory Coast President Felix Houphouet-Boigny.

Mr. Botha also met a French delegation headed by former premier and mayor of Paris Jacques Chirac, Mr. Swanepoel said.

Observers here said the invitation of Mr. Botha to the consecration ceremony was further evidence of the growing acceptance of South Africa by black African nations.

DHAKA (SEPT 11) - Bangladesh, one of the world's poorest countries, will loose 500 million dollars annually because of the Gulf conflict, the government announced Tuesday.

Finance Minister Abdul Munim said bangladesh would loose 100 million dollars in home remittances from its nationals who worked in Kuwait before the August 2 Iraqi invasion.

If the crisis continues, home remittances lost will be about 250 million dollars annually, he said.

An estimated 80,000 Bangladeshis worked in Kuwait and another 30,000 in Iraq, but officials said over 80 per cent of them want to return home after the invasion.

Losses in exports, mainly fresh food, to the Gulf state account for more than 200 million dollars a year, Munim said.

Finance ministry officials also expressed concern over the fate of 56 million dollars in aid pledged by Kuwaiti for 1990.

#90254d7080 09/11/1990 ~French/German News Agency

DHAKA (SEPT. 11) - Bangladesh has decided to wind up its embassy in occupied Kuwait and recall home all its diplomatic personnel, a foreign ministry spokesman said Tuesday.

The spokesman said the decision was taken in view of the worsening situation in Kuwait, which was occupied by Iraq on August 2.

''The embassy is unable to function and discharge consular duties,'' he said. Iraqi troops have cut power and water to diplomatic missions in a bid to force them to close.

Bangladesh, however, confirmed that it still recognises the government of exiled Kuwaiti emir Sheikh Jaber al-Ahmed as-Sabah.

#90254d7100 09/11/1990 ~French/German News Agency

LONDON (SEPT 11) - British shipping operator Peninsular and Oriental Steam Navigation (P and O) said Tuesday its taxable profit plunged 22 per cent in the first half of this year to 132.1 million pounds (249 million dollars) from 169.3 million (319 million dollars).

Turnover was up 23 per cent over the first half of last year at 2.35 billion pounds (4.4 billion dollars) from 1.91 billion (3.6 billion dollars), but the group warned that its overall result for the year would be down on last year's level.

"The current difficult conditions at home and abroad, probably extending into 1991, leave few of our activities untouched," group chairman Sir Jeffrey Sterling said.

The profit figure was below market forecasts of as much as 160 million pounds, and the results were "worse than they seem" given that they included profits from the sale of some of P and O's ships, said Charles Pick, an analyst with the Nomura Research Institute.

Earnings per share fell 24 per cent to 21.4 pence but interim dividend improved eight per cent to 13.5.

P and O shares lost 12 pence in early trading in London on the news, but had recovered by midday to stand unchanged at 495 pence, as the market was "quite pleased by the dividend," Mr. Pick said.

First half profit was dragged down by a two-thirds drop in profit in the construction division, to 27 million pounds (50.9 million dollars) from 82.4 million (155.4 million dollars).

The group also saw interest payments rise sharply, to 55.3 million pounds from 31.5 million in the first half of last year.

P and O's best performance came in its ferry and cruise ship operations, which saw profit rise 63 per cent to 47.7 million pounds from 29.2 million.

The improvement was largely thanks to Princess Cruises, which took delivery of two new super-liners and P and O European Ferries, whose market share is increasing, Sir Jeffrey said.

The results were released the day after P and O European Ferries and seven employees went on trial in London on manslaughter charges over the March 1987 sinking of the ferry Herald of Free Enterprise in which 193 people died.

#90254d7120 09/11/1990 ~French/German News Agency
GENEVA (SEPT 11) - The international airlift to repatriate refugees from Iraq begun at the beginning of the month will have flown 42,000 refugees out of Jordan by September 22, the International Organisation for Migration (Iom) announced Tuesday.

An Iom spokesman said there were currently between six to eight flights daily, and that the number of refugees in Jordan, put at 105,000 a week ago, had decreased to about 75,000. The situation is beginning to normalise, the spokesman said.

The first airlift includes 110 flights to Bangladesh, Sri Lanka, the Philippines, Egypt, India and Pakistan. According to the United Nations Disaster Relief Organisation (Undro), which is coordinating the repatriation efforts, the flights don't include those organised by the individual countries themselves.

The Iom spokesman praised not only the work of Undro but also Jordan's assistance and the increased generosity of the donor countries. Some 36 million dollars has been pledged in the space of a week, the spokesman said.

The spokesman added that a Greek and a Pakistani ship - having a combined capacity of about 6,600 passengers - might be used in the repatriation efforts.

The Iom said it did not anticipate another sudden wave of refugees fleeing into Jordan, although approximately 2 million foreign workers are said to have remained in Iraq and Kuwait.

BREMEN, WEST GERMANY (SEPT. 11) - A bremen company Tuesday announced plans to convert Soviet tanks for heavy firefghting duty.

The company - Kbl (Coordination Office for Logistics) - plans to experiment initially with two T 55 tanks made available by the Soviet Defense Ministry.

Spokesman Fred Waschkowski said the T 55 was especially suited because of its robustness and simplicity of design.

It would be possible to equip it with tanks for 18,000 litres of water, and send it into the thick of a fotest fire with little risk to the crew, meaning major blazes could be countered at source.

Other possible uses would be fires at nuclear reactors or airports. A

further advantage of the plan was that large numbers of T 55 tanks were available after the Soviet pull-out from East Germany.

MANAMA (SEPT. 11) - Almost six weeks after the Iraqi invasion of flourishing, wealthy Kuwait, refugees now describe it as a ''dying country''.

Westerners have gone into hiding and live in constant fear of being discovered by Iraqi soldiers. Food is growing increasingly scarce. Electricity and water are being shut off more frequently. All contact with the outside world has been cut off.

Businesses and public buildings are plundered by Iraqi soldiers. ''Everyone is afraid,'' said an Indian who recently left the country for Dubai by boat with 800 of his countrymen.

At night, the quiet is repeatedly shattered by the sound of gunfire and exploding grenades. ''I'm still scared, and whenever I hear a loud noise, I feel it's the gunfire in Kuwait,'' said an Indian woman who fled.

When daylight comes, the charred remains of Iraqi military vehicles are mute testimony of attacks by Kuwaiti resistance groups.

Despite Kuwaiti resistance and international pressure, Iraq's grip on its ''19th province'' is tightening. Kuwait's ambassador to the United Nations reports that Iraqi troops have openly shot and killed civilians and have carried out mass arrests.

Citizens caught concealing foreigners face the death penalty. By Saturday, they must surrender all of their weapons.

#90254d7200 09/11/1990 ~French/German News Agency

CAIRO (SEPT. 11) - The split in Arab ranks over Iraq's invasion of Kuwait deepened Tuesday after the Arab League defied Baghdad by formally proclaiming the return of its headquarters to the Egyptian capital.

Twelve of the League's 21 members voted unanimously here Monday to return the headquarters to the banks of the Nile by October 31, effectively ending an 11-year exile in Tunis caused by Egypt's 1979 peace treaty with Israel.

The move was taken at an emergency ministerial meeting branded by Baghdad as illegal and marred by the absence of Iraq and eight other members that have either openly backed or refused to condemn the invasion of Kuwait.

Iraq, a strong supporter of Egypt before the Gulf crisis, had been named to head the committee formed to oversee the transfer when Arab ministers decided in March that the League should be moved back to Cairo before July 1991.

The committee's report was originally to have been presented to an ordinary ministerial meeting in Tunis later this month. But the Iraqi invasion, strongly condemned by Egypt which sent troops to the Gulf, turned everything around.

Charging that Egypt was no longer impartial and could not therefore host the Arab League, Iraq called on the body -- which was founded here 45 years ago -- to reconsider its original transfer decision.

The situation is complicated by the fact that Tunisia, a key player in the issue, appears to be in the Iraqi camp and did not take part in Monday's meeting, although it was named to a new committee to oversee the transfer.

Other members that refused to attend were Algeria, Jordan, Libya, the Palestine Liberation Organisation, Sudan, Mauritania and Yemen.

Egypt, which along with Saudi Arabia heads the anti-Iraqi coalition formed after the invasion of Kuwait, moved quickly to ensure that the new split in the Arab world would not scupper plans for the transfer.

The report of the original Iraqi-led committee was to have been heard at an ordinary ministerial conference in Tunis September 17.

But Egypt won a majority vote at a ministerial meeting here on August 30-31 for the transfer to be expedited, despite protests from Iraq and Tunisia, and was able to keep its opponents at bay for Monday's official proclamation.

Cairo was backed by Bahrain, Djibouti, Kuwait, Lebanon, Morocco, Oman, Qatar, Saudi Arabia, Somalia, Syria and the United Arab Emirates (UAE) -- all the countries in the anti-Iraqi camp.

Morocco attended at the last minute but voiced caution over proclaiming the transfer amid such a deep split, which had been illustrated by the resignation of League Secretary General Chedli Klibi on September 3 after 11 years in the post.

A new overseeing committee was named with representatives of Egypt, Morocco, Syria, Tunisia and the UAE. But a first meeting scheduled for Tuesday in Cairo was called off to allow preliminary talks with Tunis, Egyptian sources said.

Iraq, effectively expelled from the committee, had already warned those who attended the meeting that their decisions would be "null and void" and the proclamation appeared to cement the current division in Arab ranks.

Returning the headquarters to Cairo follows Egypt's reinstatement to the League in May 1989, after a 10-year suspension, and was to have consecrated the country's diplomatic return as a leading Arab power.

Tunisia, which under the March decision will continue to host several League bodies, is pushing for alternative headquarter status, similar to that of Geneva in the United Nations. A new League building is being built in Tunis.

But the meeting Monday in Tunisia's absence confirmed that Tunis would retain only the Arab State Broadcasting Union, the council of Arab interior ministers and the League's Educational, Cultural and Scientific Organisation.

Finding a new secretary general meanwhile appears impossible as a two thirds majority is necessary to elect a replacement for Mr. Klibi. His deputy, Assaad al-Assaad, has assumed the post on an interim basis.

The next ordinary meeting of Arab League foreign ministers was postponed Monday from September 17 to 27.

#90254d7240 09/11/1990 ~French/German News Agency

JAKARTA (SEPT 11) - Major world powers must continue to put pressure on Cambodia's warring factions if the collapse of a United Nations-brokered peace agreement to end the near 12-year war there is to be avoided, diplomats said here Tuesday.

China, the United States and the Soviet Union have put strong pressure over the past weeks on the guerrilla coalition and the Phnom Penh government leading to a major breakthrough and an agreement here Monday along the lines of the plan drawn up by the five permanent members of the U.N. Security Council.

The diplomats, who monitor developments in Cambodia, said China, in particular, would have to continue working on the Beijing-backed Marxist Khmer Rouge, the military muscle of the coalition, for it to show the necessary flexibility for a settlement to be finalised.

The Phnom Penh government, supported by Moscow-ally Vietnam, and the coalition, grouping the Khmer Rouge with two U.S.-aided non-communist groups, have accepted the Security Council plan giving the United Nations broad executive powers to keep peace in Cambodia.

They have also formed a Supreme National Council (SNC) under the plan with six seats each going to Phnom Penh and the guerrilla coalition.

China, the Soviet Union and the United States are permanent members of the Security Council, as well as Britain and France.

The Jakarta accord must now be taken to an international conference on Cambodia in Paris to be completed and finalized.

Phnom Penh and the Khmer Rouge, Cambodia's former ruling group driven from power in January 1979 by a Vietnamese invasion, both said Tuesday that swift action should be taken on the agreement reached after a two-day meeting chaired by Indonesia and France.

But, in a sign of possible future problems, the factions were unable to hold a proposed informal meeting of officials to discuss the first meeting of the SNC as the Khmer Rouge did not turn up, Cambodian sources said.

"This is clear evidence of the need for constant pressure to be applied by the world powers on their proteges," one diplomat said.

The SNC meeting is a matter of urgency as the council is due to take over Cambodia's seat in the U.N. formerly held by the guerrillas.

The issue is due to be discussed at the opening of the U.N. General Assembly in New York on September 18.

A senior Phnom Penh official refrained from calling the non-appearance by the Khmer Rouge a snub, but the minister attached to the prime minister's office, Hor Nam Hong charged that "the Khmer Rouge is in no hurry to hold discussions."

Mr. Hor Nam Hong said his group had been prepared to have the first meeting of the SNC, which is to be a largely symbolic body and delegate much of its authority to a U.N. Transitional Authority in Cambodia (UNTAC), as soon as Wednesday or Thursday in Jakarta.

Phnom Penh, he said, had hoped the council could discuss sending a joint delegation to the U.N., self-restraint on the battlefield ahead of a formal ceasefire, and a moratorium on aid to the factions from outside powers.

On leaving here Khmer Rouge delegates said, however, that they wanted the U.N. to move into Cambodia quickly to supervise peace.

China's massive military assistance to the Khmer Rouge has allowed the faction, blamed for the killings of hundreds of thousands during its rule over Cambodia between 1975 and 1979, to remain a powerful guerrilla force

infiltrating most of Cambodia.

Asked what extra action the United States could now take toward peace in Cambodia, one diplomat said it should "help Thailand stop the flow of Chinese arms going to the guerrillas, if not completely, at least the bulk of it."

Thailand has served as a conduit for Beijing's military supplies to the Khmer Rouge and in smaller quantities to the two non-communist groups comprising supporters of former monarch Prince Norodom Sihanouk and those of former prime minister Son Sann.

Among problems that remain to be settled ahead of a final agreement, diplomats identified as particularly difficult the institution of a ceasefire that would hold and the formulation of election regulations that would be accepted by the adversaries.

"The Khmer Rouge, for instance, is in effect required to undergo a somewhat radical transformation from an autocratic, powerful military force to a democratically-inclined political movement," one said.

Indonesian Foreign Minister Ali Alatas, who has been given much of the credit for the agreement, warned Monday that a "rough" road lay ahead.

#90254d7310 09/11/1990 ~French/German News Agency
SEOUL (SEPT. 11) - Soviet and U.S. policy analysts called here Tuesday for Moscow and Washington to join forces to push their respective Korean allies into a stable peace, using the superpower Middle East consensus as an example.

Though from different perspectives, Michael Nossov of Moscow's U.S. and Canada Institute and Benjamin Lambeth of the Rand Corporation called for a superpower alliance of sorts, which would put regional stability above the interests of Seoul and Pyongyang if necessary.

The two men represent think tanks that carry weight within their own countries and often reflect official thinking. They are attending a seminar on the "New Order" in Asia in the 1990s sponsored by the government Unification Board.

Since the creation of the rival republics in 1948, Washington has backed its ally, the capitalist South, while the Soviet Union has done the same for the communist North.

Their arguments came one week after an unprecedented meeting here between the prime ministers of the North and South, a meeting diplomats say was

made possible in part by Soviet pressure on Pyongyang to be open to dialogue.

It also follows a visit to North Korea last week by Soviet Foreign Minister Eduard Shevarnadze, who said after leaving that Pyongyang could not interfere with the development of relations between Moscow and Seoul.

Asked about reports here Monday that Moscow and Seoul would seal ties in November, Mr. Nossov said "let's keep our finger crossed."

He said in the paper he presented that Moscow and Washington should discuss ceasing military activities in the peninsula and the "further cessation of military assistance rendered to the Korean states."

The two superpowers should also agree to "reject any form of aggression on the peninsula," informing both the "South and North leadership about the results of such agreement," Mr. Nossov said.

"Demonstration of Soviet-American consensus on the Korean problem would sufficiently strengthen Soviet and American positions in their dialogue with Korean leaders," the Soviet analyst said.

#90254d7340 09/11/1990 ~French/German News Agency

KATHMANDU (SEPT. 11) - After decades of absolute monarchy, Nepal's Constitution Recommendation Commission (CRC) has drafted a document limiting the king's powers and guaranteeing fundamental rights.

King Birendra received the draft constitution at the palace Monday in a ceremony attended by Prime Minister Krishna Prasad Bhattarai, his cabinet colleagues and CRC members representing all political parties.

Under the draft constitution, to be promulgated after its review by the Council of Ministers, the Nepalese monarch will remain a "nominal figurehead" acting on the advice of the council.

Analysts said Tuesday that the document, with 134 articles and sub-articles, appears primarily aimed at curtailing the absolute power of the king while retaining the longstanding dominance of the Hindu religion.

Among its provisions:

- that the king retain emergency powers to be wielded only on the advice of the cabinet

- that parliament must ratify within one month decisions taken under this provision, which cannot be used to scrap the multi-party system

- that the army be controlled by a national defence council headed by an elected prime minister and including the chief of army staff, field marshall, and home, foreign and defense ministers

- that the judiciary be governed by a council headed by the prime minister, who will appoint Supreme Court and other judges on a permanent basis

- that the parliament be empowered to impeach judges

- that capital punishment be abolished except for attempts of the life of the monarch or his family

The document also envisions a bicameral parliament comprising a lower house of 175 elected members and upper house of 60 members, of whom 10 per cent will be nominated by the king on the advice of the government.

-30- 1993

#90254d7360 09/11/1990 ~French/German News Agency

BONN (SEPT 11) - West Germany said Tuesday that it would pay a total of 12 billion Deutsche marks (7.5 billion dollars) to Moscow in exchange for the withdrawal of the estimated 380,000 Red Army soldiers from East Germany. The sum will help cover the costs of transporting and resettling the Soviet soldiers, the last of whom are due to leave East Germany by December 31 1994.

On Monday, Soviet Foreign Minister Eduard Shevardnadze announced that an agreement had been reached in principle but did not name any figure. West Germany Finance Secretary Horst Koehler, who is handling the negotiations with Moscow, went to Moscow on Tuesday to discuss how the sum is to be allocated. The main lines of the troops withdrawal were agreed upon last Thursday by West German and Soviet negotiators but the financial issue was left unresolved.

It took two telephone calls between Chancellor Helmut Kohl and President Mikhail Gorbachev on Friday and on Monday to finalise the agreement just two days ahead of the next round of the "Two-plus-Four" talks on German reunification to be held Wednesday in Moscow.

On Tuesday, a spokesman for the Soviet president said Gorbachev's decision on whether to attend German reunification celebrations on October 3 in Berlin would depend on the outcome of the "Two-plus-four" negotiations.

"President Gorbachev's presence in Berlin is still under discussion. The Chancellor (Helmut Kohl) brought up the matter during their phone call (on Monday)," said Vitaly Ignatenko.

He said the decision depended on the success of the talks between the two German states and the victorious World War II allies: United States, Soviet Union, Britain and France on the external aspects of German unification.

#90254d7450 09/11/1990 ~French/German News Agency

MANILA (SEPT. 11) - Bar girls and villagers armed with clubs and bottles halted a leftwing rally against U.S. bases north of here on Tuesday while a similar rally in Manila was dispersed when a riot policeman accidentally dropped a teargas canister.

About 100 bar girls and local people who appreciate the free-spending U.S. servicemen, blocked the road leading to the U.S. Clark Air Base to prevent a group of 70 leftist students from staging a protest rally there, witnesses said.

The demonstrators were forced to retreat after a brief but heated confrontation with the bar girls and went to hold their protest elsewhere.

Communities outside the U.S. bases are often highly dependent on the patronage of base personnel.

Another anti-U.S. bases rally by some 200 leftist students in Manila was dispersed Tuesday when a riot-policeman monitoring the demonstration accidentally dropped the tear-gas canister he was carrying.

Meanwhile, Foreign Secretary Raul Manglapus said here Tuesday that talks on the future of U.S. bases in the Philippines would be held here despite reports of security concerns.

He dismissed speculation that the talks which the U.S. Embassy here said would start Monday, would be held outside the Philippines following threats by communist insurgents to attack American personnel.

Communist insurgents, who oppose the presence of U.S. bases in this country killed two U.S. airmen just outside Clark Air Base in the northern Philippines shortly before the first phase of the talks began last May.

Eight U.S. base personnel have been killed by communist insurgents since 1987 and a U.S. Peace Corps worker was kidnapped by the guerrillas early this year.

#90254d7470 09/11/1990 ~French/German News Agency

GENEVA (SEPT 11) - The United Nations Disaster Relief Organization (UNDRO) announced Tuesday that the number of people living in camps in

Jordan after fleeing Iraq had dropped for the first time since the start of the Gulf crisis.

On Sunday and Monday, 7,160 foreign nationals left Jordan as against 3,078 arriving, a UNDRO spokesman here said.

UNDRO earlier gave details of the number of displaced persons in Egypt, Iran, Turkey and Syria, in what officials described here Monday as a bid to put an end to "often contradictory reports".

On Monday, there were 74,790 people in Jordanian camps, including 38,000 in the Ruweished region bordering Iraq (17,500 at Shalan-1 transit camp, 14,000 at Shalan-2, 3,500 at Shalan-3 and 3,000 at the border post).

In the Amman region there were 37,000 people, mostly on the International Fair Site and at Andalus.

International Organization for Migration (IOM) spokesman Rolf Jenny meanwhile said Tuesday on returning from Jordan that the Geneva-based IOM was currently undertaking between six and eight repatriation flights a day, mainly to Bangladesh, Sri Lanka and the Philippines.

The IOM had also started flying nationals home to Egypt, India and Pakistan at the request of the governments concerned, Mr. Jenny said, adding that he was grateful to donors who had provided a total of 36 million dollars for repatriation operations.

By Monday, the IOM had chartered 24 flights, not including those organized by governments. The IOM has asked other governments to follow the French example of lending a Boeing 747.

"I think we can handle it," if the number of displaced persons increases, Mr. Jenny said, but he added that the situation in the desert transit camps was "still relatively precarious", though international humanitarian organizations were working well together.

On people from Iraq and occupied Kuwait who have gone to other Middle East nations and Turkey, UNDRO has released the following figures:

- Egypt: Some 200,000 Egyptians have returned home and been taken in charge by Red Crescent organizations in 26 districts. There were also 20,000 Kuwaitis in Cairo. UNDRO stated that the situation was "currently in hand" but could deteriorate with more arrivals.

- Iran: By last Thursday, 19,363 foreign nationals from Iraq and Kuwait had crossed into Iran. They included some 13,300 Pakistanis, with Bangladeshis, Sri Lankans, Indians and Afghans.

A U.N. team reported that up to 60,000 people were expected to arrive soon at the Bazargan border post. Thousands of people waiting to cross Iran needed "urgent assistance".

- Syria: Some 50,000 Syrians were back from Iraq and Kuwait, of whom about half needed aid. Syria has also taken in some 10,000 people from other Arab nations, of whom some have been repatriated to Lebanon and Egypt. It is hosting a number of Lebanese and Palestinians.

- Turkey: Most of the estimated 26,000 people who have fled to Turkey have been repatriated by airlift from Adana or overland via Iran. By Thursday, the number of people arriving daily at the Habur border post with Iraq had fallen from more than 1,500 to a few hundred.

On Monday, there ware reportedly 2,000 people on the Iraqi side of the border and up to 60,000 more in Iraq's nearby Zakho region waiting to leave. Turkey has announced that as of Tuesday it can only take in 300 Bangladeshi nationals a day through Habur, since a Red Crescent camp near the border cannot take in more than the current 5,000 Bangladeshis there. Turkish Airways was Tuesday to begin supplementing repatriation flights already undertaken by Bangladesh's Biman carrier.

In addition to the preferred method of relief flights, Mr. Jenny said Tuesday that the IOM was chartering two boats, a Pakistani-flagged vessel with a capacity of 1,600 and a Greek ship capable of carrying 5,000. Both would be used for repatriating Sri Lankans.

Mr. Jenny said there were still some two million foreigners in Iraq, "often in a precarious situation", including some 1.5 million Egyptians, whose plans were not known.

In Kuwait, there remained some 100,000 Sri Lankans, including many women employed as servants.

The U.N. High Commissioner for Refugees meanwhile reported that among those in Jordan were some 500 Ethiopians and Tamils from Sri Lanka who were fearful of returning home. The number of refugees could increase, his office warned. There were also a few dozen Iraqis asking for refugee status.

BAGHDAD (SEPT 11) - University students and schoolchildren in Iraq will not have to wear uniforms in the coming academic year because of the economic sanctions against Baghdad, an official source said here Tuesday.

The source said Iraq had decided to suspend a decree that calls for

students as well as public employees to wear uniforms. The decision was taken "because of the current circumstances and the economic embargo against Iraq," he said.

Schools and universities are due to reopen in late September and early October.

Iraq's acting agriculture minister, Abdallah Badr Danouk, said meanwhile that the embargo would fail "just as the military option has failed," referring to the massive U.S.-led military build-up in the Gulf.

Mr. Danouk, quoted by Baghdad newspapers, said his ministry would from mid-September start to distribute plants and fertilizers for Iraqis to grow vegetables in small plots of land or their gardens.

To confront the U.N. embargo imposed after the Iraqi invasion of Kuwait on August 2, the authorities have exempted agricultural workers from army reservist duty and mounted a campaign to cultivate all arable land.

BEIRUT (SEPT 11) - Israeli artillery Tuesday shelled positions of Moslem fundamentalist groups in Syrian-policed eastern Lebanon, wounding 10 militiamen, security sources said.

The sources said Israeli artillery installed inside Israel's self-declared security zone fired 150 mm shells on positions of the Islamic Resistance Movement in the villages of Louaizeh and Jabal Safi, 45 kilometres southeast of Beirut.

At least 10 resistance fighters were wounded, the sources added.

The Islamic Resistance Movement, equipped and financed by Iran, advocates fighting Israel until the liberation of south Lebanon and Palestine.

Israel established the security zone in 1985 in order to prevent infiltration attempts by Lebanese and Palestinian guerrillas.

MOSCOW (SEPT 11) - The parliament of Boris Yeltsin's Russian republic on Tuesday adopted the so-called Shatalin plan for moves towards a market economy, the TASS news agency said.

The agency said the Supreme Soviet of the largest Russian republic had taken a "big step forward towards a market economy" by adopting the

radical text based on the Russian republican leader Mr. Yeltsin's "500 day" project for sweeping economic reform.

The announcement came as the Soviet parliament was locked in stormy debate over the choice of plans to overhaul the ailing economy.

The Shatalin plan was drawn up by Stanislav Shatalin, economic advisor to Soviet President Mikhail Gorbachev, in a committee headed by Mr. Gorbachev and Mr. Yeltsin.

More conservative proposals have been made by the government of Prime Minister Nikolai Ryzhkov, but were rejected by the Soviet parliament.

The Russian parliament also recommended that the next congress of Russian deputies opening November 19 study any constitutional amendments necessary for applying the Shatalin program, Tass said.

LONDON (SEPT 11) - British Prime Minister Margaret Thatcher on Tuesday chaired a ministerial meeting devoted notably to the make-up of British military reinforcements to be deployed in the Gulf, a source close to the government said here.

No official announcement was made after the meeting, which a spokesman for Mrs. Thatcher said was part of a regular series.

Mrs. Thatcher last Thursday told parliament that the government planned to reinforce the naval and air forces deployed in the Gulf since Iraq invaded Kuwait on August 2.

She said there was a need for more British forces to be deployed, adding that the government was studying their composition. The remark sparked speculation in political circles that ground troops could be deployed alongside U.S. soldiers in Saudi Arabia.

"If Iraq's aggression were allowed to succeed, no small state could ever feel safe again," Mrs. Thatcher said, opening a parliamentary debate.

WASHINGTON (SEPT 11) - President George Bush Tuesday was due in a speech to Congress to prepare Americans for the idea of a long-term U.S. troop presence in the Gulf region.

White House spokesman Marlin Fitzwater said this would be the main message

of a speech giving a progress report on the troop build-up and U.S.-Soviet relations after Sunday's Helsinki summit.

The New York Times reported that at the summit Bush had removed reservations about an increased Soviet diplomatic role in the Gulf crisis, inviting President Mikhail Gorbachev to do more.

The report said Washington was now also willing to cooperate with Moscow in the whole issue of the Arab-Israeli conflict, and some sort of Middle East peace conference was being considered.

Observers said the Bush administration was generally satisfied about the effectiveness of international sanctions against Iraq, except for concern over Iraq's approaches to Iran for help.

Meanwhile pressure on embassies still open in occupied Kuwait increased, with U.S. officials quoted by the New York Times as saying life had become ''extremely difficult'' in the U.S. mission.

The diplomats - believed to number eight - in the building, surrounded by Iraqi troops, were finding it difficult to get food and stocks were dwindling.

Switzerland said it was withdrawing its charge d'affaires and chancellory chief and moving them to Baghdad, where they would be safer, although Berne did not recognize Iraq's annexation of Kuwait.

Bangladesh also said it was winding up its embassy in occupied Kuwait and recalling all its diplomatic personnel. A foreign Ministry spokesman said this was because of the worsening situation.

The Bangladesh government announced that it would loose 500 million dollars annually because of the Gulf conflict, about half in expatriot workers' remittances, and half in lost food exports.

In Paris exiled Prime Minister Sheikh Saad al-Abdallah as-Sabah said Kuwait would to convene a people's congress to determine ''all aspects'' of the country's future after its annexation.

He said Kuwaitis in exile would accept nothing less than full implementation of U.N. resolutions calling for withdrawal of Iraqi forces and installation of a legitimate government in Kuwait.

French Foreign Minister Roland Dumas said France would provide four ships to help U.S. troop transports to the Gulf. It would also send military planes and a passenger plane to help transport Asian refugees from Iraq and Kuwait back to their home countries.

In Geneva, the International Organisation for Migration (Iom) said the international airlift to repatriate refugees from Iraq will have flown 42,000 refugees out of Jordan by September 22.

A spokesman said there were between six to eight flights daily, and the number of refugees in Jordan, put at 105,000 a week ago, had dropped to about 75,000. The situation was beginning to normalise.

The first airlift included 110 flights to Bangladesh, Sri Lanka, the Philippines, Egypt, India and Pakistan. The United Nations Disaster Relief Organisation (Undro), which is coordinating the repatriation efforts, said the flights did not include those organised by the individual countries themselves.

The Iom spokesman praised not only the work of Undro but also Jordan's assistance and the increased generosity of the donor countries. Some 36 million dollars had been pledged in the space of a week, the spokesman said.

#90254d7850 09/11/1990 ~French/German News Agency
TAIPEI (SEPT. 11) - A strong earthquake measuring 5.7 on the Richter scale jolted central Taiwan late Tuesday, the Central Weather Bureau said.

No damage or casualties were immediately reported.

The earthquake, which struck at 10:09 p.m. (1409 GMT), originated in the mountains in central Taiwan, the weather bureau said.

Its epicenter was 45 kilometers (27 miles) west of Taitung on the east coast at a depth of 34.3 kilometers (20.6 miles), the bureau added.

An earthquake of magnitude six on the open-ended Richter scale can cause severe damage in populated areas.

#90254d7910 09/11/1990 ~French/German News Agency
LONDON (SEPT. 11) - Gold continued to fall in London on Tuesday, pulled down by a feeling that Gulf tension was easing and platinum followed suit, hitting its lowest level in two and a half years.

Gold was down to 377.25 dollars an ounce against 378.40 at the morning fixing and 385.25 at Monday's close, after losing 1.75 dollars on Monday.

Platinum, weakened by fears of general recession because it is principally used in industry, plunged 11.75 dollars an ounce over Monday's close to

459.25 dollars, its lowest level since February 1988.

Silver was also lower, at 4.76 dollars an ounce against 4.79 at Monday's close.

Market analysts said that the fall in the gold price was largely due to fluctuations in the oil price and a fading of fears of imminent U.S. military intervention in the Gulf.

Brent North Sea crude oil for October delivery was up to 30.10 dollars a barrel at midday in London from 29.05 at Monday's close, but this was still below Friday's peak of 31.85 dollars, the highest in five years.

The market generally saw the weekend display of superpower unity over the Iraqi question as favouring a diplomatic solution to the Gulf crisis.

But analysts were still moderately optimistic over the future of gold prices, and Mike Long of James Capel was predicting an average price for 1990 of 400 dollars an ounce, against 382 in 1989, with 390 dollars an ounce in the first half and 410 dollars in the second half.

"We expect a firmer price in the fourth quarter as purchases for jewellery pick up for the Christmas trade ... but we do not expect a terrific rise," he said.

Geoff Campbell of Ord. Minnett said he was "quite optimistic" for prices given the instability in the Gulf, and predicted prices would go above 400 dollars, which in turn would stimulate buying interest.

#90254d7950 09/11/1990 ~French/German News Agency

PARIS (SEPT 11) - The exiled dissident Federation for Democracy in China (FDC) will hold its second congress on September 22-24 in San Francisco, California, the FDC officially announced here Tuesday.

According to a document made available to Agence France-Presse, the agenda will include the election of new FDC leaders, amendments to and the adoption of the movement's charter, a political statement and the review of reports from a number of working parties.

Current FDC Chairman Yan Jiaqi, a former advisor to Chinese Communist Party ex-secretary general Zhao Ziyang, has indicated that he does not want to stand again.

The FDC, formed by dissidents exiled after the repression of the Chinese pro-democracy movement in June last year, held its constituent congress in Paris and the Paris suburbs on September 22-24, 1989.

NAIROBI (SEPT 11) - Liberian rebels led by Prince Yormie Johnson are hunting down the remnants of slain President Samuel Doe's army, reports said Tuesday.

British Broadcasting Corporation correspondent Elizabeth Blunt, the sole Western reporter in Monrovia, said some of Doe's followers had been pushed back to the fortified executive mansion, where they were defending themselves with heavy artillery. Others have either surrendered or removed their uniforms in an attempt to escape.

Blunt reported that Doe's closest advisors were desperately trying to negotiate their departure from the country.

In Harara, Zimbabwe, the chairman of the Economic Community of West African States (Ecowas), Dawda Jawara of Gambia, said he had instructed the commander of the Ecowas peacekeeping force in Liberia to grant protection to Doe's followers and relatives.

Doe's wife and children have been in Britain for months.

Doe, who gained power in a bloody coup in 1980, was wounded and captured by Johnson's troops on Sunday. Eyewitnesses said his mutilated corpse was put on display at a clinic on the outskirts of Monrovia.

In a telephone call to the Bbc, Johnson said he would serve as president until a new government was elected. Johnson's rival, Charles Taylor, who began the uprising against Doe on December 24, 1989, announced over radio station Elbc that he had ordered his troops, which claim to hold 99 per cent of the country, to take the capital.

#90254d8060 09/11/1990 ~French/German News Agency
TOKYO (SEPT 11) - Japanese electronics giant Matsushita Electric Industrial Co. Ltd. said Tuesday it had set up a company in California to develop inflight communications equipment for airline passengers.

The new company, Matsushita Avionics Development Corp., is the company's seventh research unit in the United States and follows the establishment of Matsushita Avionics Systems Corp. in Seattle in 1981.

"The new company will work closely with the U.S. aircraft and airline industry on creating an advanced computerised audio-video entertainment and passenger management system for planes of the future," a statement said.

Equipment developed by the new company will be produced in Japan.

Matsushita, the world's biggest consumer electronics concern, said its Seattle unit already held the leading market share for in-flight audio systems.

#90254d8070 09/11/1990 ~French/German News Agency

JOHANNESBURG (SEPT. 11) - Black leader Nelson Mandela Tuesday warned that factional violence currently wracking South Africa could threaten peace talks between the African National Congress (Anc) and the government.

The Anc deputy president met State President Frederik de Klerk in the capital Pretoria to discuss a power struggle between supporters of the Zulu Inkatha Freedom Party (Ifp) and Anc backers that has claimed some 4,000 lives in four years in eastern Natal province.

''No doubt the peace process is in distress,'' Mandela said, adding that his organisation would do everything in its power to ensure the negotiations remained on course.

The Natal fighting spilt over into townships around Johannesburg in August, and by Tuesday had claimed some 600 lives as Inkatha-supporting migrant workers clashed with local residents, many of whom support the Anc.

The government responded to the violence by declaring emergency rule in 27 townships around Johannesburg, but the Anc has accused police of impartiality in the conflict.

''The government came under heavy attack for its failure to take visible measures to deal with the situation,'' Mandela said.

Meanwhile, the death toll in renewed violence in townships east and west of Johannesburg rose to over 60 by sunset Tuesday, as police reported finding more bodies.

#90254d8150 09/11/1990 ~French/German News Agency

WASHINGTON (SEPT 11) - The U.S. Air Force's deployment in the Gulf region is nearly complete, Pentagon officials said Tuesday without specifying the numbers involved.

"I think the force is about where we needed to go to provide for this type of contingency," said General Jimmie Adams, Deputy Air Force chief of staff for plans and operations.

"We don't want him (Iraqi President Saddam Hussein) to know how many aircraft we've got," he added, stressing he could give no further details.

Analysts estimated the number of U.S. military planes in the Gulf at around 600. Together with land and sea forces, they were dispatched following Iraq's August 2 invasion of Kuwait and what was perceived as a threat to neighboring Saudi Arabia.

General Henry Viccellio, reponsible for the logistics behind the U.S. military deployment in the Gulf, predicted a "substantial drop-off" in the U.S. military airlift to Saudi Arabia.

The rate of arrivals of U.S. military cargo planes in Saudi Arabia has already been halved from six per hour at the start of Operation Desert Shield.

Since the Gulf crisis began, there have been some 2,500 U.S. Air Force flights to Saudi Arabia carrying 90,000 troops and 72,000 tons of equipment, according to the two Pentagon officials.

Meanwhile, U.S. Army armoured vehicles continued to roll off cargo planes and navy ships. These units should be able to assume offensive positions by the end of October, said other Pentagon sources quoted by the American press.

General Norman Schwarzkopf, commander in chief of the U.S. forces, said in a television interview that 108,000 troops were in the Gulf area, while Defense Department sources requesting anonymity said that number should go up to 200,000 over the coming weeks.

#90254d8160 09/11/1990 ~French/German News Agency

SINGAPORE (SEPT 11) - Singapore Foreign Minister Wong Kan Seng Tuesday described the Jakarta meeting on Cambodia as ''a major breakthrough'' to end the 11 year-old conflict and urged the immediate convening of the Paris International Conference on Cambodia.

Speaking to reporters, Wong said the agreement of the Cambodian parties to accept the United Nations framework and form a Supreme National Council (Snc) ''is the result of many years of patient work by countries in and outside the region.''

Wong said the peace plan, drawn up by the five permanent members of the United Nations Security Council, ''gives the U.N. a major role in administering the country and spells out arrangements in the areas of free elections and guarant ees for Cambodian neutrality, among other things.''

''An end to the long conflict is now in sight, but more work remains to be done and details need to be fleshed out by the permanent members and the Cambodian parties,'' he said.

''I hope the Snc will meet soon and elect Prince Norodom Sihanouk as its chairman for only he has the stature to bring genuine national reconciliation and peace to the country,'' he said.

Wong expressed gratitude to Indonesian Foreign Minister Ali Alatas and France for playing a key role in bringing the Cambodian parties together.

He also congratulated the U.N. permanent members for what he called their vision and courage in seizing the opportunity afforded by major international changes.

#90254d8240 09/11/1990 ~French/German News Agency

PARIS (SEPT. 11) - The Soviet Union will take part in the annual meetings of the International Monetary Fund (IMF) and the World Bank in Washington in two weeks' time, IMF managing director Michel Camdessus said here Tuesday.

He said he and World Bank president Barber Conable had sent the Soviet government a joint invitation to attend the meetings.

Mr Camdessus said Soviet authorities had still not approached the IMF with a view to joining the Fund. "But they are genuinely interested in doing so " he told Agence France-Presse.

The IMF chief earlier told a news conference he had "very confident and very interesting contacts" with Soviet officials "at all desirable levels" during a visit he paid to Moscow last July at the invitation of the Soviet government.

"I am convinced that these contacts will be expanded over time," he added.

However, Mr Camdessus refused to comment on the progress of work on a joint study of the Soviet economy by the IMF, the World Bank, the Paris-based Organization for Economic Coperation and Development (OECD) and the newly-created European Bank for Reconstruction and Development (EBRD), which will become operational next year.

He said he would say nothing about this study until he had handed it in, "hopefully before the end of the year", to heads of state or government of the seven major Western industrial countries, who requested it at their Houston economic summit last July.

#90254d8250 09/11/1990 ~French/German News Agency
CAIRO (SEPT. 11) - The old Arab League headquarters in Cairo began official work for the first time in more than 11 years Tuesday.

In one of the first acts, a committee freed 25 million dollars in assets frozen since 1979 when the legaue moved its headquarters to Tunis after Egypt made a separate peace with Israel.

The Egyptian news agency Mena said an interim secretariart headed by Assad al-Assad from Lebanon discussed the modalities of moving back the league's operations to the Egyptian capital.

Arab foreign ministers Monday confirmed Cairo as the site of the organisation's headquarters, and appointed a committee to supervise the move from Tunisia.

In Tunis, a high-ranking official of the Palestine Liberation Organisation (Plo) proposed that Arab ministers should review their decision, which he said had further deepened the split in the league after Iraq's invasaion of Kuwait.

Farouk Khaddoumi, the Plo's foreign affairs chief, called on ''Arab brothers'' to discuss the issue in Tunis on September 17 when the foreign ministers are due to hold their next regular session.

Observers said Khaddoumi indirectly rejected Monday's decision, which was taken by only 12 of the 21 members of the league. The meeting was boycotted by Iraq, Jordan, Sudan, Yemen, Libya, Tunisia, Algeria, Mauritania and the Plo.

-30- 1515
#90254d8340 09/11/1990 ~French/German News Agency
PRETORIA (SEPT 11) - Black nationalist leader Nelson Mandela urged the white-minority government here Tuesday to use the army to end the violence he said was now threatening the entire peace process in South Africa.

Mr. Mandela, the deputy president of the African National Congress (ANC), told reporters after a two-and-half hour meeting with President Frederik de Klerk the internecine violence which has claimed well over 600 lives since August 13 would be "a thing of the past" if the army were used.

The government had the capacity to end the violence with the "strong, effective and well-equipped" South African Defence Force (SADF), he said.

The peace process in South Africa had been placed in jeopardy by the

government's failure to stop the killing, Mr. Mandela said.

ANC supporters in black townships around Johannesburg were demanding arms to defend themselves against supporters of the conservative Zulu Inkatha Freedom Party.

"If the government fails to take action and if people continue to demand arms we will find it difficult to to oppose that demand ... The consequences are obvious," Mr. Mandela warned.

Mr. Mandela led 19 senior ANC members into the meeting, called primarily to discuss the virtual civil war in the Natal province where some 4,000 people had been killed in the past four years in battles between ANC supporters and supporters of Inkatha.

Despite a memorandum containing ANC suggestions on how to end the violence, handed to the government two weeks ago, the government had not come up with any positive suggestions on how to end the Natal conflict, Mr. Mandela said.

Mr. De Klerk had told the ANC delegation during Tuesday's meeting the memorandum would receive serious attention.

"We must give them a chance to take action despite the past record of the government," Mr. Mandela added.

Observers believe that a historic accord -- known as the Pretoria Minute -- reached between the ANC and the government on August 6 could soon pave the way for a negotiated peace settlement in South Africa.

Mr. Mandela said the ANC would do anything in its power to keep the peace process on track but the government would have to play its part.

But he added: "No doubt the peace process is in distress".

"Government cannot be allowed to talk peace and negotiations and at the same time wage war against our people," Mr. Mandela said.

-30- 2605

#90254d8400 09/11/1990 ~French/German News Agency

MANAMA (SEPT 11) - Iraq, Jordan and Yemen arranged among themselves to attack Saudi Arabia in the course of a Gulf war and divide up large chunks of it among themselves, a Gulf news report here Tuesday asserted.

''The speed with which the United States deployed troops in Saudi Arabia thwarted the plan. the newspaper al-Khaleej claimed, quoting ''diplomatic sources'' in London. ''Its aim was to divide up large parts of the kingdom

among Iraq, Jordan and Yemen.''

Under the alleged plan, Iraqi troops would have followed their August 2 invasion of Kuwait with a thrust into the Eastern Province of Saudi Arabia, where most of the country's industrial development has taken place.

While the Saudis were tied down resisting the Iraqi advance, Yemeni units would have attacked the south of the kingdom and occupied the Asir, Najran and Jizan regions.

Jordan would have attacked the Northern Province and advanced as far as the Moslem holy cities of Mecca and Medina.

Al-Khaleej asserted that before the Gulf crisis Iraq had sent fighter aircraft to Yemen, though this has been publicly denied by the Yemenis. Since the start of the crisis, Yemen has been said to be sympathetic to Iraq and abstained in the U.N. Security Council during a vote imposing economic sanctions against Iraq and occupied Kuwait.

Jordan has also been charged with an ambivalent position and accused of trying to break the U.N. sanctions, though it denies this.

-30- 1665

#90254d8440 09/11/1990 ~French/German News Agency

LONDON (SEPT 11) - The number of British companies falling into the hands of receivers has topped 3,000 in 1990 so far, compared with just 1,720 in the whole of 1989, according to figures compiled by accountancy firm Grant Thornton here.

In 1982, the last peak in receivership appointments, the figure reached 2,190. This year the number of receiver appointments per month has been climbing since the start of the year, with almost 500 taking place in August, and if the trend continues total appointments will top 5,000 for the full 12 months.

This unprecedented number of corporate failures, is put "fairly and squarely" down to the high level of British interest rates by Allan Griffiths of Grant Thornton.

Bank base rates have been at 15 percent since October last year as part of government policy aimed at slowing down the British economy and reducing inflation.

One reason for the rash of failures was the tendency among companies to become more highly borrowed during the boom years of the mid-1980s than they had been before, according to Mr. Griffiths, but he said the main problem stemmed from the effect on consumers of high interest rates.

"The ordinary man in the street has had to take money from spending to pay his mortgage (home loan). This has hit retailers, and in turn manufacturers," he said.

Mr. Griffiths added that receivership figures tend to show only medium and large sized company failures, and that among smaller concerns the failure rate could be even worse.

#90254d8450 09/11/1990 ~French/German News Agency

WASHINGTON (SEPT 11) - U.S. President George Bush will record an eight-to-ten-minutes-long television address to the Iraqi people Wednesday, but Washington doubts whether it will be carried uncensored, White House spokesman Marlin Fitzwater said Tuesday.

For that reason the Arabic-subtitled address - taking up an offer from Iraqi President Saddam Hussein - will also be offered to all media worldwide, he said. A radio version was also being prepared.

''We do not believe that the (Iraqi) people generally have a good idea of the Arab League action or the U.N. resolutions, (and) probably very little idea of the refugee situation and the treatment of Kuwaitis and other nationals by the Iraqi government,'' he added.

The address, Fitzwater said, would be a good opportunity for Bush ''to also let them know exactly how the world is aligned against their government''.

In the address, Bush would make clear the people of the United States ''look forward to the day when our two people live in friendship''.

Turning to the resumption of diplomatic relations between Iran and Iraq, Fitzwater said that this was something which ''under normal circumstances we would welcome''.

He went on: ''However, we cannot help but be sceptical about the timing and purpose of yesterday's anouncement. It seems clear that Saddam is making another desperate attempt to find someone who might help him try to circumvent the expressed will of the world community'' and break the United Nations sanctions.

''Iran like all the members of the international community is bound by the mandatory sanctions voted by the U.N.,'' Fitzwater said. ''Iran has publicly stated that it will comply with those sanctions and we expect that it will.''

Asked about the effect of sanctions on Iraqis, Fitzwater said: ''We believe

food supplies at this point have not reached a point where humanitarian help is necessary.''

He said there was no specific or credible threat of terrorist activity originating in Iraq directed against Americans. ''Should such a threat emerge,
 we will make it known,'' he said.

''The U.S, will hold Iraq responsible for any act of terrorism taken by organisations based in Iraq or operating under Iraqi guidance.''

#90254d8470 09/11/1990 ~French/German News Agency
WASHINGTON (SEPT. 11) - Cuba and Romania have signed oil delivery contracts with Iraq while a number of other countries and private businesses have sought to maintain trade with Baghdad despite the U.N.-ordered embargo of that country, according to a State Department report.

The report said Cuba, which has seen its oil deliveries from the Soviet Union substantially reduced, had received an oil shipment from Iraq since the embargo was imposed following Iraq's August 2 invasion of Kuwait.

Bucharest expects to receive its oil indirectly from Baghdad, said the report, which was obtained by a U.S. news agency.

The report also said that certain, unnamed, East European countries were attempting to continue their military sales to Iraq.

It said private companies in West Europe, East Asia and Africa were pursuing trade with Iraq as well, but it did not identify any of the firms by name.

It said two West European companies had tried to ship food to Iraq, but apparently were unsuccessful.

#90254d8490 09/11/1990 ~French/German News Agency
AMMAN (SEPT. 11) - Thousands of exhausted Asians, waiting to begin their journey home after weeks of fighting heat, hunger and scorpions in Jordanian desert camps, are now hopeful that an improved international airlift will speed up their return home.

''For the first time since the crisis began, we can breathe a little as we are repatriating more people than those coming into Jordan,'' the Jordanian Interior Ministry's secretary-general, Salameh Hammad, said Tuesday.

Thousands of Asians fleeing Iraq and Kuwait were flown home or moved from a chaotic and dangerous transit camp as work continued to set up two new camps,
which will host more evacuees starting Wednesday.

Hammad, who heads a committee handling the refugee influx, said only 15,000 people remained at the Shalaan I transit camp in the no-man's-land between Iraq and the Jordanian border post of Ruwaished.

United Nations officials said about 8,000 Asians, mainly Indians, Bangladeshis and Filippinos, had been flown home from Amman. Thousands more remained at Shaalan I.

The International Committee of the Red Cross and the Jordanian Red Crescent Society strove to install tents, water, electricity and health posts at the two new camps designed to take the pressure off the crowded border site.

#90254d8500 09/11/1990 ~French/German News Agency
WASHINGTON (SEPT. 11) - President George Bush's spokesman Tuesday expressed skepticism about the motives behind the announced renewal of relations between Iraq and Iran, describing the move as a "desperate attempt" by Baghdad to evade international sanctions.

Spokesman Marlin Fitzwater also called on Teheran to keep its pledge to respect the economic embargo ordered against Iraq by the United Nations following the August 2 Iraqi invasion of Kuwait.

"Under normal circumstances, we would welcome the announcement of the restauration of diplomatic relations between Iran and Iraq," Mr. Fitzwater said. "However, we cannot help but be skeptical about the timing and purpose of yesterday's announcement."

Monday Iranian radio announced that Teheran had accepted a request by visiting Iraqi Foreign Minister Tareq Aziz to restore bilateral relations.

"It seems clear that (Iraqi President) Saddam Hussein is making another desperate attempt to reach out to find someone, anyone in fact that might help him to try to circumvent the expressed will of the world community. That attempt will ultimately fail," Mr. Fitzwater said.

"Iran, like all members of the international community, is bound by the mandatory sanctions voted by the U.N., Iran has publicly stated that it will comply with those sanctions and we expect that it will," he said, adding that to his knowledge there had been no direct U.S.-Iranian

contacts over the matter.

The White House spokesman also said that the U.N.-ordered sanctions against Iraq had been "almost 100 per cent effective," with only insignificant exceptions.

NEW DELHI (SEPT 11) - Sikh separatist militants in Punjab shot dead 10 people and abducted as many security guards employed by the government, police said Tuesday.

Sikh separatists opened indiscriminate fire near a colleage in Punjab's Jalandhar district, killing two Sikhs, the Press Trust of India (PTI) quoted police as saying. It did not say when the incident occurred.

PTI said suspected militants killed eight other civilians, almost all Sikhs, overnight Monday elsewhere in Punjab, where the homeland campaign has left more than 1,710 people dead this year.

The ten security men were kidnapped from a government food store in an overnight attack in the Amritsar district by 50 armed Sikh militants.

In a related development, a prominent Sikh politician Tuesday demanded elections in Punjab, saying polls were necessary to "improve" the situation in the border state.

Punjab has been under New Delhi's direct rule since May 1987.

"We have always opposed the extension of president's (federal) rule and forcefully told the prime minister that there should be no further extension," Prakash Singh Badal said here.

The former Punjab chief minister said federal rule had been marked "by widespread (police) repression and corruption."

India accuses neighbouring Pakistan of backing Sikh militants in Punjab but Islamabad has rejected the charges.

WASHINGTON (SEPT. 11) - The United States Thursday called on North Korea to apply international safeguards to its nuclear energy program and to make a "credible promise" that it does not support terrorism.

Speaking at a seminar on "Easing Cold War tensions on the Korean peninsula

" Karl Richardson, the State Department's top Korea expert, said: "By signing the Non Proliferation Treaty (NPT) in 1985, North Korea incurred an obligation to apply International Atomic Energy Agency (IAEA) safeguards.

"Application of international safeguards and full disclosure of fissile material would help satisfy international concern, not just ours, but of all countries, about North Korea's nuclear energy program."

On terrorism -- North Korea is on a U.S. list of countries said to be supporting terrorism -- he said, "We're not asking for an act of contrition, but we want a credible promise that North Korea does not support terrorism."

Mr. Richardson said these suggestions were among a series of steps Washington had expected Pyongyang to take to reciprocate a series of U.S. actions announced in October 1988 to ease restrictions on bilateral dealings.

Other steps expected from North Korea, he said, were progress in the dialogue between Seoul and Pyongyang, military confidence-building measures,
return of war remains and an end to anti-U.S. propaganda.

"We have not said that these are preconditions to improved relations or that they must all be satisfied at once ... When North Korea takes positive steps toward better relations, we for our part will take further steps," he added.

LONDON (SEPT. 11) - The British government has reached a decision in principle to send tank forces to the Gulf but the size of the new contingent is still being studied, British television stations reported Tuesday.

The BBC reported that military leaders wanted to send a unit of 100 tanks to support the multinational forces in Saudi Arabia and elsewhere in the region but politicians were reported to favor a smaller deployment of around 60 tanks.

The independent television station ITN reported that the tank units could be accompanied by troops in a force which could total 7,000 men but it was not clear if those numbers were in addition to British forces already in the Gulf.

The BBC said the exact composition of the latest deployment would be

announced later in the week.

The Ministry of Defence refused to confirm the reports, saying they were "for the moment" only speculation.

The reports come a day after U.S. Secretary of State James Baker called on other North Atlantic Treaty Organization members to deploy ground forces in the Gulf.

The U.S., which has already deployed around 60,000 soldiers in Saudi Arabia,

would welcome additional ground forces even if they were only symbolic, Mr. Baker said.

British Prime Minister Margaret Thatcher said in parliament last week that her government had decided that more British troops were needed in the Gulf but made no mention of what kind of forces would be sent.

ISLAMABAD (SEPT 11) - Pakistan's ousted prime minister Benazir Bhutto escaped an assassination attempt during a public meeting in the Punjab capital Lahore 12 days ago, police said Tuesday.

Peshawar police arrested 22-year-old Sabir Mehmud, an electrician, with two grenades on August 31, they said.

Mr. Mehmud confessed Monday he planned to kill Ms. Bhutto because she had failed "to enforce Islam" in the country, police said, adding that Mr. Mehmud told a Peshawar magistrate he bought the hand grenades at an arms market in the northwestern tribal belt bordering Afghanistan.

He planned to set off the grenades on Ms. Bhutto's arrival in Lahore for a public meeting, police quoted him as telling the magistrate.

Ms. Bhutto's Pakistan People's Party (PPP) arranged the meeting after President Ghulam Ishaq Khan fired her and dissolved parliament on August 6, accusing her goverment of corruption and abuse of power.

Mr. Mehmud accused Ms. Bhutto, in power for 20 months, of ignoring her "first and foremost duty of enforcing Sharia (Islamic law)" in Sunni Moslem Pakistan, police said.

"I felt duty bound to remove her from the political scene," he told the magistrate.

MOSCOW (SEPT. 11) - The Gulf crisis will mean an 800 million dollar loss in foreign currency receipts for the Soviet union this year, Foreign Minister Eduard Shevardnadze told the Soviet Parliament on Tuesday.

He said the losses would be incurred by halting the provision of goods to Iraq and Kuwait.

The foreign minister also said that there were still difficulties in evacuating Soviet nationals from Iraq, but added, "there is no basis for saying that they have been turned into hostages."

MECCA (SEPT 11) - The World League of Moslems is considering setting up an Islamic court to try Iraqi President Saddam Hussein, its secretary-general, Abdullah Omar Naseef, said here Tuesday.

Speaking at a conference in this holy city attended by 270 Islamic scholars, some of them Iraqis, he said Baghdad had no right to proclaim an Islamic holy war (jihad) against other Arab governments.

''A holy war can only be proclaimed against enemies of Islam,'' he said. ''You cannot fight against Moslems, occupy their country, drive them from their homes'' and then proclaim holy war.

He said the conference's conclusions were binding on all Moslems. Others at the conference also insisted Saudi Arabia had been correct to call in foreign help after the Iraqi invasion of neighbouring Kuwait on August 2.

''In times of imminent threat Islamic law permits a country to seek aid from Moslem and non-Moslem forces,'' another scholar told the meeting. The scholars attending come from 60 countries.

The Gulf states interpret Baghdad's repeated calls to holy war against the governments in Riyadh and Cairo and against the foreign troops in Saudi Arabia as an attempt to mobilise dissident fundamentalist forces into

action.

Holy war against the infidel was the means whereby Arab Moslem rule made large gains in the first centuries of Islam. In recent years, some theologians have interpreted jihad in a less literal sense as the combating of evil.

PRETORIA (SEPT 11) - South Africa's Production Price Index (PPI), a secondary indicator of inflation, fell to an annualised 10.3 percent in July, down from 11.2 percent in June, its lowest rate since October 1984, the Central Statistical Service (CSS) said here Tuesday.

The year-on-year increase for locally-produced goods was 11.6 percent in July, 0.9 percent down on June's annualised 12.5 percent, the lowest since May 1984.

The annualised rise for imported goods fell from six percent in June to 4.7 percent in July, the CSS said.

The monthly PPI increase from June to July was 0.4 percent.

#90254d9120 09/11/1990 ~French/German News Agency
WASHINGTON (SEPT 11) - The White House Tuesday warned Baghdad it would be held accountable for any terrorist action by pro-Iraqi groups, adding, however, that it now knew of no credible threats of terrorist attack.

"We have been watching for signs of Iraqi-sponsored terrorism since the beginning of the current crisis ... while we are watching the situation carefully, there are no specific and credible threats to the American public at this time," said White House spokesman Marlin Fitzwater.

Quoting Saudi sources, The Washington Post Tuesday said security measures surrounding the U.S. troops in Saudi Arabia had been strengthened due to reports that pro-Iraqi terrorist groups had begun keeping potential American targets under surveillance.

Mr. Fitzwater, who refused to comment on the report, stressed that a State Department warning against terrorist actions went out a month ago, at the start of the Gulf crisis.

"Should such a threat emerge, we will make it known," the spokesman added.

"The U.S. will hold Iraq responsible for any act of terrorism undertaken by organizations based in Iraq or operating under Iraqi guidance," said Mr. Fitzwater.

"We will take any steps necessary to protect our servicemen and our citizens wherever we could," he added.

#90254d9130 09/11/1990 ~French/German News Agency
ABIDJAN (SEPT. 11) - Liberians, who have endured nearly nine months of brutal civil war, had two self-proclaimed presidents on Tuesday following the violent death, which had yet to be confirmed, of President Samuel Doe.

Breakaway rebel leader Prince Johnson, whose men reportedly killed Mr. Doe and exhibited his mutilated body after capturing him on Sunday, proclaimed himself interim president on Monday.

So did the head of what remains of Mr. Doe's guard, General David Nimley. Neither has been recognized by the Economic Community of West African States (ECOWAS), which has peacekeeping troops in Monrovia.

ECOWAS chairman, Gambian President Dawda Jawara, on a visit Tuesday to Zimbabwe, said that the 16-nation body would not recognize any claim to the Liberian presidency by Prince Johnson, "interim or otherwise".

Mr. Johnson operates in part of the Liberian capital and its port area with a few hundred men, while Gen. Nimley commands some 2,000 remaining loyalists at the executive mansion.

Their forces are surrounded by National Patriotic Front (NPFL) rebels, led by former senior civil servant Charles Taylor, who launched his bid to oust Mr. Doe last December and controls most of the West African country.

Mr. Taylor, who opposes intervention by the five-nation ECOWAS 'monitoring group' (ECOMOG), put Monrovia under siege two months ago, but his former aide Johnson moved his men into the city.

Meanwhile, former political science professor Amos Sawyer was unofficially named interim president early this month at a meeting in Banjul, gathering prominent Liberians and exiles under ECOWAS auspices.

Prince Johnson and Gen. Nimley have asked Mr. Sawyer to send a delegation to Monrovia to set up a provisional government, but Mr. Taylor has rejected any solution that would rob him of victory through force of arms.

In Nigeria on Tuesday, ECOWAS Executive Secretary Abass Bundu, accused Mr. Taylor of prolonging the war, which has cost almost 10,000 lives, most of them civilians.

"He has always declared that he was fighting to liberate his country from President Doe's dictatorship. Now that Doe has left the scene, why is he still fighting?," Mr. Bundu asked at a press conference in Lagos.

"He should stop being a rebel leader and start acting like a statesman," Mr. Bundu said. He stressed that other surviving parties to the conflict in the West African nation had agreed to a ceasefire.

Mr. Bundu also gave an account of the circumstances leading to Mr. Doe's death, which was reported Monday by a British Broadcasting Corporation (BBC) correspondent and taken up by the U.S. State Department citing "credible sources".

Mr. Doe had turned up unannounced on Sunday for talks with ECOMOG's Ghanaian leader, General Arnold Quainoo, to say that he would not recognize the interim government set up in Banjul, adding that he opposed a ceasefire, Mr. Bundu said.

Prince Johnson and his men arrived shortly after that first direct contact between Mr. Doe and the peace-keeping troops. There was a fight between the two men's bodyguards and Mr. Doe may have been wounded then, Mr. Bundu added. (The BBC said Mr. Doe was shot in the legs and captured.)

Mr. Bundu emphasized that no ECOMOG soldier had taken part in the shooting

and said there was no proof to back reports that a trap had been laid for Mr. Doe. Some reports have said that 64 of Mr. Doe's men were killed in the battle.

In Harare, Sir Dawda said he was "shocked and saddened" by Mr. Doe's death "because when this very bloody skirmish took place I heard that Prince Johnson said he was not going to harm him and that he was going to put him on trial".

For his part, Mr. Taylor responded to news of Mr. Doe's death by saying he would launch an assault on Monrovia "even if it meant levelling the whole city down", the New Nigerian reported in Lagos Tuesday, quoting "agency despatches".

RANGOON (SEPT 11) - A senior Burmese government official Tuesday urged political parties to cooperate with the military junta to build a democratic nation, instead of using confrontational tactics.

Major General Khin Nyunt, first secretary of the ruling State Law and Order Restoration Council (SLORC), said Burma should not be influenced by elements bent on destroying the nation and efforts should be made towards the drafting of a strong constitution reflecting the wishes of all people.

His remarks were made during a three-hour speech attended by cabinet members, senior government and military officials and reporters.

While urging students not to be swayed by unscrupulous politicians, Maj. Gen. Khin Nyunt also appealed to the Buddhist clergy to assist the SLORC in protecting the nation's peace and tranquility.

Buddhist monks and students spearheaded nationwide pro-democracy protests in 1988 that were brutally crushed by the military. The SLORC seized power in September 1988.

Maj. Gen. Khin Nyunt said political parties should keep to "the path of law and order" to achieve their desired goal, warning them not to use "short-cut measures and quick-cure methods" to bring about a hasty transfer of power.

He said the military junta would eventually hand over power to civilian politicians.

"We shall transfer power systematically according to our promise. We would not have conducted elections if we did not want to do so," the official said.

The military government has acknowledged the landslide victory in May 27 general elections of the National League for Democracy (NLD), but has so far refused to hand over power.

Last weekend, the NLD acting lader Kyi Maung was arrested along with four other NLD members. They were detained after allegedly "divulging classified documents to unauthorised outsiders".

Maj. Gen. Khin Nyunt urged political parties to help in drawing up a new constitution for Burma.

He said the first step should be to solicit the opinions of all national groups as well as mass organizations by means of seminars and polls.

Maj. Gen. Khin Nyunt devoted the major part of his speech to a background of the nation's history beginning from Burma's fight for freedom and independence from British colonial rule.

He stated that foreign interference had been rampant throughout Burma's struggle for independence, which was achieved in 1948.

"They continue to blatantly interfere in our internal affairs," he said.

He blamed foreign meddling for the continued existence of insurgencies in Burma.

Pamphlets, video cassettes and other documents were exhibited during the speech showing alleged attempts by communists to take over power as well as materials linking unrest to foreign interference.

Documents allegedly showing attempts by political parties to split the military were also displayed prominently.

WASHINGTON (SEPT. 12) - Six of seven low-income countries to have benefitted last year from the IMF's Structual Adjustment Facility (SAF) and Enhanced Structrual Adjustment Facility (ESAF) were in sub-Saharan Africa, the IMF says in its annual report published Wednesday.

The International Monetary Fund (IMF) said the sub-Saharan countries were Benin, Kenya, Madagascar, Mauritania, Sao Tome and Principe, and Togo. The seventh beneficiary was Laos.

The structural adjustment facility provides resources on concessional terms to support medium-term macroeconomic and structural adjustments in

low-income countries facing protracted balance of payments problems.

The enhanced facility is a similar, but additional, program.

In Benin, the IMF is using the SAF and ESAF to help finance reform of the government sector (including state-owned companies), the restructuring of the banking system and reducing the fiscal deficit.

The aims of IMF-backed programs in Kenya are to achieve real gross domestic product (GDP) growth of five per cent a year, to reduce the current account deficit and increase employment.

These involve structural fiscal reforms, key trade and industrial reforms and export promotion.

In Madagascar, in addition to poverty-alleviation programs, the IMF is helping finance a strengthening of the private sector. Similarly, in Madagascar, the IMF is hoping to see a reduction in public sector demand especially "by rehabilitating public enterprises" while the government "seeks to further the role of the private sector."

The boosting of the private sector and improving the efficiency of the public sector are also among the top goals of economic reforms in Togo.

In Sao Tome and Principe, the governmment -- in the wake of crop contractions -- is carrying out policies that "include a well-conceived investment program, stronger budgetary management and improved domestic resource mobilization and budgetary control."

#90254d9240 09/11/1990 ~French/German News Agency

KABUL (SEPT. 11) - President Najibullah unveiled guidelines Tuesday legalizing the formation of new political parties and repealing laws that enshrined the communist party's monopoly on power in Afghanistan.

Mr. Najibullah, who in recent months has removed the communist tenor from his ruling party, also announced basic ground rules for the formation of social organizations.

Observers said the decision was aimed at peeling the leftist stigma from the groups.

"The basis of the political system in Afghanistan is founded on the plurality of political parties," a Tuesday presidential decree said.

A second decree issued simultaneously repealed restrictions placed on political and second-rung social organizations imposed by his ruling Watan

or Homeland Party, and gave wider freedom for new bodies to come into existence.

"It is a practical law ... it is good," a government spokesman said after the two decrees were announced.

The first decree permits any group of 300 people above the age of 18 to form a party on preconditions that the group pledges to uphold Islam, shuns armed struggle against the state and opposes neo-colonialism, Zionism, apartheid and racism.

"A political party also cannot be organized on the basis of prejudice and tendency to ethnic, tribal, local and the superiority of nationality," the decree said.

It added that new parties would not be allowed to conceal their income or establish headquarters outside the capital, Kabul.

"The name, symbol and slogan of a political party cannot be confined to any single ethnic, tribal or local characteristic," it added.

The much-awaited decree has also given sweeping powers to the Supreme Court to assess applications to form political groups, stipulating however that the judicial body will have to decide each case within a month.

#90254d9280 09/11/1990 ~French/German News Agency

LUSAKA (SEPT. 11) - In a break with tradition, more than 200 tons of Zambian copper Tuesday began a southward trek for export through newly-independent Namibia's South African-controlled Walvis Bay.

An official of the Zambian Consolidated Copper Mines said seven trucks left for Namibia ''in a trial run that will initially ship 1,500 tons monthly, gradually building up to a maximum of 5,000 tons.''

The 1,800-kilometre journey is expected to take seven days. Zambia also exports 28,000 tons a month through Dar es Salaam in Tanzania and 9,000 tons via Beira in Mozambique.

Mining sources said South African railways had approached Zambia to resume moving copper through South Africa's East London Port. Shipments there were halted some time ago for political reasons.

Zambia, which earns 90 per cent of her foreign exchange, produces 420,000 tons of copper annually.

#90254d9310 09/11/1990 ~French/German News Agency
WASHINGTON (SEPT 11) - Iraqi military activity has been detected close to Turkey and Syria, but it apparently poses no threat, a Pentagon spokesman said Tuesday.

"We are aware of some increase in military activity near the Syrian and Turkish borders, but there is nothing to indicate imminent hostilities," said Pete Williams.

Pressed by reporters for more information, he added "I cannot characterize that activity for you."

He did however indicate that the Iraqi military activity could involve "flights, training flights, that kind of thing," but "not necessarily" increased troop deployments.

The invasion and annexation of Kuwait on August 2 had been preceeded by persistent reports of Iraqi troop concentrations near the Kuwaiti border.

Mr. Williams said there had been no increase or change in the Iraqi military presence in Kuwait, which he put at 265,000 troops and 2,200 tanks.

The makeup of the Iraqi contingent in Kuwait was still defensive in nature, but that could change "very quickly," he added.

-30- 1232
#90254d9450 09/11/1990 ~French/German News Agency
EAST BERLIN (SEPT 11) - As a wrangle continued in East Germany on the fate of secret police files on six million people, the country's defence minister, Rainer Eppelmann, announced Tuesday that East Germany's military intelligence files had been destroyed.

In an interview with the West German newspaper Bild, Eppelmann said the military espionage service had been closed down March 31.

Destruction of its files would be completed by the end of this week so that the Bonn authorities would never find out who the East German spies in their midst had been. Eppelmann said the unit had had 138 spies at work in West Germany.

The secret police files, which are locked up under the supervision of citizens' committees, are not destined to be destroyed. But the East Germans fear that opening up those files could not only compromise many citizens, but also unmask informers.

In the former headquarters of the secret police, known as the Stasi, 25 protesters entered the second week of a sit-in demanding undertakings that agents from Bonn will not peek in the files.

A senior official, Guenther Krause, predicted strict rules would be laid down by Saturday in talks with Bonn to keep the files in East German town halls after the two Germanys unify on October 3.

It was also announced Tuesday by a parliamentary special committee that 1,500 key East German civil servants, among them 10 interior ministry press office staff, had been in the pay of the Stasi - since dissolved - and even had secret police officer rank.

Officials said they would probably be sacked.

#90254d9510 09/11/1990 ~French/German News Agency

VANCOUVER, Canada (SEPT 11) - Canada's trade minister Tuesday warned of dire consequences for the world's economy if the current round of GATT talks fails to find a new consensus on freer trade.

"The cost of failure is very great -- lower growth, more protectionism, less confidences in the future, and increased unilateral action," John Crosbie told 11 fellow Pacific Rim trade ministers.

He spoke during a press photo session as the ministers began a second day of talks aimed at breathing new life into the troubled Uruguay Round of the General Agreement on Tariffs and Trade.

The four-year Uruguay Round of talks expire in December and there are fears that it may fail in its attempt to further liberalize world trade because of deep differences among GATT's 97 member states.

The Vancouver meeting is an effort by members of the Asia-Pacific Economic Co-operation (APEC) group to find enough common ground among themselves in order for the broader GATT talks to reach a final consensus.

APEC members account for 60 percent of world trade under GATT. It includes Australia, Brunei, Canada, Indonesia, Japan, South Korea, Malaysia, New Zealand, the Philippines, Singapore, Thailand and the United States.

#90254d9540 09/11/1990 ~French/German News Agency

BAGHDAD (SEPT. 11) - The employees of United Nations agencies here collected and donated 125,000 dollars Tuesday to aid Asian nationals stranded in Iraq and Kuwait, a U.N. source said.

The money was handed over to the ambassadors of Bangladesh, India, the Philippines and Sri Lanka, who have tens of thousands of nationals in the two countries, the source said.

Indian Ambassador Kamal Bakhshi praised what he called this "humanitarian initiative" but called on the United Nations to allow his country to send supplies to its nationals because of food shortages in Iraq.

The assistant U.N. secretary general for humanitarian affairs, Kofi Annan, said he was to leave Wednesday for New York at the end of a fact-finding mission in Baghdad.

Mr. Annan said he would present a report to Secretary General Javier Perez de Cuellar on his talks with Iraqi officials and foreign diplomats about the situation of foreigners in Iraq and Kuwait.

The Indian government has reported near-starvation among the estimated 150,000 Indians still in Iraq and Kuwait, and called on the United Nations to act before civilians start dying.)

-30- 1329

#90254d9560 09/11/1990 ~French/German News Agency

WASHINGTON (SEPT. 11) - President George Bush will tape a television message to Iraq Wednesday highlighting world opposition to Iraq's invasion of Kuwait and stressing his desire for peace, the White House said Tuesday.

The 10-minute message will be given to Iraqi authorities before the end of the week, but White House spokesman Marlin Fitzwater expressed "a good deal of skepticism that they will show it."

Mr. Bush last week accepted Baghdad's invitation to address the Iraqi people on television. The Iraqi information ministry had proposed interviewing Mr. Bush, but the White House opted for a taped message.

"We are concerned that they follow through on their invitation," Mr. Fitzwater said.

The invitation followed Mr. Bush's remark last week that he would like to have as much access to the Iraqi people through television as Iraqi President Saddam Hussein had to the American people.

The U.S. Cable News Network broadcast two unedited, lengthy sessions between Mr. Hussein and Western hostages being held in Baghdad, during which the Iraqi leader struck a friendly tone while espousing Iraqi positions.

"To help guard against editing," said Mr. Fitzwater, Mr. Bush's remarks, to be taped in the Oval Office, will be subtitled in Arabic and accompanied by an Arabic soundtrack, Mr. Fitzwater said.

Mr. Fitzwater said the United States had not been in contact with Baghdad on the details of producing and airing the message.

The United States will give Iraqi authorities an unspecified period of time to air the message, before Washington broadcasts it worldwide itself, particularly to Arab countries, Mr. Fitzwater said.

He said the Iraqi Government had "not been forthcoming" in telling its people the truth about the Gulf situation, the United Nations resolutions against Baghdad and mistreatment of the Kuwaitis and foreigners by Iraqi troops.

"This is a very important opportunity for the president to bring not only the message of the United States and the world to the people of Iraq, but also to let them know exactly how the world is aligned against their government in this action."

He said Mr. Bush would point out that "our alliance is with the nations of the world and that we want peace for the people of Iraq and that we look forward to the day where our two peoples can live in friendship."

#90254d9580 09/11/1990 ~French/German News Agency

NICOSIA (SEPT. 11) - An envoy of Morocco's King Hassan II arrived Tuesday in the Iraqi capital with a message for President Saddam Hussein, the official Iraqi News Agency (INA) reported.

Ahmad Reda al-Guedira, a royal adviser, said on arrival that the message concerned "relations between the two brother countries and the current situation in the region," INA reported in a despatch received here.

Rabat has condemned Iraq's August 2 invasion of Kuwait and sent troops to Saudi Arabia as part of a multinational deployment to protect the kingdom against a possible Iraqi attack.

-30- 739

#90254d9590 09/11/1990 ~French/German News Agency

MOSCOW (SEPT 11) - The Soviet Union will lose 800 million dollars in foreign currency receipts because of the Gulf crisis, Foreign Minister Eduard Shevardnadze told the Soviet Parliament here on Tuesday.

In a report-back on the Gulf crisis and Sunday's Helsinki summit between

Soviet leader Mikhail Gorbachev and U.S. President George Bush, he said the losses would be incurred by halting trade with Iraq and Kuwait.

The foreign minister also said that there were still difficulties in evacuating Soviet nationals from Iraq, but added, "there is no basis for saying that any of them have been turned into hostages."

Later, the parliament passed a motion approving both the Helsinki summit and Soviet policy on the Gulf.

It said that parliament supported "the government's position regarding Iraq's aggression against Kuwait, and approves the (Soviet-U.S.) joint statement aimed at a just peace in the Middle East and the Persian Gulf."

It also approved "measures taken to evacuate Soviet citizens from the zone of conflict". Referring to these Soviet nationals, Mr. Shevardnadze said exit visas were being held up.

"There have been incidents with baggage, and there are problems with food " he said -- the first time that a senior Soviet official has acknowledged in public any difficulties in evacuating Soviet nationals from Iraq.

There are still about 6,000 Soviet citizens in Iraq. Mr. Shevardnadze said they included women, but all children had been evacuated.

He said the decision to halt trade with Iraq was "difficult, politically and psychologically", because of Moscow's links with Iraq and the treaty of friendship and cooperation signed by the two countries in 1972.

"This year we will not be receiving oil and foreign currency from Iraq and Kuwait amounting to 800 million dollars," he said.

#90254d9650 09/11/1990 ~French/German News Agency

WASHINGTON (SEPT. 11) - The United States, welcoming the decision by Cambodia's four warring factions to coalesce in a Supreme National Council (SNC), Tuesday said the next step would be for the council to appoint a delegation to represent Cambodia at the United Nations.

"We expect the Council will hold its first meeting in the near future and one of its priorities will be the appointment of a delegation to represent Cambodia at the U.N. General Assembly," said State Department Richard Boucher.

Mr. Boucher said the SNC was then expected to begin consultations with the U.N. Secretary General and the two co-chairmen of the Paris Conference -- France and Indonesia -- "to elaborate a settlement agreement based on" the

peace plan unveiled by the five permanent members of the U.N. Security Council last month.

The Paris Conference, which groups the U.N. Big Five -- the United States,

the Soviet Union, France, Britain and China -- the four Cambodian parties, the six members of the Association of Southeast Asian Nations -- Brunei, Indonesia,

Malaysia, the Philippines, Singapore and Thailand -- Japan and Australia would then be reconvened for the signing of a settlement.

In Jakarta Monday, the Phnom Penh Government and the three guerrilla factions making up the U.N.-recognized Cambodian resistance accepted the U.N. peace plan, which calls for a major U.N. role in administering Cambodia during the transition to U.N.-monitored elections and formation of the SNC.

The four Cambodian parties agreed to form a 12-member SNC, with the Hanoi-backed Phnom Penh Government and the resistance having six representatives each.

Prior to Monday's agreement, the United States had pressed for speedy formation of the SNC to prevent a divisive battle later this month over who should represent Cambodia at the U.N. following Washington's decision in July to withdraw its diplomatic recognition of the Khmer Rouge-dominated resistance.

The U.S. policy shift on Cambodia, which also led to a U.S. dialogue with Hanoi and direct contacts with Phnom Penh in Vientiane, is aimed at preventing a return to power by the Khmer Rouge, who fields the dominant military force in the Cambodian resistance.

CAPE TOWN (SEPT 11) - About 170,000 seals have been culled off the Skeleton Coast in Namibia since the season opened there last Friday, the Seal Action Group chairman Mark Leserre claimed here Tuesday.

This figure had not been confirmed, but Sea Lion Products, a company which holds a culling concession at Cape Cross Nature Reserve on the Skeleton Coast, had begun harvesting seals last Friday, Mr. Leserre said.

In July, a storm of protest in South Africa backed by the French actress Brigitte Bardot resulted in the suspension of seal culls off the Cape coast.

The Namibian seals were being culled for commercial purposes and use was being made of "labour off the streets", Mr. Leserre said.

He believed the culling was taking place outside the opening hours of the reserve, in the early morning and late afternoon.

NEW YORK, United Nations (SEPT 11) - The U.N. Security Council's sanctions committee wrestled Tuesday with requests from India, Sri Lanka and the Philippines for food for the thousands of their citizens stranded in tent cities in Iraq.

Such food shipments would technically violate the U.N. mandated embargo on shipments to Iraq and Iraqi-occupied Kuwait.

Members of the committee, which corresponds to the 15-member U.N. Security Council, said international organizations would probably be given a dominant role in evaluationg food situation needs in the area, and in distributing any aid send there.

The committee was working Tuesday on a definition of humanitarian criteria for the dispatch of food to the embargoed area.

The U.N. embargo against Iraq and Iraqi-occupied Kuwait includes everything but medicine. Humanitarian concerns -- namely feeding people there -- could partially lift the embargo.

BAGHDAD (SEPT 12) - More than 300 Americans and a hundred British nationals are to be evacuated from Kuwait Wednesday on an Iraqi Airways flight to London, Western diplomatic sources said here late Tuesday.

The Boeing 747 would bring them first to Baghdad, from where they would continue to London, the sources said.

The British Foreign Office had announced Monday that it and the American authorities were chartering an Iraqi Airways flight from Kuwait to Baghdad to send home a last group of women who wanted to leave Kuwait with their children.

The sources here also said there would be another Iraqi Airways flight on Friday to take out Westerners, but they did not give numbers or nationalities.

BUDAPEST (SEPT 11) EFE - A Hungarian and a Soviet delegation have held talks in Budapest on the withdrawal of Soviet troops from Hungarian soil, the official Hungarian news agency MTI reported Tuesday.

The talks, held Monday, centered on the legal, economic and financial questions relating to the pull-out.

The Soviet Army claims dlrs 833 million from Budapest for military installations built by their troops in Hungary which will be left behind when they pull out, a figure which Hungary considers excessive.

Some 50,000 Soviet soldiers and a similar number of their relatives began leaving Hungary on March 12 in an operation due to finish by June 30, 1991.

BUENOS AIRES (SEPT 11) EFE - The Argentine government has decided to accept a dlrs 130 million letter of credit from the consortium led by Spain's Iberia airlines for state-owned Aerolineas Argentinas, government officials said Tuesday.

On Monday President Carlos Menem announced his government might start looking for new buyers for the national airline following a court decision last week to suspend the sale after politicians complained that the original sale agreement had been for cash.

The government had refused to accept an arrangement whereby the consortium led by Iberia and backed by Chase Manhattan Bank and domestic carrier Cielos del Sur would finance the down payment with loans from Banco Hispanoamericano.

The consortium would then pay back Banco Hispanoamericano with the sale of six Aerolineas Argentinas planes, which would then be leased back to the airline.

Iberia said it did not want to hand over cash until airline securities deposited several years ago with private banks as debt guarantees had been recovered.

But the impasse was overcome when Peronist Senator Liliana Gurdulich de Correa, who presides over the parliamentary commission controlling privatization, decided that the letter of credit was +irrevocable,+ and that it could be cashed.

The privatization commission "has not fixed a term within which the payment has to made in cash, and accordingly the letter of credit can be cashed at any moment," explained the senator.

The sale of the airline is part of an extensive privatization program to reduce the budget deficit which has so far also included the sale of the national telephone company.

SAN JOSE (SEPT. 11) XINHUA - COSTA RICAN FLOWER EXPORTS COULD GENERATE MORE THAN 10.3 MILLION DOLLARS THIS YEAR, INVESTMENTS AND EXPORTS PROMOTION CENTER (CEMPRO) DIRECTOR CARLOS TORRES SAID TODAY.

THE DEVELOPMENT OF FLOWER CULTURES IS PART OF THE EFFORTS MADE BY COSTA RICA IN THE PAST EIGHT YEARS TO PROMOTE EXPORTS OF NON-TRADITIONAL PRODUCTS AS A BASIS OF ITS ECONOMIC GROWTH POLICY.

LAST YEAR, THESE EXPORTS SURPASSED FOR THE FIRST TIME TRADITIONAL CROPS LIKE COFFEE AND BANANAS. HOWEVER, THIS EXPANSION ALSO SIGNIFICANTLY BOOSTED IMPORTS, CAUSING AN INCREASE OF COSTA RICA'S TRADE BALANCE DEFICIT.

IN THE FIRST FOUR MONTHS OF THIS YEAR, FLOWER EXPORTS GENERATED EARNINGS OF 5 MILLION DOLLARS FOR COSTA RICA.

THE COUNTRY'S MAIN PURCHASER IS THE UNITED STATES, FOLLOWED BY CANADA, WEST GERMANY, HOLLAND AND IRELAND.

COSTA RICAN FLOWERS ARE CURRENTLY EXHIBITED IN JAPAN, AND THEY HAVE RECEIVED VARIOUS PRIZES.

LONDON (SEPT. 11) XINHUA - BRITAIN'S RETAIL SALES IN AUGUST FELL SHARPLY, ACCORDING TO THE CENTRAL STATISTICS OFFICE TODAY.

FIGURES SHOWED THAT THE VOLUME OF RETAIL SALES LAST MONTH WAS A PROVISIONAL 1.6 PER CENT LOWER THAN IN JULY, TAKING CITY ECONOMISTS AND THE MARKETS BY SURPRISE.

THERE HAD BEEN EXPECTATIONS THAT SALES VOLUMES WOULD BE FLAT OR REGISTER A SLIGHT INCREASE ON THE MONTH.

OTHER GOVERNMENT FIGURES RELEASED TODAY SHOWED A DECLINE IN THE RATE OF INCREASE IN MANUFACTURERS' PRICES AND A RISE IN PRODUCTION COSTS DUE TO

HIGHER OIL PRICES.

THE RETAIL CONSORTIUM, WHICH REPRESENTS 90 PER CENT OF THE RETAIL INDUSTRY POINTED OUT THAT TODAY'S FIGURES HERALDED A HALT IN SALES GROWTH.

THIS WAS BECAUSE SALES IN AUGUST INCREASED BY 7 PER CENT ON LAST YEAR IN VALUE TERMS, WHILE INFLATION ON RETAIL GOODS WAS RUNNING AT ABOUT THE SAME RATE, IT SAID.

ANALYSTS SAID THE LARGE FALL IN RETAIL SALES IN AUGUST UNDERLINED SIGNS THAT THE U.K. ECONOMY WAS HEADING FOR A RECESSION AFTER ALOMOST A YEAR OF HIGH INTEREST RATES.

HONG KONG (SEPT. 11) XINHUA - SIX MEN DIED AND 23 PEOPLE WERE INJURED IN A FIRE HERE EARLY THIS MORNING WHICH HAS BEEN CLASSIFIED AS ARSON AND HOMICIDE BY HONG KONG POLICE.

THE FIRE BROKE OUT INSIDE A RESTAURANT AND MAHJONG CLUB IN HUNG HOM, KOWLOON, SHORTLY BEFORE 3 AM TODAY, LOCAL POLICE SAID.

INITIAL INVESTIGATIONS REVEALED THAT THREE MEN, ARMED WITH KNIVES, BURST INTO THE RESTAURANT AT ABOUT 2.45 AM AND SUBDUED A MALE STAFF MEMBER.

THEY SET THE FLAT ABLAZE BY THROWING SEVERAL HOME-MADE PETROL BOMBS ONTO THE FLOOR BEFORE FLEEING ON BOARD A PRIVATE CAR PARKED NEARBY.

THE BLAZE WAS EVENTUALLY PUT OUT BY LOCAL FIREMEN AT 4.11 AM. POLICE LATER FOUND SIX PERSONS COLLAPSED WHO WERE CERTIFIED DEAD BEFORE ARRIVAL IN A HOSPITAL.

THEY MIGHT HAVE DIED OF SUFFOCATION AND POST-MORTEM EXAMINATIONS WILL BE CONDUCTED LATER TODAY TO ASCERTAIN THE EXACT CAUSE OF DEATH, POLICE SAID.

ANOTHER 23 PEOPLE, COMPRISING 19 MEN AND FOUR WOMEN, WERE ALSO SENT TO A

HOSPITAL FOR TREATMENT.

THEY SUFFERED SLIGHT BURNS AND INJURIES. SEVEN OF THEM WERE ADMITTED IN POOR CONDITION.

LAGOS (SEPT. 11) XINHUA - ONE HUNDRED AIRLINES OF VARIOUS COUNTRIES IN THE WORLD EARNED ABOUT 172 BILLION U.S. DOLLARS LAST YEAR, ACCORDING TO THE LATEST ISSUE OF "THE AIRLINE BUSINESS" MAGAZINE.

THE REVENUE, ACCORDING TO THE MAGAZINE, WAS REALISED FROM 907 MILLION PASSENGERS DURING THE YEAR.

OUT OF THE 100 LEADING AIRLINES, THE 20 TOP-MOST AIRLINES GOT 113.8 BILLION DOLLARS OR 66 PERCENT OF THE TOTAL REVENUE.

TOP ON THE LIST WAS THE AMR CORPORATION AIRLINE (UNITED STATES), WHILE THE ALOHA AIR GROUP INCORPORATION IS AT THE BOTTOM.

EUROPE HAS THE HIGHEST NUMBER OF AIRLINES ON THE LIST WITH 38 IN ALL, FOLLOWED BY 26 AIRLINES IN NORTH AMERICA, 18 IN THE ASIAN AND PACIFIC REGION, 10 IN LATIN AMERICA AND EIGHT IN THE MIDDLE EAST AND AFRICA.

THE MAGAZINE'S SURVEY WAS BASED ON REPORTS OF AIRLINES IN THE WORLD, THE 1989 REVENUE FIGURES, DATA FROM THE IATA'S WORLD AIR TRANSPORT STATISTICS AND MATERIALS FROM THE U.S. DEPARTMENT OF TRANSPORT.

WHILE THE TOP-100 EMPLOYED OVER 1.5 MILLION STAFF MEMBERS, THE TOP-MOST 20 AIRLINES EMPLOYED 769,000 PEOPLE AND CARRIED 561 MILLION PASSENGERS LAST YEAR.

ACCORDING TO THE SURVEY, ONLY 14 OF THE 100 AIRLINES RECORDED NET LOSS WHILE 86 AIRLINES ACHIEVED A NET PROFIT MARGIN OF 4.3 PERCENT.

DESPITE THE FACT THAT AMERICAN AIRLINES EARNED THE BIGGEST SHARE OF THE REVENUE UNDER SURVEY, SINGAPORE AIRLINE IS REGAR- DED AS THE WORLD'S MOST PROFITABLE CARRIER LAST YEAR, WITH 615 MILLION DOLLARS AS PROFIT IN THE YEAR.

#90254h0140 09/11/1990 ~Chinese News Agency

MANILA (SEPT. 11) XINHUA - PHILIPPINE PRESIDENT CORAZON AQUINO SAID THAT FORMER FIRST LADY IMELDA MARCOS SHOULD HAVE TO PROVE FIRST HER SINCERITY TO RETURN HER ILL-GOTTEN WEALTH BEFORE SHE IS ALLOWED TO COME BACK TO THE COUNTRY.

THE PRESIDENT'S STATEMENT WAS IN RESPONSE TO MRS. MARCOS' OFFER TO RETURN PART OF THE WEALTH OF HER HUSBAND, FORMER PRESIDENT FERDINAND MARCOS, IN EXCHANGE FOR PERMISSION TO RETURN TO THE PHILIPPINES.

REPORTS SAID MRS. MARCOS WAS RENEWING HER OFFER ON THE OCCASION OF THE 73RD BIRTH ANNIVERSARY TODAY OF HER LATE HUSBAND IN HAWAII. DURING THE CELEBRATION, MRS. MARCOS SAID SHE WANTED TO RECONCILE WITH PRESIDENT AQUINO "FOR THE SAKE OF THE FILIPINO PEOPLE."

PRESIDENT AQUINO SAID IN A STATEMENT TODAY, "THESE OFFERS ARE BEST FIRST ADDRESSED TO THE PCGG (PRESIDENTIAL COMMISSION ON GOOD GOVERNMENT), SPECIFICALLY TO ITS CHAIRMAN, DAVID CASTRO, FOR THE PCGG TO ASSESS IN ALL ASPECTS INCLUDING THOSE OF SINCERITY AND JUSTICE."

THE PCGG IS TASKED TO RECOVER THE ILL-GOTTEN WEALTH STASHED HERE AND ABROAD BY THE MARCOSES AND THEIR BUSINESS CRONIES.

THE AQUINO GOVERNMENT STANDS PAT ON ITS POSITION THAT MRS. MARCOS AND HER HUSBAND'S REMAINS SHOULD NOT BE ALLOWED TO RETURN BECAUSE THEY ARE A SECURITY THREAT.

MRS. AQUINO SAID, "IN THE PAST, IT TURNED OUT THAT THE MUCH PUBLICIZED OFFER OF THE MARCOSES TO DONATE PROPERTIES REFERRED TO THE SEQUESTERED ASSETS THAT WERE NOT SUBJECT TO THE DONOR'S FREE DISPOSITION."

THE PRESIDENT ADDED THAT THE RETURN OF THE MARCOSES WILL HAVE TO WAIT FOR A "MORE PROPITIOUS TIME."

"PRUDENCE DICTATES THAT ADDITIONAL OCCASIONS FOR DEBILITATING AND DISTRACTING ACTIVITIES BE AVOIDED," SAID MRS. AQUINO.

THE MARCOSES WERE TOPPLED BY A CIVILIAN-BACKED MILITARY UPRISING IN 1986 AND FLED TO HONOLULU. FERDINAND MARCOS DIED OF ILLNESS ON SEPTEMBER 28, 1989 AT THE AGE OF 72.

#90254k0048 09/11/1990 ~Japanese News Agency

SEOUL (SEPT. 11) KYODO - SOUTH KOREA'S OUTSTANDING DEBTS OWED TO FOREIGN COUNTRIES STOOD AT 30.48 BILLION DOLLARS AT THE END OF JULY, UP 1.08 BILLION DOLLARS FROM THE END OF 1989, YONHAP NEWS AGENCY REPORTED TUESDAY.

CITING OFFICIAL FIGURES, THE REPORT SAID SOUTH KOREA HAD EXTERNAL ASSETS OF 26.73 BILLION DOLLARS AS OF JULY 31, LEAVING NET FOREIGN DEBTS OF 3.75 BILLION DOLLARS COMPARED WITH 3.0 BILLION DOLLARS AT THE END OF 1989.

FOREIGN EXCHANGE CONTROL OFFICIALS WERE QUOTED AS SAYING THE COUNTRY'S FOREIGN DEBTS MOVED UP AND DOWN BY LESS THAN 500 MILLION DOLLARS EACH MONTH UNTIL JUNE THIS YEAR.

IN JULY, INCREASED SHORT-TERM DEBTS BOOSTED TOTAL FOREIGN DEBTS BY 1.06 BILLION DOLLARS FROM JUNE, ACCORDING TO THE REPORT.

-30- 905

#90254k0091 09/11/1990 ~Japanese News Agency

TOKYO (SEPT. 11) KYODO - HITACHI LTD. HAS CREATED AN ULTRAHIGH VACUUM, WITH THE PRESSURE REDUCED TO ABOUT SEVEN 100 BILLIONTH OF A PASCAL, AS VACANT AS THE SPACE SEVERAL THOUSAND KILOMETERS FROM EARTH, AT A LABORATORY IN IBARAKI PREFECTURE, HITACHI OFFICIALS SAID TUESDAY.

SUCH AN EXTREMELY LOW-PRESSURE VACUUME CAN BE USED IN MAKING ELECTRON MICROSCOPES THAT ARE LESS VULNERABLE TO THE EFFECT OF MOLECULES IN THE AIR AND IN THE PRODUCTION OF MICROCHIPS 1,000 TIMES DENSER THAN THE CURRENT VERSION, THE OFFICIALS SAID.

''BUT ACTUAL APPLICATION TO SUCH DEVICES IS STILL A LONG WAY OFF,'' A HITACHI SPOKESMAN SAID.

HITACHI ACHIEVED THE ULTRAHIGH VACUUM BY USING TWO KINDS OF VACUUM PUMPS -- A TURBO MOLECULE PUMP AND A TITANIUM SUBLIMATION PUMP.

THE PROCESS INCLUDES DIFFUSION OF GAS MOLECULES BY THE TURBO MOLECULE PUMP FROM THE CONTAINER AND CHEMICALLY SOAKING UP THE REMAINING MOLECULES WITH THE TITANIUM SUBLIMATION PUMP.

THE MAIN PROBLEM WITH SUCH A PROCESS HAS BEEN GASSES SUCH AS HYDROGEN AND CARBON MONOXIDE ESCAPING FROM THE SURFACE OF THE CONTAINER IN WHICH THE PRESSURE IS TO BE REDUCED.

HITACHI OVERCAME THIS BY TREATING THE STAINLESS SURFACE OF THE CONTAINER WITH A SPECIAL THERMAL PROCESS TO COAT IT WITH OXIDIZED FILM.

AS A RESULT, THE GENERATION OF GASSES FROM THE SURFACE DROPPED TO ONE TENTH.

THE SUBLIMATION PUMP, MADE OF SUPER PURE TITANIUM, SERVED AS A CRYOGENIC PUMP WHOSE SURFACE WAS COOLED TO 77 K ON THE KELVIN SCALE BY LIQUID NITROGEN, A RELATIVELY HIGH TEMPERATURE FOR THIS KIND OF VACUUM PUMP. THE KELVIN SCALE MEASURES CENTIGRADE UNITS ABOVE ABSOLUTE ZERO WHICH IS 273 DEGREES BELOW ZERO CELSIUS.

CREATING SUCH A VACUUM USUALLY REQUIRES COOLING THE SURFACES OF THE CRYOGENIC PUMPS TO ABOUT 20 K BY MEANS OF LIQUID HYDROGEN OR TO 4 K WITH LIQUID HELIUM.

THE WHOLE PROCESS TOOK NINE DAYS, ACCORDING TO THE HITACHI OFFICIALS. A SEVEN 100 BILLIONTHS PASCAL VACUUM, THE LOWEST EVER ACHIEVED ON EARTH, COULD ENABLE RESEARCHERS TO MANIPULATE MOLECULES AND ATOMS SINGLY, A PREREQUISITE TO THE PRODUCTION OF SUPER DENSE CHIPS, ACCORDING TO THE OFFICIALS.

TOKYO (SEPT. 11) KYODO - FOLLOWING THE GOVERNMENT'S RECENT DECISION TO RESUME LENDING TO CHINA, JAPANESE BUSINESSES WILL DISPATCH A POWERFUL MISSION TO THE COUNTRY TO DISCUSS EXTENDING A LONG-TERM BILATERAL TRADE PACT.

THE 60-MEMBER MISSION, WHICH WILL ARRIVE IN CHINA ON SEPTEMBER 16, IS EXPECTED TO DISCUSS A SECOND FIVE-YEAR EXTENSION OF THE BILATERAL AGREEMENT UNDER WHICH JAPAN IMPORTS OIL AND COAL FROM CHINA AND EXPORTS PLANTS AND EQUIPMENT AND CONSTRUCTION MATERALS. THE FIRST PACT COVERING SEVEN YEARS FROM 1979 TO 1985 WAS EXTENDED FOR FIVE YEARS IN 1985.

THE EXTENSION IS SCHEDULED TO BE FINALIZED IN TOKYO IN LATE NOVEMBER OR EARLY DECEMBER IF ALL GOES WELL.

IN THE CURRENT FIVE-YEAR AGREEMENT, ENDING IN 1990, CALLS UPON JAPAN TO IMPORT 8.8-9.3 MILLION TONS OF CRUDE OIL AND 3.7-4.1 MILLION TONS OF COAL FROM CHINA ANNUALLY.

THE PROPOSED SECOND EXTENSION FOLLOWS A REQUEST MADE LAST YEAR BY CHINA, WHICH WAS PLAGUED BY THE LACK OF FOREIGN-CURRENCY RESERVES AND PROGRESS IN ITS INDUSTRIAL MODERNIZATION PROGRAM.

THE DELEGATION WILL BE HEADED BY RYOICHI KAWAI, CHAIRMAN OF THE JAPAN-CHINA ASSOCIATION ON ECONOMY AND TRADE, AND INCLUDE EISHIRO SAITO, CHAIRMAN OF THE FEDERATION OF ECONOMIC ORGANIZATIONS (KEIDANREN) AND GAISHI HIRAIWA, KEIDANREN'S VICE CHAIRMAN. THEY WILL MEET WITH OFFICIALS OF THE CHINESE GOVERNMENT TO DISCUSS FUTURE BILATERAL ECONOMIC RELATIONS.

MANILA (SEPT. 11) KYODO - PHILIPPINE PRESIDENT CORAZON AQUINO ON TUESDAY REJECTED NEW APPEALS BY THE FORMER FIRST LADY, IMELDA MARCOS, THAT HER FAMILY AND THE BODY OF HER HUSBAND, THE LATE RULER FERDINAND, BE ALLOWED TO RETURN HERE.

AQUINO SAID, IN A STATEMENT, THAT THE RETURN OF THE MARCOSES ''HAS TO WAIT A MORE PROPITIOUS TIME.'' SHE SAID ''PRUDENCE DICTATES THAT ADDITIONAL OCCASIONS FOR DEBILITATING AND DISTRACTING ACTIVITIES BE AVOIDED.''

IMELDA, DURING A MASS IN HAWAII MARKING THE ANNIVERSARY OF HER HUSBAND'S BIRTH, CALLED ON AQUINO TO PERMIT THEM TO RETURN HOME.

MARCOS AND HIS FAMILY FLED TO HAWAII FOLLOWING THE FEBRUARY 1986 UPHEAVAL THAT THRUST AQUINO INTO THE PRESIDENCY. MARCOS DIED SEPTEMBER 28, 1989 IN HONOLULU AFTER A LINGERING ILLNESS.

AQUINO HAS IN THE PAST SPURNED TALKS ABOUT THE POSSIBLE RESETTLEMENT OF THE MARCOSES HERE AND A PHILIPPINE BURIAL FOR THE DEPOSED RULER, CITING NATIONAL SECURITY CONSIDERATIONS.

THE LATEST REFUSAL OF THE MARCOS FAMILY'S REQUEST BY AQUINO COMES AMID SPECULATION OVER THE POSSIBILITY OF A NEW COUP BID. THE GOVERNMENT IS BRACING ITSELF FOR POSSIBLE STREET VIOLENCE WITH THE FORTHCOMING ANNOUNCEMENT OF NEW PRICE INCREASES FOR PETROLEUM PRODUCTS RESULTING FROM THE PERSIAN GULF CRISIS.

SINGAPORE (SEPT. 11) KYODO - SINGAPOREAN FOREIGN MINISTER WONG KAN SENG VOICED CONCERN ON TUESDAY ABOUT THE FUTURE ROLE OF THE ASSOCIATION OF SOUTHEAST ASIAN NATIONS (ASEAN) AFTER THE CAMBODIAN CONFLICT IS SETTLED.

''WITH THE END OF THE CAMBODIAN CONFLICT NOW IN SIGHT, ASEAN MUST FIND NEW RALLYING POINTS TO KEEP US TOGETHER,'' WONG TOLD A MEETING OF LEGISLATORS FROM FIVE OF THE SIX ASEAN COUNTRIES.

FOR THE PAST 11 YEARS, ASEAN HAS HELPED MOBILIZE INTERNATIONAL DIPLOMATIC OPPOSITION FOR VIETNAM'S INVASION OF CAMBODIA AND HAS WORKED TO BRING THE COUNTRY'S FOUR WARRING FACTIONS TO THE NEGOTIATING TABLE.

THE PHNOM PENH GOVERNMENT AND THREE GUERRILLA GROUPS AGREED IN JAKARTA ON MONDAY TO ACCEPT A UNITED NATIONS PEACE PLAN AND FORM A SUPREME NATIONAL COUNCIL THAT WOULD OVERSEE THE TRANSITION TO PEACE AND DEMOCRACY IN CAMBODIA.

ASEAN GROUPS INDONESIA, MALAYSIA, SINGAPORE, THAILAND, INDONESIA, THE PHILIPPINES AND BRUNEI.

WONG URGED THE REGIONAL GROUPING TO SEEK NEW AREAS OF ECONOMIC COOPERATION NOT ONLY AMONG ITS MEMBERS BUT ALSO WITH OTHER COUNTRIES.

APPARENTLY ALLUDING TO RECENT EFFORTS BY SINGAPORE TO CREATE A ''GROWTH TRIANGLE'' LINKING SINGAPORE, MALAYSIA'S SOUTHERN STATE OF JOHOR AND INDONESIA'S RHIAU PROVINCE, WONG SAID ASEAN NEEDS TO ''ENHANCE ITS COLLECTIVE ATTRACTIVENESS TO INVESTORS.''

TURNING TO THE ASIA-PACIFIC ECONOMIC COOPERATION FORUM (APEC) GROUP, WONG SAID ASEAN CAN PLAY A MAJOR ROLE IN SHAPING THE NEW INTERNATIONAL ECONOMIC FORUM.

''WE WILL HAVE TO WORK TO FIND CREATIVE WAYS OF ENSURING THAT APEC COMPLEMENTS ASEAN ECONOMIC COOPERATION,'' HE SAID.

#90254k0119 09/11/1990 ~Japanese News Agency

TOKYO (SEPT. 11) KYODO - THE JAPANESE GOVERNMENT SAID TUESDAY IT WILL OFFER 99.59 BILLION YEN IN LOANS TO SOUTH KOREA AS THE FINAL PORTION OF A TOTAL OF THE EQUIVALENT OF 1.85 BILLION U.S. DOLLARS WORTH OF LOANS JAPAN AGREED TO IN 1983.

THE TWO COUNTRIES AGREED LAST DECEMBER TO END JAPANESE LOANS AS SOUTH KOREA HAS BECOME A CREDITOR NATION SINCE THE MID-1980S, GOVERNMENT OFFICIALS SAID.

LOANS FROM JAPAN TO SOUTH KOREA HAVE TOTALED 645.5 BILLION YEN SINCE THE TWO COUNTRIES NORMALIZED DIPLOMATIC RELATIONS IN 1965.

ACCORDING TO THE OFFICIALS, THE FINAL LOANS WILL BE USED FOR SEVEN PROJECTS IN SOUTH KOREA. THEY INCLUDE SUBWAY CONSTRUCTION IN SEOUL WORTH 72 BILLION YEN, 11.52 BILLION YEN FOR THE MODERNIZATION OF SMALL- AND MEDIUM-SIZED CORPORATIONS, CONSTRUCTION OF A FEED PLANT WORTH 5.41 BILLION YEN, AND 4.32 BILLION YEN FOR MEDICAL RESEARCH FACILITIES AT SEOUL UNIVERSITY.

THE REPAYMENT TERM IS 25 YEARS, INCLUDING SEVEN-YEAR DEFERMENT. THE INTEREST RATE IS 4.0 PERCENT A YEAR, THE OFFICIALS SAID.

THEY SAID THE SOUTH KOREAN ECONOMY HAS GROWN RAPIDLY IN RECENT YEARS, SHOWING TRADE SURPLUSES SINCE THE MID-1980S. THE COUNTRY BECAME A LENDER OF CAPITAL TO SUCH COUNTRIES AS INDONESIA AND NIGERIA FROM 1987.

OSAKA (SEPT. 11) KYODO - MATSUSHITA ELECTRIC INDUSTRIAL CO. HAS ESTABLISHED A WHOLLY OWNED SUBSIDIARY IN IRVINE, CALIFORNIA, TO DEVELOP AVIONICS, COMPANY OFFICIALS SAID TUESDAY.

THE ONE MILLION DOLLAR SUBSIDIARY, MATSUSHITA AVIONICS DEVELOPMENT CO., WILL BEGIN OPERATION IN OCTOBER WITH 30 EMPLOYEES.

THE MOVE IS INTENDED TO STRENGTHEN RESEARCH AND DEVELOPMENT OF AVIONICS SYSTEMS, INCLUDING AUDIO-VISUAL EQUIPMENT IN AIRPLANES, IN THE UNITED STATES WHERE MANY BIG AIRPLANE MANUFACTURERS ARE BASED.

THE OFFICIALS SAID THE COMPANY PLANS TO BEGIN DEVELOPMENT OF AVIONICS SYSTEMS NOT ONLY IN PASSENGER CABINS BUT ALSO COCKPITS.

MATSUMOTO, NAGANO PREF. (SEPT. 12) KYODO - A SIX-YEAR-OLD BOY WHO RECEIVED A TRANSPLANT OF PART OF HIS FATHER'S LIVER HAD A SUCCESSFUL OPERATION, DOCTORS SAID WEDNESDAY OF THE NATION'S FIFTH SUCH CASE.

THE PARTIAL LIVER TRANSPLANT FOR THE SON OF A NAGANO RESIDENT TOOK 14 HOURS. THE CLOSELY WATCHED OPERATION STARTED TUESDAY MORNING, THE DOCTORS AT THE SHINSHU UNIVERSITY HOSPITAL SAID.

THE OPERATION WAS THE SECOND AT THE HOSPITAL, AND PROGRESSED TWO TO THREE HOURS FASTER THAN THE FIRST OPERATION IN JUNE. THE DOCTORS HAD BECOME USED TO THE OPERATION, THEY SAID.

THE BOY IS THE SON OF A COMPANY EMPLOYEE. HE HAD SUFFERED A CONGENITALLY BLOCKED BILIARY DUCT, AND WAS DIAGNOSED IN JUNE IN A CRITICAL CONDITION WITH A FEW MONTHS TO LIVE, UNLESS HE HAD A LIVER TRANSPLANT. HE HAD TWO OPERATIONS BEFORE.

THE HOSPITAL DETERMINED TO OPERATE ON THE CHILD LAST MONTH AT HIS PARENTS' REQUEST, AFTER APPROVAL FROM THE UNIVERSITY'S ETHICS COMMITTEE.

THE DOCTORS SAID THEY OBTAINED AN INFORMED CONSENT FROM THE PARENTS FOR THE OPERATION AND CONFIRMED THE CONSENT ON AUGUST 25, THE DAY AFTER THE NATION'S FIRST RECIPIENT OF A LIVING LIVER DIED IN SHIMANE PREFECTURE.

THE LATEST OPERATION STARTED JUST AFTER 10 A.M. TUESDAY. THE DOCTORS FIRST EXTRACTED THE SON'S LIVER. A QUARTER OF THE LIVER OF HIS FATHER WHICH WAS EXTRACTED PREVIOUSLY, WAS THEN TRANSPLANTED AT 7 P.M.

BUT DOCTORS SAID THE TREATMENT OF THE CHILD'S INTESTINES, WHICH HAD BEEN OPERATED ON BEFORE, CAUSED A LITTLE SNAG IN THE OPERATION, WHICH ENDED AT 12:32 A.M. WEDNESDAY.

THE LIVER TRANSPLANT OPERATION ON THE NAGANO BOY DREW ATTENTION FROM MEDICAL CIRCLES BECAUSE IT WAS THE FIRST SINCE YUYA SUGIMOTO DIED. HE WAS JAPAN'S FIRST RECIPIENT OF SUCH A LIVING ORGAN, ON AUGUST 24.

A SEVEN-YEAR-OLD GIRL IN MATSUMOTO, NAGANO PREFECTURE, HAD A LIVING LIVER TRANSPLANT OPERATION AT THE HOSPITAL ON JUNE 19.

MOSCOW (SEPT. 12) KYODO - THE SOVIET UNION WILL FORMALLY ESTABLISH DIPLOMATIC RELATIONS WITH SOUTH KOREA IN NOVEMBER, THE OFFICIAL GOVERNMENT NEWSPAPER IZVESTIA SAID TUESDAY.

SOVIET PRESIDENT MIKHAIL GORBACHEV AND SOUTH KOREAN PRESIDENT ROH TAE WOO AGREED TO PROMOTE NORMALIZATION OF RELATIONS BETWEEN THE TWO COUNTRIES IN THEIR MEETING IN SAN FRANCISCO LAST JUNE.

SOUTH KOREA'S KOREAN BROADCASTING SYSTEM (KBS) REPORTED ON MONDAY THAT A BASIC AGREEMENT HAD BEEN REACHED BETWEEN MOSCOW AND SEOUL TO ESTABLISH FULL DIPLOMATIC RELATIONS IN EARLY NOVEMBER.

IZVESTIA SAID THE PROPOSED ESTABLISHMENT OF RELATIONS WILL FOLLOW FOREIGN MINISTER-LEVEL TALKS IN NEW YORK ON SEPTEMBER 26 AND A SOVIET DELEGATION'S VISIT TO SOUTH KOREA IN OCTOBER.

THE MAJOR PURPOSE OF THE SOVIET DELEGATION TO SEOUL WILL BE TO DISCUSS EXCHANGE OF AMBASSADORS AND PROMOTION OF ECONOMIC COOPERATION BETWEEN THE TWO NATIONS, IT SAID.

THE TWO COUNTRIES ALREADY HAVE CONSULAR OFFICES IN EACH OTHER'S CAPITAL. SOVIET-SOUTH KOREAN RELATIONS HAVE THAWED SINCE THE SOVIET UNION SENT A TEAM TO THE 1988 SEOUL OLYMPICS.

#90254m0001 09/11/1990 ~Market Consensus Surveys

FALLS CHURCH, VA (SEPT 11) MCS -- A SAMPLING OF TODAY'S COMMENTARY COMPILED BY MARKET CONSENSUS SURVEYS, INC. IN TWO SECTIONS (1) STOCKS (2) MONEY & ECONOMY.

IN THE NEWS:

World stock markets are lower: ... The Nikkei loses 476 points to 24,605. ... London stocks are slightly lower in midday trading. ... U.S. stocks trading in London are down, and the EXMI is off 0.60. ... The Dollar surges in overnight trading. ... Crude oil comes off it's highs.

Regulators have blocked the proposed sale of a $3 billion junk bond portfolio by COLUMBIA SAVINGS AND LOAN ASSOCIATION saying that the S&L failed to get the best value. ... GANNETT CO. says it may be facing its first year of lower earnings for the first time in 22 years. television industry and sends the measure to the SENATE. ... NRC announces a wireless network that connects personal computers through radio waves instead of cables. ... Negotiators for GENERAL MOTORS and the UNITED AUTO WORKERS have reached a tentative agreement on nearly all non-economic issues. ... AMERICAN CYANAMID completes the plan for selling its Shulton Group of consumer products by agreeing to sell its Breck hair care products line to GREYHOUND DIAL. ... PIZZA HUT is opening its first restaurant in the Soviet Union.

WHAT'S AHEAD:

Budget negotiations resume at 10 a.m. EDT this morning at Andrews Air Force Base. ... PRESIDENT BUSH makes a nationally televised address to Congress tonight.

FROM THE BULLS:

"Despite the drop, I feel the Dow has the potential to get to 2700 shortly " says JAY HOHMANN of DONALDSON LUFKIN JENRETTE SECURITIES. "Participation is low, and it won't take much to get the market going on the upside," says Hohmann, who warns that his expected rally may be delayed by events in the Middle East. ("Investor's Daily", 9/11)

"I think it's very easy to be a bull right here," says KENNETH HACKEL, president of SYSTEMIC FINANCIAL MANAGEMENT. "If one looks past ... the Persian Gulf ... at the value of American equities, they are so overwhelmingly undervalued. Stocks now are selling at about 19 times free cash flow. That's where they typically sell at the bottom of a recession. Stocks are just so, so cheap now." (CNBC "Market Wrap-Up", 9/10)

"Our warning index is telling us the market had moved to an extreme on the downside and has the potential to move higher," says the head of TRENDSTAT CAPITAL MANAGEMENT, THOMAS BASSO. He says the market may mark time building a foundation, but is committing more cash to the market. He is presently at 62% cash, compared with 71% two weeks ago. ("Investor's Daily", 9/11)

FROM THE BEARS:

"You're getting the same tired leadership that you got last week," says technician EDWARD NICOSKI at PIPER JAFFRAY AND HOPWOOD. "I think that secondary growth stocks are going to lead some kind of continued rally, but it's probably going to be a rally in a bear market." ("The Washington Post", 9/11)

STOCK MARKET:

The dollar's unexpected strength may support stocks on Wall Street this morning, says SHEARSON LEHMAN's MICHAEL BENSON from London. "Initially I would have called for the market to open near 2600, test that level and hold. But with this dollar, we could be down only 5 or 10 points initially and see if we can recover there." (FNN "World Business Update", 9/11)

"The signs [of a coming decline] were there since last August when we started losing the breadth of the market and the momentum of the market," says BERNADETTE MURPHY, a technical analyst at M. KIMELMAN. She says a rally is likely, but also predicts that "we will probably set lower lows before this whole correction is completed." (CNN "Moneyline", 9/10)

"The sentiment in the stock market is much healthier for a rally than in the bond market," says MICHAEL KRAUSS, technical analyst at SHEARSON LEHMAN BROTHERS. (CNBC "Market Wrap-Up", 9/10)

"The psychology seems to be changing here," says RON DORAN of C.L. KING & ASSOCIATES. "A lot of money managers are pretty sure that for the next three to six months the market will be in a downward spiral." ("USA Today", 9/10)

"We're dealing with a confluence of a lot of problems, not just one problem," says MARSHALL ACUFF of SMITH BARNEY. He lists the Middle East, the budget, a weaker economy and high debt levels as factors buffeting the market. "It's almost too much for the market," says Acuff. (FNN "Marketwrap", 9/10)

Investors are staying on the sidelines because there is "no sense of urgency to get their money invested in the market," says HUGH JOHNSON, head strategist for the FIRST ALBANY CORPORATION. "Most investors I talk to, large and small, have said [the market] is too risky. They feel comfortable with large cash positions and will stay on the sidelines until there's a resolution in the Mideast. The light volume is evidence of how uncommitted most investors are." He believes that investors are reacting to "continued concern over how the Middle East problem will be resolved and reports of significant skepticism that a deficit reduction package will be reached before the President speaks" to Congress tonight. Johnson

adds, "It looks like there isn't going to be any military confrontation, but there still is genuine concern about the Middle East." (NYT and WSJ, 9/11)

"I think I'll get a buy signal late this year [or] early '91," says ELAINE GARZARELLI of SHEARSON LEHMAN BROTHERS. Until then, she looks for a trading range between 2400 and 2850, and is staying in cash. (FNN "Marketwrap", 9/10)

STOCK TIPS:

"In the environment of volatility we're seeing," MARSHALL ACUFF of SMITH BARNEY thinks the utilities are a smart investment, both the electrics and telephones. He says their run-up is not yet finished, and says investors should buy "through the end of the year and into early next year." He also likes IBM, "just because so many people don't like it anymore." (FNN "Marketwrap", 9/10)

Investors "are trying to reduce their retail exposure all at once. Everyone's trying to get out the door at the same time," says JONATHAN SCHOOLAR, a co-manager of the AIM WEINGARTEN and CONSTELLATION funds. "Some extremely illogical candidates have been sold off. It's pure emotion." STEPHEN POLLING of AMEV ADVISERS agrees, saying, "people are taking a short-term view" of retail stocks. He predicts WAL-MART will enjoy 25% annual growth in the next decade, and calls it "one of the great stocks of the 1990s." Polling also likes TOYS "R" US. "They've indicated their back-to-school business has been slow, but they are in a class by themselves in terms of toy retailing." ("Investor's Daily", 9/11)

DAN DORFMAN writes in "USA Today" that he has learned ARTHUR GOLDBERG has bought about 6% worth of BALLY MANUFACTURING CORP. stock and plans to take an active role in running the company -- with management's blessing. ("USA Today", 9/11)

The impact of the Gulf crisis on world shipping will only be temporary, says PHILLIP DODGE of NORMURA RESEARCH. "There's an excellent trading opportunity followed by a good investment opportunity in OVERSEAS SHIPBUILDING," says Dodge. With winter approaching, Dodge likes natural gas producer COASTAL which also operates pipelines. Expecting the profit margin on gasoline to remain high even if crude prices decline, He recommends SUN, the U.S.'s largest independent refiner. (CNN "Business Day", 9/11)

ELECTRONIC DATA SYSTEMS, which trades as the Class E stock of parent GENERAL MOTORS, has signed more than $6 billion in new business in recent weeks and is seeking to expand to a $25 billion company within the next decade. "The last month, that strategy certainly seems to be bearing fruit," says CHARLES FRUMBERG of MABON, NUGENT. Acquisition of one-half

the reservations system owned by the parent of CONTINENTAL and EASTERN airlines doesn't add much to earnings at first, "but if they can acquire other systems, it really expands their business," says ARTHUR DAVIS of PRESCOTT, BALL & TURBEN. ("USA Today", 9/11)

ORACLE software rebounded 3/8 yesterday after falling Friday on news of the company's first quarterly loss. Oracle warned shareholders of a loss of as much as 20 cents per share for the quarter ended Aug. 31, compared to a year ago profit of 9 cents per share. "The company's credibility is shot and that is something that is going to take at least a couple of quarters" to be re-established, says TERRANCE QUINN of KIDDER, PEABODY. ("Investor's Daily", 9/11)

DANIEL HERSH, airline analyst at BATEMAN EICHLER, HILL RICHARDS in Los Angeles says the weakness in some airline stocks presents a buying opportunity. His recommendations: SOUTHWEST AIRLINE, ATLANTIC SOUTHEAST AIRLINES and AIR MIDWEST. ("USA Today", 9/11)

-30- 9050

#90254m0002 09/11/1990 ~Market Consensus Surveys

FALLS CHURCH, VA (DEC 5) MCS -- A SAMPLING OF TODAY'S COMMENTARY COMPILED BY MARKET CONSENSUS SURVEYS, INC. IN TWO SECTIONS (1) STOCKS (2) MONEY & ECONOMY.

MONEY & CREDIT:

The dollar surged overnight against the yen, mark and pound, surprising currency options trader LENNY DENDUNNEN of the UNION BANK OF SWITZERLAND. "My only feeling is that people are tired of selling dollars and figured they might buy some for a change," says Dendunnen who finds no evidence of large orders to account for the move up. "Most people are saying [the gains] are off the back of some cross trading." (FNN "World Business Update", 9/11)

"It's looking bad for" the mark, says CLAUS WAGNER, chief trader at CITIBANK in Frankfurt. "I really believe we've seen the worst for the dollar. We've seen all the bad news. If a currency is going to weaken, it's the mark." (WSJ, 9/11)

Investors have begun to move from sterling to the yen as a result of the perceived peak in British interest rates and the recovery in the Japanese stock market, says JAMES McGROARTY of GREENWICH CAPITAL MARKETS. He says the dollar's strength yesterday was "more of an individual currency assessment rather than an overall dollar view." ("Investor's Daily", 9/11)

"If the Fed is thinking of easing right now, their window of opportunity seems to be shrinking, because the market will get a very bad report on

producer price inflation for August on Friday," says WARD McCARTHY, a managing director at STONE & McCARTHY RESEARCH ASSOCIATES. "And if the Fed allows this window of opportunity to pass, I think it will bode ill for the economy." He continues, "There are no signs yet of a complete collapse [in the economy], but if policy makers wait for those sorts of signals it will be too late." (NYT, 9/11)

"I think the Fed will lag in easing, I think we're probably talking October-November before they start," says JOSEPH PLOCEK, chief economist at McCARTHY CRISANTI MAFFEI. "But I think the longer they wait the more they will have to ease, and we're probably talking about a 7% Federal fund rate by the end of the year." (CNBC "Market Wrap-Up", 9/10)

"The budget is the key to what the Fed will or won't do," says JAMES CAPRA a senior vice president at SHEARSON LEHMAN GOVERNMENT SECURITIES. "And if we don't get a budget agreement in the next 24 hours, my feeling is they won't have one until the end of the month, when sequestration will push them into it." (NYT, 9/11)

"I would not read too much in the way of substance," into the junk bond rally yesterday, says JOHN LONSKI, senior economist at MOODY'S INVESTORS SERVICE INC. If oil prices remain above $30 a barrel when the market opens today, he says, junk bond prices are likely to fall. (WSJ, 9/11)

THE ECONOMY:

Half of the 50 economists surveyed by the monthly newsletter "Blue Chip Economic Indicators" say the economy is in a recession or will be in one by the end of the year. That compares with just 11% who had that sentiment four months ago. "The U.S. economy faces the greatest risks it's seen for at least the past eight years," says ROBERT EGGERT, editor of the newsletter. ("USA Today", 9/11)

"These are very tough markets for investors, because they are so reactive to the political and economic news" says MARY FARRELL of PAINEWEBBER. But she predicts a stable, if not particularly strong, economy. "We will inch by with almost flat real GNP growth and then proceed forward," says Farrell. (FNN "Marketwrap", 9/10)

"People are reading the economy too optimistically at this point if you read any optimism into those employment numbers," says BILL WOLMAN, chief economist at "BusinessWeek" and "CNBC." He is worried "that we are getting ourselves into a very difficult situation" with too much outstanding consumer debt "because income to support that credit is growing relatively slowly." (CNBC "Market Wrap-Up", 9/10)

The FEDERAL RESERVE released a report yesterday showing that consumer credit had risen 7.4%. "There are two explanations" for the sharp

increase, says SUNG WON SOHN, chief economist for the NORWEST CORPORATION in Minneapolis. "One is that it is simply a statistical aberration" and that it will decline in coming months to $1 billion to $2 billion a month. "The other, more important possibly is that consumers are getting pinched right now. Prices were going up in general even before the oil crisis. Wages were not keeping up with prices, so consumers were relying more and more on revolving credit." (NYT, 9/11)

IN WASHINGTON:

"I would say that [budget] talks are going nowhere fast," said TREASURY SECRETARY NICHOLAS BRADY on ABC's "Good Morning America" yesterday. HOUSE SPEAKER THOMAS FOLEY (D. - Wash.) says Brady's comments were "inappropriate and wrong." (WSJ, 9/11)

5 FEDERAL DEPOSIT INSURANCE CORP. CHAIRMAN WILLIAM SEIDMAN says regulators are working on a plan to let some troubled thrift institutions stay in business even though they do not meet minimum financial safety standards in order to save the federal government the cost of taking them over. ("The Washington Post", 9/11)

#90254p3172 09/11/1990 ~PR Newswire

VALLEY, NEB (SEPT. 11) PR NEWSWIRE - Valmont Industries Inc. (NASDAQ: VALM) announced today that 1990 third quarter and total year earnings are likely to be lower than expected and somewhat lower than 1989. For the year 1989, the company earned $20.7 million or $1.78 per share. The company also announced reaffirmation by its board of directors of its stock buy-back program.

William F. Welsh II, company president and CEO, indicated that continued overall slowing of business activity in the U.S. markets, coupled with cessation of sales to Iraq, has resulted in a lowering of the company's earnings expectations. While overall sales activity will be up over the comparable periods of last year, sales are not projected to reach planned levels in any of the three major reporting segments. Earnings will be down compared to last year in the irrigation and industrial products segments.

The company continues to feel positive about its long-term prospects in all three segments, both through internal growth and expansion by acquisition. "In the short-term, we continue to strive for increased efficiencies in our cost structure while not foreclosing any long-term opportunities" Welsh said. "Long-term we are confident that we can generate returns that meet or exceed our financial objectives of 15 percent trendline earnings growth and an average 20 percent return on beginning equity."

Valmont also announced that its board of directors has reaffirmed the stock buy-back authorization of 1987 in light of the recent market downturn. The company is authorized to purchase an additional 350,000 shares of its outstanding common stock in the open market from time to time. The shares will be added to treasury stock and used for stock options, incentive plans, and other corporate purposes.

Valmont Industries manufactures components for the electrical construction industry; is a leading producer of mechanized irrigation systems for worldwide agricultural markets; and owns 80 percent of ValCom Inc., a major distributor of microcomputer products and services.

#90254p3176 09/11/1990 ~PR Newswire

PALO ALTO, CA (SEPT. 11) PR NEWSWIRE - Many investors with professionally managed futures accounts had gains from 20 percent to over 50 percent in July and August when the markets were buffeted by the crisis in the Persian Gulf. Profits were propelled by crude oil running from $17 a barrel to almost $30 a barrel, the U.S. dollar dropping relative to most foreign currencies, and long term bonds tumbling in response to rising interest rates and fears of inflation.

While the U.S. dollar and equities markets sank, futures profits soared, displaying the negative correlation between managed futures and the equities markets. Preliminary estimates indicate public futures funds are up 12-14 percent on average for the summer months. Managed futures accounts and funds employ professional managers to make buy and sell decisions, thereby avoiding many of the pitfalls suffered by individual investors.

One fund, Preferred Multi-Advisor Futures Fund II was up 28 percent in July and August. Jonathan Krass, Shearson senior vice president in Palo Alto, who assisted in selecting the fund's six trading advisors, states, "This fund was diversified into energy products and foreign currencies which gave investors profits to offset declines in the securities markets and the purchasing power of the U.S. dollar."

This summer many professional trading advisors made substantial gains for investors. Up over 45 percent in July and August were programs managed by: Colorado Commodities, Hawksbill Capital, John W. Henry, and Visioneering. Firms with programs that gained in excess of 25 percent were: Computerized Commodity Advisory, EMC Capital; Nocra, Pragma; Sjo; Soderquist, Walsh, O'Brien; Spackenkill; TrendLogic Associates; Trendview Management; and Welton Investment Systems.

As the crisis in the gulf vacillates between a negotiated settlement and war, there will be responsive fluctuations in energy prices, currency values, interest rates, and the securities markets. Investors will be affected by all of these. While this may have a negative impact on traditional investments, Ken Tropin, president of John W. Henry & Co., points out that "professionally managed futures investments can benefit from rising or falling markets and, as a result, have performed quite well during these difficult times."

The Managed Futures Trade Association is a non-profit organization formed to disseminate information about the managed futures industry. Further information about the firms mentioned above can be obtained by calling 415-325-4533.

CONTACT: Jane Martin of the Managed Futures Trade Association, 415-325-4533 (day) or 415-325-3358 (evening)

ATLANTA (SEPT. 11) PR NEWSWIRE - T2 Medical Inc. (NASDAQ-NMS: TSQM) announced today that it has acquired three T2 managed home infusion therapy centers, Atlantic Coast Home Therapeutics Inc. of Virginia Beach, Va., Colonial Home Therapeutics Inc. of Philadelphia, and Georgia Home Therapeutics III Inc. of Atlanta.

The total value of the consideration paid for the three centers was approximately $8,727,800, which was paid through the issuance of 319,516 shares of T2 common stock and an aggregate of $533,000 in cash. These acquisitions will be accounted for using the pooling of interest method of accounting.

With these recent acquisitions, T2 Medical Inc. currently owns/operates 42 home infusion therapy centers and manages 50 physician-owned home infusion therapy centers and sub-centers located in 46 cities and 25 states and the District of Columbia.

T2 Medical Inc. is a leading provider of home infusion therapy centers in the United States. Infusion therapy is the administration to a patient of nutrients, antibiotics and other drugs and fluids, either intravenously or through a feeding tube.

NEW YORK (SEPT. 11) PR NEWSWIRE - Gemini Partners L.P. announced today that the Delaware Chancery Court has granted its motion for a temporary restraining order requiring Healthco International Inc. (NASDAQ: HLCO) to give Gemini three business days advance notice before undertaking any action not in the ordinary course of business. For the purposes of the temporary restraining order, the Chancery Court preliminarily concluded Gemini had advanced a sufficient claim on the merits that its nominees are the proper members of the Healthco board to warrant the request relief. The Chancery Court also set a Sept. 19 trial date on Gemini's claim that its nominees have been elected to Healthco's board of directors by written consent of the stockholders.

#90254p3193 09/11/1990 ~PR Newswire

CLEVELAND (SEPT. 11) PR NEWSWIRE - Agency Rent-A-Car, Inc. (NASDAQ: AGNC) the nation's leading automobile insurance replacement company, today reported an increase in earnings per share for the six months ended July 31, 1990, to $.33 per share from $.28 per share for the same period last year, on rental revenues of $138.5 million (earnings per share reflect adjustments for the 5 percent stock dividend paid in June 1990). Record revenues of $72.0 million for the second quarter reflect an increase of 5.6 percent over the same period last year. Net income increased $535,000 to $5.3 million or $.20 per share from $4.7 million or $.18 per share last year.

Sam J. Frankino, chairman of the board and chief executive officer, commented: "The improvement reported in operating margins reflects the efforts to control and reduce costs by all employees. These improvements, along with lower debt levels, should continue to increase margins in quarters to come." Operating margins for the quarter of 10.9 percent reflect an increase from 7.4 percent last quarter and 10.4 percent for the same period last year. Outstanding automobile obligations of $138.9 million at July 31, 1990 are 14 percent lower than last year. Despite increasing competitive pressures, the company has been successful in increasing rates, while maintaining consistent utilization levels and reducing costs.

The company also announced that it has entered into a settlement agreement with Econo-Car International, Inc., which resolves all disputes resulting from the company's acquisition of Econo-Car International in 1980. Federal and state court litigation arising from these disputes will be dismissed with prejudice. Frankino stated that although the agreement precluded him from disclosing the particular terms and conditions of the settlement, he believed that the resolution represented a complete

vindication of the company and all individually named defendants.

For the fiscal year ending Jan. 31, 1991, the company is projecting record revenues approaching $300 million and a rental fleet of 45,000 units.

LAGUNA NIGUEL, CALIF. (SEPT. 11) PR NEWSWIRE - OptimumCare Corp. (NASDAQ: OPMC), which operates psychiatric care and chemical dependency units nationwide, announced today that they have signed a long-term contract to operate a psychiatric care unit at Terrace Plaza Hospital in West Covina, Calif.

Edward A. Johnson, OptimumCare's president, said that Terrace Plaza and OptimumCare have formed a joint affiliation with a group of 15 admitting physicians who represent a large referral base for the program. The contract with Terrace Plaza Hospital, which serves primarily Medicare and managed care patients, provides for a flat per diem rate based on patient census. "We believe that this is an excellent market for OptimumCare to pursue, based on the large volume of patients in this category in the state," said Johnson.

Last month OptimumCare announced that they had taken over operation of a chemical dependency unit at Washington Hospital in Culver City, Calif. The Washington Hospital contract could potentially generate approximately $2 million in revenue over its three year term.

The company currently operates six programs throughout the country, including chemical dependency units, women's health centers, and general psychiatric centers. Johnson stated that the company is negotiating similar contracts with other host hospitals and expects to have them in place in the near future.

OptimumCare Corporation establishes and markets in-patient programs for the treatment of psychiatric disorders and chemical dependencies at host health care facilities.

NEW YORK (SEPT. 11) PR NEWSWIRE - Renault Vehicules Industriels S.A. ("RVI") announced that it will mail today to shareholders of Mack Trucks, Inc. (NASDAQ: MACK), a supplement to the offer to purchase of ITM Acquisition Corp. ("ITM"), an indirect wholly-owned subsidiary of RVI, to

acquire all of the outstanding shares of common stock of Mack not beneficially owned directly or indirectly by RVI. The supplement will reflect, among other things, the terms and conditions of the merger agreement entered into last week by Mack, RVI and ITM, including an increase in the offer price to $6.25 per share, net to the seller in cash. The offer is subject to certain conditions, including that there be validly tendered prior to the expiration of the offer and not withdrawn a number of shares which, together with shares owned by RVI, will constitute at least 90 percent of the outstanding shares of Mack on a fully diluted basis (excluding shares issuable upon exercise by RVI of its warrant) (the "minimum condition"). Jean Pierre Capron, chairman and chief executive officer of RVI, said: "We feel that, having received the recommendation of the special committee with respect to the offer, we have taken a very important step toward completing the offer and we encourage shareholders to physically tender their shares into the offer in order that the minimum condition be met."

RVI also announced today that the offer and related withdrawal rights had been extended until 9:00 p.m., New York City time, on Tuesday, Sept. 25, 1990. The offer had previously been scheduled to expire at 5:00 p.m., New York City time, on Sept. 20, 1990.

As of 5:00 p.m., New York City time, on Sept. 10, 1990, an aggregate of 2,199,341 shares of Mack had been tendered pursuant to the offer by either physical or guaranteed delivery. The tendered shares, together with the Mack shares owned directly or indirectly by RVI, represent approximately 51.9 percent of the total outstanding common stock of Mack.

NEW YORK (SEPT. 11) PR NEWSWIRE - TECO Energy, Inc. (NYSE: TE) said today the company is making rapid gains in its efforts to expand its energy-related businesses, including coal, transportation and the production of natural gas from coal seams.

TECO Energy, based in Tampa, is parent company to Tampa Electric, the public utility serving 450,000 customers in Central Florida. A quarter of the company's total income is now derived from its diversified businesses.

The company's transfer facility at the mouth of the Mississippi River is the largest on the Gulf Coast, he said, and will handle record coal volumes this year as U.S. coal exports expand. Guzzle also noted that the company's substantial ocean-going fleet makes TECO Energy the largest U.S.

flag dry bulk carrier.

Total recoverable reserve attributable to the company's TECO Coalbed Methane subsidiary are estimated to be 150 billion cubic feet. All gas produced is committed for sale under a long-term contract.

Guzzel said the company has committed $90 million for coalbed methane development and expects to commit as much as $25 million more by year's end.

Guzzle also said the company's electric utility is performing well. Tampa Electric continues to enjoy the benefits of a stable economy in its service area and a customer growth rate of two percent. In addition, the company has an aggressive cost-containment program, and current operation and maintenance costs per kilowatt hour are equal to what they were seven years ago.

He said a tight power generation situation in Florida is creating opportunities for sales to other utilities. "And the recent run-up in oil prices makes our coal-fired capacity very competitive and should give us improved margins."

#90254p3210 09/11/1990 ~PR Newswire

HOUSTON (SEPT. 11) PR NEWSWIRE - Enron Corp. (NYSE: ENE) today announced that agreements have been signed for power sales, joint venture operations and gas supply for Enron's Teesside, United Kingdom power project, which is one of the world's largest gas-fired, combined cycle gas-turbine heat and power (CHP) projects. An affiliate of Enron will design, construct and operate the 1725 megawatt(Mw) independent power facility to be located at ICI Chemicals & Polymers Limited's Wilton Works plant near Redcar, on Teesside in Northeast England. The project, which is dependent on several important pending governmental permission and consent agreements, will add approximately 3 percent to England and Wales' power generating capacity and will supply a substantial portion of ICI's steam needs at Wilton.

Power sales agreements have been executed for all 1725 Mw of firm capacity. Four regional electricity companies and ICI are the primary purchasers. The regional electricity companies and their respective power commitments are:

Midlands Electricity	500 Mw	Northern Electric	400 Mw
South Wales Electricity	200 Mw	South Western Electricity	200 Mw

ICI has committed to 257 Mw as well as receiving the steam production from the power facility. A marketing company jointly owned by Enron and ICI has committed to the remaining 168 Mw for additional sales to the United Kingdom electricity market.

The power sales agreements have an initial term of 15 years beginning April 1, 1993 with options to extend. The power price provisions of these agreements include fixed escalating components to cover the project's non-fuel costs and effectively pass through the project's primary fuel costs.

A long-term gas supply contract has been signed with the Amoco/Gas Council Group whose members are affiliates of Amoco Corporation, Amerada Hess Corp. and British Gas Plc. The contract provides for approximately 300 million cubic feet of natural gas per day to be delivered from the North Sea to Teesside for a period of 15-1/2 years beginning April 1, 1993. Price terms on the gas and power contracts were not disclosed.

Enron Corp., America's leading natural gas company with approximately $10 billion in revenues and $9 billion in assets, operates the largest natural gas transmission system in the United States, markets natural gas liquids, crude oil and refined products worldwide, owns 84 percent of Enron Oil & Gas Company, one of the U.S.' largest independent (non-integrated) natural gas production companies, and also is one of the largest independent producers of electricity in the U.S. with extensive experience in combined heat and power installations.

ANAHEIM, Calif. (SEPT. 11) PR NEWSWIRE - Carl Karcher Enterprises Inc. (NASDAQ: CARL) today reported increases in net income and revenues for the second quarter of fiscal year 1991.

For the 12 weeks ended Aug. 13, 1990, net income advanced 8 percent to $5.1 million, or $.28 per fully diluted share, from $4.7 million, equal to $.25 per fully diluted share, in fiscal 1990. Revenues advanced to $125.0 million from $122.9 million in the same period last year.

Net income for the first half of 1991 was $10.3 million, or $.57 per fully diluted share, compared with $10.4 million, or $.55 per fully diluted share. Revenues for the period rose to $282.1 million from $271.7 million for the first half of fiscal 1990.

"Results for the quarter are encouraging, considering the heavy competitive discounting in the quick-service restaurant sector," said Donald F. Karcher, president and chief operating officer.

Karcher added that revenues increased over last year despite the fact that the company sold or franchised its 40 company-owned restaurants in Arizona during the first and second quarters of 1991 as part of an overall plan to focus more closely on its core California market.

Operating earnings - pretax income before other revenues, interest expense and investment and other income - advanced 18 percent over the prior year's quarter, reflecting results of the company's heightened cost-cutting program. During the quarter administrative espenses other than advertising declined 9.1 percent from the same period is fiscal 1990.

Carl Karcher Enterprises Inc. operates Carl's Jr. restaurants, a regional

quick-service chain known for its varied menu and healthful, premium quality products. Founded in 1941, the company, its franchisees and licensees operate 554 restaurants in California, Nevada, Oregon, Arizona, and Japan.

CLEVELAND (SEPT. 11) PR NEWSWIRE - In another major step to improve its small business customer focus, AT&T announced it has united its sales and customer service management. Richard S. Cremona was named to head the unified operations for the state of Ohio.

"Our customers told us they wanted a single organization to meet all their communications equipment needs, and that's exactly what we have now," said Cremona, general manager of AT&T's small business equipment division based in Cleveland. "This is but one more example of our continued commitment to our small-business customers. Our new structure will enable us to be more responsive to them."

Toledo-area customers will continue to be served by the same AT&T sales and customer service (installation and maintenance) specialists. The specialists in Ohio will be managed by a single general manager.

"Our customers can still pick up the phone and dial 1-800-247-7000 to get help with any of their needs," Cremona said. "What has changed is that by bringing all aspects of the small business market under a single manager I

will be able to look across our entire sales and service operation to see how we can make it even easier for our customers to do business with us."

AT&T's small business equipment division provides business telephone systems, voice messaging and facsimiles to business customers with two to 80 lines. It also has the only multi-line, cordless business telephone available in the industry.

PURCHASE, N.Y. (SEPT. 11) PR NEWSWIRE - IBM Corporation (NYSE: IBM) and Hogan Systems, Inc. (NASDAQ-NMS: HOGN), today announced that IBM has received a 5 percent equity interest in Hogan Systems, a leading developer and provider of integrated banking applications (IBA) software and services based in Dallas.

Additional details of the equity agreement were not disclosed. The two companies also announced that IBM has extended its existing agreement with Hogan Systems to exclusively market Hogan Systems' IBA products in the United States, Canada and Puerto Rico. These products meet the requirements of large banks and thrifts for their core accounting applications. In addition, the agreement provides for joint product development by IBM and Hogan Systems.

"Our agreement with Hogan Systems is a further indication of IBM's commitment to be a market-driven quality company by providing customers with complete solutions," said William W.K. Rich, IBM vice president and president, services sector division. "This new agreement extends our commitment to integrated banking applications and Hogan Systems, and reinforces IBA's role as a cornerstone of our large banking application strategy."

"We are pleased that IBM is continuing and strengthening its relationship with us," said Patric J. Jerge, president and chief executive officer of Hogan Systems. "In working with IBM, both companies will develop and deliver the best possible solutions for our banking customers."

Hogan Systems, Inc., designs, markets and supports integrated online application software products for use by financial institutions worldwide. The company maintains major sales and support offices in Woking, England; Melbourne, Australia; New York and Dallas. Company stock is traded on the NASDAQ National Market System under the symbol "HOGN" and is listed in alphabetical quotations as "Hogan" or "HoganSys."

#90254p3221 09/11/1990 ~PR Newswire

GOLDSBORO, NC (SEPT. 11) PR NEWSWIRE - Goldtex, Inc. (NASDAQ: GLTX) today released its earnings for both the quarter and year ending July 29, 1990. For the quarter, the Company reported a loss from continuing operations of $177,909 or $.08 per share on sales of $5,940,476, compared to a net profit of $95,722 or $.04 per share on sales of $4,634,521 in the same period in 1989. For the quarter, the Company had a gain from discontinued operations of $49,014 or $.02 per share, compared to a loss of $618,488 or $.27 per share in the same period in 1989.

For the year ended July 29, 1990, the Company reported a loss from continuing operations of $481,211 or $.21 per share on sales of $21,699,207, compared to a net income of $882,519 or $.38 per share on

sales of $22,587,899 for fiscal 1989. For fiscal 1990, the Company had a gain from discontinued operations of $49,014 or $.02 per share, compared to a loss of $618,488 or $.26 per share for fiscal 1989.

Will Hopper, President, stated "While the Company is disappointed with the loss in both the fourth quarter and for the total year, extraordinary circumstances during the fiscal year significantly contributed to the loss. The consolidation of the Company's manufacturing operations from Kinston to Goldsboro, which were completed in May 1989, contributed to substantial training and startup costs in the first half of fiscal 1990. The Company believes these problems are now resolved. Additionally, an unsuccessful attempt by the Amalgamated Clothing and Textile Workers Union to organize the Company's production employees contributed substantial expense and disruption to the second half of the fiscal year. The Company's operations have improved significantly during the first quarter of fiscal 1991, and the Company is optimistic about its results for the period."

Goldtex, Inc., headquartered in Goldsboro, North Carolina, is engaged in the printing, dyeing and finishing of fabrics for others on a commission basis.

TREVOSE, PENN. (SEPT. 11) PR NEWSWIRE - Auto Depot Inc. announced that the Securities and Exchange Commission declared effective its registration statement relating to the offer and sale of 1,806,000 units today. Each unit, priced at $5, will entitle the holder to three shares of the company's Class A common stock, and three redeemable Class A warrants. The Class A warrants are immediately exercisable and transferable separately from the Class A common stock. Each Class A warrant entitles the holder thereof to purchase one share of Class A common stock and one redeemable Class B warrant, at an exercise price of $1.875. Each Class B warrant entitles the holder to purchase one share of Class A common stock at an exercise price of $3. The NASDAQ symbols for each of the securities are: units, AUTDU; Class A common, AUTDA; Class A warrants, AUTDW. The close of the offering is anticipated to occur on or about Sept. 17, 1990. The Ccmpany will initially receive net proceeds of approximately $7,521,100 from this offering. The company intends to use the proceeds to fund Auto Depot's first six months of operations and the opening of its first three warehouse stores.

Auto Depot will offer a wide selection of quality, brand-name automotive products at discount prices to retail and commercial customers. Auto Depot warehouse stores will average approximately 44,000 square feet, and

will carry an inventory of approximately 15,000 stock keeping units (items), including automotive accessories, batteries, maintenance and repair parts, sound systems, tires, and custom wheels. Each Auto Depot warehouse store will also contain a fully equipped automotive service center staffed with certified technicians.

#90254p3230 09/11/1990 ~PR Newswire

CLEVELAND (SEPT. 11) PR NEWSWIRE - The M.A. Hanna Company (NYSE/MSE: MAH) today announced that it plans to sell its Day International Printing and Textile Products business. The company also said that its board of directors has authorized the purchase of up to 2.8 million shares of Hanna common stock, representing up to about 10 percent of the outstanding shares.

The company has retained the investment banking firm of Salomon Brothers Inc. of New York to assist in the divestiture of its Day International Printing and Textile unit, which is the world's leading manufacturer of polymer printing blankets and other polymer products used in the offset printing industry. The unit also manufactures polymer-based consumable parts used in textile mills in the production of yarns and fabrics.

Day International Printing and Textile, with annual sales of about $100 million, is headquartered in Dayton, Ohio, and has manufacturing facilities in Asheville, N.C., Three Rivers, Mich.; Dundee, Scotland; Lerma, Mexico and Sao Paulo, Brazil.

"Day International Printing and Textile is a very strong business, but it is outside Hanna's long-term strategy to become a more focused specialty chemicals company," said Hanna Chairman Martin D. Walker. "We believe that Day International will benefit in the long term as part of a company where it is a strategic business."

Walker noted that Day International possesses strong technology and holds a leading world market position. "These strengths, combined with the business's seasoned management team and state-of-the-art manufacturing facilities, result in a major opportunity for prospective domestic and international buyers," Walker said.

Commenting on the stock repurchase authorization, Walker said, "We believe that Hanna common stock at its current price level is greatly undervalued and represents one of the best investments we can make for our shareholders. Given Hanna's strong cash flow and balance sheet, any buyback will in no way impact our ability to fund our growth plans."

Stock purchases may be made in open market transactions or in privately negotiated transactions. Purchased shares will be held as treasury shares and will be available for reissuance in connection with employee benefit plans and other corporate purposes. There are approximately 27.9 million shares of common stock outstanding. On Sept. 10, 1990, the stock closed at $17-5/8 per share.

ROSLYN HEIGHTS, NY (SEPT. 11) PR NEWSWIRE - The Harvey Group Inc. (AMEX: HRA) today reported comparative operating results for the three and six months ended July 28, 1990. Revenues and net income for the second quarter were $10,061,000 and $19,000 ($.01 per share), respectively, compared to $9,382,000 and $415,000 ($.17 per share) for the same quarter in 1989. For the six months ended July 28, 1990, revenues were $20,319,000 and net loss was $153,000 ($.07 loss per share) compared with $18,524,000 and net income of $726,000 ($.30 per share) in the first half of last year. A gain of $599,000 relating to the settlement of certain pension obligations is included in net income for the six and three months ended July 29, 1989.

Consolidated revenues increased 10 percent and 7 percent, respectively, for the twenty-six and thirteen weeks ended July 28, 1990. This was attributable to increase sales in the company's consumer electronics division as a result of two new stores being in operation for the full six months ended July 28, 1990, as compared to only three months for the same period last year, and a new outlet store being opened in February 1990. Additionally, commissions increased in the company's food division due to the addition of new principals as well as new product introductions from existing principals.

The Harvey Group Inc. is engaged in the food brokerage business and the retail sale and service of consumer electronic equipment.

NEW ORLEANS (SEPT. 11) PR NEWSWIRE - Avondale Industries Inc. (NASDAQ-NMS: AVDL) today announced that it has been awarded a contract to construct three river towboats.

The vessels incorporate a number of new engineering improvements designed to provide increased power and maneuverability, greater versatility of use and reduced maintenance costs. The towboats are being purchased by Viking Maritec, a privately owned maritime engineering company headquartered in Pennsylvania, and the developers of the "Viking 2000" series vessels. The vessels will be operated by B&H Towing Inc., of Paducah, Ky., Stokes Towing Company Inc. of Greenville, Miss. and Western Kentucky Navigation Inc. of Paducah, Ky., under contract to National Marine Inc. of New Orleans.

Initial construction of the vessels will start immediately by Avondale's Boat Division at its Westwego, La. facility. Delivery of the first towboat is scheduled for last quarter 1991 with subsequent deliveries planned at two-month intervals. Work on the contract will provide employment for approximately 150 people through 1991.

Albert L. Bossier Jr., chairman and chief executive officer of Avondale, commented on the significance of the contract to Avondale. He remarked: "Obtaining this work is in line with our strategy to expand our resources and expertise in marine fabrication into additional commercial applications. We believe vessels such as these towboats designed for inland river operations offer particular potential for Avondale since there has been a considerable aging in the industry's fleet over the past several years. These boats in fact are the first U.S.-built vessels constructed since 1982 within the specified horsepower range."

Bossier said that the towboats, to be known as the "Viking 2000" series,

would be 168 feet long with a beam of 45 feet. The twin-screw boats will be powered by 6,800 horsepower engines. He indicated that the boats have been desinged with a draft to allow operation not only on the lower Mississippi River but also on the upper Mississippi and Ohio Rivers as well.

Avondale Industries Inc., headquartered in metro New Orleans, is one of the nation's leading marine fabricators. In addition to its shipbuilding operations, the company specializes in boat construction and is a major repair contractor for commercial and Navy ships. It is also involved in the modular construction of plants and components for a variety of land-based industries.

WILMINGTON, DEL. (SEPT. 11) PR NEWSWIRE - Airgas Inc. (NYSE: ARG) today announced the appointment of corporate officers.

Peter McCausland, chairman and chief executive officer, announced the appointments of Britton H. Murdoch to chief financial officer, vice president-finance and treasurer and John P. McNiff to vice president-corporate development.

Murdoch, a resident of Berwyn, Pa., has been with Airgas as vice president-corporate development since 1987. During his tenure in corporate development, Airgas acquired 60 companies and expanded its industrial gas distribution network from 65 locations in 12 states to 230 locations in 29 states and Canada. He was previously with The Philadelphia National Bank where he was vice president and unit manager of the Eastern Corporate Division. Murdoch graduated from The Wharton School of the University of Pennsylvania and received his MBA from New York University.

McNiff, a resident of Plymouth Meeting, Pa., has been with Airgas since 1988 in the Corporate Development Department. McNiff is a graduate of Yale University and New York University Law School. He was previously an associate with the law firm of Davis Polk & Wardwell in New York City.

Airgas Inc. is the largest independent distributor of industrial, medical and specialty gases in the United States with more than 230 locations in 29 states and Canada.

CINCINNATI (SEPT. 11) PR NEWSWIRE - The Penn Central Corporation (NYSE: PC) announced today that, based on a preliminary count, approximately 11,347,000 shares of its common stock were tendered pursuant to its offer to purchase shares at a price of $23 per share in cash which expired at midnight on Sept. 10, 1990. Approximately 3,047,000 of these shares were tendered subject to guarantees of delivery.

In accordance with the offer terms, Penn Central will accept 11 million properly tendered shares, first from the odd lot holders who tendered approximately 26,000 shares and then from all other tendering shareholders on a pro rata basis. Accordingly, based upon the preliminary count, approximately 97 percent of the shares properly tendered by such other holders will be accepted. Penn Central expects to be able to announce the final proration factor early next week.

Penn Central operates businesses primarily in the areas of industrial manufacturing, defense services, insurance and energy.

ARUBA, DUTCH CARIBBEAN (SEPT. 11) PR NEWSWIRE - Divi Hotels N.V. (AMEX: DVH) announced today that its exchange offer on its two outstanding issues of debt securities will be extended until midnight, EDT, on Oct. 10, 1990.

The exchange offer was initiated on April 27, 1990, and is being made to security holders qualified to participate in a private placement regarding Divi's $60 million of 14 1/2 percent senior debentures due 1998 and $50 million of 12 3/4 percent subordinated notes due 1996. It was originally scheduled to expire at midnight, EDT, on May 24, 1990, and was previously extended until midnight, EDT, on Sept. 10, 1990.

The terms and conditions of the exchange offer otherwise remain unchanged.

Through Sept. 10, 1990, only a nominal amount of the outstanding debt securities covered by the exchange offer had been validly tendered.

Divi anticipates continued negotiations with the committee of the holders of the two issues of debt securities to determine if more acceptable offer terms can be made available.

DETROIT (SEPT. 11) PR NEWSWIRE - A new Michigan corporation, My Lawyer, Inc., has been established to offer high-quality, inexpensive legal services to millions of working men and women who otherwise might have to pay steep fees to hire lawyers.

"This is a real breakthrough in terms of serving people from all walks of life," said My Lawyer, Inc. President Joseph C. Spieser. "Statistics show that 70 percent of the people in this country either have no idea of what their legal rights are -- or if they do know, they have no idea how to use them.

"The 10 percent in the upper income group can afford to hire lawyers. The bottom 20 percent get public assistance. That leaves a huge group in between that badly needs help."

Spieser said that My Lawyer, Inc. will target employers and employee groups in Detroit, Wayne County and elsewhere in Michigan and offer a wide range of pay-as-you-go legal services at modest rates on a payroll deduction basis. My Lawyer will publish education newsletters and conduct law seminars for members.

My Lawyer's plan covers varied problems, from consumer affairs to motor vehicle operations, wills and other complicated tasks which require a lawyer's attention. The plan is simple: A client signs on for a modest monthly fee and a provider law firm is available to answer questions, write letters, review documents and represent client and certain other family members either free of charge or at substantially reduced legal fee rates.

"It is our goal to make quality legal service available to people wherever they may need it and, even more importantly, to make them aware of how and when to take advantage of legal representation without having to worry

about dealing with stuffy law firms or intimidating lawyers," Spieser said.

A lifelong Michigan resident and successful Detroit-area businessman, Spieser has spent four years researching various legal service programs which have been offered in Michigan and elsewhere in the United States.

Where did the firm's name originate? That's easy. "What do you hear important people say when they've got a problem?" said Spieser. "I'm going to call my lawyer, right? Well, our clients can say that anytime -- and we'll be ready and eager to help."

#90254p3250 09/11/1990 ~PR Newswire

LOS ANGELES (SEPT. 11) PR NEWSWIRE - Viking Office Products Inc. (NASDAQ: VKNG) today reported revenues and net income for the year and fourth quarter ended June 29, 1990.

Revenues for the year ended June 29, 1990, of $157.9 million were a new record and an increase of 19.8 percent over the prior year. Income before extraordinary expenses for the current year was $6.1 million, or $.91 per share, compared to $4.3 million, or $.72 per share, in the same period last year.

Extraordinary expenses, which amounted to $941 thousand (net of tax) in the current year, or $.14 per share, consisted of prepayment penalties and the write-off of deferred financing costs associated with the company's early retirement of debt.

Net income for the year ended June 29, 1990, was $5.2 million, or $.77 per share on average shares outstanding of 6,677,000, as compared to $4.3 million, or $.72 per share on average shares outstanding or 5,936,000, for the prior year.

Revenues for the fourth quarter were $40 million, an increase of 24.3 percent over the prior year. Fourth quarter net income was $1.7 million,

or $.20 per share on average shares outstanding of 8,644,000, compared to $1.2 million, or $.20 per share on average shares outstanding of 5,924,000 in the same period of 1989. Fourth quarter 1990 expenses included start-up costs of Viking's U.K subsidiary.

Irwin Helford, chairman and chief operating officer, noted that the revenue increase was primarily due to an increase in the number of customers actively purchasing from Viking, an increase in the average annual revenue per customer and an increase in catalogs mailed. He further stated that the increase in income, before extraordinary expense, was primarily due to the increase in revenues and a reduction in interest expense. A significant portion of the company's long-term debt was repaid in March 1990 with the proceeds of the company's initial public offering. The remaining long-term debt was refinanced at lower rates on an unsecured basis.

Viking Office Products sells office products to small and medium size businesses nationwide through direct marketing catalogs and programs.

NEWTON, MASS. (SEPT. 11) PR NEWSWIRE - Stardent Computer today announced that it has appointed David C. Rowe as corporate vice president and chief financial officer. He replaces Joseph Bronson, who has accepted the

position of chief operating officer with Stardent's technology, manufacturing and distribution partner, Kubota Pacific Computer Inc. Rowe reports to Ian R. G. Edmonds, Stardent's executive vice president and chief operating officer.

Rowe brings to Stardent a wealth of financial experience, having served as a senior financial executive in both large and entrepreneurial companies. For the past several months, Rowe has acted as a consultant to Stardent during the formation of a new operating plan, the consolidation of Stardent's financial operations to its east coast headquarters, and the culmination of a new financial agreement with Kubota Corporation, Stardent's major investor.

In commenting on the appointment, Edmonds stated, "In his role as a consultant, Dave Rowe has proved to be a great addition to Stardent's management team. His comprehensive financial background, and in particular his strong reputation for cost control, will be of real importance to Stardent in meeting our financial performance plans. We are extremely pleased that he has decided to join the company as a permanent member of senior management."

Rowe's background includes the position of chief operating officer of Wellfleet Communications, Inc., where he was a co-founder and remains a member of the board of directors. Previously, he was a founder and served as executive vice president and chief financial officer and a member of the board of directors of Interlan, Inc. Rowe has also held senior financial positions at large, publicly held, international companies, including controller positions at both W.R. Grace & Co. and Charles River Breeding Labs. Earlier he was a senior auditor at Arthur Young and Co.

Rowe holds an MBA degree from the Harvard Graduate School of Business and Adminstration, and a B.A. degree from Dartmouth College.

Stardent Computer Inc., is the leading developer, manufacturer and marketer of visualization systems. These include graphics supercomputers departmental supercomputers, and visualization software. The company markets the leading interactive 3D visualization environment, AVS(tm), which runs on Stardent systems and has been licensed to run on many other hardware platforms.

TETERBORO, N.J. (SEPT. 11) PR NEWSWIRE - MetPath Inc., a Corning Clinical Laboratory, has agreed to acquire the assets and business of Community

Clinical Laboratories, a clinical laboratory based in Bay Shore, N.Y.
The purchase price was undisclosed.

CCL is a community oriented laboratory with an excellent reputation for providing a high level of service to the New York health care community for more than 20 years. The laboratory provides a full line of clinical laboratory services to physicians, hospitals and industrial clients located in Long Island, Westchester and New York City. The company currently employs more than 160 people at its main facility in Bay Shore and at a number of facilities on Long Island and Westchester.

With regard to the acquisition, David Deutsch and Stuart Schneider, owners of CCL, said, "We strongly believe in this newly created opportunity for all of us at CCL and MetPath. We feel that with CCL's reputation for strong local service and MetPath's outstanding commitment to scientific excellence and total quality, that together, CCL and MetPath can ensure our clients receive the highest quality service on Long Island."

Officials of MetPath said that CCL provides services which are similar to MetPath's and will complement MetPath's role as a leader in the field of clinical laboratory services and as a significant provider in the New York metropolitan area. MetPath's overall organization is divided into four major regions in the United States, and CCL will now be a major part of the Eastern region. MetPath currently employs more than 5,000 people nationwide, 1,800 of which work in the metropolitan area in 15 locations.

MetPath President and CEO Andrew Baker said, "The acquisition of Community Clinical Laboratories is a key opportunity for the continuing development and growth of our Eastern region. We are joining efforts with a healthy and vital organization that has an outstanding group of employees who have built an excellent reputation with a proven track record of success. It also represents another significant step in MetPath's continuing commitment to an overall business strategy of maintaining a strong local presence in each area we service throughout the country."

NEW BRITAIN, CONN. (SEPT. 11) PR NEWSWIRE - In response to a recent decline in the price of Burritt InterFinancial Bancorporation (NASDAQ: BANQ) stock on high volume, the bank today issued the following statement:

Burritt has recently experienced deterioration in two major loan relationships. These loans are being reclassified as non-performing. The bank expects to report non-performing loans amounting to between five and six percent of assets of the end of the quarter.

Usually loans are moved to the non-performing list when they are ninety days past due, but in this case action is being taken earlier. Although the loans have a history of prompt payment, future payments are in doubt.

"Many of our non-performing loans are first mortgages which are not yet delinquent," stated John C. Jaynes, president and chief executive officer. "But, in view of declining marketability of real estate throughout the region, prompt recognition and early action on any weakness is important. We are moving on several fronts to improve the situation."

Officials are as yet unable to assess the impact of recent events on earnings, but said they expected a significant decline in the third and fourth quarters. Meanwhile, Burritt's capital position is strong and its financial position is secure. The current shift of loans to non-earning status and a need to contribute to loan loss reserves were stated as reasons for the expected earnings decline.

LANGHORNE, PA (SEPT. 11) PR NEWSWIRE - Cabot Medical Corp. (NASDAQ-NMS: CBOT) today announced record sales and earnings for the third quarter and nine months ended July 28, 1990.

Net sales for the third quarter increased 32 percent to $7,577,000, compared to $5,748,000 in the prior year. Net earnings for the period were $357,000 or $.05 per share, a 3 percent increase over the prior year's $346,000 or $.05 per share.

For the nine month period, net sales increased 24 percent to $19,452,000, compared to $15,712,000 for the prior year. Net earnings were $1,095,000 or $.15 per share, an increase of 13 percent compared to the prior year's $972,000 or $.14 per share.

Commenting on the third quarter and year-to-date results, Warren Wood, president of Cabot Medical, stated, "We are quite pleased with the earnings increase in light of our decision to expand our marketing and sales activities to capture a significant share of the rapidly growing general surgery market. The resultant expenditures have depressed our short term earnings growth, however, based on the escalating demand and increased sales of Cabot Medical products, we expect accelerated earnings growth in the future."

Cabot Medical Corp. designs, develops, manufactures and markets medical

devices and systems for use in specialized surgical and diagnostic procedures. These products are sold under the Cabot, KLI, Berkeley, Cryomedics and Ultroid brand names.

DALLAS (SEPT. 11) PR NEWSWIRE - Edisto Resources Corporation (AMEX: EDS) announced today that Hall-Houston Offshore, a joint venture between Edisto and Hall-Houston Oil Company, received a $20 million prepayment for gas production from several Texas and Louisiana offshore blocks. An additional amount of $4.1 million will be paid over the term of a five-year contract. The purchaser also contracted to buy any excess production over dedicated volumes from designated properties at variable indexed prices. Additional terms of the contract were not disclosed.

Edisto also announced that its previously announced agreement to purchase 13 1/4 percent convertible secured subordinated notes issued by Hall-Houston Offshore closed on Friday, August 31. Edisto purchased the Notes from certain Prudential-Bache Energy Growth Fund Partnerships for approximately $17.2 million in cash. The purchase price included accrued interest attributable to the notes. Simultaneously with the closing, a subsidiary of Hall-Houston Oil Company purchased one-half of the notes from Edisto at Edisto's cost.

Edisto Resources Corporation's consolidated activities include the

production of oil and gas, the exploration for and the development of oil and gas reserves and the transportation and marketing of natural gas.

ARLINGTON HEIGHTS, ILL. (SEPT. 11) PR NEWSWIRE - Motorola, Inc. (NYSE: MOT), announced today that it has signed an agreement in principle with Siemens A.G. to license each other's essential patents for the Pan-European Digital Cellular Mobile Communications System, as defined in the GSM (Groupe Speciale Mobile) Standard, and for the PCN (Personal Communications Network) (see note).

Both companies are leading providers to worldwide markets of communications equipment.

This agreement with Siemens follows a GSM/PCN crosslicensing patent agreement that Motorola concluded two months ago with Alcatel, another major European telecommunications company.

"This agreement, as well as our recent one with Alcatel, certainly bears out that the appropriate forum for resolving IPR (Intellectural Property Rights) issues for GSM, or any other technology, is among manufacturers through fair bilateral negotiations," said Bernard R. Smedley, senior vice president of Motorola, Inc. and general manager of the Radio-Telephone Systems Group.

Motorola has been awarded several digital cellular systems contracts in Europe, among which are GSM validation systems for Scandinavia, Spain, the United Kingdom and West Germany; GSM pre-operational systems in Spain and the U.K.; and operational systems in Sweden and the U.K. Motorola is also a minority equity owner of the Cable & Wireless-led consortium's Mercury Personal Communications Ltd., which holds a UK PCN license. This system, based on Motorola's technology, will be operational in that country by 1992.

Motorola's digital cellular technology leadership has had other significant recognitions in Japan and the USA, where each country has selected the company's speech coder as the official digital standard.

Motorola is the world's leading designer, manufacturer and supplier of cellular systems, infrastructure equipment and subscriber products. It is also a leading provider of electronic equipment, systems, components and services for worldwide markets, including two-way radios, pagers, semiconductors, defense and aerospace electronics, automotive and

industrial electronic equipment, computers, data communications, and information processing and handling equipment.

Both companies are leading providers to worldwide markets of communications equipment.

This agreement with Siemens follows a GSM/PCN crosslicensing patent agreement that Motorola concluded two months ago with Alcatel, another major European telecommunications company.

"This agreement, as well as our recent one with Alcatel, certainly bears out that the appropriate forum for resolving IPR (Intellectural Property Rights) issues for GSM, or any other technology, is among manufacturers through fair bilateral negotiations," said Bernard R. Smedley, senior vice president of Motorola, Inc. and general manager of the Radio-Telephone Systems Group.

Motorola has been awarded several digital cellular systems contracts in Europe, among which are GSM validation systems for Scandinavia, Spain, the United Kingdom and West Germany; GSM pre-operational systems in Spain and the U.K.; and operational systems in Sweden and the U.K. Motorola is also a minority equity owner of the Cable & Wireless-led consortium's Mercury Personal Communications Ltd., which holds a UK PCN license. This system, based on Motorola's technology, will be operational in that country by 1992.

Motorola's digital cellular technology leadership has had other significant recognitions in Japan and the USA, where each country has selected the company's speech coder as the official digital standard.

Motorola is the world's leading designer, manufacturer and supplier of cellular systems, infrastructure equipment and subscriber products. It is also a leading provider of electronic equipment, systems, components and services for worldwide markets, including two-way radios, pagers, semiconductors, defense and aerospace electronics, automotive and industrial electronic equipment, computers, data communications, and

information processing and handling equipment.

STRATFORD, CT (SEPT. 11) PR NEWSWIRE - Science Accessories Corporation (NASDAQ: SEAS), a major manufacturer of sonic digitizers, today reported results for the third quarter and nine months ended July 31, 1990.

The company sustained a loss from operations for the third quarter of $413,554 vs. a loss of $254,880 for the same period last year. The fiscal 1989 period benefited from a non-recurring successful litigation settlement of $925,001 resulting in net income of $420,876, or 10 cents per share, compared to a net loss of $221,934, or 5 cents per share, for the current year's period. Net sales for the fiscal 1990 quarter was $474,172 and sales for the prior year's same three months was $766,979.

The operating loss for the nine months of the current year was $673,900 vs. $514,273 for the initial nine months of last year. Net income for the prior year's nine-month period, including the $925,001 litigation settlement, was $321,815, or 8 cents per share. The company had a net loss of $306,629, or 7 cents per share, for this year's period. Net sales for the nine months were $1,920,710 compared to $2,215,575 for the fiscal 1989 period.

"We continue to invest substantially in research and development activities and the response to our new products and the expanding application of our digitizers make us optimistic about future prospects," S.J. Sindeband, chairman and president, said.

BOCA RATON, FLA. (SEPT. 11) PR NEWSWIRE - Joseph A. Reilly has joined First Medical International, Inc. (NASDAQ: HUGE), as senior vice president chief financial officer and treasurer. The announcement was made by Roberto Riva, chairman and CEO of First Medical International, Inc.

A graduate of Loyola University and the University of Chicago, Reilly started his professional career as auditor with the Big Eight accounting firm, Peat Marwick and Main. In 1961 he joined Motorola serving in various cost accounting, audit, international controller and production executive positions for the billion-dollar-plus company. He became the CFO for the International Division of Chicago Bridge & Iron in 1968 before joining the American Society of Clinical Pathologists as controller and business manager from 1970-1974.

For the last 15 years, Reilly has been a financial problem solver and turnaround expert for a host of international clients. His outstanding success record has earned him an enviable reputation with both financial institutions and the courts as a no-nonsense, hands-on executive with the background, knowledge and charisma to achieve his bottom-line goals, under budget and ahead of time.

First Medical International (formerly called Humagen) recently acquired Cardio Scan, which provides state-of-the-art Holter Monitor EKG tests for physicians. The Holter Monitor is a patient-worn apparatus, which provides 24-hour special magnetic tape readings of up to 144,000 cardiac cycles vs. 50 to 100 for a standard EKG test.

The company also has the exclusive right to franchise, own and operate Medical Depot Superstores in the U.S.S.R., Mexico and Panama and a non-exclusive right to franchise, own and operate Medical Depot Superstores anywhere else outside the U.S.

WESTWOOD, MASS. (SEPT. 11) PR NEWSWIRE - Bird Corporation (NASDAQ: BIRD) announced today that its board of directors authorized it to buy back on the open market or in privately negotiated transactions, up to 350,000 of its outstanding shares of common stock over the next six month period at prices available from time to time that the company deems attractive. The authorization was granted because the board believes that a repurchase at today's approximate price levels constitutes a sound investment for the company and will further improve reported earnings per share in the future. Bird, in 1989, had repurchased about 1 million shares of its common stock via a Dutch Tender offer of $11.75 per share.

Bird common stock at yesterday's close was quoted at $10.875 per share high, $10.50 per share low.

Bird Corporation is a US-based manufacturer and distributor of building material products and a provider of environmental services.

TAMPA, FLA. (SEPT. 11) PR NEWSWIRE - Southnet Corp. announced today that it has received an order from Metro Communications Limited of London for 5,000 WORLD CARDS to be delivered to Trans World Airlines.

The cards will be distributed immediately to TWA personnel and members of their frequent flyer club who travel internationally. The company estimates that they will receive $1.8 million annually from this sale.

The WORLD CARD is an internatiional long distance calling service that allows travelers to originate calls from 17 major countries to anywhere in the world. Users of WORLD CARD have pre-approved credit for their calls, no requirement for special phones and no local currency needs. WORLD CARD provides discounts of 30 - 50 percent over traditional international

calling costs.

Southnet Corp., headquartered in Tampa, Fla., is a long distance telecommunications company providing enhanced services throughout the United States. The company's stock is publicly traded on the Philadelphia Stock Exchange and the OTC market.

DALLAS (SEPT. 11) PR NEWSWIRE - Microcom, Inc. (NASDAQ: MNPI), a Norwood, Mass., internetworking company, today announced strategic enhancements to the Microcom LAN Bridge(tm) (MLB)(tm) series including the industry's first T1 compression capability and the first combination local/remote bridge function. Micrcom will demonstrate the new MLB capabilities at NetWorld '90, Sept. 11-13, at the Dallas Convention Center, Booth No. 2211 in the Arena Hall.

"These new hardware and software options offer substantial gains in performance and flexibility at little incremental cost," stated Richard Sterry, Microcom's vice president of product marketing. "Because we based our internetworking products on a modular architecture, the new features extend the value of existing equipment for all customers."

The compression feature provides a 4:1 ratio with unprecedented performance up to T1 data speeds. Explained Sterry, "The new generation T1 compression is accomplished through software and specialized hardware. Users now have the option of T1-equivalent service at a fraction of the cost."

For example, on a 386 Kbps fractional T1 link, users could realize throughputs of 1.5 Mbps. This solution is especially well-suited for users of private T1 networks or fractional T1 lines.

Additional enhancements to the MLB series include the introduction of data compression on the MLB/6500(tm) for users of X.25 networks. Announced in May 1990, the MLB/6500 now delivers the 2:1 compression previously available as a standard feature on the MLB/6000(tm) and MLB/5000(tm) bridge products. "In addition to doubling effective transmission rate, compressing data into fewer packets reduces kilopacket or kilosegment charges to the user by a factor of 2:1 as well," stated Sterry. The new compression is particularly valuable to international users who rely on public X.25 networks as a cost-effective alternative to leased line applications.

Another new capability is the combination local/remote bridge feature,

which eliminates the need for separate units in sites that require both types of bridge. For the first time, customers have the option of connecting three local LANs with one bridge or connecting two local LANs with two simultaneous remote links.

PHILADELPHIA (SEPT. 11) PR NEWSWIRE - As part of an ongoing strategic plan to reshape Philadelphia Electric Co. (NYSE: PE), Joseph F. Paquette, Jr., PE chairman and chief executive officer, announced today a major divisional reorganization designed to bring the management of the company's operations closer to its customers.

Paquette named seven general managers to head the company's operating divisions, which during 1991 will be realigned along county boundaries. They are:

Philadelphia South, Malcolm T. Riley Jr., 53, presently manager of PE's Cromby Generating Station in Montgomery County.

Philadelphia North, Garret C. Miller, 46, manager of Philadelphia Transmission and Distribution Operations.

Delaware County, Charles C. Rogala, 43, manager of Customer Service & Accounts in the Department of Commercial Operations.

Chester County, Robert B. Horne, 56, manager of PE's Western Division. Montgomery County, Thomas C. Stapleford, 53, manager of Purchasing. Bucks County, William J. Williams, 49, manager of suburban Transmission & Distribution operations.

Conowingo, Samuel M. Gawthrop, Jr., 47, president and general manager, Conowingo Power Co.

The general managers are expected to take over their new responsibilities by December of this year.

Paquette said the reorganization will, for the first time in more than 50 years, give division general managers direct responsibility and accountability for the quality and reliability of services to customers.

"This move," Paquette said, "represents another step in our strategic plan to change Philadelphia Electric into a strong, competitive utility whose emphasis is on achieving superior customer satisfaction.

"The reorganization," he added, "comes after an in-depth, self- critical review of the way the company does business. That review clearly indicated that the future of Philadelphia Electric will depend to a great degree on our ability to meet our customers' needs and satisfy their concerns.

Corbin A. McNeill Jr., PE president and chief operating officer, said the company intends to accomplish this goal "by delegating more responsibility and accountability to the divisional level, bringing our organization closer to our customers."

McNeill said the new position of division general manager will report directly to him and will have line authority for the distribution of gas and electricity, and for satisfying customer needs, concerns and complaints.

Since prior to World War II, these services have been administered out of the company's headquarters in Philadelphia.

The changes, he said, are designed to improve service reliability through more effective maintenance of gas and electric distribution systems, to effect more timely service calls to customers' homes and businesses, and to resolve more promptly customer concerns and complaints.

Under the reorganization, the remaining central operations at PE headquarters in Philadelphia will continue to supervise the transmission of gas and electricity, and they will provide extensive administrative services to support divisional operations in the field.

The reorganization also will change the existing boundaries of PE's suburban divisions to conform with the geographical boundaries of Delaware Chester, Montgomery and Bucks counties, thereby realigning divisions that now cross county lines.

It will also establish two divisions in the City of Philadelphia, separated generally by Girard Avenue, and it will leave basically unchanged the boundaries of Conowingo Power Co., a PE subsidiary in Maryland serving portions of Cecil and Harford Counties in Maryland and a part of York County in Pennsylvania.

The reorganization will be implemented in stages between Oct. 1, 1990, and Dec. 31, 1991.

WHITE PLAINS, NY (SEPT. 11) PR NEWSWIRE - Texaco Inc. (NYSE: TX) announced today that its subsidiary, Texaco Petroleum Development Company, has signed a protocol for basic principles of joint work on a feasibility study with Arkhangelskgeologia, a production geological association under the Ministry of Geology of the Soviet Union. The Protocol agreement is a further step toward a joint venture for the exploration and development of oil and gas deposits in the Soviet Union.

At the signing ceremony in Arkhangelsk, Soviet Union, Texaco President and Chief Executive Officer James W. Kinnear said: "The signing of this agreement represents a further step in our proposed joint effort for the development of oil and gas reserves which have been identified and established onshore the Soviet Union.

Texaco announced in mid-August that it had signed an agreement on principles of cooperation with the Ministry of Geology for proposed joint participation in the exploration, development and production of hydrocarbons onshore the Soviet Union. In line with the principles of cooperation, the announcement of the protocol agreement for the feasibility study is a significant step toward a proposed joint venture project. The feasibility study is expected to take approximately six to nine months to complete and will involve the examination of both technical and economic aspects of oil and gas exploration and development of the Timan-Pechora region. During the feasibility study period, the parties will negotiate and prepare the joint venture contractual documents for establishing the project in the Timan-Pechora region.

Exploration and development work in the proposed joint venture project would be carried out primarily by Soviet personnel, supplemented by Texaco technical experts.

In May, Texaco announced that another subsidiary company, Texaco Europe Research Inc., had signed an agreement for research cooperation with Vniizarubezhgeologia, the all-union research institute of the Ministry of Geology of the Soviet Union. As part of that agreement, Texaco and Institute personnel will process geophysical and geological data for the assessment of oil and gas potential in Soviet and other basins.

The protocol agreement for the feasibility study, coupled with the principles of cooperation and the agreement for research cooperation, are significant steps toward establishing a Texaco joint venture in the Soviet Union.

ST. PAUL, MINN. (SEPT. 11) PR NEWSWIRE - Northwest Airlines today filed an application with the U.S. Transportation Department for the right to fly nonstop between the United States and Sydney, Australia.

In its application, Northwest asked for an "emergency exemption" to open the route because Northwest understands that Hawaiian Airlines plans to suspend its southbound service from Honolulu to Sydney on Sept. 20 and its northbound service on Sept. 21.

Northwest said if Hawaiian plans to abandon the service permanently, it is prepared to begin flights as soon as government approvals are secured. The application did not discuss frequencies, flight schedules or aircraft types Northwest would operate.

Northwest said it should be considered for the route because the airline earlier this year was selected back up carrier to American when that airline was awarded U.S.-Australia rights.

Northwest is America's fourth-largest airline. It serves 135 cities in 40 states, Canada, Mexico, the Caribbean, Asia and Europe.

#90254p3291 09/11/1990 ~PR Newswire

MORRIS PLAINS, N.J. (SEPT. 11) PR NEWSWIRE - The Federal National Mortgage Association (FNMA/Fannie Mae) has informed Mortgage Access Corp. that it may provide mortgage payment relief to its FNMA customers who have been called out of civilian jobs into active military duty due to the recent crisis in the Persian Gulf, according to Mortgage Access Senior Vice President Albert Engel. This relief is provided for under a little-known federal act called the Soldiers' and Sailors' Relief Act originally enacted in 1940.

The aide policy as announced by FNMA allows the agency's approved mortgage sellers/servicers, such as Mortgage Access Corp., to extend several provisions to FNMA customers. These provisions are designed to reduce mortgage payments and add flexibility to the payment schedules for service personnel currently in active duty.

Under the first provision of the program, Mortgage Access Corp. will automatically reduce the mortgage interest rate charged to its FNMA borrowers to 6 percent if they demonstrate, by a copy of their military orders, that they have been called into active duty. The repayment of this interest debt is totally forgiven, not just deferred. "This reduction in interest rate, thus mortgage payment, will significantly reduce the financial burden the civilian soldier will face during the time of his/her activation," commented Engel.

The Act also provides for a suspension of the mortgage payments if the service member obtains a court order finding that his or her ability to pay has been affected by entry into the military service. This suspension would coincide with the length of the service member's period of active service.

The third aspect of the program provides that property foreclosure proceedings cannot begin or be continued against an activated service member unless he or she has given written consent to the foreclosure, or the court authorizes the foreclosure to take place as a result of its determination that military service was not the cause of nonpayment on the

mortgage loan.

ATLANTA (SEPT. 11) PR NEWSWIRE - Graphic Industries Inc. (NASDAQ: GRPH), a leading full service printing and graphic communications company, today reported that sales and earnings were up for the second quarter and first half of this fiscal year.

It was the third consecutive quarter of higher earnings as compared to corresponding periods of the previous year.

For the three months ended July 31, sales advanced 15 percent to $81,469,000 compared with $71,057,000 last year. Net income increased more than 63 percent to $1,076,000 compared with $660,000 a year ago. Earnings per share of common stock fully diluted were $.11 vs. $.07 for the first quarter last year.

For the first half, sales increased 15 percent to $165,680,000 compared with $143,551,000 last year. Net income gained 44 percent to $2,885,000, compared with $2,001,000, while earnings per share of common stock fully diluted advanced to $.30 compared with $.21 last year.

"The improved earnings for the second quarter reflect the determined efforts of our people to meet severe pricing competition and increase market share," said Mark C. Pope III, chairman and chief executive officer of Graphic. "Our people have adjusted to the sluggish economy and strong competition by aggressive marketing and increased productivity as well as substantial cost reductions."

For the year ended Jan. 31, Graphic's sales were up 15 percent to a record $310,330,000, ranking the company 20th among commercial printing firms in North America.

ORANGE, CALIF. (SEPT. 11) PR NEWSWIRE - VTN Corp. (NASDAQ: VTNC) earned $1,897,122 ($.14 per share) for the year ending May 31, 1990, vs. a profit of $713,333 ($.05 per share) for the previous year. Sales were $11,101,000 down from $12,373,000 the previous year. The fiscal fourth quarter was VTN's 13th profitable quarter in a row.

VTN's chairman of the board, Daniel C. Montano, stated that the new fiscal year is an unknown. The international activities that VTN is developing are progressing nicely and VTN anticipates signing a major agreement this fiscal year for the development of a major world class resort/retirement community overseas. VTN also anticipates that its efforts in Eastern Europe, the Soviet Union, and other formerly communist countries should start to generate new business in 1991. However, while the international activities are very encouraging, VTN's domestic land development engineering business is feeling the dramatic softness that is occurring across the United States. Steps are being taken to adjust operations. VTN is also actively working to assist financial institutions in the turnaround of their problem real estate.

Montano stated last year was excellent, the future looks promising; however, the current and short-term economic forecast looks very difficult.

VTN has 4 offices in California, located in Orange, San Diego and Los Angeles counties; in addition they have offices in Miami, Boston and Manilla, Philippines.

SAN ANTONIO, TEXAS (SEPT. 11) PR NEWSWIRE - 50-OFF Stores, Inc., a San Antonio based off-price apparel retailer, announced it has signed leases for five new stores which are planned for late October or early November openings. With these planned openings, and the seven stores already opened through August, the company intends to add a total of 12 new stores to the chain by the end of its current year and expects to be operating 46 stores at Feb. 1, 1991, its fiscal year end.

Charles Siegel, president and chief executive officer, stated that the company had originally planned 10 new stores for the current fiscal year. However, since year-to-date results were so encouraging; exceeding revenue and income for both last year and projections for this year; and suitable locations were available, the company decided to open the additional stores. All of the new stores will be in existing markets.

The five new stores expected to open will be the company's eighth store in San Antonio; its seventh and eighth stores in the Dallas-Fort Worth Metroplex; its second store in the Shreveport, La. area in Bossier City; and its third store in Oklahoma City.

ORLANDO, FL (SEPT. 11) PR NEWSWIRE - Holiday RV Superstores, Inc. (NASDAQ: RVEE) today reported record third quarter fiscal 1990 total sales revenues of $10,422,642, up 22.2 percent over 1989 third quarter revenues of $8,529,869. Earnings for the quarter were $239,628 vs. $251,011 for the same fiscal period last year.

Nine month revenues ending July 31, 1990 were $32,149,124 vs. $33,451,611 for the same period last year. Earnings for the nine month period were $868,522 vs. $995,914 last year, reflecting increased selling, general and administrative expenses (SG&A) needed to stimulate sales momentum during the period.

Newton C. Kindlund, president and chief executive officer of Holiday RV Superstores, Inc. said "Although our net income dropped marginally, we maintained solid sales momentum through expanded market penetration. Sales revenues advanced to their highest level for any prior third quarter reporting period. Our gross profit margins increase; however, higher selling and operating expenses impacted our net profit margin. Despite a general industry turn down, we continue to increase our market share as seen by significant sales and earnings increases during this past month of August."

Holiday RV Superstores, Inc. is the nation's only publicly traded recreational vehicle and marine products dealership that sells and services RVs and boats from major manufacturers. The company operates its dealership network in Florida, Georgia and South Carolina.

ATLANTA (SEPT. 11) PR NEWSWIRE - Async Corporation, an MCI company and the nation's leading voice mail service bureau, announced today the acquisition of Xerox Corporation's (NYSE: XRX) voice mail service bureau business, a part of the company's Voice Systems Division in Lewisville, Texas.

Under the agreement, Async will provide its voice messaging service to the Xerox voice mail customer base including some internal Xerox voice mail users effective almost immediately. Terms of the agreement were not disclosed.

According to Async President Regi Campbell: "We are pleased with the recent acquisition of Xerox voice mail. It will give Async a more significant presence on the West Coast and add to our total number of subscribers. As a part of Async, the new customers will also have access to Async's Gateway and Interactive Voice Response services."

Interactive Voice Response allows business professionals to report daily field information via the keypad on any touch-tone phone.

The Async Gateway service is a new product offering unique to the telecommunications industry. It gives mobile professionals the ability to use voice mail, arrange a conference call and make long distance calls by dialing a single 800 number.

Voice mail is used to improve internal business communications through computer technology and the touch-tone phone.

Founded in 1984, Async continues to lead in the domestic voice mail service market. Async is a wholly-owned subsidiary of MCI Communications Corporation (NASDAQ-NMS: MCIC).

Xerox has provided a voice mail service bureau nationally since 1988.

BRIDGEWATER, N.J. (SEPT. 11) PR NEWSWIRE - Integrated Network Corporation (INC), a designer and manufacturer of advanced networking equipment, today introduced the CM-384/PRI ISDN unit for high-speed dial-up applications. The CM-384/PRI unit provides users with a range of access speeds from 56 to 768 kbps to support rapidly growing network applications such as full motion video, image processing, disaster recovery, on-line vaulting and

LAN-to-LAN communications.

Designed to take maximum advantage of today's high-speed, fiber-based networks, the CM-384/PRI allows users to dial up just the amount of bandwidth needed to support their applications. They do not need to subscribe to fixed amounts of bandwidth that lie idle most of the time. Thus, users gain significant price and performance advantages with the CM-384/PRI compared to present, static, fixed-capacity network configurations. "INC's mission is to deliver products that allow local telephone companies to offer new digitally-based services and allow their customers to gain easy and cost-effective access to these services," said Dr. Yo-Sung Cho, president and co-founder of INC.

"Customer data networks of the 1990s will increasingly be based on the basic building block of a 64 kbps channel -- switched and non-switched -- and INC intends to be a major supplier of equipment for these networks. Thus, the CM-384/PRI represents a continuing expansion of INC's digital data product line building upon the industrywide success of our 1056 products for switched 56/64 kbps applications."

The CM-384/PRI unit accesses digital network services via an ISDN Primary Rate Interface (PRI) channel. The PRI channel is provided over local T-1 lines and supports up to 23 "B" or "bearer" channels at 64 kbps for carrying customer data, and one "D" channel to carry signalling information. Depending on the particular array of capabilities supported by the serving carrier, the PRI channel supports a mix of dedicated and switched services in increments of 56/64 kbps.

INC designs and manufactures intelligent network systems that provide universal access to advanced data and voice services. Products are sold directly to local telephone companies and end-users as well as distributed by major CPE vendors and value-added resellers.

HOUSTON (SEPT. 11) PR NEWSWIRE - Quanex Corporation (NYSE: NX), a leading manufacturer of specialty metal products, today announced the sale of Transhield Trucking (Transhield), acquired in August 1989 with the acquisition of Nichols-Homeshield.

Certain of Transhield's assets together with various rights and interests were sold to a subsidiary of Midwest Coast Transport, Sioux Falls, S.D., for immediate cash proceeds of approximately $900,000. Quanex intends to

liquidate remaining Transhield assets before fiscal year-end.

In a separate transaction, the company said that it had also completed the sale of certain Houston-area real estate for cash proceeds of $1.1 million.

Carl E. Pfeiffer, chairman and chief executive officer, said, "We are continually evaluating all of our businesses for strategic fit and profitability. Our specialty metal products are manufactured for niche markets where Quanex has the core strengths to produce a significant competitive advantage and higher returns on our shareholders' investment. Businesses and assets without this potential will be sold and the proceeds used to move toward our strategic goal of becoming a specialty materials company."

Quanex is a technological leader in the manufacture of steel, aluminum and titanium specialty metal products for transportation, capital equipment, home building and remodeling and energy processing markets.

Latest 12 months sales data: $620.3 million, operating earnings; $52.1 million, net income; $25.2 million, cash from operations; $68.8 million, earnings per primary common share; $1.80, quarterly common dividend rate; 10 cents per share, book value per common share; $11.76, long term debt/capitalization; 30 percent, return on common shareholders' equity; 16.1 percent, common stock price range (52 week High/Low) $18.625 and $11.50.

BETHESDA, MD. (SEPT. 11) PR NEWSWIRE - Federal Realty Investment Trust (NYSE: FRT) announced today that it has increased its regular quarterly cash dividend to 37 cents per share from 35 cents per share.

This represents a 6 percent increase to a new indicated annual dividend rate of $1.48. This marks the 23rd consecutive year in which Federal Realty has increased its dividend rate and the 112th consecutive quarterly dividend paid by the Trust. Over the last 10 years, Federal Realty's dividends paid have grown at a compound annual rate of 10.4 percent.

The increased dividend will be payable Oct. 15, 1990, to shareholders of record Sept. 25, 1990.

Steven J. Guttman, president and chief executive officer stated, "Our ability to increase our dividend for the 23rd consecutive year underscores the overall strength of the Trust's properties even in a difficult economic environment."

Federal Realty is an equity real estate investment trust which owns and operates neighborhood and community shopping centers in prime locations. Trust properties are located in 10 states concentrated in the mid-Atlantic region between the New York metropolitan area and Richmond, Va.

MIAMI (SEPT. 11) PR NEWSWIRE - General Development Corporation (NYSE: GDV) President Thomas J. Hutchison today announced several promotions which he said will round out the new management team at the company and put it in a strong position to complete its reorganization.

Charles M. Andolsek was named executive vice president and chief financial officer. Andolsek, 43, who is also a member of the board of directors, joined the company in February 1990 as senior vice president and chief financial officer. Before coming to GDC, Andolsek was executive vice president/finance and chief financial officer of Vinters International Co. Inc. in New York. Prior to that he served in a number of executive positions with Joseph E. Seagram & Sons, Inc.

Margaret A. Graff, 39, has been promoted to senior vice president/corporate planning. Graff joined GDC in 1987 as assistant vice president and assistant treasurer. Since March 1990 she has served as vice president/treasurer.

A native of North Wilkesboro, N.C., she received a bachelor's degree in economics from Appalachian State University.

Joseph P. Zdon, 48, was named senior vice president/controller. He joined

the company in 1973 and has been vice president and controller for the company for the last 10 years. A native of Minnesota, Zdon obtained a bachelor of science in accounting from the University of Minnesota and a master's of science in finance from Florida International University.

Lisa Davis Anness, 34, has been named vice president of Planning Project Management. She joined GDC in 1978 as a biologist in the Environmental Programs Department and later became director of Environmental Planning and Engineering. She was promoted to assistant vice president in October 1988.

Anness was born in Morocco. She holds a bachelor's degree in biology and a master's degree in business administration both from the University of Miami.

Nelly Medel has been named director of corporate communications. Medel, 35 joined GDC in 1987 as administrative coordinator in the Corporate Communications Department. She was named manager of corporate communications in March 1990. Originally from New York, Medel worked in the financial division at CenTrust Savings Bank, within the computer sales division of Tandy Corporation and earlier was affiliated with several South American corporations.

HOUSTON (SEPT. 11) PR NEWSWIRE - Compaq Computer Corporation (NYSE: CPQ) today reduced suggested resale prices of many of its desktop personal computers by up to 20 percent and selected memory options by an average of 25 percent.

"Customers who have been considering other products will want to take another look at Compaq," said Mike Swavely, president, North America, Compaq Computer Corporation. "With these price reductions, Compaq is well positioned to take advantage of the fourth-quarter market growth and the accelerated movement to 386- and 386SX-based PCs.

"Compaq was the first company to introduce 386 technology to the industry in 1986. Since then, we have continued to innovate and have introduced a full range of high performance desktop products to meet the most demanding customer needs. This combination of a full product family and new aggressive pricing represents Compaq's commitment to leadership in this market segment," said Swavely.

The price reductions were taken on the following PCs: COMPAQ DESKPRO 386/25e, COMPAQ DESKPRO 386/20e, COMPAQ DESKPRO 386s/20, COMPAQ DESKPRO

386s, COMPAQ DESKPRO 386N and COMPAQ DESKPRO 286N.

Compaq offers customers a full line of 386- and 386SX-based PCs to address these fast growing market segments. According to Storeboard Inc. data, the number of 80386-based units sold through the dealer channel (U.S.) in the second quarter grew 24 percent compared to the same period last year.

In the 386 segment, both the COMPAQ DESKPRO 386/25e and COMPAQ DESKPRO 386/20e offer high performance at a very competitive price. For example, the COMPAQ DESKPRO 386/25e Model 120 and Model 60 are priced $500 lower (SRP) than the IBM PS/2 70-A21 and 70-A61. With two additional megabytes of memory standard, 16-bit VGA and faster fixed disk drives, the COMPAQ DESKPRO 386/25e offers a very attractive alternative.

Compaq also offers customers a full line of 386SX-based PCs: the COMPAQ DESKPRO 386s/20, COMPAQ DESKPRO 386s and COMPAQ DESKPRO 386N. According to Storeboard Inc. data, the number of 386SX-based units sold through the dealer channel (U.S.) in the second quarter grew 442 percent compared to the same period last year.

The lowered prices of the COMPAQ DESKPRO 386s/20 make it a more attractive alternative for performance-conscious users. The very popular COMPAQ DESKPRO 386s will also continue to be in high demand with today's price reductions.

Additionally, the COMPAQ DESKPRO 386N is now even more affordable for entry-level 386SX users who have basic computing needs. The new pricing combined with the popular security features of this product will also greatly benefit users in connected environments.

Compaq Computer Corporation is a world leader in the manufacture of PC systems, and desktop, portable and laptop business personal computers. COMPAQ products are sold in 64 countries through a network of more than 3,000 authorized COMPAQ computer dealers.

#90254p3332 09/11/1990 ~PR Newswire

INVER GROVE HEIGHTS, Minn. (SEPT. 11) PR NEWSWIRE - Surgidyne, Inc. today announced that it has received 510K approval from the United States Food and Drug Administration (FDA) to market its postoperative orthopaedic autotransfusion system. The Surgidyne Autotransfusion System is comprised of its portable VariDyne battery powered suction pump and a disposable

system for collection and reinfusion of blood back into the patient.

Autotransfusion of a patient's blood following joint replacement surgery is an increasingly common, but relatively new procedure, being done by orthopaedic surgeons. It is most frequently employed in hip and knee replacement procedures, a fast growing segment of the orthopaedic surgery market. The company sees an excellent potential for its proprietary autotransfusion system that employs its patented VariDyne Vacuum Controller.

The company estimates that there will be approximately 500,000 hip and knee surgeries performed in the U.S. in 1991 that offer potential for use of autotransfusion systems. The compound growth of the hip and knee replacement market exceeds 12 percent per year. Dynamic growth is being seen in the sale of autotransfusion systems as surgeons and patients often prefer the use of autologous blood (the patient's own blood) to homologous donated blood from blood banks. Autotransfusion eliminates their concerns about infections from blood with AIDS or Hepatitis B virus. The U.S. market for postoperative autotransfusion products is expected to reach $50,000,000 within a few years.

Surgidyne is continuing to negotiate an exclusive manufacturing/marketing agreement for its VariDyne Autotransfusion System with the V.Mueller Division of Baxter Healthcare Corporation of Deerfield, Ill. The company plans to have its newly approved system available for market introduction at the American Academy of Orthopaedic Surgeons in Anaheim, Calif., in March 1991.

The company designs, develops, manufactures and markets specialty medical and surgical products. The company's common stock is traded in the local over-the-counter market. The company's executive offices are located at 9605 West Jefferson Trail, Inver Grove Heights, Minn. 55077.

WASHINGTON (SEPT. 11) PR NEWSWIRE - "The Coaches Show," the FNN:SPORTS cable television program that premiered Sunday, Sept. 9, is just one of the new changes announced this week by UPI SportsNews, the joint venture between United Press International and FNN:SPORTS.

The "Coaches Show" is the first of several new initiatives aimed toward sports fans, sports editors and broadcasters, said Arnie Rosenthal, president of the UPI SportsNews venture with FNN:SPORTS.

Also included now on FNN:SPORTS are the UPI college rankings, a service that began in 1950. The rankings are now released Sundays, prior to the 30-minute "Coaches Show" broadcast Sundays at 11:30 p.m. EDT, 8:30 p.m. PDT.

"The Sunday UPI Coaches Poll results and the new joint programming efforts are the first glimpse of expanded UPI-FNN sports reporting," Rosenthal said.

Rosenthal also announced UPI SportsNews will provide FNN:SPORTS features and investigative reports to UPI print and broadcast media sports clients. During the new services' introduction, said Rosenthal, there will be no additional charges for UPI television clients who ask to receive FNN:SPORTS video material via satellite, or for UPI radio and newspaper clients receiving text versions of FNN:SPORTS stories.

Rosenthal said that among other UPI SportsNews projects nearing completion is 900-number sports polling in collaboration with UPI client newspapers

and Financial News Network. Sports polling will enable newspaper readers and cable television viewers to telephone votes for competitors, beginning in October.

UPI, founded in 1907, is owned by Infotechnology Inc. (NASDAQ-NMS: ITCH), which also owns 47 percent of Financial News Network Inc. (NASDAQ-NMS: FNNI). FNN cable television serves more than 35 million subscribers.

PORT HURON, Mich. (SEPT. 11) PR NEWSWIRE - Amoco Oil Company today announced it was joining the state of Michigan and the Spill Control Association of America to make spill-response materials readily available to help protect the Great Lakes.

Amoco will provide storage space for spill-response materials at four of its Michigan product terminals which are strategically located around the state's shoreline, said Terry R. Weaver, Amoco's vice president of West Zone Marketing Operations, at a news conference held here this morning.

The Spill Control Association will provide containment booms at the four terminals which can be used to contain any product that might be released into the lakes. In addition, the Michigan state police will provide trailers on which the booms will be stored.

Amoco's terminals are located at Bay City, Cheboygan, Escanaba and Muskegon, Weaver said. Booms also will be stored at a site located near the St. Clair River.

"We currently store and distribute refined products to Amoco marketers from these terminals, which are manned 24 hours a day, every day of the year," Weaver said. "Our terminal personnel will do whatever they can to assist the state and certified responders in dispensing these booms should they ever be needed."

Under the agreement reached between Amoco, the state, and the association, certified state responders will be able to use the booms to contain any product that should escape to any of the Great Lakes.

"The Great Lakes are undoubtedly one of our finest natural resources," Weaver said. "Although no crude oil and very little refined product are transported on the Great Lakes, we believe this cooperative effort will provide Michigan and Michigan residents with a safety net that could be extremely useful if ever needed.

PITTSBURGH (SEPT. 11) PR NEWSWIRE - Tele-Communications Inc. (NASDAQ-NMS: TCOM) today unveiled 11 new points to The Customer 1st program, TCI's national customer service program, bringing to 33 the number of initiatives included in the company's efforts to better serve its customers.

The announcement was made by members of the TCI Customer Service Committee 14 employees from TCI system, state and division offices across the nation, who are responsible for the development and implementation of The Customer 1st program.

Noting that the program was first announced one year ago, J.C. Sparkman, TCI executive vice president and chief operating officer, stated, "We said at the outset that The Customer 1st program would be an evolving process. It will continue to grow and change as our customers' needs change and we develop better ways to serve them."

The additional points include the establishment of a "Blue Ribbon Committee," comprised of employees from throughout TCI, which will assume the responsibility for the continued development of the Customer 1st program; a national employee survey; the production of a videotape to be made available to new customers and shown on local origination channels which will provide often-requested subscriber information; and the establishment of an 800 number connecting customers to TCI's corporate office if a problem cannot be resolved to their satisfaction locally, advanced employee training programs, and the acceptance of credit cards for installation charges and converter purchases.

Bryant Hill, TCI's recently appointed vice president of customer service, and head of the company's new corporate customer relations department, stated, "The Customer 1st program has been extremely well received throughout TCI -- both by employees and by our customers. Our third annual customer satisfaction survey showed a dramatic rise in customer satisfaction with our service. Additionally, employees appreciate being given the authority to solve problems -- and they have done a great job."

Stressing the importance of focusing on employees, Suzy Dotson, a member of the Customer Service Committee and TCI Central Inc.'s director of training and development, added, "We have learned that we can't serve our customers well without first serving our employees. As part of The Customer 1st program, we have developed several training programs and plan to continue to concentrate on training."

The first 21 points of The Customer 1st program, which include a money-back guarantee, increased authority for customer service representatives and field personnel, a customer call-back program, and a commitment to service by the next business day, "were implemented following last year's announcement," said Hill. "We gave ourselves until December of this year to fully achieve all points. I'm happy to say that we'll beat that deadline by a couple of months."

The 22nd point, the National Cable Television Association (NCTA) Customer Service Standards, was added to the program in February.

Tele-Communications Inc. is traded over-the-counter with Class A common stock and Class B common stock trading separately under the symbols TCOMA and TCOMB, respectively. The company's 11-1/8 percent senior subordinated debentures, 7 percent convertible subordinated debentures, and TCI rights are traded in the over-the-counter markets, the latter two under the symbols of TCOMII and TCOMR, respectively.

NEW HAVEN, CT (SEPT. 11) PR NEWSWIRE - First Constitution Financial Corporation (NASDAQ: FCON), the holding company that owns First Constitution Bank, said its board voted to enlarge its size from 11 to 12 members and elected Daniel J. Miglio to serve as a new member. Miglio is chief financial officer of Southern New England Telecommunications Corporation and its principal subsidiary, The Southern New England Telephone Company (SNET).

First Constitution's directors serve concurrently as directors of the bank subsidiary, according to John J. Crawford, president and chief executive officer.

Miglio, 50, joined SNET in 1962, following graduation from the Wharton School at the University of Pennsylvania, where he majored in economics.

He progressed through a series of financially oriented staff positions, in addition to holding management assignments in operating areas of the company. He serves as a board member of Southern New England Telecommunications, manages financial and investment operations, and directs strategic planning, legislative and regulatory affairs, and corporate communications. His career includes substantial experience in customer relations.

A resident of Branford, Conn., Miglio is a director of the United States

Telephone Association, chairman of the finance committee of the Connecticut Joint Council On Economic Education, and a director of the New Haven Symphony Orchestra.

First Constitution Bank is a state-chartered, FDIC-insured savings institution with 22 branches in communities in Fairfield and New Haven counties.

The common shares of the holding company are traded on the NASDAQ National Market System, where the trading symbol is FCON.

ATLANTA (SEPT. 11) PR NEWSWIRE - Colorocs Corporation (NASDAQ: CLRX), a developer of full-color electrophotographic copiers and electronic printers based on proprietary technology, today announced that James A. Watts, Jr. is joining the company as vice president and chief financial officer.

Watts has served on Colorocs' board of directors for the past two years. Also, as a partner with the international accounting firm Deloitte Haskins & Sells (now Deloitte & Touche), he worked closely with Colorocs' management during its early years.

Watts' primary duties at Colorocs will include securing additional support from the financial community to fund future expansion as well as enhancing the company's financial control systems to monitor the company's projected growth. He will be assuming some responsibilities from Executive Vice President Alan B. Srochi, who will be focusing on strategic issues.

Charles Muench, president of Colorocs, said, "Jim Watts comes to Colorocs with a working knowledge of the company. In addition, because of his past association with several early stage companies, he has an understanding of the challenges that Colorocs faces in its effort to gain market share in a rapidly growing market segment."

For the past two years Watts was executive vice president and chief financial officer of Integratec, Inc., an Atlanta-based company which provides accounts receivable management services primarily to health care and financial institutions.

Prior to joining Deloitte, Haskins & Sells in 1982, Watts was a partner with Coopers & Lybrand.

Colorocs designs, develops and sells color copiers and electronic

printers. There are over 8,000 units in the field using Colorocs' patented technology under the Sharp Corporation, Savin Corporation, HCS Technology N.V. and Colorocs labels.

NEW YORK (SEPT. 11) PR NEWSWIRE - Isramco, Inc. (NASDAQ: ISRL), an American company, reported today that the Israeli government had granted the Negev Venture 2 an additional permit for oil exploration on 1,030,000 acres, to be named the Negev Yam North permit, situated offshore along the Mediterranean coast of Israel. The acreage, which stretches 73 miles from Ashdod to Haifa, is in addition to the 300,000 acres of licenses the Negev Venture 2 already holds.

In reporting the additional acreage, Isramco chairman, Joseph Elmaleh, said that plans were under way to secure the funding for a three-well $40 million drilling program to further test the Jurassic formation in which oil was found in the Yam 2 well in the Mediterranean offshore of Ashdod. Two of the wells are expected to be drilled offshore and one is planned

onshore to test the Jurassic to Permian foundations in the coastal plain.

Elmaleh noted that in a press conference held in Tel-Aviv on Sept. 5, Armand Hammer, chairman of Occidental Petroleum, said that he and other private investors participating in his group -- including British publisher Robert Maxwell and Albert Reichman of Olympia and York, the worldwide real estate company, and also a director of Gulf Canada Resources, Ltd., one of Canada's largest oil exploration companies -- would undertake to raise the major portion of the $40 million needed for the program.

Elmaleh said, "Isramco, the operator, is now awaiting approval of the program by all the partners in the Negev Venture 2, which also includes a group of Israeli participants, as well as Isramco and Dr. Hammer's group. Isramco has a 1 percent working interest in the Negev Venture 2 and also holds an overriding royalty of 3.19345 percent after payout. The overriding royalty does not require investment in the costs of exploratory work and drilling."

Hammer also said during his press conference in Tel-Aviv that he believed that Israel could become a net oil exporter by the end of 1990s.

LONG GROVE, Ill. (SEPT. 11) PR NEWSWIRE - Kemper Corp. (NYSE: KEM) today announced it has established reserves totaling $9.3 million in the third quarter to cover tornado-related and hail-storm losses for its property-casualty and reinsurance segments. These reserves will result in an estimated after-tax charge to net income of $6.1 million, or $.13 per share, for the quarter. Net income for the third quarter, expected to be announced on Nov. 1, 1990, will reflect these losses.

"These reserves are based on an estimate of Kemper Corp.'s incurred losses as a result of the recent tornado in the southwest suburbs of Chicago and hail and wind storms in the Denver, Colo., metropolitan area," said Joseph E. Luecke, chairman of the board and chief executive officer. "The loss reserve established for our property-casualty insurance segment reflects the devastating tornado that struck Joliet, Plainfield and Crest Hill, Ill. The loss reserve established for the reinsurance segment reflects not only losses from the tornado, but also the Denver-area storms."

Preliminary estimates indicate that the total property damage from the tornado in the Chicago suburbs could be as high as $400 million, Luecke

said. Colorado Insurance Commission estimates that the insured property damage from the storms in the Denver area could reach $560 million.

THIRD-QUARTER ESTIMATED RESERVES
FOR CATASTROPHE LOSSES

	RESERVES	AFTER TAX
Reinsurance segment	$4.0 million	$2.6 million
Property-casualty insurance segment	$5.3 million	$3.5 million
Total	$9.3 million	$6.1 million

Kemper Corp. is a non-operating holding company with major subsidiaries in life insurance, investment services, reinsurance and property-casualty insurance.

LOS ANGELES, (SEPT. 11) PR NEWSWIRE - CF Income Partners L.P. (NYSE: CFI) a Los Angeles-based master limited partnership, announced today the appointment of Dennis A. Sondker as chief administrative officer, Leeann Morein as chief financial officer and Adrine A. Ellouguian as chief accounting officer of CF Management Corp., the general partner of CF Income Partners.

Sondker joins CF Management Corp. from California Federal Bank, FSB, where he was a vice president, and has been a director of the general partner since January 1990. Sondker joined California Federal in 1977 and served in a variety of management positions, including legal counsel for California Federal and CalFed Inc. from 1983 to 1987 and division head-southeast division from 1987 to 1988.

Morein joined California Federal in 1988 as director of real estate syndications accounting and became vice president-financial administration of the general partner in January 1990. From 1983 to 1988 she was employed by Storage Equities Inc. as controller, from 1981 to 1983 as director of accounting for Angeles Corp., and from 1979 to 1981 as audit senior at Price Waterhouse. Morein received her CPA certification in 1981.

Ellouguian joined Cal Fed Enterprises, a subsidiary of California Federal, in 1984, as vice president and controller. She has been vice president and controller of the general partner since January 1990. From 1978 to 1983, she was employed as audit manager for Peat Marwick Mitchell. Ellouguian received her CPA certification in 1980.

CF Income Partners L.P. is a publicly traded master limited partnership which has invested in income producing multi-family residential,

commercial and industrial properties.

CONTACT: Barbara J. Pape, 213-444-3968, or Leeann Morein, 213-444-3969, both of CF Income Partners L.P.

#90254p3374 09/11/1990 ~PR Newswire

NEW YORK (SEPT. 11) PR NEWSWIRE - Fujitsu Limited announces that it has today commenced marketing of the FUJITSU SURE SYSTEM 2000, a fault-tolerant new-generation communication processor that offers hitherto unavailable levels of reliability for both communications hardware and software, thus making possible uninterrupted operation of network systems.

The Fujitsu system is designed to meet the increasing requirement for 24-hour-a-day on-line networks which need to be fault-tolerant and upgradeable during operation in such fields as global money market trading systems, automatic banking services and cash card services.

Highlights The FUJITSU SURE SYSTEM 2000 is the first major product in the communications processing (CP) domain of Fujitsu's recently introduced mainframe system concept for the 1990s known as MISSION/DC.

The FUJITSU SURE SYSTEM 2000 offers two major modes of operation: - As a current-generation standard communication control processor, it enables the user to implement Fujitsu's latest advances in hardware and software technology without disturbing current network operations.

- More significantly, as a new-generation independent communication node processor, the user can operate the FUJITSU SURE SYSTEM 2000 independently from the host system, thus protecting it from any adverse condition that might affect the host's operation.

Meeting the Customer's Requirements The FUJITSU SURE SYSTEM 2000 addresses the need for continuous processing, fault-tolerant systems that give 24-hour-a-day, 365-days-a- year service. This solution is based on the following concepts:

Continuous operation: Non-stop, even when hardware or software trouble occurs.

Dynamic maintenance and dynamic addition: Enable the replacement of defective equipment, the addition or maintenance of equipment, the addition or maintenance of definitions and the modification of fundamental software - all without stopping the system.

Expansibility: Enables the gradual expansion of performance capacity as and when required.

The FUJITSU SURE SYSTEM 2000 fulfills the need for no-downtime, non- stop processing with a highly reliable network node processor function. It has a connectivity capability for communication with any system, thus facilitating the construction of flexible multi-vendor systems.

The FUJITSU SURE SYSTEM 2000 introduces a message-based client/server model based upon new hardware and software architectures. No longer is it necessary, as with current operating systems, to keep all functions operating in a single processor's main memory. With the new SXO distributed architecture, operating system functions may be divided among the various multiple processors and their respective allocations of the main memory. This results in a high-performance, highly reliable operating system designed to maximize system availability and transaction throughput.

Advanced Remote Maintenance and Supervisory Service (ARMSS) To support the continuous 24-hour-a-day operation of its customers' systems, Fujitsu is now offering a new maintenance service called Advance Remote Maintenance and Supervisory Service, or ARMSS, covering both hardware and software.

When FUJITSU SURE SYSTEM 2000 discovers a problem in system operation, it automatically sidesteps the problem and maintains continuous system operation. At the same time, however, the ARMSS center is automatically informed about the problem. The ARMSS center is directly linked to the customer's Sure installation by ISDN lines and it is constantly prepared to receive information about customer problems and to rapidly carry out maintenance service. With the extra support provided by ARMSS, FUJITSU SURE SYSTEM 2000 users can have complete assurance of uninterrupted 24-hour-a-day operation of their systems.

High Reliability + Maximum Availability Equals Continuous Operation In its hardware, FUJITSU SURE SYSTEM 2000 utilizes the latest technology, including a CPU with 32-bit, high-performance (G MICRO(TM) 300) microprocessors, 4MB DRAMs for memory, and 100,000-gate CMOS gate arrays for LSI logic. Moreover, its advanced architecture includes the following features:

- From two to six processor modules (PMs) can be mounted, each with its own independent CPU. Each PM incorporates its own 16MB or 32MB memory.

- Duplex Shared Storage Modules (SSMs) of up to 64MB each are allocated to the PMs to transfer ongoing processing information and facilitate continuous operation.

- Shared access systems make direct input/output possible from any processor module to any peripheral, such as disk storage, enabling flexible distribution of I/O load and data storage.

- Highly modularized mounting system makes it easy to change or add modules while the system is in operation.

- Battery backup system provides for automatic disk backup of data in the event of a power outage and immediate recommencement of operation when power is restored.

The FUJITSU SURE SYSTEM 2000 incorporates a new concept in operating system software, called SXO. Modularized on a functional basis, SXO allows various software units to be distributed across the available hardware Processing Modules and offers users the following benefits:

- Utilization of multiple processors to manage system throughout requirements results in a high level of performance.

- Ability to duplicate any operating system function in an alternate PM realizes software hot-standby capability, thus ensuring high reliability.

-- Facilitates modification of software functions, which can be implemented and tested on a standby PM while network operation proceeds in normal fashion.

Together, the above software features ensure that should software problems occur, backup software will provide continuous operation and total system failure will be prevented.

Shared access and memory systems make direct input/output possible from any processor. OS functions can be distributed in the most appropriate manner when processors or modules are added, enabling highly flexible, step-by-step system expansion.

- Thanks to its modular hardware system and highly advanced software features, the FUJITSU SURE SYSTEM 2000 offers full "dynamic maintenance." That is to say, it is possible to add or expand hardware or software components and functions without shutting down the system. For example, extra processors and components may be added to enhance processing performance, and extra lines and workstations may be configured without disrupting an existing network.

Open Connectivity To accommodate the open network requirement for connectivity among multi-vendor systems, FUJITSU SURE SYSTEM 2000 supports such international standard communications protocols as Open Systems Interconnection (OSI), TCI/IP, or IBM's Systems Network Architecture (SNA) as well as Fujitsu Network Architecture (FNA).

Independent Network Operation The FUJITSU SURE SYSTEM 2000 has been designed to offer effective linkage with M-Series host systems. Key

linkage features include:

- Support for continuous operation in the event the host system switches to a hot-standby system. Even with high-speed host switching, transaction processing momentarily stops when traditional hot-standby systems are used. This can result in lost or incomplete transactions. With the FUJITSU SURE SYSTEM 2000, however, transaction data to the host is stored during the switch to the hot-standby system and the transactions are not lost. After the host is switched, transaction processing recommences without losing any data.

Corporate Data Exchange System/Extended (CORDEX/E) is provided in the software package for FUJITSU SURE SYSTEM 2000. Linked to the host computer's (CORDEX) package, it makes possible independent network operation, whereby data collection and distribution can be carried out without any influence on the operating time of the host computer. Even when the host computer is not in operation, for example at night or on holidays, data collection and distribution can be efficiently carried out.

- Use of the FUJITSU COMS-I (Corporate Network Management System for Information) product makes it possible to manage the whole network system - from the host system to the most remote workstation, and including the FUJITSU SURE SYSTEM 2000 - in an effective, integrated fashion.

#90254p3383 09/11/1990 ~PR Newswire

PALMERTON, PA. (SEPT. 11) PR NEWSWIRE - Horsehead Resource Development Co., Inc. (NASDAQ: HHRD), today issued the following statement:

Last Friday, the U.S. Environmental Protection Agency withdrew its request for a stay of the mandate in the API (American Petroleum Institute) case. The action gives further technical and regulatory support to Horsehead Resource Development's (HRD) recycling process. In a filing with the court, the EPA stated its belief that "...HTMR (High Temperature Metals Recovery) technology is fully capable of meeting the numerical (land ban) standards based on stabilization." By this action the EPA has recognized that it does not need to promulgate any further rule or regulation in order to comply with the mandate in the API case.

The EPA's action is positive for HRD since the HTMR slag which HRD calls "IRM" readily meets the land ban stabilization standards. HRD's customers may continue to use IRM, which has been sold as a useful product for years, for any application on land or otherwise. The company believes the EPA's action puts to rest any uncertainties with respect to HRD's operations resulting from the API case.

The EPA's action has the effect of establishing HTMR plus the numerical standard as the sole treatment standard for high zinc K061 waste after Aug. 8, 1991, and as the preferred process for such waste until that date.

In its motion for stay of mandate, EPA has noted "EPA does not consider the interim standard (i.e., stabilization and landfilling) to be BDAT because it has no recycling benefits and because it maximizes the amount of hazardous waste to be disposed; rather, the Agency considers HTMR to be superior to stabilization because it addresses recycling and waste minimization." Stabilization and landfilling continue to be an alternative to HTMR for high zinc K061 until Aug. 8, 1991, because of inadequate existing HTMR capacity. HRD is meeting this capacity shortfall with its new HTMR facility in Rockwood, Tenn., expected to be placed in operation during the fourth quarter.

MT. PROSPECT, IL (SEPT. 11) PR NEWSWIRE - Zenith Data Systems (ZDS), a Groupe Bull company, today reduced the suggested retail prices of select portable personal computers (PCs) by about 15 percent.

"These price adjustments are designed to secure ZDS' position as a value leader in portable PCs as we enter the most active sales period of the year," said Arthur Lambert, ZDS vice president of sales and marketing. "These new prices should create greater excitement at the reseller level for our products."

ZDS lowered the price from $2,799 to $2,399 on its 5.9-pound MinisPort HD, which features a 20-megabyte hard disk and is based on an 80C88 processor.

ZDS also reduced the price of its best-selling SupersPort 286e line of full-function 80C286-based portable PCs with VGA video. The Model 40 with a 40-megabyte hard disk drive is now $3,999, down from $4,699. The Model 20 with a 20-megabyte hard drive is now $3,699, down from $4,399.

ZDS, a Groupe Bull company, is a leading manufacturer and marketer of portable and desktop microcomputers and monitors for single and multi-user applications. With headquarters in Mount Prospect, Ill., and principal assembly operations in St. Joseph, Mich., ZDS has manufacturing and sales facilities in more than 20 countries.

CORPUS CHRISTI, TEXAS (SEPT. 11) PR NEWSWIRE - Maritek Corporation (NASDAQ: MRTK) announced today that the shareholders of the corporation at their annual general meeting just held in San Mateo, Calif., elected Sophie Kuo Chiang and Phylo Chiang, L.C. Martin, Sam Shen and Oswald Roels to serve on its board of directors for the year.

Shen, Maritek's president, announced at the meeting that the board of directors of a large Taiwanese institution has approved the application submitted by Maritek Bahamas Ltd. (wholly owned subsidiary of Maritek Corporation) for a substantial loan to greatly expand its mariculture facilities in Long Island, Bahamas, subject to the signing of a final loan document and the provision of adequate collateral. Shen further announced that a marketing program for the company's planned Emerald Beach Resort at its Bahamas property will start immediately with the offering of beach front building lots and condominiums (villas) in the United States and in the Far East.

The reverse stock split, which was proposed in the proxy statement for the annual general meeting, was removed from the agenda of the meeting since NASDAQ altered stock listing maintenance requirements, which would have made this reverse stock split desirable, after the mailing of the proxies. The new NASDAQ proposed stock listing maintenance requirements removed the need for this reverse split of the company's stock. There will, therefore, not be a reverse stock split at this time.

RALEIGH, NC (SEPT. 11) PR NEWSWIRE - Microwave Laboratories, Inc. (MLI) (NASDAQ: MWAV) announced today that the Government has approved the First Article Test Report for the T1062 Traveling Wave Tube. The Company is now considered a qualified vendor for the T1062 tube and is entitled to begin production and shipments of the tube at this time. The Company currently has a contract for approximately $4.4 million to manufacture T1062 Traveling Wave Tubes for sale to the Navy for its AN/ALQ-99 program.

On July 30, 1990, the Company announced that its T1073 Traveling Wave Tube had completed all required Government environmental qualification testing. However, final approval of the environmental tube is still dependent upon the review and approval by the Government of a First Article Test Report. An additional tube is currently undergoing the required life test. Successful completion of qualification is still dependent upon the approval of the First Article Test Report when submitted and the

acceptance by the Government of the T1073 life test tube. The Company has contracts totalling approximately $9.3 million to manufacture the T1073 Traveling Wave Tube.

SEATTLE (SEPT. 11) PR NEWSWIRE - Eleven 707-derivative aircraft for the U.S. Navy have been added to the Boeing Commercial Airplane Group announced-order list, Boeing said today. The announcement takes total orders for various types of the original Boeing jetliner over the 1,000 mark.

Ten of those announced today will be E-6 submarine communication aircraft that are added to the six already on the Boeing confirmed order list. The other will be a variation of the E-6 airframe.

These aircraft bring total Boeing orders for the four-engined 707/720 series to 1,010, making it one of only four jetliner series to break the 1,000 mark. The 707/720's order total has been at 999 since November 1987. Deliveries are now 989.

The four series with more than 1,000 orders are the Boeing 707/720, Boeing 727, Boeing 737 and the McDonnell Douglas DC-9/MD-80 series.

E-6 aircraft use a five-mile-long trailing wire as a very-low-frequency antenna to produce a carrier wave that will penetrate the ocean surface and reach submerged submarines anywhere in the world. So far, eight of the E-6s have been delivered.

Including these aircraft, 132 various model 707s and 720s have been ordered for non-commercial use, including governmental missions such as Airborne Warning and Control System, cargo airplanes, troop carriers and airborne refuelers, or for VIP transports. As of today, 111 have been delivered.

Production of commercial versions of the Boeing 707 reached 878 aircraft.

The smaller version of the 707, the -100 series, was the first jetliner to have true trans-Atlantic range. With it, Pan American World Airways inaugurated the first regularly scheduled jetliner service between the United States and Europe beginning Oct. 26, 1958. While the British Comet had been flying in Europe and Africa since 1952, it did not have enough range to make scheduled trans-Atlantic crossings. This series of the Boeing aircraft, which included the -120, -120B, and -220, totalled 146 airplanes.

NEW HYDE PARK, N.Y. (SEPT. 11) PR NEWSWIRE - G.L. Hodson & Son, Inc. announced today that Michael E. Rothpletz, executive vice president and Eastern Region manager of GLH, has been given additional responsibilities as head of the Large Account Resources Division, a newly formed unit within the region. As such, Rothpletz will have direct responsibility and control over a team of professionals dedicated to the servicing of large accounts and the development of new business from both existing large clients and new clients. Rothpletz continues to report to Stephen A. Crane, president and chief executive officer of G.L. Hodson.

In making the announcement, Crane stated, "The formation of this new unit, and Mike Rothpletz's appointment to supervise its activities, are a reflection of the increasing importance of technical resources and value-added services in the reinsurance intermediary business today. The large account team will be responsible for accessing all resources available to GLH, and no one is more qualified to spearhead this effort than Mike Rothpletz. His years of experience in the stewardship of GLH's important clients will serve us well, indeed", Mr. Crane concluded.

G.L. Hodson & Son, one of the ten largest reinsurance intermediaries in the U.S., was founded in 1924 and was acquired by Corroon & Black Corporation (NYSE: CBL) in 1970. GLH is headquartered in New Hyde Park, New York, and has branch offices in Atlanta, Boston, Burlington, N.C., Los Angeles, Minneapolis, and San Francisco. GLH is primarily a treaty broker but provides facultative reinsurance services through several of its offices.

#90254p3399 09/11/1990 ~PR Newswire

HOUSTON (SEPT. 11) PR NEWSWIRE - In a move to further diversify its integrated solid waste management services, Republic Waste Industries Inc. (NASDAQ: RWIN) has acquired Living Earth Technology Inc., of Houston. Living Earth, which produces and markets a wide range of soil mixes and mulches to landscapers and wholesale nurseries, recently acquired Humusoil Enterprises, a Houston company that has been recycling yard wastes into compost for nine years.

James D. Lee, president of Republic Waste, said his company considers this

to be a significant acquisition: "We see Living Earth's composting technology as an important and highly promising form of alternate disposal that can significantly reduce municipal solid waste streams. Estimates are that 20 to 25 percent of residential waste consists of grass, leaves and shrub clippings. By diverting this component into a recycling program, cities can greatly reduce the burden on their landfills, while gaining access to an environmentally sound product in the compost."

According to Bruce Thornton, president of Living Earth Technology, clippings are ideal for recycling: "Yard waste makes excellent compost, in terms of moisture content, nutrients and soil mechanics. If proper techniques are used, the wastes can be converted to compost in about 60 days. Not only does composting convert yard waste into a valuable product, the compost itself promotes vigorous plant growth, reducing the need for fertilizer and the resulting water pollution from fertilizer run-off."

Thirteen states have already banned yard waste from public land- fills, and Republic believes there is a significant need for yard waste recycling. Republic plans to evaluate the feasibility of a Living Earth/Humusoil composting operation at each of its current landfills and at all landfills it acquires in the future.

Republic Waste Industries Inc., is a Houston-based company specializing in collection, processing and disposal of solid waste. Republic focuses on providing long-term, integrated solutions to municipal and industrial nonhazardous waste problems. The company's common stock is traded over-the-counter under the NASDAQ symbol RWIN.

#90254p3408 09/11/1990 ~PR Newswire

COLUMBUS, OHIO (SEPT. 11) PR NEWSWIRE - Exciting fall fashions that capture the spirit of French style, unaffected sophistication and a sense of self-confidence are seen in a national print advertising campaign introduced by Express for its Compagnie Internationale Express brand. The ads mark the first national advertising campaign for the dynamic and fast-growing division of The Limited, Inc., one of the most successful specialty retail companies in the country.

Introduced this fall in the September 30 issue of The New York Times' "Fashions of the Times" and October issues of Elle, Glamour, Vogue, and Vanity Fair, the Express campaign targets the contemporary, spirited and fashion-forward woman who is self-assured and intelligent. The ads appear as two- or eight-page inserts and are set in the romantic countryside in the South of France.

According to Michael Weiss, president of Express, "Our ads reach out to women who want their fashions to reflect the sexy, chic and stylish European looks. Our customers are distinctive and everything we do is geared towards them. They're spirited, modern, up-to-the-minute, and they trust their taste. It's through fashion that they present themselves to the world."

The Express campain? was created by Tarlow Advertising, a young company led by Dick Tarlow who is known for his strategic and creative image advertising. Named "Agency of the Year" in the eastern U.S. by AdWeek in 1989, Tarlow has also created advertising for Revlon, Henri Bendel, Gorham china and silver, Revo sunglasses and Victoria's Secret.

One of the strategies for the Express campaign was to capture and enhance the sophisticated and chic image of the company's extremely successful brand, Compagnie Internationale Express. "Express, the company and the store, is about a brand of exciting and authentic international fashions for today's modern woman. The ad captures not only the beauty and sophistication of the Compagnie Internationale Express brand but the spirit and confidence of the woman who wears it," said Weiss.

The distinctive and soulful images featured in the ad were taken by British photographer Richard Dunkley in Provence, France, which was chosen for its spectacular landscape. Dunkley's fashion photographs have graced the pages of Vogue, Elle, Lears, Esquire and The New York Times.

In keeping with Express' international focus, the five models featured in the ads represent countries around the world. They include Estelle from France, Jade from Denmark, Daniela from Czechoslovakia, Therese from France and Michaela from Israel.

LANSING, MICH. (SEPT. 11) PR NEWSWIRE - When a hailstorm ripped through metropolitan Denver this summer, over 130,000 vehicles were damaged. But owners of Oldsmobile's new plastic-bodied minivans -- the Silhouette -- were far luckier than most.

Silhouette's composite exterior body panels not only are corrosion-resistant, but withstand parking-lot dings and other damage such as that caused by golf-ball-sized hail.

The storm, believed to be the most costly hailstorm in U.S. history, caused over $625 million in damage, but at Emich Oldsmobile-Subaru on the hard-hit south end of Denver, Oldsmobile Silhouette minivans remained undamaged while competing vehicles all around them sustained heavy damage.

"One of the competing vehicles sitting right next to the Silhouette was really messed up, while the Silhouette came through without so much as a dent or even a crack in the windshield," said General Manager Larry Junker.

The only Silhouette known to have sustained damage was a courtesy vehicle owned by Empire Oldsmobile on the east side of town which got caught on the road at the height of the storm. But while vehicles all around it sustained heavy body and glass damage, Empire's Silhouette suffered only two broken taillights, a slightly torn tape stripe on the side of the van, and a few dents to the metal molding around the windshield.

The day after the storm, most body shops in the Denver area had waiting lists of nearly three months to repair storm-damaged vehicles. "Silhouette owners should have felt pretty good," added Emich Oldsmobile's Junker.

The secret to Silhouette's durability are specially designed sheet molded compound (SMC) composite exterior body panels. Silhouette's larger exterior panels are a homogeneous mixture of resin, chopped fiberglass, and filler material which are pressed at high temperatures and then secured to a steel space frame with nearly 2,000 linear inches of adhesive.

The remainder of Silhouette's body panels -- specifically front fenders and front and rear fascias -- are made in a somewhat different manner called reinforced reaction injection molding (RRIM). Two liquids and mineral reinforcement material are injected into a precise mold where they react and harden to form a finished component.

The result of these two processes is an exterior skin that not only is corrosion resistant, but one that also resists normal parking-lot dings and dents and hailstorm damage.

OAKBROOK TERRACE, IL (SEPT. 11) PR NEWSWIRE - Harry R. Thompson, chairman of Telesphere Communications Inc. (AMEX: TSP), today announced that The Chase Manhattan Bank has agreed to a $120-million underwriting to complete the acquisition of National Telephone Services Inc. of Rockville, Md. The commitment letter, which is subject to standard conditions, provides for both term and revolving credit financing.

National Telephone Services is a leading provider of operator services to hotels, hospitals and pay phones. The acquisition is expected to add approximately $200,000,000 annually to Telesphere's gross revenues.

"The acquisition of NTS will almost double our revenue base, making Telesphere the fourth largest long distance company in the United States," noted Thompson. "We believe this underwriting by one of the best recognized financial institutions in the United States confirms our view of Telesphere's unique strategic position in the telecommunications industry."

Telesphere Communications Inc. operates a nationwide, state-of the- art, digital fiber optic network over which it provides long distance, operator interactive 900 and other enhanced telecommunications services.

The company's common stock is traded on the American Stock Exchange.

#90254p3416 09/11/1990 ~PR Newswire

CHICAGO (SEPT. 11) PR NEWSWIRE - Searle today announced agreement with the state of California to provide brand-name prescription medications to Medicaid patients in that state at reduced cost. Some of the Searle products have not previously been available without prior authorization to patients who rely on the state-supported aid program for healthcare.

The agreement makes certain Searle products available at a reduced negotiated price to the California Medicaid agency known as Medi-Cal and enables the state to provide several important new prescription medicines to Medi-Cal participants.

Searle corporate senior vice president and president, North American

operations, Dr. Joseph T. Curti said, "We are satisfied that this agreement continues Searle's longstanding commitment to those in need. Searle has made prescription medicines available to the indigent who do not qualify for Medicaid since 1987 and now those patients who do quality for Medicaid in California will have access to the same Searle therapeutics."

Included in the Searle-California agreement are four Searle products not previously available without prior authorization: Calan(R) SR 180 mg (verapamil), Cytotec(R) (misoprostol), Kerlone(R) (betaxolol) and Demulen(R) 1/35 (ethynodiol diacetate with ethinyl estradiol). The Medi-Cal program already includes Searle's Calan(R) SR 240 mg, Theo-24(R) (theophylline) and Demulen 1/50.

While the Searle/Medi-Cal agreement was developed to benefit Medicaid patients, Searle has a history of social responsibility. Through the Patients In Need(R) program, the company makes all its potentially life-saving products available at no cost to those who do not qualify for Medicaid or other third-party assistance and who cannot pay for their medicines. Patients In Need, begun in 1987, was the first in a series of socially responsible programs from Searle which now includes the Patient Promise(R) refund program for any Searle product which in a doctor's view does not achieve its desired therapeutic benefit and Patients In The Know(TM) which provides easy to read information for patients about their Searle medications.

Searle is a research-based developer, manufacturer and marketer of prescription pharmaceuticals worldwide. It is a wholly owned subsidiary of Monsanto Co. (NYSE: MTC).

HOWELL, N.J. (SEPT. 11) PR NEWSWIRE - Union Valley Corp. (AMEX: UVC) today announced the closing of an $89 million credit agreement with its lead lender, First Fidelity Bank, Newark, N.J.

The lending agreement assures the company of continued financing for its core homebuilding business.

With its financing now completed, Union Valley Corp.'s Chairman of the Board and Chief Executive Officer Herbert E. Wishnick said the company can now focus all of its energies on projects currently under way in several markets.

In New Jersey, the company is currently developing Whittingham, an 1,800

unit, pre-retirement community of townhouses and single family designs located in Monroe Township, N.J. This development features a $5 million, 29,000-square-foot Town Centre Clubhouse, a complete health spa, indoor and outdoor pools, jogging track and five tennis courts. A golf course is under construction.

Concordia is a 1,700 unit pre-retirement lifestyle community that is almost fully occupied and which is located in Monroe Township, N.J., and includes a completed 18-hole golf course, magnificent clubhouse along with indoor and outdoor pools, tennis courts and other amenities. In Jackson Township, N.J., Union Valley is just completing the sellout of 1,086 entry level homes at 60 Acre Reserve.

The scope of Union Valley Corp.'s ongoing development in the Garden State includes Winding Ways, a retirement community in Jackson, N.J.; Francis Mills, an upscale community of single family homes on one acre or larger lots located in Jackson, and Pine Ridge South, an adult community of manufactured homes located in Whiting, N.J. Current building in New Jersey also includes Whiting Station, another lifestyle retirement community in Manchester Township. In addition, the company is developing ongoing projects in both Pennsylvania and Delaware.

In more than 27 years, Union Valley Corp. has developed more than 12,000 homes in New Jersey alone and each of these communities have been expressly designed for a particular segment of the market, whether for first time homebuyers, adult communities, or for retirees. Its successful development of Crestwood Village in Manchester Township of 8,000 units was one of New Jersey's first retirement communities and established Union Valley Corp. as a leader in retirement lifestyle housing.

HARTFORD, CONN. (SEPT. 11) PR NEWSWIRE - Aetna Financial Services, Inc., through Aetna Investment Management (Japan) K.K., is participating in an advisory agreement with Daiwa Investment Trust (DIT) in Tokyo for the first yen-based retail funds invested in U.S. mortgage-backed securities.

Since June, three funds totaling 105 billion yen, or approximately $700 million, have been marketed in Japan. Collectively known as the Jumbo Alpha series, each of the funds has a three-year term. A fourth fund is currently being marketed.

The DIT funds invest in mortgage-backed, or pass-through, securities issued by U.S. government agencies. Japanese investors are attracted to U.S. agency mortgage-backed securities because their yields are higher, in yen terms, than fixed-income securities in Japan, and because these securities carry either the direct backing of the U.S. government or that of U.S. government agencies.

"The needs of Japanese investors, whether institutional or retail, have become increasingly global and sophisticated," said Gary G. Benanav, president of Aetna International, Inc. "Daiwa recognized Aetna's expertise in developing and managing mortgage-backed investment strategies and tapped this resource for its clients."

Using its Hartford-based bond investment unit, Aetna Financial recommends securities for the fund to assist DIT in producing a stable return for its clients.

"Mortgage pass-throughs offer tremendous opportunity, but unless carefully monitored, they can produce volatile returns," said Stuart Reese, vice president of Aetna Bond Investors. "We'll continually evaluate all the securities for DIT to ensure that our advice balances risk and return." Approximately $6 billion of Aetna's $19 billion public bond portfolio is invested in mortgage pass-throughs.

Aetna's network of international financial services includes operations in Japan, Hong Kong, Taiwan, Australia, the United Kingdom and Canada.

CHICAGO, (SEPT. 11) PR NEWSWIRE - JG Industries, Inc. (NASDAQ: JGIN), announced today a net loss of $950,000 for its second quarter ended July 28, 1990, as compared with a net loss of $1,411,000 in the prior year. The loss applicable to common stock (after the impact of preferred stock dividends) was $.21 per share in the current year and $.24 per share in

the prior year. Comparable store sales increased 8.3 percent in the second quarter, as total sales were $48,727,000 as compared with $68,133,000 in the prior year. Stores which were sold or closed accounted for this decline.

The current year to date net loss of $1,082,000 represents a significant improvement over the prior year net loss of $3,364,000. The net loss applicable to common stock was $.29 per share in the current year and $.57 per share in the prior year. Year to date net sales declined to $97,665,000 in the current year from $126,552,000 in the prior year, while comparable stores sales increased 7.8 percent.

JG Industries Inc. is a Chicago-based retailing concern that operates through its various subsidiaries, 11 Goldblatt's department stores in Illinois and Indiana, ten Huffman Koos furniture stores in New Jersey and New York and 137 specialty retail shoe stores nationally.

PITTSBURGH, (SEPT. 11) PR NEWSWIRE - Donald R. Keough, 63, has been elected to the board of directors of H.J. Heinz Co. (NYSE: HNZ), it was announced today.

Keough is president, chief operating officer and a director of The Coca-Cola Company (NYSE: KO). In addition, he is chairman of the board of Coca-Cola Enterprises Inc. (NYSE: CCE), the world's largest bottling system.

Keough's tenure with Coca-Cola dates to 1950. He held various positions prior to being named president of the company's food division in 1971. Subsequently, he held the office of the president of Coca-Cola USA and later was given responsibility for the company's business in North and South America.

He was elected president, chief operating officer and a director of the Coca-Cola Company in 1981. Keough was elected chairman of the board of Coca-Cola Enterprises in 1986.

He serves on the boards of National Service Industries Inc. (NYSE: NSI) and the Washington Post and is chairman of the board of trustees of the University of Notre Dame. Additionally, he serves on the boards of various other educational, charitable and civic organizations.

Keough has received various honors, including honorary doctorates from the University of Notre Dame and his alma mater, Creighton University.

#90254p3433 09/11/1990 ~PR Newswire

PITTSBURGH (SEPT. 11) PR NEWSWIRE - The chairman of H.J. Heinz Co. (NYSE: HNZ) told shareholders at today's annual meeting in Pittsburgh that "constant regeneration" through Total Quality Management (TQM) would give Heinz the means to extend indefinitely its 26-year string of continuous financial growth.

"The measure of our success to date gives us confidence that our basic strategies are correct," said Dr. Anthony J.F. O'Reilly, Heinz chairman, president and chief executive officer. "You can be assured that Heinz management will continue to strive to enhance the quality of your company and the value of your investment."

O'Reilly pointed to a number of indicators that demonstrated the depth and degree of Heinz's fiscal performance. The most recent was the company's announcement yesterday that it had scored increases of 7.4 percent in sales, 13.2 percent in net income and 12.5 percent in earnings per share for the first quarter of fiscal 1991, compared with the same period last year.

This is consistent with the company's long-term record, particularly during the most recent five-year period. Heinz sales in fiscal 1990 passed the $6 billion mark for the first time.

The success of the Pittsburgh-based food processor has been reflected in its shareholder return, O'Reilly noted. He informed his audience that the board of directors had authorized an increase in the quarterly dividend from 21 cents to 24 cents per share. This represents an increase of 14 percent and an indicated annual dividend of 96 cents per share. Over the past five-year period, split-adjusted per-share dividends have more than doubled.

"The increasing stream of dividends has been a significant component of the total return to Heinz shareholders," Heinz's chairman stated. "Reinvesting dividends from the beginning of fiscal 1981 has produced a total return of 1,221 percent, equivalent to a 29.5 percent compounded annual rate of return. The total return during the same period for ths Standard and Poor's 400 was 16.8 percent."

O'Reilly also took the occasion to welcome the newest member of Heinz's board of directors, Donald R. Keough, who was elected today. Keough is president, chief operating officer and a director of The Coca-Cola Company (NYSE: KO). In addition, he is chairman of the board of Coca-Cola Enterprises Inc. (NYSE: CCE), the world's largest bottling system.

STAMFORD, CONN. (SEPT. 11) PR NEWSWIRE - Crompton & Knowles Corporation (NYSE: CNK) today announced that it has completed the acquisition, in cash of the business and certain assets of Atlantic Industries, Inc., a producer of dyes for the textile and paper industries, with continuing sales of approximately $55 million.

"The acquisition broadens our company's existing specialty dyes business in the textile and paper markets, and provides a basis for our continued growth in the business," said Vincent A. Calarco, the company's chairman, president and chief executive officer.

Crompton & Knowles is a leading U.S. producer of dyes, specialty ingredients for food and pharmaceuticals, and extrusion equipment for the plastics industry. For the first half of 1990 Crompton & Knowles earned $15.7 million, or 64 cents a share, on sales of $192.7 million. Late last month the company also announced that it expected 1990 earnings to reach a record $1.20 per share, meeting analyst estimates of a 20 percent increase over prior year results of $1.00 per share. The per share figures reflect a two-for-one stock split effective Aug. 24, 1990.

CAMBRIDGE, MA. (SEPT. 11) PR NEWSWIRE - Jim Vincent, Biogen chairman and chief executive officer, announced today the appointment of Kenneth M. Bate to the position of vice president, finance and chief financial officer of Biogen (NASDAQ: BGEN).

Bate joins Biogen from Peter Kiewit Sons, Inc., an Omaha-based diversified corporation where he had been vice president-treasurer since 1986. From 1978 through 1985, Bate held increasingly responsible financial management positions with The Continental Group, Inc. The Continental Group was acquired by Kiewit in 1984.

Previously, Bate worked for International Paper Company and the Lehigh Portland Cement Company in various planning and financial positions. He received his B.A. in chemistry from Williams College in 1973 and his M.B.A. in finance from the Wharton Graduate School, University of Pennsylvania in 1976.

Jim Vincent commented, "Ken's outstanding track record positions him well to be one of the key members of the Biogen senior management team."

Bate is married with two children. He and his family are currently relocating to the Boston area from Greenwich, Conn.

Biogen is a leading biotechnology company principally engaged in developing genetically engineered pharmaceuticals. As a result of its early research, Biogen now derives revenues from five products being sold by its licensees in various countries. Biogen currently directs its research and development into areas where the company has particular strength -- AIDS, cardiovascular, inflammation and selected cancers.

DENVER (SEPT. 11) PR NEWSWIRE - This morning, Federal District Court Chief Judge Sherman Finesilver in Denver approved the final settlement of a securities class action law suit that had been pending since October 1984, against former officers and directors of Storage Technology Corp. (StorageTek).

The suit charged the officers and directors with having made false and misleading statements concerning StorageTek and its products from June 1982 through October 1984, when StorageTek filed a petition in bankruptcy. The settlement comprises $6.3 million in cash and 377,580 shares of StorageTek stock. At the time of preliminary approval of the settlement, the settlement consideration had an aggregate value of more than $18 million. Nicholas E. Chimicles, of Greenfield & Chimicles in Haverford, Pa., lead counsel for the class, stated that more than 70,000 notices were sent to class members and no objections to the settlement were lodged. Class members, who previously had the opportunity to file proofs of claim, will receive a significant amount of their losses from the settlement fund according to Chimicles. StorageTek, which emerged from bankruptcy in 1987 under new management, is not impacted by the settlement.

LAKE HAMILTON, FLA. (SEPT. 11) PR NEWSWIRE - Orange-co, Inc. (NYSE: OJ) announced today that it had signed an agreement to sell for cash a citrus grove totaling about 560 acres in St. Lucie County, Fla. The price will not be disclosed at this time. A closing is expected in October.

This transaction is incremental to the sales completed in August of two citrus groves encompassing 2,200 acres also located in St. Lucie County. Proceeds from those two transactions totaled $27.6 million. All profits from these three transactions will be fully sheltered by the company's tax loss carryforward position that approximates $60 million. These three transactions represent only about 18 percent of the company's book value and approximately 60 percent of the company's present market capitalization.

This transaction represents a continuation of the restructuring plan announced in April by Ron Divin, Orange-co's chief executive officer, which encompasses the sale of approximately 22 percent of the company's Florida real estate and other assets in order to improve its profitability cash flow, balance sheet and return on assets. The restructuring plan will allow the company to improve the productivity of its remaining 17,600 acres of citrus groves, more effectively pursue its institutional beverage company business plan and ultimately pursue diversification within the agribusiness/food complex.

Robert Peiser, Orange-co's chief financial officer, noted that the company's balance sheet has already been strengthened considerably by the groves that were sold in August. This latest transaction, when complete, will result in additional reduction of debt and further balance sheet improvement.

EDISON, NJ (SEPT. 11) PR NEWSWIRE - Midlantic National Bank today announced the introduction of an innovative, state-of-the-art data and information system that will enable the bank to provide enhanced service to its corporate and governmental trust clients as well as significantly quicker response to customer inquiries. The announcement was made by James B. Wynsma, executive vice president, trust and financial management, Midlantic National Bank.

The stock transfer computer system -- called CIC/DISC -- provides capabilities for Midlantic that do not exist within any system at any New Jersey bank, according to Wynsma.

"Our new CIC/DISC computer is a technologically advanced system that

provides us increased flexibility and efficiency and, thus, a superior level of service for customers of our shareholder and bondholder services " Wynsma said.

The new computer combines into one network data and functions that previously were performed by several systems.

Among some of the new CIC/DISC system's capabilities are: -- Automated and integrated transaction and item control that enables on-line tracking, control and reporting status;

-- Automated monthly reports showing turnaround, volumes and postage used for mail items;

-- Daily audit reports of all transactions; -- On-line certificate validation and balancing of debits and credits; -- Distribution and reinvestment system with on-line availability of a stockholder's entire history;

-- Fully integrated check reconciliation function; -- Complete proxy system; and -- On-line inquiries displaying: account status, record date holdings, certificate detail and status, debits and credits by window ticket, issue control information, certificate inventory status, reinvestment history.

"At Midlantic, we pride ourselves on providing first-rate trust service for corporations and governmental agencies," O'Connell said. "Our new CIC/DISC system reinforces our firm commitment to providing the best service possible to every corporate trust customer."

Midlantic National Bank is the lead bank of Midlantic Corporation (NASDAQ: MIDL), a $24 billion interstate bank holding company headquartered in Edison, N.J.

CINCINNATI (SEPT. 11) PR NEWSWIRE - The Procter & Gamble Company (NYSE: PG) today announced its board of directors has elected Robert L. Wehling, currently vice president-marketing services, to the position of vice president-public affairs, effective Oct. 1, 1990.

Wehling will succeed Gerald S. Gendell who has announced his planned retirement on March 1, 1991, after 36 years of service. Gendell has served as Procter & Gamble's senior public affairs executive since 1981.

Gendell is also president and trustee of The Procter & Gamble Fund, P&G's philanthropic foundation. Wehling will also succeed him in this position.

Wehling, a native of Chicago, graduated from Denison University. He joined the company in 1960 and held positions of increasing responsibility in advertising before being named division manager, general advertising, in 1977. He was elected vice president-marketing services in 1988.

Gendell was born in Stamford, Ct., and is a graduate of New York University. He joined the company in 1954 as an advertising brand assistant, and held a variety of positions of increasing responsibility in advertising before being appointed manager, external affairs division in 1980. He was named to his current position in 1981.

Both Wehling and Gendell are very active in national and local community affairs. Wehling is campaign director for the Advertising Council, currently serves on the executive committee of the Cincinnati Youth Collaborative, and is a trustee and executive committee member of the Cincinnati Community Chest. He has previously served as president of the Greater Cincinnati March of Dimes and the board of trustees of the Joy Resident Education Center.

Gendell is the immediate past chairman of the Washington-based Public Affairs Council, trustee of the Foundation for Public Affairs, trustee of the Joint Council on Economic Education, vice chairman of the board of trustees of The Jewish Hospital, a member of the board of overseers of Hebrew Union College and on the board of governors of the Bankers Club. He served for six years as vice chairman of the Greater Cincinnati Chamber of Commerce, and for four years headed the chamber's Blue Chip City Campaign for Economic Development.

BALTIMORE, (SEPT. 11) PR NEWSWIRE - Following is the R.O.C. Taiwan Fund (NYSE: ROC) monthly update:

Overview -- the Taiwan Market: As the oldest and largest mutual fund specifically set up for international investment in the Taiwan stock market, the R.O.C. Taiwan Fund offers a convenient and efficient way to participate in one of the strongest markets in the world.

The Taiwan Stock Exchange (TSE) index rose from 549.55 at the beginning of 1980 to 9624.18 by the end of 1989. During the same period, listed

companies expanded from 96 to 181 as market capitalization increased from $5 billion to $236 billion.

Market Environment -- August 1990: The Taiwan Stock Exchange index declined 35.3 percent in August, the steepest drop since the 38.9 percent fall in October 1987. After the 2.7 percent rise in the index to the month's high of 5,771 on Aug. 1, the Middle East crisis then sent the market into a sharp 45.7 percent decline to the month's low of 3,136 on Aug. 24. Gains on four of the last five trading sessions raised the index to 3,635 at month-end. The market was at its most volatile in August. Records were set for single- day rise (6.76 percent) and fall (-6.80 percent) as almost all shares on each occasion reached the daily +/-7 percent limit. In addition, the daily change in the index exceeded 5 percent on 14 of 26 trading sessions. Average daily turnover of about $1.4 billion was down for the sixth consecutive month.

The Middle East crisis was the main concern weighing on investors. The government also revised its economic growth forecast downward from 7.2 percent to 5.2 percent for the year. This would be the lowest growth rate since 1982, when the economy expanded 4.1 percent. The lowered forecast, although issued following Iraq's invasion of Kuwait, was influenced by factors that were present before the Middle East crisis. These include the plunging stock market, flat export growth and weak investment. The government is now forecasting that private investment will decline in real terms by 5.5 percent this year.

WHEELING, W.VA. (SEPT. 11) PR NEWSWIRE - Members of the United Steelworkers of America (USW) employed by Wheeling-Pittsburgh Steel Corp. (NYSE: QWHX) today ratified a new, four-year contract that restores past sacrifices and provides a package of new wage and benefit improvements.

The vote, conducted by secret mail ballot, was 4,615 to approve; 329 to reject. The ballots were counted by officers and members of the 13 USW Local Unions at Wheeling-Pittsburgh sites in Ohio, Pennsylvania, and West Virginia.

The contract covers approximately 5,500 workers. The contract runs through March 1, 1994. It becomes effective upon confirmation of a plan of reorganization for the company, which has been operating under protection of the bankruptcy laws since April 15, 1985.

Jim Bowen, director of USW District 23 and secretary of the union's negotiating committee, said the agreement rewards the workers for the

financial sacrifices and other contributions they made over the past eight years to keep Wheeling-Pittsburgh operating.

"Approval of this contract by our members, the union's International Executive Board and Wheeling-Pitt's board of directors clears the way for the company to come out of bankruptcy," Bowen said. "Now it's up to the bankruptcy court to end this five-and-a-half year marathon and approve the reorganization so our members can concentrate on what they do best -- make steel -- without any clouds hanging over their heads.

"The workers nearly single-handedly lifted this company from the brink of liquidation to prosperity, and they deserve every benefit this contract provides them.

"We're looking forward to continued growth and prosperity for our members, the company and our communities. We've demonstrated our commitment to make this a profitable arrangment for all concerned, and we will continue to do so."

#90254p3468 09/11/1990 ~PR Newswire

NEW YORK (SEPT. 11) PR NEWSWIRE - On Sept. 15, Scandinavian Airlines System (SAS) and Continental Cargo will launch the eastbound Priority Cargo express service from more than 90 U.S. cities to 60 Scandinavian and European destinations.

Boasting a 96 percent on-time delivery rate on its westbound service, Priority Cargo is the most dependable express service available offering next day or second-day airport delivery from the United States to Scandinavia and Europe. The only express service that offers a full money-back guarantee, Priority Cargo promises on-time delivery or a complete refund. SAS and Continental also have developed an exclusive Quick Transfer Service in Newark, N.J., and Copenhagen, Denmark, that provides complete plane-to-plane cargo transfers in less than an hour.

SAS and Continental Cargo initially joined forces in 1989 with the introduction of the westbound Priority Cargo product to the U.S. interior. The westbound product has successfully express-shipped thousands of kilos of cargo from Scandinavia and Europe to the United States.

"We are delighted to announce the expansion of this product," said Per-Johan Orrby, vice president and general manager of SAS Cargo, in a news conference earlier today. "Our westbound product continues to be the best cargo product from Scandinavia to the U.S.; the eastbound product

will match it. We have undergone four months of extensive testing to ensure that the product we offer customers meets the toughest operational standards in the industry."

Orrby and Walt Atkinson, vice president of Continental Airlines Cargo Division, concurred that neither carrier would be satisfied with less than 100 percent compliance to the quality standards.

"Both SAS and Continental have strong quality standards procedures in place to ensure that the eastbound Priority Cargo product, like the westbound, is the best express service offered today," Orrby said.

In the joint presentation, Atkinson pointed out the competitive advantages of Priority Cargo.

GREENVILLE, S.C. (SEPT. 11) PR NEWSWIRE - Carolina First Corporation (NASDAQ: CAFC) announced today that its Board of Directors approved a five percent stock dividend. This dividend, the second that Carolina First has done will be paid on October 1, 1990 to stockholders of record of September 21, 1990.

Mack I. Whittle, Jr., President of Carolina First, stated, "We are pleased to give our stockholders this dividend. It is due to the loyalty and support of the stockholders of both Carolina First and First Federal that the combined company has the ability to offer this return on their investment."

President Whittle went on to say, "Not only does a stock dividend provide a return to the stockholder on their investment, but the company keeps the capital. We feel that it is very important to retain as much capital as possible.

The retained capital can be used for growth and to make further investments in our communities."

Carolina First Corporation is the parent company of Carolina First Bank, a state-chartered bank, headquartered in Greenville, and of First Federal Savings and Loan of Georgetown. Both are full-service, community-oriented financial institutions offering a broad range of commercial and consumer banking services emphasizing personalized attention to customers. The Company operates, through its subsidiaries, four offices in Greenville County and five in Georgetown County. The

Company was organized in 1986 following an October initial public offering of stock. Through this offering, $15 million in Capital was raised, earning Carolina First the distinction of being the largest bank holding company created in South Carolina.

DALLAS (SEPT. 11) PR NEWSWIRE - Gateway Communications (NASDAQ: GWAY) announced that it will be demonstrating the new data compression and high speed file transfer software modules, which were recently added to its popular G/Remote Bridge family of IPX routers, here at Networld Dallas '90 (Booth 1646).

With the new data compression and file transfer features, G/Remote Bridge provides local area network users with substantially increased throughput performance when accessing remote network information.

The new Data Compression Module (DCM) improves user response time in real-time interactive application-dependent operations by condensing the volume of information in data packets before transmission, and decompressing the data after the data packets are received.

The new File Transfer Module (FTM) streamlines batch file transfer for users requiring local processing of files stored on a remote LAN. FTM provides high speed LAN-to-LAN file movement, enabling users to process file-intensive tasks locally with better responsiveness. Once the file has been transferred, the user attends to his tasks locally.

Performance Breakthrough Bert Ott, vice president of Sales, explained that the new DCM and FTM enhancements represent a major breakthrough for IPX router users. "Up until now, the main performance bottleneck for remote LAN communications was due to the overhead in the NetWare IPX communications protocol," Ott said.

Gateway Communications Inc. designs, manufactures and markets a full range of networking and communications products for IBM and compatible personal computers. Gateway products are sold in more than 70 countries worldwide. Corporate and international headquarters are located at 2941 Alton Ave., Irvine, CA 92714; Telephone, 714-553-1555; fax 714-553-1616.

DALLAS (SEPT. 11) PR NEWSWIRE - Gateway Communications (NASDAQ: GWAY) announced that it will be demonstrating the new data compression and high speed file transfer software modules, which were recently added to its popular G/Remote Bridge family of IPX routers, here at Networld Dallas '90 (Booth 1646).

With the new data compression and file transfer features, G/Remote Bridge provides local area network users with substantially increased throughput performance when accessing remote network information.

The new Data Compression Module (DCM) improves user response time in real-time interactive application-dependent operations by condensing the volume of information in data packets before transmission, and decompressing the data after the data packets are received.

The new File Transfer Module (FTM) streamlines batch file transfer for users requiring local processing of files stored on a remote LAN. FTM provides high speed LAN-to-LAN file movement, enabling users to process file-intensive tasks locally with better responsiveness. Once the file has been transferred, the user attends to his tasks locally.

Performance Breakthrough

Bert Ott, vice president of Sales, explained that the new DCM and FTM enhancements represent a major breakthrough for IPX router users. "Up until now, the main performance bottleneck for remote LAN communications was due to the overhead in the NetWare IPX communications protocol," Ott said.

"DCM and FTM overcome the IPX bottleneck to maximize the speed of movement of data from LAN to LAN across public or private communications lines," he said.

Both data compression and file transfer modules are built-in to the standard G/Remote Bridge family of products and are now shipping. Upgrades for existing G/Remote Bridge users are available for U.S. $300.00.

G/Remote Bridge functions as an IPX router to provide connections between remote NetWare LANs, regardless of LAN topology or vendor. LAN-to-LAN connections are supported via dial, leased or fractional T1 lines, or through public or private data networks at speeds up to 56/64 kbps.

Each bridge server contains modular software providing X.25 protocol, routing, DCM and FTM software modules, and is supported by a WNIM communications coprocessor. G/Remote Bridge is available with either an RS232-C or V.35 interface to connect users to communications networks. The capacity for 128 virtual circuits per bridge provides extended

traffic-carrying capabilities.

Available Now
The G/Remote Bridge family consists of G/Remote Bridge, priced at U.S. $1,595.00, and G/X25 Gateway & Bridge, priced at U.S. $2,495.00, both of which operate at speeds up to 19.2 kbps. For performance at 56/64 kbps, the family includes G/Remote Bridge 64, priced at U.S. $2,495.00, and G/X25 Gateway & Bridge 64, priced at U.S. $3,445.00.

Gateway Communications Inc. designs, manufactures and markets a full range of networking and communications products for IBM and compatible personal computers. #90254p3480 09/11/1990 ~PR Newswire
LANSDALE, PA (SEPT. 11) PR NEWSWIRE - AEL Industries Inc. (NASDAQ-NMS: AELNA) today reported strong earnings growth on sharply higher revenues in its second quarter ended Aug. 31, 1990.

Net income for the quarter was $836,000 or $.22 per share on revenues of $39,022,000 compared to revenues of $29,969,000 and a loss of $4,966,000 or $1.28 per share in the second quarter of last year.

For the six months, net income rose to $1,742,000 or $.45 per share on revenues of $72,790,000 compared to a loss of $4,862,000 or $1.25 per share on revenues of $60,834,000 for the comparative period last year. Last year's second quarter and six-month earnings were impacted by a special contract provision that was established in the amount of $8 million to cover an investment commitment by the company on a major development program.

George King, chief financial officer, said, "Profits and revenues showed improved performances in the second quarter -- a period generally impacted by employee vacations -- that should serve as a harbinger of continued solid performances in the second half of the year." King indicated that efforts to improve productivity and increase operating efficiencies remain as the cornerstone of management's primary objective to achieve profitable growth that enhances shareholder value. The company's backlog at the end of the second quarter was $188 million compared to $148 million a year ago.

AEL is a leading supplier of electronic defense systems and subsystems. The company designs and manufactures sophisticated countermeasures,

simulation and radar warning receiving systems, engages in the installation and integration of electronic and avionics equipment into military aircraft and provides state-of-the-art antenna systems, microwave integrated components and hybrid microelectronic circuits.

The Class A common stock of AEL Industries Inc. is traded in the over-the-counter market on the NASDAQ National Market System.

CHICAGO (SEPT. 11) PR NEWSWIRE - Warehouse Club, Inc. (NASDAQ: WCLB) announced today the closing of two unprofitable units -- one located in North Versailles, Pa. (a suburb of Pittsburgh), and one located on Indianola Avenue in Columbus, Ohio. The closings were effective as of the close of business on Monday, Sept. 10.

Inventory at the closed units will be transferred to other stores in the company's upper Midwest marketplace. The company anticipates that closing these unprofitable locations will improve its cash flow and enable it to increase its merchandise inventory at its remaining 10 facilities. Memberships at each of the closed locations will be transferred to other facilities in the Columbus and Pittsburgh markets.

The company currently estimates that it will record a closing expense for these two locations of approximately $1.8 million in the financial statements for the fiscal year ending Sept. 30, 1990. The closing expenses include severance pay for terminated employees, the cost of removing merchandise and store fixtures, the write-off of unsalvageable equipment and leasehold improvements and one year's occupancy costs. The company leases the North Versailles location under an agreement expiring in September 1999 and it owns the Columbus location. The company intends to sublet the North Versailles facility and to sell the Columbus facility.

The sale/leaseback refinancing transaction, previously announced by the company on Aug. 15, 1990, pursuant to which the company would sell and leaseback six facilities, has not yet been closed. The purchaser has informed the company that it is having difficulty in securing the required financing because of recent changes in the real estate financing and capital markets. The company cannot at present determine when or whether the transaction will close. The company had previously expected that the closing would take place in early September.

After closing the North Versailles and Indianola Avenue facilities, the company will continue to operate a chain of 10 wholesale cash-and- carry, members-only warehouse stores, selling high-quality merchandise at wholesale or near-wholesale prices in the Chicago, Detroit, Pittsburgh, Columbus, Dayton, and Akron, Ohio, metropolitan areas. The company's customers are comprised of businesses that purchase items for commercial use or resale and selected groups of individual retail customers. The company's objective is to achieve operating efficiencies that permit the sale of products at prices significantly below those members would have to pay to traditional wholesale distributors, discount retailers and supermarkets.

#90254p3498 09/11/1990 ~PR Newswire

TIPP CITY, OHIO (SEPT. 11) PR NEWSWIRE - The Radio Association Defending Airwave Rights, Inc. (RADAR), a national motorists' rights organization, together with the California State Department of Insurance and the Independent Insurance Brokers Association, has defeated the Government

Employees Insurance Company (GEICO) in its bid to deny insurance coverage to radar detectors owners.

On Sept. 10, the insurance commissioner for the state of California ordered GEICO to:

"immediately...cease and desist" from its practice of discriminating against radar detectors owners, concluding that GEICO'S practice denying insurance to detector owners violates California's insurance law.

"This decision comes at a vital time," said Janice Lee, president of RADAR. "Winning in California is significant because the ruling comes on the heels of a bill that seeks a nationwide ban on radar detectors in commercial vehicles. In both cases, claims erroneously link radar detector use to lack of highway safety."

The California Insurance Commissioner concluded, "No credible evidence was presented that radar detector users as a class are high speed drivers or that as a class they tend to drive in a manner which endangers the safety of themselves or others. Indeed, the evidence did not show that automobile drivers who used radar detectors, as a group, travel faster than the general population of motorists."

"The California decision should help us in our efforts to challenge both state and federal legislative initiatives to not only deny insurance coverage to radar detector owners, but to once and for all attempt to kill initiatives aimed at the complete banning of radar detectors," says Lee.

RADAR is a nonprofit organization founded in 1984 as a motorists' rights association which specifically represents and promotes common interests of the radar detection industry for manufacturers, dealers and distributors of radar detectors. The organization also represents 11,000 individual motorists with an interest in laws governing the use of automotive radar, helps to maintain the legality of the operation and sale of radar detectors, seeks to alert the motoring public to potential abuses of police radar and fosters the proper use of radar for law enforcement purposes.

WASHINGTON (SEPT. 11) PR NEWSWIRE - The Federal Agricultural Mortgage Corporation (Farmer Mac) announced today that Manufacturers Hanover Securities Corporation (MHSC) (NYSE: MHC) has been certified as the first "pooler" (certified facility) in the Farmer Mac program.

MHSC, a wholly owned subsidiary of Manufacturers Hanover Corporation, submitted its application to become certified as a pooler on Aug. 9, 1990, and cooperated with the Farmer Mac review team throughout the evaluation process by providing the data necessary to satisfy all of the requirements of certification.

"Certification of MHSC to be the first Farmer Mac pooler is a significant development in the implementation of the Farmer Mac program that clears the path for the pooling of qualified Farmer Mac loans to actively begin," said Henry D. Edelman, president of Farmer Mac. "MHSC is a highly respected institution with considerable expertise in the securitization of loans. In addition, it has assembled a team that includes The First Boston Corporation, U.S. Agricredit and Manufacturers Hanover Servicing Inc. to facilitate the pooling of loans and issuance of securities under the Farmer Mac program," he noted.

In the Farmer Mac program, poolers will perform the central function of purchasing qualified agriculture real estate or rural housing loans from originators, or originating loans themselves; assembling the loans into pools: and issuing securities backed by the pools of loans. Under the Farmer Mac statute, potential poolers must apply and be certified by Farmer Mac in order to be eligible to perform these functions.

Farmer Mac was created by the Agricultural Credit Act of 1987 to provide greater liquidity and lending capacity to agricultural lenders and to assure a stable supply of credit at competitive interest rates to farmers, ranchers and rural home buyers. It will accomplish this by guaranteeing securities issued by certified poolers backed by qualified agricultural real estate and rural housing loans. The Farmer Mac secondary market will improve agricultural lenders' access to the financial markets for the benefit of agricultural real estate and rural home mortgage borrowers of this nation.

WASHINGTON (SEPT. 11) PR NEWSWIRE - United Press International, signaling UPI's strategic emphasis on photographic, video and graphics services for news media and corporate clients, has named Leonard Marotta general manager for UPI News Photos & Graphics.

William F. Hackett, UPI senior vice president-news and information products, said, "UPI intends to expand the breadth and depth of our news photos and graphics services, through our own initiatives and in cooperation with such allies as our sister company, Financial News Network.

"The appointment of Len Marotta to this post reflects the increasing strategic importance of this unit," he added.

Marotta, 39, most recently served as marketing manager for UPI Information Services. He led UPI-Financial News Network (FNN) audiotext research projects, contract negotiations with information providers and several news photo development efforts.

Robert W. Carroll, previously general manager, becomes UPI news photos editor.

Noting recent advances, Hackett explained: "UPI in May selected Crosfield's NewsLine electronic picture desk to offer our clients. Pricing delivery and installations preparations are now complete for our Crosfield program. In October, UPI's Crosfield-equipped news photo command center will be installed here in Washington, and the first field installations at client sites will begin in October.

"Meanwhile, we have now also converted more than 90 percent of our photos customers to satellite transmission from telephone land lines. Also, UPI is evaluating two new photo printers and will make our choice by year's end. Either printer will handle our conversion to digital from analog transmission. We expect most UPI photo customers to be converted for digital transmissions by April 1991," Hackett said.

Before joining UPI, Marotta served as product manager for network applications at Telenet Communications Corporation, Reston, Va.; manager of product marketing for Dialcom Inc., Rockville, Md.; training and support specialist for IRIS System Development Corporation, Arlington, Va.; and as quality assurance specialist at Tymshare, Inc., San Francisco. A native New Yorker, Marotta graduated from State University of New York, in 1973.

UPI, founded in 1907, is owned by Infotechnology (NASDAQ-NMS: ITCH), the New York City-based information and communications company that also owns 47 percent of Financial News Network Inc. (NASDAQ-NMS: FNNI).

WASHINGTON (SEPT. 11) PR NEWSWIRE - Choice Hotels International announced that its parent company Manor Care Inc. (NYSE: MNR) has closed on the purchase of Econo Lodges of America Inc.

The transaction, as announced on Aug. 14, is valued at approximately $60

million.

The Econo Lodge system includes 615 hotels in the United States and Canada. Also included in the transaction are 85 Friendship Inns.

Choice is expanding at a rapid pace. In July 1990, Choice acquired the worldwide rights to Rodeway Inns. The two acquisitions give the company a 25 percent share of the economy segment of the market alone. Choice Hotels International also franchises Quality Inns, Comfort Inns, Sleep Inns, and Clarion Hotels and Resorts worldwide. The company plans to franchise 10,000 hotels by the year 2000.

Choice management also announced plans to market its seven lodging chains as two groups. The company's original brands Comfort, Quality, Clarion and Sleep Inns will comprise one group; Econo Lodge, Rodeway and Friendship Inns will be marketed together.

"As the recognized leader in hotel franchising, the demand for our global marketing and reservations service is stronger than ever," commented company President Gerald W. Petitt.

Choice Hotels International (formerly Quality Inns International) is the world's largest franchise hotel company with more than 2,400 hotels and 223,625 guest rooms in 19 countries.

MISSION VIEJO, CALIF. (SEPT. 11) PR NEWSWIRE - Hunter Realty, Inc., a Cleveland-based residential real estate company, has acquired nine Coldwell Banker company-owned offices in Cleveland, and will operate them as members of Coldwell Banker Residential Affiliates, Inc., according to Chandler B. Barton, chairman and chief executive officer of the Coldwell Banker Residential Group. Coldwell Banker Hunter Realty company is now the third largest multi-office firm in the greater Cleveland area.

Hunter Realty Inc. will convert 10 of its present offices to the Coldwell Banker system. With the addition of the nine Coldwell Banker offices, there will now be a total of 19 offices in the greater Cleveland area known as Coldwell Banker Hunter Realty.

Hunter Realty, Inc. was established in 1981 and serves the following areas: Lake, Cuyahoga, Summit, Lorain, Medina and Geauga counties.

Coldwell Banker Chief Executive Officer Barton says, "It's been effective in a number of markets for Coldwell Banker to affiliate successful, reputable brokers such as Hunter Realty Inc., who not only have demonstrated an exceptional understanding of the local market, but also have gained a top market share."

Coldwell Banker Hunter Realty company spokesperson Sue Spalsbury adds, "With this acquisition and with the strength and credibility of the Coldwell Banker name, we expect to become one of the dominant real estate organizations in the greater Cleveland area."

The 19 offices of Coldwell Banker Hunter Realty will have approximately 677 sales associates and provide brokerage, relocation and new homes marketing services.

With a total of 70 offices in Ohio, Coldwell Banker has nearly 1,900 residential real estate offices and more than 40,000 sales associates in North America, and is a member of the Sears Financial Network.

HUNTINGTON BEACH, CALIF. (SEPT. 11) PR NEWSWIRE - Thomas M. McGivern has been appointed vice president and general manager, business management for McDonnell Douglas Space Systems Co.

A 31-year veteran of McDonnell Douglas (NYSE: MD), McGivern began his career with Douglas Aircraft Co. in 1954 as a statistician. After a few years' hiatus he returned to the company in 1965 to manage contracts for Douglas Aircraft's C5 division.

He soon after transferred to McDonnell Douglas Astronautics Co. (now McDonnell Douglas Space Systems) to manage contracts for the Manned Orbiting Laboratory project and other space programs.

In 1971 he took on the assignment of director of business management for all Huntington Beach missile programs.

Most recently he served as director of contracts for McDonnell Douglas Space Systems.

McGivern earned a bachelor of arts degree in English from Loyola University in Los Angeles.

NEW YORK (SEPT. 11) PR NEWSWIRE - A new issue of $250 million Texas Utilities Electric Company First Mortgage and Collateral Trust Bonds, 10-5/8 percent Series due Sept. 1, 2020, was offered today at a price of 100 percent, plus accrued interest from Sept. 1, to yield 10.625 percent. The bonds are being offered pursuant to a shelf registration statement filed by the company on July 12, 1990.

Salomon Brothers Inc is lead manager of the underwriting group, with Kidder, Peabody & Co. Incorporated, Morgan Stanley & Co. Incorporated and PaineWebber Incorporated as co-managers.

Net proceeds of the offering, together with funds from operations, will be used to meet expenditures for the company's construction program and for other corporate purposes, which may include the acquisition of certain of its fixed income securities and the repayment of short-term debt.

The bonds are non-redeemable prior to Sept. 1, 1995. The company is the principal operating subsidiary of Texas Utilities Company (NYSE: TXU), and provides electric service in the north central, eastern and western parts of Texas. Executive offices are in Dallas.

LOS GATOS, CALIF. (SEPT. 11) PR NEWSWIRE - Hytek Microsystems Inc. (NASDAQ: HTEK) announced today that its board of directors, at a meeting held on Sept. 10, 1990, declared a distribution to shareholders of record as of Sept. 21, 1990, of approximately $1.8 million, or 65 cents per share along with rights to certain future payments. Such cash amount represents the balance of the cash proceeds of the sales of Hytek's assets located in its Los Gatos facility, after expenses and certain funding being provided to Hytek's ongoing Carson City, Nev. operation.

As a part of this distribution, the company is distributing the rights to certain future royalty payments under both the Interpoint asset sale agreement consummated in July 1990 and the asset sale agreement consummated in December 1989 of certain assets of Hytek's wholly owned subsidiary, Topaz Semiconductor Inc. These rights to future cash will not be transferable. The distribution will be handled by Bank of America pursuant to a Distribution Trust Agreement.

Hytek intends to consolidate its remaining operations at its Carson City, Nev., military certified facility by the end of September 1990. Founded in 1974, Hytek specializes in custom hybrid microelectronics circuits that are used in computer, automotive, communications, medical and military applications.

BELLEVUE, WASH. (SEPT. 11) PR NEWSWIRE - Patricia (Hofeld) Shaheen has been promoted to region general manager -- Mountain Region for U S WEST Paging effective Aug. 16, the company said today. Shaheen, based in Denver, will oversee operations in Denver, Colorado Springs and Salt Lake City.

Shaheen joined U S WEST Paging in 1987. After working in the Phoenix office, Shaheen became branch manager -- Tucson. She served as district manager -- Colorado Springs since April 1989.

Prior to joining U S WEST Paging, Shaheen worked for Mobilecom and Intrastate Radio Telephone, two Los Angeles-based paging operations. Shaheen has more than 19 years experience in the paging business.

"Her history of successful operating management and effective team building has prepared her well for her new responsibilities," said C. David Hayden, U S WEST Paging vice-president/chief operating officer. "We are confident that Shaheen's leadership will result in great successes for the Mountain Region."

U S WEST Paging, which serves more than 147,600 pagers in 58 markets, is a division of U S WEST NewVector Group Inc. (NASDAQ: USWNA). Headquartered in Bellevue, Wash., NewVector has operations in 16 midwestern, western and southwestern states. NewVector is a majority-owned subsidiary of U S WEST Inc. (NYSE: USW), a diversified corporation based in Englewood, Colo.

ENGLEWOOD, CO (SEPT. 11) PR NEWSWIRE - Jones Spacelink Ltd. (NASDAQ: SPLKA), today announced results for the fiscal year ended May 31, 1990. The company, excluding Jones Intercable Inc., reported a 74 percent increase in revenues, from approximately $14.3 million in 1989 to approximately $24.9 million in 1990.

Jones Spacelink owns and operates cable television systems and owns a controlling interest in Jones Intercable Inc. (NASDAQ: JOIN), one of the nation's 10 largest cable television operators, and holds an 80 percent ownership interest in The Jones Group Ltd., a cable television brokerage company. The company also owns 100 percent of Jones Futurex(TM) Inc., a manufacturer of personal computer security hardware and software, as well as an 81 percent interest in Galactic Radio(TM) Inc.

Operating income before depreciation and amortization increased 121 percent in fiscal 1990, from approximately $6 million reported in fiscal 1989 to approximately $13.3 million reported in fiscal 1990.

While revenues and operating income showed strong growth, increases in expenses, principally depreciation, amortization and interest, relating to the acquisition by Spacelink in September 1989 of the cable television system serving Kenosha, Wis. reduced the 1990 net income (excluding Jones Intercable) to $753,000 or 1 cent per share, a 39 percent decrease from the 1989 net income of $1.2 million.

Subscriber service fee revenues for Spacelink-owned systems totalled approximately $12.3 million for 1990, an increase of 108 percent over the amount reported for 1989. The increase was primarily the result of the 1989 acquisition by Spacelink of the Kenosha system. At May 31, 1990, this system served approximately 19,700 basic subscribers.

Fees for the management of cable television systems owned by Spacelink-sponsored limited partnerships totalled approximately $971,000 for fiscal 1990, compared with $442,000 for fiscal 1989, an increase of 120 percent. This increase is principally the result of the formation and investment in October 1989 of Jones Growth Partners L.P., a limited partnership for which a wholly-owned subsidiary of Spacelink serves as general partner.

In fiscal 1990, operating, general and administrative expenses of Spacelink totalled approximately $11.6 million, an increase of 40 percent over approximately $8.3 million from the prior year. The net increase resulted primarily from an increase in operating expenses associated with

the Kenosha, Wis. and Hilo, Hawaii cable television systems, which were acquired in September 1989 and October 1988, respectively.

Depreciation and amortization totalled approximately $5.7 million for the year ended May 31, 1990, compared with approximately $2.6 million reported in fiscal 1989, an increase of 119 precent. Interest expense for the company was approximately $5.6 million in fiscal 1990, compared with approximately $2.9 million in fiscal 1989. These increases are due largely to the acquisition of the Kenosha system.

BALTIMORE (SEPT. 11) PR NEWSWIRE - The board of directors of MNC Financial Inc. (NYSE: MNC) at its meeting today declared a regular quarterly cash dividend of $.29 per share on the corporation's common stock.

The common stock dividend for the third 1990 quarter is payable Sept. 28 to stockholders of record Sept. 21.

MNC further announced that it has approved the stock purchase agreement with Alfred Lerner, an MNC director, related to its previously announced plan to raise about $180 million of new capital through a private placement of preferred stock. The agreement provides that up to 50 percent of the private placement may be subscribed to by other directors of MNC, who are currently considering the potential investment.

Additionally, MNC said that, commencing with the fourth quarter of 1990, its board has approved moving future consideration of the company's dividend declaration to the month following quarter-end.

#90254p3564 09/11/1990 ~PR Newswire

EATONTOWN, N.J. (SEPT. 11) PR NEWSWIRE - Syntrex Incorporated (NASDAQ: STRX) announced today that it had completed a major financial restructuring program and signed a product and marketing agreement with Olivetti Office USA. Dan Sinnott, chairman and CEO of Syntrex, said, "this major financial restructuring program coupled with a strategic partnership program with Olivetti represents an important step in building

Syntrex as a premier Network System's Integrator."

Sinnott explained the financial restructuring program as having two equally significant components. The first component is the infusion of $3 million of cash into the company. The second component is the restructuring of $4 million of short-term debt into long-term debt. This $4 million debt is payable to the Harris Corporation (NYSE: HRS) as a result of the company's January 1990 acquisition of the former Lanier Business Systems Division from the Harris Corporation. Sinnott said, "the $3 million infusion of cash together with the long-term extension of the $4 million of Harris debt improves the company's working capital position and provides cash to support the operations of the company."

Sinnott went on to explain the sources of the $3 million infusion of cash. Syntrex has obtained $2 million of subordinated debt financing from Olivetti Holding B.V., an affiliate of Ing. C. Olivetti & C., S.p.a. In addition, the Harris Corporation has paid Syntrex $1 million in connection with the completion of certain matters related to the previously mentioned acquisition. The company also announced that it has reached an agreement with a New Jersey bank that modifies certain terms and covenants of the loan agreements governing $9.2 million of indebtedness owed by the company to the bank. After modification of these loan covenants and giving effect to the transactions with Olivetti and Harris, the company is in compliance with all loan covenants.

Also, Syntrex has signed a $20 million OEM agreement with Olivetti covering the purchase of Olivetti manufactured personal computers, file servers, laser printers, typewriters, and other items over the next two years. Olivetti have signed an agreement to transfer to Syntrex, the Olivetti Advanced Office Automation dealer program in the United States. These dealers specialize in providing PC-based network systems to the legal community.

Leon Harris, Olivetti Office USA's president, said, "this new strategic partnership with Syntrex links Olivetti to one of the industry's premier network integrators. Syntrex's network integration expertise, its system engineering, service, and sales presence in 40 cities nationally, and the addition of Olivetti products to the Syntrex product line, creates a total network offering that is unmatched in the client/server environment." For Syntrex's multi-national customers, Olivetti will provide local service and support in over 17 countries worldwide for Olivetti products.

The $2 million of indebtedness owed to Olivetti plus accrued interest, matures in August 1993. Prior to the restructuring of the Harris debt, the company was required to pay Harris $4 million by January 1991. As restructured, the company is required to pay $2 million of the indebtedness owed to Harris in August 1993 on substantially the same terms as the terms of the company's indebtedness to Olivetti. In addition, the

company signed a new promissory note for the remaining $2 million of indebtness to Harris with payments commencing in August 1991 and ending in August 1992.

In connection with the Olivetti financing and the restructuring of the Harris debt, Olivetti and Harris have both been issued five year warrants to purchase 1,333,333 shares of Syntrex common stock at a price of $1.50 per share. An affiliate of Olivetti Holding, B.V. currently owns 348,140 shares of common stock or approximately four percent of Syntrex's outstanding common stock. In addition, Harris currently owns 150,000 shares of common stock or approximately two percent of Syntrex's outstanding common stock.

The company completed the first quarter of its new 1991 fiscal year on July 29, 1990, and expects to report results for that quarter on or before Sept. 18, 1990.

Syntrex is a national Network System's Integrator. The company designs, implements and supports PC-based networks using Novell NetWare, Banyan Vines, and 3Com 3(plus)Open network operating systems. With system engineering, service, and sales professionals in 40 cities, the company ranked as the fifth largest Network System's Integrator in 1989, according to LAN magazine.

NEW YORK (SEPT. 11) PR NEWSWIRE - Mizlou Communications Company, Inc. (NASDAQ: MZLUL, MZLU), today announced that it has sold $1.175 million of its Series B 12 percent senior secured notes to provide additional working capital. The notes are due on Nov. 30, 1990 or earlier under certain circumstances. A portion of the principal of the notes is convertible into 1.175 million shares of Mizlou common stock.

In connection with the consummation of this financing and certain related transactions, certain executive officers of the company have returned 2.1 million shares of common stock of the company to its treasury and the number of shares of common stock issuable on conversion of the company's outstanding 12 percent senior secured convertible notes issued in June 1990, has increased by 2.1 million shares.

The company's Mizlou Sports News Network (SNN), is the nation's first and only 24-hour, seven-day-a-week sports cable news network. On the air since Feb. 1, 1990, Mizlou has signed affiliation agreements in 15 of the top 20 major television markets, and has signed advertising agreements with 35 major sponsors.

SAN FRANCISCO (SEPT. 11) PR NEWSWIRE - S.A. Megeath, III, former Chairman of the Board of PLM International Inc. (AMEX:PLM), who resigned from the Board on Sept. 3, 1990, said today that he was not told about a secret plan for a management buy-out of the company last March.

Megeath said the failure to advise him of the buy-out plan was only one example of how he was deprived of information during his tenure as a member of the Board of PLMI, making it impossible for him to continue to fulfill his duties as a director in behalf of the company's shareholders.

He said it was also an example of what he views as significant deviation by the company from sound and responsible management and fiduciary standards.

Megeath issued his statement in response to a Securities and Exchange Commission (SEC) filing made by PLMI yesterday, which stated: "...he (Megeath) has had full and complete access to the same information as any other director."

As evidence to the contrary, Megeath cited a memorandum, dated March 10, 1990 and included by PLM in its SEC filing. The memorandum was written by the Chief Financial Officer of Transcisco Industries Inc., to Walter E. Hoadley, a member of the Boards of Directors of both PLM International and Transcisco, and Robert Muh, another Transcisco director. Transcisco Industries (AMEX:TNIA, TNIB) owns 36 percent of the common stock of PLMI.

The full text of the memorandum is as follows: "In case it's relevant to your discussion on Wednesday, GE Capital (Corporation) remains interested in doing a management buy-out of PLMI. GECC has had several conversations with Tidball, and is presently trying to schedule another. I don't believe Megeath is aware of these conversations.

"At first blush, more debt doesn't seem to be the solution for PLMI; however, GECC and I both believe it works pretty well because the high payout common dividend would go away as would the ESOP (Employee Stock Ownership Plan) dividends."

Robert N. Tidball has been President and Chief Executive of PLMI since March 9, 1989. In Megeath's letter of resignation as a Director, he singled out Tidball as having been instrumental in misleading and

misinforming him generally and, in particular, with respect to the secret buy-out plan.

Megeath also expressed particular concern in his resignation letter about what he views as a conflict of interest arising out of the service of Hoadley on the Boards of both PLMI and Transcisco.

Megeath is managing general partner of LEF&C Partners of Carson City, Nev. a corporate consulting, risk capital and investments firm.

#90254p3581 09/11/1990 ~PR Newswire

MELBOURNE, FL (SEPT. 11) PR NEWSWIRE - Harris Corporation (NYSE: HRS) has announced that it initiated legal action on July 30, 1990 in New Jersey's Federal District Court seeking a declaration by the Court that Harris does not infringe any valid claims of five (5) power MOSFET patents held by International Rectifier Corp. (NYSE: IRF).

Subsequent to the declaratory judgement action filed by Harris, IR last week filed a separate lawsuit in the Federal Court for the Central District of California alleging that Harris infringes two (2) of these patents.

Harris' position is that it does not infringe any valid claims of IR's patents. The Harris products at issue are a small part of a large portfolio of power semiconductor devices acquired through the company's purchase of General Electric Solid State (GESS) in November of 1988. As a result of the acquisition, Harris currently holds about 2,000 patents

for products developed by GESS, including those previously acquired by GE from RCA. Many of these patents are for power technologies and processes pioneered by GE and RCA and include IGBT, SCR, GTO and power MOS products.

Harris said that it will vigorously pursue through the courts any challenge to its position in the power transistor market. Harris also said that even though litigation is underway, IR has agreed to continue discussions that could lead to a mutually beneficial resolution.

Harris Semiconductor is one of four sectors comprising the $3 billion Harris Corporation, headquartered in Melbourne, Fla. The Sector specializes in analog, mixed-signal, and power control semiconductors for signal processing and control applications in all major market segments. In power devices, Harris offers the industry's broadest line of standard and proprietary power MOSFETs and surge suppression devices, as well as an extensive range of optoelectronic products, bipolar power transistors, rectifiers, and high-voltage/high-current IGBT devices.

PHILADELPHIA (SEPT. 11) PR NEWSWIRE - CIGNA Corp. (NYSE: CI) announced

today that its property-casualty operations will add more than 300 new jobs to the regional marketing center it will open in Philadelphia next year and will implement a comprehensive job-skills training program for its newly hired employees.

The company previously had announced the creation of 600 new jobs in the city.

"The center will now handle marketing and underwriting in 13 northeastern and middle-Atlantic states," said Property and Casualty (P&C) Division President Caleb L. Fowler. The company will now have four marketing centers, rather than five, as was previously announced.

"We looked at several options for a marketing center in the Northeast, but found none that suited us better than Philadelphia," Fowler said. "It made sense economically and in terms of our staffing needs. I am pleased that we can contribute even more aggressively to Philadelphia's business growth."

CIGNA cited city government's support for programs designed to encourage business growth -- the possible creation of a Special Services District, for example -- along with the continuation of a reasonable tax environment for corporations and their employees, as important factors in the decision. Fowler said "although there are obvious concerns regarding the impact of the city's current fiscal problems, finding reasonable solutions is essential if the city is to remain competitive in attracting and retaining employees."

The CIGNA training program is an important element in the company's expansion, according to Richard A. Morrissey, senior vice president-P&C human resources. "We'll need more insurance professionals than the local market can provide. For that reason, we've designed training programs for people with little or no insurance experience, but who meet our other qualifications," Morrissey said.

Four- and six-month training programs will be offered for entry- level underwriting assistants and financial representatives. Eight- month job-training sessions will be held for underwriters.

According to Fowler, by increasing the staff locally, the company will be able to provide more advancement opportunities for a greater number of employees, provide initial job-training and on-going support more efficiently and benefit from improved communication capabilities.

Philadelphia-based CIGNA company employees will total about 5,000 with the addition of the new jobs.

#90254p3606 09/11/1990 ~PR Newswire
FT. LAUDERDALE, FLA. (SEPT. 11) PR NEWSWIRE - QSR Inc. (NASDAQ: QSRI), today reported improved operating results for its fiscal fourth quarter and year ended May 27, 1990.

For the fiscal year ended May 27, 1990, QSR reported a loss of $754,000, or $0.09 per share, compared to a loss of $1,982,000, or $0.60 per share for the previous fiscal year. Total revenues were $14,925,000 compared to $16,293,000 reported for fiscal 1989.

For the quarter ended May 27, 1990, the company reported a loss of $329,000, or $0.03 per share, compared to a loss of $527,000, or $0.16 per share for the year earlier period.

The improved results for fiscal year 1990 were principally due to the company's Mr. Submarine/MIAMI SUBS operations, including revenues from company-operated restaurants and franchise related revenues.

QSR's fiscal 1990 results include the full year's operations of its Taco Viva Mexican food restaurant business, which was sold on May 25, 1990. The company's future operations will consist solely of the development and franchising of the Mr. Submarine/MIAMI SUBS restaurant concept.

The company currently operates two Mr. Submarine/MIAMI SUBS restaurants, is the franchisor of 21 restaurants, and is actively negotiating leases for several additional restaurants in Florida, which would be converted to MIAMI SUBS restaurants.

On Sept. 5, 1990, QSR announced the appointment of C. Ronald Petty, the former president and chief operating officer of Burger King Corporation, to the position of president and chief executive officer of the company. Under the direction of Gus Boulis, QSR's chairman, and Ronald Petty, president, the company intends to expand the MIAMI SUBS restaurant concept throughout the United States.

CONTACT: C. Ronald Petty, president, or Donald L. Perlyn, senior vice president, of QSR, 305-772-4224, or Mark Starr, 212-661-8030 or after 7 p.m. 516-783-4391, or Stephanie Rohlin, 312-266-7800, both of the Financial Relations Board for QSR

LOS ANGELES (SEPT. 11) PR NEWSWIRE - "Lenny," the new half-hour comedy

series on CBS starring Lenny Clarke, posted impressive ratings during its premiere telecast Monday, Sept. 10, winning its time period and garnering the highest rating and share of any CBS show for the evening.

A Witt-Thomas Production in association with Touchstone Television, "Lenny" scored a 12.8 rating, 21 share, according to the national Nielsen ratings, representing a 33 percent rating increase and 24 percent share increase over programming in that time slot for the previous four weeks. It also represents a 13 percent rating increase and 5 percent share increase over the show's lead-in, "Uncle Buck."

"Lenny" begins airing in its regular Wednesday, 8 p.m. (EDT/PDT) time period on Sept. 19.

The series showcases the sharp wit and common-sense wisdom of one of the country's brightest comedic talents, Lenny Clarke, whose rapid-fire commentaries on life and its absurdities have been embraced by nightclub audiences for years.

Set in Lenny's real-life hometown of Boston and paralleling many of the comedian's personal experiences, the series focuses on Lenny Callahan (Clarke), a modern Everyman whose lower-middle class life presents him with a never-ending series of ups and downs to make ends meet. When financial and family concerns mount, Lenny takes direct aim and fires the heavy-humor artillery.

"Lenny" also features a talented ensemble cast including Lee Garlington as Lenny's supportive and loving wife, Shelly; Eugene Roche as his headstrong father, Pat; Alice Drummond as his independent mother, Mary; Peter Dobson as Lenny's slick (but not too swift) brother, Eddie; Jenna von Oy plays Lenny's materialistic and feisty 13-year-old daughter, Kelly; and, Alexis Caldwell is his anxiety-prone, 10-year-old daughter, Tracy.

Paul Junger Witt, Tony Thomas and Don Reo are executive producers. "Lenny" is produced by Witt-Thomas Productions in association with Touchstone Television for CBS.

CONTACT: Jan Fisher or Pam Ruben Golum (in Los Angeles), 213-965-1990, or Marisa Spitz or Barbara Tollis (in New York), 212-986-7080, all of The Lippin Group, for Touchstone Television

LOS ANGELES, (SEPT. 11) PR NEWSWIRE - Academy Award winning actress Jodie Foster has entered into a long-term relationship with Orion Pictures, it was announced by Marc Platt, president of production.

The two-year, first-look agreement calls for Foster to star in, direct, and/or produce motion pictures for Orion. The pact becomes effective Oct. 21, following the completion of Foster's directorial debut on Orion's "Little Man Tate," in which she also stars with Dianne Wiest, Harry Connick Jr. and Adam Hann-Byrd.

Also for Orion, Foster stars in the psychological thriller, "The Silence of the Lambs," directed by Jonathan Demme, scheduled for release in early 1991.

Foster, who won an Oscar in 1988 for her performance in "The Accused," has been acting for over 20 years, since age seven. She has starred in such films as "Bugsy Malone," "Alice Doesn't Live Here Anymore," "Taxi Driver" (for which she was Oscar-nominated), "Foxes," "Carney," "The Hotel New Hampshire," and, more recently, "Five Corners" and "Stealing Home."

In announcing the agreement, Orion's Platt stated, "Jodie Foster is one of the screen's most gifted and versatile actresses, and now, an exciting new director. We're thrilled to have her as part of the Orion family."

Foster is the latest talent to be brought into Orion's creative fold by Platt, who recently signed overall deals with Alec Baldwin and directors Phil Joanou ("State of Grace") and Frank Oz.

NEW YORK (SEPT. 11) TASS - AMERICAN AND SOVIET BUSINESS EXECUTIVES AND MILITARY OFFICIALS SAT DOWN ON MONDAY AT A MAJOR U.S.-SOVIET BUSINESS CONFERENCE AT THE ACADEMY OF ARTS AND SCIENCES IN CAMBRIDGE, MASSACHUSETTS TO DISCUSS WAYS THE COUNTRIES COULD WORK TOGETHER TO IMPROVE TECHNOLOGIES AND RESOURCES.

THE THEME OF THE TWO-DAY CONFERENCE, "SWORDS INTO PLOWSHARES, THE NEW SUPERPOWER REALITY," AIMS TO GIVE AMERICAN AND SOVIET OFFICIALS AN OPPORTUNITY TO DISCUSS HOW TO MAINTAIN THEIR INDUSTRIAL GROWTH WHILE CUTTING MILITARY PRODUCTION.

GOVERNMENT ADMINISTRATORS AND RESEARCHERS DISCUSSED HOW INDUSTRIES CAN BE CONVERTED FROM MILITARY- TO CIVILIAN-BASED PRODUCTION. THEY AGREED TO FOCUS ON CONSUMER GOODS, TELECOMMUNICATIONS, ENVIRONMENTAL PROTECTION, AND HEALTH CARE. FURTHER DISCUSSIONS TODAY WILL CENTER AROUND HOW SOVIET COMPANIES CAN WORK DIRECTLY WITH AMERICAN COMPANIES IN PURSUING ECONOMIC GOALS.

THE CONFERENCE HAS DRAWN EXPERTS FROM DIFFERENT FIELDS, INCLUDING

TELECOMMUNICATIONS, SPACE, AVIATION, MANUFACTURING, RESEARCH AND DEVELOPMENT, AND GOVERNMENT. HEAD OF THE SOVIET DELEGATION ANDREY KOKOSHIN IS FROM THE SOVIET ACADEMY OF SCIENCES.

THE CONFERENCE WAS ORGANIZED BY THE INSTITUTE FOR DEFENCE DISARMAMENT STUDIES (IDDS). THROUGH THE CONFERENCE, IDDS "WILL HERALD THE DAWNING OF A NEW ERA IN WHICH THE MIGHTY DEFENCE INDUSTRIES OF THE SUPERPOWERS ARE REDIRECTED TOWARD MEETING THE NEEDS OF THE HUMAN RACE AND OUR PLANET".

(SEPT. 11) UPI - Iraq Monday offered Third World countries free oil... if they ship it themselves. An Iraqi spokesman said the offer does NOT violate the U- N embargo against Iraq because the oil is free. But the White House responded that the embargo applies to free goods as well as those which are bought. Crude oil prices on world markets dropped today.

Britain Monday added its voice to calls for Japan to kick in more money for the effort to isolate Iraq. Japan announced its one-BILLION dollar contribution last month after a drawn-out domestic debate. But the United States has reportedly asked for twice that amount. British Foreign Secretary Douglas Hurd said Japan's contribution is ''a good start.''

Negotiators say they disagree on almost every point of a plan to reduce the national deficit. White House and congressional budget negotiators met only briefly Monday. They spent most of the day talking in party meetings. An aide to a Democratic negotiator says Republicans cling to what he called a capital gains ''tax break for the wealthy.'' A Republican aide said the G-O-P is waiting for the Democrats.

A man who was released from prison after setting fire to his son went back to prison in San Quentin, California, Monday. Charles Rothenberg was paroled in January after serving half of a 13-year prison sentence for attempted murder and arson. He was convicted of setting fire to a motel room where his six-year-old son was sleeping. Officials say Rothenberg violated his parole by misleading agents assigned to keep him from contacting his son.

#90254u0239 09/11/1990 ~United Press International

(SEPT. 11) UPI - The United States called Iraqi President Saddam Hussein's offer to supply the Third World with free oil a sign of desperation, while Secretary of State James Baker asked NATO countries to send ground troops to the Persian Gulf region.

The Iraqi News Agency INA reported Iraq and Iran had restored diplomatic ties two years after the end of bitter 1980-1988 gulf war and weeks after Iraq, seeking allies where it can find them, announced it would return Iranian prisoners of war and respect Iran's borders.

Saddam, unable to sell his crude because of U.N. sanctions imposed after Iraq's Aug. 2 invasion of Kuwait, made his oil offer Monday.

''We declare we are prepared to supply Third World countries with oil free of charge,'' an Information Ministry spokesman said on Iraqi television.

White House press secretary Marlin Fitzwater said the U.N. sanctions do not ''delineate between free exchanges or those paid for.''

''If it's paid for or not, that's irrelevant and another indication of the desperation he is showing,'' Fitzwater said.

The press secretary called Saddam's offer ''a transparent attempt to deflect the focus of world attention from his blatant aggression against another country.''

''It is an affront to all countries for Saddam to think that they would sacrifice the principles of freedom and non-aggression for the Iraqi oil or the oil that he has taken through his naked aggression against Kuwait '' he said.

Saddam's offer - made a day after President Bush and Soviet President Mikhail Gorbachev declared they would work together to pressure Iraq out of Kuwait - was described as an act of solidarity with Third World nations whose economies were being hurt by oil prices driven high by the Persian Gulf crisis.

The Information Ministry spokesman said countries should apply to Iraq indicating the quantity and type of oil they want, and should then send their own ships to fetch it because Iraq would not be able to transport it.

A Western diplomat in Cairo called the offer ''a ploy'' by Saddam to win support from poor countries.

But the offer was welcomed by Jordan, according to the INA. It quoted Jordanian Prime Minister Moudar Badran saying, ''The move will foil efforts by some oil companies and oil-producing states to manipulate the situation to harm the economies of the Third World countries.''

In Brussels, Baker asked foreign ministers of NATO countries meeting Monday to step up sanctions against Iraq and send ground troops to the gulf region to bolster the multinational force assembled to counter Iraqi aggression.

He also asked the ministers to help Eastern European nations suffering economically because of the crisis.

NATO Secretary-General Manfred Woerner said the alliance's foreign ministers gave a ''favorable response'' to a long list of gulf aid requests from Baker, but gave no vows of additional ground forces.

European Community officials, also meeting in Brussels, said they may try to strengthen the embargo of Iraq by seeking U.N. sanctions against countries that fail to honor U.N. resolutions on Iraq.

Baker announced he would fly to Syria Thursday for talks about the gulf

crisis, despite U.S. criticism of Syria for supporting terrorism.

The secretary said Bush asked him to go to Damascus because Syria's opposition to Iraq's invasion of Kuwait graphically ''illustrates the isolation of Saddam Hussein.''

The U.S. secretary of state said he had received promises of aid from Saudi Arabia, Kuwait and the United Arab Emirates totaling $12 billion through the end of the year.

Half the money, or $6 billion, will directly offset costs of the U.S. military deployment, with much of it representing ''in-kind'' contributions like food and water. In testimony to Congress last week, Baker said the Pentagon's additional costs this year from the deployment would be about $6 billion.

Other money from the oil-rich states will go largely to helping Egypt, Jordan and Turkey, three countries particularly harmed by economic sanctions on Iraq.

SAN DIEGO (SEPT. 11) UPI - A fast-moving brush fire that apparently was sparked by gunfire damaged five multimillion-dollar homes Monday and consumed more than 2,640 acres in a horse ranching area of northern San Diego County.

The homes, each worth between $1 million and $5 million, were thought to have been destroyed less than three hours after the fire was reported about noon in the Del Dios-Lake Hodges area, but when the smoke cleared, fire officials found the flames only damaged the structures.

California Department of Forestry spokeswoman Carol Stein said the most serious damage was a portion of a roof that caved in over a family room in one of the homes.

''We saved 30 or 40 homes,'' she said.

About 175 residents and scores of horses were evacuated, and the Del Dios Highway was closed. Three vehicles and two bulldozers were destroyed by the flames, and one firefighter injured a knee.

Most of the residents were allowed to return to their homes late in the afternoon.

Stein said the fire was 35 percent contained about 10 p.m. with full containment predicted for 6 p.m. Tuesday. There was no estimate of a time for control.

Officials said the fire was caused by some type of gunfire, but had no details.

About 600 firefighters from state and local departments battled the blaze, but were hampered by steep canyon terrain and temperatures soaring past 100 degrees.

The blaze at first spread quickly, moving from 50 acres at 2 p.m. to 1,500 acres by 3:40 p.m. Because winds were light, thick smoke from the fire rose up in a giant column visible from at least 20 miles away.

As late afternoon winds shifted in from the coast, the smoke spread easterly along canyons and valleys, prompting the Air Pollution Control Board to issue an air quality alert warning children and elderly people to stay indoors.

Animal rescue crews transported 25 Arabian horses from a breeding farm located in the heart of the fire.

More than 100 animals - mostly horses and donkeys - were rounded up for transport to a Humane Society shelter in Poway, but the fire blocked their path. The animals, instead, were moved to a boarding stable in Del Mar, where there is a thoroughbred race track.

A Red Cross emergency evacuation shelter for residents was set up at the Del Dios Middle School, but the shelter was closed late Monday after residents were permitted to return to their homes.

#90254u0283 09/11/1990 ~United Press International

(SEPT. 11) UPI - Don't count the Mets among the six of 10 New Yorkers who would rather live elsewhere.

The Mets, winning their eighth straight at home, did their part to make New York live up to its reputation as ''an exciting but dangerous place'' with a 10-1 pounding Monday night of the St. Louis Cardinals, led by Darryl Strawberry, who drove in three runs and scored twice.

''Being back at home gives me a feeling of comfort,'' Strawberry said.

A cover story in Time magazine headlined ''The Decline of New York'' said 59 percent of the city's residents would leave if they could and called it a place where violence ''is now lashing out randomly at anyone, anytime, even in areas once considered safe.''

The Mets, glad to be home after a 2-6 roadtrip that dropped them out of first place in the National League East, know better. Violence at Shea Stadium is reserved for the suprisingly fat pitches of visiting pitchers.

The Mets went 6-0 on their last homestand and grabbed a half-game lead over Pittsburgh. But then they went on the road, were swept in a three-game series by the Pirates and fell 3 1-2 back.

The victory begins a 10-game homestand that Manager Bud Harrelson calls ''vital.'' They are 47-22 at home.

Away from Shea, the Mets' offense has sputtered. They managed only four runs in six losses on their most recent trip.

''At home we seem to score early but on the road we just don't,'' Strawberry said. ''It's nice to get going in the right direction.''

Frank Viola, 18-9, scattered seven hits over eight innings while giving up one run, no walks, and striking out six.

''I gave them seven hits spaced out a little bit and no walks and made them earn whatever they got,'' Viola said.

Jose DeLeon, 7-16, lasted 5 1-3 innings, giving up eight hits and five earned runs. He walked two and struck out one.

Leading 1-0, the Mets took control with a three-run fourth. Dave Magadan led off with a single and Strawberry hit the first pitch over the center field wall for his 32nd home run of the season. Kevin McReynolds and Howard Johnson hit consecutive singles. McReynolds went to third on a flyout by Boston and scored on Mackey Sasser's RBI groundout.

''Strawberry is hot at just the right time for the Mets,'' St. Louis Manager Joe Torre said. ''How he hits will determine if the race goes to the wire or not.''

Elsewhere in the National League, the Mets downed the Cardinals 10- 1, The Pirates shanghaied the Phillies 3-2, the Expos knocked off the Cubs 7-4, the Padres stumped the Dodgers 5-2 and the Giants dropped the Braves 7-6 in 10 innings.

In the American League it was: Cleveland 3, Chicago 2 in the first game of a double header and Chicago 6, Cleveland 2 in the second; Boston 5, Milwaukee 4 in the first game of a double-header and Milwaukee 6, Boston 1 in the second; Texas 1, New York 0, in 11 innings; Detroit 8, Baltimore 0; Toronto 6, Kansas City 1; Seattle 5, Oakland 2; and California 3, Minnesota 1.

-- AROUND THE NL --

Pirates 3, Phillies 2

At Philadelphia, Bobby Bonilla's ninth-inning sacrifice fly scored Wally Backman and lifting the Pirates to their eighth win in 10 games. Joe Boever, 3-6, took the loss after walking Backman to open the inning. Stan Belinda, 3-4, went the last 1 2-3 innings for the Pirates and held off a

Phillies' threat in the eighth.

Expos 7, Cubs 4

At Chicago, Tim Wallach hit a pair of RBI singles, including the tie-breaker in the fifth, to spoil Mitch Williams' first National League start, lifting Montreal. Rookie Chris Nabholz, 5-0, won his fourth straight game despite falling behind 4-1 after two innings. Tim Burke came on with two out in the ninth to notch his 18th save.

Padres 5, Dodgers 2

At San Diego, Garry Templeton went four-for-four and pinch-hitter Phil Stephenson drove in the winning run with a fielder's choice in the seventh leading the Padres. The Dodgers are six games behind Cincinnati in the NL West. Juan Samuel hit two home runs for the Dodgers, giving him 10. Dennis Rasmussen, 10-13, went seven innings. Tim Crews, 2-5, surrendered two runs and three hits in one inning.

Giants 7, Braves 6, 10 innings

At San Francisco, pinch-hitter Robby Thompson's bunt single with one out in the 10th inning scored Kevin Mitchell to lift the Giants. Kent Mercker, 4-5, took the loss. Steve Bedrosian, 8-8, pitched the 10th inning for the victory.

#90254u0302 09/11/1990 ~United Press International

NEW YORK (SEPT. 11) UPI - The three teenagers convicted of beating and raping a jogger in Central Park will receive tough sentences, possibly the maximum available for juveniles, news reports said Tuesday.

The teens, who were convicted Aug. 18 in the brutal crime that horrified New Yorkers and added to racial tension in the city, were scheduled to be sentenced Tuesday in state Supreme Court in Manhattan.

The Daily News and WNBC-TV reported Justice Thomas Galligan would throw the book at the three, Antron McCray, Raymond Santana and Yusef Salaam, all 16.

If given the maximum term of five to 10 years, they would be eligible for parole after five years.

The trio were convicted of rape, riot, robbery and assault in the April 19 1989, attack on the 30-year-old investment banker, and two others.

Meanwhile, two other defendants, Kharey Wise, 18, and Kevin Richardson, 15 - both of whom made videotaped statements about their involvement in the explosive case - will be tried together, with jury selection to begin Oct. 11, Galligan ruled Monday.

A sixth youth, Steve Lopez, who was fingered by the other defendants as the ringleader of the pack that went ''wilding'' through Central Park the night of the vicious attack, will be tried next year.

A large number of letters have poured into Galligan pleading with him to be lenient with the youths, but according to newspaper and television reports, the judge is expected to give the three the maximum terms available as juveniles.

Galligan also could allow the youths to be sentenced in Family Court, if he chose, where more lenient sentences are generally handed out. Attorneys indicated such a move was unlikely.

The youths were tried as adults, but must be sentenced as juveniles because they were under 16 at the time of their arrest.

All three youths are being held without bail in juvenile detention centers and will serve at least part of their sentence in juvenile prisons in upstate New York. They must be transferred to adult state prison at 21 but could be sent there sooner, depending on their behavior.

At the request of their families, two of the young men will have new lawyers during their sentencing and appeals. McCray will be represented by activist attorney C. Vernon Mason; Salaam's case will be handled by civil rights attorney William Kunstler.

The rape and beating of the Wall Street worker initially shocked the city, but polarized blacks and whites during the trial of the three youths. McCray and Santana both made videotaped statements about their involvement in the attack, while Salaam made statements to police, telling them the attack ''was fun.''

Nevertheless, their attorneys had argued that the statements were coerced, and that police rounded up the black youths indiscriminately, in a rush to bring the explosive case to a conclusion.

The victim - whose identity has generally been shielded from the public - was attacked as she went on a late-night run through Central Park, and then was left bloody and near-death for some four hours in a muddy gully off the jogging path.

She appeared as a prosecution witness against the three youths, but was unable to remember a single detail of the attack.

#90254u0317 09/11/1990 ~United Press International
(SEPT. 11) UPI - The Blue Jays are on a roll and the Red Sox are getting nervous.

One week ago Monday American League East-leading Boston held a 6 1- 2 game lead over second-place Toronto. After Monday night's 6-1 victory over the Kansas City Royals and Boston's split double-header with Milwaukee, Toronto is behind only four games, and Boston is concerned.

''There's no runaways,'' Boston manager Joe Morgan said. ''Everybody's been telling me how the Blue Jays are fighting among themselves and how they're all done. I don't buy it for a second.''

''It appears (Toronto's) never going to lose again,'' said Boston's Mike Marshall. ''We caught them at a down time, but in the last week they've come right at us.''

The Blue Jays have won five in a row, outscoring their opponents 25-6 during the string.

Both Boston and Kansas City gave credit to Toronto pitcher David Wells, 11-4, for the latest win. Wells allowed four hits over eight innings, striking out two and retiring the last 17 batters he faced. Wells refused to make self-aggrandizing comments in describing his performance.

''It was just going out there and throw the stinking ball,'' Wells said. ''I didn't know how many I'd gotten out in the row or anything. I just wanted to go out and pitch fast. I didn't want the fielder to get back on their heels or anything.''

Royals manager John Wathan was more generous.

''David Wells was outstanding,'' Wathan said. ''He pitched well against us before and has pitched well for them since they put him in the starting rotation.

''We didn't hit the ball well tonight but it was also a lot of David Wells.''

Wells gave up consecutive doubles to Brian McRae and George Brett in the first inning for the Royals only run, but allowed just two singles the rest of the way. He did not walk a batter and did not allow a baserunner after McRae reached on a fielder's choice two outs into the third inning.

''It's been along time since that happened, probably back in high school '' Wells said.

Wells was backed up by Kelly Gruber, who batted in four runs for a total of 96 this season. All of his RBI came off Royals starter Hector Wagner, 0-1, who was making his major league debut.

In other American League action, Texas blanked New York 1-0 in 11 innings, Cleveland edged Chicago 3-2 in the first game, Chicago defeated Cleveland 6-2 in the second, Boston shaded Milwaukee 5-4 in the first game, Milwaukee pounded Boston 6-1 in the second, Detroit pummeled Baltimore 8-0 Seattle beat Oakland 5-2, and California dropped Minnesota 3-1.

In the NL it was: New York 10, St. Louis 1; Pittsburgh 3, Philadelphia 2; Montreal 7, Chicago 4; San Francisco 7, Atlanta 6 in 10 innings; and San Diego 5, Los Angeles 2.

-- AROUND THE AL --

Rangers 1, Yankees 0, 11 innings

At New York, Rafael Palmiero's two-out single scored pinch-runner Kevin Belcher in the 11th inning to send the Texas Rangers to their sixth

straight victory. Left-hander reliever Kenny Rogers, 8-5, hurled 2 1-3 innings of one hit ball to pick up the win. Gary Mielke started the 11th and was touched by a leadoff single but induced Steve Balboni to hit into a double play.

Indians 3, White Sox 2, 1st game
White Sox 6, Indians 2, 2nd game

At Cleveland, Carlton Fisk homered and drove in three runs and Eric King won for the first time in over two months to help Chicago record a 6-2 victory over Cleveland and a split of their double-header. In the first game, Carlos Baerga walked with the bases loaded and one out in the ninth to give Cleveland a 3-2 victory. King improved to 9-4. Bobby Thigpen earned his 49th save of the season. Cleveland starter Charles Nagy fell to 0-3.

Red Sox 5, Brewers 4, 1st game
Brewers 6, Red Sox 1, 2nd game

At Boston, Greg Vaughn stroked a two-run double in the ninth lifting Milwaukee to a 6-1 victory over Boston and a split of their double-header. In the opener, Luis Rivera's two-run double ignited a four-run fourth inning, which carried the Red Sox to a 5-4 triumph over the Brewers. Milwaukee moved ahead 1-0 against Dana Kiecker, 6-8, in the second inning of the nightcap on Dave Parker's homer, his 21st, into the first row of the right-field seats.

Tigers 8, Orioles 0
